Meanwhile a Republican representative, Kenneth Keating, suggested a congressional committee investigation to determine whether the AEC acted properly in barring Condon from witnessing the bomb blast.

POLITICAL SUICIDE

Condon, a freshman California representative, said in an interview Monday the commission's action could mean "political suicide" to him unless it was thoroughly understood in his home district. He said he will take the floor of the House of Representatives this week, "to make a full and public statement as to my position."

He said former chairman of the AEC, Gordon Dean, later admitted "some sort of mistake" and added "my status with the commission now is the same as any other member of this Congress."

The Herald Tribune dispatch said it was learned Monday that the military had been checking on Condon.

It said authoritative sources disclosed copies of the alleged FBI file on Condon, made available to the AEC, have been under study by the military.

NAVY CHANGED MIND

The story said:

"Officials were close-mouthed about it, but this much is known:

"The navy at one point thought of cancelling a ship-launching ceremony at which Condon was the speaker because it had received the same information the AEC had. The navy changed its mind."

The launching of the minesweeper Bluebird went off on schedule May 11—six days after Condon had been told he could not see the atom test.

The Herald Tribune story referred to Condon's statement that his status with the AEC is now the same "as any other member of this Congress," and said:

"This statement was contradicted subsequently by a source in a position to know, who said that Condon would still be barred from attending an atomic test."

Last Of Family Edith Curry Funeral Held

OMEMEE (ENS)—The funeral service was held Sunday afternoon in Christ Anglican Church for the late Miss Edith May Curry who died in Peterborough hospital Wednesday at the age of 88 after an illness of about three years.

The service was conducted by the rector, the Rev. Charles Richard. Burial was in Emily cemetery.

Pallbearers were two grandnephews, Benson Clark of St. Catharines and Ernest Walker of Coldwater, and Howard Bent, Vincent Cornwall and Arthur and George Stephenson of Omemee.

The last of a family of five girls and three boys, children of William Henry and Susanna Curry, early Irish settlers, Miss Curry was the oldest life-long resident of the village. With her death the Curry name ceases in Omemee.

Only two of Miss Curry's survivors live in Omemee—a niece and nephew, Hilda and Fred Clark. The large, well-built home with which her parents replaced their first dwelling survives as a monument to the name of Curry.

At the funeral were relatives and friends from Coldwater, Minden, Orillia, St. Catharines, Peterborough, Brockville, Richmond Hill, Toronto, Lindsay, Belleville and Buckhorn.

To Double Assistance

LA PAZ, Bolivia (Reuters)—The mutual security agency has recommended doubling its program of technical assistance to Bolivia, the United States embassy here announced Monday night. The increased aid would help to speed up Bolivian agricultural development and reduce the country's industrial dependence on tin.

"Winslow Boy" Given First Rate Performance

By T. J. ALLEN

Hurrah! At last, in its third week, the Summer Theatre gives us the goods. First week, 'Nina'—oh so boring. Second week, a Noel Coward—ho-hum and wag-sag. Now—wonderful change—a good play, well mounted, excellently cast, sensitively done and dramatically entertaining. The first-night audience gave 'The Winslow Boy' seven curtain-calls, and it deserved them.

Terence Rattigan's play is well known through its movie version if not locally in its original stage form, so there is no need here to sketch the plot. No mugging, no smarty-pants snugging. Good humour, good wit, skilful plot construction and good gobs of good sentiment and honest drama on the theme, 'Let right be done.'

Director Robert Gill and all the cast give fine interpretations and characterizations. The climaxes and mood changes are carefully prepared and come off right. The stage looks well and the details (like the telephone) are proper. Costumes are 1910-ish and the ladies' hats are wonderful.

WINSLOW FATHER

David Powell takes the major role of Arthur Winslow, father of the maligned naval cadet. It is a difficult part, especially in the second act, where he is immobile, and the playwright deprives him of the dramatic centre in which he was cast in the beginning. Mr. Powell fully establishes Arthur Winslow's character and motives, and is no less credible in the second act, but does not quite sustain our intensity of interest. The limelight has shifted to the great barrister.

Brenda Davies plays Mrs. Winslow, and as mother of the boy gives a moving portrayal, exquisitely sensitive, feminine as well as maternal. Her reading of the damning letter makes even manly eyes moist. The creation is a beautiful blend of tenderness and sensibility.

The 14-year-old boy is played by Jamie Cunningham. He looks, acts and sounds exactly as the Winslow boy should, and does it all with considerable skill.

Barbara Cummings is Catherine Winslow, the elder sister. Hers is an attractive appearance and performance. She acts with fine clarity and discretion, helping to create the cohesion which the company gives this performance. Her passages with barrister Sir Robert Morton are very good indeed.

The rewarding role of Sir Robert is taken by Harry Geldard, and here again is a superior performance. Mr. Geldard plays this important part with debonair ease and where necessary with great force.

SUPPORTING ROLES

In this play the maid is more than a cipher—she has several crucial passages. Marcia Diamond, clear and definite in her type role, made the part as significant and warm as it is. Ronald Bailey, whom we have become used to seeing as an old man, was delightfully fresh, light and twenty-one as brother Dickie Winslow. Roger Davis took the part of John Watherstone, Catharine's betrothed. Apart from some uneasiness, he did well by the part. Charlotte Schrager amused the audience as the female reporter and Doug. Henderson was an amusing caricature of a press photographer of the period.

A special word about the solicitor Desmond Curry, played by Robert Gill. The cameo of his proposal in Act 2 was as excellent a piece of character acting as I have seen on a Peterborough stage. Beautifully done, real art.

I heartily recommend 'The Winslow Boy' to all comers, young and old, straight-laced and sophisticated.

Rev. C. Richmond Gets Call To California

OMEMEE (ENS) — The Rev. Charles Richmond who has been rector of Christ Anglican Church, Omemee, and St. James, and St. John, East Emily, for the past two years, has accepted a call to St. Andrew's Episcopal Church, Elsinore, California, USA.

He, with his wife and two boys, Rollin and David came to Omemee from Kenya Colony, East Africa, where he and Mrs. Richmond had served as missionaries since 1935. Much of their work was with the Masai tribe where they started a native church and ministry.

Mrs. Richmond who was an American missionary, has relatives in Los Angeles, a sister teaching school in Inglewood, and a grandmother who recently celebrated her 103rd birthday.

Sunday, Mr. Richmond delivered farewell messages to his three congregations. At the conclusion of morning service his Omemee parishioners presented him with a purse of money.

Mrs. Richmond was twice honored by the women's organizations. On Thursday, at the home of Mrs. W. J. Reeds, the Women's Guild presented her with a silver maple leaf pin and matching earrings, and Saturday evening at the home of Mrs. H. V. Smith she received a travelling purse from the Woman's Auxiliary. They also had tokens of appreciation from the other two congregations.

They left today from Malton airport.

Mr. Richmond's successor will be the Rev. A. W. Smith from Gore's Landing, who is to come in September.

Braced For Flood

CALCUTTA (Reuters) — Floodwaters raced toward Burdwan, a city with 70,000 inhabitants, 70 miles north-west of Calcutta. Level of the Damodar river near the city last night jumped to 17 feet, a foot below danger level, and residents are keeping a 24-hour watch on the river.

Three-Dimensional TV Long-Term Issue

LONDON (Reuters) — Three-dimensional television "appears to be a long-term issue," a government advisory committee on TV reported today.

In a brief mention of the possibilities of stereoscopic television in a lengthy technical report, the committee said no technique has yet been established.

The experts saw better prospects for color TV in Britain, but urged that any color transmissions should be capable of being received in black-and-white for people not owning receivers designed for color. It forecast no date for the adoption of color TV IN Britain.

Dies From Injuries In Car Accident

BROCKVILLE (CP) — Thomas McMillan, 26, of Brockville died in hospital Monday night from injuries suffered in a traffic accident Monday.

He suffered head injuries when thrown from his car when it went out of control in a heavy rain storm.

KAI HOECKE, who operates a poultry farm in Campbellford, was surprised Monday morning when he inspected some newly-hatched chicks. One of the chicks had four legs. This was the first time he had seen such an oddity in the nine years he has operated his farm and has seen three quarters of a million chicks hatched. He could offer no explanation, remarking it was just one of nature's freaks.

Stengel Names All-Star Squad

CHICAGO (AP)—The American League's 25-man squad for the all-star baseball game at Cincinnati July 14 has been announced by Casey Stengel, manager of New York Yankees.

Stengel, who will pilot the American Leaguers because he led the Yanks to the last flag, named a six-man pitching squad. The hurlers are Mike Garcia and Bob Lemon of Cleveland, Satchel Paige of St. Louis, Billy Pierce of Chicago, and Allie Reynolds and Johnny Sain of New York.

The game's starting lineup, chosen by fans in the country-wide poll which ended Friday, also was announced. The eight starters are:

Mickey Vernon, Washington, first base; Billy Goodman, Boston, second base; Al Rosen, Cleveland, third base; Chico Carrasquel, Chicago, shortstop; Gus Zernial, Philadelphia, left field; Mickey Mantle, New York, centre field; Hank Bauer, New York, right field; and Yogi Berra, New York, catcher.

Stengel's other selections, which rounded out the 25-man squad, were:

Infielders: Ferris Fain, Chicago; Nelson Fox, Chicago; Bill Hunter, St. Louis; George Kell, Boston; Harvey Kuenn, Detroit; Johnny Mize, New York; Phil Rizzuto, New York; Eddie Robinson, Philadelphia.

Outfielders: Larry Doby, Cleveland; Minnie Minoso, Chicago.

Catcher: Sam White, Boston

The National League's squad for the annual contest is to be named tonight.

Baby Suffocates

TORONTO (CP)—A two-week-old baby girl daughter of Peter Bennett, Toronto Argonaut football lineman and Mrs. Bennett, was found dead in her carriage late Monday. Authorities said death was due to suffocation.

Larger Income Tax Exemptions Favored

MONTREAL (CP) — Henri Courtemanche, Progressive Conservative member for Labelle in the last House of Commons said Monday night the Progressive Conservative party favors larger income tax exemptions.

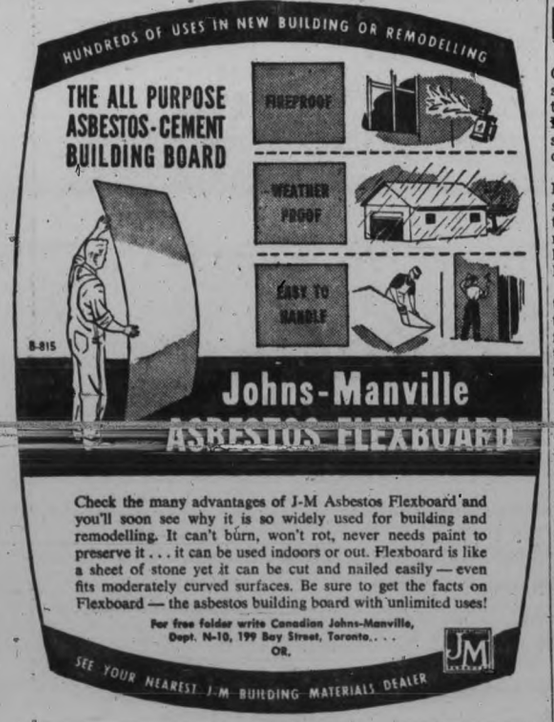
At a rally in support of Jean-Paul Boisjoly, Progressive Conservative candidate in the Montreal-St. Mary riding, Mr. Courtemanche reviewed the platform of his party and of its leader, George Drew.

"I am authorized by Mr. Drew to announce here this evening that the Progressive Conservative platform favors tax exempt wages up to $3,000," he said. Exemptions now amount to $1,000 for single and $2,000 for married persons.

The Progressive Conservatives also wanted to increase the tax exemption for each dependent to $400 from $150. These exemptions could easily be made possible by compression of present expenditure, which, he said, have reached an unprecedented level.

Man Found Dead In Hotel Room

ST. CATHARINES (CP)—David Richie, 47, of Toronto was found dead Monday night in his hotel room here.



His body was found by hotel authorities who investigated when he failed to make an appearance Monday.

Police said death was due to natural causes.

Canadian Soldier Killed In Korea

WASHINGTON (AP)—The U. S. Army said today that Pfc. Joseph Levesque of Kapuskasing, Ont., a Canadian serving with the American army, was killed in action in Korea June 11.

His parents, Mr. and Mrs. Philippe Levesque, Kapuskasing, were notified June 22.

Check the many advantages of J-M Asbestos Flexboard and you'll soon see why it is so widely used for building and remodelling. It can't burn, won't rot, never needs paint to preserve it . . . it can be used indoors or out. Flexboard is like a sheet of stone yet it can be cut and nailed easily — even fits moderately curved surfaces. Be sure to get the facts on Flexboard — the asbestos building board with unlimited uses!

make HELLMANN'S MAYONNAISE best you ever tasted!

Your very first taste will tell you that Hellmann's Real Mayonnaise is always just right—not too tart, not too sweet!

That's because Hellmann's is the mayonnaise that's made with whole eggs, freshly broken. What an important difference that makes to the flavour!

Add to that "Fresh-Press" salad oil, choice vinegar, spices and extra egg yolks. There you have the whole secret behind the flavour-packed smoothness of Hellmann's superb Mayonnaise.

Try Hellmann's Real Mayonnaise today . . . and see for yourself why any salad, sauce or sandwich filling is at its supreme best when made with Hellmann's!

HELLMANN'S

The WHOLE-EGG Mayonnaise - So good so many ways!

Scout Jamboree For 2,000 Boys At Connaught

CONNAUGHT RANGES, South March, Ont. (CP)—These rolling rifle ranges near Ottawa will rock with the excitement of more than 2,000 Boy Scouts July 18 as they prepare for a week of outdoor fun at the second Canadian jamboree.

The boys—all first-class scouts and between 14 and 18 years old—come from all across Canada. An international touch will be added by scouts from the United States, Cuba and Central America. The first jamboree was held here in 1949. Plans for this one started immediately following the first.

The jamboree will be officially opened July 20 by Governor-General Vincent Massey, in his capacity as Chief Scout for Canada. Mr. Massey will make a tour of the camp and see the boys at work.

MINIATURE CITY

These big ranges will take on the appearance of a miniature city for the jamboree.

In addition to a ally newspaper written by the scouts and printed by an Ottawa company, there will be a post office, a bank, a 20-bed hospital with a full-time staff, three canteens, a police force, church services for all denominations, a sports arena complete with bleacher seats for the public and many other facilities.

Maj.-Gen. D. C. Spry, chief executive commissioner of the Boy Scouts Association, said in an interview that the jamboree would stress higher standards and quality. He said higher standards have increased the boy scout population in Canada to 150,000 from 92,000 in 1945.

Gen. Spry said the jamboree would also give the boys a chance to know boys of other provinces and would enable the scouts to see the national capital. A full program has been outlined for the week including swimming periods and tours of Ottawa.

No matter what province a scout comes from, he pays no more than $40 return train fare to attend the jamboree. Scouts from nearby provinces pay their own train fare and an additional $10 to help scouts from more distant provinces.

Acting on the old saying that an army marches on its stomach, some $30,000 will be spent on food for the week. In all some 60,000 meals wil be cooked by the scouts themselves over charcoal fires.

They should have plenty to eat. Already ordered are bread, 11,440 loaves; buns, 8,800; pastries 15,400; cereals, 2,640 boxes; potatoes 3.5 tons; fresh meats 5,610 pounds; canned meats 3,520 tins; vegetables 14,300 pounds; eggs 2,017 dozen, and milk 17,600 quarts.

ROYAL APPROVAL—The Duchess of Kent reads the inscription on the trophy as she presents it to America's Vic Seixas for his men's singles triumph at Wimbledon. Seixas defeated Denmark's Nielsen in the final.

Rotary Officers Installed

CAMPBELLFORD — (ENS) — Past president Harold N. Carr officiated at the installation of officers for the coming year at the Rotary Club Monday.

Mr. Carr stressed the fact that Rotary is first and foremost interested in service. The meetings and fellowship the members enjoy are merely a means to an end.

"The gospel of Rotary is service and tolerance," he said. Members were asked to observe the rules of honesty, decency and good citizenship.

Mr. Carr went on to say that it did not matter what color, race or creed a Rotarian may be. What matters is what are his personal convictions— what does he stand for? The man who works well with others in the service of his community, without suspicion or prejudice, fosters in his heart the ideal of service and fair dealing, carries the power which multiplied by the thousands of members around the world, is bound to exert an influence for the ultimate good of humanity.

Mr. Carr installed the following officers. Past president, Frank G. DeCarrol; president, Bud Davidson; vice-president, William McComb; secretary, Hilton Beatty; treasurer, Austin Putnam; directors, Dr. C. A. Bright and Leo Doherty.

Retiring president Frank DeCarrol was presetned with a past-president's pin by the new president.

Amelia Brook Ignores Thorncliffe Cloudburst

TORONTO (CP) — The trotters and pacers moved through a miniature cloudburst at Thorncliffe Raceway Monday but the going made no difference to a four-year-old mare named Amelia Brook.

Driven by Hugh McLean and owned by Mrs. Amelia Vincent of Oshawa, Amelia Brook won the $1,000 Orangeville Pace, feature attention.

Before the rain, Amelia Brook ran second to the favorite, High Lee Boy, in the sixth race, first head of the pace, and then came back after the cloudburst on a muddy track to capture the ninth race, the second heat.

Yesterday's Stars

By THE ASSOCIATED PRESS

Pitching: Allan Worthington, New York Giants, made his major league debut with a two-hit 6-0 victory over Philadelphia Phillies.

Batting: Dale Mitchell, Cleveland Indians, ran his hitting streak to 16 games with a double and two singles in Cleveland's 6-3 victory over Chicago.

Here And There In Sports

BY THE CANADIAN PRESS

BLACKWELL QUITS

PHILADELPHIA (AP) — Ewell Blackwell's attempted baseball comeback ended in failure Monday as New York Yankees' towering righthander went into voluntary retirement.

Blackwell, whose sizzling offerings earned him a variety of nicknames including "the buggy whip," left the Yanks for at least temporary exile from the major league world.

"Blackwell just decided it hurt too much when he tried to throw hard," said Yankee manager Casey Stengel. "He hopes a long rest will solve his problem."

The 30-year-old Blackwell's quiet fadeout was a far cry from his heyday with Cincinnati. Ewell was the bane of National League batters when he racked up 22 victories in 1947 on a Cincinnati ball club that finished fifth with a total of 73 wins.

The lanky hurler was hampered by a sore arm all this season. He was acquired by the Yankees last August after being waived out of the National loop. Blackwell contributed only one victory in five Yankee appearances in 1952.

He said he would rest at Tampa, Fla. until next spring and then try once more with the Yanks.

✦ ✦ ✦

REAY TO COACH COUGARS

VICTORIA (CP) — Billy Reay, former centre with Montreal Canadiens of the National League, has signed a two-year contract to coach Victoria Cougars of the Western Hockey League. Fred Hutchinson, Cougar's general manager, Monday confirmed earlier reports that Reay had been hired. Reay succeeds Ed Dorohoy.

✦ ✦ ✦

EZINICKI WINS ON LINKS

WINTHROP, Mass. (AP)—Hockey player Bill Ezinicki teamed with Ernie Doherty of Woburn to win the New England Professional Golfers Association pro-amateur tournament Monday with a low gross of 61. Ezinicki, a forward for Pittsburg Hornets of the American Hockey League in the winter, is summertime golf pro at Colonial Golf Club in Lynnfield.

✦ ✦ ✦

CANADIAN SHOOTS 33

BISLEY CAMP, Eng. (Reuters) —Officer Cadet E. L. Warner of Lennoxville, Que. shot a score of 33 Monday in the first open rifle competition for servicemen and veterans. Warner placed 10th in the Southern Railway competition, won by RAF Sgt. F. Brunt with 35.

✦ ✦ ✦

CHESS TEAM TO U.S.

LONDON (AP) — A formidable team of Russian chess masters—complete with a trainer—left the Soviet capital for the United States, Moscow radio reported Monday. World champion Mikhail Botvinnik heads the team invited to play in a tournament which begins in New York July 15. They will meet a team which includes the two top players in the U.S., Samuel Reshevsky and Reuben Fine.

✦ ✦ ✦

STOOPS—OOPS!

NORTHAMPTON, England (AP) —The touring Australian cricket team ran into a "casualty" in a match with the Northampton Monday and it was good for a laugh for the crowd of 10,000. Doug Ring, crack bowler for the Aussies, split the seat of his pants when he bent down to snap up a low catch. The match was held up while the sheepish Ring ran off the field for "first aid."

✦ ✦ ✦

A'S SELL PITCHER

PHILADELPHIA (AP) — Philadelphia Athletics Monday sold southpaw Dick Rozek to their Ottawa farm club in the International League. They also recalled Catcher Neal Watlington from Ottawa, because catcher Joe Astroth suffered a broken thumb in a week-end game.

Australians Win Easy Victory

LONDON (Reuters)—The Australian cricketers gained an easy victory over Northamptonshire, only unbeaten team in the county championships, on the losers' home ground Monday.

The Aussies won by an innings and 62 runs. Northamptonshire's batting was unusually weak. They scored 141 in their first innings and 120 in their second.

Close of play scores in first class matches:

Australians 323, Northamptonshire 141 and 120. Australians won by an innings and 62 runs.

Oxxford Univesrity 312 and 101 for five, Cambridge University 191.

Leicestershire 309 for eight declared, Sussex 60 for two. Rain restricted play.

Yorkshire 137 and 138 for six, Surrey 292.

Nottinghamshire 344 for six declared, Derbyshire 125 and 151 for five.

Somerset 168 and 80 for two, Hampshire 360 for five declared.

Middlesex 309 and 204 for five declared, Warwickshire 172 and 26 for one.

Gloucestershire 381 for six declared, Worcestershire 324 for two.

Glamorgan 154 and 109, Lancashire 258.

Bethany Triumphs

BETHANY (ENS).— The Bethany ballsters of the North Durham Baseball League took an 11-2 victory over the Peterborough Dodgers in a hard-hitting display here last week. Cam Rowan pitched good ball for the Bethany squad, with Challice his battery mate.

Bethany shoved over two runs each in the first and third innings, one in the second and six in a big fourth heat to settle the issue on solid bingles. The losers were limited to one run in the fourth frame and another two innings later.

CITY POACHER—Policeman John Elliott approaches a man sitting on the curb of Chicago's Randolph Street bridge, luring birds with a can of peanuts. One foot rests over the opening of a fluttering bag. He was arrested as a poacher under city regulations which prohibit trapping, snaring, or otherwise pilfering captured birds, beasts or reptiles on park property.

Burkemo, Torza Play For Title

BIRMINGHAM, Mich. (AP)—A pair of tenacious young battlers of the links, Walter Burkemo and Felice Torza, rang up last-ditch semi-final victories Monday, and they'll play for the 35th United States PGA golf championship.

Burkemo, of Franklin, Mich., fought from behind three times to eliminate Claude Harmon of Mamaroneck, N.Y., one up. He sank a 15-foot birdie putt on the final hole.

Torza outlasted a magnificent comeback by 45-year-old Jack Isaacs of the Langley air base in Virginia to win on the 39th hole.

Accident Fatal

SVENDBORG, Denmark (AP)—S. Longh collapsed from the heat in his garden last week and his glasses, caught on a branch above him as he fell, focussed sun rays onto his shirt, setting it ablaze. Neighbors found him after all his clothes were in flames. He died in a hospital today.

Ireland Downs Canadian Golf Team

PORTRUSH, Northern Ireland (Reuters)—Ireland defeated Canada's women's golf team seven to two Monday, with one draw, in an international match here.

The new British champion, Madelene Stewart of Fonthill, Ont., stroked brilliantly over the first nine holes to be out in 36 and three up—but was nosed out by one hole at the end of play by Irish champion Philomena Garvey.

Two weeks ago Miss Stewart beat Miss Garvey seven and six in the British championship final.

OTHER RESULTS

Other results: Mrs. R. McCann defeated Mrs. J. H. Todd of Victoria, one up; Miss M. G. Smyth defeated Barbara Davies of Victoria, five and four; Miss P. O'Sullivan defeated Daintry Chisholm of Montreal, seven and six; Miss B. Forster defeated Mrs. Graeme Pyke of Montreal, five and four.

Mrs. J. R. Beck and Miss Ada Mackenzie of Toronto, the Canadian captain, drew; Mary Gay of Waterloo, Ont., defeated Mrs. J. Fallon, two and one.

Foursomes: Miss Garvey and Miss Forster lost to Miss Stewart and Miss Chisholm, down; Mrs. McCann and Miss Smyth defeated Mrs. Pyke and Miss Davies, two up; Mrs. Beck and Mrs. Fallon beat Mrs. Todd and Miss Gay, one up.

OLD BUILDING

Oldest building in the Tower of London, the White Tower, was constructed between 1078 and 1098.

PERMA-STONE FRANCHISE

available for

Peterborough District

To a man interested in establishing a business with unusual sales and income potentialities in the building field, we have available the franchise for marketing Perma-Stone throughout the Peterborough area.

Perma-Stone is the original structural stone facing which has been used and endorsed by thousands of property owners in the United States for more than 25 years. It has been on the market in Canada for several years and has met with phenomenal success. Perma-Stone provides all the beauty, permanance of strength of genuine cut stone at a fraction of its cost.

Appointments to discuss this franchise may be arranged with Mr. Jack C. Jones, who will be at the Queen's Hotel, Peterborough, commencing Tuesday morning, July 7th.

Meet Cpl. Henry T. Bowen*

Driver-Mechanic of the Infantry

*Army trained, Corporal Henry Bowen's job as a Driver-Mechanic has allowed him to see a great deal of Canada. He has also served in England and the Far East. Proud father of three children, Corporal Bowen and his wife both agree on the many advantages of Army service.

Get Expert training in Automotive Trades

Young men interested in mechanics can learn skills in automotive trades when they serve with the Soldier-Tradesmen of the Infantry. Expert instructors give complete training in modern schools and with most advanced methods and equipment available.

Men like Cpl. Henry Bowen know how important their jobs in the Army are to Canada's safety. In the Army, they also know that they are building good sound futures for themselves. For soldier-tradesmen like Cpl. Bowen enjoy many advantages in our modern Canadian Army: excellent pay, financial security through long term service pensions, the best medical and dental care—outstanding chances for promotion. There are challenges and the job is a big and important one to all Canada.

You are eligible if you are 17 to 40 years of age, (skilled tradesmen to 45), and able to meet Army test requirements. Applicants should bring birth certificates or other proof of age when applying for interview.

Apply right away — for full information write or visit the Army recruiting centre nearest your home.

Your Local Reserve Force Armoury or No. 5 Personnel Depot, Artillery Park, Kingston, Ont., or No. 13 Personnel Depot, Wallis House, Rideau & Charlotte Streets, Ottawa, Ont.

STORY IN BLACK AND WHITE—Left, in acetate is a slimlined, striped, cool looking dress that features a neckline geared to the wearing of scarf accessories. Black gloves, belt, shoes, scarf, stripes, against white. Right, chalk white forms the background for black polka dots on cool acetate fabric cut on slim, flattering lines. New style jacket and collar are in black linen with red trim.

Casting Murton As Long-Haired Male

By MURIEL NARRAWAY
Canadian Press Staff Writer

LONDON (CP) — If Montreal's Lionel Murton has any beef about his acting career to date in London, it's just that he's been cast too often as a long-haired male.

"What wouldn't I give for a crew-cut," says the lanky, 38-year-old Canadian actor-writer, appearing since March in "The Red-Headed Blonde," a farcical comedy where he plays a long-locked producer with pointed beard, thick-rimmed spectacles and rose-pink shirt.

The role followed closely on the filming of Charles Dickens' "Pickwick Papers." As the poetic Snodgrass, Murton grew his hair to ear-tip length and bleached it blond.

"I got plenty of ribbing for that," he recalls.

HAS "ARTY" ROLE

Actually, the six-foot Canadian isn't too worried over his hair-do. He's enjoying his current part as an "arty" producer with a penchant for slapping and pinching his leading ladies.

The play's run depends on future bookings. London's theatre managements got a bad jolt in anticipating a rush of business at Coronation time. Murton says attendance in the last eight weeks at "The Red-Headed Blonde," on at the Vaudeville Theatre near Waterloo bridge, dropped to half the opening figure.

The slump, common to most theatres during the height of Coronation festivities, is attributed to the fact that Londoners stayed at home to avoid the rush to see the decorations. Nor did the country visitors have time or money for theatre trips.

Coronation eve the Vaudeville staged its own celebration—a special midnight performance for persons staying overnight in town to be early on the Coronation route. The show stretched into the small hours of June 2—the birthdate of both Yolande Donlan, the American-born leading woman and Murton.

The final curtain rose on a six-foot cake, on which the audience was invited to feast.

Murton figures he has been lucky since he landed in London after war-time service with the Canadian Navy. There have been few weeks he has not been working, or had a part in the offing. After "Pickwick Papers" finished last August, he started a series of radio broadcasts and spent Christmas moving into his first London home, a five-roomed flat.

He also appeared in "Scream in the Night," an unreleased movie about the passengers in an airliner forced down by fog. Stars are Margaret Rutherford and comedian Frankie Howerd.

Murton now is awaiting news on a radio series of episodes in the life of a Canadian bush pilot. If the series is accepted, he hopes to act the part of a French-speaking Canadian in half-hourly stories of an ex-RCAF pilot ferrying machinery to Canada's northwest.

Win Holiday Cash!

ENTER BLUE BONNET'S $10,000 CONTEST

Go *where* you want . . . *when* you want . . . this year! Over $10,000 worth of cash, Northern Electric "Sportsman" portable radios, and McBrine "Comet" Aeropack baggage, will be awarded to winners during this sensational contest! Send your entry with 2 end-flaps (with Good Housekeeping Seals of Approval) from Blue Bonnet packages or facsimiles, to *Blue Bonnet Sue, Happy Holiday Contest, P.O. Box 2120, Toronto, Ont.* Enclose your own name and address, and your grocer's. Complete contest rules at your grocer's. BB 583

THE GREEKS
HAVE A WORD FOR IT

. . . WE MEAN the magic word that tells a mule to get going. It probably worked better than usual, recently, when Greek mule-drivers had to transport into the isolated interior, roofing materials needed for the construction of refugee shelters. The government purchased 2,000 tons of aluminum for the purpose — and incidentally licked the transportation problem.

Another nice thing about aluminum's lightness is that a given poundage goes two to three times as far as with other metals. It often means that aluminum, with all its advantages, actually costs less, too. Aluminum Company of Canada, Ltd. (Alcan).

Home Facial Gets Rid Of Drooping Muscles

Do you yearn to get rid of the tired sag of drooping facial muscles, even if only temporarily? You can give yourself a "salon treatment" at home and do just that.

it claims, helps to wear away it claims, help to wear away puffiness, firm the contours, clear and brighten the skin, and stimulate, the circulation.

PROPER APPLICATION

But whether you use a brand-name contour corrective or an old, favorite recipe handed down from your grandparents' generation, proper application is important. Always keep your cotton well moistened to avoid undue friction. Begin each stroke with a firm pressure and lessen it as you move the cotton upward.

Start at the edge of the collar-bone and stroke up to the jaw-bone, covering each section of the neck in turn.

Secondly, follow the jaw line up the side of the cheek to the temple keeping close to the hairline. Repeat for the other side of the face.

Thirdly, start at tip of nose and stroke upward, continuing straight into the hairline. Go on to the forehead from there, with short, upward strokes, finishing with brisk strokes form the centre of the forehead horizontaly out to the temple.

"LIFT" EYELIDS

Now, stroke from outer corner of the mouth on up the side of the nose to meet the inner corner of the eye.

"Lift" uppper eyelids by stroking upward at the eyebrow. Avoid touching the eyelids themselves.

Finish your routine at the chin, by stroking from underneath up to the lower lip. Finally, make a circle around your mouth, starting at the centre of the chin.

Repeat each stroking movement three times.

Electric Blue A New Color

LOS ANGELES—Colors on the California scene are electric blue, golden beige and new tones of gray. Athena, who has a way with the easy-to-wear suit, prefers navy with femine touches of white for accent.

This designer also sponsors some completely new overtone hues. As in the blending of dark blue on light blue, beige on brown. Her fringe suit, gray fuesd with black, gives a tweed-like background to the short black pocket-fringe trim.

Unexpected touches of color are pink and olive green while charcoal is seen in all collections, is is black. The muted tones of taupe, wood rose, greige and ivory add a cool, fresh note.

Now Many Wear
FALSE TEETH
With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

Flower Show Theme To Be Coronation

President Clarence Porter announced at a special meeting of the district gladiolus show committee Monday evening that the coronation is to be theme of the 1953 flower show August 12-13. Special prize ribbons in coronation colors have been donated by vice president Clifford Brien, and a huge floral crown is to be designed by Mary Johns and Bev Campbell.

An outstanding feature of this year's show will be a song and dance follies presented by Judy Welch with a cast of 45. Another feature will be a demonstration by accomplished floral artists, Mrs. Chris Plunkett and Mrs. H. Neill, on the art of arranging flowers in attractive table decorations.

Basket floral arrangements will be demonstrated by flower judges George Clarke and Fred Storey. Arrangements for the holding of the provincial junior meet in Peterborough this year have been completed by Bud Lloyd, chairman of the junior section of the local society. City florists and merchants have donated more than $100 worth of prizes.

Mrs. George Duncan and Mrs. Allan Wade reported the advance ticket sale has been splendid.

Grade III Jr., hon.: Carl Breckenridge, Sharon Noonan (equal); Rosanne Gibson; pass: Kathy Ann O'Shea.

Grade 1 Jr., hon.: Irene English.

Theory — History, Grade III, first class hon.: Cloa Dainard; hon.: Betty Dainard.

Grade II, first class hon.: Carole Baker; Carole McMillan.

Personals and Social

Mr. Ross Barker of Calgary has arrived home for a month's vacation with his parents, Mr. and Mrs. E. W. Barker, Armour Road.

✧ ✧ ✧

Mrs. Charles Sumbler and son Kevin of Hollis Island, N.Y., are visiting her mother, Mrs. F. C. Marshall, Reid St., for the summer.

✧ ✧ ✧

Guests of Mr. and Mrs. Joseph Henderson, Boswell Ave., are their neice Mrs. Zygmut Stanski and her children Eddie-Joe and Bobby of Detroit, Mich.

✧ ✧ ✧

After visiting with Mr. and Mrs. C. Shiels of 853 St. Marys St., his brother-in-law and sister, Mr. and Mrs. Oscar Lindbloom and son Randell have returned to their home in Elba, Manitoba.

✧ ✧ ✧

Mr. and Mrs. David McKenzie and baby David Jr. and Miss Ellen Lee Henderson from South Bend, Indiana, are visiting the latter's brother and sister-in-law, Mr. and Mrs. D. P. Henderson, Division St., and relatives in the city.

✧ ✧ ✧

Guests for the weekend with Mr. and Mrs. Max Kerneghan, 205 Parkhill Road, were her niece, Miss Doris Almas of Hamilton, accompanied by her fiance Mr. Omer Clusiu, also of Hamilton.

✧ ✧ ✧

OSCM Creighton Johnston of the HMCS Algonquin telephoned his parents, Mr. and Mrs. J. W. Johnston, 51 Victoria Ave., on Saturday evening from Key West, Florida. He has been on a training cruise which left Esquimalt, B.C., May 27, and expects to arrive at Halifax August 6.

✧ ✧ ✧

The Rev. Ivan C. Morgan, minister of Murray St. Baptist Church and newly elected president of the Ontario-Quebec Federation, has left to attend the Baptist Federation of Canada meeting in Vancouver which opens sessions on Friday and continues through July 14th. Mr. Morgan is to give an address on "Is our theological education adequate?"

✧ ✧ ✧

To say "bon voyage" to Mr. and Mrs. Charles Clark, Charlotte St., who leave Wednesday night by plane for London, England, their son-in-law and daughter, Mr. and Mrs. Stuart Perry, Sunset Boulevard, entertained friends and neighbors at their home Sunday evening. Mr. and Mrs. Clark will visit his brother and friends he has not seen since leaving 41 years ago to come to Canada.

✧ ✧ ✧

Those from Peterborough attending the Free Methodist annual camp meeting at Orland on Sunday were Mr. and Mrs. Harvey Robbins, Mr. and Mrs. J. W. Johnston and Paul, Weldon and David Johnston, as well as 40 or more others of the local Free Methodist congregation. Those from here who are camping this week are Weldon Johnston, Wayne and Kenneth Collins.

✧ ✧ ✧

Johnnie McNutt, son of Mr. and Mrs. William McNutt of 630 Little St. was four years old on Monday, July 6th, and had his first birthday party on this occasion as he has been ill on each of his previous birthdays. His guests were Philip Heard, Rodney Dunn, Gail Partington, Jay Hildebrand, Lynn Allen and Phyllis Lynn McPhail. Some of the mothers accompanied the children and were tea guests of his mother.

✧ ✧ ✧

GORE'S LANDING —(ENS)— Mrs. Ruby Meggs of Gore's Landing was hostess for afternoon tea on Monday in honor of Mrs. Gordon McKenzies of Los Angeles who is visiting her parents, Mr. and Mrs. R. A. Drope of Harwood. Miss Lottie Drope poured tea. Among the guests were Mrs. Kenneth Munroe of St. Catharines, Mrs. Pauline Drope of Harwood, Mr. and Mrs. Wm. Potter of Warkworth, and Mr. J. J. Kelly of Toronto, a guest of Mrs. Meggs who is widely known as a historical artist and is now aged 91.

Miss Frances Maloney of Douro was the hostess for a miscellaneous bridal shower given in honor of Mrs. Joseph Brown, formerly Miss Carmel Leahy, by the choir and Sodality of St. Joseph's Church, Douro.

✧ ✧ ✧

DeLong-Young

The marriage took place at Knox United Church of Joyce Marie Young, daughter of Mrs. Young and the late Charles Young of Peterborough, to Cecil John Ross DeLong, son of Mr. and Mrs. Cecil DeLong, of R. R. 7, Peterborough. The Rev. H. G. Douglas performed the ceremony and the couple were attended by Mr. and Mrs. Gerald Card. They will live at 441 Jackson Avenue.

YW Day Campers To Be "Pirates" 3 Days A Week

The YWCA Day Camp had a total registration of 43 girls 9 to 12 years old on the first day, Monday. The camp was held in the Y all day, owing to the weather and is under the direction of Miss Marion Foster, assisted by Miss Bea Pelsis.

A Pirate theme is being carried throughout the three-week camp and this will be quite evident to the onlookers at any time in future for the girls will be wearing pirate costumes, cutlasses, eye shades which they made on Monday. At the Y is a large colored mural of a pirate scene, made by the directors.

Six groups have been formed and are each in charge of a councillor. Senior councillors are Pat Collins, Mary White, Sandra Wood, Rosalind Stevenson and Connie Sedgwick and junior councillors are Diane Wyatt, Merrell Sheehy and Dorothy Quinlan.

The camp is open each Monday, Wednesday and Friday for three weeks. This Wednesday's program is to include sight seeing and hiking. The girls bring their lunch and eat at the Y.

Houle-Gardiner

In St. John's Roman Catholic Church, Keene, the marriage was solemnized by the Rev. W. C. McCarney of Mary Eileen, daughter of Mr. and Mrs. Hector Gardiner of Sidney Mines, Nova Scoita, to James David Houle, son of Mrs. Catherine Houle and the late George Houle of Keene.

Peonies, delphinium and canterbury bells were used in decoration of the church. The music was played by Mr. James Doris and during the ceremony Mrs. D. Campanaro of Peterborough sang "Mother at Thy Feet is Kneeling."

The bride was given in marriage by Mr. Edward Welsh of Toronto. Her gown was ankle-length white Chantilly lace over taffeta, with matching lace jacket, and her fingertip veil was also of lace, caught to a garland of white gardenias. Her bouquet was of red roses with shasta 'mums. Miss Aileen Butler of Toronto, her only atendant, was in blue lace, with matching accessories, and she carried a bouquet of yellow roses.

Mr. Wallace Houle was groomsman for his brother and ushers were Gerald Walsh and Marshall Maclean.

The reception was held at Assumption Parish Hall. Receiving with the wedding party were the bride's sister, Mrs. P. Pigeon, and the groom's sister, Mrs. D. Forestell. The former was dressed in navy nylon and wore a red straw hat and corsage of baby 'mums. The latter wore printed nylon silk with a white lace hat and corsage of white 'mums.

Travelling to Northern Ontario for the honeymoon, the bride wore a powder blue linen suit with white linen accessories.

Mr. and Mrs. Houle will live in Toronto.

Raisin Pecan Cake Delight

If you're one of those women who look with horror on the idea of baking during the warm weather, you'll change your opinion after trying this luscious raisin pecan cake topped with a frothy raisin frosting. It's cool to the eye and delicious to the palate—and made from a chocolate cake mix!

Empty contents of a package of chocolate cake mix into a mixing bowl; fluff with fork. Mix in ¾ cup seedless raisins and ½ cup very finely chopped pecans. Measure out 8 oz. water (one complete cup). Add half the water (4 oz.). Mix until free from lumps. Add remainder of water (4 oz.) slowly, mixing smooth after each addition. Batter will be thin. Pour into two 8" layer cake pans lined with waxed paper. Bake in a moderate oven (350 degrees Fahr.) for 30-35 minutes. Cool five minutes before removing from pans. Frost cold cake with raisin frosting.

RAISIN FROSTING

1 cup sugar
⅓ cup water
1 tablespoon white corn syrup
2 egg whites
¼ teaspoon cream of tartar
1½ teaspoons vanilla
2 cups seedless raisins.

Combine sugar, water and corn syrup in a saucepan and boil slowly without stirring until it forms a firm (not hard) ball in cold water. Now beat your egg whites with cream of tartar until stiff enough to hold peak. Add syrup in a fine stream, beating all the time. Add vanilla and raisins and mix thoroughly.

OCH, HE'S A BONNIE LAD—A glance at the expressions on the faces of the Scottish matrons in this picture tells the story. They are encountering—and being conquered by — the famous charm of Philip, Duke of Edinburgh. He was visiting with women members of the British Legion, during ceremonies at Edinburgh's Holyrood Park.

Puppet Group To Form In City

A meeting of considerable interest to Peterborough people was held last Friday evening at the home of Mr. and Mrs. John Campbell with a view to the forming of a puppet group in this city.

Those attending have each already made a number of marionettes, under the direction of Mr. George Merton, a professional puppeteer associated with the community programs branch of the Department of Education whose work is well known both in Canada and the United States.

Plans were discussed for an active season commencing in the fall when a demonstration night will be presented. A temporary executive was formed with Mrs. J. R. Henderson as convener and Mrs. T. Rolfe as secretary-treasurer. Also a working committee, composed of Mr. and Mrs. Campbell, Miss Carolyn Littlefield, and Miss Anna Edmondson.

This group has at the present time 15 characters ready for the demonstration.

Now it is in order for any person interested in any form of puppetry—manipulation, staging, construction, etc.— to contact any of the members named above in regard to joining the group.

Grooming Faults

Grooming faults seem to multiply in summer. Some of them, prevalent now, are:

1. Wearing Easter hats beyond their season of smartness. The flowers look wilted and the straw looks dusty and crushed. It's a time for untrimmed, neat hats. If a girl hasn't one of these, she'll look better hatless than wearing a hat that harks back to a definite date, Easter.

2. Wearing sleeveless dresses when the arms, aren't slender enough to bear it. A well-formed youthful-looking arm is pretty in a sleeveless dress. Other types of arms look prettier covered, even if only with the sheerest of materials.

3. Wearing summer skirts with the blouses hanging out in back. A truly functional belt will keep a blouse always where it belongs.

4. Wearing soiled white shoes or straw or lined shoes that are sumdgy.

5. Wearing frilly sheer blouses when the entire costume is in a tailored mood.

Show Beach Shirts Instead Of Coats

NEW YORK —Designer Brigance replaces beach coats with beach shirrts, and he also likes the idea of a box shirt worn over a dress or other play clothes. He fused with black, gives a tweed-thinks shirts should fall freely beach shirts, and he also likes outside of short ors lack, or be tucked ever so loosely inside. One of his shirt sets is worn as a sweater set, with the sleeveless under shirt tucked in, and the outer long-sleeved shirt worn loose.

Rev. & Mrs. Steed Receive Tribute

A congregational meeting of St. James' United Church was held last week to pay tribute to the Rev. J. Arthur Steed and Mrs. Steed of Lakefield who have so graciously and capably ministered to their spiritual needs for the past few months.

Mr. Roy Heard, superintendent of the Sunday school, presided for the program. A sing song was conducted by Mr. William Piercy who also sang a solo. Mr. Steed taught the gathering an African song and contributed a solo.

Two readings, "Striking the Boss" and "Why He Would Nof Die" were given by Mrs. Henry Turner. A pleasing piano duet was played by the Misses Collison.

Mr. Lewis Bird voiced the appreciation of the congrgation and Mrs. Henry Turner, president of the Woman's Association, presented Mr. Steed with a club bag and Mrs. Steed with a bouquet of flowers.

A social hour followed with two past presidents of the WA, Mrs. Minnie Stokes and Mrs. Gratton Harris, pouring tea. Refreshments were served by the committee, Mrs. Ethel Monks, Mrs. M. Drysdale, Mrs. Lewis Bird, Mrs. Newton Brown, Mrs. George Rowe and others.

AN E. B. EDDY PRODUCT

DOROTHY DIX:

Male Ego Easy To Wound, Difficult To Patch Up

DEAR MISS DIX: Bill, who is 21, four years older than I am, works in the office with me. We used to date occasionally, and he seemed quite attentive in the office. A few months ago he was in the hospital for several weeks, during which time I went to see him once. I was quite perplexed about what to do in this case, since I didn't want him to think I was chasing him, neither did I want to appear to be neglectful. When he returned to work he scarcely bothered with me at all. Someone told me that he remarked about me, "She's very attractive, but not quite bright." I let him know that I had heard the remark, but didn't give its source. Do you think his coolness is my fault? If so, do you think I owe him an apology? I suppose you'll tell me to forget him, but I hope you can suggest something more pleasant.

PATTY K.

✧ ✧ ✧

OBSTACLES ON ROMANCE ROUTE

ANSWER: At 17 a girl can scarcely be expected to know all the answers, and if you've slipped up a bit on your reactions to Bill, you at least have the consolation that almost everyone else is equally fallible. Of course, Bill doesn't have all the right answers either, and it's more than barely possible that after you've both done a bit of fumbling, and have gone through the usual amount of mutual misunderstanding, the romance will pick up and progress quite well. To select one obvious fault from your collection of wrong turns, it probably was your endeavour to act "hard to get," following the advice of another co-worker. This system isn't nearly the man-catcher it's played up to be. While men don't like girls to chase them too obviously, they are prone to give the go-by to girls who give every appearance of not caring for them. The male ego is easy to wound; difficult to patch up. You certainly should have shown a more friendly spirit while he was ill. If you didn't want to visit him more often, a series of amusing cards or notes would have let him know you were sincerely interested. Another tactical error was in repeating to him the foolish remark that had been made to you. No man likes to be put in a position which he must explain. Just be friendly and patient now, for awhile.

✧ ✧ ✧

DEAR MISS DIX: Several months ago I became acquainted with a man who travels to business on the same bus I use. He claims to like me very much, but says that it would be better if we didn't see each other any more. I am not sure if I love him or not, but I do know that I'd like to see him again.

MARCIA F.

✧ ✧ ✧

ANSWER: My summation of the situation would be that your casual acquaintance is a married man who has been indulging in a mild flirtation to vary the tedium of travel. That you have become too serious over him is undoubtedly obvious, hence his decision to nip the friendship in the bud, without hurting you too much. Don't pursue him; just accept his suggestion to end the friendship.

✧ ✧ ✧

DEAR MISS DIX: Though I greatly admire your advice, at the moment I don't need it. I am very much in love with an airman, and we plan to be married in the near future. I would appreciate a copy of your leaflet, "A Happy Marriage," and any other suggested reading matter that would help me establish a good home.

MAGGIE T.

✧ ✧ ✧

ANSWER: The leaflet is on its way to you. Since you realize the importance of planning for happiness and recognize the necessity of doing something concrete to make your marriage work, there's little chance that you will encounter serious trouble. Marital bliss is not an accident; it's something achieved through sincere co-operation with the definite intention of creating a happy home and family. Best of luck to you.

Couple Leaving To Do Radio Work In South America

HAVELOCK—(ENS)—Mr. and Mrs. John Smith of Toronto who are leaving in the near future for mission work in South America, visited Fellowship Baptist Church Friday night at a special mission service.

Mr. and Mrs. Smith will be connected with radio station HCJB (Heralding Christ Jesus' Blessings) at Quito, Ecquador, known as the "Voice of the Andes". Mrs. Smith is a trained nurse and will be serving at the hospital in connection with the radio station.

Mr. Smith is an accountant and will be connected with the business of the station. In their spare time both will do missionary work among the natives. Their home church is Central Baptist Church, Brantford.

Mr. Smith showed a film on HCJB activities. Mr. Smith gave a few words of testimony and sang a missionary hymn.

Mr. and Mrs. D. Jeff and baby are spending the weekend here with relatives.

Mr. and Mrs. Harold Delahaye and Harvey visited Mrs. Charles Smith on Sunday.

MARY MOORE SAYS:

Trifles Add Up To Important Business

It's the little things that inflate the ego of we mousy little housewives who forge ahead every day week in and week out doing our duty without whimpering but hoping eternally for a pat on the back.

Grace, who cannot afford to tithe for her church givings, has a garden and offered to sell hot dog relish in September—which she makes by the gallon from her own garden produce—to church members. To date she has sixty-odd orders for one-pint jars at 40 cents each. All proceeds go to the new church building fund. A personal pat on the back from this hand—to Grace, for using what talent she had to such good effect.

I had a lift from my discovery of a new plastic-mesh cleaning pad that washes out perfectly clean under running water. You know how the steel and copper ones "mat" and get ragged and hang on to the little particles of food, no matter how well you rinse them? This plastic pad keeps its shape. I have used mine for two months now and it is still round and puffed out and sweet-smelling. It doubles for a dishcloth too. It even triples for a carrot and potato scrubber. What's more the kids have cottoned to it and our pots and pans shine after every dishwashing.

In this house I have one lunch to pack every day during the summer for Pete. Compare that to one of our readers who has four lunches to pack every day of the year, and I blush.

"Lunch-packer" says she enjoys packing them at night and stowing them in the refrigerator because her family is so thoughtful. They prepare their own breakfasts and leave her sung in her bed for another hour after they leave at 6:30 a.m. Reciprocity there!

She has some good lunch packing tricks to pass on to us: (1) she opens a can of pink salmon—1 pound—pours the liquid from it, removes the bones and mashes the fish in a bowl with a fork. To it she adds ½ cup chopped green pickle, about 5 tablespoons genuine mayonnaise, a squeeze of lemon, and a little extra salt. This makes enough for the sandwiches for one day's lunch when she extends it with about 4 tablespoons soft butter. Adding the butter to the filling means you have only one spreading operation. She adds a crisp lettuce leaf to every sandwich. Her family says they do not wilt when the sandwiches are kept in the refrigerator overnight.

2. Another time she hard-cooks 6 or 8 eggs, and peels them and puts them through the grinder. To them she adds ½ cup mayonnaise, a 1-inch slice butter, some chopped chives from her kitchen garden and some celery seeds and salt and pepper.

3. Each lunch gets a banana, or apple when they are in season, 1 or 2 nourishing cookies of some kind—such as date-oatmeal OR brownies OR hermits, 1 or 2 whole wheat sandwiches (the men take 2, the girls 1), some carrot strips OR radishes OR celery hearts OR chunks of green pepper wrapped in a twist of wax paper, and another twistful of raisins OR Spanish peanuts with the skin on. Her folks can buy milk at the plant. Any tips there that you could adopt? Do you have any lunch-packing tips that you could pass on to us?

✧ ✧ ✧

Old Worry-Wart Mary finds herself perturbed. There aren't enough young cooks who know how to make homemade soup from leftovers.

For instance, if you had not much but the bone left from your Sunday roast of beef what would you do with it? Give it to Rover? or let it be the backbone of a potful of soup? Winter or summer, soup may be made to fit in to your menu pattern.

HOMEMADE SOUP

Leave some of the unsliceable bits of meat on the bone from Sunday's beef roast and add 4 cups water OR 4 cups liquid made up of water AND the vegetable waters you have been saving from cooking asparagus, potatoes, peas, carrots, etc. Put that on to boil and add 2 tablespoons each barley and rice; ½ cup each chopped celery tops and grated carrot and canned tomato; 1 small onion grated; (and, if on hand, 1 tablespoon each lentils and macaroni alphabets); 1 tablespoon each salt and MSG; ¼ teaspoon each pepper and celery seeds. Boil gently covered until barley is tender. It requires the longest cooking. Now chill this and skim off layer of fat. Lift out bones. Reheat and taste. Does it need more salt? If this is to be the one hot dish for lunch or for a cold-plate dinner, sprinkle each bowlful with grated cheese just before serving. If you want to make it go further, float a slice of dry toast on top before sprinkling with grated cheese.

HERE'S SOUND ADVICE FROM PATSY

YOU'LL SAVE MONEY BY BUYING PATSY COAL NOW!

Prices are at the season's low. What's more, you can sit back and relax because you have next winter's heat stored right in your basement . . . no worries about *your* winter comfort!

PATSY HOME STOKER COAL
The LAZY MAN'S FUEL

Patsy is over 97% pure coal - - - practically no ash - - - quality never varies - - - long lasting, high in heat, meaning fewer trips to the basement next winter. There is no finer coal than Patsy, cream of East Kentucky coals!

FILL YOUR BIN NOW!

Look for these green and yellow, readily burnable identification discs in every ton of Patsy.

ANNOUNCEMENTS

1—Births

BROWN—Mr. and Mrs. Jack W. Brown of Toronto (nee Betty Domosly of Belleville) wish to announce the birth of a daughter at Toronto General Hospital, July 5, 1953.

BOWES—Mr. and Mrs. J. M. Bowes wish to announce the birth of a son, John Michael, at Peterborough Civic Hospital on Tuesday, July 7, 1953.

FAWCETT—Mr. and Mrs. Jim Fawcett (nee Velma Garbutt), Lakefield, R.R. No. 1, wish to announce the birth of a daughter, Velma Darlene, at Civic Hospital, July 4, 1953.

FRASER—Dr. and Mrs. John H. Fraser wish to announce the birth of a daughter, Nancy Elizabeth, July 3rd, at Peterborough Civic Hospital.

HARRIS—Mr. and Mrs. Jack Harris (nee Muriel Crouter) are happy to announce the birth of their daughter at Peterborough Civic Hospital, Sunday, July 5th, 1953.

JACKSON—Robert and Willene Jackshon (nee Hope) wish to announce the birth of a son, David William, at Peterborough Civic Hospital, July 6, 1953. A brother for Jimmie.

WEBB—Mr. and Mrs. Ronald Webb are very happy to announce the birth of a daughter, Beverley Joan, at Peterborough Civic Hospital, July 6, 1953.

2—Engagements

Mr. and Mrs. Ross Nicholls wish to announce the engagement of their daughter, Gladys Joyce, to William Carlos, son of Mr. and Mrs. Howard Spafford, Rockcroft, Ont. Wedding to take place quietly on July 25.

Mr. and Mrs. Wesley Lee, R.R. No. 1, South Monaghan, wish to announce the engagement of their only daughter, Luella Elizabeth, to Mr. Arthur West, youngest son of Mr. and Mrs. William West of Hastings. Wedding to take place in Hastings' Presbyterian Church on July 25, 1953 at 2:30 p.m.

The engagement is announced of Barbara Mary, only daughter of Mrs. Violet Williams, R.R. 2, Trenton, Ontario, and the late Burdette Williams, to James Alexander, eldest son of Mr. and Mrs. H. A. Cruikshank of Keene, Ontario. The marriage will take place on Saturday, July 25th at 2:00 o'clock at St. Thomas' Anglican Church, Belleville, Ontario.

8—In Memoriam

HAYWARD—In loving memory of Mr. Oliver Hayward, who passed away July 9th, 1946.
Not dead, but passed beyond
The mist that binds us here,
Into the newer, larger life
Of that uncloudèd sphere.
—Ever remembered by wife and family.

PEARSON—In loving memory of our dear father, Harvey W. Pearson, who passed away July 7, 1952.
His weary hours and days of pain
His troubled nights are past
And in our aching hearts we know
He has found sweet rest at last.
—Fondly remembered by daughter Trucie, sons Jack, Jim and Gordon.

WHATLEY—In loving memory of William (Billy) Whatley, who passed away July 6, 1952.
Just when your life was brightest
Just when your years were best
You were called from this world of sorrow
To a home of rest.
—Ever remembered by his mother.

7—Card of Thanks

I wish to take this opportunity to thank all those who canvassed for and those who gave towards the large gifts of money which I received recently at the benefit dance given in my behalf.—Roland Darling.

I wish to take this opportunity of thanking the attending doctors, nurses and hospital staff, also friends and neighbors for their kindness, cards, fruit and flowers during my recent stay in Civic Hospital — Mrs. Mossom Gollober, 137 Stewart Street.

St. Catharines Beach Heavily Polluted

ST. CATHARINES (CP) — The water at St. Catharines' municipal beach is heavily polluted, sanitary inspectors warned today.

Laboratory tests made in a recent survey show that water along the Lincoln county shore of Lake Ontario, where the city beach is located, and along the Niagara river are full of intestinal bacteria.

Pollution along the shore of the Niagara river is not expected to lessen during the summer, Dr. D. V. Currey, director of the ST. Catharines'-Lincoln health unit, said.

Dies In Wilberforce After Heart Attack

LONDON, Ont. (CP)—Donald A. McLachlan, 78, former operator of Central Business College in Stratford died suddenly Monday following a heart attack at the summer home of T. C. Selby, Wilberforce, Haliburton.

Born in Lobo township he moved to Stratford about 1900 where he operated the business college until 1930. Avidly interested in sports, he managed several championship hockey teams there around the turn of the century.

Surviving are his widow, E. Mary McLachlan; two daughters, Mrs. K. Q. (Jean) Gordon, Stratford and Mrs. J. M. (Marion) McLennan, Sarnia and a brother John, Strathroy.

Funeral will be held at 3:15 p. m. Thursday with burial in Avondale Cemetery, Stratford.

Sent To Penitentiary For Calf Rustling

COBOURG— (ENS) — Donald Brown, 24, of Castleton, was sentenced Monday to three years in Kingston penitentiary.

Arrested two week ago at Cooksville, Brown was found guilty of theft of a calf at Brighton, breaking and entering near Niagara, Ont., receiving goods stolen from a local drive-in theatre and theft of gas from Brighton.

On the cattle rustling and breaking and entering charges he received three years each, and for the gas theft and receiving charges, six months, to run concurrently.

Hopes To Get Premier

JAKARTA, Indonesia (AP) — President Soekarno said he would make another attempt soon to pick a prime minister to end the 33-day government crisis. Foreign Minister Mukarto, whose Indonesian nationalist party caused the resignation of Prime Minister Wilopo's government June 3, said last week he was unable to get the Nationalists, Moslem Masjumi and other parties to agree on cabinet posts.

Izvestia Warns Party Leaders

MOSCW (AP)—The Soviet government newspaper Izvestia declared today that the Communist party has "crushed all its enemies" who tried to undermine the unity of the party and the confidence of its members in the "victory of socialism."

The newspaper also warned in an editorial that any leader who neglects Communist theory is unworthy of the title and "life sooner or later will rid itself of him."

"The unity of the party ranks," Izvestia declared, "was, is and shall be the basis of strength and unconquerability of our party."

(The Moscow dispatch, which passed through Russian censorship, listed no specific culprits. The frequent references to party unity, however, seemed to indicate that the editorial was another blast in the recent campaign against party and government officials who place considerations of "nationalism" above a concept of communism embracing all the diverse nationalities which make up the Soviet Union. This drive has resulted in the replacement, or purge, of numerous government and party officials in various of the republics making up the Soviet Union.

Buck Promises Stop Coal Mining Decline

SYDNEY (CP)—Tim Buck, national leader of the Labor Progressive (Communist) party, said at a political meeting here Monday that his party could stop "the decline of the coal mining industry of Cape Breton Island."

Speaking in support of George McEachern, party candidate in Cape Breton South for the Aug. 10 federal election, Mr. Buck blamed the Liberal government for the decline of the island's steel and coal industries.

He said the government is following a policy "aimed to transform Canada into a producer of raw material for United States industries . . . a policy of sacrificing Canada to the insane idea that the only future to plan for is one of atomic war."

Clarie Gillis, CCF, is the member of the last House for Cape Breton South.

Mrs. Thomas Barrie

The funeral service for Mrs. Thomas Barrie, of 757 Water St., who died Friday at her home, following a short illness was held Monday at the Comstock funeral home.

The Rev. Gordon S. Maxwell, minister of Trinity St. United Church officiated. The pallbearers were E. D. Layfield, J. Costigane, W. A. Elliott, Holly McIlmoyle, W. E. Spurway and E. Barrie. Burial was in Little Lake cemetery.

Carries Offer From French

SAIGON (AP) — Cambodian Premier Pen Nouth left his little kingdom's capital today to carry French proposals for independence negotiations to King Norodom Sihanouk.

The move came as Indo-China's other two French-associated regimes—Laos and Viet Nam—announced their support of the French offer to talk over proposals aimed at granting the three states greater freedom.

The Cambodian monarch, who has threatened war against the French unless his demands for complete independence are granted, is now 150 miles northwest of his capital of Phnom Penh in an autonomous section of Cambodia. It was learned today that the king has ordered general mobilization of all men up to 40 years of age in that section of the kingdom.

Two City Accidents Do Minor Damage

Two minor accidents were reported on Peterborough streets Monday, one at George and Lansdowne and the second at Reid St. and Parkhill Rd.

Frank McCann, 19, of 43 Sofia, and Harold Latchford, 23, of Belleville, driving a tractor-trailer, were in an accident at George and Lansdowne, resulting in $120 damage to McCann's car.

Both were facing west on Lansdowne at the stoplights when the accident occurred. Latchford made a right turn in the path of McCann's vehicle, the spare tire on the transport catching on the car, dragging it five feet.

McCann's car sustained the damage to its left front corner.

The second accident involved Keith Wheeler, 23, of 540 Downie and Leonard Meade, 39, of R.R. 2, Indian River. Each vehicle sustained $20 in damages.

Meade was driving east on Parkhill when the accident occurred. He pulled into the intersection and his car struck Wheeler's car which was proceeding south on Reid.

A parked truck at the northwest corner of the intersection blocked Meade's view of the oncoming car.

Pallbearers Suspect As Bank Robbers

SAN FRANCISCO (AP) — Four indignant pall bearers were questioned about a bank robbery here today while the real gunman made off with $1,623.

The mixup followed a radio tip that the robber had fled a Bank of America branch in a "large black limousine."

One of the pall bearers showed officers a large sign marked "funeral," which he said he had just taken from the windshield of the car. But they were taken to the hall of justice, where bank teller Victor Larrey said they were not involved.

The gunman made good his getaway after showing Larrey a note to "hand over the cash or you'll be dead."

Contracts Announced For Six Minesweepers

OTTAWA (CP)—Contracts to six Canadian shipbuilding companies for construction of six minesweepers for the Royal Canadian Navy were announced today by the production department.

The vessels are in addition to 14 minesweepers now under construction, and will replace six being transferred to the North Atlantic Treaty Organization as part of Canada's mutual aid program.

Contracts went to the Port Arthur Shipbuilding Co. Ltd., Port Arthur, Ont., three Quebec and two Victoria, B. C., yards.

Waterloo Tax Rate Set At 26 Mills

KITCHENER (CP) — Waterloo township council tentatively set its tax rate at 26 milles today, one less than last year. The rate was held tax rate of 26 mills today, one less lower despite the fact the county rate jumped 1.37 mills.

Road expenditures were set at $79,000 the same as last year but the province will pay subsidy of 50 per cent on only $59,000. The amount to be raised for education is down.

Ralph A. Holyman

Ralph A. Holyman, of Sudbury, was buried today in St. Peter's cemetery. Requiem mass in St. Peter's Cathedral and graveside prayers were said by the Rev. R. J. Garvey.

Mr. Holyman was formerly of

DONALD T. FORSYTHE, publisher of the Carthage Journal, Carthage, Illinois, who was elected president of Kiwanis International which is now comprised of more than 3,600 clubs. The 38th annual convention was held recently in New York.

East German Riots Reduce Fears Of Soviet Aggression

By DON COOK
New York Herald Tribune News Service

PARIS—Intelligence reports on the recent East German rioting are being analyzed at Supreme Allied Headquarters where the events are regarded as definitely the aggressive capabilities of the Red army in Europe.

From a military standpoint, the outstanding points of the East German rioting are these:

(1) It requires three full divisions of the Red Army to impose martial law in East Berlin alone, and no doubt at least half of the 22 Russian divisions in East Germany were involved in, or alerted for, policing duties.

(2) The collapse of discipline in the East German Bereitschaften (alert units—or in reality the phantom East German army) was such that it can virtually be discounted as an effective military force. Reports indicate that approximately 1,000 Bereitschaften officers were reduced in rank, dozens were court-martialled, and a number executed for failure to carry out Soviet army orders promptly and vigorously during the rioting.

(3) Reports also have been received, though not yet completely verified in detail, of similar defections and laxity in the ranks of the Polish army which polices the German Oder-Niesse territories where civilian disturbances also occur.

(4) To a surprising degree the East German population almost instinctively seem to head for railroad stations and railroad trains in their revolt. From a military standpoint, this heavy threat of sabotage of communications—suddenly and violently laid bare to the Soviet High Command in East Germany—would be a particular nightmare.

UNTENABLE TERRITORY

To put it another way around, if the United States and British and French forces were suddenly faced with the threat of railroad sabotage in West Germany on the same scale which threatens the Red army in East Germany, they would probably regard Germany as untenable territory over which to fight.

Taken in total, the rioting seems to mean that the Russians would have to earmark far greater numbers of their own troops along their communications lines back to Russia, than the Allies previously estimated.

The possibilities of effective sabotage action against the Russians in the event of war were always believed to be fairly good in Poland, but now East Germany appears to be "softer" than was believed, and in addition the East German army can be written off as a Russian propaganda effort which seems to have increasingly dubious political value.

It will, it is believed at SHAPE, require a considerable amount of time and hard work for the Russians to restore any kind of confident morale around themselves in East Germany. For the Red army the situation is a grave one. Such a major threat to communications of the army in the rear is almost more serious than extra allied divisions and the build-up of allied mititary power in front.

Dues Deduction System Changed

TORONTO (CP) — A common method for deduction of union dues and the incorporation of all but five cents of the cost-of-living allowance into the earned rate are among the improvements in the five-year agreements between the United Auromobile Workers (CIO-CCL) and the General Motors of Canada Limited plants in Canada.

The agreements were announced Monday. Union members will vote soon on acceptance of the amendments to the present contracts which run until 1955.

The improvements affect about 20,000 Ontario workers in the General Motors Companies at Oshawa and Windsor, in the McKinnon Industries at St. Catharines and Grantham township in Frigidaire products at Scarboro and Leaside and General Motors Diesel in London.

Two Big U.S. Labor Groups Urge Four-Power Talks

STOCKHOLM (Reuters) — The two big U.S. labor organizations Monday urgently asked President Eisenhower to call for immediate four-power talks on free elections in East Germany.

AFL president George Meany and CIO president Walter Reuther, in a joint telegram, also asked the administration to lodge a complaint with the United Nations against the Russian crack-down in East Germany during the June workers' revolts.

The telegram from the leaders of 16,000,000 American workers was dispatched after delegates to the International Confederation of Free Trade Unions here heard moving stories from East German delegates about Russian oppression during the anti-Communist rioting.

The delegates from 52 countries voted unanimously for rank-and-file measures to raise moral and financial aid to East German "victims and refugees from Soviet persecution and tyranny."

The AFL - CIO telegram said: "We ask that our government press for immediate negotiations for free elections in a united Germany, and for the establishment of free political parties and free trade unions, and for the immediate liberation of German workers imprisoned by the Soviet occupation authorities for their resistance on June 17."

UN Employees Pay Increased Income Taxes

By ARCH PARSONS JR.
New York Herald Tribune News Service

UNITED NATIONS, N.Y. — The United Nations will be called upon to pay up to an estimated $500,000 more annually to the United States in income taxes for approximately 400 non-American UN employees who hold permanent immigration visas in this country.

This situation which is likely to precipitate a hot debate in the UN General Assembly next fall—has been created under the McCarran immigration and naturalization act passed last year, a subsequent ruling by the Attorney General's Office and decisions by UN Secretary General Dag Hammarskjold that have been made public. This is what has happened.

Under the act, the 400 employees, whose immigration visas can lead to the American citizenship that many of them are said to want, will have to choose between these visas and a special UN visa issued for foreigners working here. If they choose the immigration visa, they must sign a waiver relinquishing any special rights or privileges provided by the UN visa.

Under the Attorney General's ruling, those choosing to retain their immigration visas and to sign the waiver will have to pay income taxes to the United States on their UN income. Presently, Americans in the UN are theoretically required to pay these taxes, but the UN pays them out of its budget. The United States is the only UN member nation with an income tax law that requires its nationals at the UN to pay these taxes.

Under Mr. Hammarskjold's announced decision, he will authorize the right of any of the 400 employees to waive the UN visa and will request the General Assembly to include any of those who sign the waiver under the UN's scheme for paying the income taxes of Americans.

$1,500,000 PAID LAST YEAR

Many members of the assembly have never appreciated in the past the idea that part of their annual contributions to the UN is used for paying American income taxes. Last year, the UN paid $1,500,000 in such taxes and this year it is estimated that the UN will pay $1,800,000.

It was estimated that if all the 400 choose to keep their immigration visas, the annual increase in the payment to the United States will amount to about $500,000. This is not expected to sit too well with the assembly in spite of the fact that the American government's contribution is more than one-third of the UN budget—the ceiling that any one nation is to pay theoretically—and much higher than that of any other nation.

The United States has been trying to get its share down to the one-third level for several years and has served notice that this is the year for it. Thus other nations face the prospect of an increase in their assessments to cover not only the reduction in American dues, but the $500,000 in additional taxes.

Taught At Lasswade Native Visits Apsley

APSLEY (ENS).—Mr. and Mrs. W. Lean have had as guests the latter's aunt, Mrs. John Snelgrove of Swan River, Man., and cousin, Mrs. Dan Fraser and Mr. Fraser of The Pas, Man.

Mrs. Snelgrove (nee Mary R. Hales) is a native of this locality, having gone to Manitoba nearly 50 years ago.

As a young woman, she was the first teacher in Lasswade school. After her marriage she lived at Lasswade. She assisted when Grace United Church was being built and attended divine service there.

They, accompanied by Mr. and Mrs. Bert Lean and Miss Mildred Hales, all of Peterborough, attended service in the same church.

Mrs. Snelgrove renewed old acquaintances and both she and Mrs. Fraser (nee Lizzie Snelgrove) visited old scenes around their former home, now owned and occupied by Mr. and Mrs. John McColl.

Parachutist Dies

MAUBEUGE, France (Reuters) —Baby Monetti, 28-year-old French woman parachutist, was killed today when her parachute failed to open in an exhibition drop at an air display.

Find Geese Badly Mixed Up About Human Beings

By ARTHUR EDSON

WASHINGTON (AP) — Trouble with some silly geese has been diagnosed at last. The poor creatures may think (a) that they are human beings, or (b) that human beings are geese.

The National Geographic has been looking into the goose situation, and its report Monday is surprising indeed.

It seems goslings are so impressionable that the first thing seen or heard by them may be identified forever after as one of their own species.

So if a human being quacks around a day-old gosling, that gosling may go through life convinced he and the human are from the same nest.

This is known as imprinting, and is explained in the National Geographic news release.

RECOGNIZE BY CONTACT

Studying bird behavior, the Austrian naturalist, Konrad Lorenz, realized that most birds do not recognize their own species by instinct, but rather by some definite early contact, it says.

"A newly hatched goose, for example, looks upward when it first sees the light of day. Anything that moves and then draws away in a certain manner will imprint the gosling, be it bird, beast, or human kind."

Fortunately, the first thing seen by most geese is its ma or pa. Otherwise, things would come to a pretty pass.

For once a goose is deluded, it is deluded for keeps. It ignores its own species, and later falls in love with members of the family to which it thinks it belongs.

LOGY, LISTLESS, OUT OF LOVE WITH LIFE?

Then wake up your liver bile . . . jump out of bed rarin' to go

Life not worth living? It may be the liver! It's a fact! If your liver bile is not flowing freely your food may not digest . . . gas bloats up your stomach . . . you feel constipated and all the fun and sparkle go out of life. That's when you need mild, gentle Carters Little Liver Pills. You see Carters help stimulate your liver bile till once again it is pouring out at a rate of up to two pints a day into your digestive tract. This should fix you right up, make you feel that happy days are here again. So don't stay sunk, get Carters Little Liver Pills. Always have them on hand.

Agreement Reached With Walker Ltd.

WINDSOR, Ont. (CP)—Employees of Hiram Walker and Sons, Ltd., who threatened strike action several weeks ago to enforce wage demands, have reached agreement with the company, it was announced Monday.

Under the new contract signed between the company and local 61, Distillery Workers Union (AFL), male help will receive a 10-cent hourly increase to bring their basic rate to $1.59 an hour. Female employees received a 16-cent increase to bring their basic rate to $1.25.

Tradesmen received an 18-cent boost to $1.90 an hour.

The increases are retroactive to Jan. 1.

No Fishing Trip For Union Carpenters

LONDON, Ont. (CP)—There'll be no "fishing trip" for union carpenters today.

At a meeting of the union negotiating committee Monday night union members voted to go back to work for one more week. If a settlement is not reached on wages with the London builders exchange by next Monday, they will walk out.

Negotiations have been under way since early May between the builders' exchange and the local. The carpenters originally sought $2.30 an hour, a 60-cent increase from their present $1.70-an-hour wage. The exchange has offered $1.75.

WI Picnic Meeting Held At Mink Lake

APSLEY (ENS).—The Women's Institute held a picnic meeting at the home of Mrs. Ray Harvey on the shore of Mink Lake.

A meeting of the executive was planned for an early date to complete arrangements for members to attend Canada Day of the ACWW in Toronto.

Contest winners were Mrs. Gerald Watson and Mrs. Roy Hall. Other contests were enjoyed.

The rain prevented water sports which had been planned and the picnic lunch was served in the house.

CONSOLIDATED BAKERIES APPOINTMENT

HON. C. P. McTAGUE, Q.C., LL.D.

whose appointment as a director of Consolidated Bakeries of Canada Limited has been announced by the Directors. One of Canada's foremost barristers, Mr. McTague is counsel for the Toronto legal firm of White, Bristol, Gordon, Beck and Phipps. Mr. McTague who was called to the Bar of Ontario in 1920, was appointed a Justice of the Supreme Court of Ontario in 1935 and a Justice of the Court of Appeal for Ontario in 1938. He retired from the bench in 1944. Mr. McTague is president of Eastern Canadian Greyhound Lines Limited, Vice-President of Fine Foods of Canada Limited, and a director of Telegram Publishing Company Limited, Toronto, Brown Company, Berlin, N.H., and Detroit International Bridge Company, Detroit.

Study Function Of Genes Cause Of Cancer

New York Herald-Tribune News Service

NEW HAVEN, Conn. — The American Cancer Society has announced a new development by a Yale University scientist which may help to explain the cause of cancer and other disease.

The scientist, Dr. David M. Bonner, research associate in microbiology whose work is financed by the society, has introduced a new concept on the nature and functions of genes—the tiny particles within cells which govern an individual's characteristics.

Heretofore it was believed that each gene had but one function, that of specificity—controlling a certain type of reaction within the cell. Dr. Bonner has shown that each gene also controls the time and rate of such reactions.

Furthermore, he discovered that if any one of the three functions—specificity, time and rate—is upset, a serious change results in the biochemical reaction controlled by the gene.

Such a serious change, according to Dr. Bonner, may be the basic cause of many human diseases. Cancer, for example, may be traced to gene alterations and the inability of the cells to produce necessary body compounds at the right time at the right rate.

Defective genes have long been known to cause certain human ailments but Dr. Bonner's findings suggest the defect is not necessarily a complete gene breakdown but rather a disturbance in any of the three functions.

MY ACHING BACK!—Rodeo time at the 26th annual two-day Ponoka Stampede, near Edmonton, brings out the best in broncos and broco-riders. More than 12,000 jammed the grounds to see this Alberta cowhand battle his wild mount for the required eight-second ride.

Officer's Ingenuity Provides Armoured Car Troop

By BILL BOSS
Canadian Press Staff WNRITER

IN KOREA (CP)—The Canadian Army has a unit over there that Ottawa doesn't even know about yet!

It's an armored car troop, attached to the newly-arrived "A" squadron of Lord Strathcona's Horse. It's probably the only one in Korea.

"Actually, it was a caesarean operation," says Lieut. Pat Carew of Kelowna, B.C., the troop commander. It was born of the brigade itself.

The Strathconas provided the men and six units in the brigade provided the armored cars which had been standing unused in vehicle parks more than 18 months.

COMMAND VEHICLES

Useful in mobile operations as command vehicles, the eight-ton greyhound "light" armored cars became unfashionable when the war froze to a halt in September, 1951.

Equipped with wireless, they are relatively heavily armed, carrying a 37-millimetre cannon with which is co-axially mounted a .30-calibre Browning machine-gun plus a separately-mounted .50-calibre Browning on the turret. Each of the four crew members carries his personal weapon—either a Sten gun or a pistol—and there is a stock of grenades in the turret.

After getting to know his front, and after studying lessons of the May 2 battle when an enemy force overran a position of the Royal Canadian Regiment, Brig. Jean Allard decided he wanted a mobile reserve of fire power.

QUICK FIRE POWER

A senior brigade officer said: "The need was for a weapon to bring greater fire power quickly to bear on vulnerable areas and on possible enemy forming-up places when they appeared threatened."

The armored cars — scattered among infantry battalions, the engineers, the Strathconas and the ordnance field park—seemed the answer.

So they were rounded up. Much tuning-up had to be done after their 18 months' inactivity, but a crew of Strathcona mechanics under Lieut. W. G. Svab of Montreal and Humboldt, Sask., got them into shape. Svab, an RCEME officer, runs the unit's light aid detachment.

PICKED GOOD MEN

Maj. William Ellis, the new Strathconas' squadron commander, "went overboard to pick good men for the troop."

Luckily he had enough for the job. "Baker" squadron, which returned to Canada earlier in June, left behind a number of men still ineligible for rotation—and Ellis had brought with him an up-to-strength unit.

No special training was needed for the wireless operators, but Carew set up a range in the hills for his gunners, and for a week they practised on [illegible] ons.

Then the armored cars went into the hills with the tanks of the Strathco[illegible] security still prevents publicati[illegible] of fuller details of their employment.

Meanwhile rotation is catching up on the unit—which is where Ottawa comes in.

The idea has been given a month's try-out and the results, coupled with a request for authority to use the extra manpower in this way, are being forwarded to Ottawa. Then the brigade would be able to replace men now in the troop as they go home.

It would enable the brigade to get maximum use out of equipment it already has, but the troop would "remain an unusual wrinkle and a purely local one," say officers here.

U.S. Will Support Tobacco Prices

WASHINGTON (AP)—The U.S. agriculture department announced Monday it will support grower prices of 1953-crop flue-cured tobacco at an average of 47.9 cents a pound.

Last year's crop was supported at an average of 50.6 cents. Both crops were supported at 90 per cent of parity as of July 1 of the years in which they were grown. Parity prices are slightly lower now than a year ago.

Parity is the price declared by law to be fair to farmers in relation to prices they pay.

Defend Italy To Maintain NATO Structure

By FRANK KELLEY
New York Herald-Tribune News Service

NEW YORK.—Adm. Robert B. Carney, former chief of the Southern NATO Command, warns that Italy "must be defended at all costs" in order to maintain the NATO structure.

"Were Italy lost," Adm. Carney told reporters as he left this week to become Chief of Naval Operations in Washington, "the whole of central Europe would then be facing a grave peril. In brief, the loss of Italy would prejudice the Atlantic Alliance, since supplies to Turkey and Greece could be cut off. That is why Italy must be defended at all costs.'

The Admiral, who established the Southern NATO Command a little more than two years ago, said that present forces in this command are insufficient to insure the desirable standards of security and that additional efforts must be made by the six nations in the Southern NATO sector in order to reach the goal.

Until Adm. William Fechteler, now Chief of Naval Operations in Washington, arrives late this summer to assume the Southern NATO Command, it will be administered by Lieut. Gen David Schlatter.

Trucks Arrive

LISBON (Reuters)—Four hundred military trucks supplied to Portugal under Canada's mutual assistance program, arrived in Lisbon Monday. Col. Lawrence Cosgrave, Canadian charge d'affaires, said at a delivery ceremony that Canada has allocated Portugal armament, ammunition and equipment worth more than $21,000,000 under the program.

East Germans Stage Strike As New Unrest Breaks Out

100 Weary Men Press Search For Missing Child

MINAKI, Ont.—(CP)—Search was resumed today for a five-year-old Winnipeg girl missing since early last Sunday in the dense forest, bush and swamp around this Canadian National Railways resort. Weary searchers dragged themselves out of the bush Tuesday night after the third unsuccessful day in the hunt for brown-eyed Geraldine Huggan, daughter of Mr. and Mrs. Jared Huggan, who was last seen playing near her grandparents' summer cottage six miles west of here.

So far the only clue found were the footprints of a small child in some moss atop a high rock ridge on the shore of Fox lake. The tracks petered out near a swamp.

One of the most weary of the searchers is the child's father, who has been carrying on with hardly a break since Geraldine was reported missing.

PUSHES ON

Roaming the area alone and with groups of volunteers, Mr. Huggan tramped through the darkened woods until late Sunday night, lantern in hand and calling out to the little girl. He continued Monday and Tuesday.

His legs and arms are mosquito-bitten, his eyes heavy from lack of sleep.

His wife, Ann, has been serving members of the search parties with sandwiches and coffee at the tiny cottage.

More than 100 men, including Ontario provincial police, RCMP, railway section hands, campers and holidayers and Indian guides have been combing the dense bush. Women and children have joined the hunt.

Eight volunteers from the Winnipeg Fort Rouge Legion left by train today to join the search.

Canadian Open Field Cut To 181 Entries

TORONTO (CP)—The field for the Canadian Open golf championship was reduced to 181 today as the four-day 72-hole tournament started here.

Among the late scratches were Bill Nary, Albuquerque, N. M.; Herman Keise, Akron, O.; Frank Kaminski, Bloomfield, N. J.; Dale Andreason, Los Angeles, Calif.; Ray Marsh, Moose Jaw, and Bob Fair, Toronto.

The $15,000 championship got under way in brilliant sunshine after heavy overnight rains. The 6,607-yard course was in perfect condition.

Early starters generally finished with scores well over par. First to hit Scarboro's par 71 was an amateur, Moe Norman of the Kitchener Rockway Club, who shot 35-36 for the nines, one under on the out trip.

Fred Annon of Rye, N.Y., came through with the first sub-par score for the round—a two-under-par, 69.

Jerry Barber of La Canada, Calif., went Annon one better with a 68, despite a five on the par-three fourth. He was out in even par and shot three under coming home. Marty Furgol of Lemont, Ill., who shot a hole in one in a practice round Tuesday, was par 71 today.

Max Evans, Detroit, went one over par coming back to finish with a 68 after his fine 32. He three-putted the short par-three 14th "and this kinda messed me up."

Secret Service Remains Silent

LONDON (AP)—The British Secret Service remained silent today over statements by a former German officer that it had been completely hoodwinked for 20 months in the Second World War by the German counter espionage service in Holland.

The story of spy-beats-spy was told by a former German lieutenant-colonel, 57-year-old H. J. Giskes, who said in a book, "London Calling North Pole," that for 20 months in 1942-43 the Germans virtually controlled the British and Dutch spy system.

The Germans obtained control of a Dutch underground radio transmitter and sent many faked messages to London, Giskes wrote. Replies they received gave them advance notice of underground volunteers being landed in Holland by parachute, and of 52 caught, 47 were executed, he said.

The book caused a stir when it was published here last January and there was agitation in Parliament for a British version of the events described by Giskes, who now is a business man in Hamburg.

"But we ran up against a stone wall," said Arthur Lewis, Labor member of Parliament who demanded a public airing of the affair.

Civil War Veteran In Good Shape At 110

HOUSTON (AP)—Walter W. Willden who survive the U. S. civil war, was found sound as a dollar Tuesday by veterans administration doctors.

The little, wrinkled man with fading sight and hearing hurried to get back to his 20-acre isolated farm near Franklin in central Texas.

"I don't like towns," he said.

Chief medical officer R. S. Wolfe said Williams' physical condition was surprisingly good for a man of his age.

Williams was not surprised that doctors found him in good condition.

"My grandfather lived to be 120," he said. "And I'm going to beat that."

2 Killed, 5 Injured In Quebec Accident

QUEBEC (CP)—Two persons were killed and five others injured in an auto accident Sunday near L'Islet, 65 miles southeast of here, it was learned today.

Dead are Mrs. Donald Bradley of Toronto, and Antoine Paradis, of Mont-Joli, Que.

Injured were: Donald Bradley, 17 William Dutton, 23; Helen Bradley, 31; Diane Smith, 3, and Philip Smith, 1, all of Toronto.

Atomic Energy Law Outmoded

WASHINGTON (AP)— President Eisenhower said today the United States atomic energy law is partially outmoded. He told a press conference the time has arrived when the allies of the United States should be given more information on atomic energy.

A reporter asked whether Eisenhower agrees with atomic scientist Robert J. Oppenheimer and Gordon Dean, recently resigned chairman of the atomic energy commission, that the United States should make available to its allies more information on atomic weapons and on what it knows about Soviet atomic development.

Eisenhower suggested that would mean amending the atomic energy law. Personally, he said, he thinks the time has arrived when the public must receive more information on atomic subjects if it is to act intelligently.

Since the United States knows A-bombs have been manufactured elsewhere, the president said, portions of the present law really are outmoded. He didn't specify the sections.

Company Negotiating To Buy Niagara Bridge

ST. CATHARINES (CP)—T. R. Merritt of St. Catharines, secretary-treasurer of the Niagara Arch Bridge Company, said today the company has been negotiating with the Niagara bridge commission for sale of the Whirlpool Rapids bridge at Niagara Falls.

The bridge has been operated as a joint enterprise by a Canadian and a United States company ever since William Hamilton Merritt, founder of the Welland canal, built the first bridge across on that site in 1848.

The bridge is held by St. Catharines and district interests.

Mr. Merritt said a meeting of directors is scheduled for Saturday. Preumsably the sale, at a reported $3,079,545, would be discussed. Final decision awaits approval by the United States Senate of a bill passed Tuesday by the House of Representatives permitting the Niagara bridge commission, operators of the Rainbow bridge, to alter its financing. Mr. Merritt said he understood the latest offer per share for the Whirlpool bridge was about $1.05.

Defy Soviet Tanks, Stop Work

Construction Workers Lead Protest Against Authorities

BERLIN—(AP) — Defying Soviet troops and tanks, East Berlin workers were reported today to have called a general sit-down strike in all major plants of the city's Communist sector.

The report came from West Berlin Police Chief Johannes Stumm, who said in an interview the workers' "basic demand is the release of all workers arrested in the June 17 revolt."

Earlier reports of the sitdowns touched off speculation that a new workers' march on the government would materialize, much in the manner of the June 17 uprising which shook the Red world and brought Soviet armored legions pouring into East Berlin.

This time, however, the East Germans apparently tried the peaceful sitdown protest rather than risk further bloody clashes with Communist arms.

LAY DOWN TOOLS

Refugees from East Berlin said angry workers by the hundreds had laid down their tools at the Bergman Borsig works, the Stalin Allee housing project, the Henningsdorf steel mills, the Siemens electrical parts plant and the Rudersdorf pottery mill.

Despite the new strike reports, East Berlin's police headquarters announced on Red radio Berlin's noon broadcast that free traffic between the city's east and west sectors would be permitted starting Thursday.

Since the June 17 revolt, traffic between the east and west sectors had been permitted only to persons with special passes. In virtually all cases these went only to Germans working on the other side of the border.

The broadcast said the passes would no longer be required and that subway and elevaedt train traffic, which the Soviet martial law has cut off at the sector borders, would resume normal intersector operation.

DEMANDED TWICE

Resumption of the traffic had been demanded twice by the Allied commandants in West Berlin, who hotly denied Russian charges that the workers' rebellion was fomented by Western agents.

DEFY SOVIET

(Continued on Page 2)

Bar Candidate At Deep River

PEMBROKE (CP)—A Progressive Conservative candidate said Tuesday his party's workers are not allowed to campaign at the atomic energy plant's townsite of Deep River. He also said they cannot enter nearby Petawawa military camp without written permission from Defence Minister Claxton.

Dr. I. D. Cotnam, candidate in North Renfrew in the federal election, said in an interview he will take the matter up with George Drew, Progressive Conservative leader.

At Ottawa, officials said campaigning in armed forces stations is barred by service and election regulations and that Mr. Claxton could not relax these. Accredited party representatives are allowed in as scrutineers during voting.

Deep River comes under the atomic energy control board and Trade Minister Howe. The minister was not in the city, and an aide said he knew nothing of campaigning regulations at Deep River.

THE LIFT-LOCK BOWLING Tournament is in full swing today at the Peterborough Lawn Bowling Club with contestants from many centres in southern Ontario. It will continue under flood lights till late this evening and wind up with the presentation of trophies. In the above photo, C. J. Patterson of Toronto, standing, watches the approach of his opponent's bowl with interest while James Flett of Oshawa calls the shot.

(Examiner Staff Photo)

Must Continue Present Policies For Prosperity

WINNIPEG (CP)—Justice Minister Garson said in a radio address last night that Canadian prosperity, now at its highest level in history, depends heavily on the continuance of the policies which have helped to produce it—the policies of the Liberal government.

Mr. Garson said a change from a Liberal government to one led by Progressive Conservative leader George Drew would be "a change from a powerful and stable government to a weak and unstable one."

"Today under the Liberal government, Canadians are buying and selling abroad more in proportion to our population than any other nation.

AMAZING RECORD

"Our production, employment and the national income have all expanded far beyond what anyone would have thought possible."

He said that under Liberal administration Canada's national income rose from $5,000,000,000 in 1939 to $24,000,000,000 last year.

Countering Mr. Drew's charges that the Liberal government had been "arrogant and indifferent to the needs of Canadian people," Mr. Garson outlined the achievements of the last Parliament as:

Tax reductions, including a reduction of an average of 11 per cent in personal income taxes, effective July 1; establishment of the Supreme Court of Canada as the final appeal court; appointment of a Canadian-born governor-general; establishment of the St. Lawrence seaway authority to build and operate Canada's part of the project; and construction of the trans-Canada highway.

38-Foot Yawl Makes Atlantic Crossing

MILTON, Conn. (AP)—A 38-foot yawl with no auxiliary power, has made a 3,600-mile crossing of the Atlantic in 30 days.

The Loki left Norwalk on June 30, and sailed into Bergen, Norway, last Friday.

Skipper for the voyage was Dr. Gifford B. Pinchot of Wilton, a biochemist at the Yale medical school. Dr. Pinchot's crew of three included his wife, who served as navigator and cook.

After a cruise along the Norwegian coast, the party plans to sail the Loki to England.

Drew Renews Promise For Large Cut In Taxes

SUDBURY—The Progressive Conservative election promise of a $500,000,000 annual cut in federal taxes was reiterated here Tuesday night in two speeches by Hon. George Drew.

"There is no doubt that taxes can be reduced," he said in a 15-minute speech over a Trans-Canada network in the CBC's free-time political series. The theme was repeated in a speech at Ste. Anne's Hall here before 375 persons.

The $500,00,000 saving could be made by ending budget surpluses which had averaged $300,000,000 a year since 1945, he said, and by reducing the present budget by "considerably less than five per cent" to save the balance of $200,000,000.

"We can save at least $200,000,000 and probably a great deal more in defence expenditures along without any reduction in our defence effort."

WON'T TRY TO DO IT

When government members said taxes could not be reduced, they were really saying: "We won't try to do it."

"They admitted they are incapable of tearing down this Frankenstein of waste and extravagance which they have created and which today devours your savings and threatens the value of your money and your future security."

Mr. Drew returns to Ottawa today and will speak there tonight. He will then campaign for two days in Eastern Ontario before heading east for his Maritime tour.

He said Tuesday night the government defends its surpluses by saying they are used to pay off debts. The Progressive Conservative party was "just as anxious as anyone else" to pay off debts but the government had "no right" to spend money without Parliament's approval.

HEAVY BURDEN

Because the government had disposed of so much military supplies after the last war, taxpayers had to carry the cost of rearmament extra burden of [illegible] that kind."

Canadians were prepared to carry necessary defence expenditures. "But Canadians do not want their hard-earned money wasted and they do not like any attempt to hide waste by appeals to patriotism."

The test of the effectiveness of military expenditures was the number of members in the armed forces ready for service. In Canada, the defence cost for each person in uniform was $22,035; in

(Continued on Page 2)

BULLETIN

TORONTO—(CP)— Premier Frost of Ontario announced today that the provincial government will contribute 50 per cent of any money donated by municipal councils for victims of last May's tornado in southwestern Ontario. The premier made the announcement after a cabinet meeting and said municipalities have until Aug. 1 to vote on donations for the storm victims. Damage figures in the twister, which hit hardest at Sarnia May 21, run as high as $10,000,000.

Two Children Drown In Bay

TRENTON (CP)—Shirley Anne Mills, 11, and her brother Roderick, 9, were drowned in the Bay of Quinte Tuesday. They had moved with the parents, Mr. and Mrs. Robert Mills, from Oshawa a week ago.

Forbidden to go swimming by their mother, the children apparently slipped away from home shortly after lunch and went to a ball park near the bay. Coroner Dr. S. J. Farley, who was passing the area, came across two piles of clothing and called police.

Meanwhile, Jack Blakely, Victoria Street, Trenton, working on a new pier nearby, saw the bodies The boy was floating near shore while the girl was submerged in about four feet of water.

It is believed they had been in the water for two or three hours before being found. Police Chief F. J. Taylor, Sgt. W. Yeoman, and Det. Sgt. Bob Rutherford investigated. No inquest will be held.

Equip OPP Cars With Radar Gear

TORONTO (CP) — Attorney-General Dana Porter said today that Ontario provincial police cars are being equipped with radar to help cut down the number of traffic accidents.

With the device, an officer can park on the side of the road and the speed of every car that passes him is record on his radar scope. [illegible] use, highways will be marked with signs indicating that radar readings are in operation.

Similar radar equipment is in use in some sections of the United States. The result has been a great reduction in accidents, the attorney-general said.

Reds Have Agreed To Truce, Conditions Tough

SEOUL—(AP)—The Communists said today they are ready to negotiate the final details of a Korean armistice, even though South Korea objects violently. There was still no indication that stubborn President Syngman Rhee would accept a truce which fails to guarantee unification of his war-battered nation. The Communists reply to Gen. Mark Clark's June 29 proposal to sign an armistice now was delivered by liaison officers in a five-minute meeting at Panmunjom.

The letter laid down what appeared to be some tough conditions for Communist acceptance of a truce negotiated in two years of hard bargaining. But observers said the Reds might waive some of these when the truce talks resume.

RED TERMS

The Reds said the United Nations command must:

1. "Take effective steps" to assure South Korean compliance with armistice terms;

2. Recover 27,000 anti-Communist North Korean war prisoners set free on orders of President Rhee last month;

3. "Shoulder the absolute responsibility" for seeing that none of the 8,000 anti-Red prisoners remaining in Allied stockades escape.

The Communist letter said "our side agrees that the delegations of both sides meet at an appointed time to discuss the question of implementation of the armistice agreement and the various preparations prior to the signing of the armistice agreement.

DISCUSS DATE

"The date for the meeting will be discussed and decided by the senior delegates of both sides through liaison officers."

Informed sources said the next move probably will be an Allied request for a liaison session to fix the date for a meeting of the full truce delegations.

Thousands of South Koreans paraded through the streets of Seoul crying for the UN command to fight on until Korea is unified.

President Eisenhower's truce envoy, assistant secretary of state Walter Robertson, met with Rhee again Wednesday in an effort to win his support of a truce. The talks are reported to be stalled on Rhee's insistence that the U.S. agree to resume the war unless a post-armistice political conference progresses toward unification of Korea within 90 days.

Robertson has rejected the demand.

REDS HAVE

(Continued on Page 2)

Fire At Newspaper Brought Under Control

MONTREAL (CP)—Firemen today quickly brought under control a fire in the offices of La Presse, a Montreal daily.

No one was injured.

The fire was believed to have started in the newspaper's roto-engraving section. No immediate estimate of the damage was available.

As soon as the fire was extinguished plans were made to publish at least one edition of the newspaper today.

The editorial department was the only one functioning normally following the fire. Water damage forced temporary closing of the business and other offices.

The three-storey La Presse building is located at the corner of St. James and St. Lawrence streets in the downtown business district of Montreal. Morning rush-hour traffic was tied up for more than an hour.

Will Extend Jobless Insurance Plan

OTTAWA (CP) — Extended unemployment insurance coverage for Canadian workers will go into effect Aug. 3, it was learned Tuesday.

The enlarged benefits cover persons who become incapacitated after losing their jobs. They were authorized at the last session of Parliament, but proclamation of the measure was delayed while details of the plan were worked out.

Officials said unemployment insurance commission offices across the country now have instructions for applying the legislation.

Persons thrown out of work now receive insurance benefits only as long as they are available to take on other jobs. If sickness or other disability bars them from calling personally for their insurance cheques, they do not collect.

Under the new amendment to the Unemployment Insurance Act those becoming incapacitated after unemployment starts will continue to receive benefits for as long as they would be qualified to get them if they were capable of working.

However, workers who have to leave the job in the first place because of illness or injury will not be covered by the federal insurance plan.

Britain Standing Firm On Suez

LONDON (CP) — Britain will stand firm in Washington on her policy of holding the Suez canal zone pending a wider settlement with Egypt, government officials said Tuesday night.

The word came out after the British cabinet met Monday to brief the acting foreign secretary, the Marquess of Salisbury, for his talks Friday with U.S. State Secretary Dulles and French Foreign Minister Georges Budault.

Salisbury's orders to stand firm may have been prompted by the belief here that Dulles has been formulating a new Middle East policy for the U.S. since his recent swing through the region. Some officials have deduced from Dulles' public statements that the U.S. may be inclined in the future to show more sympathy for Egypt's case in the prolonged quarrel with Britain over Suez canal defence.

Egypt has demanded that Britain quit the great bases built up around the Suez at a cost set at $1,400,000,000.

Britain has refused to quit, arguing that her skilled technicians alone are capable of maintaining the complicated installations, but saying she will gradually withdraw her estimated 70,000-strong Suez garrison if Egypt agrees first to join a wide Allied-sponsored system of Middle East defence.

RCMP Contingent Heads For Home

LONDON (CP) — The RCMP Coronation contingent packed its bags today for home.

The red-coated band leaves by sea Thursday. The Mounties wrapped up their tour Tuesday when they were inspected by the Queen at the Royal Mews in an afternoon appointment that only the Royal Family and the 46-man group knew about.

The Queen, the Duke of Edinburgh, Prince Charles and Princess Anne inspected them astride their coal-black horses.

An RCMP spokesman said the inspection took about 15 minutes. The Queen chatted briefly with several members of the contingent which sails from Southampton for Halifax.

Since they arrived, the Mounties have received some of the most rabid acclaim of any visitors this summer. They took part in the Coronation procession in two groups and put their internationally-known musical ride on at the royal tournament here and at a week-long exhibition at Alloa, Scotland.

Canadian Steel Companies Hold Out Against Increase

TORONTO (CP) — Canadian steel companies are holding out against any wage increase in the industry.

The United Steelworkers of America (CIO-CCL) and the Steel Company of Canada at Hamilton and the Algoma Steel Corporation at Sault Ste. Marie have been negotiating, but no agreement has been reached.

C. H. Millard, Canadian director of the union, now has called a conference for July 17 of the negotiating committees of the two locals unless a "reasonable offer" is made in the meantime. The conference will be held in Toronto.

The dispute involves 12,000 workers, 6,000 at Hamilton and the same number at Sault Ste. Marie. Their contract with the companies runs for two years. Although signed last year, the contract provides for a re-opening of wage discussions during the two-year period.

The union is asking for an 8½-cent-an-hour increase to bring the hiring rate up to that of the United States steel industry.

An official speaking for the companies said they have taken the position that this isn't the time for a further increase. Business was slipping because of competition, notably from West Germany, Belgium, France and England.

The officials added, however, that the door has not been closed on further discussions with the union.

Town In Dither

3-Toed Creature Unnerves Residents

NEW HAMBURG (CP)—A slimy three-toed creature with a hideous tail crawls the streets of this southwestern Ontario town by night and hides by day, Police Chief George Thomas said today. The 2,200 residents are in a dither.

The chief says it's no joke and won't rest until he kills "this beast." He has already taken a couple of shots at it.

Deep marks in the ground, made by the three toes on two legs, have been seen clearly in the morning. The heavy tail has also left an imprint.

IT'S NO JOKE

"This is no joke," the chief said. "In fact it will be a tragedy if anyone is attacked by it."

He said he caught a glimpse of the creature Saturday night as it was half-running, half-crawling back to its lair somewhere near the Nith river.

"I fired at it with my revolver, but it was too dark to tell whether I had nicked it or not. I'll be waiting every night from now on."

Townspeople are also on the watch. Mothers have forbidden their children to go near the river.

Chief Thomas figures the creature to stand about three feet and weighs about 50 pounds.

Dr. F. A. Urquhart, director of zoology at Toronto's Royal Ontario Museum, said the creature might be either an American bittern or a great blue heron, both large water birds.

He said both birds have three toes and are common in Canada.

Expect Power Licence Given Within 10 Days

MORRISBURG (CP) — Transport Minister Chevrier said Tuesday night the government has been told that the New York state power authority will be licensed "in about 10 days" to co-operate on the power phase of the St. Lawrence seaway and power project.

He said at a political meeting in this St. Lawrence river town that once this licence is granted the New York authority by the federal power commission in Washington, the first step will be construction of a control dam at Iroquois, Ont.

The New York power authority and the Ontario hydro-electric power commission will build the power projects in co-operation.

WILL HAVE LICENSE

"We have been told in about 10 days time the New York power authority will receive licence from the federal power commission in Washington to proceed with this important project."

At the same time work starts on the Iroquois dam, "the government will launch work on navigation facilities at Cornwall," Mr. Chevrier said

Mr. Chevrier said however that opponents in the United States might hold up work on the project by litigation.

Allies Smash Red Onslaught

SEOUL (AP)—Victorious U. S. and South Korean infantry mopped up the remnants of two Chinese regiments today after smashing the onslaught of some 6,000 Reds on the western front.

The battles, which opened Monday, dropped to a sporadic stage this morning as Allied infantry crept through an intense Chinese barrage to rout out the last Red survivors.

Troops of the RoK 2nd division had just about cleared off their position on Arrowhead ridge by noon, but U. S. troops still were working on small knots of Chinese holed up in old bunkers on the western slope of Porkchop hill.

A new action flared to the southwest, north of Korangpo, just before midnight Tuesday. The Reds struck at neighboring outposts Berlin and East Berlin. They were smacked back off the northern slopes but later in the morning the Reds took another fling at East Berlin and were locked in heavy action at midday.

The Weather

Peterborough Temperatures:

Today:
Night low....53 Noon.....64
Noon barometer.....29.15

Yesterday:
Highest.....77 Lowest...54

One Year Ago:
Highest.....86 Lowest...55

Official forecasts issued by the Dominion public weather office in Toronto at 9:30 a.m.,

Synopsis:

Cool air circling around an old storm centre east of James Bay swept into Southern Ontario Tuesday evening, and showers and thunderstorms were set off along its leading edge. As the Great Lakes area gets deepet into the cool air there will be gradual clearing along the lower lakes, and sunny weather will be general over the southern part of the province today and Thursday. However, skies will be mostly cloudy north of Lake Superior both days and there will be a few scattered showers today.

Regional forecasts valid until midnight Thursday:

Lake Erie, Lake Huron, Lake Ontario, Niagara, Georgian Bay, Haliburton, Kirkland Lake Regions; Windsor, London, Hamilton, Toronto, North Bay, Sudbury cities: Sunny with a few cloudy intervals today and Thursday. Not much change in temperature. Wind west 15 both days, becoming light at night. Low tonight and high Thursday at: Windsor 55 and 80, London and St. Thomas 50 and 80, Wingham 50 and 75, Toronto, Hamilton and St. Catharines 55 and 80, Trenton 55 and 75, Muskoka and Killaloe 45 and 70, Earlton, North Bay and Sudbury 45 and 65.

Summary for Thursday: Mostly sunny.

May Give E. Germans Surplus U.S. Food

WASHINGTON (AP) — Officials of the United States state department are exploring the possibility of offering surplus American food to hungry East Germans.

The step is being considered as a joint cold war - humanitarian partly-[illegible] Bonn for his view on whether the United States should attempt such a project.

Conant was instructed to give the department some idea of what public reaction would be in East and West Germany to such an offer.

WARTIME SCARECROW — Outworn and abandoned United Nations battle equipment has its uses for a South Korean farmer whose barley fields are just behind the front lines. Topped by a rusted helmet, a pair of army trousers draped over a horizontal bar form this scarecrow. The figure in the field—perhaps aided by the thunder of nearby guns—has proven successful in keeping the birds away from the grain.

Order Plans For Expressway

TORONTO (CP)—The executive committee of the council for Metropolitan Toronto ordered Tuesday that plans be drawn up for Metropolitan Toronto's first arterial highway.

It is expected that a lakeshore expressway of four or six lanes will get top priority. The expressway will run from the Humber bridge to Woodbine avenue. The cost is expected to exceed $20,000,000.

Fred Gardiner, chairman of the council, ordered a meeting of the roads and works commissioners for Metropolitan Toronto, members of the Toronto harbor commission and the city planning commissioner to study plans for the expressway.

NEW TENSIONS

News that the Communists were ready to go ahead with preparations for an armistice created new tensions in the South Korean government.

Dr. Karl Hong Ki, official government spokesman, told newspaper men:

"It is obvious that by this action the Communists are trying to do three things.

"1. Break relations between the Republic of Korea and America.

"2. Ruin the negotiations now going on between President Rhee and the American government.

"3. Make the United States' world position more difficult than ever."

MORE ABOUT—

Defy Soviet

Continued from Page 1

The U. S. high commission's Berlin newspaper, Neue Zeitung, reported strikes and demonstrations in other Soviet zone cities. Protesting citizens, it said, demanded the additional food and consumer goods promised by Communist Premier Otto Grotewohl's puppet regime.

Berlin workers also insisted on resumption of traffic with West Berlin and lower prices in the state-owned stores.

TOUCH OFF STRIKE

East Berlin's new strike wave was touched off Tuesday by construction workers on the big Stalin Allee housing project, the same group whose defiance ignited the revolt three weeks ago. They threatened a new march on the government despite the Russian tanks and guns that still enforce martial law in the city's Soviet-held portion.

The workdays [illegible] normal.

The U. S. radio station RIAS begged the East Germans to hold their tempers lest they be drowned in a blood bath. The West Berlin newspaper Der Tag, with close political and church connections in the East, has said that 300 Germans lost their lives in the June uprising.

Produce, Livestock Markets

MONTREAL LIVESTOCK

MONTREAL (CP)—Steady prices ruled quiet dealings today on Montreal livestock markets.

Receipts: 20 cattle, 93 calves, six sheep and lambs and 68 hogs. Receipts Tuesday: 224 cattle, 1,023 calves, 155 sheep and lambs and 726 hogs.

Good cows 15, medium 13-14, common 11-13; good bulls 14-14.50, common and medium 10-13.50.

Good vealers 21-22, medium 18-20, drinkers 12-16.

Sheep 5-14.

Hogs grade A 33.50, sows 24.50.

CHICAGO GRAIN

CHICAGO (AP)—Wheat sold off in active dealings today.

Losses were restricted to the nearby months, however, with the March and May contracts showing a steady tone. Feed grains were firm and soybeans mixed.

Wheat started a cent lower to ¼ higher, July $1.94¾-1.95; corn was unchanged to ⅜ higher, July $1.55½ and oats were ⅛ lower to ¼ higher July 74⅞-½. Soybeans were ¼ lower to ½ higher, July $2.72-2.72½.

TORONTO PRODUCE

TORONTO (CP) — Churning cream and butter print prices were unchanged here today.

Sales were steady and prices were unchanged at the egg market. Quotations for graded eggs in fibre cases were: A large 68; A medium 66; A small 50; grade B 47; grade C 42. Wholesale to retail: A large 73; A medium 71; A small 55; grade B 52; grade C 47.

Butter solids: first grade tenderable 58 cents; non-tenderable 56½-56¾; western 58.

TORONTO FRUIT

TORONTO (CP) — Wholesale fruit and vegetable price changes quoted here today were: beans, Leamington, 11-quart basket, green or waxed $1.00-1.25; cabbage, Cdn. $1.00-1.25; Green onions, dozen 30-40; spinach, field, bushel $1.75-2.00; strawberries, 27-quart crate $7.50-9.00; tomatoes, hot house lb. No. 1 30-40; Leamington No. 2's and domestics $2.00-2.50; red currants, quart 22-25.

Potato prices: P. E. I., cold storage — $1.85; New Brunswick, cold storage—$1.75-1.85; potatoes, new: Ontario, Leamington, truck $2.00-2.20; to trade—$2.40-2.60.

BUFFALO LIVESTOCK

BUFFALO, N. Y. (AP)—Cattle 400; one load western steers 18.50; one load of holdover dry-fed western steers and heifers 20; heavy cutters, medium fat and fat cows 10.50-12.50; light cutters 9.50-10.50. Canners 7.50-9.50. Fat yellow cows 9.50-10.50. Good heifers 14.50-15.50; mediums 12.50-14; sausage bulls 15-16; mediums 13.50-15.

Calves 100; choice calves 23-25; medium and good 18-22; heavyweights 17-20; heavy bobs 15-18; light bobs and boners 15.

Hogs 375; good to choice N. Y. state hogs 26-26.75.

Sheep and lambs 250; market not [illegible]

70⅜A; Dec ⅛ lower 69½.

Barley: Jly ⅛ lower 1.15⅝B; Oct ⅛ lower 1.14¼B; Dec unch 1.11¼.

Rey: Jly ⅝ higher 1.26¾A; Oct ⅝-½ higher 1.30⅛; Dec ⅝ higher 1.32.

Flax: Jly ¼ lower 2.89½A; Oct ½ lower 2.92¾; Dec not open.

TORONTO LIVESTOCK 6

TORONTO (CP) — Prices were firm on light steers and heifers and steady on other killers at the Ontario stockyards today. Receipts: Cattle 390; calves 70; hogs 230; sheep and lambs 110; holdover from Tuesday 600 cattle.

Choice light steers 19-20; medium to good 17-18.50; good to choice heavy 17-18; good heifers 18.50-19; plain steers and heifers downward to 15; good cows 14-15; good heavy bulls 13.50-14.50; choice fed yearlings 20 to 21.50; a few stockers 15.17.

Calves were firm at 18-20 for the bulk of sales with tops at 22; common to medium 10-17.

Grade A hogs 33; dressed sows 23.

Lambs opened at 28 for good ewes and wethers and closed at 29; bucks were at a one dollar discount; common to medium sheep 5-8.

Want Peaceful Reunification

WASHINGTON (AP)— President Eisenhower said today the United States looks forward to and intends to work for the peaceful reunification of Korea.

The president declined at a press conference, however, to say whether he has received any indication that President Syngman Rhee of South Korea might be willing to go along with the proposed armistice.

He said that at this point no man can tell how the troubles in Korea are going to come out.

Eisenhower said he wanted to make it clear that every one in the U. S. understands the aspirations of Rhee, who has balked at signing an armistice unless it calls for unification of North and South Korea.

The president also said he would have no real objection to travelling to London, instead of Bermuda, for a Big Three conference with British and French leaders. He added, however, that he has received no proposal that such a switch be made.

German Workers Refusing To Sign Pledges

BERLIN—Many workers in the Soveit zone of Germany have been boycotting loyalty demonstrations organized by the Communist authorities and have been refusing to sign pledges of support for the East German regime.

This form of continued hostility to the Communists appears to be one of many factors that are frustrating Red attempts to restore the facade of public backing for the Communist government shattered by the workers' uprisings two weeks ago.

The Communists began to organize loyalty parades early in July in many cities and towns, including a fairly large one that turned out unsuccessfully in East Berlin. Scattered reports indicate that they met with partial or complete failure in communities of every size in many other parts of the Russian zone.

At Brandenburg, for example, the workers at the Thaelmann shipyard and the IFA—tug boat factory were ordered to take part in a counter-demonstation against the anti-Red rebellion. They refused. The Communist officials finally managed to pressure enough workers to fill part of four trucks and six buses. These half-empty vehicles were driven through the streets of Brandenburg as a loyalty parade, accompanied by people's police on motorcycles.

At Zossen, south of Berlin, only about 200 workers showed up from a number of surrounding factories when summoned to a loyalty demonstration. Most of them walked off after a few minutes of speeches by the Communist authorities. Also in Zossen the entire population boycotted a public meeting that was held out side the hotel Deutsches Haus to hear Communist addresses on the subject "the background of the events of June 17". Only 20 Red party members showed up.

At Catmnitz (Karl Marx Stadt), workers were assembled in a food distribution co-operative to hear a Communist Party official call for a loyalty oath to the Red authorities. The workers listened in silence. Their mood is reported to have been so sullen that the Communists made no further effort to extract the oath.

In the Dralowid Works in Teltow, South of Berlin, the Communists attempted unsuccessfully to obtain signatures to a declaration approving the arrest of seven of the factory's employees and endorsing other measures taken by the Communist government to stop the uprising.

In the railway repair yards at Schowneweide in East Berlin, the workers were told to sign a loyalty oath to the East German regime. Virtually all refused. In the Berolia Restaurant on Alexander Platz, also in East Berlin, employees were assembled to hear a resolution that pledged their loyalty to the government. They walked out of the meeting.

In Babelsberg, near Berlin, the Communist officials failed to get a word out of the workers after reading a loyalty pledge to them at the Karl Marx Locomotive Works. The Reds called for open discussion of the oath, but the workers refused to take part.

Three Youths Given Suspended Sentence

Three youths were each given suspended sentences for two years today for a series of thefts of automobile tires and accessories from three city garages on Sunday.

They were Daniel Greeniss, 17, of Bewdley and Garry Hegadoren, 17 and Gerald Dew, 18, both of 61 McCall St., Toronto. The thefts were from Duffus Motors, Williamson Brothers Motors and Edwards Motor Sales.

"You are getting a bigger break than you possibly realize," Magistrate W. R. Philp told them. "But if there's any repetition of this type of offence you may be brought back and sentenced on these charges."

Greeniss was ordered to report to county probation officer John Twigg at least once a week or as Mr. Twigg deems necessary and the other two were to report to a probation officer in Toronto as instructed by Mr. Twigg.

"This means the probation officer has a firm control over your [illegible] next two years," His [illegible] the court that this would apply to the residence and place of work of the three youths.

A bond of $250 was ordered for each of them.

Miners Drilling Contest Held

COBALT (CP)—A miners' drilling contest was the feature event Tuesday at 50th anniversary celebrations in this Northern Ontario silver-mining community.

V. Arney from the Niagara tunnel project won the jackleg drilling contest, drilling more than five feet in three minutes. M. Poirier and G. Ruddy, both of Cobalt, were runners-up.

Two Cobalt men, Roland Cote and Rene Maurier, won the hand steeling contest, and Ruddy Gregory of Cobalt took the hand-mucking competition.

Despite thunderstorms and heavy rains, hundreds of persons gathered to watch the contests on the Buffalo Slimes, where 30 years ago miners from all over the continent competed for $1,000-prizes.

Anniversary officials said the first two days of the week-long celebrations indicated they will be financially successful. Crowds continued to pour into Cobalt Tuesday.

A North Bay team took first prize at a square dance contest Tuesday night at the Cobalt Arena.

Prices Ease Gently In Listless Trading

TORONTO (CP)—Prices eased gently in listless early afternoon stock market trading today.

Industrials levelled off after four days of rising prices although gains still outnumbered losses. Golds, base metals and western oils all faded in quiet dealings.

Uraniums and New Brunswick base metals retreated on a wide front. Briiund dropped 40 cents.

Papers, foods and manufacturing companies were forward in industrials but utilities, and financial institutions eased. Tamblyns in retail stores was a specialty with a 2½-point gain.

In golds, seniors mixed while juniors and holding companies tended lower. Preston East Dome eased with a 10-cent drop while Inspiration topped the losers in holding companies.

In base metals a few higher-prices stocks moved upward but the bulk of lower-priced issues were down. Sherritt-Gordon, Dominion Asbestos and Steep Rock led the decline.

Western oils traded lower. Banff dropped 34 cents.

U.S. Dollar At Discount

MONTREAL (CP)—The U. S. [illegible] was at a discount of 25-32 per cent in terms of Canadian funds, the Bank of Canada reported at noon today. Tuesday's noon rate was 99 13-16 cents. Pound sterling $2.79⅜, against $2.79 5-16.

No U.S. Aid For Iran Till Oil Row Settled

TEHRAN, Iran (AP)—President Eisenhower has written Premier Mossadegh that the United States will give no economic aid to Iran until a settlement is reached on the oil question, it was learned today.

Iranian sources said Eisenhower's letter to the premier declared the United States was disturbed also over the freedom permitted to the Tudeh (Communist) party in Iran.

The oil question involves the nationalization by Iran of the $1,500,000,000 holdings of the Anglo-Iranian Oil Company in 1951. Britain and Iran have held lengthy negotiations in an attempt to reach a settlement. The U. S. has attempted in vain to mediate the dispute.

Congress Reserves Right To Decide

WASHINGTON (CP) — President Eisenhower said today that Congress has reserved to itself the right to decide how new power is to be developed at Niagara Falls —by private enterprise or otherwise.

He told a press conference that he would have nothing to say on the matter until a bill comes from Congress to his desk.

The House of Representatives rules committee now has before it private enterprise to build new power facilities at the falls.

But it got a cool reception from the committee in study Tuesday.

The indifference of the committee to the legislation coincided with the arrival in Washington of Governor Dewey of New York. Dewey wants New York state to carry out the $400,000,000 development.

Domestic Beef Market Has Highest Prices

ROCKGLEN, Sask. (CP)—Agriculture Minister Gardiner says Canada's beef producers can sell Britain all they produce if they are willing to take 23 cents a pound for it.

Mr. Gardiner told a public meeting Tuesday night that pork, cheese, butter, eggs and other products similarly command a higher price on the domestic market than if exported to Britain at prices which Britain is paying other countries.

Mr. Gardiner spoke in this south-central Saskatchewan town in support of Elmer Meek, Liberal candidate in Assiniboia in the Aug. 10 federal general election.

Last year when the foot-and-mouth disease embargo closed the United States markets to Canadian beef, "we sold 140,000 head of cattle in the form of beef in Britain," Mr Gardiner said. But the price received would have returned the farmer no more than $13 a hundred. The government paid the difference between that and $25 a hundred for good steers basis Toronto.

The only reason Canada was not selling more beef to Britain was that Britain is buying it for less than Canadian producers can obtain on the Canadian and United States markets.

This, he said, is the answer to those who claim Canada has lost her oversesa markets for food products.

Youth 20, Dies From Injuries

KINGSTON (CP)—Murray Delyea, 20, died in hospital today from injuries received in an automobile accident on the city's outskirts Monday.

Two other men, Chester Delyea and Robert Lake, were injured. Their condition today was reported to be good. Police said they were passengers in a car Murray Delyea was driving when it went off a road, struck a telephone pole and was wrecked.

The three men are from the Kingston area.

See Coronation Film At Secret Showings

DUBLIN (AP) — The film of Queen Elizabeth's Coronation is being shown in the Irish republic—but it's a virtual underground manoeuvre.

The showings have been private with attendance only by invitation.

Moviehouse owners decided against running the Coronation film for fear of touching off reprisals by Irish nationalist extremists who resent partition of the country.

Organizers of the private showings of the Coronation film keep the time and place secret to avoid possible interference.

ON THE GLORY ROAD — 75,000 STRONG — Above is a dramatic picture of the Cotton Bowl in Dallas, Tex., packed with 75,000 people who came to hear Billy Graham, the world-famous evangelist. It was called the largest single evangelistic audience in church history. The most dramatic moment came when the 34-year-old preacher asked that all stadium lights be extinguished. Each person struck a match, and the stadium was once again alight. Graham then asked the people to pray that the flame of freedom will burn forever throughout the world.

WITH THE CANDIDATES ON HUSTINGS

Drew, Duplessis Out To Scuttle Pact Garson Says

By Canadian Press Staff Writer

Hon. George Drew, Progressive Conservative leader, explained Tuesday night where a government of his party proposed to make 40 per cent of their promised $500,000,000 tax cuts. It would come from the defence budget—"this Frankenstein of waste and extravagance which they (the Liberals) have created." Mr. Drew said in a recorded speech broadcast over the CBC's Trans-Canada network that "the choice is clear. There will be no tax reduction by this government. There will be by a Conservative government."

M. J. Coldwell, CCF leader, criticized Liberal immigration policies in Biggar, Sask. He described them as "haphazard, uncertain and confused." The CCF, if elected Aug. 10, would launch a planned immigration program linked with his party's policies for a planned economy

The latter program would maintain full employment and provide adequate housing facilities. Steps would be taken to ensure immigrants standards of employment, wages, hours and working conditions not less favorable than those in effect for other Canadians.

"We would also put a stop to the present undemocratic policy of discrimination against prospective immigrants on the basis of race.

In Mossbank, Sask., Agriculture Minister Gardiner referred to the controversial South Saskatchewan power and irrigation project in a campaign address. He said the federal government will secure cost estimates as soon as there is agreement among the three Prairie provinces on allocation of the water.

He said the government has made this clear to the Saskatchewan government. Mr. Gardiner spoke shortly after a conference with Premier Douglas of Saskatchewan to discuss the Alberta government's recent action requiring that the water be used solely for irrigation purposes.

At McAuley, Man., Justice Minister Garson charged that Mr. Drew and Premier Duplessis of Quebec are out to destroy the Dominion - provincial tax rentals agreements.

He said that as Ontario's premier Mr. Drew "fought against them at every stage." He had not changed his position since then. Mr. Drew urged a conference last November to re-allocate finances among the federal, provincial and municipal governments at a time when the "ink was scarcely dry" on the second post-war agreements.

In Lunenburg, N.S., Trade Minister Howe said at a nominating convention that voters have these choices on voting day Aug. 10:

A Liberal government which raised Canadian exports by almost six times since 1935 or a Progressive Conservative government which would revert to the disastrous trade walls of the depression era.

In Southampton, Ont., John Diefenbaker, a leading Progressive Conservative spokesman and member of the last Parliament, said that Prime Minister St. Laurent has left grave concern about agriculture's future at a time when surpluses are growing and markets are threatened.

It was particularly serious that Mr. St. Laurent intimated during his tour of Southwestern Ontario that floor prices for farm products may be abolished by the Liberals.

Later in London, Mr. Diefenbaker said the Liberal party, aware that seeking re-election on the strength of its record won't work, is attempting to "create fear in people's minds."

Liberal charges that a Progressive Conservative government would do away with old-age pensions, family allowance and other social security had "no basis in fact."

Liberal Steal Greatest Ever

PEMBROKE—The greatest Liberal steal in all Canadian history is going on now clear across the country, declared Fred Young, CCF candidate in Davenport at a meeting here Tuesday night.

"What happened at Petawawa pales into insignificance compared with this bigger deal."

The way the national production of Canada is divided up among the people "is a major scandal which can be laid at the door of the Liberal Government," he told a CCF rally.

Government speakers had claimed national production amounted to $24,000,000,000 a year, or an average family income of $6,856, he said.

"That's what we actually produce, but who gets it? The facts are that 83 per cent of Canadian wage earners get less than $3,000 a year and 56 per cent of our labor force gets less than $2,500 a year. More than this, the Canadian people are going into debt very rapidly. All this adds up to the fact that we as Canadians are producing vast wealth, more than ever in our history, but we aren't being allowed to share in it to any appreciable extent," he declared.

New Election Act Tested In Quebec

By RICHARD DAIGNAULT

QUEBEC (CP) — Quebec's recently-amended Election Act, a subject of vigorous controversy in the last session of the legislature, will receive its first test Thursday in three by-elections.

Georges Lapalme, Liberal leader, who suffered personal defeat in last year's provincial election, will seek a seat in Montreal Outremont. The other two by-elections are in Portneuf, an agricultural and lumbering area near Quebec City, and Matapedia in Gaspe peninsula.

Liberals have been vociferous in their criticism of the Election Act changes, charging that the Union Nationale government is seeking tp perpetuate itself in office. The government said the amendments were designed to remove cumbersome or unworkable features of the old act.

The Liberals objected to a new provision providing a single enumerator, appointed by the returning officer, for each polling subdivision. Formerly there were two enumerators, one named by the government party and one by the Opposition.

AMENDMENT

Another amendment provides that each candidate will have one instead of two agents in each poll, with the deputy returning officer appointed by the government and the poll clerk by the Opposition. The amendment provides further that if either fails to show up, his replacement will be appointed by the returning officer.

Formerly replacements were required to keep representation of both parties on an equal basis.

Another change fought by the Liberals abolished a provision under which a voter could appeal to the Superior Court if his local board of revision ruled against an application for revision or deletion in the voters' list.

Under the revised act, foreign-born voters in urban ridings may be required to furnish citizenship papers at the request of poll officials.

Liberals Won't Run

PICTON (CP) — The Liberal party will not enter a candidate for the Aug. 10 federal election in Prince Edward-Lennox riding, it was decided Monday night at a meeting at Adolphustown. George J. Tustin of Napanee, Progressive Conservative member for the riding in the last Parliament, and Donald Thompson, South Bay farmer, an independent, appear to be the only contestants.

Rare Visitor

HAMILTON (CP) — An albino sparrow, considered a rarity, is visiting the garden of Mrs. John King. The bird, still a fledgling, gets more than the usual amount of attention from its mother.

TOURS WESTERN ONTARIO—John Diefenbaker, one of the leaders of the Progressive Conservative party, spoke in Kitchener in support of Elizabeth Janzen, PC candidate in Waterloo North. Mr. Diefenbaker, member in the last House for Lake Centre in Saskatchewan, forecasts a farm depression unless some realistic policy of price floors for farm products is worked out.

Coldwell Charges Scheme For Immigration Haphazard And Confused

BIGGAR, Sask., (CP)—M. J. Coldwell, national leader of the CCF party, has criticized the Liberal government's handling of immigration as haphazard, uncertain and confussed. Speaking Tuesday in his home riding of Biggar, Sask., Mr. Coldwell said his party, if elected, will inaugurate a program of planned immigration which he said is the only solution to this country's immigration problems. But such a policy is impossible unless it is an integrated part of over-all economic planning to maintain full employment and provide social services, he said.

Speaking from a prepared text before a crowd of 2,300 persons, he repeated his promises of a national health plan and other social services which would be put into effect "whether we are elected to power or not and sooner than a lot of people think."

MORE EXEMPTIONS

The CCF, which would draw up a graduated income tax with increased personal exemptions, also would prepare a bill of rights for the people and bring stability to industry, particularly agriculture, the basis of the Canadian economy.

The CCF would bring stability to agriculture through a system of forward-pricing—the same protection for which a union man negotiates.

Referring again to immigration, Mr. Coldwell said: "We would take the necessary steps to see to it that standards of employment, wages, hours and conditions of work for immigrants are not less than those in effect for other Canadians.

"We would also put a stop to the present undemocratic policy of discriminating against prospective immigrants on the basis of race."

He said there is a lack of cooperation between the immigration and labor departments in handling the problem. Persons were encouraged to come to Canada without positive guarantee there would be work or housing.

Nominate Winters

LUNENBURG, N.S. (CP) — Resources Minister Winter Tuesday night was nominated to contest the new Lunenburg -Queens constituency for the Liberals in the Aug. 10 federal election.

Health Insurance Dusted Off Seven Times

TORONTO—A health insurance scheme has been dusted off seven times and taken off the shelf by the Liberals for several elections George Hees (PC—Toronto-Broadview) told an audience Tuesday night.

"Then as soon as the elections were over," said Mr. Hees, "the promises have been placed on a shelf marked: 'For the next campaign only'."

Mr. Hees said Health Minister Martin admitted after considerable cross-questioning in the Commons last spring that the government had no intention of introducing health insurance in the foreseeable future.

An immediate conference of provincial health ministers and representatives of the medical profession would be called by a PC government to work out a health insurance plan best suited to the needs of the Canadian people, said Mr. Hees.

Answering the question: "What do Canadians want in a health insurance plan?" Mr. Hees said: "They are not asking something for nothing, but simply an easier method to pay their bills for the health services they receive. They want to prepay their medical bills in small regular installments, instead of in one large crushing amount."

Federal Nominations

COAST-CAPILANO — Ernest Silverton (SC).

KAMLOOPS—J. R. Wright (SC).

KOOTENAY EAST—Sam English (Lab-Prog).

NEW WESTMINSTER—Ron Irvine (CCF); George Hahn (SC).

NICKLE BELT — Alistair MacLean (PC).

SUDBURY — Larry Lamoureux (PC).

VANCOUVER - SOUTH — Cliff Greer (CCF); Ira Monson (SC).

x—Member of the last House.

Lunenburg - Queen—xRobert H. Winters (L)

Maisonneuve - Rosemount—Rene Rocque (CCF)

X-Member of last House; A-nominated previously.

New National Labor Code To Aid Jobless Pledged By Diefenbaker

SOUTHAMPTON—The initial move of the Conservatives if elected to form a government will be a new national labor code which will provide for unemployment insurance payments to those out of work because of illness. This was promised Tuesday, by John Diefenbaker, No. 2 man in the Conservative organization. "We intend," he said, "to put into action something which I tried to do 11 years ago. We will set up a national labor code which will provide for unemployment insurance payments to those out of work because of illness or who are crippled and unable to secure work. Anyone who loses his job as a result of being sick will be able to draw unemployment insurance."

Ottawa announced Tuesday that benefits will be extended Aug. 3 to persons who become incapacitated after losing their jobs).

Mr. Diefenbaker, speaking on behalf of Andrew Robinson of Kincardine, Conservative candidate in Bruce riding and federal representative of the riding for four years from 1945, spoke on a platform just a few miles from where he had been born. His grandparents had settled in the area and his parents moved to Saskatchewan when he was a child.

BABY PHOTOGRAPH

A return to his birthplace was not the only event Mr. Diefenbaker celebrated today. It was also the first occasion on which he had been photographed with a baby. Mr. Diefenbaker was quite willing but it took some coaxing on the part of the parents to persuade the child not to cry during the procedure.

The appearance of Mr. Diefenbaker came just a few days after Prime Minister St. Laurent had made a tour of the area. Of this tour Mr. Diefenbaker had this to say: "Faced with the warm personality of the Prime Minister we sometimes forget he has said 'We are running without a policy.' Don't forget the Prime Minister travelled these fertile acres of Ontario and he left sunshine but no hope. He chose to run on a record of taxation without hope of change in the future."

Canada faces the major need of re-establishing a parliament responsible to the people, Mr. Diefenbaker declared. "What we have now," he said, is a parliamentary system under which a Liberal member finds its necessary to vote against his principles because Mr. St. Laurent, Mr. Howe or Mr. Gardiner so decides."

NEED REALIZATION

This country, Mr. Diefenbaker said, needs a spirit of realization of what citizenship is. He said that as the child of a marriage between persons of different races he had realized every census that every 10 years the parental origin of a Canadian was impressed on him.

"That is what brought me into politics," he declared. "We need a Canadian bill of rights to implement the desire of Canadians to build a Canadian citizenship. We have too often seen what happens when discrimination is seized by Communists and used for their own ends."

The only alternative to the present government is the Conservative Party, Mr. Diefenbaker asserted.

"We have gone through a period of penitence in opposition for 18 years. While an opposition is an essential part of democracy, I am sure that from what I have seen in my travels across Canada you will prefer a Progressive Conservative government to those now in power."

The result of the Liberals having been in power for so long is that, like individuals, they have begun to believe in the divine right to rule, Mr. Diefenbaker said. "Only two men voted against the government during the past five years and I regret to say that they are not running in this election."

Deduction of all medical expenses will be allowed if the Conservatives are returned, Mr. Diefenbaker declared.

"We tried to put this through the House of Commons but the attitude of the government is typical of the remark made by Mr. Howe: 'Who is there to stop us'. The answer, of course, is— "We the people, regardless of politics.'"

Quaker Workers Claim Their Demands Are Just

SWING SHIFTS

The citizens of Peterborough have been hearing a great deal about swing shifts during the past eleven weeks. The striking members of Local 293 U.P.W.A. think that the public should understand some of the issues of the strike. The tactics of the Quaker Oats Company have resulted in some confusion in the minds of Peterborough Citizens.

The swing shift means that a Quaker employee would work a five day week, but the mill would operate on a six day basis. In order to do this, the employees would take one of their days off in the middle of the week and work all day Saturday.

We know that the unions in the various factories in this city would protest bitterly if they were asked to accept this backward step.

Throughout the past four years, the Quaker Oats Company has confined itself to a 5-day schedule, Monday to Friday, and as a general rule has not operated on Saturday in most departments, including the flour mill. Two years ago, the Quaker Oats Co. introduced new machinery into the plant which greatly increased the efficiency in the department, but at the same time the capacity of the flour mill was reduced by some 500 barrels per hour, by the removal of one unit altogether.

That the company should deliberately decrease capacity, and then turn around and say they must have an extra days production in order to fill its orders, doesn't make sense to the employees. Workers at Quaker Oats, like the thousands of other factory workers in this city, want their two days off together, so that they can enjoy them together wtih their families.

WAGES

Quaker workers are asking for the same base rate that is now being paid by two milling companies under contract to the United Packinghouse Workers, namely Maple Leaf, and Robin Hood at Port Colborne.

We list below a few comparisons taken from other contracts:

CEREAL DIVISION

			Quaker (with 15% Offer)
Guns			$1.52½

This is a difference of from 17 to 9½ cents in the above rates even with the increase of 15% in the latest Co. offer. General Foods produces breakfast cereals in competition with Quaker Oats.

FLOUR AND FEED DIVISION

Maple Leaf, Pt. Colborne		Robin Hood	Quaker (with 15% offer)
Mixer	$1.52½	1.50 - 1.52½	1.39 - 1.44½
Pellet Machine	$1.46½	1.46½	1.43
Packers	$1.46½	1.46½ - 1.57½	1.43
Sweeper	$1.39	1.39 - 1.45	1.36½
Boiler Man	$1.69½	1.69½	1.55
Wheat Cleaner	$1.67	1.63	1.48½
Purifier	$1.57½		1.48½

MECHANICAL DEPARTMENTS

Maple Leaf		Robin Hood	Quaker (with 15% offer)
Millwrights	$1.75½	1.75	1.67
Electricians	$1.63½	1.75	1.52½ - 1.55½
Engineers 3rd	$1.63½	1.60½	1.50½

A glance at the above tables will surely show that the rates being paid now or the rates that are being offered by Quaker Oats are not in line with what is being paid by other mills.

WEDNESDAY, JULY 8, 1953

Mr. St. Laurent's Retirement

A number of newspapers of Conservative sympathies are attempting to create an election issue from the possible retirement of Mr. St. Laurent. Because the Prime Minister is in his 72nd year, his retirement within the next four or five years is a possibility, but it is not a certainty. However, if he should retire, what will happen then? The papers which talk most about his retirement have a ready answer: then Canada will be thrown into the hands of Mr. Jack Pickersgill—a fate worse than death, we are urged to believe.

* * *

If we think about the matter for twenty seconds, however, we do not believe it. In the first place, Mr. St. Laurent will not choose his successor; a convention of the Liberal party will do that. If Mr. St. Laurent were compelled, for some reason, to resign his post, he would recommend a successor to the Governor-General, and that successor would undoubtedly be one of the seniors of his Cabinet — not a newcomer like Mr. Pickersgill. The party leader would be chosen at a subsequent convention. Possible party leaders are not rarities; those who cast their minds back to the last Liberal convention will recall that there were eight men, all of whom were possible leaders, who presented themselves to the convention as aspirants to that post. When next a choice has to be made it is possible that Mr. Pickersgill might present himself among the candidates; it is ridiculous to suppose that he would be the only man to do so, or that any magic which Mr. St. Laurent could work would ensure Mr. Pickersgill's election. Therefore those people who are worrying about Mr. Pickersgill may quiet their fears.

* * *

Frankly, we do not suppose that Mr. St. Laurent will want to retire for another two years. Suppose that he is re-elected as Prime Minister; he must organize his Government and his followers in the House of Commons, and he must put his house in order before he can think of retirement. A Liberal convention must be organized and a new leader chosen. All of that would take a couple of years. That would leave the new man—whoever he might be—two further years in which to learn the ways of his new office.

* * *

The retirement of Mr. St. Laurent is not an election issue. No man is immortal and no man is free of fatigue, so he must retire some time. But it is scarcely something that we need worry about at present.

The Commonwealth Division

The Commonwealth Division in Korea is again back in the line, where it was almost continuously (and usually against the Chinese) for two years until it was relieved in the spring. The relief was then expected to be permanent, for a truce in Korea was almost a certainty. Now the Commonwealth Division is again exposed to hardships and casualties of the front line.

The Division has already had 6,000 casualties, more than half of them suffered by United Kingdom units and the remaining 2,250 by Canadian, Australian New Zealand and other Commonwealth units.

The Division is highly regarded by know that the 25th Canadian Brigade and Brigade troops in the Commonwealth Division are: the 3rd Royal Canadian Regiment, the 1st Princess Patricia's Canadian Light Infantry, and the 1st Vingtdeuxieme Royale Regiment (the Royal 22nd). Canadian support troops include the 1st squadron Canadian Tank Regiment and the 91st Field Regiment, R.C.A.

The Commonwealth Division has made an excellent and sometimes heroic showing in the Korean War, and the 25th Canadian Brigade shares the credit for that reputation.

Hotter

It is hotter than it was. A Washington scientific weatherman says that the earth has become 2.2 degrees hotter in the winter time during the last sixty years. This does not seem a great deal but if the process goes on at the same rate southern Ontario can indeed become a banana land, and Texas a permanent Sahara, for an average increase of only a few degrees spells the difference between an ice age and a hell on earth. Dr. Harry Wexler, the gentleman already referred to, who is a chief in the U.S. Weather Bureau says that if the average annual temperature fell fourteen degrees "we'd be back in the Ice Age". Conversely if it rises that much, we would be hotter than hell. Thus the 2.2 degrees the North American winter has gained in the last sixty years means that winters like ours last year can be the rule, not the exception. However, nobody in these parts is yet thinking of doing without a furnace and storm windows.

The A-bomb, it seems, has nothing to do with the rise in temperature. For one thing, the A-bomb is newer than the advance of heat. For another, atom bombs dissipate too quickly to make an impression on the climate. The chief reason for the increased heat may be a change in quality of the continent's air; it has more dust and carbon dioxide than formerly. These affect solar radiation.

Even if the majority of people on this continent live in cities and their work is not directly affected by the day's weather, weather justifiably remains the principal topic of casual conversation, because it is the most pervasive article everybody shares in common, and is variable enough to warrant hourly comment. So our readers, being interested in the weather, may be interested in a conference that started today at Brighton, England. It is a special meeting of representatives of the fourteen nations which, in 1949, signed the original agreement to maintain ships on weather patrol in the North Atlantic. Canada is represented, as well as the U.K., Belgium, Denmark, France, Italy, the Netherlands, Norway, Portugal, Sweden, the U.S.A., Iceland, Columbia, Cuba, Israel, Mexico, Spain, Switzerland and Venezuela. This array of nations taking part in Brighton's conference shows that Atlantic patrols in search of weather must be almost as important as wartime Atlantic patrols in search of submarines.

A Little More In The Envelope

July has brought with it holidays, and, pleasantly suitable to them, a little more cash in the pay envelope. Beginning this month lower rates of income tax went into effect. The reduction is not large, nevertheless it is a change in the right direction. The lower tax rates, provided in the last Budget and approved by Parliament, were to have effect after the first six months of the year. That effect has already been noticed by people who are paid weekly. The management did not have to deduct as much from pay envelopes for the pay-as-you-go income tax. The new lower rates continue now throughout the year.

Change And Unrest In Eastern Europe

The uprisings of industrial workers in East Germany have been to date the largest manifestations against Communist regimes in Europe. They have been the most severe, too, and most hardly put down. Fifty thousand persons have been arrested—a sign not only of ruthless masters trying to control the populace, but also a sign of a very large upheaval. The demonstrations in East Germany (principally in Berlin but also in other industrial centres) were bigger, obviously, than East German government officials previously admitted. The troubles of the German-Communist leaders are not yet ended.

Germans are not the only people roused against their conditions and therefore against their governments. Poles have clashed with Russian troops there. The Hungarian government has been reformed, the former Communist boss being unseated as Premier and replaced by the Communist Nagy, who has already criticized the policies of his former boss. There is unrest also in Czechoslovakia. There are revolters in Roumania.

The full significance of these events is not now clear. To what extent they result from the death of Stalin and the new order in the Kremlin one cannot be certain. It is [illegible] the May Demonstrations [illegible] regimented and debased. They are revolting against their conditions chiefly, against Communism indirectly.

If the West has any good propaganda prepared, now is the time to put it into Eastern European ears, and to make certain that Germans, Poles, Hungarians, Roumanians and Czechs know that the cause of thir distress is the Communist leaders who have usurped government and bounds the homelands to Moscow. Never since the war has there been a better moment for the United States and Britain to influence East Europe, directly through appeal to the people.

NOTES AND COMMENT

What really gums up production is not the five-day week, but the five-day weak.

Penicillin will cure lion bites, we read. Thanks, but we will just continue to rub a little wintergreen oil on our lion bites.

Tragedy In Korea

PATRICK O'DONOVAN

THE SITUATION in Korea is humiliating. The small half-state that the Americans created and the United Nations kept alive has rudely contradicted the whole world. It is also tragic, because the truce should have been signed many days ago and it is hard to see for what men are still dying Yet, even now, on some days, they die in their hundreds.

There can be no precedent for this in history. The President of Korea sends his bland and careful letters to the President of the United States or General Mark Clark, rejecting a truce, threatening final disobedience and protesting his friendship and gratitude.

✧ ✧ ✧

LITTLE girls in white frocks press themselves against the barbed wire outside the Press Billets in Seoul or jig up and down in the muddy gutters until they are comfortably hysterical and scream for more war with the tears running down their large and innocent faces. And then their teachers blow their whistles and they turn and march away.

Gangs of youths with patriotic slogans tied to their foreheads beat the National Police over the head, kick them expertly in the ribs and wrench away their rifles because they bar the way to the Press or the President, the same police whose leaders probably ordered the demonstrations.

A South Korean Corps commander on the Eastern front swears he will never obey an order to cease fire. A brigade commander, who can see his ancestral lands through his binoculars on the other side of the Chinese lines, says the day the order to cease fire comes, he orders his men to advance.

✧ ✧ ✧

THE SOBER, professional generals at the top of the Korean army are out of favour and it is the wild men who speak of death and attack that are listened to. Yet none of them has shown any hatred for the foreigners who want to stop the war, in short to "desert" them. Even the Union Jack flying outside a British headquarters in Seoul has never been touched, though every politician here has blamed the British for the American attitude.

It is clear that at present the military commanders and the diplomats are uncertain what to do next. President Syngman Rhee is head of a sovereign state. He cannot be arrested or restrained. He cannot be treated as the leader of a Balkan satellite. He commits no crime and breaks no truce if he removes his troops from United Nations command, or if he refuses a truce or a compromise political settlement.

He cannot be starved into submission or even bribed. He seeems curiously indifferent to threats of future disaster. His people seem delighted with the way he has embarrassed his friends and made the whole world hang on his whims. And so with elegant and frequent protestations of mutual admiration the United Nations and the South Koreans seem to be starting down different roads, the first towards a humiliating withdrawal and the second to certain destruction at the hands of the Communists.

✧ ✧ ✧

IT IS A STRANGE footnote to the situation that the soldiers and observers actually in Korea seem less bitter than people in America and Europe. One has to fight one's admiration for this gallant and dangerous nonsense and remember the facts of the situation.

The peace the United Nations should have signed was probably the best obtainable. The United Nations did not win this war, though they were not defeated. Indeed in the last few weeks the war has actually seemed to go against them, though this can be explained by the Chinese determination to win ground, any ground, at any price, and quickly. The Eastern Communists have proved themselves at least as able negotiators as the United Nations. The United Nations team was surprised by the fact that the Communists did not accept their first proposals and by the strength of the world's opposition to their "tough" attitude.

✧ ✧ ✧

THE UNITED NATIONS were simply not prepared to pay the price in dead men necessary decisively to win this war and so they are ready to sign a peace that would restore to South Korea the frontier that the Communists crossed in 1950, almost exactly three year sago. It allows for a just settlement of the prisoner of war issue.

It is this price that the Koreans have postponed. They are still certain that the peace can be won, even though their divisions have lately given ground before the Chinese attack; they care little for the cost of the sort of victory they desire; and they believe that a compromise peace means their eventual absorption by the Chinese Communists. It is a simple as that.

The truce will probably still be signed—but only because the Chinese now seem to want peace as ardently as the people of the West. But no-one can say what comes afterwards. If the actions of the South Koreans force the United Nations to restart the war, after the tension has been relaxed and their people at home have grown disgruntled, the United Nations would start at a terrible disadvantage. Or if the United Nations withdraw from the peninsula in disgust, then all the blood and suffering will have been wasted. We have started down a long tunnel with no light in it. And it was Syngman Rhee who put out the light.

An American View: UN-RHEE-SONABLE

Traveller's Tale To Port Hope

(Spectator in The Montrealer)

THE TAXI DRIVER who picked us up at the hotel in Peterborough, to drive us to Port Hope to catch the five-thirteen for Toronto, was a little bit late. For the first twenty miles or so he chatted pleasantly enough, but he semed to have something on his mind.

"Funny thing happened just before I called for you," he said at length. "I was over to the bus depot hoping to make a dollar when a bus came in and this young couple with a baby got off. The way they were dressed you could see they didn't have too much money, and they looked like they were kind of upset about something. The husband goes over to the fellow at the ticket office and — well, I happened to be just behind him — and I heard him ask when the next bus left for Perth. Perth's about a hundred and twenty miles from Peterborough. Well, the man said there wouldn't be another bus for Perth until tomorrow morning. I could see right away by their faces what that meant to the young couple. He didn't try to argue or anything, just he and his wife stood there like somebody told them there was a death in the family, which maybe there had been. I guess they didn't even have enough money to stay at a hotel over night.

"Well, just they a bus came in with about four or five empty seats in the back. The driver got out and said something to the man in charge at the depot. They he started off again. "Where's that bus going?' I asked this fellow. 'Ottawa,' he says. 'Ottawa!' I says, "Well, why didn't you put this young couple and the baby on it?' "It's chartered,' he says.

"'By this time the bus is away down the road, but I says to the young couple, 'Get in my cab and ask no questions.' They do, and away we go. I had to drive pretty fast, and I knew I wouldn't get paid for it so I didn't want to waste no time, but it was about ten miles before I caught up with the bus. I pulled in in front of it so's it would have to stop. They I asks the driver, 'Let me speak to whoever's chartered this bus.' A nice looking lady speaks up, 'I'm in charge,' she says. "Well," I says, 'How'd you like to take this young couple here with the baby to Perth, so's they won't be stranded here all night?' 'Why, I'd be delighted,' she says. And that's that. And that's why I was a bit late calling for you."

We drove on in silence. In Port Hope we were in plenty of time. We paid him off, with a little to spare. "No, thanks," he said. "I charged you enough. I never take tips." We explained that we always tipped for satisfactory service. He held the amount of the overpayment in his hand for a moment. "Well, all right," he said, "We can put it this way: this'll be your share of the young couple's fare catching the bus. That way you can count yourself in on it."

He put the tip in his wallet. We thanked him. The five-thirteen was on time. We had the steak for dinner. Tasted fine.

Leprosy In Calgary

(Edmonton Journal)

The discovery of a case of leprosy in Calgary—a recent immigrant from China—has occasioned a mild flurry, but nothing like the horror and alarm it would have caused a few years ago. The changed attitude is due both to increased understanding of the nature of the disease and to the remarkable progress made in curing it.

Leprosy is a most disfiguring disease in its advanced stages, but it is not particularly virulent. Victims, even without treatments, often live for 20 or 30 years after the symptoms first appear, and then die of something else. The peculiar horror in which it was held in ancient and medieval times was apparently due to the belief that it was highly contagious; it was thought that unless the leper were driven into the wilderness or locked up in a "lazarette" the whole community would be infected.

Modern research has shown, however, that in actual fact the infectiveness of the leprosy germ is low, less than that of many common diseases such as tuberculosis. Transmission usually occurs only after long and close contact, among members of the same family. Stories about people contracting the disease through a casual meeting with a sufferer, or by contact with something he has touched, are without foundation. As these facts have become known, the harsh, panic-stricken measures of the old days have disappeared. Most western countries, however, still segregate lepers for treatment in special institutions.

How Time Flies

JULY 8

1933 A movement is on foot to have this district restocked with pheasants.

The Rev. J. R. Clancy of Peterborough celebrates High Mass at the Church of the Blessed Sacrament in Buffalo.

Dr. Phyllis Young commences the practice of medicine in Peterborough.

1933 Claire Gutterson and Danny Simons catch a maskinonge at Pigeon Lake weighing 27½ pounds.

A band of gipsies camped on Highway 7 is ordered out of the district by Provincial Traffic Officer Ted Hornick.

Complaints are received by police that a number of relief gardens here are being looted.

1943 Harold Scott is chosen as Progressive Conservative candidate for the county in the provincial elections.

CQMS Harry Shier, whose brother lives here, is killed in an accident overseas.

RCAF Sgt. James Withers of Peterborough has been commissioned overseas.

Bible Message

(From the Authorized Version)

What things were gain to me, those I counted for loss for Christ. Yea doubtless, and I count all things but loss for the excellency of the knowledge of Christ Jesus my Lord . . . That I may know him and the power of his resurrection, and the fellowship of his sufferings, being made conformable unto his death; if by any means I might attain unto the resurrection of the dead.

Not as though I had already attained, either were already perfect: but I follow after, if that I may apprehend that for which also I am apprehended of Christ Jesus.

Brethren, I count not myself to have apprehended: but this one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus. (Phil. 3:7,8,10-14.)

✧ ✧ ✧

For I say, through the grace given unto me, to every man that is among you, not to think of himself more highly than he ought to think; but to think soberly, according as God hath dealth to every man the measure fo faith. (Rom. 12:3.)

Letters To The Editor

LACROSSE REFEREES

Sir: We would like to know how many lacrosse fans of Peterborough thought the Peterborough-Fergus lacrosse game played on Monday, June 30, was fairly refereed? Particularly the five minute misconduct (as McDonald called it) handed out to young Roger Smith for not handing the ball to the referee. Did McDonald want the ball given to him on a satin cushion?

How the referees could not see the way Harry Wipper was first tripped and then smashed across the face by one of the Fergus so-called player is beyond us. Surely there must be an eye specialist in the city or town where the referees live. (They sure need a check-up).

For Peterborough's sake lets get some decent referees in the O.L.A.

Yours hopefully,
TWO LOYAL FEMALE FANS.

AMBULANCE SERVICE CRITICS

Sir: For the past few months I have been watching our papers very closely re accidents, and the way people were picked up and taken to the hospitals— and I cannot for the life of me see why anyone should complain about the service.

In my opinion it is tops.

What do the people of Peterborough expect for nothing? Just because our ambulance service use a chair to bring a patient down from a second story roof with a broken thigh, is no reason to believe that the ambulance driver does not know what he is doing. So what if he doesn't have the right equipment— he did not need it to get the licence from the council. Why should he buy it now? There has been a lot of talk about the big ambulance been broken down for the last month and a half —so what— the operator did not have to promise to have it in top shape at all times to get the licence.

I feel that there are too many people wanting to get the best of service without paying for it through taxes or some other means.

Our City Fathers can't see spending your money on unnecessary items such as proper ambulance service and why should they? We elected them surely they know what they are doing.

AMBULANCE ADMIRER.

HOME THOUGHTS FROM ABROAD . . . by Giles

AMMO, SKY-HIGH BLASTS and flames light up the sky in Chicago at an Army anti-aircraft station where an ammunition dump explodes after being hit by a bolt of lightning. With charges going off during the thunderstorm that touched off the explosion, Chicago police evacuated nearby residents to keep them safe.

British Dentists Stage Revolt

BUXTON, England (Reuters)—Britain's dentists Tuesday began an open rebellion against the way socialized dentistry is being handled.

The long-brewing revolt came to a head during a session of the British Dental Association's convention here. The dentists' main complaint is that they aren't making enough money.

They are not grumbling about the nationalization of dentistry, which the Labor government introduced in 1948 under the National Health Act. The main thing that bothers them is the revision of the plan which makes patients pay £1 toward treatment, and half the cost of dentures.

INCOMES LOWER

This happened in 1951, still under the Labor government, and since then patients have been much fewer and dentists' incomes much lower.

The association's president, Dr. Edgar Houghton, said the national dental plan has failed.

In the years of all-free dental service — 1948 to 1951 — Britons rushed by the millions to get their teeth fixed and dentists had bumper years.

Foremen Overcome

OTTAWA (CP) — Four firemen were taken to hospital Tuesday night after being overcome by smoke from a fire in a confectionery shop in the city's west end. They were released after treatment. Damage is estimated at $27,000.

Consider Bargaining Rights

TORONTO (CP)—The question of bargaining rights of unions for security guards in hundreds of Ontario plants came before the Ontario labor relations board Tuesday.

The issue was raised on an application from the Dominion Glass Company of Hamilton for an order changing the certification issued to a union so as to exclude security guards from the bargaining unit.

R. V. Hicks, counsel for the company, said labor legislation has been passed since original certification has been granted to the National Union of Vitric and Ceramic Workers in 1949.

The legislation now on the books states that security guards cannot be placed in the same bargaining unit as other employees. Mr. Hicks asked the certification order of 1949 to be amended.

John Osler, for the union, said the issue couldn't be raised before the board because the union and the company had recently signed a new collective agreement covering all employees.

22 Crew Strikers Return To Work

ERIEAU (CP) — Twenty - two striking crew members of the collier Alexander Leslie returned to work Tuesday night after receiving word of a settlement of issues between the union and the Lake Erie Coal Company.

Details of the settlement were not known. Picket lines were called off and the collier was expected to pull out during the night for the Lakehead.

The men, all members of the Seamen's International Union (AFL-TLC), walked off the boat when it docked early Monday. They sought a new contract for higher wages and overtime.

Find Body In Field

FORT ERIE (CP)—The body of a man believed to have been about 65 years old was found in a field of deep grass north of the Grand Trunk Hotel Tuesday night.

Police said the badly-decomposed body was found by two employees of the Niagara Racing Association. Coroner Dr. Sandford English said an autopsy will be conducted.

Falls 85 Feet, Lives

TRAIL, B.C. (CP)—Roy Booth, 23-year-old Waneta dam worker from Vancouver, fell 85-feet Monday and is still alive. He crashed onto solid concrete from a scaffolding near the top of a powerhouse. Three other workers jumped to safety. Booth suffered a fractured skull, fractured leg and severe body bruises.

COUNCIL OF WAR AND PEACE—With UN and Red forces in Korea battling fiercely as truce negotiations continue, top-level military men gather in Tokyo to map out war and peace plans. At the Tokyo conference are, left to right: Maj. Gen. Riley F. Ennis; Maj. Gen. Ernest Moore of the U.S. Air Force; Maj. Gen. Bryan L. Milburn; Vice Adm. Robert P. Briscoe of the U.S. Navy who commands naval forces in the Far East; Gen. Maxwell D. Taylor, U.S. Eighth Army Commander; Gen. Mark Clark, Chief of the Allied Command; Gen. Otto P. Weyland; Lt. Gen. Paul W. Kendall; Adm. Byron H. Hanlon of the US. Navy; and Maj. Gen. Gilman C. Mudgett.

Loses $10,000 In 'Sure Thing' Race Bet

WINDSOR, Ont. (CP)—Otho L. Piper, 47, a wealthy Warsaw, Ind., contractor, complained Tuesday to Windsor and Detroit police that he lost $10,000 in a horse racing bet Monday when he became involved in a "sure thing" scheme which had earlier earned him $6,200 in winnings.

Piper, a former wrestler, took his loss good naturedly and said it wouldn't "break me."

Police said they were inclined to go along with Piper's theory that he was the victim of a mistake rather than an attempt by two friends to swindle him.

He told police he was first introduced to the complicated system of laying "sure thing" bets two years ago when he met a man known to him only as Col. Kretcher, about 70, in a Warsaw betting parlor.

ELECTRONIC TELEPHONE

Under the system, two men introduced to Piper as Harry Bolinger, 43, and Jack Ahern, 30, used an "electronic telephone." With this gear they were able to rush results of horse races to clients seconds after a race was over and before the results were delivered to bookies through normal channels. Then the men "in the know" hurried to bookies to place bets on the horse that won.

Piper said he received a telephone call two weeks ago from Bolinger and Ahern who said they had a "sure-fire system that wasn't ethical but that it worked."

On advice of the two men, Piper flew to Windsor. At a hotel here Monday he met the two men and Col. Kretcher.

HANDLED WINDSOR END

Piper said he was assigned to handle the Windsor end of the electronic telephone over which he heard a voice on the other end say No. 3 horse won the race at Monmouth Park in New Jersey. He relayed the winner to the three men who placed bets, including Piper's $10,000.

Piper later received a call from the three men who informed him No. 13 horse had won and they had lost all their money. They said Piper must have made a mistake in the number of the winning horse.

The men telephoned Piper twice later but said they could not meet him. He hasn't heard from them since.

55th Wedding Anniversary Marked By Family Reunion

HAVELOCK (ENS).—The Rev. John Gibson, rector of the Anglican Church, Norwood, united in marriage Thomas Cummins and Lucinda Seabrook, July 6, 1898, the ceremony being performed in that church. The 55th anniversary of that happy event was celebrated Sunday at the home of Mr. and Mrs. David Seabrook in Belmont Township. The celebration took the form of a family reunion with a picnic lunch on the lawn. Mr. and Mrs. Seabrook were the groomsman and bridesmaid of 55 years ago. The former is a brother of Mrs. Cummins and Mrs. Seabrook was formerly Flora Toms.

In recalling their wedding day, Mrs. Cummins said the weather was lovely but very hot and the journey to Norwood for the marriage ceremony was made with horse and buggy. After their marriage Mr. and Mrs. Cummins took up residence at the west end of Havelock where Mr Cummins was employed as a blacksmith with his uncle, the late Thomas Cummins. He is also an excellent steel worker, having been employed by the Pigott Construction Co. and the Hydro Electric Commission. They have resided in Havelock ever since their marriage with the exception of about three years in Peterborough and Bancroft.

OPERATED NURSING HOME

Mrs. Cummins operated the Havelock Nursing Home for 32 years and did practical nursing before that. She has been an active member of the WA of St. John's Anglican Church all of her married life. Born in Asphodel Township, she is a daughter of the late William Seabrook and Elizabeth Adams, but spent most of her childhood on the farm where the anniversary celebration was held, and which is known as the Seabrook homestead. Mr. Cummins is a native of Alnwick Township.

During the afternoon Mr. and Mrs. Cummins were presented with a purse of money from their brothers, sisters, nephews and nieces. The address was read by their niece Mrs. Thurlow Andrus, and the gift was presented by Mrs. Cummins' sister, Mrs. N. Whitney. They also received a bouquet of roses from their nephew, Mr. Harold Seabrook and Mrs. Seabrook of St. Catharines, as well as many other personal gifts and cards of congratulations.

Among those present were: Mr. and Mrs. Walter Hargreaves and sons Murray, Ronald, and Ted, Mr. and Mrs. Archie Patterson, Mrs. James Seabrook, Mr. Robert Seabrook and son Reginald, of Trenton; Mr. and Mrs. Clayton Fitzgibbon and family of Belleville; Mr. and Mrs. Sam Seabrook of Campbellford, Mr. and Mrs. Cecil Anderson of Lindsay, Mr. and Mrs. Harry Dooher and family of Madoc, Mr. and Mrs. Norris Whitney and family of Oak Lake, Mrs. Gwendolyn Ellis, Reggie and Bobbie Ellis, Mr. Arnold Whitney, Mr. and Mrs. Thurlow Andrus, Mrs. Charles Ellis, Miss Patricia Cummins, Mr. and Mrs. William Hornsby, Mrs. Lettie Seabrook, Mr. and Mrs. Herbert Hoard, Mrs. Laura Post, Mrs. Mary Cannon and Billy Seabrook, Mr. and Mrs. Wilfred Ellis and family of Havelock.

Marmora News

Mrs. J. Auckland left on Thursday for Saskatoon to join her husband.

Miss Grace Warren spent the weekend with relatives in Madoc.

Mr. and Mrs. Keith Johnston of Carrying Place spent Sunday with Mr. and Mrs. Harry Johnston.

Miss Betty Nobes is vacationing with relatives in Kingston.

Miss Evelyn Brooks, nurse-in-training at Peterborough Civic Hospital, spent Friday and Saturday with relatives here.

Mr. and Mrs. Cecil Nobes and Mrs. Ross Carman visited Mrs. Thomas Nobes in Kingston General Hospital on Sunday.

Miss Barbara Nobes, nurse-in-training at Peterborough Civic Hospital, is spending her vacation with relatives in Kingston and with her mother Mrs. Ethel Nobes.

Mrs. Ethel Nobes and son Gary returned home on Sunday from a visit to relatives in Kingston.

Master Bobby Shirtliffe of Kingston is spending a few days with Mrs. Ethel Nobes.

Mr. and Mrs. William Wall and son David of Kincardine are visiting Mrs. Wall's sister, Mrs. Oscar Cole and Mr. Cole.

Mrs. Dennis Roberts of Toronto is visiting relatives here.

Mr. and Mrs. Douglas Goebel and family, of Peterborough, spent the weekend with Mr. and Mrs. Clayton Potts.

Plane Crashes, 6 Die

CHESTERTOWN, Md. (AP) — A four-engine navy plane crashed in flames on the west bank of the Chester river south of here Tuesday, killing the six men aboard. The navy in Washington said the

SENT TO KOREA—Sqdn. Ldr. Doug Warren of Ponoka, Alta., commanding officer of the RCAF's No. 410 Cougar squadron in England, has been posted to Korea for a tour of duty with the United States air force. Warren flew in support of the Canadian-led raid on the French coastal town of Dieppe Aug. 19, 1942. His wife and two children will remain at the RCAF base at North Luffenham, Eng.

Cote And Rochon Repudiate Support

MONTREAL (CP)—Gerard Cote, champion marathon runner, and Henri Rochon, Canadian Davis Cup tennis play, said Tuesday they recently unwittingly endorsed a Communist-inspired youth festival scheduled for behind the Iron Curtain next month.

Both said in statements "we don't want to have anything to do with communism."

The festival, sponsored by the World Federation of Democratic Youth, is scheduled to start in Bucharest, Romania, Aug. 2, and will run for two weeks.

Both Cote and Rochon signed a leaflet endorsing the festival at the request of an unidentified organizer.

Queen Inspects RCMP

LONDON (Reuters)—The Queen at Buckingham Palace Tuesday inspected the contingent of Royal Canadian Mounted Police who came to Britain for her Coronation. She was accompanied by the Duke of Edinburgh.

Petes Turn Back Mounties In 17-10 Senior Joust For First Six-Man OLA Try

MIMICO—(Special)—The storm clouds hung over the Drummond St. bowl for most of last night's senior OLA game but the rain came in the form of goals as Peterborough Trailermen walloped the tail-end Mimico Mounties 17-10 before a sparse gathering of 350 spectators. It was the inaugural of six-man lacrosse at Mimico and the Trailermen proved that they were as adept at the new game as they were at the seven-man game and the fans seemed to enjoy it more as the play went from end to end with lightning-like rapidity.

The addition of Red Hartley in the nets and Billy Bradkin on the forward line, both from the now defunct Brampton club, helped Mimico considerably but they still lacked the finish to cope with Bobby Thorpe's seasoned veterans and trained youngsters as Mimico were in contention in only the first and third periods, holding their visitors to an even break on goals.

Ross Powless climbed up the OLA scoring race ladder with a nine-point night, including four goals, while linemates Russ Slater and Ike Hildebrand each registered the hat trick.

Mimico's best offensive player was Don Meeks who tallied three times while the two-goal scorers were Pop Chard and Bill Bradhin.

With the exception of a one-man show by Stan Kapasky the game was fairly clean but Kapasky or "Hopalong Kapasidy," as the youngsters call him took on all comers, receiving a major for his part in a stick swinging duel with Ross Powless and then tangling with Curly Mason to earn his second major of the night. He also squeezed in a minor to be top man in the crime parade.

Petes—Wootton, Fitzgerald, Slater, Mason, Powless, Smith, Hildebrand, Vitarelli, Thorpe, Ashbee, Nickle, O'Hearn, G. Robinson, B. Robinson, and Burns.

Mimico — Hartley, Barager, McNeill, McIntyre, Chard, Kapasky, Lubhinek, Nolan, Bradkin, Harle, Meeke and Kelly.

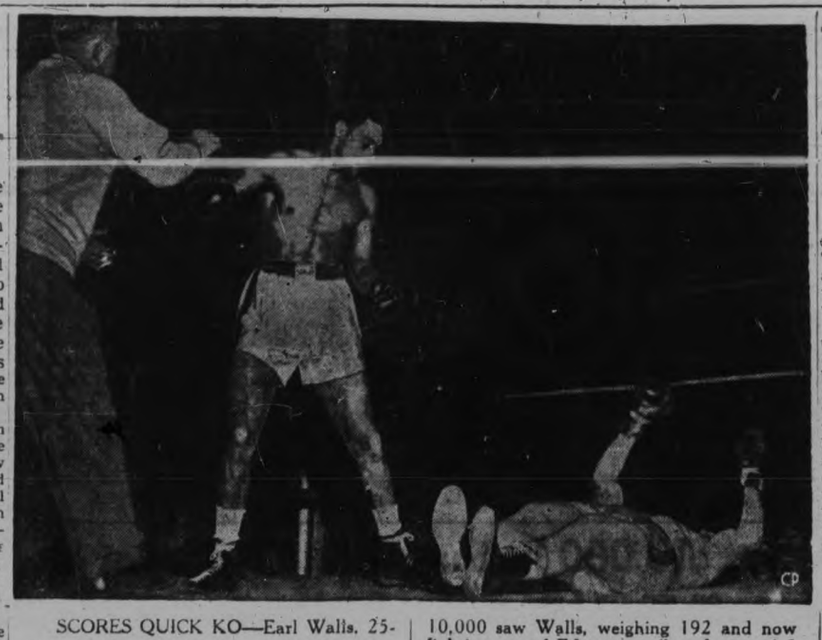
Juvenile Petes Triumph In OLA Fixture

The local juvenile Petes pulled out an 11-8 triumph over Brampton here last night to open their OLA schedule. They spotted the visitors a 3-1 margin in the first quarter, and Brampton had a 5-3 lead at the half. However, the boys coached by Ira Dundas were on top 8-6 going into the fourth frame and they had a margin on play in the windup chapter of a good game.

It was a rugged enough encounter for juveniles, with 10 minor penalties handed out to the winners and a like number to the losers. The Petes battled hard in an uphill first half and showed a lot of class in taking this opener, playing some solid lacrosse from the goalie out against good opposition.

Hobart led the snipers for Peterborough with three goals, as Wright and Drury got two each, singles going to J. Sutherland, Hunt, Delahey and Bloom. Brooks earned two assists, one each being marked to Bloom, Delahey, Hunt, J. Sutherland and Orde. For the losers, Thompson and Smith got three each, Morris and Rea having a goal apiece. Thompson came through with two assists, and Sheffield one. Teams:

Brampton: Goal, Manes; defence, Sheffield, Thompson; centre, Smith; wings, Griffin, Incoe; rover, Marpes; alternates, Montgomery, Page, Carter, Connors, Roe, King, Chartren.



Peter: Goal, Simmons; defence, Bloom, Delahey; centre, Hunt; wings, J. Sutherland, Hobart; rover, Blodgett; alternates, Foote, Drury, Gray, Orde, Brooks, Wright, Dundas.

St. Peter's Victors

St. Peter's blanked St. John's 12-0 in a Catholic Softball League joust yesterday. They scored two runs in the first inning, one in the fifth, three in the sixth and six in the big seventh stanza. T. Shaughnessy pitched fine shutout ball and had ace backing, while Williams and Phillips divided slab duties on the other side and had indifferent support.

St. Peter's—Ryan, Quinlan, Legros, Board, Pearson, C. Shaughnessy, Killen, D. Quinlan, T. Shaughnessy.

St. John's— Drummond, Masterson, McCrea, Legrow, Williams, Phillips, D. Griffin, Corbett, A. Griffin, Woodhouse.

SCORES QUICK KO—Earl Walls, 25-year-old Canadian heavyweight champion from Windsor, blasts the world's seventh-ranking heavyweight, Rex Layne of Salt Lake City to the canvas in a stunning 53-second knockout at Edmonton. More than 10,000 saw Walls, weighing 192 and now fighting out of Edmonton, floor Layne, 6-5 favorite at 206 pounds. Referee Jim Behr of Chicago waves Walls, right hand still cocked, to a neutral corner. Layne and Walls may fight again at Salt Lake City, Utah, within 60 days.

Schmidt Signs With Bruins

BOSTON (AP)—Milt Schmidt of Kitchener, Ont., 35-year-old centre, Tuesday signed his 15th National Hockey League player contract for Boston Bruins. He missed three years while serving with the RCAF during the Second World War.

Despite his age, Schmidt still is regarded as the bellwether of the Bruins. While playing in all but two of last season's 70 scheduled games, Schmidt totalled 34 points with 11 goals and 23 assists.

In 10 playoff games, in which the Bruins upset Detroit Red Wings and then lost the Stanley Cup final series to Montreal Canadiens, Schmidt popped in five goals and had one assist.

Bethany Victorious Against Millbrook

MILLBROOK —(ENS) — Football weather accounted for the comparatively small crowd that saw Bethany hand the league leading Millbrook Lions a 12-4 jolt. The Manvers crew, in a Monday evening North Durham baseball fixture, outhit the locals by a wide margin to take an early lead that was never seriously threatened. Millbrook picked up a lone tally in the first when Wright the lead-off batter connected for a round tripper. Bethany countered with a pair in the second on a walk, a hit and some aimless ball tossing by the Millbrook infield. They added six more in the third with W. Rowan's grand slam homer chalking up four of them. This bombardment shelled Smith, the Lions starting pitcher, from the mound.

Brackenridge who replaced him, put out the fire temporarily but the conflagration broke again in the fifth when a bases-loaded triple by H. Ryley pushed three more runs over the platter. In the bottom half of the fifth Wright poled out his second homer with two team mates on board to wind up the local's scoring for the evening. Bethany added one more in the sixth to round out the even dozen.

Reg. Edmonds, pitching for Bethany had complete control of the situation all evening and was backed up by some sparkling fielding. Pomeroy nipped a Millbrook rally with a neat running catch for a third out and C. Rowan robbed D. Edmonds of a hit with a backhanded stab of a smoking grounder behind third base. Lunn, an outfielder who covers more ground than a circus tent, went a long way to glove a ball that had been well tagged by Wilf. Reynolds.

Bethany—B. Reynolds, Ryley, C. Rowan, Edmonds, W. Reynolds, Challice, W. Rowan, Pomeroy, Neals, Jackson.

Millbrook — Wright, Ginn, Brackenridge, Handley, Edmonds, M. Lord, Lowery, Dawson, Lunn,

SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

Oshawa Transporters boast a team of senior calibre in the intermediate Lakeshore Baseball League. Such senior flingers as Bill Gingerich, Ted Stone and others make the Motor City squad a potent one and 'tis no wonder they've taken something like 18 straight wins to date. Lindsay Merchants— with a number of our ex-seniors aboard—are a close second, though, and give 'em a stiff scrap every game. The local Liflocs have a loop fixture with Cobourg here tonight at 6.30 and then take on Lindsay in Riverside on Saturday in the twilight. The latter game will be part of a booster night program in the park which flows by the river. Lots of prizes being put up to attract the fans.

* * * * * *

It used to be a 12-man game, sometimes being reduced to 11 a side, and then field lacrosse gave way to boxla, with seven players on each side at a time on the floor. Tonight here sees six-man boxla being introduced by Hamilton Tigers and the Petes in Miller Bowl. With less cluttering up of players in pile-ups by the goal creases, it should make for an even faster and better passing game, though there may be no more scoring— since the goals have been reduced in size. It should be right interesting to see, and we predict that six-man lacrosse will stick in the east as it has in the west. After a month's trial, we expect the OLA will okay six-man play in Ontario playoffs. And the CLA will order it for the Mann Cup series.

* * * * * *

Are The A's Worried?

St. Kitt's scribe started off okay in giving Petes' credit for beating the A's in the Garden City, last Saturday. He said: "Like the previous Peterborough-St. Catharines overtime game, fans were treated to lacrosse at its best. The victory by Petes, their second in as many nights, slices Athletics' first-place margin from 10 to six points and for the first time this year leaves A's definitely tottering in that top position. The Mann Cup champions don't seem anxious to give up the Canadian senior title. Lloyd (Moon) Wootton turned in easily his best performance of many visits to St. Catharines, turning back exactly 42 shots, many of them on clean-cut chances from the crease edge."

* * * * * *

But the scribe has to cry a little, too, thusly: "Every Petes' player checks hard and almost viciously and, for the most part (despite 54 minutes in penalties) their slashing tactics seem to go unnoticed by the officials. That last crack isn't meant as an alibi as A's also got away with several lethal wallops. However, unless the robust Petes like Ashbee, Mason, Thorpe, Slater and Nickle are at least partially curbed, someone is going to get hurt. Though subject to the usual boos, O'Hearn and Fitzgerald played hard but cleanly." Ah, those lily-white Athletics, those nice chaps who tried so hard to cripple the Petes in playoffs last year and did send the champs into finals against Yorks really on the limp!

* * * * * *

Suits Petes To a "T"

The six-man style of lacrosse tried out in Mimico last p.m. suited the Petes' Trailermen right to a "T." Though the bolstered Mounties gave them a stiff scrap for a while, class told and the Thorpe team pulled away to take a 17-10 win and cement their grip on second place. Big Ross Powless was a powerhouse for the Petes as he slammed in four goals and aided on five more to fatten his batting average. Russ Slater and Ike Hildebrand lit the lamp thrice each, and the whole crew clicked okay. Stan Kapasky was the bad man of the piece with two majors and a minor. That's four straight wins for Peterborough and they were away out in front at Hamilton when that tilt was rained out.

* * * * * *

Local PMLA juves opened their abbreviated OLA schedule here last gloaming with an 11-8 win o'er Brampton, an auspicious start. Hobart, Wright and Drury led the attack, and Brooks had two assists. The boys play in Orillia next Monday and have Parkdale Lions here the following Wednesday. PMLA schedule the rest of the week has a midget drill at 6.30 this eve, with all asked ... and two bantam tilts tomorrow, starting at 6.3... prizes will be presented.

Dese, Dem And Dose

Seabrooke's beat UE 8-4 as TPT took Revoy's 6-1 in men's softball last night .... Eakins fanned 12, Red Sullivan hit homer No. 12, while Gus Leonard and Mackness each had three hits .... Games tomorrow: Revoy vs. UE, and Seabrooke vs. TPT .... Whitby edged Cobourg ballsters 4-3 in overtime ....Bell plays Bill's in civic softball tonight, while Seabrooke's meet Police .... In fastball, it's Norwood vs. Woollens here this eve, and Marines at Curve Lake on Thursday .... St. Peter's won 12-0 from St. John's last twilight .... Scots tackle Merchants in soccer at 6.30 this evening in King Edward Park .... Mert Storey's horse Wayline ran second in Quebec the other day .... Some first-class lawn bowling may be seen here this evening at the Liftlock Gold Trophy tourney ....A bid by Stouffville to enter a Toronto senior "B" puck group so far has been unsuccessful.... PMBA has Athletics vs. peewee Braves at Brinton tonight, and bantam Dodgers vs. East City at the Woollens; tomorrow sees Combines play Keene in midget-juvenile ranks at 6.30 in Riverside ....St. Kitts and Yorks have a senior OLA game tonight which is of interest to the Petes, who have Yorks here Friday .... They say an old fashioned hubby is one who expects his wife to help him with the dishes.

Remember When—

By THE CANADIAN PRESS

George Herman Ruth, rookie pitcher with the minor league Providence Club, was picked up by Boston Red Sox 39 years ago today for a reported $2,900. Five years later, sold to New York Yankees, Ruth switched to the outfield and became the greatest home run hitter of all time.

Transports Get A 6-1 Win From Revoy's

TP Transorts handed Revoy Motors a 6-1 defeat, in the nightcap off Tuesday's men's softball twin set at the East City Bowl, to continue their position of leadership in the torrid league race.

Haddie Eakins kept his fireball under good control as he scattered eight hits, fanned an even dozen batters and walked but one for the winners, in a fine display. On the opposite hill, Dick McCracken toiled well for the Wasson band. He allowed 10 bingles, fanned two and walked a single batter. Failure on the part of his mates to field too well and comparative impotency with the willow nullified his efforts. Revoys were unable to break the goose-egg till the eighth when McCracken himself tripled and scored on Henry's single; but that was it offensively, speaking from a Revoy standpoint.

ERRORS HELPED

Transports scored two in the fourth as Fryia and West reached first safely, thanks to welcome bobbles, later scoring on successive outs. One in the sixth, on hits by Mackness and Leonard and three in the seventh on safeties by Crowe, Greenlaw and Mackness and Legrow's life told the story as TPT's wrapped up the verdict with Eakins sailing along in smooth water.

Gus Leonard, with three for five, led Transport sluggers in percentage and he drove home two runs. Mackness, another star, also had three safeties, one a triple, while Toody Greenlaw hit two for five, one a double. Neil Wasson fielded very well for the losers and hit two for four.

REDHEAD HOMERS—George (Red) Sullivan, who plays hockey winters for Boston Bruins, is well out in front of the local men's softball loop in homers this season, last night belting his 12th to lead Seabrooke's to a win over UEW.

Sports Writers Approve Name

TORONTO (CP)—Two Eastern Canada sports columnists went along Tuesday with a colleague's suggestion that Winnipeg's new $500,000 football stadium be named for the late Eddie Armstrong, former sports editor of the Winnipeg Free Press.

Vern DeGeer started the ball rolling Tuesday by devoting his entire "Good Morning" column in the Montreal Gazette to the subject.

He said Armstrong played a major role in organizing the first Grey Cup football final and was "one of the greatest editorial links between West and East our dominion has ever known.

Ted Reeve of the Toronto Telegram didn't want to stick his "long snout into Manitoba matters," but commented in his column, "Sporting Extras," that DeGeer's notion sounded like a good one.

Baz O'Meara joined in hearty support with a piece in his "The Passing Show" in the Montreal Star.

Seabrooke Boys Take UEW in Neat Tussie

Seabrooke Motors defeated UEW Tuesday night 8-4 in the curtain raiser of the regular men's senior city softball twin-bill. The victory enabled the Sullivan gang to remain close on the TPT Transport squad's heels, with the latter one game up in the hectic summer derby. U. E. follow closely two games behind TPT's.

Lefty Doris toed the slab for the winners with Howie Dalton tossing the white melon for the shop men; the former held the edge this time allowing seven hits. Lefty struck out but one and walked a single hitter. He contributed to his own offensive cause as well by hitting safely twice. Dalton below his usual form was nicked for 16 bingles but his mates contributed two vital errors to further hamper his efforts. He fanned seven men however, and passed none.

SCORED EARLY

Seabrooke's scored a pair in the first on hits by Thompson, Currie and Sullivan, added a single in the third when Red (Boston Bruin) Sullivan belted his 12th homer of the season over the right-centrefield fence with none aboard. The Walton band came up with two in their half on Jerry McGillis' double. Leether's life, and single by Taylor and Jackie White. They added one in the fifth to tie.

The East City boys rallied again in the fifth to take over a lead they never relinguished. Thompson singled as did Currie; Wyatt hit to score Thompson; Buster Jensen, who drove in three runs, singled to score Currie and Wyatt. Sullivan, Spencer, Jensen and Wilson smote the apple for two in the seventh and though UE tallied in the eighth on hits by Dalton and Thomson, the Union crew were unable to overcome Seabrooke's lead.

Petes Turn Back Mounties In 17-10 Senior Joust For First Six-Man OLA Try

MIMICO—(Special)—The storm clouds hung over the Drummond St. bowl for most of last night's senior OLA game but the rain came in the form of goals as Peterborough Trailermen walloped the tail-end Mimico Mounties 17-10 before a sparse gathering of 350 spectators. It was the inaugural of six-man lacrosse at Mimico and the Trailermen proved that they were as adept at the new game as they were at the seven-man game and the fans seemed to enjoy it more as the play went from end to end with lightning-like rapidity.

The addition of Red Hartley in the nets and Billy Bradkin on the forward line, both from the now defunct Brampton club, helped Mimico considerably but they still lacked the finish to cope with Bobby Thorpe's seasoned veterans and trained youngsters as Mimico were in contention in only the first and third periods, holding their visitors to an even break on goals.

Ross Powless climbed up the OLA scoring race ladder with a nine-point night, including four goals, while linemates Russ Slater and Ike Hildebrand each registered the hat trick.

Mimico's best offensive player was Don Meeks who tallied three times while the two-goal scorers were Pop Chard and Bill Bradhin.

With the exception of a one-man show by Stan Kapasky the game was fairly clean but Kapasky or "Hopalong Kapasidy," as the youngsters call him took on all comers, receiving a major for his part in a stick swinging duel with Ross Powless and then tangling with Curly Mason to earn his second major of the night. He also squeezed in a minor to be top man in the crime parade.

Petes—Wootton, Fitzgerald, Slater, Mason, Powless, Smith, Hildebrand, Vitarelli, Thorpe, Ashbee, Nickle, O'Hearn, G. Robinson, B. Robinson, and Burns.

Mimico — Hartley, Barager, McNeill, McIntyre, Chard, Kapasky, Lubbinek, Nolan, Bradkin, Harle, Meeke and Kelly.

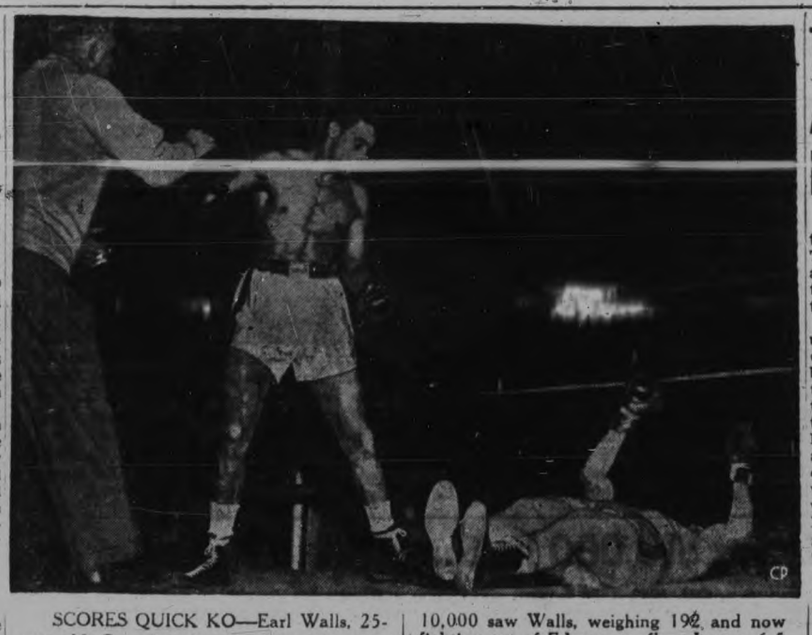
Juvenile Petes Triumph In OLA Fixture

The local juvenile Petes pulled out an 11-8 triumph over Brampton here last night to open their OLA schedule. They spotted the visitors a 3-1 margin in the first quarter, and Brampton had a 5-3 lead at the half. However, the boys coached by Ira Dundas were on top 8-6 going into the fourth frame and they had a margin on play in the windup chapter of a good game.

It was a rugged enough encounter for juveniles, with 10 minor penalties handed out to the winners and a like number to the losers. The Petes battled hard in an uphill first half and showed a lot of class in taking this opener, playing some solid lacrosse from the goalie out against good opposition.

Hobart led the snipers for Peterborough with three goals, as Wright and Drury got two each, singles going to J. Sutherland, Hunt, Delahey and Bloom. Brooks earned two assists, one each being marked to Bloom, Delahey, Hunt, J. Sutherland and Orde. For the losers, Thompson and Smith got three each, Morris and Rea having a goal apiece. Thompson came through with two assists, and Sheffield one. Teams:

Brampton: Goal, Manes; defence, Sheffield, Thompson; centre, Smith; wings, Griffin, Incoe; rover, Marpes; alternates, Montgomery, Page, Carter, Connors, Roe, King, Chartren.



Peter: Goal, Simmons; defence, Bloom, Delahey; centre, Hunt; wings, J. Sutherland, Hobart; rover, Blodgett; alternates, Foote, Drury, Gray, Orde, Brooks, Wright, Dundas.

St. Peter's Victors

St. Peter's blanked St. John's 12-0 in a Catholic Softball League joust yesterday. They scored two runs in the first inning, one in the fifth, three in the sixth and six in the big seventh stanza. T. Shaughnessy pitched fine shutout ball and had ace backing, while Williams and Phillips divided slab duties on the other side and had indifferent support.

St. Peter's—Ryan, Quinlan, Legros, Board, Pearson, C. Shaughnessy, Killen, D. Quinlan, T. Shaughnessy.

St. John's— Drummond, Masterson, McCrea, Legrow, Williams, Phillips, D. Griffin, Corbett, A. Griffin, Woodhouse.

SCORES QUICK KO—Earl Walls, 25-year-old Canadian heavyweight champion from Windsor, blasts the world's seventh-ranking heavyweight, Rex Layne of Salt Lake City to the canvas in a stunning 53-second knockout at Edmonton. More than 10,000 saw Walls, weighing 192 and now fighting out of Edmonton, floor Layne, 6-5 favorite at 206 pounds. Referee Jim Behr of Chicago waves Walls, right hand still cocked, to a neutral corner. Layne and Walls may fight again at Salt Lake City, Utah, within 60 days.

Schmidt Signs With Bruins

BOSTON (AP)—Milt Schmidt of Kitchener, Ont., 35-year-old centre, Tuesday signed his 15th National Hockey League player contract for Boston Bruins. He missed three years while serving with the RCAF during the Second World War.

Despite his age, Schmidt still is regarded as the bellwether of the Bruins. While playing in all but two of last season's 70 scheduled games, Schmidt totalled 34 points with 11 goals and 23 assists.

In 10 playoff games, in which the Bruins upset Detroit Red Wings and then lost the Stanley Cup final series to Montreal Canadiens, Schmidt popped in five goals and had one assist.

Bethany Victorious Against Millbrook

MILLBROOK —(ENS) — Football weather accounted for the comparatively small crowd that saw Bethany hand the league leading Millbrook Lions a 12-4 jolt. The Manvers crew, in a Monday evening North Durham baseball fixture, outhit the locals by a wide margin to take an early lead that was never seriously threatened. Millbrook picked up a lone tally in the first when Wright the lead-off batter connected for a round tripper. Bethany countered with a pair in the second on a walk, a hit and some aimless ball tossing by the Millbrook infield. They added six more in the third with W. Rowan's grand slam homer chalking up four of them. This bombardment shelled Smith, the Lions starting pitcher, from the mound.

Brackenridge who replaced him, put out the fire temporarily but the conflagration broke again in the fifth when a bases-loaded triple by H. Ryley pushed three more runs over the platter. In the bottom half of the fifth Wright poled out his second homer with two team mates on board to wind up the local's scoring for the evening. Bethany added one more in the sixth to round out the even dozen.

Reg. Edmonds, pitching for Bethany had complete control of the situation all evening and was backed up by some sparkling fielding. Pomeroy nipped a Millbrook rally with a neat running catch for a third out and C. Rowan robbed D. Edmonds of a hit with a backhanded stab of a smoking grounder behind third base. Lunn, an outfielder who covers more ground than a circus tent, went a long way to glove a ball that had been well tagged by Wilf. Reynolds.

Bethany—B. Reynolds, Ryley, C. Rowan, Edmonds, W. Reynolds, Challice, W. Rowan, Pomeroy, Neals, Jackson.

Millbrook — Wright, Ginn, Brackenridge, Handley, Edmonds, M. Lord, Lowery, Dawson, Lunn, Smith, G. Lord.

The latter game will be part of a booster night program in the park which flows by the river. Lots of prizes being put up to attract the fans.

* * * * * *

It used to be a 12-man game, sometimes being reduced to 11 a side, and then field lacrosse gave way to boxla, with seven players on each side at a time on the floor. Tonight here sees six-man boxla being introduced by Hamilton Tigers and the Petes in Miller Bowl. With less cluttering up of players in pile-ups by the goal creases, it should make for an even faster and better passing game, though there may be no more scoring— since the goals have been reduced in size. It should be right interesting to see, and we predict that six-man lacrosse will stick in the east as it has in the west. After a month's trial, we expect the OLA will okay six-man play in Ontario playoffs. And the CLA will order it for the Mann Cup series.

* * * * * *

Are The A's Worried?

St. Kitt's scribe started off okay in giving Petes' credit for beating the A's in the Garden City, last Saturday. He said: "Like the previous Peterborough-St. Catharines overtime game, fans were treated to lacrosse at its best. The victory by Petes, their second in as many nights, slices Athletics' first-place margin from 10 to six points and for the first time this year leaves A's definitely tottering in that top position. The Mann Cup champions don't seem anxious to give up the Canadian senior title. Lloyd (Moon) Wootton turned in easily his best performance of many visits to St. Catharines, turning back exactly 42 shots, many of them on clean-cut chances from the crease edge."

* * * * * *

But the scribe has to cry a little, too, thusly: "Every Petes' player checks hard and almost viciously and, for the most part (despite 54 minutes in penalties) their slashing tactics seem to go unnoticed by the officials. That last crack isn't meant as an alibi as A's also got away with several lethal wallops. However, unless the robust Petes like Ashbee, Mason, Thorpe, Slater and Nickle are at least partially curbed, someone is going to get hurt. Though subject to the usual boos, O'Hearn and Fitzgerald played hard but cleanly." Ah, those lily-white Athletics, those nice chaps who tried so hard to cripple the Petes in playoffs last year and did send the champs into finals against Yorks really on the limp!

* * * * * *

Suits Petes To a "T"

The six-man style of lacrosse tried out in Mimico last p.m. suited the Petes' Trailermen right to a "T." Though the bolstered Mounties gave them a stiff scrap for a while, class told and the Thorpe team pulled away to take a 17-10 win and cement their grip on second place. Big Ross Powless was a powerhouse for the Petes as he slammed in four goals and aided on five more to fatten his batting average. Russ Slater and Ike Hildebrand lit the lamp thrice each, and the whole crew clicked okay. Stan Kapasky was the bad man of the piece with two majors and a minor. That's four straight wins for Peterborough and they were away out in front at Hamilton when that tilt was rained out.

* * * * * *

Local PMLA juves opened their abbreviated OLA schedule here last gloaming with an 11-8 win o'er Brampton, an auspicious start. Hobart, Wright and Drury led the attack, and Brooks had two assists. The boys play in Orillia next Monday and have Parkdale Lions here the following Wednesday. PMLA schedule the rest of the week has a midget drill at 6.30 this eve, with all asked to attend, [illegible] bantam tilts tomorrow, starting at 6.30, No. 2 team [illegible] winners for life-saver day game.

Dese, Dem And Dose

Seabrooke's beat UE 8-4 as TPT took Revoy's 6-1 in men's softball last night.... Eakins fanned 12, Red Sullivan hit homer No. 12, while Gus Leonard and Mackness each had three hits .... Games tomorrow: Revoy vs. UE, and Seabrooke vs. TPT .... Whitby edged Cobourg ballsters 4-3 in overtime ....Bell plays Bill's in civic softball tonight, while Seabrooke's meet Police .... In fastball, it's Norwood vs. Woollens here this eve, and Marines at Curve Lake on Thursday .... St. Peter's won 12-0 from St. John's last twilight .... Scots tackle Merchants in soccer at 6.30 this evening in King Edward Park .... Mert Storey's horse Wayline ran second in Quebec the other day .... Some first-class lawn bowling may be seen here this evening at the Liftlock Gold Trophy tourney .... A bid by Stouffville to enter a Toronto senior "B" puck group so far has been unsuccessful.... PMBA has Athletics vs. peewee Braves at Brinton tonight, and bantam Dodgers vs. East City at the Woollens; tomorrow sees Combines play Keene in midget-juvenile ranks at 6.30 in Riverside ....St. Kitts and Yorks have a senior OLA game tonight which is of interest to the Petes, who have Yorks here Friday .... They say an old fashioned hubby is one who expects his wife to help him with the dishes.

Remember When—

By THE CANADIAN PRESS

George Herman Ruth, rookie pitcher with the minor league Providence Club, was picked up by Boston Red Sox 39 years ago today for a reported $2,900. Five years later, sold to New York Yankees, Ruth switched to the outfield and became the greatest home run hitter of all time.

Transports Get A 6-1 Win From Revoy's

TP Transorts handed Revoy Motors a 6-1 defeat, in the nightcap off Tuesday's men's softball twin set at the East City Bowl, to continue their position of leadership in the torrid league race.

Haddie Eakins kept his fireball under good control as he scattered eight hits, fanned an even dozen batters and walked but one for the winners, in a fine display. On the opposite hill, Dick McCracken toiled well for the Wasson band. He allowed 10 bingles, fanned two and walked a single batter. Failure on the part of his mates to field too well and comparative impotency with the willow nullified his efforts. Revoys were unable to break the goose-egg till the eighth when McCracken himself tripled and scored on Henry's single; but that was it offensively, speaking from a Revoy standpoint.

ERRORS HELPED

Transports scored two in the fourth as Fryia and West reached first safely, thanks to welcome bobbles, later scoring on successive outs. One in the sixth, on hits by Mackness and Leonard and three in the seventh on safeties by Crowe, Greenlaw and Mackness and Legrow's life told the story as TPT's wrapped up the verdict with Eakins sailing along in smooth water.

Gus Leonard, with three for five, led Transport sluggers in percentage and he drove home two runs. Mackness, another star, also had three safeties, one a triple, while Toody Greenlaw hit two for five, one a double. Neil Wasson fielded very well for the losers and hit two for four.

REDHEAD HOMERS—George (Red) Sullivan, who plays hockey winters for Boston Bruins, is well out in front of the local men's softball loop in homers this season, last night belting his 12th to lead Seabrooke's to a win over UEW.

Sports Writers Approve Name

TORONTO (CP)—Two Eastern Canada sports columnists went along Tuesday with a colleague's suggestion that Winnipeg's new $500,000 football stadium be named for the late Eddie Armstrong, former sports editor of the Winnipeg Free Press.

Vern DeGeer started the ball rolling Tuesday by devoting his entire "Good Morning" column in the Montreal Gazette to the subject.

He said Armstrong played a major role in organizing the first Grey Cup football final and was "one of the greatest editorial links between West and East our dominion has ever known.

Ted Reeve of the Toronto Telegram didn't want to stick his "long snout into Manitoba matters," but commented in his column, "Sporting Extras," that DeGeer's notion sounded like a good one.

Baz O'Meara joined in hearty support with a piece in his "The Passing Show" in the Montreal Star.

Seabrooke Boys Take UEW in Near Tussle

Seabrooke Motors defeated UEW Tuesday night 8-4 in the curtain raiser of the regular men's senior city softball twin-bill. The victory enabled the Sullivan gang to remain close on the TPT Transport squad's heels, with the latter one game up in the hectic summer derby. U. E. follow closely two games behind TPT's.

Lefty Doris toed the slab for the winners with Howie Dalton tossing the white melon for the shop men; the former held the edge this time allowing seven hits. Lefty struck out but one and walked a single hitter. He contributed to his own offensive cause as well by hitting safely twice. Dalton below his usual form was nicked for 16 bingles but his mates contributed two vital errors to further hamper his efforts. He fanned seven men however, and passed none.

SCORED EARLY

Seabrooke's scored a pair in the first on hits by Thompson, Currie and Sullivan, added a single in the third when Red (Boston Bruin) Sullivan belted his 12th homer of the season over the right-centrefield fence with none aboard. The Walton band came up with two in their half on Jerry McGillis' double. Leether's life, and single by Taylor and Jackie White. They added one in the fifth to tie.

The East City boys rallied again in the fifth to take over a lead they never relinquished. Thompson singled as did Currie; Wyatt hit to score Thompson; Buster Jensen, who drove in three runs, singled to score Currie and Wyatt. Sullivan, Spencer, Jensen and Wilson smote the apple for two in the seventh and though UE tallied in the eighth on hits by Dalton and Thomson, the Union crew were unable to overcome Seabrooke's lead.

Dodgers Unload Homer Artillery To Take Twin Bill

By BEN PHLEGAR, Associated Press Sports Writer

Brooklyn Dodgers have unlimbered their home-run artillery. They hit for the circuit six times Tuesday in winning a pair from Pittsburgh 5-4 and 9-5 and set a National League record of blasting at least one out of the park in 21 consecutive games. In neither contest did the starting Brooklyn pitcher stay the distance. They usually don't. In 76 outings the Dodger mound staff has turned in only 23 complete games. The twin triumphs edged the Dodgers 2½ games ahead of the second-place Milwaukee Braves who won a single encounter from Chicago 4-1.

St. Louis Cardinals outlasted Cincinnati 7-6 and the suddenly-improved New York Giants won twice from Philadelphia, 5-3 and 9-1.

BREAK LOSING STREAK

Philadelphia Athletics broke an eight-game losing streak with a two - run ninth - inning rally that brought a 5-4 decision over New York Yankees.

The Yanks' two nearest pursuers both profited. Second-place Cleveland moved within 5½ games by handing St. Louis Browns their 20th straight home defeat, a major league record. The score was 6-3 with the Browns making five errors in the last two innings. Chicago used a pair of Detroit miscues to score in the ninth and nip the Tigers 3-2.

Skinny Brown of Boston Red Sox pitched the day's only shutout with Washington Senators as his four-hit victims, 2-0. Jerry Lane, making his major league debut, allowed just one run in eight innings before being lifted for a pinch hitter.

HIT HOME RUNS

Gil Hodges, Duke Snider and Jackie Robinson hit home runs for Brooklyn in the first game at Pittsburgh but Carl Erskine left under fire when Preston Ward made it close in the ninth with a grand-slam home run for the Pirates.

In the second game Preacher Roe hit the first home run of his long career in organized baseball. Before it was over Billy Cox hit a pair. Pittsburgh again came up with a ninth-inning rally that produced five runs and disposed of Roe.

A record Milwaukee crowd of 37,113 saw Johnny Antonelli, who has been sick, win his first game in a month with the help of home runs by Eddie Mathews and Joe Adcock.

The Cardinals got only seven hits at Cincinnati but three of them were home runs and one was a bases-loaded double by Rip Repulski, who also accounted for two of the four-baggers.

The Giants ran their winning streak to four with the help of excellent pitching from Marv Grissom, a castoff from the American League, and Al Corwin. Grissom worked six innings of the first game to register his first National League victory since moving over from the Red Sox.

Bisons Sweep Twin Bill To Lead League

By THE CANADIAN PRESS

A new driver today sits in the saddle in the International League.

Buffalo Bisons, who have been clawing their way steadily up, ousted Montreal Royals by taking a doubleheader Tuesday night from the tail-end Springfield Cubs while the Royals were downed 3-1 by Syracuse Chiefs.

Buffalo leads by only three percentage points but the Bisons are proving tough campaigners and may be hard to overtake.

Springfield fans watched silently as the rampaging Herd handed the Cubs their 13th and 14th straight defeats, 3-2 and 6-5. Jack Wallaesa's single in the sixth inning scored the winning run in the abbreviated opener and gave veteran Ernie Nevel his fourth victory. Buffalo took an early 5-0 lead in the nightcap but had to field off a desperate late-inning bid by the losers.

THREE OUT OF FOUR

The Chiefs' victory before a home-town crowd made it three out of four over the Royals as Lynn Lovenguth scattered six hits for his fifth win. Syracuse got the same number of safe blows off Bob Ludwick, but the Montreal hurler was wild.

First baseman Charley Kress slammed three home runs for the winners as the Red Wings walloped Ottawa Athletics, 6-2 and 13-0. Kress homered once in the abbreviated opener and twice in the second contest, running his total for the season to 10.

Jack Faszholz pitched eight-hit ball to earn the shutout in the second game, while three Ottawa hurlers were belted for 15 safeties. Rookie lefty Niles Jordan went the route to win the twilight test.

The Orioles swept a double bill from Toronto, defeating the Maple Leafs 6-3 and 9-3 at Baltimore.

Four round-trippers, two by Joe Lonnett, highlighted Baltimore's 12-hit attack in the second game as Ron Mrozinski scattered nine Toronto singles. Stanley Jok and Jack Lohrke accounted for the other homers.

The Birds ran up a 6-0 lead in the opener before the Leafs staged a three-run uprising in the fifth.

Yank Baseball Bus Crashes Into Underpass

PHILADELPHIA (AP)—A bus carrying New York Yankees baseball team from Connie Mack Stadium to the Pennsylvania station Tuesday night crashed into an underpass.

There were no injuries although the players were reported shaken up.

The crash smashed in the entire front of the bus.

Yesterday's Stars

By THE ASSOCIATED PRESS

Pitching: Skinny Brown, Boston Red Sox, gave up only four hits in winning his seventh game against two defeats 2-0 over Washington.

Batting: Rip Repulski, St. Louis Cardinals, hit two home runs and a bases-loaded double as the Cardinals defeated Cincinnati 7-6.

PHILS' ACE IS FATHER

PHILADELPHIA (AP) — Robin Roberts, pitcher for Philadelphia Phillies of the National League, Tuesday became the father of a second son. His wife, Mary, gave birth to a nine pound-13 ounce boy. The Roberts' other child is Robin, Jr., 2.

Alouettes Get Al Dekdebrun From Argonauts

MONTREAL (CP)—Montreal Alouettes announced Tuesday that former Toronto Argonauts quarterback Al Dekdebrun will play for Montreal this season.

The A's said they have concluded a deal with the Argos giving them Dekdebrun in exchange for a draft choice next year in addition to a "nominal cash consideration."

Dekdebrun played four seasons with Cornell University before coming to Canada in 1949 to play with Hamilton. He joined Toronto in 1950, leading them to a Grey Cup that year. Last season he was with Brantford Indians.

Dekdebrun said the Alouettes "made me a wonderful offer, it's more money than I ever made in football."

While the star quarterback didn't say how much his contract was for, he did admit it was more than he got from Argos, which was $6,000.

"I couldn't afford to let it pass," he told a reporter in Toronto in a telephone interview from his home in Buffalo.

WATERFRONT ART EXHIBIT — A young artist in Nagoya, Japan, anxiously eyes the photographer, wondering whether he's getting the proper angle on his painting. He has reason to be proud of his work—it was a good likeness of the USS Eldorado shown in dock.

Pastor Is Given Hostess Chair

BURLEIGH FALLS— Nicholls Oval Peterborough, was the scene of a very enjoyable picnic Saturday afternoon when the Church on the Rock Sunday school held a picnic. Preceding and following a group of races, the children were busy on the swings, teeters and slides.

During the afternoon a gift was presented to Mrs. J. Rhude for having the largest number of her Sunday school class present and also to Mrs. Ireland for having the largest family present.

Before lunch was served, the pastor, the Rev Day, Mrs. Day and son Paul, were presented by surprise with a hostess chair and a white shirt. Lorene Freeburn, thanked Mr. and Mrs. Day for their splendid co-operation and help in tthe Sunday school work and reminded them that these gifts were only a small way of thanking them for their endeavour. Evelyn Tedford and Zelda Deline presented the gifts.

The pastor and his wife expressed their appreciation.

Following this, a jolly group of weary youngsters sat down to a well-prepared lunch served by the ladies of the church. Almost one hundred children and adults went home tired but happy.

Races were won as follows according to age groups:

Ages 1, 2, 3—Faye Hockady, Paul Day.

Ages 4, 5, 6—Shirley Bullock, David Rhude.

Ages 7, 8, 9, 10—Melva Bullock, Gail Ireland.

Ages 11, 12, 13, 14—Kenny Boast, Shirley Johnston.

Age 15 and over—Lorene Freeburn, Mrs. Ireland.

Married ladies' race—Lorene Freeburn, Mrs. Ireland.

Married men's race—Cam Freeburn, Jim Deline.

Ladies' ball batting—Mrs. W. Day, Mary Cornelius.

Men's ball batting—Cam Freeburn, Jim Deline.

List Six Names As Latest Army Casualties

OTTAWA (CP)—An army casualty list Tuesday included three men wounded in action and three men injured in action. The last list was issued July 3.

The six all are members of the 3rd battalion, the Princess Patricia's Canadian Light Infantry.

The army list brought to 1,465 total casualties so far suffered by Canadian troops in Korea, including 285 dead; 1,042 wounded; 25 missing, 95 injured and 18 prisoners.

Injured in Action

Leclair, Richard Thomas, Pte., PPCLI; Mrs. Frank Leclair (mother), 81 St. George Ave. West, Sault Ste. Marie, Ont.

McPhee, Clarence Garfield, Cpl., PPCLI: Kingston, Ont.; Charles McPhee (father), Toronto.

Murray, Earl Russell, Pte., PPCLI; Newcastle, Ont.; Mrs. Emma Greer (sister), Moncton, N.B.

Wounded in Action

Rochon, Richard, Pte., PPCLI; Telesfore Rochon (uncle), P.O. 65, Cumberland, Ont.

Schofield, Murray, Pte., PPCLI; Portage La Prairie, Man.; Herbert Schofield (father), c-o Mrs H. Dominio, Geraldton, Ont.

Thacker, Harry, Pte., PPCLI; Marlene Thacker (sister), Ponoka, Alta.

Charges Minutes Been Changed

WINDSOR, Ont. (CP)—Controller W. Ernest Atkinson charged Tuesday night that someone had tampered or changed the minutes of a council meeting three weeks ago during which council decided to buy fire department uniforms from Bond Clothes Shops, Ltd.

At that time council, which had previously split several times on whether the city should insist on union-made supplies and equipment or buy from the lowest bidder, turned down a board of control recommendation that the uniforms be bought from Tip Top Tailors, Ltd., a union company which had submitted a higher tender.

Mr. Atkinson said Tuesday night council also passed a resolution under which council would always buy from the lowest tender in the future. He charged the motion was not included in minutes of that meeting and said in addressing council members in general that he didn't "blame you for trying to back out after seeing what you had done."

Cow Kills Woman

CARMAN, Man. (CP) — Mrs. Fred Abercrombie, 57, died in hospital here Tuesday after being attacked by a cow Monday.

Mrs. Abercrombie, who lives on a farm two miles south of here, was about to drive the cows home when one cow knocked her to the ground and bunted her, crushing her chest. Her father-in-law tried in vain to drive the animal away.

CLASSMATES—Lt. Hoyt S. Vandenberg (left), son of the former U.S. Air Force Chief of Staff, talks with his classmate at jet pilot school in the Williams Air Force Base, Arizona. The classmate is Lt. Pwu Ing-Hwa, a Chinese Nationalist pilot who will fly one of the F-84 Thunderjets now being sent to Formosa under the Mutual Defense Assistance Program.

Diamond Cutter Testifies To Changing Stolen Gem

AIX - EN - PROVENCE, France (AP)—A Paris diamond cutter testified Tuesday that the famous "La Marquise" diamond, stolen from the Begum Aga Khan four years ago, now is an emerald-shaped stone, seven carats smaller.

"La Marquise," a great stone which gave off a pinkish light, was among $850,000 in jewels snatched from the beautiful wife of the fabulously wealthy Moslem leader in a daylight robbery in 1949. Ten Corsicans and Frenchmen went on trial Monday for the theft. "La Marquise" alone was worth $170,000.

The diamond cutter, 55-year-old Henri Waffelman, a defendant, said he reduced it from its original 22 carats to 15 carats after 12 days of intensive work early in 1950.

Waffelman said he received the gem from a longtime friend, Hilarion Fromanger, 50, another defendant, who in turn got it from Jules Battistelli, a jewel dealer, also on trial.

Waffelman's testimony lent weight to the case of Lloyds of London which insured the Begum's jewels and claimed the 15-carat diamond is the transformed marquise.

Earlier, George Lindsay Watson, a French war hero who says he is the godson of Sir Winston Churchill, denied he had been the gang's tipoff man in the holdup.

Farmhouse Burns

NAPANEE (CP)—Fire Tuesday destroyed the farm home of the Henry Sizer family in nearby Adolphustown. The farm, owned by Earl F. Miles who is at present living at Indianapolis, Ind., is managed by Mr. Sizer who lived in the tenant house.

Killed By Street Car

OTTAWA (CP) — Mrs. Charles Webster of Ottawa was killed Tuesday when she stepped from the curb into the path of an Ottawa transportation commission tram in the west-end section of the city.

Phosphorus Shells Used With Spectacular Effect

By BILL BOSS

IN KOREA (CP)—While the rest of the world wonders about a Korean armistice the new Strathconas here have perfected the regimental technique for shooting up the enemy.

It's a spectacular business which results in thick whorls of white phosphorus smoke belching out of several holes at a time in the hills on the other side of no man's land.

Best exponent of the art—because he's been closest to the Chinese—is Sgt. Demetro Pushkorenko of Vernon, B.C. Only 600 yards from the enemy and able to take on targets up to 1,500 yards distance with extreme accuracy, Pushkarenko's four Sherman tanks have played havoc.

HIGH EXPLOSIVES FIRST

With pinpoint precision they send first of all three or four high-explosive shells into enemy observation posts, bunkers or caves that are the targets of the day.

[illegible] through the [illegible] and cement [illegible] under the timbered structure within.

The bunker then is set afire with a couple of rounds of white phosphorus.

It usually takes between three and five minutes for the effect to become obvious.

SHOWS HONEYCOMB

Then the smoke begins. It pours forth not only from the target but from as many as five or six other openings—indicating the extent to which Chinese tunneling has honeycombed the positions opposite.

After the phosphorus shells have burned out, fires they have started in the wreckage carry on the destruction, changing the smoke's color from white to black.

Brig. Jean Allard, the brigade commander, after watching a Pushkarenko shoot one day at five a.m., returned to the tanks' position to congratulate the sergeant. Later, en route back to his headquarters, he called at the Strathconas' command post to congratulate Maj William Ellis of Ottawa and Calgary, the squadron commander, on the work.

Ellis says the new Strathconas find the assignment "much as we had expected it."

"The monthly news letter the former squadron used to send us clued us up pretty well," he says. "A" squadron relieved "B" squadron early in June.

MUSIC PROMOTIONS

Missing from a list of St. Cecelia's convent music pupils was the name of Frances Sullivan who passed her Grade 4 examination set by the Royal Conservatory of Music.

FELL OFF VERANDAH

Ninety-three-year-old Mrs. W. Nicholls of Bridgenorth fell from her verandah Saturday and fractured her right arm. She was treated in Civic Hospital and is resting at present with her daughter, Mrs. G. McKee, 870 George St. Mrs. Nicholls broke her hip about seven years ago and it is believed that a weakness there caused the fall.

GOES THREE BETTER

A Madonna lily 51½ inches high and sporting 18 blooms is owned by William Withers, 250 Rogers St. The flower outdoes the one reported Tuesday, belonging to Jack Pruner, by three blooms and six and a half inches.

CUT THUMB

Mrs. Alice White, Bridgenorth, sliced her left-hand thumb severely Tuesday evening while carving meat for supper. She was taken to Civic Hospital where several stitches were required to close the wound. A few weeks previously, Mrs. White injured the knuckles of her right hand while closing the door of a car.

WHERE WILL BUSES STOP?

Officials of the Board of Education and the Suburban Area High School Board are trying to get some agreement with city officials on where the buses bringing rural students into PCVS for the day can stop. They would like to let the students off on the south side of Murray St., near PCVS, but that is a no-parking area. Police refused to turn a blind eye any longer toward the end of the school year and told the drivers to obey the no-parking regulations. Before the new school year begins in September they hope to come to some arrangement with the city on bus parking. Between nine and 11 buses are expected to be in service this September.

Committee Approves City Dramatic Clubs

Requests have been submitted by various groups, to the Recreation Commission, concerning the development of dramatic and puppetry clubs throughout the city playgrounds.

These organizations were approved by the committee and will begin in the near future. The clubs will provide a chance for practical application as well as theoretical training.

It was decided that the committee member would divide into two parties and make official visits to the municipal playgrounds. The first party will leave City Hall 6.30 Thursday evening and the other group on Monday at 3.00 p.m.

The committee was very pleased with the concert by the 100-piece band which played here and instructed Mr. Sinclair to try to make arrangements for another concert sometime before fall. The committee will omit the August meeting and resume in September.

Health Board May Seek Federal Grant

Money Is Available To Local Boards For Special Projects

The advisability of the Peterborough Board of Health applying for Federal health grants was the subject of discussion at a closed meeting today between officials of the Provincial Department of Health and the local board.

The provincial representatives at the meeting were Dr. Gordon Brown, director of national health grants administration for the province, and William Nicholls, statistician.

Before the meeting, Dr. J. P. Wells, medical officer of health, explained that the Department of National Health and Welfare, makes certain grants available to local boards of health for special projects, equipment, and for certain staff requirements.

Before these grants are made available the board making application has to justify its application to the provincial department of health, which acts as administrator for Federal health grants. This department screens the application, and if it is approved this approval is passed on to the national department.

"The purpose in applying for these grants would be to give the maximum health service at the minimum cost to the taxpayer," Dr. Wells said.

City Approves Housing Plan

City council has endorsed the approval of city planning committee for the building of 16 houses by Ed. V. O'Toole in the property between Western Avenue and Ford Street and the south side of Chamberlain Street. Its lots are 40 feet frontage, with depth of 120 feet.

"Although the season is getting on, the construction of some of the houses that are planned for this block will be under way this year," Mr. O'Toole said today.

The planning committee proposed that a tile drain be laid through several lots, a condition which Mr. O'Toole said he had been considering.

Pope May Proclaim 1954 Jubilee Year

ROME — Vatican sources say Pope Pius XII will proclaim the year 1954 "an extraordinary jubilee year" to commemorate the centenary of the proclamation of Pope Pius IX of the dogma of the Immaculate Conception of the Blessed Virgin Mary as an article of faith for Roman Catholics.

The Pope may decide to proclaim the jubilee year on Aug. 15, which Catholics celebrate as the Feast of the Assumption of Mary into Heaven.

The jubilee year may begin next Dec. 8, which is the Feast of the Immaculate Conception.

It is regarded as unlikely that the holy doors in the Roman Basilica will be opened for the jubilee year, or that pilgrimages to Rome will be required in order to obtain special indulgences.

City Council Sets Conditions On Building

For the double duplex house which Sam Moldaver intends to build at the northeast corner of Simcoe and Downie Streets, the city planning committee has laid down several conditions.

It is to contain four dwelling units only, "and is habitable on two storeys only", and it is also required that off-street parking will be provided for one car for each dwelling unit. A building permit is available on those terms.

The building at 241 Dublin St., used as a bake shop may be altered for use by A. Caravaggie for ripening bananas.

A COLLISION between a car and a tractor in Ennismore township Tuesday evening injured four young people. Berniece Twomey (shown left), riding on the draw bar of the tractor, and her brother, Ralph Twomey driving, were both hurled from the tractor. Two brothers in the car, Bob and Bill Cadigan, were also hurt.
(Examiner Staff Photo)

Four Young People Hurt As Car, Tractor Collide

Four young Ennismore township people received minor injuries early Tuesday night when a tractor and a car collided two miles southwest of Gannon's Narrows. All were taken to a doctor's for treatment for cuts and bruises. One youth spent overnight in hospital.

Injured were:

Ralph Twomey, R.R. 1, Peterborough, swollen hip, head cuts, bruised leg.

Bob Cadigan, R.R. 1, Peterborough, leg cuts near the knee, cut on bridge of nose, shock.

Bill Cadigan, R.R. 1, Peterborough, head cuts, finger cuts, knee injuries.

Bernice Twomey, R. R. 1, Peterborough, leg cuts and shock.

Bernice and Ralph Twomey, both on the family tractor, were just leaving the laneway of the farm, for ice-cream cones at a booth a mile north of their home, when they met in collision with a south-bound car, driven by their neighbours, the Cadigan brothers.

HIT BROADSIDE

The car caught the tractor broadside, smashing the headlights, radiator, fenders and grill on the car, and wrecking the left side of the tractor. The rear left side of the tractor was thrown about 30 feet through brush and trees against a fence.

The impact sent Miss Twomey, who was riding on the draw bar at the back of tractor, flying through the air. Her brother, the driver, was tossed in the opposite direction, hitting the rear fender of the car.

Inside the car, the driver, Bob Cadigan, was thrown against the steering wheel, snapping it. His brother Bill, went head on into the windshield, shattering it. Some fishing plugs became caught through Bill's clothing and knee.

"We were coming out the laneway. Ralph was driving," said Miss Twomey. "The car seemed to be away, way off. I was thrown off, rolled a couple of times and just got up."

Jerry Twomey, the young pair's brtoher, was walking up from the Twomey barn, and saw the car approaching from the north and at the same time saw Ralph turning out the lane.

FLEW OFF TRACTOR

"Ralph flew off over the tractor and hit the rear of the car," said Twomey. "I didn't see Bernice momentarily. The boys in the car were knocked out and bleeding badly."

Jerry first saw the fishing plugs stuck in Bill's leg through the pants into his knee. He took these out, and then "I hauled Bill out. Bob was slumped over the wheel."

Finally [illegible] road, Bob Cadigan quite dazed and Bill Cadigan sitting on the roadside, holding his head and bleeding quite badly. The girl, Bernice was walking around.

Laurie bundled the three youths in his car and rushed them to Dr. Robert Young's clinic on Aylmer St. There their bruises and cuts were treated after x-rays revealed no bones were broken.

Under observation. He was resting comfortably today.

Later after OPP Constable George Louth had investigated the accident, he advised that Bernice Twomey should be taken to Peterborough for an examination of her injuries. She was brought in by her father, Angus Twomey.

200 Bowlers Try For Trophy

The ninth annual Liftlock Gold Trophy lawn bowling tournament opened here this morning with 200 bowlers from 25 Ontario clubs set for the doubles competition. There were no defaults.

Chairman Laurie Mitchell welcomed the visitors, and J. D. Fitzpatrick read the rules governing the day's play before the tourney commenced at 9:30 a.m. All pairs play three 15-end games with the high total taking the trophy donated by Mr. and Mrs. C. G. Graham in memory of Mrs. Graham's father, William Kennedy.

Former Peterborough bowlers on hand included Charles Sedgewick, Wilfrid Lebarr, Dr. Charles Brereton and Harold Coleman of Toronto; and Jimmy Flett and Gordon Freeman of Oshawa. Results of the first draw:

Ask Swimmers To Demonstrate

Peterborough Ornamental swimmers are kept busy these days making films and guest appearances.

Tuesday nine of the senior girls performed for movie and still cameras in one of the pontoons of the Liftlock as it was ascending for an article that is to appear in the National Geographic Magazine.

The girls were wearing their red and white suits that are expected to show up well in color pictures.

Tonight a number of the girls, intermediate and senior, are going to take part in a demonstration of ornamental swimming at Thornhill pool in Toronto.

Recently officials of the Amateur Synchronized Swimmers Association of Canada, Ontario division, selected several numbers in the Peterborough club's repertoire they wanted to have shown. Other clubs taking part in the demonstration will each be showing only one number.

To be shown tonight are the numbers, Meet Mr. Callahan, featuring Betty Welch, Norma Douglas, Nancy Doubt, Isobel Crary, Joan Lynch and Jean Russelle;

The Three French Kittens featuring Linda Hayden, Nancy Girven and Gail Ferguson;

The Ugly Duckling, Anabel Morley and Linda Touchburn.

Carol Howe will be performing her red fox number and young Janice Crary was especially asked to do her solo.

A. C. Douglas Heads Feed Manufacturers

OTTAWA (CP)—A. C. Douglas of Peterborough, Ont., today was elected president of the Canadian Feed Manufacturers' Association to succeed W. Wilson of Saskatoon.

Other officers: vice-president, A. G. Kirstine, Edmonton; general secretary, W. N. Hendrick, Toronto; directors, A. Scott, Saskatoon, J. Anderson, Winnipeg, Jacques de Broin, Montreal.

Junior Rangers Stringing Lines Near Paudash

A Junior Ranger camp, comprising a supervisor, 14 boys and a cook, has been established at Paudash Lake by the Department of Lands and Forests this year.

Last year's campsite was at Apsley where the working crew was engaged in brushing out and erecting bush phone lines in Methuen township. This year at Paudash they are engaged in similar work.

All the boys are from cities in Southern Ontario and by the end of summer most of them will have become experts in various phases of bush work under competent supervision. A second camp this season is being operated at Mink Lake in Bruton township, Haliburton.

Distribution of day -old, poults and adult pheasants about 35,000 in all—is taking place at the Provincial Game Bird Farm, Codrington.

The greater part of the birds are going to the forestry districts of Lake Huron and Simcoe and a few releases in the neighborhoods of Lindsay, Tweed and Kemptville.

Pheasants are not released indiscriminately and their feeding and care is the responsibilty of sporting clubs, councils or regulated townships and interested farmers. Durham County's Darlington, Clarke and Hope townships have received 7,000 birds.

Suggest Change In School Hours

A change in public school hours has been recommended to the Board of Education by the supervision committee.

K. S. Wightman, superintendent of schools, said Tuesday night that there had been complaints from parents and teachers that children enrolled as traffic guards were losing too much time. In some instances this was hurting the standing of the children.

Under the existing system the guards could lose 30 minutes a day. Now this has been reduced to approximately 15 minutes.

With the exception of Prince of Wales School all schools it is recommended will go on this time schedule, beginning September:

Mornings —all classes go in at 9 o'clock and dismiss at 11.45.

[illegible] all classes in

Under this arrangement makes a longer day for the juniors but the guards, drawn from senior classes, lose only 15 minutes and that in the afternoon. The seniors dismiss in the mornings about 11.45.

Because of the peculiar traffic conditions at Prince of Wales their hours are different: 8.45 a.m. to 11:30 am. and 1.30 p.m. to 3.45 p.m.

The change of hours has still to be approved by the Board of Education as a whole.

Bullet Fired At Starling May Have Killed Young Manvers Farmer

Friend Tells Of Shooting At Bird In Vicinity About Same Time At Inquest Into Death Of William J. Smith

A bullet that went wide of the mark may have been the cause of the death of William John Smith, 20, Manvers township, on June 8. Ted Zralko told the court at the inquest today in Millbrook that he had fired at a starling at the approximate time of Smith's death and the bullet would have travelled in Smith's direction. "I started for the house when I heard a starling chirp", Zralko saw the bird and resting his rifle on a log he took aim and fired, but the .22 calibre mushroom bullet missed.

"I just fired that one (shot)", he said, "and then I checked the post and found no marks."

After firing the shot, Zralko went home and put the gun away in the pantry. He told his father he was going to see about a job with the McFarlane Construction Co. and left for Millbrook. Here he got some meat out of the freezer, had a haircut, went to Bethany and returned home about 5:30 p.m. and was met by OPP Don Erskine who informed him of the fatality.

MOTHER'S EVIDENCE

Mrs. Smith gave evidence that set the time of the shooting at approximately 1:30 p.m. "He started to work on the hay-rack in the morning and I could hear the hammering in the kitchen. He came in for dinner about 11:30 and went back to work at 12:00." Mrs. Smith broke down at this point but soon continued.

"At 2:30 I went out with a cup of tea and found him lying on his back, face up, and head toward the south. I spoke to him—he didn't answer. I raised his head and felt his pulse and heart, and then I ran to the house to call Dr. Wright."

Mrs. Smith said she had heard a shot about an hour before she went out, which would be around 1:30. "I couldn't tell which direction it was coming from, but I'm certain it wasn't from the east."

Dr. C. B. Waite said the cause of death was severe haemorrhage and shock. Smith died a few minutes after being struck. The bullet was fired at a distance and was nearing the end of its course. There were no powder burns on Smith's shirt.

"The bullet would not have been fatal if the boy's left arm had not been raised," said Dr. Waite. It looked as though Smith had been holding a nail up with one hand and hammering with the other. "If the hand had been down, the bullet would have passed through the fleshy part and most of its power would be spent.

"As it was, the bullet entered at the back of the left armpit and traversed the chest from left to right, passed through the heart, narrowly missing the nerve centre which controls the heart beat, and lodged in some muscle on the right side between the fourth and fifth ribs.

NO QUARRELS

When asked if there had been any dispute between himself and Smith, Zralko replied, "I've known him ever since we moved here—we always had been friendly."

Mrs. Smith also stated that if there had been any trouble she didn't have any knowledge of it.

Ivan Wright of Peterborough had been with Zralko on Saturday and had seen Smith at the dance that night, but said there had been no trouble. They met again on Sunday evening, but everything was friendly.

Mike Zralko, the boy's father, took the stand and admitted to shooting a shot from the rifle about 10:30 in the morning. "I shot at a chicken hawk that had been bothering my two-week-old chickens.

"I was bagging potatoes and after dinner I laid down to rest for a few minutes and then went back to work. Around 2:30 p.m. I head a scream from Mrs. Smith's direction but didn't pay any attention to it. I though it was just some children who might have come there to visit."

Donald and Alvin Porter who live across from the Smiths, both testified that they heard the shot and both thought it came from a north-westerly direction.

Stan Zralko and Mrs. Zralko both gave evidence, all of it stating that Ted Zralko had been out shooting at about the time of Smith's death.

Mrs. Zralko broke down twice and was allowed to leave the room.

Food Merchants Favor Monday Closing

The desire of business men in the city to try to agree on a suitable closing day to suit all stores took a step forward Tuesday night, when the food group of the Retail Section of the Chamber of Commerce agreed to closing all day Monday and voted unanimously against night opening.

Don Lewis, chairman of the food group of the Retail Section, called the meeting.

A petition will be drawn up and presented to the city council to make Monday a legal closing day. But first all the various classifications of the retail section of the Chamber of Commerce will have to meet and also agree on Monday as a suitable closing day as well.

MAYBE SEPTEMBER

If all classifications can agree on a day and as most of the merchants in the city favor Monday, it should come into effect some time in September.

Up to now there has only been a gentleman's agreement between store owners, that they would all close at the same time. But during Christmas and Easter and other holidays some stores failed to stand by the agreement, and businessmen have now come to the conclusion that store hours cannot be decided upon by agreement alone.

Soldier's 10 Children Placed In Orphanage

CINCINNATI (AP)—A U. S. Army sergeant, scheduled to return to Korea next week, has placed his 10 motherless children in an orphans' home.

The General Protestant Orphan Home said Tuesday that Sgt. Elmer A. Day's children represented the largest family group ever admitted to the home.

Blanche Day, 34, died two weeks before the soldier was able to get to his wife's bedside from Korea.

WINNING TEAM—These pictures of members of the British Everest Expedition were made as the victorious team led by Col. John Hunt, trekked back to Khatmandu after the successful ascent. At right is Sir Edmund Hillary who with Sherpa Tenzing (left) made the ascent. In the centre are women assistants carrying some of the team's equipment down from Namche Bazar.

Middlesex Beats Warwickshire By 148 Runs

LONDON (Reuters) — Middlesex strengthened its position at the head of the English county cricket championship table Tuesday, beating Warwickshire, 1951 champions, by 148 runs.

Spin Bowlers, Jack Young and Fred Titmus of Middlesex had the batsmen guessing on a well-worn pitch.

Warwick needed 342 runs to win, but lost half its team for 73 and ended all out for 193.

Surrey, current pennant holders, is back in the hunt with a smart 10-wicket home win over Yorkshire Surrey, with three matches in hand over Middlesex, is 26 points in arrears.

Close-of-play scores in first-class cricket:

Glamorgan 154 and 109, Lancashire 258 and six for no wicket. Lancashire won by 10 wickets.

Yorkshire 137 and 172, Surrey 292 and 21 for no wicket. Surrey won by 10 wickets.

Middlesex 309 and 204 for five declared, Warwickshire 172 and 193. Middlesex won by 148 runs.

Nottinghamshire 34 for six declared and 96 for no wicket, Derbyshire 125 and 312. Nottinghamshire won by 10 wickets.

Somerset 168 and 250, Hampshire 360 for five declared and 61 for two. Hampshire won by eight wickets.

Gloucestershire 381 for six declared and 201 for six declared, Worcestershire 384 for two declared and 74 for four. Match drawn.

Essex 232 and 284 for eight declared, Kent 215 and 192 for five. Match drawn.

Leicestershire 309 for eight declared and three for no wicket, Sussex 296. Match drawn.

Oxford University 312 and 116, Cambridge University 191 and 238 for eight. Cambridge University won by two wickets.

Here And There In Sports

By THE CANADIAN PRESS

NBA DROPS WALCOTT

WASHINGTON (AP)—The familiar name of Jersey Joe Walcott was missing from the summer fight ratings announced Tuesday by the National Boxing Association.

Of the five heavyweights listed as outstanding boxers or better, only one is a hangover from the Joe Louis era. He's Ezzard Charles, the former champion who is rated No. 2, a contender for the title held by Rocky Marciano of Brockton, Mass.

The NBA heavyweight rankings include 15 fighters, 10 of them winning honorable mention.

Arthur King, a Toronto boxer now fighting out of Philadelphia, was listed as an outstanding boxer in the lightweight class.

Outstanding heavyweights were listed as Roland LaStarza, New York, Dan Bucceroni, Pennsylvania, and Bob Satterfield, Illinois.

In the lightheavyweight class, Harold Johnson, Pennsylvania, was listed as logical contender to the title held by Archie Moore of California. Outstanding boxers were listed as Joe Maxim, Ohio; Yolande Pompey, British West Indies; Rocky Jones, Pennsylvania; Dan Nardico, California, and Jim Slade, New York.

For the vacant middleweight crown, Randy Turpin of Britain and Bobo Olson of Hawaii were named logical contenders.

NEARS TRACK RECORD

GOSHEN, N.Y. (AP) — Newport Dream from Octave Blake's Newport stock farm of South Plainfield, N.J. missed the track record for two-year-olds by one-fifth of a second in taking the $14,200 E. H. Harriman Challenge Trophy for two-year-old trotters at Historic Track's grand circuit meeting Tuesday.

Driven by A. Cameron, Newport Dream won his elimination heat in 2:11 and then came back to take the final in 2:08. A. M. Mardin's Worthy Acclaim, winner of the first elimination mile in 2:09, was second in the final with third going to Goblin.

David R. Johnston's black filly Bewitch, took the $14,978.40 Coaching Club Trotting Oaks for three-year-old fillies by beating out Fiesta Hanover and Lark Hanover.

✦ ✦ ✦

GIANT BROOK TROUT DIES

TRENTON, N.J. (AP)—New Jersey fish authorities today mourned the death of the largest brook trout ever to inhabit the state hatchery at Hackettstown.

Charles O. Hayford, state fish culture superintendent, said the hatcher's premier brook trout died last week, presumably of old age.

He said the trout weighed 6¼ pounds and was 22 inches in length and 14½ inches in girth.

✦ ✦ ✦

SOX HURLER HAS SON

CHICAGO (AP) — Billy Pierce, ace pitcher of Chicago White Sox, announced Tuesday the birth of his first child, William Reed, born Monday night in Detroit. The boy weighed eight pounds six ounces.

Must Post Warning

COLUMBUS, O. (AP)—A bill to require Ohio police to post signs warning motorists of zones in which speed is measured by radar or electrical equipment passed the Senate. The bill as it now stands provides such signs must be posted not less than 750 feet or more than 1,500 feet in advance of such a speed measuring zone.

CANADIAN OPEN COURSE — The Canadian Open golf tournament is to be played over this par-71, 6,436-yard Scarborough course in east Toronto. More than 180 players, cream of the United States and Canadian tournament golfers, will compete. The course record of 268 was set in the 1947 Open by Bobby Locke. In a warm-up round Tuesday, Tommy Bolt shot 64, seven under par. This aerial view is from east to west, with the clubhouse shown at the top of the first fairway.

Hogan, Locke Star In British Open

By STERLING SLAPPEY

CARNOUSTIE, Scotland (AP)—Ben Hogan and Carnoustie's soggy championship course ran head on in the British open golf tournament Tuesday and the course came out best. The seaside layout's slow and shaggy greens lofted the U.S. Open champion's score to 75.

Along with a 70 Monday on the easier Burnside course, that gave the Texan a 145 total—easily low enough to qualify him for the tournament proper today.

Defending champion Bobby Locke of South Africa fired a brilliant 71, one under the unofficial Carnoustie par, for a two-day 136 and the medal honors.

While Locke was brilliant on the greens, Hogan had poor success putting. He took 35 putts.

The 91 low scores qualified for rounds of 18 today and Thursday. The field will be reduced to 50 for Friday's 36-hole finale. The qualifying scores don't count in the tournament proper, which is medal play.

SECOND TO LOCKE

Second to Locke were John Panton of Scotland and Christy O'Connor of Ireland with 141s. Panton, member of the British Ryder Cup team, had a 72 after an opening round record 69. O'Connor, a little-known Irish pro, toured the Burnside course in 68. He had a 73 Monday.

Lloyd Mangrum, another American veteran, shot the hottest round of the day, a 67 at the Burnside. He qualified with 145.

Scores of other qualifying notables included: Ossie Pickworth, Australia, 73-69—142; Harry Bradshaw, Irish power hitter, 70-72—142; Albert Pelissier, Fort Marly, France, 73-69—142; Antonio Cerda, Argentina, 72 - 70 — 142; Charlie Ward, English Ryder Cupper, 72-71—143.

Mantle, Mathews Become Great Powerhouse Kids

By JOE REICHLER

NEW YORK (AP)—Two powerfully-built youngsters who didn't cast their first vote until last November are the most-talked-about young players in baseball today.

One is Mickey Charles Mantle, new pride of New York Yankees, rated by many as a worthy successor to the great Joe DiMaggio. The other is Edwin L. Mathews, Jr., toast of Milwaukee Braves and likely heir to Ralph Kiner's National League home run crown.

Mantle and Mathews stand out as the two greatest powerhouse kids to arrive in a long time. The surest way to start an argument is to pick one over the other.

In the American League, especially in eastern cities, they'll tell you that Mantle, the heavily-muscled, switch-hitting Oklahoma kid with the speed of a comet, is the greatest young ball player in the country today. Ask any National Leaguer, especially from the Midwest, and he'll tell you why Mathews, the baby-faced Texan with the blacksmith arms, has greater potential than anyone in the game.

DOING ALL RIGHT

Despite recent batting slumps by both, Mantle is hitting .312 to Mathews' .302. The Milwaukee crasher, however, has walloped 25 home runs to 13 for Mantle. Eddie is the only major leaguer to homer in every park in his league this year. Last year Mathews hit 25 homers to 23 for Mantle. Eddie also leads Mickey in runs batted in, 66 to 53. Mickey has scored more runs but Eddie owns a higher slugging percentage. Although Mathews is considered fast for a big man, he is no match for the Mercury-footed Oklahoman.

Mantle is the fastest man in the majors. He has been timed repeatedly going from the plate to first base on a bunt in 3.1 seconds.

During a football scrimmage in 1947, Mantle was kicked in the left ankle. An infection followed and this developed into osteomyelitis, a bone disease. His knee and ankle are the only things that can stand between him and true greatness. Mathews is hale and hearty.

NOT POLISHED

Neither Mantle nor Mathews is a polished ball player. Both are practically helpless against certain types of pitching. Both make mistakes in the field. Despite Mantle's dazzling speed, he is a novice at running the bases. Neither is an adept bunter.

But it must be remembered that both are only 21, possess tremendous natural ability and have time to overcome their faults.

International Field Of 188 Starts Off In Canadian Open

By W. R. WHEATLEY

TORONTO (CP) — What some of the American pros called a "nice little course" invited an international field of 188 to do their darndest today in the opening round of the Canadian open golf championship.

The rolling Scarboro course to the northeast of the city is a 6,607-yard layout with nines of 36-35. The last time it was host to the $15,000 Canadian Open, in 1947, it took a 268 shellacking from South Africa's Bobby Locke. In that same tournament Ed (Porky) Oliver set the competitive course record of 63. Oliver was a late scratch from this tournament.

No one predicts that Locke's mark will be bettered. Guesses range all the way from "under 270 will take it" to 274. The high figure is the prediction by Bob Gray, home club pro who knows his course like a book.

There was no consistency at all in guessing the winner. Johnny Palmer, who took the 1952 title at Winnipeg St. Charles with a Canadian Open record of 263, is back. So are big Jim Ferrier, the transplanted Australian from San Francisco who won in 1950 and 1951; E. J. (Dutch) Harrison from Ardmore, Okla., 1949 winner, and the veteran Lawson Little of Pebble Beach, Calif., 1936 winner.

The names of Jack Burke, Jr., the little Texan now playing out of Kiamesha Lake, N. Y., and Doug Ford of Harrison, N. Y., were frequently heard along with those of half a dozen other touring pros.

The perennial question, "can a Canadian take it?" was bound to come up. Canada has her top pros in this big golf show. Everybody is hoping that one of these times a Canadian golfer will play four sizzling sub-par rounds and bring back the Open title that hasn't remained at home in 39 years since Karl Keffer of Ottawa won it.

Henry Martell of Edmonton, who won the CPGA title last Sunday at Quebec, must be given due consideration among the homebreds. With him are other top golf names in Canada—Pat Fletcher of Saskatoon, whom Martell dethroned; Stan Leonard of Vancouver, four times CPGA champion and several times low Canadian in the Open; Montrealers Bill Kerr, Stan Horne and veteran Jules Huot.

Tommy Bolt, the Maplewood, N. J., golfer, moved up on the list of favorites Tuesday after shooting a seven-under-par 64 during a practice round. Bill Kerr had a 66, the same as Fletcher the day before. Martell fired 67 and 71 in his two days of workouts.

Marty Furgol of Lemont, Ill., gave the pre-tournament gathering something to talk about Tuesday when he shot a hole in one. The ace came at the par-three, 220-yard second hole. Furgol used a No. 3 iron.

All the visiting players were enthusiastic about the condition of the Scarboro course. Jack Burke called it "the best-conditioned course I have ever played on in Canada." A thunder shower late Tuesday gave a new freshness to the course, and the weather man predicted clearing weather for the opening round with a likely maximum temperature of 75.

Scheduled to start first were Paul Stokaluk of the Fort William Municipal Club and Rodolphe Huot of Royal Quebec.

P.G. & C.C. CHIPSHOTS

With all first-round matches in the various competitions having been played, golfing activity at the Peterborough Golf Club the past week was confined mostly to friendly games. Some of the boys even took their wives and girl friends out for a round.

The match and handicap committee had to crack down on a few defaulters who did not play matches before the deadline, and they were scratched. This should serve as a warning to everyone concerned. You must play your matches before the alloted dates, or else!

Alfie Hill is back from the PGA championships at Quebec after making a creditable showing. Alf had rounds of 78-74-79 on the par 72 course and according to Alf the greens were very fast, rolly and hard to putt on. However we think he did very well and more will be heard from this young fellow. Alf is passing up the Open for the Labatt Open and the big money that goes with it. Here's hoping he brings some of it back.

WESTCLOX TROPHY

Results of second round matches are: Mike O'Leary defeated Mac Campbell; Cec Campbell defeated W. J. Hardill; Reg. Stewart defeated J. Armstrong.

McDONALD TROPHY

E. W. Armstrong defeated Dude Brady.

MEN'S TWO-BALL

Les Reid and Ed. Dixon won by default from Stan McBride and Ossie Anderson. Stew Williamson and Ted Flumerfelt won by default from Gordon Maniece and Tom Rodger. Hip Hardill and Mac Campbell defeated Howard David and Stan Payne. Cec and Barry Campbell defeated Ted Cragg and O. M. Steer.

In the Stratton competition for men 50 years and older, M. G. Hardill defeated Tom McArthur.

Next week should be an interesting one as a lot of matches will have to be decided before then. A big one is in store Saturday morning when Moon Wootton takes on Jimmy Clarkson in the big match of the lower bracket of the club championship.

That about wraps it up for this week.

P.S.—Did you know that we have an expert tree trimmer in our midst? Well we have, none other than our good friend Jim Clarkson. Let's hope that Jim can take time from his forestry work to play a little golf too.

LADIES' SECTION

Barb Williamson won first net and low gross while Honey Clapper won second low net. Ev Baptie won third net and the completion which was score minus putts.

CPGA CHAMPION—Henry Martell, 39, of Edmonton is winner of the Canadian Professional Golf Association championship. Sinking a nine-foot putt on the final green of the Royal Quebec club at Quebec City, Martell finished the 54-hole tournament with a score of 211, one better than Stan Leonard of Vancouver and five under the course par. Martell will compete in the Canadian Open championship at Toronto.

Dressen Names 7 Pitchers For All-Stars

CINCINNATI (AP) — Manager Charlie Dressen of Brooklyn Dodgers dipped into the ranks of seven ball clubs Tuesday to fill out the 25-man National League all-star team which will meet the American League all-stars in the annual game here next Tuesday.

He named seven pitchers with a combined record of 64 won and 39 lost (up to games of Tuesday) to support an array of power hitters.

This is the hurling crew the Dodger pilot will have available:

Robin Roberts (13-6) of the Phils, who has pitched in two previous All-Star games; Gerry Staley (12-3) of St. Louis Cardinals; Hoyt Wilhelm (5-4), New York Giants' great reliefer; Murry Dickson, who has a 7-9 record with Pittsburgh's last-place Pirates; Curt Simmons (7-5), of the Phils; Warren Spahn (10-3) of Milwaukee Braves who will be making his sixth appearance on an all-star squad, and Harvey Haddix (10-3) of the Cards.

The starting lineup is made up of Ted Kluszewski of Cincinnati, first base; Red Schoendienst of St. Louis, second base; Peewee Reese of Brooklyn, shortstop; Eddie Mathews of Milwaukee, third base; Stan Musial of St. Louis, left field; Gus Bell of Cincinnati, centre field; Enos Slaughter of St. Louis, right field, and Roy Campanella of Brooklyn, catcher.

The rest of the squad named by Dressen to go with the eight starters picked by a vote of the fans are:

Infielders—Gil Hodges and Jackie Robinson of Brooklyn, Davey Williams of New York, and Granny Hamner of Philadelphia.

Outfielders—Duke Snider and Carl Furillo of the Dodgers, Ralph Kiner of Chicago Cubs and Richie Ashburn of the Phils.

Catchers—Del Crandall of the Milwaukee Braves, and Del Rice of the Cardinals.

PERMA-STONE FRANCHISE

available for

Peterborough District

To a man interested in establishing a business with unusual sales and income potentialities in the building field, we have available the franchise for marketing Perma-Stone throughout the Peterborough area.

Perma-Stone is the original structural stone facing which has been used and endorsed by thousands of property owners in the United States for more than 25 years. It has been on the market in Canada for several years and has met with phenomenal success. Perma-Stone provides all the beauty, permanance of strength of genuine cut stone at a fraction of its cost.

Appointments to discuss this franchise may be arranged with Mr. Jack C. Jones, who will be at the Queen's Hotel, Peterborough, commencing Tuesday morning, July 7th.

PERMA-STONE of ONTARIO LTD.

Model by model...mile by mile

Thriftiest movers of them all

The strikingly new Sedan Delivery is an ideal advertisement for the business it serves—model 2271 Max. G.V.W. 4100 lbs.

Good appearance and utility are combined in the three outstanding GMC Pick-up delivery trucks. G.V.W.'s 4800, 5800, 7000 pounds.

The Carryall Suburban takes eight passengers comfortably, and can be readily converted to handle equipment or supplies. Model 9316. Max. G.V.W. 4800 lbs.

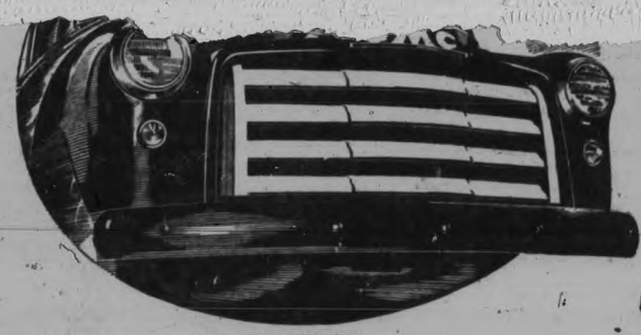
A truck for every purpose is exemplified in the GMC Series 9430 providing chassis and cabs, windshield cowls, and flat faced cowls for any body type.

Multi-stop deliveries are made easier with the GMC 9100 Series chassis (flat face cowl type illustrated). To provide for a wide variety of needs, chassis are available in either 11,000 or 14,000 G.V.W., with choice of 125 in., 137 in. or 161 in. wheelbase.

A wide variety of special body types can be used to advantage on these 9800 series Cab-Over-Engine models. Powerplant is the husky GMC 235.5 Loadmaster engine. These trucks have proved first choice with owners where maximum load space is required on shortest possible wheelbase.

Designed for general truck hauling and powered by the famous 236.5 cu. in. Loadmaster engine, this truck has pulling power to match its handsome style. With many outstanding features. 5500 Series Chassis and Cab Max. G.V.W. 16,000 lbs.

An ideal truck for heavy hauling up to 16,000 pounds G.V.W., the 9700 Series Option 131 provides a wide range of wheelbases to meet almost any body requirement. Faster road schedules at top economy are made possible by the proven 248 cu. in. Torquemaster engine.



The big, rugged 15,000 pound rear axle teams up with the optional Workmaster engine's 130 hp. to bring you a truck that gives an outstanding account of itself on or off the highway. Illustrated is the 9700 Heavy Duty Series.

MODEL for model, feature for feature, these 1953 trucks are the greatest GMC trucks ever built. They bring you new staying power and new safety with heavier, more rigid and durable construction. All 1953 models provide increased horsepower and higher compression ratio. These thrifty valve-in-head engines give you faster acceleration, greater hill-climbing ability—and even greater economy than ever before.

But there's only one way to really know what advantages are waiting for you in these new GMC's—

Drive one yourself!

Your GMC dealer will put you behind the wheel of one of the wide variety of models available. You'll thrill to the drive of sparkling horsepower—the lift of responsive high compression—the solidity and stamina which will enable you to save more and make more on every hauling job—with GMC.

PHILIPPINES GRANT CLEMENCY—Four of the highest ranking Japanese prisoners at the Philippine Islands' New Billbid prison chat with a newsman and a prison official after they learned of an executive clemency order in their cases by Philippine President Elpidio Quirino. The prisoners, sentenced for war crimes, are seated between American newsman Rodolfo L. Nazareno (left, seated) and the assistant director of prisons. The prisoners are: Lt. Gen. Yoshihide Hayashi; Lt. Gen. Shizuo Yokoyama; Rear Adm. Takesue Furuse, and Maj. Gen Kensichi Masuoka.

Westmount Subdivision To Include 231 Houses

The housing subdivision which Hugh Stewart conceived a few years ago, to convert into building lots all or part of his property, Hilltop Farm, on the north side of Weller St. west, has now emerged from its preparatory phases as a project of its new owner, Westbrook Company of Toronto.

All the details of survey, plan and registry have been completed, together with municipal agreements for annexation by the city and extension of its domestic and community services.

These preliminaries have been conducted by W. M. Bowes, planning consultant and director of the company, who told The Examiner today that lots are for sale and that work in the subdivision, including the building of houses, will be begun this month.

The plan and survey by Pierce & Pierce shows a total of 231 lots most of them with the minimum frontage of 60 feet, with others 75 and 80 feet. They are laid out on 14 streets, all of them except Weller, to be constructed, with such names as Sherwood Crescent, Kawartha Circle, Norwood Terrace, Kildare Road, Kensington Drive, Windermere Avenue, Champlain Place, and so on.

Mr. Bowes offered no estimate of the eventual investment in new housing values in Westmount Gardens, as the former Hilltop Farm has been named by Westbrook Company, but at an average of present day costs and the influence of west-end residences, the total could approximate $3,000,000. At an average of even $9,000, the development when ultimately completed would exceed $2,000,000. And, that is on a general basis, without considering what has been mentioned as the probable west end influence in many prospective instances.

OWN 40 ACRES

Mr. Bowes recalled that the city owns something like 40 acres south of Weller St. near Civic Hospital site which have been quite definitely contemplated for park purposes, enhancing the environment and setting of the hospital buildings.

"The Westbrook property is to be annexed by the city from North Monaghan," Mr. Bowes said. "City council this week passed the bylaw applying to the Ontario Municipal Board for annexation, and we have already received the assent of the North Monaghan township council. As the development proceeds in that area, I feel certain that further annexation will extend northerly to Parkhill Road, westerly to Wallace Drive and south to Sherbrooke St., completing that entire block."

Considerable residential expansion has already indicated the trend in the vicinity of Wallace Drive, and generally west and north of Westbrook Gardens, in fact to the north, west and south.

One of the local assets which Mr. Bowes emphasized in his early summary of the project to the council will be the deeding by the company to the city of a 50-foot length of Weller St. which had been retained by Mr. Stewart and now is open for traffic on Weller St. westerly to Wallace Drive.

Another feature of this project is the company's gift of a 100-foot strip on the east side of their land for a proposed parkway or by-pass highway from Clonsilla Ave., approximately in the vicinity of Western Ave. Its course has been contemplated as crossing Sherbrooke St. and continuing northerly to Parkhill Road, incidentally a link between Jackson Park and the park that is designed for the Civic Hospital area.

$3,000 GRANT

Local traffic will be from a service road. For connection to the trunk sewer that has been planned, from north of Weller St., the company has promised a grant of $3,000, as payment of part of the cost of the essential work.

This sewer will also be carried all the way south, crossing Clonsilla Ave. into Western Ave., finally heading into Erskine Ave. at Lansdowne St. and extending along Borden Ave., which is to be opened to Monaghan Road.

The sewer detail and the acquiring of properties for its route immediately north and south of Sherbrooke St. and finally on Borden Ave., was one of the problems the city council encountered, with consequent delay to the inception of the Westbrook Company undertaking.

Purchase of Hilltop farm from H. Stewart was handled by Ernest Ridout Real Estate Limited, of which John M. Bowes is manager. He is a son of W. M. Bowes.

Additional details of the subdivision are summarized in the following facts.

An 80 foot roadway, named Fairmont Boulevard, will extend north from Weller St. approximately where the present driveway to the Stewart home is located. "It is expected that this boulevard will eventually be projected through to Parkhill Road."

Curving streets were designed in Westbrook Gardens to reduce traffic speed. All home building sites will be graded ready for construction and final landscaping.

CITY SERVICES

The property will be serviced by water mains of the Utilities Commission, sewers, streets, electric light lines, and will have permanent crushed gravel roads suitable as a base for pavement.

The entire cost of sewers and road grading will be paid by Westbrook Company and will be included in the lot price. This means a higher initial land cost and lower taxes to the home owner over the years.

For example on a typical 60 foot lot, the purchase price would be $600 and the improvement and service charge $600, a total of $1,200. The total price of improved home sites will range from $20 to $25 a foot. Bungalows, 1½ storey and two storey dwellings may be built with all plans subject to approval of the planning consultant.

It may be generally known that city council first imposed improvement and service charges in the Cobourg Lumber Co. subdivision on the Cecil Hayes property between High St. and Western Ave. That change of procedure was fully considered three or four years ago from experience with other subdivisions. Their policy was intended to be a form of protection for the lot buyer in the matter of tax costs being discovered as annual extra after the purchase of the property was made and also avoided city expenditure and financing cost.

The city used to borrow money for the laying of sewers and certain other improvements, then issue debentures, and the home builder had to assume the cost in taxes for the period of the debentures which were issued for the borrowing. By the change in financing, such items are borne by the subdivider, and are included in the price of the lots.

Westbrook Company is a land developing company specializing in residential subdivisions in various Ontario centres. It generally works closely with one or more building contractors in developing better type properties. Their last project was in 1952 at Westbrook Park, Oshawa, where the entire subdivision was sold out in six months.

Mr. W. M. Bowes intimated to the Examiner that the company purposed building some houses themselves at Westbrook Gardens.

As already reported, J. M. Bowes has bought the Hugh Stewart house for occupation. A notation in the statement from him mentions the problem attaching to the spacious barn on that property.

"It is one of the landmarks of Peterborough, an L-shaped building 100 ft. wide by 100 ft. long. Many have expressed the opinion that this fine brick building on a stone foundation should not be destroyed until its possible uses have been explored.

"Among the suggested uses have been an apartment building, church, community center, a permanent home for the Summer Theatre, and partial demolition to make an exotic building with formal gardens and room for 10 automobiles.

"The company has not yet decided on the fate of the building, but insists that it must conform with the residential character of the most desirable neighborhood in Peterborough."

Grading of streets will be begun within 2 weeks and construction of the first houses sometime this month, is now contemplated.

"LITTLE PARLIAMENT" MEETS—The Northwest Territories Council, called the "Little Parliament of the North," meets in Yellowknife. In the speech from the throne, read at the opening of the council meeting, the town of Yellowknife, with a population of 3,000, asked for a fully-elected council, making it the first self-run community in the Territories.

Have New Seaweed Industry Developing In Eastern Canada

By KINGSLEY BROWN JR.

HALIFAX (CP)—Seaweed is on the threshold of providing Eastern Canada with an industry whose products may soon turn up in ice cream, medicine and food.

Dr. E. Gordon Young, director of the national research council's Maritime regional laboratories here, said in an interview that plants are expected to be established in Quebec and Nova Scotia "within the next six months" to produce seaweed extracts.

The Maritime provinces have for years been exporting one particular underwater growth, Irish moss, to the United States, where processing plants at New York, Chicago and New Bedford, Mass., have derived $500,000 worth of extracts annually.

Dr. Young said the two Canadian firms will extract jellies called carrageenin and algin from seaweed.

HAVE 50 USES

The jellies, for which scientists have found about 50 uses, are used in a number of industries to make products mix. Without them for instance, you couldn't have chocolate milk; the cocoa wouldn't blend with the milk.

The Nova Scotia research foundation is also experimenting with the use of seaweed as a fertilizer and soil conditioner.

Dr. Young said the processing plants would at first be competing with the United States, Canada's sole supplier of algin and carrageenin.

Then, if low-cost production warranted, they could compete with England and Scotland.

NOT ADAPTABLE

Seaweed on Canada's Pacific coast would not be adaptable to this unique industry because it is of the large kelp variety. Atlantic coast seaweeds are smaller and cling to inshore rocks.

Dr. Young said the present harvest of Irish moss could be enlarged by five to 10 times. "We have not as yet estimated how much algin, derivative of the heavier seaweeds, could be gathered. But we believed Canada's resources are far better than those of the United States, England and Scotland."

The provincial research foundation has already photographed a large part of Nova Scotia's coast in an effort to find seaweed beds.

The plant is harvested by large rakes which claw it from the bottom. It is then cut off and allowed to grow again.

Mrs. Mary J. Stewart

Funeral service for Mrs. Mary Jane Stewart, who died Sunday at her home on Lot 9, Concession 8, Otonabee township, was held Tuesday at her home.

The Rev. H. B. Herrington of Keene officiated. Burial was in Keene cemetery.

Pallbearers were Gordon Taylor, Angus Adamson, Harold Weir, Harry Stewart, Harold Wilson and David Kempt.

Flower bearers were: George Mather, Robert Mather, Harold Stillman, Jack Paterson, Leslie King, Christopher Nablo.

Norwood News

Weekend visitors of Mr. and Mrs. John Rogers were Mr. and Mrs. C. E. McConnell and Larry of North Bay and Miss Marion McConnell of Toronto.

Miss Joanne Rogers is in Peterborough visiting Mr. and Mrs. George Cooper.

Last week Mr. and Mrs. John Rogers and Mr. Lyle Rogers were in Foxborough as guests of Mrs. J. Lake.

Mr. Norman Morrison spent the weekend with his mother and brother Mrs. Thomas Morrison and Dewart.

Mr. and Mrs. G. A. Brethen are spending the week in Alliston with Mr. and Mrs. Lyle MacMillan.

Weekend visitors with Mr. and Mrs. Art Hamblin of Picton were Mr. and Mrs. John Hamblin.

Mrs. George McGee and Jack and Mrs. Ringham all of Detroit were weekend visitors of Mr. and Mrs. J. J. Stewart.

Master Bob Tedford is spending the week with Masters Ross and John Stewart.

The Rev. R. D. Duncanson, Mrs. Duncanson and family spent the weekend with the former's mother, Mrs. P. P. Clough and Mr. Clough in Toronto.

Mr. and Mrs. P. P. Clough of Toronto are spending the week with the Rev. and Mrs. R. D. Duncanson and family.

Mrs. Lloyd Fleming, John, Douglas and Robert and Mrs. Roy Bower left Monday evening for Baccaro, Nova Scotia, where they were called owing to the serious illness of their father Mr. Charles Bower.

Mrs. E. J. Lang is spending this month visiting Mrs. Lloyd Hess in Peterborough and Mr. and Mrs. Allan Clarke in Lakefield.

Dr. and Mrs. A. R. McGee of Toronto visited at the homes of Mrs. Fred Patterson and Mrs. J. Stewart over the weekend.

Mr. and Mrs. Lionel Edmunds and Jo were Sunday guests of Mr. and Mrs. Archie Oitment at their cottage at Tallon's Lake.

Sounds Warning

MUNICH (AP)—Alexander Kerensky, last premier of Russia before the Communist revolution, warned the West against being deceived by the Kremlin's latest peace offensive. "With or without Stalin," he told the Munich Academic-Political Club, "the Kremlin's ultimate aim remains world revolution."

Ask For Republican

VIRGIN ISLANDS (AP)—Republican party leaders have named a two-man delegation to visit President Eisenhower in Washington and ask him to appoint a Republican governor for these islands. Party members complained at a caucus that the Virgin Islands are the only U. S. territory still governed by a Democrat appointee.

Canadians Teach New Zealanders In Paper Making

By J. C. GRAHAM

Canadian Press Correspondent

TOKOROA, N.Z. (CP)—A Canadian colony is growing up at Tokoroa, fastest-growing town in New Zealand, where Canadians are teaching New Zealanders how to handle key jobs in the kraft pulp industry.

Tokoroa, a timber town in the centre of the North Island, owes its existence to the operations of New Zealand Forest Products, huge timber organization which has 176,000 acres of man-made forests in the district.

The company makes wallboard and many other timber products and is now launching out into the paper industry. It has installed big mills for kraft pulp and paper at Tokoroa and they are on the point of beginning production.

To set the industry under way it has imported experts from several countries to carry out the key jobs and train staff recruited locally. Workers come from several paper-making countries, including Australia, Britain and Scandinavia, but the largest number of experts has been recruited in Canada.

The manager of the mill, D. L. Stacey, a New Zealander, spent 18 months examining mill operation at a huge kraft sulphate mill at Port Alberni, B.C., and the assistant mill manager, J. P. Turner, is a Canadian from the same Vancouver Island works.

Canadians performing key jobs at the mill include Geoffrey C. Norman, J. F. Sanders, W. F. de Boeck, K. E. J. Durocher, L. A. Durocher, E. J. Connerly and W. W. McLaughlin, all of Nanaimo, B.C., L. F. Read of Vancouver, W. Bigrigg of Port Alberni and W. Watson of Langley Prairie B.C.

The contract of the workers is four years, but the company hopes they will stay permanently.

It has a novel reception scheme for its workers from abroad. All are provided with houses in the big housing estates it is building at Tokoroa, 144 miles from Auckland. When they reach Auckland by ship or plane they are taken to a big furniture store in the city and select their own furniture from samples on display. The store's branch at Tokoroa moves the furniture into their house, and they arrive to find it ready for occupation, complete with a week's provisions.

The mill at Tokoroa is the first chemical pulp mill to operate in New Zealand.

It is the start of a development which will offer many opportunities to Canadians in the next few years. A vast project for harvesting the government's planted forests in the North Island is under way, with the government, New Zealand industry, and several big American firms taking a share in development.

Speedy Trip

VANCOUVER (CP) — Truck driver Mike Allen, 32, made a return trip to Windsor, Ont., which made even hardened customs officers blink. He drove the 5,451 miles in eight days and four hours, including a 25-hour stopover and 33 hours' sleep. "I wasn't trying to break any records," he said.

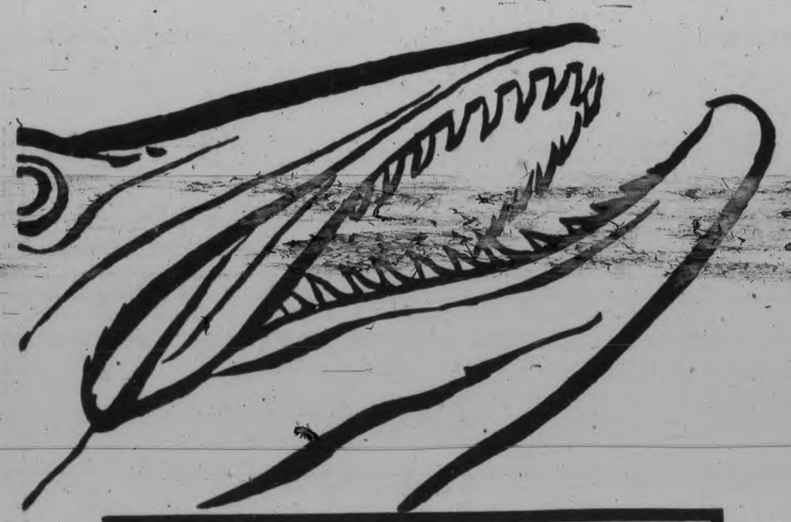
Nothing can take the place of New Sunlight—it washes everything washable. No wonder it's Canada's favourite bar soap. Get New Sunlight at your grocer's today!

COLE SLAW DRESSING

1 teaspoon Keen's Mustard
1 teaspoon salt
1 tablespoon flour
1 teaspoon sugar
Few grains pepper
1 tablespoon melted butter or salad oil
1 egg yolk
½ cup hot vinegar
½ cup whipped cream



Mix all ingredients — except the cream — in the above order. Cook in double boiler; strain and cool. Then fold in whipped cream.

For revised recipe book send 10¢ to Reckitt & Colman (Canada) Ltd., Station T, Montreal.

Mayor Plays Cupid Finds 2 Husbands

PORT ARTHUR (CP) — Mayor F. O. Robinson pulls a mean Cupid's bow.

Two weeks ago he received a letter from an Austrian girl, Louise Palmstorfer, asking him to help her find a Canadian husband. The mayor said Tuesday that he has two eligible Ontario farmers lined up.

Both offer a good home to Mrs. Palmstorfer, about 30, and her 12-year-old son. The mayor said one farmer is from Bamberg, a village near Kitchener, and the other from Markdale, 70 miles northwest of Toronto.

50,000 Orangemen Parade At Ottawa

OTTAWA (CP) — Some 50,000 Orangemen from eastern Ontario and Watertown, N.Y., will take part in mammoth parades to celebrate the 263rd anniversary of the battle of the Boyne here July 12-13.

Special trains and buses will bring about 35,000 Orangemen from surrounding lodges.

Set Cherry Prices

TORONTO (CP) — The Ontario farm products marketing board has approved agreement for marketing of the 1953 sweet and sour cherry crops, the Ontario department of agriculture said Tuesday. Minimum per-pound prices to be paid growers with prices paid last year in brackets: White sweets 11 cents (7½); black sweets 12 (7½); sours 10 (7).

Need a LUMP SUM to fill your coal bin?

COAL usually comes cheaper in the good old summer time. But, for many of us, it's often a problem getting those dollars on the line *right now* — to take advantage of today's lower prices. That's where a B of M Coal Loan can be so handy.

To get in while the going's good, you should see the manager in your neighborhood branch of the Bank of Montreal. If you have an assured income and can repay a loan in nine monthly instalments, or less, the B of M will gladly underwrite your coal bill.

To take advantage of seasonally lower prices . . . to be sure of your full supply . . . to get your coal delivered dry . . . *and* to be snug — and smug — next winter when the last-minute rush to the coal dealer is on . . . see the man in "MY BANK". And why not do it *today* while you have it in mind?

Liberal Leader Surprise In B.C. Voting

VANCOUVER (CP)—Final party standings in the hangfire British Columbia election became known Tuesday, exactly four weeks after voters went to the polls June 9.

The last riding to report was Vancouver-Point Grey, where the outcome on one of the three ballots was a surprise.

Liberal leader Art Laing, who resigned his federal seat to contest the riding, defeated Education Minister Mrs. Tilly Rolston on the fifth count under the province's alternative voting system.

Mr. Laing trailed through most of the preceding counts but was elected on the distribution of the second choices of the CCF candidate.

The Liberal leader's victory brought his party's strength in the next legislature to four members.

Social Credit, under Premier W. A. C. Bennett, will have a clear majority after seven months in office as a minority government after the June 12 election last year. The party captured 28 of the 48 seats at stake.

The CCF will again form the official opposition, holding 14 seats, down four from their total in the last House.

The remaining two seats are held by the Progressive Conservatives and Independent Labor.

Mrs. Rolston was the second cabinet minister to meet defeat. Earlier, Finance Minister Einar Gunderson lost out in Oak Bay to P.A. Gibbs, a Liberal.

Premier Bennett has offered to keep both Mrs. Rolston and Mr. Gunderson in the cabinet. Mrs. Rolston said she would accept but Mr. Gunderson has not yet decided whether he will remain in the government. The premier has indicated by-elections may be held to seat the ministers.

2 Fliers Freed

BAD EILSEN, Germany (AP)—Two Danes who made an emergency landing in the Soviet zone in their two-seater Tiger Moth plane Sunday were released into West Germany. Soviet soldiers and Communist people's police carried the plane through the 10-yard plowed border strip not accessible to vehicles.

CONSOLATION — Earlier this year, HMCS Athabaskan was the only one of the three Canadian destroyers in the Korean war theatre without a destroyed North Korean supply train to her credit. As a consolation, the crew presented a plastic toy train to the commanding officer, Commander John C. Reed, above, right, of Toronto, through Ldg. Sea. Gordon A. Broster, left, of Fernie, B.C. The toy train was premature, for the Canadian warship tallied two of the real McCoy during her latest patrol.—(National Defence Photo.)

Woman Rescued

WARREN, O. (AP)—Mrs. Dollie Hector, 54, lay for 19 hours near the body of her husband before rescue workers pulled her from under a pile of newly baled hay. Claude H. Hector died when the loft of his barn collapsed and buried him under several tons of hay. Mrs. Hector was hurt and trapped under the bales.

Burkemo Downs Torza In Golf Championship

BIRMINGHAM, Mich. (AP)—Walter Burkemo Tuesday defeated wee Felice Torza, 2 and 1, for the 35th U.S. Professional Golfers Association championship.

The blonde belter from Franklin, Mich., only one up at the end of the morning round, won the first three holes of the afternoon with sharp putting to put the fledgling pro from St. Charles, Ill., into a hole from which he never recovered.

Torza rallied twice to cut the advantage to two holes at the 24th but Burkemo applied the pressure and closed the match with a par four for a half on the 35th.

Red Willingness Proves New Crisis On Armistice

WASHINGTON (AP) — Red willingness to go forward promptly with final truce arrangements intensified today the crisis over the Korean armistice negotiations.

A top-ranking U. S. government official said a truce "has got to happen" but conceded no formula yet found is acceptable to South Korean President Syngman Rhee.

The official, who asked not to be named, evidently was expressing an administration determination to go to great lengths to obtain an armistice.

It was reported these might include an appeal to Britain and France to join in some form of security guarantee to South Korea which would be satisfactory to Rhee.

KEY QUESTIONS

Two key questions on Rhee's attitude apparently remain unanswered.

The first, on which the South Korean leader must now make up his mind quickly, is whether he will forcibly resist establishment of the proposed armistice—probably by withdrawing his troops from the United Nations command and ordering them to ignore a cease-fire.

The second question, depending on the answer to the first, is whether the UN command under Gen. Mark Clark can take or is willing to take measures to overcome any active opposition which Rhee might order.

In their letter to Clark today, the Communists told him he must take steps to assure South Korea's co-operation in making the proposed truce effective.

BEYOND PROMISE

This appears to go beyond what Clark has promised so far. In a June letter Gen. Clark told the Reds that the UN command "will, to the limits of its ability," establish military safeguards to insure that the armistice terms are observed.

The fundamental problem of Allied unity is involved. If the UN command and South Korean forces fall out to such a degree that their military position is imperiled then the security of UN troops would become gravely involved. And the whole future of South Korea—with powerful Communist armies confronting it from the northern side of the battle line—could be jeopardized.

The position of the Western allies in the face of Rhee's adamant stand is scheduled as one of the chief topics for discussion at the Big Three foreign ministers conference opening here Friday.

Council Discusses Housing Regulations

COBOURG— (ENS) — Town council is supposed to be on summer holidays but Tuesday night the members of the council met in committee for several hours to discuss the regulations affecting new housing subdivisions. The town has agreed to extend water and sewers to the edeg of housing subdivisions from the nearest outlet, but mains inside the subdivision have to be installed at the expense of the owners. There are still many angles to be worked out.

Urges New Army

RHYL, Wales (Reuters)—Labor member of Parliament Woodrow Wyatt urged Britain to take the initiative in forming a "new type of European army" which could defend the continent if U. S. armed forces are withdrawn. He said in a speech to the European Youth Conference that unless the U. S. plans to keep troops on this side of the Atlantic indefinitely, the only chance Europe has of defending itself without outside aid is with its own army.

Important Duty

SYDNEY, N.S. (CP)—Jury duty probably can never be adequately recompensed financially, Mr. Justice L. D. Currie said in Supreme Court here, after a new panel had been selected. "Jury duty is a sacrifice for some men but if you didn't do it then one of the great bulwarks of our freedom would die," he said.

Robinson Family Reunion In Sarnia

The third reunion of the Robinson family was held at Canatara Park Sarnia, Wednesday. An estimated 200 descendents of Henry Robinson and Elizabeth Ketcheson were present, coming from as far away as Dryden.

Mrs. Fanny Fraser of Peterborough was elected honorary-life-time president. She is the only one left of the older generation and was unable to attend but a gift was sent to her. Several who were not in attendance due to illness were sent cards.

Dinner was served on the sheltered pavilion tables and the Rev. R. H. Hamilton gave a short history of the family, afterwards.

A sports program was staged under the shade of the park's trees under the direction of the convener and announcer, Eric Brown.

The reunion wil be held next year at the same place and time.

Two Double Winners Dash Under Wire

TORONTO (CP) — Two double winners dashed under the wire and a third horse almost made the select group at Thorncliffe Raceway Tuesday in a harness racing card that featured no single race.

A well-known eight-year-old pacer, The Refresher, in retirement last season, came back to win the third and seventh races. The other two-time winners was Barbara Anne McKinney, owned by R. B. Russell of Toronto, which scored in the second and fifth races. She also was the favorite.

Zinna Song, from the Burnett-Lawrence Stable at Durham, just missed being the day's third double-winner. She was nipped in a photo in the ninth race by Thor Grattan, owned by Hie and Gordon of Cobourg, after winning the sixth race handily.

Some Clergy Communists Committee Says

NEW YORK (AP)—The House of Representatives Un-American activities committee says witnesses, one an "intimate acquaintance" of Stalin, have named several U. S. clergymen as members of the Communist party.

The witnesses were said to have given the group "information of extreme importance" about Communist infiltration of the clergy.

Representative Kit Clardy (Rep. Mich), acting chairman at two days of New York hearings of the Committee, announced the testimony Tuesday. He emphasized the committee is not probing clergy or churches but is trying to expose Reds "whether in the clergy . . . or any other group."

The inquiry is being pursued here today with Representative Gordon Scherer (Rep. Mich.) sitting as a subcommittee of one to hear two witnesses. Full committee sessions were adjourned.

Clardy did not identify those named in the testimony, nor did he say how many persons were involved. He said the information would be checked and—if verified—made public in accord with a committee policy "to forestall all possibility of smearing and defaming innocent citizens."

A prepared statement by the committee said it had received testimony on how Communists "planned to and did infiltrate the ranks of clergy" in the U. S.

Witnesses giving the information were identified by Cardy as Benjamin Gitlow and Joseph Kornfeder, who was said to have been an "important Communist party functionary" and intimate of the late Soviet premier.

Gitlow was described as a charter member of the American Communist party who broke with the Reds.

The committee statement said that in a closed hearing Monday [illegible] testimony" on Communists among the clergy from Col. Archibald Roosevelt, son of the late U. S. president Theodore Roosevelt.

Combined Exercises

NAPLES (Reuters) — Combined Italian and French air-sea exercises to test the readiness of Italian and French convoys against air and submarine attacks in the Tyrrhenian sea have started off Naples. The exercises are known as "Champagne IV."

Fire Loss Heavy

RIO DE JANEIRO (AP)—Rio's largest department store, A Exposicao, was destroyed by fire. Damages were estimated at more than 100,000,000 cruzeiros ($5,000,000).

Laniel Wins Endorsement Of Tax Program

PARIS (Reuters)—Premier Joseph Laniel today won from the French National Assembly endorsement for a tax and reform program on which he had staked the life of his 10-day-old government.

After a 16-hour session the assembly voted 329 to 277 to accept Laniel's finance bill, which provides the government with extra revenue and permits it to undertake reforms in the civil service and nationalized industries.

Laniel had made it clear that he would resign if defeated on any of the bill's key clauses. His resignation would have faced France with another leadership crisis similar to that which preceded his investiture as premier.

In thanking the assembly for its support, Laniel said the bill was "indispensable for the economic recovery of France."

It puts new taxes on gasoline, alcohol and passports to provide the extra revenue which the Bank of France demanded as a guarantee for any further advances to the treasury.

The bill enables the government to borrow another 110,000,000,000 francs ($314,000,000) from the bank, extend previous loans, and increase taxes by 60,000,000,000 francs ($183,000,00).

Nurse Injured Head-on Crash

LINDSAY—(ENS)—Miss Audrey Erb, 24 of Thornhill a nurse at Wellsley hospital in Toronto, was severely injured Tuesday afternoon in a collision on highway 35 north of Lindsay, Miss Erb's small model car was in a head on collision with a vehicle driven by Louis H. Vervaeke of Egertsville N.Y. Miss Erb is said to have lost control of the vehicle on the slippery pavement. The mishap occurred at the same curve where, last week, a Toronto woman and her two-year-old son weer instantly killed. Miss Erb was taken to the Ross Memorial hospital and Dr. H. G. Metcalfe, of Lindsay, diagnosed her injuries as fractured pelvis, fractured rib, lacerated arm and bruised face. The driver of the other car, Vervaeke was unhurt. Miss Erb was later taken to hospital in Toronto on request of her father, Dr. E. H. Erb.

Pitches No-Hit Game For Seven Innings

LINDSAY (ENS).—Jack Kean came within an inning and two-thirds of a no-hit game in a softball league fixture Tuesday night. He led the leading Combines to a 9-1, one-hit win over the Fairways Motors.

Bob Puffer singled through second in the eighth to spoil the no-hit bid. Fairways scored their only run in the fourth when the Combines committed three of their five errors.

Combines combed Fairways' starter, Cal Lytle, for 13 hits before he retired in the sixth, for Bill Cummins. Cummins held the Combines to one in the final two frames.

Lindsay Walkwoods evened the record with Fenelon Falls Indians for the Tri-County League, as they took a loose 10-5 win from the visitors, who had previously beaten and tied them.

Hon. Lionel Chevrier To Speak In Lindsay

LINDSAY —(ENS)— Lindsay and district Liberals will form a motorcade to Pleasant Point this afternoon to welcome Transport Minister Lionel Chevrier to the area for speaking engagement tonight. Mr. Chevrier is to fly from Ottawa to Sturgeon Lake about noon.

Headed by Liberal candidate Dr. Foster Graham, of Fenelon Falls, the group will welcome the minister at the lake, escort hif back to Lindsay, where a dinner will be had tonight.

Mc. Chevrier will address a public meeting at the Legion Hall tonight, in support of the local candidate.

Doug Lucy Lands 10-Pound Muskie

CAMPBELLFORD (ENS)—Douglas Lucy of Peterborough caught a 10-pound 'lunge here this week while trolling in the Trent Canal, using a yellow river runt for bait. His father, George Lucy, has been trolling the river each morning since the season opened, and although he usually returns with a few pickerel, he has yet to catch his first 'lunge this year. His son Douglas was out less than a half hour when he caught the 'lunge, within a few yards of the Lucy residence.

Toronto Youth Escapes

LINDSAY — (ENS) — John Clark, 19, Toronto jumped clear from his skidding car Tuesday on highway 36 five miles north of Lindsay, and was uninjured. The vehicle was completely demolished. Clark, was driving towards Lindsay from Thurstonia Park, when his car went out of control on the slippery pavement. He jumped clear before the car crashed.

Personals and Social

Mr. and Mrs. D. N. Budd and Miss Wayne and Gregory have returned to Waterloo after visiting her parents, Mr. and Mrs. Harold Gray, 235 King St.

❖ ❖ ❖

Miss Katharine D. Flowers of Montreal, daughter of Mrs. Walter Flowers of Peterborough, is sailing today on the S.S. Ascania from Montreal to visit in North Wales, England and Switzerland. She will meet cousins in England who will accompany her.

❖ ❖ ❖

The Murray St. Baptist Church of Peterborough is sending as delegates to the Baptist Federation of Canada meeting at Vancouver, B. C., July 10 to 14, their minister, the Rev. Ivan C. Morgan who is accompanied by his ten-year-old son Franklin, and Mr. and Mrs. H. H. Graham, Mr. A. W. Wray and Mrs. Alex. Haddow.

❖ ❖ ❖

Veranda members of the Peterborough Golf and Country Club had a happy time Tuesday when they enjoyed afternoon bridge and tea, convened by Mrs. Alice Leach. Prize for high score was won by Mrs. M. G. Hardill and Mrs. W. H. Head, the guest of Mrs. Hardill, won the guest prize. Consolation went to Mrs. Max Yelland. Mrs. Chris Graham filled the tea cups and Mrs. Alex. Gibbs, co-convener, served, assisted by Mrs. Reg. Turner. Next Tuesday the ladies and guests will meet for luncheon at one o'clock and play bridge afterward.

Miss Mignon Mayneord, Reid St., has returned from vacation having spent part of the two weeks at a Cobourg lakeside resort.

❖ ❖ ❖

Mr. and Mrs. Arthur Farr of New Bedford, Mass., left today for their home after visiting his brother and sister-in-law; Mr. and Mrs. Walter Farr, Wilson Ave.

❖ ❖ ❖

STIRLING— (ENS) —A miscellaneous shower was held in honor of Miss Ruth Rose, bride-to-be, at the home of Mrs. Glenn Whitehead. Some 25 friends were present and after a few games of euchre and bridge presented Miss Rose with a variety of lovely gifts. Her sister Mrs. Bert Bastedo trimmed a hat with the ribbons from the various parcels and presented it to her. Miss Rose will live in Toronto after her marriage.

❖ ❖ ❖

A number of out-of-town ladies are guests at the Peterborough Lawn Bowling Club today, having accompanied their husbands for the big tournament. Among them are: Mrs. J. Crozier, Mrs. J. Beacon, Mrs. A. Staden, Mrs. R. Mitchell, Mrs. W. Brack, Mrs. D. Scott and Mrs. M. Lockler from Toronto; Mrs. W. D. Grant, Mrs. D. Bell, Mrs. G. Johnston and Mrs. R. Hood from Ottawa; Mrs. J. Helsby and Mrs. A. Armstrong from Kingston; Miss D. Poyser and Mrs. B. Poyser of Agincourt; Mrs. F. Perkins of Richmond Hill, Mrs. E. Wagg of Stouffville.

❖ ❖ ❖

OMEMEE—(ENS)—Miss Jessie Lamb and Miss Christina Connell were hostesses for a miscellaneous shower in honor of Miss Helen Moyer, whose marriage to Mr. John Maxwell will soon take place. For the happy occasion Miss Lamb's home was decorated with lovely floral arrangements of lilies and roses. Thirty friends of the bride-elect brought beautiful gifts and bountiful good wishes to add to her future happiness.

Miss Moyer, who this year received her Bachelor of Pedagogy degree with honours, has been teaching in Hamilton. Mr. Maxwell is completing his Ph.D. in the University of Minnesota at Minneapolis. Following their marriage they wil live in Ottawa.

❖ ❖ ❖

Hold Barn Dance

Young people of Mark St. United Church held a barn dance in Howson's barn on Highway 7 Monday. Their guests for the evening were the other unions in the Peterborough Presbytery. More than 100 representing nearly all the unions, attended. Music for the dancing was provided by the Peterborough Local of the American Federation of Musicians. The young people dressed in colorful plaid shirts and jeans and, enjoying the atmosphere of the barn, entered into the dancing with great enthusiasm. After the dance many took advantage of the hay for an old fashioned "hay jump". Lunch was served by the Mark St. young people to complete a very enjoyable evening.

LEVINE'S LADIES' WEAR

The Right Dressing Important To The Salad

The dressing which accompanies a salad is of utmost importance, as a good dressing can either make or spoil a salad. Following are a number of recipes, starting off with

MAYONNAISE

1 egg yolk
1 teaspoon mustard
1 teaspoon sugar
¼ teaspoon salt
⅛ teaspoon cayenne pepper
2 tablespoons lemon juice
1 cup salad oil

Beat together egg yolk, mustard, sugar, pepper and 1 tablespoon lemon juice. Continue beating, and add oil, drop by drop, until mixture thickens. Increase amount of oil until all is used. While continuing to beat constantly, slowly beat in the second tablespoon of lemon juice. Chill.

FRUIT SALAD DRESSING

⅓ cup corn syrup
1 cup sugar
½ cup hot water
2 egg whites
½ teaspoon vanilla
⅓ cup mayonnaise
1 tablespoon grated orange rind

Cook syrup, sugar and water until mixture will spin a thread from spoon. Beat egg whites stiff. Slowly add syrup to egg whites and beat until mixture will stand in peaks. Add vanilla. Cool. Add mayonnaise and orange rind.

CHIFFONADE DRESSING

(To serve over wedges of lettuce.)

⅓ cup sugar
2 teaspoons salt
2 teaspoons dry mustard
¼ teaspoon paprika
1 cup salad oil
2/3 cup vinegar
½ tin condensed tomato soup
3 tablespoons water
2 hard cooked eggs,
PLUS
½ green pepper
3 green onions
3 stalks celery
Chopped parsley

Mix together sugar, salt, mustard, paprika, salad oil, vinegar, soup and water. Beat with rotary beater until thoroughly blended. Add chopped hard-cooked eggs, diced pepper, onion, celery and parsley. Store in refrigerator until ready to serve.

FRENCH DRESSING

To serve with green salads, or with orange and grapefruit sections on lettuce. This will make 1 cup.

1 teaspoon dry mustard
½ teaspoon paprika
¼ cup vinegar
1 cup salad oil
1 teaspoon salt
2 teaspoons sugar
1 clove garlic

Shake well in covered jar or beat with rotary beater. Store in refrigerator. Remove garlic and shake well before serving.

Hales Re-Union Held At Jackson's Park

Descendants of William Hales and Jane Waldon, who emigrated to Canada from Ireland in 1818, met for their annual picnic in Jackson's Park, Saturday. There were 98 present.

Program consisted of contests and races and the following are the winners in the races:

Girls 3-5—Lenore Kitchen, June Howes, Lynne McIlmoyl; 5-7—Gregory Hamilton, Donna Howes, Joan Woods. Boys 8-10—Raymond Woods, Ralph Kitchen, Terry Blackman; girls 8-10—Carole Johnston, Teddy Perron; girls 11-15—Viola Woods, Verna Reavie and Dorothy Woods, Carole Burnett; boys 11-15—Bob Hales, Rae Davidson, Dan Hamilton; girls—Barbara Kitchen, Betty Bonham, Barbara Sandford; married women—Edna Bowers, Joyce Latchford, Minerva Bonham; married men—Alex Bowers, Emmerson Bonham, Ernest Morton.

Gifts were given to the youngest visitor Randy Browne, baby son of Mr. and Mrs. Oral Browne of Peterborough; the oldest lady, Mrs. John Snelgrove of Swan River, Manitoba and the oldest gentleman, Mr. Thomas Freeburn of Flinton, Ontario.

Those present were: Mrs. John Snelgrove, Swan River, Manitoba, Mr. and Mrs. Dan Fraser, The Pas, Manitoba, Mr. and Mrs. Edwin White and Bobbie, Z. M. Hales, Mr. and Mrs. Will Cameron, Robert and Bill, Mr. and Mrs. Dan Perron, Donald and Edrie, Mrs. M. Hamilton, Gregory and Danny, all of Toronto, Rev. and Mrs. R. G. Kitchen, Barbara, Ralph and Lenore, Fort Erie, Mrs. Ida Bonham and Percy, Mr. and Mrs. Emmerson Bonham, Iris, Elmer and Betty, Hodson Hales, Tory Hill, Mr. and Mrs. Bert Northey, Cameron, Mr. and Mrs. Alex Bowers, Wilberforce, Mrs. J. Lansing, Mrs. M. Moore, Bancroft, Mr. and Mrs. Frank Johnston and Carole, Queensville, Mr. and Mrs. Herb Woods, Neil, Roy, Viola, Dorothy, Percy, Raymond, Floyd, Joan and Helen, Bannockburn, Mr. Thomas Freeburn and Bordon, Mrs. Ida Burnett and Carole, Verna Reavie, Flinton, Mr. and Mrs. Ernest Morton, Belleville, Mrs. J. Latchford, Janet Morton, Freda Morton, Thomasburg, Mrs. Weldon McIlmoyl and Lynne, Bob Hales, Mrs. Russell Hales, Mr. and Mrs. Wellington Lean, Mrs. Frank McFadden, Mrs. J. W. McFadden and Andrea, Apsley, Mr. and Mrs. Everett Hales, Mr. and Mrs. Bert Lean, Mr. and Mrs. Arnold Prest, A. E. and Mrs. Daniels and Wayne, Walter Baldry and Dorothy, Mr. and Mrs. Russell Tucker and Elma, Mr. and Mrs. Ernest Watson, Mrs. Oral Browne, Wayne and Randy, Mrs. Clifford Avey, Mr. and Mrs. N. Howes, Donna and June, Mrs. N. McIlmoyl, Mrs. W. Davidson and Rae and Mildred Hales, all of Peterborough.

B & PWC Congress In Stockholm

The International Congress of Business and Professional Women's Clubs is holding its biennial conference in Stockholm this week.

Dame Caroline Haslett, international president, has indicated her willingness to hold office for a second term. Dame Caroline is one of England's outstanding business women, an electrical engineer and the only woman on the seven-member board of the British Hydro Commsision.

Among the 47 women attending the congress from Canada are Margaret P. Hyndman, international vice-president, and a member of the Toronto club; Mrs. Lula Waters, and Mrs. Maude Richardson, also Toronto Club members. Marion McLuhan, past president of Xana 100 clubs, and Gladys Miller, president of Weston Club.

A PHOTOSTORY in the coming issue of Weekend, titled "Canada Woos U.S. Fashion Trade", will tell how Canadian manufacturers of women's wear are co-operating to capture a share of the United States market. This model, wearing sportswear made in Canada, was posing at a fashion show held at the Alpine Inn, Ste. Marguerite, Que., which began their campaign.

Cool Hair Styles Beautified By Right Care

Hair styles this summer are short and casual which makes them especially cool and easy to care for. The most popular styles feature a smooth crown with wide waves and loose comet curls swirling forward over the ears and temples.

But be it ever so casual, your coif requires special attention to keep it gleaming, fresh and silken during the hot days ahead when exposure to sun, wind and water plays havoc with locks.

To be beauty-wise you should combine the hair brush habit — 100 polishing strokes a day—with regular shampooing and creme rinsing.

It's brushing that loosens the dirt particles in your hair. And shampooing with a lotion-type preparation will float the gloom from your tresses.

Creme rinsing after each shampoo gives your hair a special treat. The conditioning action of such a hair cosmetic leaves your tresses soft, yet snarl-free and manageable.

Midst the heat and humidity of summer weather, you'll welcome the easiest possible way to lend body to your curls without nightly pinnings. Home wave kits provide a happy answer to summer hair care problems and gives assurance of springy, long-lasting curls.

Follow these simple beauty "musts" and you'll be cool, calm and well-coiffed through summer, with nary a hair care worry.

New Sun Glasses

PARIS—Sun glasses this season come in new and varied forms, the smartest are those with heavy rims, often gilded and Schiaparelli has sought inspiration for her sun glasses from the elaborate gilt frames used to offset old masters in the Italian museums and picture galleries. Other original frames come in the shapes of butterfly wings, the elongated lines of the latter doing much to lengthen the appearance of an over-square face.

Women Honor Mrs. W. H. Lowes

MOUNT PLEASANT—(ENS)—The Women's Association of the United Church met at the home of Mrs. Hubert Lowes, with the President, Mrs. G. McLean in the chair.

The devotional paper, was prepared by Mrs. A. E. Larke, but in her absence, was read by Mrs. Stanley Tully.

The roll call was answered by "A favourite Hymn, and the Author.

Mrs. James Fee, Vice-President of the Association presented Mrs. W. H. Lowes with a Coronation cup and saucer, on the occasion of her 60th wedding anniversary.

The program was in charge of Mrs. Donald Hayes and Mrs. Norman Fee. Those taking part were Mrs. S. Tully, Mrs. E. Garnet, Mrs. F. Graham and Mrs. E. Lawson.

The hostess assisted by Mrs. Earl Garnet, Mrs. Norman Fee and Mrs. Donald Hayes, served a delicious lunch and a pleasant social hour was enjoyed.

BLACK SHOULD BE BLACK

Wash your summer blacks with a detergent. Then there will be no soap scum or residue to mar their blackness. The same holds true for navy or other dark colors. When pressing dark colors, use your iron on the wrong side of the fabric to avoid shine.

NARCISSUS THE MEADOWLARK thinks his mate is hiding inside this automobile wheel. Either that or he's in love with his own image. For several consecutive days Narcissus has sung lustily to his reflection in an automobile hubcap in Davenport, Ia. It isn't always the same car—just any car that occupies a certain parking space. Davenporters are sure the bird either thinks the reflection is that of his mate or that he is smitten with his own reflection.

Party-Style Frozen Salad

Here's a salad so festive looking it could double as a centerpiece! Tangy-sweet bits of crushed pineapple, chopped nuts and maraschino cherries scattered through the slices add bright colour and flavour. Using economical canned crushed pineapple makes assembling the salad. Then the refrigerator "takes over" until it's time to slice, serve and enjoy!

FROZEN CRUSHED PINEAPPLE SALAD

2¼ cups crushed pineapple.
1 teaspoon unflavoured gelatin.
2 tablespoons lemon juice.
1 3-oz. package cream cheese.
¼ cup mayonnaise.
¼ teaspoon salt.
½ cup whipping cream.
¼ cup sugar.
¼ cup chopped nuts.
¼ cup quartered maraschino cherries.

Drain pineapple. Soak gelatin in lemon juice; dissolve over hot water. Blend cream cheese with mayonnaise and salt. Stir in dissolved gelatin. Whip cream until stiff, adding sugar gradually during last stages of beating. Fold in cheese mixture, nuts and drained crushed pineapple. Pour into refrigerator tray that has been lined with waxed paper. Freeze until firm with refrigerator set at coldest setting (about 4 hours). Turn out on platter, remove paper, and cut into thick slices. Garnish with salad greens. 8 servings. Note: Let the salad stand at room temperature for a few minutes just before serving. The flavour and texture are ever so much better.

Gay Accessories

PARIS — One the whole it is smart to dress-up with novel jewelry and gay accessories. Chunky gilt necklaces, antique silver chains and bracelets of the kind that jingle as their wearer moves are all in the fore. Colourful stones such as tinted rock-crystal, coral, turquoise and amethyst are among the popular stones at the moment, and much less stress is laid upon mother of pearl and natural shell ornaments.

DID YOU KNOW?

Ovens and rack holders can be cleaned with a bottle brush that has been dipped in a solution of ammonia. Make the solution by diluting the ammonia with the same quantity of lukewarm water.

MARY MOORE SAYS:

Do You Enjoy Your Dinner Guests?

There are two types of hostesses that I want to bring into focus for a minute or two.

You know both types: Number One is the gal who strives for perfection—the spit and polish type of general—who cleans and plans and organizes all week if she is having eight people for dinner. Then works herself into a state of exhaustion at the last minute seeing to every last detail. She can't enjoy her dinner with her guests because of her passion for perfection and split-second timing. When the guests leave she holds her brow, says: "John bring the aspirin" and falls in bed moaning.

Number Two feeds you on delicious and abundant food to which you can help yourself if you like for it is all there, but she didn't quite manage to get all of the dusting done, or the part in her hair quite straight, but she did manage to sit and talk with every one of her guests. And, since the guests stayed so long, began getting them another meal! They protested, but they stayed!

It must be said to their everlasting credit that they helped with the dishes afterwards. However our loving hostess had provided good quality paper plates, so the dishwashing spree was somewhat relieved.

The guests of our first hostess would not have dared suggest such an informal clean-up, what with Crown Derby china and all to be handled with loving care.

Which one are you?

Remember that in these days of servantless households you have to decide between the enjoyment of your guests and your own pride.

Your guests come to enjoy you. Your organization should be unobtrusive and secondary.

Out-of-door meals lend themselves to informal entertaining and now is the time to capitalize on that. Furthermore most guests feel free to circulate in the open air and to help themselves.

The second hostess that I speak of so warmly is a friend of mine, —she is quite a celebrity too

She had a garden party for twenty-two people. The buffet table in the dining-room was laden with beautiful food. This room had a door leading into the garden, for the house is over one hundred years old. In the garden small tables were set up, covered with lovely tablecloths, some with six-inch wide crocheted lace, others of modern plaids. All were very gay and inviting and set in the shade of 65-year-old spruce trees.

This was her menu: A 15-lb. precooked ham. However she further cooked it for 2 hours to heat through and glaze. (I do that too, for I think the precooked hams are improved by further baking at home.) Antique china vegetable tureens were filled with scalloped potatoes. A wooden butter bowl 22 inches in diameter was filled with tossed green salad. A willow platter was filled with buttered hard whole wheat rolls. A milk glass oblong dish was filed with her homemade chunk pickles. On a wooden cheese board she had arranged a whole 5-lb. wine-cured cheese surrounded with wafer crackers.

The silverware had belonged to her great grandmother.

Her 6-foot 2-inch son carved the ham in the thick slices that boys like, much to the delight of the girls who reduce the rest of the week.

When our plates would hold no more we pushed on to the garden where two tame raccoons gamboled on the lawn or tumbled in the bird bath. These raccoons were ideal picture subjects for the camera girls.

Our hostess sat at each table in turn during the hour we stayed in the garden. Her son and daughter brought the ginger ale and tea and cake and strawberries, and not one word of direction was heard by any of us.

The moral is; do what you can with the time and energy and resources you have. Then if humanly possible take your bath and lie down for an hour before the guests are due to arrive.

When they do invade the house relax and enjoy them.

DOROTHY DIX:

Wife Bemoans Stinginess Of Husband's Relatives

DEAR MISS DIX: I have been happily married for a year, and my problem is the stinginess of my in-laws. I had a nice wedding, with a reception, and although my husband's people came, ate and drank freely, not one of them gave us a wedding present. We gave them all gifts for Christmas—but none were received in return. What I'd like to know is, should I continue to give them presents on birthdays anniversaries, etc; or act as they do?

MRS. V.

CLING TO GENEROUS INSTINCTS

ANSWER: Having been brought up by a generous family, it has come as a shock to find that all people are not inclined the same way. Your husband has been reared in an entirely different tradition, and I gather that he prefers the way members of your family live and act.

Don't try to ape the less attractive qualities of others. Instead endeavor by your own good example to change them and encourage your husband to be generous. Continue sending gifts, even though they are small ones, to your mother-in-law, and the children in the family. Even though they are never even acknowledged much less returned you know you are doing the right thing. Furthermore, though you may not be able to do much crusading among the older folk, the children's reaction to your thoughtfulness may well change the course of their thinking. If you pursue this recommended course do it wholeheartedly don't give grudgingly, and see that your husband appreciates, and shares, your innate love for giving.

You have been blessed with a family generous in material and spiritual things. By making allowances for the fact that many people have not been so fortunate, you will be living the Golden Rule to its fullest, as well as realizing the truth of its precept, "It is more blessed to give than to receive."

✧ ✧ ✧

DEAR MISS DIX: I have a good job in a small town, but my heart is still back home. You see I am in love with my girls friends' brother, though you may think that at 17, I am too young to be in love. The trouble is that I don't know if he loves me. I see him on weekends, but he has never tried to date me. When I go to visit my girl friend he usually drives me home, and is friendly but nothing further. Should I try to make him jealous of me, or do you think he'll take an interest of his own accord if I wait for him.

LAURA M.

✧ ✧ ✧

ANSWER: I doubt if trying to make the boy jealous will do any good. Since he's not particularly interested in you, an attempt to force his attention on you will be futile. Why not continue to be friendly with him for the time being; you are much more likely to catch him that way. Many girls lose the boys they like because they don't know how to foster a budding friendship. They want to skip immediately from mild acquaintance to fervent love. Boys like to take things more gradually, and they react much better to pleasant companionship than to demands. Try the soft pedal for a while.

✧ ✧ ✧

DEAR MISS DIX: Two months ago I married, and now I find my husband is still in love with orce, etaoit anenoi etaooietaoetao his ex-fiancee. He wants a divorce but as I am expecting a baby I refuse to give it to him. I have pleaded with him to stay with me until the baby is born, but he refuses.

CAMILLE F.

✧ ✧ ✧

Answer: Your husband must be made to see that the responsibility he has acquired cannot be shrugged off so easily. Refuse absolutely to give him a divorce, at least until you have the baby. Then point out the difficulties, financial and otherwise, of maintaining two establishments. I do believe that the baby will effect a change of heart in him. See a marriage counsellor, who will point out all the liabilities your husband will incur through a new marriage at this time. He is undoubtedly in a state of emotional upheaval, but with a little encouragement and understanding, he'll straighten out.

Fashions

ANNOUNCEMENTS

1—Births

CARTER—Mr. and Mrs. Armand Carter (nee Irene Howard, R.N.) wish to announce the birth of a son at Peterborough Civic Hospital, July 8, 1953.

FRY—Mr. and Mrs. Harry Fry are happy to announce the birth of their daughter, Beverley Ann, June 15th, at Peterborough Civic Hospital.

McGILLEN—Mr. and Mrs. Joseph McGillen wish to announce the birth of their daughter, Catherine Jean, July 5, 1953, at St. Joseph's Hospital.

SMITH—Mr. and Mrs. Hy Smith wish to announce the birth of a daughter at Civic Hospital, July 7, 1953. A sister for Jacqueline.

2—Engagements

Mr. W. E. Pollard wishes to announce the engagement of his daughter Jessie Frances to Gordon John Caird, son of the late Mr. and Mrs. G. L. Caird. Marriage to take place July 25th.

Mr. and Mrs. Wesley Lee, R.R. No. 1, South Monaghan, wish to announce the engagement of their only daughter, Luella Elizabeth, to Mr. Archie West, youngest son of Mr. and Mrs. William West of Hastings. Wedding to take place in Hastings Presbyterian Church on July 25, 1953 at 2:30 p.m.

6—In Memoriam

McQUARRIE — In memory of Helen McQuarrie Perks, who passed away January 6th, 1945, and in memory of Allan, who was killed in action July 8, 1944, buried in Benysurmere Cemetery, France.

MARSHALL—In loving memory of George E. Marshall, who passed away July 6, 1940.
Happy and smiling, always content,
Loved and respected wherever he went
Always thoughtful, willing and kind,
These are the memories he left behind.
—Lovingly remembered by wife and family.

WEYER—In loving memory of our little girl, Marjorie Ann Weyer, who passed away seven years ago today, July 8, 1946.
She was only a little white rosebud,
A sweet little flower from birth.
God took her home to heaven
Before she was soiled on earth.
—Sadly missed by Mamma, Daddy, Raymond, Marion and Carolyn.

WEYER—In loving memory of our granddaughter, Marjorie Ann Weyer, who passed away July 8, 1946.
The depths of sorrow we can not tell
Of the loss of one we loved so well;
And while she sleeps a peaceful sleep
Her memory we shall always keep.
—Ever remembered by Grandma, Grandpa, Uncle Bob and Aunt Mary.

7—Card of Thanks

I wish to thank the Canadian Legion, G.E. veterans, Rev. A. Mathews, Kaye Funeral Home, all my friends and neighbors; also the sisters and nurses of St. Joseph's Hospital for their kind help during my recent bereavement.—Mrs. Jean Foster.

To all those we cannot reach personally and to the host of friends and neighbors who rendered first aid, personal assistance, moral and spiritual support, and sympathy, in so many ways, also to a doctor who fought in a losing battle, our most sincere and deepest thanks.—Mr. and Mrs. Chas. E. King, Lakefield.

Emel Named President Of Waterloo League

KITCHENER (CP)—H. S. Emel of Kitchener was named president of the Waterloo North Social Credit League Tuesday night at a meeting which deferred nomination of a candidate for the Aug. 10 federal election until later this week.

The meeting was called to nominate a Social Credit candidate, but a second gathering had been inadvertently scheduled for the same night in another part of the city. Officials said they felt because of the resulting confusion, the nomination should be deferred.

Car, Garage Lost In Morning Blaze

STIRLING (ENS).—A car and its garage owned by M. Ray of RR4, Belleville, were destroyed by fire in the early hours of this morning.

Mr. Ray awoke to hear the horn of his 1950 model car blowing steadily. He ran down and found the car ablaze. He was unable to do anything to save the car. The flaming car ignited the garage it was housed in and both were lost.

Mr. Ray's home is about three miles south of Belleville.

Barracks Started

REGINA (CP)—Work has started on a new $595,335 naval barracks here. It will be the headquarters of HMCS Queen, Regina's naval division.

Laniel Cabinet Stop-Gap Swing To Left

By BARRETT McGURN

PARIS. — Various interpretations have been made of the May-June French cabinet crisis, but many agreed on this point: the new cabinet of Premier Joseph Laniel is a stop-gap which may well end with France's first swing back toward the left since the early postwar months.

France, for the first time, according to the analysis of one diplomat, recognized that she is living each year many hundreds of millions of dollars above her means and that she must either depend on steady heavy aid from the United States or else must embark on an austerity program of at least two to three years' length.

That austerity, according to the same analysis, can be either of the right or of the left. A "right" austerity would mean painful cutbacks in the "welfare state" largesse France has been distributing with a fairly open hand. It would also mean slashes in the government investment program in the homeland and in the scattered overseas possessions.

According to left-wing critics, slashes in the government program could scarcely be accompanied by corresponding increases in private investment. Besides, the history of the past half-century in France has shown scant private interest in making the investments in modernzations which most French agree are essential to keep them in the international race.

A "left" austerity, the same analyst continues, would mean a withdrawal from the Indo-China war and cuts in the European armament program, accompanied by increased cordiality in negotiations with the Communists in Asia and official insistence in Europe that the Russian threat is over-rated.

FRANCE WAVERED

In this diplomat's analysis, the recent crisis lasted so long because France wavered between the two austerities and decided to postpone its choice. Eventually, possibly between the autumn and spring when the annual budget debates normally bring issues of this sort to a head, it is this official's expectation that France will choose the "left" austerity.

The 627-man French assembly which decided the composition of all governments already probably has a left-wing majority, and it is even more likely that French public opinion inclines toward the left, the same diplomat points out. Conservative coalitions like the new one of Mr. Laniel have been possible only because none of the other parliament groups are willing to work with the 100 Communists and pro-Communists.

Meanwhile, in the country as a whole Communist support is two-thirds stronger than the number of Communist seats in Parliament would indicate. The electoral law held down the Communists' representation in Parliament.

To take the road of "left austertiy," the 106 Socialists would have to agree to help form a new government. They have refused to enter all recent cabinets on the grounds that France was not yet ripe for the radical policies they have in mind, but at least one diplomat has advised his government that there is a strong chance Socialists can be expected back in the French cabinet in 1954.

In the opinion of that diplomat, the turn back toward the left would mean there might be fewer French divisions in the growing allied continental force, but there would still be a substantial contribution.

Not all agree that France will take either austerity. Some insist that the new government's announcement that France cannot do without strong foreign aid in the months ahead is really the road this country will continue to follow.

EUROPEAN UNIFICATION

The diplomatic corps studied the revealing crisis debates in parliament also for clues to the future of European unification measures.

The European public just has not been sold enough on European unification, one diplomat concluded. In his view, a full-scale foreign policy debate in the French Parliament almost certainly would show that France does not want a return to "the complete anarchy between nations of pre-1914," but it would also show little drive toward European unification. The cause of unification has lost one of its best unconscious friends, the sabre-rattling of Stalin, he points out.

In another diplomat's view, there may still be hope for the European Army but probably not until after four-power talks. A Russian revelation in such talks that the recent "peace offensive" has been devoid of substance might yet save the day for the European Army, he is convinced.

In the view of another diplomat, the crisis debates left little doubt that France does not want Germany rearmed or united, in or out of the European army, because of its fears of its own weaknesses and its dread of sharing a small continent with a booming Teuton neighbor almost twice its own size.

NEW AMBASSADOR—Sydney D. Pierce, Canadian Minister in Washington, who will become Ambassador to Brazil on Aug. 1. He succeeds Dr. E. H. Coleman.

Accuses Rhee Of Obstinacy

WASHINGTON (AP) — Senator Alexander Wiley (Rep. Wis.) Tuesday accused Syngman Rhee of "extremism, obstinacy and arbitrariness" and said the South Korean president's anti-truce stand "could shatter the chances for world peace in our time."

Wiley issued a statement as Rhee held fast to his demand for an iron-clad United States guarantee that Korea will be united by either political or military action regardless of any truce.

SPEAKS FOR HIMSELF

Wiley said he was speaking only for himself, not for the foreign relations committee which he heads. But the position he holds lent weight to his words.

He said that if Rhee persists in his threat to pull South Korean troops out of the United Nations forces and fight on, they could "end up by destroying not only themselves but the United Nations."

A different viewpoint was expressed by Wisconsin's other Senator. Senator Joseph McCarthy told the investigations sub-committee he heads that "I think Syngman Rhee is one of the greatest patriots of all time."

Man Thanks Neighbors

Roland Tedford, RR 2, Indian River, in Douro township thanked his friends who canvassed and those who gave money to help him out after an accident severed his arm. A classified ad expressing his thanks was mistakingly signed with the name Roland Darling.

Coldwell Says Drew Edging To Dictatorship

BIGGAR, Sask. (CP)—M. J. Coldwell, national CCF leader, said Tuesday night that Progressive Conservative leader George Drew is "entering into the path of dictatorship" in urging that certain political movements be classed as seditious and be halted by law.

Speaking in his home riding of Biggar, Mr. Coldwell says.

"The law of sedition already is on the statute books. But let it be proved and proved to the hilt before sentence is passed."

Mr. Coldwell debated with Labor-Progressive (Communist) party candidate Harvey Pierce, after the University of Manitoba student distributed a pamphlet at the meeting entitled "Guns or Butter Mr. Coldwell?"

CHALLENGES PROGRAM

The pamphlet said that either the CCF social services program meant increased taxes or Mr. Coldwell was fooling the people.

Mr. Coldwell answered that as long as totalitarianism threatens the world, defence expenditures will have to be maintained.

Mr. Coldwel is campaigning for re-election in the Aug. 10 federal election in the Rosetown-Biggar constituency where Mr. Pierce is also a candidate.

Tries To Get Italian Cabinet

ROME (AP)—Premier Alcide de Gasperi grappled again today with the unwanted job of trying to resolve Italy's growing government crisis. He sought to line up enough support to give him a new cabinet with a reasonably stable future.

The 72-year-old leader of seven postwar governments tried to sidestep the task Tuesday but reluctantly yielded to President Luigi Einaudi's insistence that he attempt to take hold anew of the government reins.

After a three-hour conference with the president, De Gasperi emphasized that he has not formally accepted the mandate—he has "a possibility of accepting if I find I am able to form a government."

Today he resumed discussions with political leaders in the hope he can drum up sufficient support for his pro-Western, middle-of-the-road policies.

De Gasperi's reluctance pointed up the seriousness of the political crisis that has been developing since the June parliamentary elections drastically trimmed the big majority previously held by the premier's Christian Democrats and three small allied centre parties. The balloting left the centre bloc with only a 16-seat margin in the Chamber of Deputies and a 13-seat majority in the Senate.

3 Teen-Agers Jailed On Theft Charges

TIMMINS (CP)—Three teen-age youths were sentenced today to terms ranging from three to six months on charges of breaking and entering and theft.

Frank Laroche of nearby Ansonville and Milton Jaworski, of Iroquois Falls, both 17, were each sentenced to three months definite and three months indefinite for breakint into the Hillcrest dairy in Ansonville and stealing $5.

Frank Lariviere, 18, Ansonvile was sentenced to six months definite and three months indefinite for stealing $20 from a store he broke into in nearby Montrock.

Young Bicyclist Injured In Accident

Nine-year-old Alan Harnden of 534 Rogers St. suffered a small fracture to his left arm, bruised legs and a slight cut on his lower lip about 11:30 a.m. today when he was knocked from his bicycle by a taxicab driven by William MacDonald, 26, 635 Gilchrist St.

Alan was riding east on Hunter St. and had just emerged from the east end of the tunnel at the lift lock when MacDonald swung off the canal road west onto Hunter St. and the two collided.

The boy was taken to St. Joseph's hospital for X-rays of his arm and legs and treatment of his injuries. It was found that a small bone in the arm had been fractured and the arm was placed in a cast but there was no fracture in either of the legs.

The front wheel and fork of the bicycle were smashed and about $40 damage was done to the hood of the car.

PC Gerald Emmons investigated.

Buck Stresses World Issues

OTTAWA (CP)—Tim Buck, national leader of the Labor-Progressive (Communist) party, said Tuesday night the important issues in the general election campaign are the international ones.

He told a political rally here Prime Minister St. Laurent is avoiding the international issues by concentrating on domestic questions.

He said Britain's reduction of imports of Canadian canned salmon, pork products, tobacco and sawn lumber and her refusal to enter the international wheat agreement were the result of her critical need of foreign markets.

This need had created an international situation which the Liberal government had done nothing to remedy. The need was the reason why Prime Minister Churchill called for a Big Three conference in Bermuda. He had intended to seek United States concurrence to British re-opening of trade with Iron Curtain countries.

John Fargey Named Roslin Postmaster

STIRLING (ENS)—John Fargey has been appointed postmaster at Roslin succeeding Mrs. R. Clare who resigned because of ill health.

Rev. R. F. Gordam of nearby Roslin preached his farewell sermon on Sunday. He is leaving for Detroit, Michigan, where he has been appointed rector of St. Mary's Church. Prior to his departure he was presented with a number of gifts from church organizations.

Warn Congress Civil Defence Aid Necessary

WASHINGTON (AP). — House of Representatives budget makers have been warned that "if Congress doesn't pick up the bill .... civil defence is dead" in the U.S.

Lt.-Gen. Henry L. Larsen, president of the National Association of State Civil Defence directors, gave this testimony, made public today, to a House appropriations sub-committee.

Larsen said Congress' action last year in appropriating $43,000,000 for civil defence, instead of the requested $600,000,000, resulted in a "drying-up process" in the allocation of matching state funds.

Larsen, civil defence administrator Val Peterson and others urged the House to approve $125,200,000 for civil defence during the present fiscal year.

Peterson declared, as he has on other occasions, that the U.S. Air Force can promise no warning time, or perhaps only 15 to 30 minutes warning, of an enemy atomic attack. And he said at least seven out of every 10 planes would get through defences.

He advocated building "a listening screen possibly all the way from Hawaii, extending across the Arctic wastes of Canada and clear over to Greenland, backed up with probably another 500 or 600 miles below that."

With one to six hours' warning time, Peterson said cities could be cleared, road traffic properly handled, and loss of life cut down.

William G. Howard

Funeral service for William G. Howard was held Tuesday at St. Luke's Anglican Church, with Canon W. J. Gilling officiating.

He died in St. Joseph's Hospital on Saturday after a lengthy illne ss.

Burial was at Little Lake cemetery and pallbearers were: William King Sr., William King Jr., Cecil Sisson, James Young, James Darwin and Ronald Menzies.

NEW DISCOVERY FOR

RELIEF OF PAIN

InfraRUB—the amazing new greaseless analgesic cream that actually penetrates your skin in 12 seconds—relieves muscular soreness, nagging aches and pains with a speed and effectiveness never before possible!

Here is the InfraRUB secret! Scientists have known for years that a substance manufactured by the body is outstanding in the relief of pain. It acts quickly to open up or "dilate" tiny blood vessels in afflicted areas—provides deep warmth and relieves pain.

Now InfraRUB—and *only* InfraRUB—for the first time successfully combines this amazing pain-relieving substance with the remarkably penetrating Methyl Nicotinate. Methyl Nicotinate penetrates the skin in seconds—carries the pain-relieving substance deep down into areas afflicted by muscular strain, arthritis, neuralgia, rheumatism.

Remember—only InfraRUB contains this unique combination of pain-relieving substance and penetrant—so only InfraRUB can offer you this *new way to relieve pain!*

Greaseless! Can't stain clothes!

$1.50 Large Tube

At drug counters everywhere!

Over a million tubes prescribed in England last year for relief of pain.

TIME DOESN'T ROLL ON — Oxen, almost extinct as beasts of burden, are still used by Seth Martindale, of Milford, N.Y. The 60-year-old farmer insists they can do a better job than a tractor, although not quite as fast. He even has a covered wagon, which he uses just for show.

Malan Satisfied With Crown

CAPETOWN (AP)—Prime Minister Daniel Malan said Tuesday there is no need for South Africa to leave the Commonwealth to achieve greater freedom.

Malan told the South African Parliament: "The Commonwealth gives us the greatest freedom we could wish for. On the grounds of achieving greater freedom for South Africa, no case could be made out for leaving the Commonwealth."

He was commenting on a motion by Opposition Leader J. G. F Strauss, who had asked the House to approve the way in which the government has been co-operating with the rest of the Commonwealth.

This was Malan's first public statement in South Africa since his return from the Coronation and Commonwealth conference in London.

After accepting the expression of approval, Malan said that whatever anyone might think about the future of South Africa—whether with or without the Crown—the present position is that the Crown is part of the constitution.

HASN'T BROKEN DOWN, YET — A Korean farmer, plowing his rice paddy in centuries-old fashion with the aid of a wooden plow and the power of an ox, is unimpressed by that 20th century beast of burden, the helicopter, parked on the dike by his field. The ox keeps plodding along, but the whirly - bird is grounded by mechanical trouble.

Drove Car Over Wheat

STRATFORD (CP) — Leonard Petrie, who pleaded guilty to levelling three-quarters of an acre of wheat by driving his car back and forth through it, Tuesday was given two years' suspended sentence for damage caused and ordered to pay $75 restitution to William Anderson of Stratford.

Child 2, Drowned

ELORA — (CP) — Two-year-old Joyce Schram of Salem was drowned in the Irvin river Tuesday night. The child, daughter of Mr. and Mrs. John Schram, was playing with her sister Helen on the river bank near her home, just outside Elora, when she toppled into a 10-foot pool.

Fighting In Self-Defence

Should Small Boy Get Bloody Nose?

BY DENISE MCCLUGGAGE

NEW YORK.— When her third-grader comes home with a bloody nose and a tear-streaked face, mother is up against an age-old problem that none the less differs from child to child and neighborhood to neighborhood.

How can a parent help a boy find that "good sport" middle ground between "bully" and the dreaded "sissy?" It is a question that has no simple formula solution and one that all parents find "puzzling and bewildering," according to Dr. Nina Ridenour, New York psychologist.

A boy who has been ordered by his parents "not to fight" is in a dilemma. If he won't fight when playground honor demands it he is in danger of being branded a sissy. If he does fight he is liable to "catch it" when he gets home.

Parents are advised by Dr. Ridenour not to warn boys against fighting. "In fact they should teach them a little bit about self-defense," she said in an interview recently. Dr. Ridenour feels that actual boxing lessons are too formal and over-emphasize the matter, although she admitted this belief to be a matter of personal prejudice.

"Sympathetic understanding without anxiety" would be the ideal parental attitude when a boy comes home sobbing after a fist fight, Dr. Ridenour said. "Be interested. Listen to what happened." But do not dash to the phone to give the victor's mother a piece of your mind. "Parents hould stay out of their children's scraps unless severe abuse is involved," Dr. Ridenour advised.

After a street encounter is a good time to impress a boy with the fact that many hard knocks lie ahead of any eight-year-old and that some will be delivered by a playmate's knotty fist. "Explain to him that this sort of thing will happen. Sometimes he may get the worst of it and sometimes he may win," Dr. Ridenour said.

"If he does that again, just pop him right back," is advice often dispatched to youngsters of this age. "Hitting back is a principle to get across to some children under some circumstances," Dr. Ridenour admitted, "but it is not an eternal verity." Whether or not it is good advice depends on the child and on the situation. Sometimes fathers get rid of their aggressions vicariously through their young sons by coaching them in their street and playground fights. "And some parents are deeply afraid that their boy will be a sissy," Dr. Ridenour said.

"In fact, it seems that parents are more afraid of their children becoming sissies than bullies," Dr. Ridenour declared, and yet "bullies have parents too." Bullying usualy masks a child's insecurity, and Dr. Ridenour believes that the parents of an over-aggressive child should "try to find out why" he is driven to picking on smaller children.

The boys who seem to be perennial victims, the ones to whom the advice to "hit back" is almost as frightening as being hit, are an even touchier problem. It is doubly important, Dr. Ridenour believes, that such a child be made to feel accepted at home "just as he is"

One plan in such cases, as in the case of physical disability, Dr. Ridenour said, is to help the child develop compensatory skills so that he can say "he may be good in this but I am good in that." However, Dr. Ridenour cautions against over-emphasizing the competitive attitude already strong in our society.

"It would be better if children could be taught to accept things as they are. Relying on 'I'm better than so and so and so-and-such' puts a child's security on a wobbly basis," Dr. Ridenour said.

Former OAC Teacher J. W. McGeorge Dies

BARRIE (CP) — John William McGeorge, 51, a former teacher of auto mechanics at the Ontario Agricultural College at Guelph, died in hospital Monday.

Born at Listowel, Mr. McGeorge was vice-president of the Standard Engineering Institute of Toronto.

Survivors include his mother and one sister, Agnes, both of Waterloo.

Hastings News

Churchill May Announce Retirement In Near Future

A FOXY PET—The workmen around Peterborough's filtration plant have a new pet in their zoo. It's a young fox. The newest addition to the zoo has been domesticated in some ways; he runs around the premises and then returns to his cage. The fox doesn't like being picked up and petted. He still favors raw meat. Beware, don't get your fingers too close. Purdy Young (above) picked Mr. Fox up and petting him a few times, but he had thick leather gloves on. — (Examiner Staff Photo)

Say Doctors Warned U.K. Premier

Delay Announcement To Protect Party British Papers Report

LIVERPOOL (Reuters) — Two British newspapers said today that as the result of doctors' warnings Prime Minister Sir Winston Churchill, 78, may announce his retirement in the near future.

The Liverpool Post, said Churchill's successor would be Anthony Eden, foreign secretary who is in the United States recovering from the third of a series of gall bladder operations.

Both the Liverpool paper and the Birmingham Post, which also frontpaged the report, said that Churchill has received "serious warnings" from his doctors, on whose orders he began a rest from overwork two weeks ago.

Both said, however, that he is making such good recovery at his country home in Chartwell, Kent, that he may decide to postpone his resignation for a little longer.

The Liverpool Post predicted his announcement would come within the next three months.

The Post, a usually cautious, Conservative newspaper, splashed the story on its front page under an eight-column headline. It gave no source for the report, which came from its political correspondent in London, and warned that it might be denied officially.

The report said the prime minister "has taken the decision with extreme reluctance and only because of serious warnings by his doctors."

But it added: "It is not impossible that if Sir Winston's recovery exceeds all present expectations, he would later decide to carry on for some time longer."

The story said a denial is possible because of the effect his retirement might have on the Conservative party and because it might "postpone indefinitely a Big Four meeting with Russia."

Churchill, said the newspaper, will be succeeded as prime minister by Foreign Secretary Anthony Eden, who is "swiftly recovering from his recent operation and expects to return from the United States in about three weeks."

The newspaper said Harold Macmillan, at present housing minister, might succeed Eden as foreign secretary. Macmillan, 59, underwent a gall bladder operation Thursday. He is making a satisfactory recovery.

The Post said the resignation "could come within the next month, early in the parliamentary recess . . . Sir Winston might equally choose the occasion of the (Conservative) party conference in early October."

Children Take Over Royal Visit In Wales

Gay Dances, Choirs, Give Queen And Duke Colorful Welcome

CARDIFF, Wales (CP)—The Queen was met by a children's choir of 600 singing "God Save the Queen" as she and the Duke of Edinburgh arrived here today for the first day's celebrations of a two-day state tour of Wales.

Prominent absentee in the reception committee was Aneurin Bevan, left-wing Labor party leader. He sent a telegram explaining his duties had kept him at the House of Commons.

Crowds, cheering and waving flags, lined both sides of Cardiff's main streets as the Queen, sparkling-eyed and fresh in spite of an overnight train journey, drove in from nearby Newport, her first stop in south Wales.

Thousands had stayed up through a night of heavy rain showers to welcome the Queen and the Duke, who holds the Welsh title of Earl of Merioneth and Thursday became a colonel of the Welsh Guards.

The Queen, who defied the black skies by wearing a tiny white hat with blue-tipped feathers, white coat and high-heeled white shoes, is ending her Coronation tours of Scotland, Ireland and Wales.

Along the royal route at Newport, watching eagerly for the Queen, was 100-year-old Mrs. Alice Underwood, who was taken to her place in a wheel chair. "I wouldn't miss this for anything," she said.

The Queen listened to several choirs, inspected war veterans, spoke to war heroes and watched children dancing traditional Welsh numbers.

Her 10-hour program in South Wales, centre of the coal mining industry and Labor's top stronghold in Britain, ends in Swansea tonight. Both the Queen and Duke will then board the royal train for an overnight journey to North Wales.

Twenty-five thousand school children, many wearing the Welsh national costume, put on a display of Welsh dances and sang Welsh songs. The little girls wore traditional black-pointed hats and grey uniforms with white aprons—in the style of Bretons.

Elizabet was moved by the juvenile demonstration and smiled broadly as eight youngsters unfurled a huge banner embroidered:

"Greetings to Your Gracious Majesty from the children of Cardiff."

Civic leaders of Wales let the children take over the show. They danced the traditional "Going With Davis to Merioneth," did hornpipes, and others in kilts danced "The Dashing White Sergeant."

The Queen, inspecting the Welsh guard of honor, stepped out of line to pat the regimental mascot—a white goat known as "Taffy."

Full-Scale Talks On Truce Get Under Way

SEOUL (AP)—Allied and Communist negotiators return today to Panmunjom to resume negotiations on final details of a Korean armistice which South Korea has bitterly assailed and said it will not recognize. The United Nations command said full-scale truce talks, recessed on June 20, will get under way at 11 a.m. Friday (10 p.m. EDT today). The meeting presumably was arranged during a 15-minute liaison officers' session at Panmunjom today. But the official UN spokesman refused to say more than that the meeting was held "for administrative purposes only."

Announcement that the truce talks would resume came a few hours after a top-level UN delegation headed by Gen. Mark Clark tried again to win President Syngman Rhee's support of a truce. They apparently failed.

A highly-placed South Korean source said Rhee still is holding out despite U. S. offers of a military security pact, "substantial" economic aid and equipping and training of four more divisions for the 16-division South Korean Army.

The source told Associated Press correspondent Bill Shinn that Rhee still is insisting that his country "must have from America concrete assurance that Korea will be unified"—peacefully or by force. He added that the 15-day talks between Rhee and President Eisenhower's special truce envoy are deadlocked.

An authoritative source said Clark handed Rhee an important letter dealing with South Korea's objections to an armistice. But an official spokesman said the letter was not an ultimatum to Rhee to accept present truce terms.

The UN command asked for today's liaison session after the Reds said Wednesday they were ready to resume the full truce talks, which were recessed June 20 after Rhee ordered the release of some 27,000 anti-Red North Korean war prisoners.

UN generals and statesmen have failed to budge Rhee's insistence that the U.S. agree to resume the war unless a post-armistice political conference progresses toward unification of Korea in three months.

Attending Thursday's conference with Clark and Robertson were U.S. ambassador to Korea Ellis O. Briggs and Robert Murphy, political adviser to Clark.

Washington reports said President Eisenhower and his top advisers had been closeted to draft new instructions for Clark following receipt of the Communist letter saying the Reds were prepared to restart the machinery for completing an armistice.

The Red letter made it clear, however, that the UN command must shoulder the responsibility for seeing that South Korea observes the terms of an armistice. It also called for the Allies to see that no more anti-Red prisoners escape and to assume responsibility for rounding up the 27,000 now at large.

Coldwell Says Liberals To Lose Seats

HARRIS, Sask. (CP). — CCF leader M. J. Coldwell went to a country picnic Wednesday and predicted the Liberal party will lose seats and the Progressive Conservatives may win some in the Aug. 10 federal election.

The ladies of this Saskatchewan farming community 40 miles southwest of Saskatoon fed the CCF leader potato salad and a wedge of two-inch thick lemon pie after Mr. Coldwell watched part of a baseball game and talked to district farmers and their wives.

He touched on a subject close to the hearts of his listeners, saying a CCF government would establish a national livestock board and "consider nationalizing the packing house industry."

He said the livestock board would be set up at once with producers from all provinces represented. It would fix and maintain floor prices for livestock and a fair price-spread for different grades of meat.

Cold storage and processing plants would be provided on the same basis as government grain elevators

TEMPORARY MEASURES

He said the federal government had given no indication it has "either the ability or the desire to provide anything but the most temporary and inadequate measures" to protect livestock producers. As long as the "ineffective" policies of the Liberal government were adhered to, livestock market would be as precarious as grain marketing before establishment of the Canadian wheat board.

Mr. Coldwell said the CCF party is the middle group between the "monopolistic capitalism of the United States" and totalitarianism. CCF beliefs some day would "sweep the world."

Believe Thief Returned Stolen Money

More than half the $268 reported stolen from the Regent Service Station on Chemong Rd. at Wolsley St. last Friday has been recovered—only feet away from where the robbery occurred.

A public utilities lineman, Gordon Sarginson, working in the area, Wednesday, almost tripped over a canvas bag lying in the service station driveway.

He picked the bag up, and tossed it to a nearby attendant with the words: "Here's the money you lost." Inside the bag was $144.

ONLY THERE SHORT TIME

Police theorize the money had been lying there only a short time or it would have been noticed before. "It was lying right where cars would run over it," an officer pointed out.

The only logical answer to the mystery is that the robber got cold feet as a result of a guilty conscience, repented and returned the rest of the money.

One attendant thought he saw a car back into the driveway, pause, and drive away again sometime during the afternoon in a spot that would coincide with where the $144 was found by Sarginson.

Tax Field Re-Allocation Would Mean Disaster: P.M.

WINNIPEG (CP)—Prime Minister St. Laurent says reallocation of tax fields proposed by George Drew, Progressive Conservative leader, would mean "disaster" for most provinces. What Mr. Drew does not seem to be able to understand, said Mr. St. Laurent, is that the federal-provincial tax agreements which he criticizes and wants to change strengthen the finances of the provinces.

For example, Manitoba this year would receive $24,300,000 from the federal treasury as a payment in return for giving up certain tax fields. If the province had levied the taxes in the fields it vacated, they would have yielded only $17,000,000.

"In other words, in the present year, the best estimate of the advantage to the people of this province is over $7,300,000 a year, over and above the tremendous advantage of having much lower provincial tax rates," said Mr. St. Laurent, speaking at a rally Wednesday night on behalf of Manitoba's 14 Liberal candidates in the Aug. 10 vote.

CRITICIZES ARGUMENTS

Mr. St Laurent criticized Mr. Drew's arguments on federal-provincial tax relations in one of two speeches here launching his 10-day Western election tour.

TAX FIELD

(Continued on Page 2)

U.S. Troops Halt Three Attacks

SEOUL (AP)—U. S. infantrymen hammered back three savage Communist attacks today and South Koreans smashed a fourth as much of Korean battlefront crackled with thunderous artillery barrages and bloody hand-to-hand combat.

For the first time in weeks, the Reds threw their heaviest assaults at U. S. units Wednesday night.

They were stopped cold, with heavy losses, by dawn.

From 4,000 to 6,000 Chinese slammed recklessly into four key Allied positions across the front—twin outposts Berlin and East Berlin in the west near Panmunjom, site of the truce talks; Porkchop hill and South Korean-held Arrowhead ridge on the west central front; and Kim Il Sung ridge, in the east.

The U. S. 8th army said more than 1,200 Reds were killed and wounded in artillery duels and close-quarter fighting—some of it hand-to-hand with gun butts and knives.

Wind Bothers Some Golfers

TORONTO (CP)—A brisk, cool breeze from the northwest greeted the field of 178 today in the second round of the Canadian Open golf championship. The wind gave indication of increasing and could cause trouble for the big parade trying to overtake Gardner Dickenson, Tommy Bolt and Ted Kroll who posted 66s Wednesday, five under the Scarboro course's par 71.

Dickenson was away to a good start, dropping a 30-foot putt at the third for a birdie three and was then one under.

Jim Ferrier, champion in 1950 and 1951, was working on a 68 and was even par through seven holes. Jack Burke Jr., starting with 69, dropped a 30-foot putt at the third to go one under. Gerry Kesselring of Kitchener, low amateur in the first round with 70, was even par through three.

Stan Leonard of Vancouver was scrambling on the first nine, after going par 71 Wednesday. He missed a three-foot putt at the first and overdrove the green with his approach shot at the third. He was in trouble in rocks on the sixth but finally got his first birdie at the 275-yard par four seventh. He hit the green there with his drive and two-putted.

Best score among the early finishers was a 72, one over par, by Bud Loftus of Moose Jaw, who had 77 Wednesday.

Leonard finished the ninth two over and Ferrier posted a one under to stay in the early running. Horvath went out in 37, one over regulation figures.

Dickenson's magic putting deserted him on the ninth when he took three strokes to get down. He finished the first nine in par-36.

Kesselring was out with a five-over par 41 on the first nine. Defending champion Johnny Palmer of Badin, N. C., shot a one-under 35 at the end of nine. His opening round Wednesday was a fat 72 that left him far off the pace.

Early finishers scrambled all over the 6,607-yard layout with a strong wind making it difficult to place their shots. Second-18 scores were mostly in the late 70s with many shooting in the 80s.

Raymond Morris, amateur from Montreal, and Loftus set the early pace. Morris came in with a one-over-par 72, matching the Moose Jaw professional's card.

Soviet Non-Aggression Pact In Offing With Tehran

TEHRAN, Iran (AP) — Tehran newspapers speculated today that non-aggression pact with the Soviet Union may be in the offing. They based their speculation on reports that Premier Mohammed Mossadegh and the Kremlin are preparing to negotiate Iran's long-standing border and financial claims against her big Communist neighbor.

The newspaper Etelaat, Iran's largest, said a Soviet mission may come to Tehran for negotiations and that U. S. officials are watching developments with anxiety.

The reports coincided with a disclosure by Iranian sources that President Eisenhower has written Mossadegh he can expect no large-scale U. S. aid until the premier settles his oil dispute with Britain.

WORRIED ABOUT REDS

Eisenhower also was reported as telling the aged premier the U. S. is disturbed by the freedom allowed Communist activity in Iran, presumably a reference to the infiltration of members of the Red Tudeh party into key government departments.

It was understood that Eisenhower's letter referred only to new economic aid. Apparently the present U. S. military assistance and point four technical assistance program will continue. In recent years, Iran has received a $25,000,000 export-import bank loan for economic development, $47,000,000 in point four aid, and undisclosed amounts of military equipment, along with the services of a small U. S. military mission helping to train the army and police.

No Dull Moments

SEOUL (AP)—Associated Press correspondent Robert Gibson, stationed at a Korean forward command post, was dictating a story on a field telephone to his office here Wednesday night. "Just a minute," he said. There was a short pause with some rattling and banging in the distance. Then he was back on the phone again "that was some incoming Red artillery," he explained. "Better knock it off and call back," he was told. "Oh it's all right now," Gibson said. "I'm under the table."

Russians Allow Berlin Travel

By TOM REEDY

BERLIN (AP)—The Communists lifted the Iron Curtain before riot-torn East Berlin today, permitting free Western travel into the Russian sector of the divided city for the first time since open rebellion brought tank-enforced martial law three weeks ago.

Border crossers said 16 major factories in the Soviet section still were affected by sitdown strikes which broke out Wednesday to demand release of workers arrested in the June 17 revolt. Apparently the strikers put little credence in the government's announcement Wednesday night that the "great majority" of these had been released.

Reports from the east zone outside Berlin indicated dozens of plants in Jena, Magdeburg, Leipzig, Halle, Brandenburg and Dresen were hit by slowdowns. Refugees said the Russians long since had lifted martial law outside Berlin but still maintained a four-hour nightly curfew in Halle, where rebellious workers set fire to the giant Luena chemical plant June 17.

Though Red German infantry and police patrols were doubled along the 27-mile frontier between East and West Berlin, the Communists paid scant attention to the thousands again riding the previously-blocked elevated trains and subways across the border.

Each automobile and truck at the dozens of crossing points was checked, however, and Red police chief Waldemar Schmidt said on Radio Berlin that "every provocateur and propagandist will be arrested and dealt with sternly."

Hold 386 Swine At New Westminster

OTTAWA (CP)—Agriculture department spokesmen said today 386 swine and 41 cattle are being held at New Westminster, B.C. pending a report on whether they are suffering from a highly infectious animal disease.

The swine and cattle comprised a shipment from Edmonton to the United States. U. S. authorities stopped the shipment Wednesday at the international boundary at Blaine, Wash., when some of the animals were found to be suffering from foot injuries.

The animals are being examined to determine if the condition of their feet is due to simple injuries or the result of vesicular exanthema, a highly contagious disease, at present widespread in the U. S. So far the disease has not appeared in Canada.

List Changes In Tariffs

OTTAWA (CP)—Changes in the tariff classifications on three products were announced today. The articles were reclassified as "Made in Canada," making them subject to dumping duties and in two cases boosting the customs tariff.

Butyl alcohol, used in making plastics, has the duty lifted to 15 per cent from the free category.

Acetone, also used in plastics, retains present duties but now is subject to dump duties.

Some types of machines for making hot-mix asphalt have the duty increased to 22½ per cent from 7½ per cent.

Officials said the changes were ordered, under federal legislation, because Canadian firms now are making substantial quantities of these products. Previously, they were labelled as of a kind not made in Canada.

Princess Margaret Ill

UMTALI, Southern Rhodesia (Reuters)—Princess Margaret remained in bed all day today with a head cold and slight temperature at the Leopard Rock Hotel in the Vumba mountains near here where she and Queen Mother Elizabeth are resting during their Southern Rhodesia tour.

Pavlukoff Ends Life With Spoon

VANCOUVER (CP) — Convicted murderer Walter Pavlukoff, under sentence of death, took his own life in a cell at Oakalla prison Wednesday by plunging the sharpened end of a spoon into his heart.

The 40-year-old killer robbed the gallows 10 minutes after his lawyer told him his appeal against execution had been rejected by the British Columbia court of appeal.

Pavlukoff had been sentenced to be hanged July 28 for the murder of bank manager Sydney Petrie in 1947. He was captured in a Toronto suburb last January after eluding police for more than five years.

Warden Hugh Christie said guards were nearby when Pavlukoff stabbed himself with the improvised knife.

"The handle was quite small, barely half its normal length," Christie said. "But it was long enough to go between his ribs and pierce his heart."

Three Train Cars Derailed Injuring 5 People Slightly

STITTSVILLE (CP)—Five persons were injured today when three cars of an eastbound Canadian Pacific Railway passenger train hurtled off the tracks near this town 20 miles west of Ottawa.

(The Ottawa Journal said in a newspage story railway investigators were searching for a missing man believed to have been a passenger aboard one of the three derailed coaches. CPR officials Ottawa said they knew of no missing person.)

Taken to hospital at Ottawa were Alexander Lyle, assistant vice-president of the CPR at Montreal; his wife, Florence; Carl S. Major of Vancouver, a CPR employee en route to Montreal; Charles Baker of Montreal, secretary to Mr. Lyle; and Paul Chamard, chef aboard the business car.

Only Mr. Chamard was detained in hospital for further observation. The other four were released after treatment.

The three rear cars of train No. 10 from Sudbury, Ont., to Ottawa jumped the track while on a downgrade straightaway. The rear business car carrying CPR employees and an unoccupied sleeper rolled 15 feet down the embankment into a gully. Their wheels were torn off. The third car's rear trucks were off the track but it remained upright.

A split rail was believed the cause of the 8:30 a. m. crash. CPR officials said they did not yet know when service on the line would be restored. Traffic was rerouted through Smiths Falls.

Halifax Judge Dies

HALIFAX (CP) — Mr. Justice M. B. Archibald, 62, a judge of the Exchequer Court of Canada and a former justice of the Nova Scotia Supreme Court, died in hospital here today. He was also a former chairman of the national war labor board and the board of transport commissioners.

Drew Promises

Better Treatment For Civil Service

OTTAWA (CP) — Hon. George Drew took the platform in Canada's capital Wednesday night to promise better treatment of the civil service if a Progressive Conservative government is voted to power Aug. 10.

He outlined the civil service plank in his party's election platform and said his treatment of Ontario's civil service while premier of that province after 1943 shows the promise will be carried out.

Mr. Drew also said the Progressive Conservatives are the only party that can form a government that will reduce taxes and "open the books on the waste and staggering inefficiency of this government."

The speech was made before 1,000 persons in Ottawa's Lansdowne Park—part of his own constituency of Carleton which includes both urban and rural areas. Later he attended a church social at South March, 10 miles west of Ottawa.

ONE VISIT CANCELLED

The Progressive Conservative leader speaks today at Pembroke and Renfrew. One part of his planned itinerary—a visit to Petawawa camp—has been cancelled. Service and election regulations ban campaigning in armed services camps.

The party platform pledged permanent classification to "many thousands" of civil servants—all but casual employees—now classified as temporary. It would encourage promotion within the civil service "to the highest ranks" and provide pay and working conditions comparable "in every way" to industry and commerce throughout Canada.

Mr. Drew said that 10 years ago, campaigning as his party's Ontario leader against a Liberal government, he had promised to end "political hiring and firing" in the Ontario civil service. He was prepared to stand on his record of dealings with the civil service as premier of Ontario.

CAN'T PRETEND

Turning to his party's promise of a $500,000,000 annual cut in federal taxes, he said the Liberal government can not "pretend it has demonstrated any concern for the little taxpayer."

The proposed tax cuts would give the most benefit to pensioners and others with incomes too small to pay income taxes by meeting the problem of sales and excise taxes on necessities.

The government had blocked all opposition attempts in the Commons to get the facts on the administration of the defence department. The thefts and irregularities at Petawawa camp, however, had been found out "by accident" in the investigation of the Army works services by George S. Currie, Montreal chartered accountant.

Mr. Drew also charged the government with deliberately choosing the "most difficult day of the year" for election day.

"August 10 is a difficult day. It was intended as such by the government."

Many big factories closed for the first two weeks of August, and many voters had made holiday plans which they could not change.

Victims Of 2nd Storm Will Be Given Aid

TORONTO (CP)—Areas hit by a severe storm in southwestern Ontario three days after last May's tornado will also receive aid under the three-point program announced Wednesday by Premier Frost of Ontario.

The premier said the May 21 twister and the storm that followed on its heels were considered extraordinary disasters. The federal government will be asked to make the stricken areas eligible for federal grants, he added.

Under the program, the government will contribute 50 per cent of any money donated by municipal councils to help victims of the storms. The tornado hit hardest at Sarnia. Damage figures in the area run as high as $10,0[illegible]

Ontario Helps Victims Of Tornado

TORONTO (CP) — The Ontario government said Wednesday it will help victims of last May's tornado in southwestern Ontario by contributing 50 per cent of any money donated by municipal councils.

Premier Frost made the announcement after a cabinet meeting and said the councils have until Aug. 1 to vote on donations to those who suffered in the twister.

The provincial government will also notify the federal government that the province considers tornadoes constitute an extraordinary disaster and thereby make them eligible to federal grants to disaster areas, Mr. Frost said.

He said the assistance given by the highways department and other government agencies will not be computed in the 50 per cent that the government will contribute. This assistance, the premier estimated, cost about $50,000 to date.

MIXED RECEPTION

Mr. Frost's announcement received mixed reception from municipal officials.

Mayor William C. Nelson of Sarnia commented: "Wonderful news and we are very grateful."

He said he had discussed storm damage with then acting Premier George Doucett in company with other officials of Western Ontario municipalities and the premier's announcement "indicates the province has given us sympathetic consideration."

Warden T. F. Pellow of Oxford county, on the other hand, said: "I haven't had a chance to study the report yet, but it sounds rather disappointing."

"Oxford county raised about $35,000 through public subscription which, on the face of it, would not be increased through provincial help."

THIS "TAIL" HAS A MORAL — Courageous Carl, the chimpanzee who didn't know the meaning of fear, is a little more hesitant after his encounter with three lion cubs, Rip, Roar and Snort, at the St. Louis, Mo., zoo. Carl started pulling the cub's tail rather vigorously. The lions resented the chimp's bullying and ganged up on him. He went away very much subdued. Now that Carl has learned his lesson, the foursome plays together every morning at the zoo.

Strike Halts Construction Work In Sarnia

SARNIA (CP)—Some $20,000,000 worth of industrial construction came to an abrupt halt here today as 2,800 American Federation of Labor building trades workers formed picket lines instead of reporting for work.

The walkout blossomed from a work stoppage Wednesday by 150 AFL electricians.

Construction workers at the new Sun Oil refinery, the Polymer laboratory, the Dow Chemical of Canada's extension, the new Sarnia General hospital and the extension at Sarnia Bridge Company were absent today.

Pickets said blandly that it was "too hot and dusty" to work or "we've had no fishing time this year." Union leaders said the walkout was "a bolt out of the blue" and certainly not authorized.

Carpenters, electricians, hoisting engineers, bricklayers, plasterers, iron workers and laborers all either left their jobs or refused to cross picket lines.

Union officials said the move is a "spontaneous protest" against local contractors' failure to meet wage demands and against slowness in reaching a settlement through provincial conciliation services.

Prices Fade Early On Toronto Exchange

TORONTO (CP)—Prices faded in early afternoon stock market trading today.

Industrials turned weaker for the first time in more than a week. Golds and base metals eased in listless dealings while western oils dropped more than three-quarters of a point.

Industrials drifted lower, led by banks, retail stores and liquors. Price changes were all fractional.

Uraniums slipped back generally with declines in Nesbitt-Labine, Gunnar and Chimo. New Brunswick base metals held steady although Brilund dropped 10 cents.

In golds seniors mixed while juniors and holding companies weakened. Dome was down a half-point and Inspiration lost 25-cents.

Western oils showed a majority of declines with Gridoils 50-cent loss topping the list.

Higher-priced base metals losses ranging to $1 were registered by International Nickel preferred, Quemont and Noranda. Carriar eased 20 cents in juniors.

The Weather

Peterborough Temperatures:

Today:
Night low....49 Noon....57
Noon barometer.....29.25

Yesterday:
Highest.....68 Lowest...53

One Year Ago:
Highest.....84 Lowest...64

Official forecasts issued by the Dominion public weather office in Toronto at 9:30 a.m.

Synopsis:

The Great Lakes area lies under a wide river of air flowing down from the north. Minimum temperatures Wednesday night got down below 50 in many localities, and maximum temperatures today will barely reach 70 degrees even along the lower lakes. There is a possibility of a few scattered showers in all localities today.

On Friday skies will be mostly sunny, maximum temperatures will be up about five degrees, and no precipitation is forecast for any part of Ontario.

Regional forecasts valid until midnight Friday:

Eastern Lake Ontario, Haliburton regions: Variable cloudiness with a few scattered showers today, clearing this evening. Mostly sunny Friday. Not much change in temperature. Winds northwest 15 both days becoming light tonight. Low tonight and high Friday at Killaloe and Trenton 50 and 70. Summary for Friday: Mostly sunny.

Wheat Board Opposes Curbs

WASHINGTON (CP). — Opposition from the Canadian Wheat Board to a proposal to limit Canadian oats imports into the United States Wednesday concluded a special hearing by the U.S. Tariff Commission.

Last of a long list of witnesses, George McIvor, chief commissioner of the board, said Canada is the logical source of reserves of feed grains for the United States.

But it is not a source that could be turned off and on at will, he said. It was necessary to have stability and the existence of an established source of supply was of mutual advantage to both countries.

Earlier testimony indicated that Canada sent 75,000,000 bushels of oats to the U.S. in the last year and will ship close to that quantity in the year ahead.

United States' witnesses were divided on the issue. Most of those from the Northwestern States, where oats is mainly a poultry and dairy cattle feed, opposed the import curb. Favorable Canadian rail rates and the use of Great Lakes shipping hold down the cost of shipments to this area from Canada's prairie provinces despite a four-cents-a-bushel duty.

MORE ABOUT—

Tax Fields

Continued from Page 1

In an earlier speech he described communism as a "godless, reactionary and destructive doctrine" which had to be "watched and countered" in Canada.

Speaking before the fourth all-Canada Ukrainian Canadian Committee, Mr. St. Laurent advocated for Canada no outright ban of Communist activity as proposed by Mr. Drew, but rather a policy of vigilance bolstered with a strong economy to prevent misery and other breeding grounds for communism.

As for those who seek to throw off their chains behind the iron curtain in east Europe, Mr. St. Laurent said Canada is in sympathy with the uprisers, but cautioned against raising any false hope of armed support for them.

"It would be cruelly misleading," he said, "if we were to give them the impression in our propaganda or our policies that we now were in a position to give them armed assistance, or if we encouraged them by false hopes to ill-timed uprisings which could only bring savage retaliation."

FLIES TO VANCOUVER

Mr. St. Laurent flies to Vancouver Thursday for another political address, a national radio broadcast outlining the Liberal party's platform.

In his speech Wednesday night he said Mr. Drew had condemned the federal-provincial tax agreements and made it clear that as soon as they expired, he would want to replace them with something else.

Mr. Drew would want certain tax fields to be handed exclusively to the provinces. The provinces and the municipalities would be obliged to impose the taxes required to raise the revenue they needed for operations.

"Well, you would have to go back to the high personal income taxes you had in Manitoba before 1941—to your old wage tax—and you would probably have to have a sales tax as well. And even then you probably could not raise as much as you receive from this tax rental agreement.

WOULD BE EFFECT

"That would be the effect of Mr. Drew's re-allocation of taxing powers in Manitoba and most of the other provinces . . . and you do not need to be much of an accountant to discover for yourself that Mr. Drew's system of re-allocation of tax fields would be nothing short of disaster for the province of Manitoba and most of the Canadian provinces."

Mr. Drew had accused the Liberals of using the federal-provincial agreements to centralize power in Ottawa, but what Mr. Drew is attempting to do, said Mr. St. Laurent, is to "frighten" the people of Quebec into voting for him by raising the "bogey" of federal centralization of powers.

"He hopes to frighten people in my province with a bogey and to get their support by appealing to their fear of being dominated by other parts of Canada," he said.

Produce, Livestock Markets

TORONTO FRUIT

TORONTO (CP) — Wholesale fruit and vegetable price changes quoted here today were: new beets 50-60; cabbage, Cdn. 75-1.00; Cherries, six-quart, leno $1.75-2.00; gooseberries six-quart $1.25-1.50; onions green, dozen 30-35; peas, six-quart basket 50-60; raspberries, pint box 30-33; rhubarb, dozen 50-60; spinach field, bushel $1.75-2.00; strawberries, 27-quart crate $7.50-10.00; tomatoes, Leamington, No. 2's and domestics $2.50; red currants, six-quart basket $1.25-1.50.

Potato prices: new Ontario Leamington, truck—$1.90-2.00; to trade—$2.10-2.25; P. E. I.,—cold storage $1.85.

TORONTO PRODUCE

TORONTO (CP) — Churning cream and butter print prices were unchanged here today.

Sales were steady and prices were unchanged at the egg market. Quotations for graded eggs in fibre cases were: A large 68; A medium 66; A small 50; grade B 47; grade C 42. Wholesale to retail: A large 73; A medium 71; A small 55; grade B 52; grade C 47.

Butter solids: first grade tenderable 58; non-tenderable 56½-56¾.

CHICAGO GRAIN

CHICAGO (AP) — Wheat was lower at the opening today. Trends in other cereals were mixed with dealings quite active.

Wheat sold off partly for technical reasons following the brisk advance of the last couple of days. Much larger receipts of cash grain also brought out a little selling.

Wheat started ½-1½ cents lower, July $1.96⅜-1.96; corn was ⅜ lower to ⅛ higher, July $1.56-1.55⅞, and oats were ⅛-½ higher, July 75¾-76. Soybeans were ¾ cent lower to ¼ higher, July $2.73½-¼.

TORONTO LIVESTOCK

TORONTO (CP) — Prices were steady at the Ontario stockyards today. Receipts: Cattle 290; calves 30; hogs 190; sheep and lambs 20; holdover 200 cattle.

Good light steers 18-19; good heifers 19; good cows mostly 14-15; choice fed yearlings 21-21.50.

Choice veal calves were mostly 20; a few 22; common to medium 12-17.

Grade A hogs 33; dressed sows 23.

A few good lambs 29 to 29.50.

WINNIPEG GRAIN

WINNIPEG (CP) — Export and shipper demand was in evidence in oats and barley in early trade today on the Winnipeg grain exchange. Prices in both grains, however, moved narrowly as offerings were about in line with the demand.

Processors also gave light support in barley. Flax and rye dealings were mostly local, with prices down from Wednesday's close.

Trading on all grains was generally inactive.

11 a. m grain prices:

Oats: Jly ⅛ lower 70½B; Oct. ⅛ lower 70½-B; Dec. ⅛ lower 69¾.

Barley: Jly unch 1.16A; Oct. unch 1.14⅝B; Dec. ⅛ lower 1.11½.

Rye: Jly 1⅛ lower 1.25⅛; Oct. 1⅛-1¼ lower 1.28½B; Dec. 1⅜ lower 1.30¼.

Flax: Jly 1¾ lower 2.90½; Oct. 1⅛ lower 2.94; Dec. not open.

BUFFALO LIVESTOCK

BUFFALO, N. Y. (AP)—Cattle 550; western steers 21-21.50; heavy cutters, medium fat and fat cows 10.50-12.50; light cutters 9.50-10.50; canners 7.50-9.50; fat yellow cows 9.50-10.50. Good heifers 14.50-15.50; mediums 12.50-14; sausage bulls 15-16; mediums 13.50-15.

Calves 100; choice calves 22-24; medium and good 18-21; heavyweights 17-20; heavy bobs 15-18; light bobs and boners 15.

Hogs 425; good to choice N. Y. state hogs 26-26.50; good and choice sows 19-20.

Sheep and lambs 350; medium lambs 22.50; good sheep 6-7; mediums 4-5.

Court Dismisses Driving Charges

Charges of careless driving against Lewis Deyell of 750 Monaghan Rd., and John D. Adams of RR 6, Peterborough, were dismissed after trials in Magistrate's Court today.

Deyell was charged following an accident on Park St. April 25 at the CGE main gate. Adams was charged after an accident June 12 on Lansdowne.

PC Harold Andrew told the court he investigated the accident in which Deyell was involved. He said he found cars belonging to Deyell and Fred Christie on the east-travelled portion of Park St. The accused's car was resting its left front wheel against the left rear wheel of Christie's. They were facing opposite directions.

Testifying, Christie said Deyell had swung his car to avoid striking a bicycle. Deyell's car had been driving south and swung into the Christie vehicle's lane striking the side and rear corner of the second car.

Although PC Andrew did not remember the accused giving this explanation, he told the court Deyell could have explained it that way. Crown Attorney John A. Bradshaw, QC, at the conclusion of the crown's case asked the charge be dismissed, doubting he could register a conviction in the light of the evidence.

CARS SLOWED DOWN

Adams had been driving behind two other cars on Lansdowne at Lock St. June 12 when the two vehicles ahead slowed down. His truck crashed into the rear of one driven by Mrs. Alice Barkey of Renfrew, causing damage estimated at $600.

He told the court that his truck skidded two car lengths when he applied the brakes. The combination of wet pavement, no load on the truck and bar-type tires on the rear wheels were responsible for the skid, he testified. He compared the skid with sliding on glare ice.

"I don't suppose you'd skid as much on pavement as you would on glare ice?" Crown Attorney Bradshaw asked.

"It surprised me myself," Adams countered.

Deciding to leave the matter for a civil court to settle, Magistrate Philp dismissed the charge.

U.S. Dollar At Discount

MONTREAL (CP)—The U. S. dollar was at a discount of ⅛ per cent in terms of Canadian funds, the Bank of Canada reported at noon today. Wednesday's noon rate was 99 7-32 cents. Pound sterling $2.79 13-16, against $2.79⅝.

Peterborough Hogs, Grain And Produce

THURSDAY, JULY 9

Hog quotations: $33 delivered.

Sow quotations: $23 delivered.

Delivered prices for ungraded eggs: A large 61c; medium 59c; A small 43c; B 40c; C 35c.

Quaker Oats Company of Canada offers the following quotations on Ontario winter wheat: No. 1, $1.55; No. 2, $1.55; No. 3, $1.52; buckwheat, $1.15.

Senate Group Backs Anti-Gambling Bill

WASHINGTON (AP). — The Senate Commerce Committee Tuesday approved an anti-gambling bill which would drastically restrict transmission by radio or wire or information about horse or dog racing. The bill has the support of the Justice Department.

Senator Edwin Johnson (Dem.-Colo.), who wrote the major part of the measure, said the bill "was never intended by the committee to affect legitimate business service." The bill itself appeared silent on the question of its application to news services which transmit racing information for sports page of newspapers.

The measure would prohibit sending information on bets or wagers, scratches, jockey changes, weights, probable winners, betting odds or changes in the odds before the racing event actually got under way.

Feeble Cry Ends 30 Hours' Exposure

TORONTO (CP)—A feeble cry for help Wednesday night ended 30 hours' exposure for 74-year-old Richard Fordan who lay helpless near the bank of Mimico creek after suffering a stroke.

Fordan told police he had tried to get up from the creek bank where he had stopped to rest while on a stroll Tuesday but found he could not move or shout. It was not until the next evening that he could cry for help.

Named Candidate

CORNWALL (CP)—John Lawrence McDonald was nominated Wednesday night as Progressive Conservative candidate for Stormont in the Aug. 10 federal election. The seat has been held by Transpor. Minister Chevrier since 1935.

Plan Program To Boost Gamma Globulin

WINDSOR, Ont. (CP) — A program for the supply of blood for increased production of gamma globulin, the recently - discovered substance used to modify effects of paralysis in poliomyelitis victims, was announced Wednesday by Health Minister Martin.

Mr. Martin said in a statement released by his office here that a grant of $157,000 has been allotted to keep in operation the Chorley Park blood collection centre operated in Toronto by the Canadian Red Cross Society.

Gamma globulin is part of the fluid portion of normal human blood and it has been found effective in neutralizing the virus of polio and certain other diseases. A pint of blood is required to provide one dose of gamma globulin.

BIGGER SUPPLY

Mr. Martin said in a statement that Chorley Park clinic should provide sufficient blood plasma for the preparation of 60,000 units of the substance prior to the polio season of 1954. This would be between five and six times the amount expected to be available this year.

Mr. Martin said a committee made up of representatives from provincial public health and research institutions and university medical schools has been established to keep in touch with the polio situation and to assure effective distribution of the limited stocks available.

'Kindly' Woman Held For 4 Murders

SYDNEY, Australia (Reuters)—Smiling Mrs. Caroline Grills, 63, chatted brightly with a policeman as she stood in the dock here today charged with the murder of four persons during the last six years by feeding them rat poison.

The plump, kindly-looking housewife, wearing a light-blue dress and gray coat, showed no sign of emotion as the charges against her unfolded in the packed courtroom.

Defence lawyer E. N. Rowley said his client was "entirely innocent of all charges" and she was remanded in custody for a full hearing July 17. Her request for bail was refused.

Mrs. Grills was arrested Wednesday while out on bail on charges of administering thallium, a rat exterminator freely-bought in any drug store here, to two other women.

TOOK BIGGER INTEREST

While she was on remand, police took a bigger interest in the case and discovered traces of thallium in two exhumed bodies and the ashes of another two.

They charged Mrs. Grills with the murder of the four, a man and three elderly women, and with intent to murder a second man, John Downey, 50, by administering thallium last April.

Her four alleged victims are Mrs. Christina Louisa Nickelson, 87, who died in Sydney Nov. 30, 1947; Mrs. Angelina Thomas, 84, in Leura, New South Wales, Jan. 17, 1948; John Lundberg, 67, in Sydney Oct. 17, 1948; and Mrs. Mary Ann Nickelson, 60, widowed sister of the first of the four to die, in Sydney Feb. 15, 1949.

The prosecutor told the magistrate that examinations had revealed large quantities of thallium in the bodies of two of the women. Circumstantial evidence was "very substantial," he said.

W. Whitehead Aged 96, Dies

Walter Whitehead, 96, of 303 King St. died in hospital, Wednesday, after an illness of a year and a half.

Mr. Whitehead was born in London, England, the son of Mr. and Mrs. Walter G. Whitehead and at an early age put out to sea. He came to Peterborough 81 years ago and was active as a diver operating on the Trent Canal.

He worked for sometime as a mortar man on various buildings throughout the city, including some of the early Canadian General Electric buildings. He finally worked with the city until he was pensioned off.

He is survived by his wife, the former Ada Payne and sisters, Mrs. George Hunt, (Dolly), of North Bay, Mrs. Norman Beaudoin, (Annie), of Verdun, Quebec, Margaret, Kathaline, Mary, and Joan all of Peterborough. There are two sons, George and Reginald (Pete) also of Peterborough.

Mr. Whitehead was a member of the Salvation Army and served with the 1st Service Corps in World War 1.

Funeral will be from the Nisbett Funeral Home, 2.00 p.m. Saturday and burial will be at Little Lake cemetery.

Major H. Roberts of the Salvation Army will officiate.

Mighty Shovel

HALKIRK, Alta. (CP) — The world's biggest dragline is being used in district coal fields here. Needing 13 railway flat cars to transport it, the dragline has a 165-foot boom and its huge bucket chews out 400 cubic yards of earth an hour.

DEATH DEFYING FEAT—Crouched in a tractor tire, Arnim Dahl rolls down an incline of the coast near Travemuende, Germany, into the Baltic Sea. After the risky feat, he was rescued by lifeguards stationed below. Arnim is a German movie stunt man.

15 Students To Graduate From Norwood High School

HAVELOCK (ENS)—Principal J. H. Caskey of Norwood District High School told a board meeting at Norwood Monday evening that 15 of the 22 students in Grade 12 had been recommended to the Department of Education to receive graduation diplomas in either three or four options. Two students had honor standing.

Of 119 students in Grade 9, 95 had passed, 29 with honors. Of 59 students in Grade 10, 48 had passed, nine with honors. Of 24 students in Grade 11, 23 had passed, six with honors.

The attendance report for 1952-1953 was as follows: Actual aggregate 46,767, perfect aggregate 49,-109, average daily attendance 244.85, percentage of actual to perfect aggregate 95.23, number of legal days for the year 194, number of legal days for the school 191. The school was closed for three days on order of the MOH.

SITE LEVELLED

Trustee E. T. Buck reported for the property committee that the work of levelling and improving the school site was almost completed and that the cost would not exceed the amount estimated of $3,000. The acoustic ceiling blocks were loosening in places. Mr. Eastwood felt that he had no further responsibility regarding covering the disposal bed. The tops of some desks were not holding to frames and bolts had been ordered to make the repairs required.

A door was being put in to stop the noise from the auditorium. The incinerator was almost built and the secretary had written Livingston Stoker Co., Hamilton regarding the stoker leaking oil and also Oakwood Iron Works regarding two brass boiler plugs which were defective.

Mr. Buck thanked the members of the school staff who assisted in obtaining proper site levels.

DOURO PUPILS

The secretary was requested to inform parents of Douro pupils that no charge will be made for bus service for the 1952-53 term.

In the event of Douro pupils desiring to attend the school in September the secretary was instructed to notify the parents concerned that the Department of Education does not approve of transporting either county or non-resident pupils into Norwood or pupils changing from one school to another at midseason, January 1, 1954, when Douro will be in Peterborough High School District. Moreover, Norwood school will find it difficult to accommodate resident students at September.

The cafe statement was presented as follows: June sales, $130.72; goods on hand June 1, $135; purchases, $60.48; inventory June 23, 1953, $109.54; cost of goods sold, $85.94; profit, $44.78; deposited in bank to the credit of the board, $460.37; total deposits, $1,060.37; wages paid, September to June, $1,444.

Accounts totalling $3,073.63 were passed, including bus service, $625; labor, $559.33; power mower, $109.50; loam, $75; grader, tractor and truck, $929.05; T. Gibson Co., wax, etc., $317.68; miscellaneous, $458.07.

NEW TEACHERS

A communication was received from the Department of Education granting a teaching permit to Mrs. R. A. Turpin for 1953-54.

The two teachers who have been engaged to fill the vacancies on the teaching staff and who will commence their duties September 1 are Miss Irene Putman of Lisgar Collegiate, Ottawa, and Miss P. Belt of Montreal.

The transportation committee held a special meeting after the regular board meeting to discuss transporting pupils by Gordon Lee to the Danforth bus. Possibly four students will be coming from Nephelene mine. The secretary was requested to obtain data on the possibility of students coming from Nephelene to Norwood. When the desired information is obtained Chairman Ross is to be notified so that he may call a special meeting.

Name Doris Nielson Candidate For LPP

BRANTFORD (CP)—The Labor-Progressive party today named Doris Nielson as its candidate for Brantford in the Aug. 10 federal elections. She will be the first woman candidate to contest a parliamentary election in Brantford.

William MacDonald, a Liberal, was elected in the 1949 general election.

Order Salisbury To Press For Early Talks

LONDON (AP)—The Marquess of Salisbury, acting foreign secretary, left for the United States Wednesday night and was reported to be under orders from Prime Minister Churchill to press for early big power talks with Soviet Russia.

Lord Salisbury will be Britain's representative at a "Little Bermuda" conference in Washington with the American and French foreign secretaries beginning Friday.

Before boarding a plane at London airport, Lord Salisbury told reporters that the ailing Churchill had given him a "good briefing." He said the prime minister was "in his usual good spirits" when they talked Tuesday night.

TO BE SUBSTITUTE

The "Big Three" foreign ministers meeting was set up as a substitute for the Bermuda conference when Churchill's ill health forced him to call off his scheduled talks with President Eisenhowes and the French premier. This conference had been set for July 8.

The anti-Communist uprisings in the Soviet zone of Germany are on the agenda for the Washington conference.

The prime minister is standing firm in his belief that a meeting with Soviet Premier Georgi Malenkov is essential even though the suggestion got a cool reception in Washington.

Germans Seek Make Russia Accept Plan

BONN, Germany (AP) — The West German government today asked the Western Big Three to demand Russian acceptance of a six-point program designed to lead to all-German elections and a reunified Germany.

The "immediate measures" drafted by Chancellor Konrad Adenauer demanded the restoration of free travel between East and West Germany and the restoration of political liberty in the Russian zone.

The Bonn foreign ministry handed the program to the U. S., British and French high commissioners with identical notes asking that the proposals be made the basis or discussion on Germany at the foreign ministers meeting opening Friday in Washington.

The note asked also that the Big Three deliver the proposals to Moscow for consisideration.

IMMEDIATE MEASURES

The Adenauer government's "immediate measures" are:

1. Opening of all inter-zonal crossing points between East and West Germany.

2. Abolition of the no-man's-land with which the Communists have sealed off East Germany since last year.

3. Freedom of movement or all Germans throughout Germany.

4. Freedom of press and assembly.

5. Freedom to operate for all political parties, particularly in the Russian zone where democratic parties are suppressed or made subservient to the ruling Communists.

6. Provisions of democratic law to protect the individual against arbitrary power and terror.

Highway Construction Held Up By Farmer

WOODSTOCK (CP) — Construction on a portion of the new Toronto-Windsor dual-lane highway near here was halted today when a farmer refused to let workers on his land.

H. P. Jones, a highways department land evaluator, today said members of his department had been sent to interview the farmer.

It is understood that the farmer does not object to the road running through his property, but only to the fact that his registered wheat is nearing maturity and will be ready for harvest in a few weeks. The road will run through the centre of the stand.

WITH THE CANDIDATES ON HUSTINGS

Suggest Public Ownership Of One Industry Coldwell Says In Speech

By CANADIAN PRESS STAFF WRITER

Prime Minister St. Laurent charged Hon. George Drew, Progressive Conservative leader Wednesday night with trying to scare Quebec voters into his camp. He said Mr. Drew is doing this by raising the "bogey" of federal centralization of power, a recurring theme of the election campaign speeches of both Mr. Drew and Mr. St. Laurent. M. J. Coldwell, CCF leader, said in Harris, Sask., that a government of his party would consider putting the packing house industry under public ownership to "halt exploitation by a few firms which in effect form a giant monopoly."

He said the CCF also would establish a national livestock board, representative of producers of all provinces, which would set "just and adequate" floor prices for livestock.

While Mr. St. Laurent was campaigning in Winnipeg, Mr. Drew returned to his home constituency of Carleton which includes parts of Ottawa. At a public meeting in the capital, Mr. Drew said a government of his party is the only one that would cut taxes and open the books on the "waste and staggering inefficiency" of the Liberal government.

TARGET FOR LIBERALS

Mr. Drew also received some attention in speeches by two Liberal cabinet ministers—Transport Minister Chevrier and External Affairs Minister Pearson. The former described as "foolish and ridiculous" Mr. Drew's promise of $500,000,000 in tax cuts. Mr. Pearson said the promise is an unreal an artificial one which does not stand up to analysis.

Trade Minister Howe said in Halifax that Progressive Conservative trade policies would bring prohibitive duties and shrinking markets abroad.

Health Minister Martin took a similar line to Mr. St. Laurent's, using different tactics. He said at a Bruce peninsula Indian reservation that Mr. St. Laurent deserves the title Great White Father because he doesn't try to get the members of the Canadian family fighting among themselves.

Mr. St. Laurent said Mr. Drew "hopes to frighten people in my province with a bogey and to get their support by appealing to their fear of being dominated by other parts of Canada."

DOESN'T URGE BAN

Referring to Communist activity, Mr. St. Laurent said he urges no statutory ban as proposed by Mr. Drew. Rather the policy should be one of vigilance backed up by a strong economy to destroy communism's breeding ground—poverty.

In Ottawa, Mr. Drew said the Liberal government cannot pretend it has shown any concern for the little taxpayer. The tax cuts promised by his party would be of most benefit to pensioners and people on small incomes by meeting the problem of sales and excise taxes on necessities.

Mr. Drew renewed his pledge of permanent status for "many thousands" of civil servants now classified as temporary. He said he is prepared to stand on his record of dealings with the civil service as premier of Ontario.

At Winnipeg, State Secretary Jack Pickersgill came up with a unique confession for a cabinet minister. He said he once was a Conservative, not a Liberal.

But he changed his mind about 27 years ago because Conservatives advocated high tariffs, racial discrimination and reluctance to see Canada become a really adult nation.

Federal Election Costs Estimated $5,500,000

OTTAWA (CP) — The federal election will cost an estimated $5,500,000. Some of this will come back to the treasury in candidates' lost deposits.

Each candidate must post a $200 deposit, which is forfeited if he fails to poll more than half the votes of the winning candidate in his riding. In double ridings, he has to get at least half the total of the low-vote winning candidate.

In 1949, the treasury picked up $72,000 from the loss deposits of 360 candidates out of the 850 in the running. The high point in revenue from this source came in 1945, when 462 candidates lost $92,400.

LONG RECORD

The Scottish record office at Edinburgh has a continuous history from the 13th century.

Voters Can't Use Advance Polls If On Holidays

TORONTO—Facilities for persons who qualify by their occupations to vote ahead of the August 10 federal election date will be set up in the offices of Toronto and Yorks returning officers for three days preceding the normal polling date. In some special cases—for example, in the case of an area with a railway yard where a large number of qualifiers are likely to be—polls will be established at places convenient for the voters.

According to the Election Act, those who qualify are travelling salesmen, railway workers, fishermen (for profit, not pleasure), aircraft or ships' crews and members of the reserve forces and the Royal Canadian Mounted Police. In each case, the voter may only take advantage of the advance poll should he know that his occupation will keep him away from home on August 10.

Days for the advance poll are August 6, 7 and 8. Anyone who qualifies and wishes to take advantage of the poll must present himself on one of these days at the office of the returning officer or his clerk in the riding between the hours of 3 p.m. and 11 p.m., DST, make a declaration of his status and then mark his ballot.

These facilities are not extended to persons in the requisite categories who will be in the riding on election day, nor can they be taken advantage of by persons who will be out of town on vacation. "If they were," one returning officer said, "the advance poll might easily become the main one."

Wednesday's Nominations

By THE CANADIAN PRESS

Halifax (two members)—xJohn H. Dickey (L); xSamuel R. Balcolm (L).

Colchester-Hants — Fred M. Blois (PC)-A.

Cape Breton North and Victoria —Dr. William Buchanan (L).

Victoria-Carleton—Hugh M. Tait (L).

Longueuil — Michel Chartrand (CCF)-B.

Carleton — Stewart Crawford (CCF).

Hastings - Frontenac — C. W. Foster (L).

St. Boniface—George C. MacLean (PC)-A.

Victoria (BC)—Dr. F. T. Fariey (L).

Okanagan-Revelstoke — Hilda Cryderman (L).

Coast Capilano — Robert Bryce (CCF).

Fraser Valley — Carl Hilland (Lab-Prog).

Vancouver South—Gordon Elder (Lab-Prog).

Springfield—Paul Trapp, Social Credit.

Total to date: Liberal, 245; Progressive Conservative, 184; CCF, 125 ;Social Credit, 34; Labor-Progressive, 92; Independent, 1; Independent Liberal, 1; Christian Liberal, 1.

x-Member of last House; A-nominated previously; B-oringinal CCF candidate withdrew.

WOMEN CANDIDATES—Four women candidates in the August 10 federal election meet at the Inter-Club Council for Women at Toronto. Left to right: Mrs. Avis McCurdy, CCF candidate in Beaches-Danforth; Margaret Aitken, Progressive Conservative candidate, York Humber; Nazla Dane, president of the council; True Davidson, CCF candidate, East York; and Mrs. Irene McBrien, PC candidate, Parkdale.

Trade Proposals Poor Howe Says

HALIFAX (CP)—Trade Minister Howe said Wednesday night Progressive Conservative trade policies would lead to prohibitive duties on imports and a consequent shrinking of Canadian markets abroad.

"Bennett created an all-time record for increasing trade barriers," he told a Liberal nominating convention here, referring to the late Viscount Bennett, prime minister from 1930 to 1935.

Mr. Howe referred to an Ontario MP's demand for higher duties on Cuban refined sugar when it was being imported at prices competitive with sugar produced in Ontario.

"It's a blasting process which the Tories instinctively apply when an import threatens some source of Canadian production." He said the government "would take no action to interfere with Canadian markets in Cuba."

"I went to Cuba and asked them to stop shipments of refined sugar to Ontario. A decree was issued which stopped further exports. . . ."

Claxton Makes Polite Speech

OTTAWA — Defense Minister Claxton made his first visit to an Air Force reserve summer training camp Wednesday, and did a little polite politicking on the side.

The minister flew from Dorval Airport, Montreal, in an RCAF Dakota to inspect 401 and 438 reserve squadrons now living under canvas at Uplands Airport here for a two-week training program.

Claxton said he was particularly pleased with the chance to inspect the City of Westmount and the City of Montreal squadrons, because Montreal was his birthplace.

He had his picture taken with 10-year-old Phil Scott of Montreal, mascot of 438's bugle band.

Claxton's pleasure seemed to be heightened by the fact—though he did not say it in his speech—that Montreal is where he faces re-election to parliament in St. Lawrence-St. George riding, Aug. 10.

For the two squadrons, it was a reserve force training exercise in how to greet a VIP. He was given a general salute by the bugle band, inspected a guard of honor, and formally met the senior officers of the two squadrons while 401's bagpipers played a slow march.

Claxton witnessed a flypast of Vampire jet and Harvard training aircraft and an aerial acrobatics display.

He said informally after the ceremony in a reference to Opposition Leader George Drew's promise to cut taxes $500,000,000: "You don't have much left when you take half a billion out of $600,000,000."

Liberals Nominate Foster In Hastings-Frontenac

MARMORA (ENS)—Cleworth "Clute" Ward Foster of Toronto, a native of Moira in Hastings county, who retired June 30 from the vice-presidency of Dominion Stores was chosen candidate by Hastings-Frontenac Liberal convention in the town hall Wednesday afternoon. Mr. Foster will represent the party in opposition to George S. White, M.P., Progressive-Conservative candidate at the coming election. By a narrow margin he won out against the other nominee Dr. Thomas W. Warner of Yarker. He was nominated by John Bristol, Madoc, and Rork Ferguson, ex-M.P., Norwood.

Dr. Warner's name was proposed by John G. Walker, Hartington, and seconded by Herbert Tucker, Apsley. Although the attendance did not reach 100 the meeting was enthusiastic.

Lorne McDonald of Kingston, organiser for the Central Ontario Liberal Association was chairman. He expressed his regret that the president, Mr. Woodman, for health reasons, had found it necessary to resign and so the first duty was to elect a new president.

NEW PRESIDENT

Norman Gilroy of Coe Hill was the unanimous choice. He called the other members of the executive to the platform in addition to Senator W. A. Fraser, Rork Ferguson, ex-M.P., and Arthur Lewis, president of the Peterborough Liberal Association.

Mr. McDonald declared that Mr. Drew was panicky over his last chance to appeal to the electors and said that many statements in his political handbook were untruthful. Most of them were half truths.

He also spoke on agriculture and furnished figures on the 1953 budget for agriculture which he considered were satisfactory.

Mr. Gibroy referred to the large extent of the riding which, although so large, was a rural riding without a town. Succeeding the nominations, the nominees were called to the platform to address the gathering.

Mr. Foster said there were two reasons which decided his determination to stand. As he passed through the riding a few weeks ago, he found the feeling among fellow Liberals that the situation was tough and the prospects poor. This had roused him.

LARGE RIDING

The second reason was that he looked at a map of the new riding and was amazed at its size in that it was almost as large as Texas. It was a famous riding as it stood and could be one of the most famous in the Dominion. He was born in the riding at Moira in Hastings County and he was rooted in it. It was possible for him to come back to it and pay some of the debt he owed to its people.

He felt he would enjoy political activity. Canada, as one of the great nations of the world, should have good men in its government.

C. W. FOSTER

"I have picked enough stones and pitched enough hay," said the speaker, "to know I can talk to farmers and miners."

The new riding, he said, had about 165 polling divisions, whereas there were 96 in the Hastings-Peterborough riding: 80 of the 96 gave the Progressive-Conservatives a majority in the last general election. He was going to find out what it took to rectify this situation.

LIBERALS NOMINATE
(Continued on Page 30)

Drew's Tax Cut Promise "Foolish And Ridiculous" Transport Minister Says

LINDSAY (ENS)—"Under our government, Canada has become the envy of all the nations of the world", said Transport Minister Lionel Chevrier, speaking to a Liberal rally in the interest of Dr. Foster Graham, Fenelon Falls, candidate for the Victoria-Haliburton riding in the coming election.

"The people in 1949 placed a heavy responsibility on our shoulder by giving us the largest vote of confidence in the country's history. We have lived up to that confidence in the field of international affairs, domestic policies and trade relations." The Liberal government, he said, has not only fostered the development of the country's foreign policy, but also brought about domestic policies which have raised standard of living to the highest level in the country's history. It would go to the people on the fine record it had made during the past years. The government had a fine leader, he said, a good policy and good candidates all over the country.

KEPT PROMISES

"We have also a fine record of keeping our promises," he said. "The people showed in 1949 they did not believe the promises of the Conservatives. The PC's had no definite policy on any major issues."

Outlining some of the achievements of the government in international affairs, he listed the contributions to the United Nations, to the Korean War, NATO, and other international organizations that had raised the country to a leading status in world affairs.

In domestic policies, he said, the government had led the way in family allowances, increased international trade, and thus the standard of living through increased industry, population and employment made the currency the world's strongest and elevated the country to the greatest trading nation in the world on a per capita basis.

The government, he said, had created opportunities for an expanding economy; by creating means of purchase goods, assisting private industry and enterprise, developing natural resources, fulfilling the country's commitments in the international field and bringing in a program of public works.

FOOLISH PROMISE

Turning to the opposition campaign to date, he noted that since the opposition have no responsibilities, they can make any statements and criticisms they wish. The PC's he said, while advocating a change in government, fail to say to what the change would be and forget their agreement, in nine out of 10 cases, with government policy.

George Drew's promise to cut taxes by $500,000,000, he said, "was foolish and ridiculous in the light of the fact the opposition had advocated policies that would raise expenditures from 800,000,00 to one billion dollars."

The Conservatives, he said, have not a definite policy on any major issue. Their sixteen-point manifesto, he said, was "taken out of a hat," since they were waiting to see what the government would promise the people.

The government, he said, was promising Canadians only a continuation of the same policy that had brought Canada its greatest prosperity in history.

WRONG MANY TIMES

The speaker attacked PC leader, George Drew several times. "He has changed his mind on many question, since he became a federal member," he said. "He has been wrong many times and is wrong in the promises he is making now."

The speaker was introduced by Dr. Foster Graham, candidate in the election. Chairman was Ray Webster, president of the riding Liberal Association.

The speaker was thanked by D. M. Thomson, vice-president, who complimented the minister on his "intelligent address" which came he said, after the Progressive Conservatives had treated the people of the riding "like a bunch of hill-billies," at their rally last week.

George Keith, another leading Liberal in the riding, spoke very briefly and said "We've got to turn the tables in this election and return a Liberal for this riding. The history of Canada's greatness is found in the deeds of Liberal governments since the time of Laurier."

Some 250 party members and supporters attended the meeting.

Says St. Laurent Great White Father

CAPE CROKER, Ont. (CP)—Health Minister Martin, campaigning at this Bruce peninsula Indian reserve, said Wednesday that if ever a man deserved the title of great white father, it is Prime Minister St. Laurent.

The minister said Mr. St. Laurent looks on Canada as a great family—he never tries to get the members of the provinces fighting with each other.

When he was given the job of health minister in 1946, Mr. Martin said, the prime minister told him he had to do something about the health of Canada's Indians.

At that time the yearly appropriation for Indian health was $750,000. It now was nearly $14,000,000. There are 15 sanatoria for treating tuberculosis among Indians and Mr. Martin promised that TB would be eradicated as a dangerous disease among Indians as it had among other Canadians.

Softer . . . still softer is the new, improved Purex tissue. It's stronger and more absorbent, too . . . a better tissue at the same price.

Now you can choose from two kinds of Purex, single and 2-ply. For facial soft, single ply, reach for the new Purex in the familiar blue label; for the ultimate in bathroom luxury at a few cents more, look for Super Purex in the white label.

53-110

Diefenbaker Greeted Like Lochinvar

GODERICH— Like Lochinvar from out of the west, John Diefenbaker took Huron riding by storm Wednesday.

In a whirlwind tour that covered five communities, the PC campaingner ate sandwiches, chicken and turkey; shook at least 500 hands; praised the Goderich girls' trumpet band as the best in Canada; held the edges of his seat at harness races in Exeter and wound up at Clinton, 12 miles from here, promising immediate removal of the 10 per cent sales tax if the Conservatives form the next government.

John Diefenbaker's day started at 6.30 a.m. when he began work on a half-hour Ontario radio broadcast. After writing it he made the braodcast, recorded for use this evening, and admitted later at a meeting on a lawn on the main street of Dashwood that he had to listen for 10 minutes before he recognized his voice.

The candidate for Prince Albert Sask., arrived in Dashwood almost more than a hour after his scheduled meeting time and spent the next half hour going from car to car shaking hands of assembled citizens and tourists on behalf of Alyston Cardiff, candidate in Huron riding and a member for the past 13 years.

At Zurich, accompanied by Mr. Cardiff, Mr. Diefenbaker was the guest of honor at a luncheon attended by more than 60 people. So strained were the resources of the local hotel that the press had to be fed in a separate room.

The next stop on the intinerary was at Exeter where Mr. Deifenbaker sat in the grandstand and watched two of the harness races. During a lull in the races he made a brief speech from the judges' stand in which he commended harness races as an agtivity which he could well recommend to Canadians.

The beat of drums and the moan of fifes greeted Mr. Diefenbaker as he reached the outskirts of Goderich. Transferring from his car to a sleek, gray-colored convertible, with the top down, he drove into Goderich preceded by the colorful Goderich girls' trumpet band.

Spread out before him as he spoke from the bandstand in the centre of Goderich were more than 1,000 persons, some standing, some sitting, some in bathing suits and many in cars parked as far out as the middle of the circular roadway that forms the focal point of Goderich.

IMMEDIATE REMOVAL

Immediate removal of the 10 per cent sales tax will be instituted by the Conservatives, Mr. Diefenbaker declared.

"The sales tax," he said, "adds, in reality, 14 per cent to the cost of everything we buy for our homes. Tea, coffee, boots, are all taxed. We are going to abolish that tax."

If the Conservatives are elected they will set to maintain Canada's markets, the speaker promised.

Canada, he declared, has placed all her trade eggs in one basket in the United States which today is raising barriers and restrictions to keep our products out of their markets."

Aug. 10 has been set as the election date, Mr. Diefenbaker said, because cattle prices are falling so fast they would have been worth little if an election had been called for in the fall or early winter.

Unjust and unfair taxes have been imposed on Canadians without benefit of an anesthetic, Mr. Diefenbaker said. "Farmers are hounded by so many income tax inspector—pardon me, the government calls them intelligence officers—that the inspectors have had to wear white ribbons so they won't chase each other. We cannot build a strong Canada on overtaxation, and yet the Liberals boast of how much they have taken us for a ride."

BOND'S WEEKEND SPECIALS

SPORT SHIRTS FOR VACATIONERS

Handsome Sport Shirts in regular shirt sizes and sleeve length. Nylon acetate rayons, cottons, gabardines.

Senator Crerar's Estimate of W. L. M. King

In an article which has appeared in several publications, either in complete or abridged form, Senator T. A. Crerar has discussed the political and private character of the late W. L. Mackenzie King. His principal intention in doing so is to correct what he believes to be a wrong impression of Mr. King which is given in *The Incredible Canadian*, by Bruce Hutchison. That book was written in extravagant terms, which suggested that Mr. King was a Jekyll and Hyde character—a statesman of the highest order one day, and a mean party schemer the next. Senator Crerar insists that Mr. King was neither so high nor so low as Bruce Hutchison has suggested; in Senator Crerar's estimation Mr. King was a very able party politician and a notable parliamentarian.

* * *

This is a moderate estimate, and it is easy to pass it by without comment. But is it true? We cannot pretend to Senator Crerar's personal knowledge of Mr. King, or of the political history of Canada during the past 35 years; we accord full respect to these factors. But we know something about history, something about the Canadian people, and something about the way in which Canadians treat their important figures. Our feeling is that Mr. Crerar, falling victim to the Canadian passion for a form of moderation which is hardly to be distinguished from denigration, underestimates Mr. King, simply because he knew him well.

* * *

Mr. Crerar speaks warmly of Sir John A. Macdonald. Sir John died when the Senator was fifteen. It is not difficult to admit greatness in a figure of importance during one's boyhood years. Mr. Crerar also has a great opinion of the statesmanship of Sir Wilfrid Laurier; Sir Wilfrid died when the Senator was forty-three, and was never Prime Minister after the Senator was thirty-five. But Senator Crerar was a Cabinet colleague of Mr. King's from 1929 until 1945. If he had known Sir John and Sir Wilfrid so intimately, we wonder what he might have thought of them?

* * *

This is not to say that Mr. King had not many curious traits of character, and that he was not a ruthless party disciplinarian. What Senator Crerar has to say to his discredit is all probably true. But we think that the Senator plays down Mr. King's greater qualities. This is a very Canadian thing to do. As a nation we are reluctant to admit superior merit in our contemporaries; the very fact that we know them diminishes them in our eyes. And, as sharply as we decry those whom we know, we praise those whom we have not known. The longer a Canadian has been dead, the greater he seems to be. Like venison, a period of decomposition improves our statesmen wonderfully.

* * *

Sir John Macdonald and Sir Wilfrid Laurier were great men; no one denies it. The formation of this country, and its development, were their task. But a period of troublesome division, of economic growth, and of national consolidation was Mackenzie King's task, and if it was not so showy as the earlier work, it was vastly more detailed, laborious and extended. If his personal character was not always that of a saint, let us recall that some very great statesmen have been far more eccentric, unapproachable, and capricious than Mr. King.

* * *

What is principally wrong with Mr. King's reputation is that he has not been dead for long enough. In a century Canadians will decide that he was a very remarkable man—perhaps a man of genius. By then, of course, he will not stand as a threat to the vanity of anyone living, nor will there be any possibility of gaining personal *kudos* by detracting from his abilities.

Conservative Strength In B.C. And Quebec?

Premier W. A. C. Bennett and the rest of the country now know that he has a clear majority in the next B.C. Legislature. The voting took place exactly one month ago; the final counts are now being completed in the involved process created by B.C.'s alternative voting system. The Social Credit party gained unstable control of the Legislature in last year's elections. The recent ones have given it, and Mr. Bennett, solid control.

An interesting point arises from these election results, in relation to the forthcoming Federal elections. Does the Social Credit victory in British Columbia mean strong Conservative support there on August 10th? The question may be academic, for Provincial trends are in no wise a gauge of Federal election trends. However, be this noted; Mr. Bennett has long been a Conservative and indeed has sat as a Conservative in the B. C. legislature. Does one identify Conservatives and Social Crediters as the same species in British Columbia?

Another analogy is this. Premier Duplessis of Quebec has a pretty solid majority for his National Union Party. But Mr. Duplessis, a known foe of the Liberals, was like Mr. Bennett, a Conservative, and indeed was one-time leader of the Quebec Conservatives. Does his strength in Quebec spell strength for the Conservatives in Quebec on August 10th? Does one identify the National Unionist and Conservatives in Quebec?

We hazard a guess that these assumptions are wrong. The reason Mr. Duplessis deserted the Conservatives was that he knew that he could get nowhere in politics in Quebec *as a Conservative*, that the Conservative Party in Quebec was dead as a dodo. The obvious reason that politician W. A. C. Bennett of British Columbia deserted the Conservatives and took on the mantle of Social Credit is that he knew that the Conservatives in British Columbia were finished as a political force. Thus it seems that neither Premier Bennett's strength in B.C. nor Premier Duplessis' strength in Quebec is an augury of Conservative strength in either province. On the contrary, they are an indication of Conservative weakness in both provinces. Neither gentleman had any political future whatsoever *as Conservatives* so they changed their discounted party names, if not their colours. While Mr. Duplessis has had control of Quebec in Provincial politics, the Federal Liberals have increased their strength in that Province.

Stack Of Logs

We doubt that Mr. R. M. Fowler, president of the Canadian Pulp and Paper Association, did the measuring or arithmetic; it is even unlikely that he actually said what he is said to have said. But somebody did suck a pencil while multiplying and dividing and arrived at this statement which we have no reason to doubt: "The timber consumed in forest fires each year would make a stack of four-foot logs, four feet high, stretching from Halifax to Victoria."

The statement conjures up a spectacular image. A four-foot wide, four-foot high pile of logs up and down hill, across bays, rivers and lakes, astride super highways and tunnelled through skyscrapers, stretching from the Atlantic to the Pacific. What wonderful fun youngsters would have playing in, around and above it! What transcontinental walking records could be set atop it! And what a lot of kitchen stoves it would stoke, and newspaper presses it would feed!

What could be more dramatically challenging to careless smokers in the woods, reckless camp-fire makers, throwers of bottles (whose glass can refract the sun and intensify its heat and thus start a fire), and to everybody else who directly or indirectly starts a forest fire. What a challenge to reform of their ways if, as a reward, the Pulp and Paper Association actually began to build such a transcontinental stack of timber from forests mathematically saved from destruction by a special campaign of care and courtesy to trees in the woods! The Great Wall of China would shrink as a marvel beside the Trans-Canada Timber Pile.

No Slogans For Us, Please

State-proud American legislators, propaganda boosters, and even some Canadian officials have invaded private rights with advertising slogans on automobile licence plates. Colorado is "Colorful". Florida is of course the "Sunshine State". Idaho drivers must carry around with them the slogan "World Famous Potato". Montana cars advertise "The Treasure State." New Mexicans, believing it or not, must tout the "Land of Enchantment". Some state licence plates in other years have even borne the dates of a State fair. Only one province in Canada (Saskatchewan) has so far dared to burden its drivers with a slogan: "Wheat Province", but whoever drives cars in the Yukon is compelled to advertise it as "Land of the Midnight Sun".

The propagandists for the State or Province are, we think, improperly using licensing regulations when they foist advertising slogans—no matter how patriotic or good-earthy—on citizen drivers. It is an infringement of private rights, an opportunistic use of a captive group. Car owners must buy license plates; they should not be forced also to carry advertising on their private property, their cars.

Both Ontario and Quebec exhibit car plates with very discreet and dignified indications of patriotic devotion—the *fleur de lis* emblem between the Quebec ciphers, and the crown between the province name and year on the Ontario plate. This is good and proper; the examples we have given above are bad and improper.

THE AMERICAN SCENE

Unbending Reed

By ALASTAIR BUCHAN

A STRANGE political dog-fight in which the combined forces of the President, his Cabinet, and the Republican leaders in Congress had been successfully defied for many weeks by one elderly and virtually unknown Republican Congressman culminated this week in partial victory for the President.

Representative Daniel Reed has sat in the House of Representatives for 35 years for a rural district of New York State without anybody really noticing his presence. This year, however, by right of seniority he became the Chairman of the House Ways and Means Committee. This is an extremely powerful committee because all legislation about taxation must originate in the House, and by long tradition must first be passed on by the Ways and Means Committee. A Chairman of a Congressional Committee is a very powerful man in a negative sense; he decides when the Committee shall start to hold hearings on a particular piece of legislation, when it shall finish taking evidence and when the Committee shall vote on the issue. If he dislikes any piece of legislation he can sit on it forever and prevent its coming to the floor of the House for a vote.

✧ ✧ ✧

MR. REED, like most rural Republicans, is a great believer in economy and low taxation, and during last year's electoral compaign he explained to his constituents that if the Republicans were elected taxes would be lowered, neglecting to notice that General Eisenhower and the other Republican leaders were taking a more cautious line. He introduced the very first bill into the new Congress— to lower the income tax. Consequently he was outraged when the President in May outlined his budget and made it clear that expenditure exceeded revenue by far too much in the current year to contemplate an immediate tax reduction, although something might be possible next year. In particular, the President advised Congress that the Excess Profits Tax, which was due to expire on July 1, must, although a bad tax, be renewed for another six month. This needed legislation and it was here that Mr. Reed decided to demonstrate his power.

Throughout late May and early June he merely did nothing about the Bill. Then, under pressure, he called witnesses, and although Secretary of the Treasury and many influential private citizens argued before him that the continuation of the tax was essential, he blandly announced at the end of the hearings that the Administration had not proved its case. From then on he refused to call a vote on the Bill. As the tax's expiry date of June 30 began to draw closer, the Administration began to get desperate. President Eisenhower called Mr. Reed up to the White House for a little chat; Mr. Reed, a stolid figure with rimless glasses who looks more like a typical American than a typical American could ever look, remained quite unmoved by such august treatment. Republicans were committed to reducing taxes and he was going to be no party to breaking Republican principles.

✧ ✧ ✧

WE GET a lot of tourists in Washington in the summer, but last week a dusty old touring car drove into town with a rather unusual tourist behind the wheel. This was ex-President Harry Truman, back in Washington for his first visit since he departed officially in January for his home in Independence, Missouri. I caught only a glimpse of him but he seemed to be in very high spirits. The remarkable thing about an American President is that while he is in office he is guarded night and day by police and private detectives—probably more elaborately guarded than most dictators — and when he leaves the office, in which he is more powerful than any dictators, he becomes merely another private citizen. Mr. Truman went for his usual two-mile morning walk and waved to the taxi drivers when they leant out of their cabs and shouted "Nice to see you back." (Washington taxi-drivers seem to be mostly Democrats). He had many meetings with the old members of his cabinet who call themselves the "Out but Happy" Club. If all power corrupts and absolute power corrupts absolutely, the effects are not visible on Mr. Truman, who, despite seven years as President of the United States, seems as humble and as happy as any other retired gentleman of sixty-nine.

✧ ✧ ✧

ONE OF THE MINOR industrial revolutions taking place at the moment in this country is in the art of packaging. The cardboard or fibre-board box is coming to be used for delivering not only parcels and goods from shops but also crops and fruit and every kind of industrial component. With plentiful supplies of wood-pulp it is possible to make very strong forms of cardboard. This year seventy per cent of the California lemon crop will be shipped eastwards in cardboard boxes, as will forty per cent of the lettuce crop which hitherto has always gone in wooden crates packed with ice. Many farms are using cardbard for shipping because anyone can assemble or open a cardboard box, while it takes a carpenter to make a wooden one.

✧ ✧ ✧

WITH the American love of public speaking and get-togethers I suppose it was inevitable that one day an organization should arise called "International Toastmistress Clubs Inc." This organization whose head office is in Huntington, California, has nothing to do with burning bread. There are four hundred Toastmistress Clubs across the United States with seven thousand members and their purpose is to teach ladies how to make speeches and run lunches, discussion groups and gatherings. To anyone who, like myself, hates such gatherings the training programme sounds gruesome. Each time the local cell meets the ladies are divided into a Toast mistress who presides and introduces the guests, a Topic Mistress who calls the subject for discussion, a Lexicologist who points out mispronounced words and mistakes of grammar, and an Evaluator who is in charge of "criticism." Although the ladies would be horrified by the thought, it sounds very like the procedure of a Communist Party cell. Now I know where those formidable "Madame Presidents" who are the presiding genii of innumerable dull lectures and lunches get that formidable glib line of talk.

✧ ✧ ✧

IN the unending, difficult game of Anglo-American relations, it is impossible to tell what incident in the one country will touch off a round of criticism in the other. The American television companies were taken aback when their handling of the Coronation films raised a storm of protest in Britain. Similarly, two small items of news published simultaneously have drawn a lot of acid comment in letters to the American Press. They were that President Eisenhower had laid up the Presidential yacht Williamsburg as an economy measure, and that the new British Royal yacht, the Britannia, costing the equivalent of five million dollars, had been launched. Here is a sample letter to the magazine "'Newsweek," from Lancaster, Pennsylvania: "U. S. taxpayers have contributed some three or four billions of dollars toward the support of the sagging British economy while the British continue their experiments in Socialism. Will they sometime return the favour by supplying us with free false teeth, luxury yachts, etc?" It always seems to be the small incidents which arouse the most fury.

✧ ✧ ✧

TEXAS may be a booming state for those with oil wells, but for the cattle ranchers who form the backbone of the community, it is a land of disaster at the moment. For the third successive year the rainfall in Western Texas has been only a fraction of the normal. The whole sky is darkened with dust storms. Consequently the ranches face the necessity not only of shipping and selling this year's cattle at any price they can get in order to prevent them from dying, but also of destroying the bulls and heifers which constitute the foundations of their herds.

President Eisenhower and his able Secretary of Agriculture, Mr. Ezra Benson, have allocated eight million dollars of special funds to provide cattle feed in the worst areas, but, as one Texan remarked, surveying the dust-bowl of his land and the brazen skies, "It isn't dollars we want, it's rain."

AN AMERICAN VIEW OF SPECIAL TOURIST

The Korean Dilemma

By WILLIAM CLARK

The latest threat from President Syngman Rhee of South Korea to withdraw his troops from United Nations Command if an armistice is signed on the present terms is regarded as catastrophic in London. It is almost the worst that had been expected, and Britain is not [illegible] inch nearer having a solution to the [illegible]lem.

Stated very simply the problem is this: the United Nations has fought a war as if it were a solid alliance; now one of the member states is threatening to withdraw and it is revealed that the United Nations has no power at all of discipline. All the anger against Mr. Syngman Rhee is only increased by the knowledge that he has done little, if anything, that is illegal.

It is true that he has defied United Nations wishes, and that he has outraged the people who set out to defend him, but as a sovereign state South Korea's right to defend herself is undoubted, and guaranteed specifically by the Charter of the United Nations. This is the weakness in all the many and violent attacks on Mr. Rhee by British and American diplomatic notes—that they are appeals to a code of behaviour which is not shared and not enforceable.

If, in fact, Mr. Rhee's threat to remove his troops is made effective, chaos will result in Korea, and there seems every chance that the Communists could take over the whole peninsula. This could not be accepted by the United States.

If the Americans decide to support Mr. Rhee with their own forces, then there will be a continued war, which is, frankly unacceptable to most of America's allies. Such is the dilemma in which Mr. Rhee has placed the United Nations.

What are the ways out? There is now no diplomatic way out—threats and bribes have failed. There is no legal way out, the issues at stake are too great for a legalistic ruling, which could anyway not be enforced. There is no military way out in the sense that in the immediate future the South Korean troops cannot be replaced by United Nations troops, because no country is prepared or able to send them in time.

It almost seems that the only way out would be a coup d'etat to change the South Korean Government. Such a solution in South Korea would be a confession of failure, but the United Nations policy has failed; it would show the bankruptcy of earlier policies, but they are bankrupt. The question is whether such a coup could be successful.

In Whitehall, where such a decision would be partly welcomed but not taken, since it is a political decision which depends on the President of the United States, it is thought that the South Korean army is more loyal to its officers than to a government which has often underpaid, or not paid it. The army leaders, it is thought, could act effectively without the South Korean Government.

At present there are no plans for such drastic action, but within a few days no other solution may be possible. — (OFNS - Copyright.)

Rabbit Problem

(Winnipeg Free Press)

Australia is commonly held to be the prize exhibit which proves the power of the rabbit to multiply and to occupy a country.

However the report of the Forestry Department on the island of Gottland in the Baltic, makes the Australian problem seem simple.

In 1907 a resident on the Island imported five rabbits from Scotland, thinking they might improve the local hunting.

By 1952, the rabbits had spread over the entire 1,200 square miles of the Island. They have invaded and destroyed many plantations. They have killed many young trees by eating the bark. They have cleaned off most of the grass and even invaded and stripped of foliage the local cemeteries.

As a result Gottland sheep are rapidly declining in numbers. Rye and carrot crops have had to be abandoned. The top soil in many places is blowing away.

Severe shooting and trapping and the introduction of animals that live on rabbits have failed to improve conditions. The Forestry Department is about to try inoculating the rabbits with a contagious and fatal disease, known as Myxomatases. This has given some relief in Australia, except that a new generation of rabbits that are immune to it has appeared.

How Time Flies

JULY 9

1923 Joseph Wearing resigns from the Board of Education to assume the post of city solicitor.

The Children's Aid Society disposes of $7,600 worth of Victory Bonds at a profit of $316.

A purse is presented by the Methodist congregation of Omemee to the Rev. F. R. Stillman who is leaving.

1933 The Grace Sunday School on the Queen Alexandra School property is being torn down by the Board of Education.

Two members of the city fire department are quarantined with diphtheria and steps are taken to prevent spread of the disease.

Joe Bailey pitches three-hit ball as Fosters defeat Crescents 3-0 in the EPL.

1943 Bruce Johnston, North Monaghan township clerk, is the provincial CCF candidate for the county.

Capt. Douglas Hay of Hastings is promoted to the rank of major in the Dental Corps overseas.

Miss Genevieve Fowler is appointed librarian at the Collegiate at a salary of $1,000 a year.

Bible Message

(From the Authorized Version)

And the Lord spake unto Moses in the wilderness of Sinai, in the first month of the second year after they were come out of the land of Egypt, saying, Let the children of Israel also keep the passover at his appointed season. In the fourteenth day of this month, at even, ye shall keep it in his appointed season: according to all the rites of it, and according to all the ceremonies thereof, shall ye keep it. (Num. 9: 13.)

✧ ✧ ✧

Now the first day of the feast of unleavened bread the disciples came to Jesus, saying unto him, Where wilt thou that we prepare for thee to eat the passover?

And he said, Go into the city to such a man, and say unto him, The Master saith, My time is at hand; I will keep the passover at thy house with my disciples. (Matt. 26 17, 18.)

✧ ✧ ✧

Be ye followers of me, even as I also am of Christ....

For I have received of the Lord that which also I delivered unto you, That the Lord Jesus the same night in which he was betrayed took bread: and when he had given thanks, he brake it, and said, Take, eat: this is my body, which is broken for you: this do in remembrance of me.

After the same manner also he took the cup, when he had supped, saying, This cup is the new testament in my blood: this do ye, as often as ye drink it, in remembrance of me.

For as often as ye eat this bread, and drink this cup, ye do shew the Lord's death till he come. Wherefore whosoever shall eat this bread, and drink this cup of the Lord, unworthily, shall be guilty of the body and blood of the Lord. (I Cor. 11:1,23-27.)

✧ ✧ ✧

And straightway in the morning the chief priests held a consultation with the elders and scribes and the whole council, and bound Jesus, and carried him away, and delivered him to Pilate. (Mark 15:1).

Churchill and Modern Art

(Winnipeg Free Press)

Considerable interest was aroused by Sir Winston Churchill's recent address on modern art to the Royal Academy.

Sir Winston summed up as follows (London Times report): Variety, flexibility, and change must never be divorced from any form of national art. It would be disastrous if the control of that great institution fell into hands of any particular school of artistic thought, which like a dog in the manger would have little pleasure itself and exclude all others.

The function of such an institution as the Royal Academy was, he thought, to hold a middle course between tradition and innovation. Without tradition art was like a flock of sheep without a shepherd. Without innovation it was a corpse. Innovation, however, might not always be fruitful. Certainly it was not the function of the Royal Academy to run wildly after every curious novelty.

He thought that people who went in for novel, unexpected, super-original forms of art ought to have credentials. "I think they ought to have a real grounding in the profession of painting or sculpture which they pursue and they ought to have proved themselves master of line and color before they have a bona fide claim to lay down the law to us about what we should admire," he said.

"I will not pursue these matters further except to say that in the broad question of whether any measure of regimentation is compatible with art, on the whole I find myself on the side of the disciplinarians. Of course, one may go too far, but no large organisation can long continue without an element of authority and respect for authority."

"People who take their children for holid ays in Spain want to leave them there."

Percy Skitch And Sid Elsden Veteran Lindsay Bowlers Win Liftlock Gold Trophy

A pair of veteran lawn bowlers—Percy Skitch and Sidney Elsden—of the Lindsay Lawn Bowling Club won the first prize and the Lift Lock Gold Trophy at the open doubles tournament held on the local greens on Wednesday. Norman Jones and his partner from Toronto were runners up. And once again did the visitors dominate the play, so much so that only one local pair were among the three game winners. The tournament was held under ideal weather conditions and although it did turn quite cool after the tea hour—it was nevertheless grand for bowling. So successful was the tournament that not one of the 96 pairs entered, defaulted.

A FINE JOB

Chairman L. Mitchell and his committee did a fine job. They attended to all the many details and had everything running smoothly.

The ladies came in for many nice compliments. They looked after the inner man in wonderful style.

The presentation of the prizes is always an important item.

Chairman Mitchell spoke a few words, thanking all for their attendance and assistance. He then turned the presentations over to Robert Gamble.

PRESENTS TROPHY

Mr. Gamble also congratulated all. He said it had been a wonderful tournament in every way. He said that this would be the first year that Mr. C. Graham, donor of the trophy, would be unable to be present, to present the trophy and called M. Letcher, Port Perry, vice president Ontario Lawn Bowling Association, to do the honors.

Mr. Letcher complimented the Peterborough Club, the competitors and the ladies. He said the co-operation was outstanding and that's what makes a successful tournament.

After the prizes had been distributed the tournament passed into history and as one chap said as a farewell: "Let's run this tournament in the summer—next year."

WINNERS

First: Lift Lock Gold Trophy and each a gold wrist watch—Lindsay, P. Skitch and S. Elsden.

Second: Each a gold wrist watch—Toronto, N. James and partner.

Third: Each a cabinet of silver—Cannington, J. Woodword and W. Livingstone.

Fourth: Each a silver tea service—Toronto, G. Davis and C. C. Downey.

Fifth: Each a leather club bag—Peterborough, F. Dearborn and R. Hutchinson.

Sixth: Each a lazy susan—Toronto A. Gray and W. Sanley.

Seventh: Each a tray and ice tub—Toronto, Dr. R. Johnston and K. MacDonald.

Eighth: Each a scatter rug—Oshawa, W. Brownlee and G. Cochrane.

Ninth: Each a Sheaffer pen and pencil set—Toronto, W. Fenton and G. Scott.

Tenth: Each an electric kettle—Lindsay, O. Culbert and Leo Rogers.

Eleventh: Each a windbreaker—Oshawa, G. MacMillan and W. Peacock.

Twelfth: Each a basket of CPC products—Ottawa, J. Whitley and W. Grant.

Thirteenth: Each a sweater coat—Brighton, G. Colling and A. McConnell.

Fourteenth: Each a Hudson Bay blanket—Toronto, J. MacNeill and F. Mayo.

Fifteenth: Each a nylon shirt and tie—Peterborough, J. Detcher and W. W. Jeffries.

Sixteenth: Each a blanket—Peterborough, R. Knox and B. Jeffries.

Seventeenth: Each a blanket—Peterborough, H. Girven and N. Routley.

Eighteenth: Each a breakfast set—G. Sorenson and C. Lawrence.

Nineteenth: Sugar and cream set and tray—Cannington, A. Gordon and E. Skells.

Twentieth: Cheese and cracker dish—Cornwall, P. Rouleau and partner.

Twenty-first: Each a set of plastic playing cards—Toronto, A. Ferguson and W. LeBarr.

Twenty-second: Each a sport shirt—Ottawa, E. Ray and G. Torrence.

WIN LIFTLOCK TROPHY—A highly-successful lawn bowling tournament, the ninth annual one for the Liftlock Gold Trophy, concluded here Wednesday with a veteran pair from Lindsay the winners. Sidney Elsden, left, and Percy Skitch, right, are shown posing with vice-president M. Letcher, Port Perry, of the Ontario Lawn Bowling Association, who made the presentation in the absence of trophy donor Chris Graham. Two hundred top bowlers from 25 Ontario clubs competed in the day-long tournament. —(Photo by Choate Studio).

Weeding Out Golfers At Open Tourney

By JACK SULLIVAN

TORONTO (CP) — They start weeding out the weekend golfers in the Canadian Open today and, unless some of the first-day hot-shots suddenly develop the jitters, the $15,000 classic should stick to form.

A field of 178 tramped over the par-71 course in the opening round of the 72-hole medal play tournament Wednesday and after 15 hours of good, bad and indifferent golf, 28 returned with sub-par rounds. Others ballooned as high as 92 over the slick 6,607-yard layout.

After today's 18-hole round the initial starting list will be trimmed to the low 100 and ties. Friday it will be boiled down again to the 60 lows and ties.

Wednesday's play really belonged to 127-pound Garner Dickenson from Panama City, Fla. The 25-year-old former United States Army officer, just another entry before the tee-off, tied for the lead with veterans Ted Kroll of Utica, N.Y., and Tommy Bolt of Houston, Texas, with five-under-par 66s.

NOT MENTIONED

Dickenson, out of the Army only three months, wasn't even mentioned in pre-tournament gossip and only a handful of spectators were around to see him take the steam out of the northeast Toronto course.

The big gallery followed defending champion Johnny Palmer of Badin, N.C., possibly hoping for a scorching 18, but the stocky, black-haired champ was fighting most of the way and came home with a blooping 72.

It was a far different story from his 1952 performance at the Winnipeg St. Charles club when he practically swept the course off the map with 66-65-66-66 records for a 25-under-par total of 263. That is a Canadian Open record and it isn't likely to be broken here.

Included in the below-par contestants were two Canadians—Bill Mawhinney of Vancouver, whose unorthodox form makes stylists wince, and Gerry Kesselring, Kitchener, Ont., amateur. Mawhinney carded a 68, the same as Jim Ferrier of San Francisco, winner in 1950 and 1951. Kesselring with 70, was low amateur of the day.

In fourth place with 67s were Americans Wally Ulrich, Doug Ford and Leo Biagetti.

ONE EAGLE SCORED

Only one eagle was scored and it was a dilly. Harold Paddock, of Cleveland drove 290 yards on the par-four, 460-yard eighth hole, used a No. 4 iron for his second shot and the ball hit the pin dead-on and dropped into the cup.

Possibly the best recovery of the initial round was made by Bolt, winner of the Tucson and San Diego Opens this year. He was three over par after two holes but settled down to a succession of birdies and pars with his putter playing a big part in the form reversal. He had only 26 putts, following deadly chip shots.

Canadian pros following Mawhinney were the big three of the recent Canadian PGA championship at Quebec—champion Henry Martell of Edmonton, runner-up Stan Leonard of Vancouver and third-place Pat Fletcher of Saskatoon.

Martell and Leonard matched par and Fletcher posted a 70.

Stranahan Steals Thunder From Hogan

By STERLING SLAPPEY

CARNOUSTIE, Scotland (AP)—American amateur Frank Stanahan sank three long birdie putts Wednesday in the British open golf tournament to score a brilliant 70 and steal the thunder of the mighty Ben Hogan and Bobby Locke.

Playing against stiff winds and through a 15-minute rain and hail storm, the Toledo millionaire's son clipped two strokes off the unofficial par 36-36—72 of the 7,200-yard championship course with his 37-33. That gave him a one-stroke lead over Eric Brown, a 28-year-old Scotch pro, two over Locke and three others with 72s, and three over Hogan.

Locke of South Africa, defending titlist and winner of this championship three times in the last four years, fired a 37-35—72 on this old Scottish seaside course.

Through 15 holes the little Texan was on the way to beating Locke's lead. But on the final three, Hogan's putting got timid.

Brown came through hail, wind, hot sun and rain with a 38-33—71.

Tied with Locke at 72 were: Roberto de Vincenzo of Argentina, British Open runner-up in 1950, with 38-34—72; Dai Rees, Welsh member of the British Ryder Cup team, with 38-34—72; and Peter Thomson, Australian runner-up in last year's Open with a 37-35—72.

Hogan and the long-hitting Irish pro, Fred Daly, tied with 73.

Remember When—

By THE CANADIAN PRESS

Henry Cotton completed a 290 on a rain-sodden course at Carnoustie, Scotland 16 years ago today to edge Reg Whitcombe by two strokes over the 72-hole event and take the British open golf title over one of the classiest fields ever assembled. It was Cotton's second victory in four years and he regained the title in 1948.

THE BIG HORSE—Greentree Stable's Tom Fool, Ted Atkinson up, headed for Aqueduct's $50,000 Brooklyn Handicap at a mile and a quarter with five straight victories and smashing performances this season, the last under 135 pounds.

Russian Chess Team To Plav Americans

By EARL UHELL

NEW YORK — Now that the United States Department of State has assented, a chess team from the Soviet Union will lock chess boards in two weeks with a squad from this country in the first international match held in New York.

It will really be a return match for the United States team which was badly beaten when it went to Moscow in 1945 and has been prevented from meeting the Russians here by "political difficulties."

According to Harold M. Phillips, president of the sponsoring organization, the United States Chess Federation, arrangements are being completed for the contest.

The dates have been set: July 15, 17, 19 and 21.

Both teams, Mr. Phillips said, are very young. The average age of the United Staets team is 30 and the Russians are even younger. The Russian team has Mikhail Botvinnik, the world champion, while the Americans have Larry Evans, 21-year-old U.S. champion.

Petes Turn Back Hamilton In 17-8 OLA Senior Tilt With Jerry, Ike, Don High

Six-man senior lacrosse made its debut here before about 1,200 fans last night as the Petes' Trailermen trimmed Hamilton Tigers 17-8 in a speedy, open and clean contest. They were paced by Jerry Fitzgerald, Ike Hildebrand and Don Ashbee, but the whole crew contributed to the victory which kept them firmly in second place in the OLA senior standing. The smaller starting line-ups seemed to speed up the game and eliminate much of the crease pile-ups, but it didn't in this case cut down much, if any, on the scoring. While both goalies kicked out a lot, there were 25 goals tallied in the wide-open tussle. Hamilton boasted a 4-2 lead in the first frame, but were behind 8-5 at halftime and 14-7 going into the fourth.

IN ON EIGHT—Husky Jerry Fitzgerald, though a defenceman, was top point-getter for the Petes in their 18-8 OLA senior win over Hamilton here last night. He scored twice and made the plays that resulted in six more markers in an all-around smart showing.

FANS LIKED IT

Fans seemed to find it easier to follow the ball and follow the play with elimination of the rover of each team. The players seemed to click better on passing plays but they did more running than in the seven-man style of lacrosse. There was little rough stuff seen in this particular tilt, the Petes drawing six of the 10 minor penalties passed out, some of them for quite accidental misdemeanours.

Hamilton were minus newly-acquired Biondi of Brampton, while the Thorpe team was again without Harry Wipper, who is in the States on a trip for a week. The visitors dished up a speedy, open brand of play that made the locals hurry, but the champs' savvy and class told in the last three quarters of an interesting game. Three of the younger Petes performed last evening, the Robinson brothers and Burns.

LEADS THE WAY

Jerry Fitzgerald was top point-getter for the victors with eight, including two goals and six well-earned assists as he did some fine playmaking. Ike Hildebrand scored four and aided on one, while Don Ashbee tallied three and helped on two more. Close behind was Russ Slater with two goals and two assists, Ross Powless counting two and assisting on one, and Nip O'Hearn with three assists. Curly Mason was effective, too, with a goal and two assists. In on two each were Bob Thorpe and Roger Smith, while Grant Burns had a goal, and Brian Robinson an assist.

Jack Dorney stood out for the losers as he blazed in four markers and helped on another. Bill Rankin tallied once and aided on two. Single goals went to Jack Sibbald, Wally Henderson and Bill McLean, with Henderson having an assist, and Jack Chambrian also figuring in on one. Teams:

Hamilton: Goal, B. Smith; defence, Simpson and Henderson; centre, Dorney; wings, Rankin and McLean; alternates, Guthro, Capula, A. Smith, Whitnell, Sibbald and Chambrian.

Petes: Goal, Wootton; defence, O'Hearn and Ashbee; centre, B. Robinson; wings, Thorpe and Hildebrand; alternates, Fitzgerald, Nickle, Mason, Slater, Powless, Smith, Burns and G. Robinson.

Referees — M. McDonald and S. Milne.

Summary:

First Quarter

Petes—Thorpe (Ashbee) ..... :48
Hamilton—Dorney 1:15
Hamilton—Sibbald (Chambrian) 10:36
Petes—Mason (O'Hearn) 11:00
Hamilton—Dorney 13:20
Hamilton—Rankin (Dorney) 14:40
Penalties—B. Robinson, R. Smith.

Second Quarter

Petes—Smith (Slater, Mason) .. 1:56
Petes—Hildebrand (B. Robinson) 2:23
Petes—Hildebrand (O'Hearn) .. 4:12
Hamilton—Dorney (Henderson) . 6:44
Petes—Slater (Fitzgerald) 9:33
Petes—Fitzgerald (Thorpe) 11:03
Petes—Hildebrand (Fitzgerald, Ashbee) 12:19
Penalties—Simpson, Henderson (2), O'Hearn.

Third Quarter

Hamilton—Henderson 1:10
Petes—Hildebrand (Fitzgerald) . 6:15
Petes—Powless (Fitzgerald) 6:50
Petes—Slater (Fitzgerald) 7:17
Petes—Powless (Smith, Slater) 8:28
Petes—Burns (O'Hearn) 9:23
Petes—Fitzgerald (Mason, Hildebrand) 11:20
Hamilton—McLean (Rankin) 13:21
Penalties—Simpson, B. Robinson.

Fourth Quarter

Petes—Ashbee (Fitzgerald) ..... :56
Hamilton—Dorney (Rankin) 6:25
Petes—Ashbee 12:15
Petes—Ashbee (Powless) 13:31
Penalties—Ashbee, R. Smith.

DON'T LET BLOOMERS FOOL YOU—Italian football—soccer to you—players play a rugged game in Florence. The striped bloomers have been traditional for 600 years. The prize is a white cow, symbolic of prosperity.

St. Kitts Whip Orillia 14-10

By THE CANADIAN PRESS

There's no stopping St. Catharines Athletics in the Senior Ontario Lacrosse Association.

The powerful A's have led the league most of the season and have built up a comfortable margin. Wednesday night the Athletics kept up the pace, defeating Toronto-Orillia West Yorks 14-10.

Orillia started in fine style with a 4-2 first-quarter lead but the Athletics led 7-5 and 10-7 in the next two periods.

Four St. Kitts players — Leo Frick, Derry Davies, Ted Howe and Bill Bradshaw—scored two goals each. Ham Nelson, Jim McMahon, Jim Bradshaw, Doug Smith, Max Wolley and Norm Corcoran scored singles.

Playing coach Don McPhail led the Yorks with three goals. Merv Mackenzie and Tony Demico scored two each.

Scots Beat Merchants In 4-2 Soccer Game

Scots Canadian soccer team created a surprise in the local league last night at King Edward Park before a good attendance, to gain two valuable league points by a 4-2 count over Merchants.

Opening exchanges were of the highest calibre with the half-back divisions predominating to give the forwards an opportunity to bring out the qualities of the defence. Buchan, Merchants, nullified an attempt by Scots' centre-forward Dunn, gave Payne a pivot shot that was converted. Within a few minutes, Beyd, Scots, equalized with an oblique shot. Encouraged by success, the Scots forced the issue to hold a 2-1 lead at the interval.

REFEREE EXCELLENT

On resuming, Referee Ernie Cotton, handed out perfect decisions in an excellent brand of soccer that prevailed with Scots using a close-passing game while Merchants relied on long swinging passes that permitted Scots' half-back line to intercept, block and curtail every dangerous move. Eventually Buchan at centre half forced the issue to finally witness George Downer gain the equalizer with a left-footer that landed in below the crossbar. Within a minute, Scots took the lead and added another through Don Downer heading in one more, to make it read 4-2 in favor of the Scot-Canadians.

Dodgers Triumph

The local Dodgers downed Keene 11-4 last night in a midget-juvenile baseball encounter. Wade allowed just six hits and no walks as he fanned seven, his mates having but two miscues. O'Brien [illegible] was picked for [illegible] perfect backing. A tidy tilt, but for those [illegible] clicked for two of the hits for the hustling young crew piloted by Howie Dalton and Shockey Mein. If Jerry Frizzelle gets good support here Friday night, they might knock off the smart second-place Lindsay squad. Ted Stone twirled another no-hitter last p.m. as Oshawa Transporters blanked Port Hope 9-0 for their 19th straight win, for golly goodness' sake!!

Dodgers — R. Rowe 3b, Griffin lb, Patterson rf, Graystock rf, Whitehill cf, Riel lf, Kimball c, McArthur c, Wade p, Morley 2b, Gilders 2b, W. Rowe ss.

Keene — Renwick, McCarthy, Whalen, Coit, Lang, Shearer, Turnbull, O'Brien, Elmhirst, and Shearer.

OLA Senior Schedule

Following is the remainder of the Petes' senior OLA schedule as revised since Brampton dropped out:

July—
10—Mimico at Petes
13—Petes at Hamilton
17—Yorks at Petes
21—Petes at Fergus
22—Hamilton at Petes
24—Mimico at Petes
28—Petes at Mimico
29—Petes at Hamilton

August—
1—Fergus at Petes
3—Petes at Yorks
6—St. Catharines at Petes
7—Hamilton at Petes

Senior OLA Standing

	P.	W.	L.	Pts
St. Catharines	20	16	4	32
Petes	18	14	4	28
Yorks	18	11	7	22
Fergus	18	9	9	18
Hamilton	17	5	12	10
Mimico	15	1	14	2

SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

Joe Stewart, Al Menzies, Bill Edger, Joe Lowrey, Bill Huntley and Freddy Garvey have been playing for Lindsay Merchants in the Lakeshore Baseball League this season, all being former Petes' seniors. Two other local chaps, Doug Lucks and Junior West, pitch for the Scugog squad. So it'll seem like an old boys' reunion when they show here Saturday eve to play the Peterborough Liflocs in a loop fixture. While Lindsay is of at least intermediate calibre and the Liflocs are a junior entry, the local just might upset Lindsay. Should be a good game, anyway. Being booster night, there'll be a flock of good draw prizes up, topped by a TV set.

* * * * * * *

Mimico Mounties, instead of Toronto Yorks, are dated for Peterborough on the morrow in Miller Bowl. The revised senior OLA schedule calls for this switch. While St. Kitts make one more trip here in the schedule, Yorks won't have an extra game down this way—though they do come here three time anyway and maybe four, since Brampton dropped out, but the revised schedule doesn't give that fourth fray. That's because the Petes had two home games 'gainst Brampton ere Excelsiors folded. The locals' remaining list is in tonight. It winds up in the first week of August, playoffs commencing Aug. 10, just a month away.

* * * * * * *

Petes Sign Up Denny

Barring an unexpected hitch from Mimico or the OLA, the Petes will have Denny Peterson playing for 'em shortly! Yeah, they've signed the husky, blonde forward who refused to sign this season for the Mounties. The classy 23-year-old took part two years ago in the Mann Cup series for Peterborough and has been anxious ever since to play here. He is being transferred by Bell Telephone up this way Aug. 15, plans to marry in October and will be living here indefinitely. Not only is Denny a first-rate lacrosse forward, who should really round out the champs in their stretch drive, he's only a good senior 'B' puckist in the THL, and would fit in nicely with our hockey club when winter rolls around. Fine work by Manager Bob Curtin of Petes.

* * * * * * *

OLA senior fans here last eve seemed to enjoy the speedy, open and clean six-man style of lacrosse as Petes whipped Hamilton 17-8. It appeared easier to follow, though there was plenty of scoring on the smaller cages. Trailermen started a bit slowly but soon gained traction to earn the duke handily and stay up there in second place alone. Jerry Fitzgerald was high on points, with Ike Hildebrand, Don Ashbee, and Russ Slater well up in scoring, too. Minus regulars like Harry Wipper and Dootch Vitarelli, the locals looked okay against the speedy Tigers in an interesting duel. Grant Burns and the Robinson brothers are starting to fit into the senior picture now for the Petes, also.

* * * * * * *

Tut, Tut, And Bosh

Local lacrosse fans from 2,000 to 3,000 strong at most games here, will see how misleading the following stuff is the St. Kitts' scribe is feeding his readers. Says he: "We think that all too much slashing has been allowed in the senior series for the past two years and, unless it is curbed immediately, many serious injuries are certain to occur. In comparison to games in Peterborough, the Saturday fixture here was almost mild. Free-swinging fellows like Ashbee, Mason and Slater, go practically uncurbed and it is a wonder that visiting teams escape Miller Bowl with their lives, never name a victory. Rough-house tactics killed field lacrosse, Let's hope boxla doesn't go the same way." Isn't that awful bosh? Games here are usually quite clean but the "homers" in St. Catharines are noted for nasty cutting tactics, so tilts there are often rough. And there's no use trying to alibi those two losses A's suffered from the Petes last weekend. The better team won.

* * * * * * *

Cobourg Legion got a real scare in Riverside last evening ere yanking out a 3-0 ball victory over Liflocs in the Lakeshore League. The visiting intermediates were held to just three hits by Jim McGrath, but his junior mates were loose afield to present the Legionnaires with three unearned markers. Jerry Lawless also hurled three-hit ball,

Down Sports' Rialto

Scots took a 4-2 soccer win o'er Merchants last e'en . . . Picton plays UEW here Sat'day in an eastern soccer match . . . Local OLA juniors leave the Bowl at five Friday for Oakville . . . St. Kitts took Yorks last gloaming; standing is in elsewhere . . . Penalties sure hurt the shorthanded team in six-man lacrosse, eh? . . . Three goals counted here when Chuck Simpson sat out a tripping penalty . . . PMLA bantam tilts tonight, starting at 6.30: No. 2 team vs. No. 3, and No. 4 vs. No. 1 . . . Playing golf last Saturday in Kingston, Jack Hardill's drive carried through a thorn tree and a hefty spike was found imbedded in the ball after, a freak occurrence . . . Seabrooke and Bell Telephone took Civic Loop softball wins last eve; no more listed till July 15 . . . Norwood edged Woollens' 3-4 in fastball; Marines go to Curve Lake tonight . . . Men's Bowl melees this p.m.: Revoy's vs. UE, and Seabrooke's vs. TPT . . . Dodgers won in minor ball from Keene last twilight . . . Hard knocks won't hurt you unless you're doing the knocking.

Cobourg Takes A 3-0 Win From Liflocs

Six errors, two in the first and two in the fifth, spelled doom for the local Liflocs here last night as Cobourg shut them out 3-0.

In the first inning, Jimmy McGrath walked the first batter, Harnden. Turpin got on through an error, and after Beckstead flew out, McIvor hit solidly to drive in the winning run.

McGrath pitched a steady game allowing only three hits, but he just wasn't getting the backing. In the fifth, with one away, Turpin got on, and came home followed by Beckstead on two errors. There were no earned runs in the ball game.

Pammett walked in the second for the locals and Lingard singled to right field. None away with men on first and third — the pressure on — and Jerry Lawless calmly dusted off the next three batters to retire the side, no runs, one hit, no errors. Except for a walk to Pammett in the fourth and a hit by Foley in the sixth, there was no further activity for the Liflocs.

TWO FOR THREE

Foley hit two for three and Lingard tapped once on Lawless' three offers. Turpin, McIvor and Lawless hit Jimmy McGrath once.

Bigford and Frizzelle came in to pinch-hit in the last of the ninth and both knocked out long fly balls to left field for easy outs.

McIvor blew up in the fifth and threatened to start swinging (and not at the ball) but this little dispute was soon settled and McIvor stayed in the game. Spalding replaced Campbell at right field in the sixth and made the last two catches to end the game.

In the top of the seventh, Harnden hit a ball on a line drive for centre field, but Gary Kearns' glove got in the way and that glove was red hot. The ball stayed there, however.

Bell And Seabrooke's Take Civic Loop Frays

Seabrooke's beat Police 12-7 and Bell won 11-2 over Bill's in Civic Softball League games last night. Police got all their runs in the second frame, while Seabrooke's scored three each in the first and fifth, with six counting in the second.

Bill's were held to a run each in the first two innings of their tilt on eight hits, as they booted five. Bel Telephone tallied three in the initial inning, two next time to bat, one each in the third and fifth, with four in the sixth. They had but two errors and pounded out 14 safe blows. Teams:

Seabrooke: Montgomery, c; Conroy, 1b; Humphrey, p; Galley, 3b; Harris, ss; Harrison, 2b; Brennan, lf; Black, cf; Telford, rf.

Police: Crough, 2b; Healey, ss; Mohns, lf; Menzies, 1b; Gray, 3b; Wainman, p; Philips, cf; Rowe, c; Traynor, rf.

Bill's: Bradley, cf; Pagett, 2b; Smith, 1b; Evans, ss; Elliott, rf; Hewie, 3b; Staves, c; Brierly, p, lf; Peter, lf, p.

Bell: Gillespie, 1b; James, c; Guerin, cf; Smith, 3b; Ackford, lf; Tushingham, rf; Harrison, p; Brown, ss; Gordon, 2b; Bullied, 2b.

Umpires: Olmstead and Richardson.

HOGAN DRAWS THE GOLF GALLERY—The little Texan, Ben Hogan, continues to draw most of the golf fans as he makes his rounds in the British Open in Carnoustie, Scotland. However, yesterday Frank Stranahan, U.S.A., stole the thunder of favorites Hogan and Bobby Locke by posting a 70 with some sizzling golf, three strokes better than Ben and two over Locke, in the second round of the titular match. Par for the course is 72.

Cards Mow Down Cincinnati Reds In 7-3 Victory

By BEN PHLEGAR, Associated Press Sports Writer

Eddie Stanky, who says he'd rather manager from the bench, is back on second base and his St. Louis Cardinals are flying high. With their skipper on the field the Cards have won three straight and today are just half a game behind the second-place Milwaukee Braves in the red-hot National League pennant chase. Wilmer (Vinegar Bend) Mizell mowed down Cincinnati Redlegs on only two hits Wednesday night to give the Cardinals a 7-3 victory that pushed them a full game closer to the faltering Braves who were beaten by Chicago in another 7-3 contest.

It was a bad night for home teams in the National League. In addition to the Reds and the Braves, Pittsburgh Pirates and Philadelphia Phillies also lost.

Monte Irvin hit a grand-slam home run in the 11th inning to give the Giants a 10-7 triumph in Pittsburgh while at Philadelphia the Phillies dropped their fourth in a row 8-4 to Brooklyn.

HOMETOWN NIGHT

While the visitors celebrated in the senior circuit, it was hometown night in the American League. All home clubs won, even the hapless St. Louis Browns, who had lost 20 in a row in their own park.

The Browns upset Cleveland 6-3 and dumped the Tribe out of second place. Chicago replaced them by whipping Detroit 14-4. The White Sox trail the league-leading New York Yankees by six games.

The Yankees defeated Boston 4-2 and Washington survived a home-run barrage by Philadelphia Athletics to win 7-4.

Stanky, one of three managers who lists himself as an active player, was forced into the St. Louis lineup Sunday when Red Schoendienst, the League's leading hitter and No. 1 second baseman, was injured.

The Brooklyn victory marked the 22nd straight game in which the Dodgers have hit one or more home runs. They passed the old National League record in the first game of Tuesday's doubleheader at Pittsburgh and are only three games short of the major league mark. Carl Furillo and Gil Hodges were the distance clouters Wednesday night.

Yesterday's Stars

By THE ASSOCIATED PRESS

Batting: Monte Irvin, New York Giants, doubled and hit a grand-slam home run to drive in seven runs as the Giants defeated Pittsburgh 10-7.

Pitching: Wilmer Mizell, St. Louis Cardinals, allowed only two hits in winning his eighth game 7-3 over cincinnati.

5 JOCKEYS BARRED

CHICAGO (AP) — The Illinois racing board Wednesday ruled five jockeys and a jockey's agent off Illinois race tracks for life for participation in an alleged series of fixed races at Fairmount Park last month.

The jockeys were Bob Bennett, 19, Richard Ury, 18, Johnny Phillips; D. A. Bates, 21, and Hector Sanabria, 24. The jockey's agent involved was Joe LeBlanc.

Lowly Cubs Upset Buffalo 4-2

By THE CANADIAN PRESS

It was nice while it lasted. Buffalo Bisons had no sooner reached the top of the International League ladder, than they find themselves down a rung.

The Herd's 4-2 loss Wednesday night to the lowly Springfield Cubs, while Montreal split a pair with Syracuse, put the Rouals back in the spot they lost to Buffalo Tuesday night. The Royals won the first game from the Chiefs 6-0 but lost the second 4-3.

The victory for the Cubs snapped the team's losing streak at 14 games. Big Jim Pyecha was the winner, giving up four hits in seven innings before being removed for Don Elston.

ONLY 4 HITS

In the opener at Syracuse, Tom LaSorda held the Chiefs to only four hits. Al Hartley went the distance for Syracuse in the aftermath, giving up six safeties.

Late-inning rallies gave the Red Wings a double win over Ottawa Athletics. The Wings won the first game 2-1 and the second 5-4, with reliefer Jack Crimian getting credit for both. In each game second baseman Lou Ortiz drove in the winning run.

Baltimore stretched its string of consecutive victories to seven on Dick Starr's 4-0 shutout of Toronto before a home-town crowd. Starr limited the Maple Leafs to four hits.

Say Japanese Tennis Stars May Surprise

By DON MATHESON

VANCOUVER (CP)—Tennis experts—and the fans—are speculating freely about the outcome of the Japanese-American Davis Cup tennis matches opening here today.

Jim Macken, a Canadian tennis star, put the speculation into words.

"The Americans are strong but the condition and speed of the Japanese may bring some surprises," he said.

That sort of speculation about the American side, top-heavy favorites to sweep aside Japan and others in the early rounds and meet Australia in the cup final, is surprising in itself.

Macken, a Canadian Davis Cup player in 1948 who was named to the team last year but withdrew for business reasons, had just watched the Americans and Japanese work out side-by-side on the courts to be used today.

PRACTISE BIG GAME

The American team, — captain Tony Trabert, 23, Ham Richardson, 20, and Tom Brown, 30—were practising their "big game," rapping out booming services and returns.

"But they were missing their shots," said Macken. "Serves were going over a foot or into the net."

"If that happens in the singles they may have to slow down on the power . . . and then watch out."

The "big" game—powerful serves putting the opponent on the defensive, then a rush to the net to volley—is the top American tennis weapon.

On the next court, the Japanese side—captain Jiro Yamagashi, 41; Masanobu Kimura, 30; Atsushi Miyagi, 21, and Kosei Kamo, 21—kept their game under wraps.

Flashes of unexpected hidden power brought comment from a gallery of onlookers.

Powerful Trabert, ranked third in American tennis before his two-year stint in the U.S. Navy, meets the second-ranked Japanese singles player, Kamo, in the opening singles match.

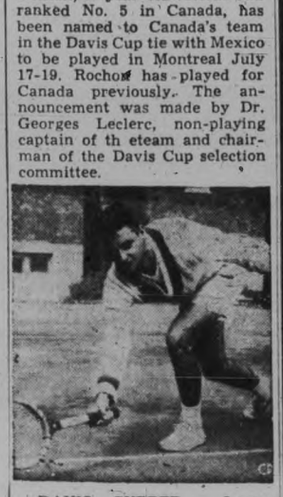
MEXICAN CUPPERS — These sturdy netmen will represent Mexico in the North American Zone Tie against Canada, July 17-19 at the Mount Royal Tennis Club, Montreal. Left to right are Mario Llamas, Francisco Contreras and Raefael Ortega.

Norwood Victors

Norwod edged out a 5-4 fastball win over Woollens here last night, counting three runs in the second inning and one each in the third and seventh. Woollens scored two in the fourth and one each in the next two heats of a fine fray. Cuthbertson fanned eight while Coughlin whiffed seven, and both sides fielded well. Teams:

Norwood — Cole lf, Althouse lf, Rusaw rf, R. Garden ss, W. Garden 1b, Payne 2b, Lockhead c, Wilford 3b, Fredericks cf, Cuthbertson p.

Woollens — Schell 2b, Wiechorek 3b, Nokes c, Hillier rf, Manbeck rf, McMillan lf, Crampton cf, Maudsley 1b, Drury ss, Coughlin p.



QUEBEC PLAYER — Robert Bedard, 21, of Sherbrooke, Que., No. 7 ranking player last season, has been named to Canada's team in the Davis Cup tie with Mexico to be played in Montreal. Bedard's play in reaching the doubles final in the Quebec provincial tournament earned him a place on the team.

NAMED TO TEAM — Paul Willey, 22, of Vancouver, No. 4 ranking player in Canada last season, has been named to Canada's team in the Davis Cup tie with Mexico to be played in Montreal July 17-19. Willey is a steady doubles player and, teamed with Lorne Main, displayed a fine service and good volleying in the Quebec provincial tournament.

TENNIS VETERAN — Henri Rochon, 29-year-old veteran and ranked No. 5 in Canada, has been named to Canada's team in the Davis Cup tie with Mexico to be played in Montreal July 17-19. Rochon has played for Canada previously. The announcement was made by Dr. Georges Leclerc, non-playing captain of th eteam and chairman of the Davis Cup selection committee.

DAVIS CUPPER — Lorne Main, 22, of Toronto and Vancouver has been named to Canada's team in the Davis Cup tie with Mexico to be played in Montreal July 17-19. Main was runner-up to Fred Kovaleski of Detroit in the recent Toronto Cricket club invitation tournament and swept the field in the Quebec provincial senior championships at Montreal. He has represented Canada in Davis Cup competition before and is No. 2 ranking tennis player in this country.

Bargain Colt Wins Trot

GOSHEN, N.Y. (AP)—Jamie, a $1,250 bargain-basement colt owned by Charles McKinley of Fort Wayne, Ind., won the $7,900 Historic-Dickerson trot Wednesday in a four-heat race supposed to be a big test for the Hambletonian here Aug. 12.

Jamie, however, wasn't nominated for the $100,000 Hambletonian by his owner, who also drives the three-year-old brown son of Darnley-Molley Spencer.

With 21 horses entered in the Historic-Dickerson — 18 of them Hambletonian eligibles—the race was started by two elimination heats, with the first five in each to come back in separate races for the decision. Each of the required four heats to determine a winner was a mile.

The first elimination went to D'Artagnan, from the S. A. Camp Farms, Shafter, Calif.

Jamie finished second in the second elimination heat taken by Elby Hanover, Saunders Mill, Toledo, O.

Jamie travelled in 2:05 3-5 for the second fastest of the year for a sophomore trotter in the third dash, but his final time was 2:13 with tired horses.

MACK DALE SWIFTEST

EXETER (CP) — Mac Dale, owned and driven by Cecil Stone of Petrolia captured honors in the free-for-a'l trot Wednesday on the Exeter Turf Club's harness racing program, winning the second heat in 2:10 1-5, fastest time of the meet. Mac Dale nosed out High Lee Baldwin.

3-Toed Creature Not Monster

NEW HAMBURG (CP) — The slimy three-toed creature that has been crawling the town's streets after dark isn't the monster it's cooked up to be.

That's what police chief George Thomas said Wednesday night. Reports of the animal's size have been "exaggerated."

"It's no monster and there's no cause for alarm," the chief said.

Chief Thomas says he has seen the animal several times and that it looked like a member of the reptile or lizard family. He said that he fired at it with his revolver Saturday night but doesn't know whether he hit it or not.

He said it is about 2½ to three feet long, about six inches in circumference with a long body and tail. He said the tracks are about "two inches in width and have three distinct claw marks."

The animal has the 2,200 residents of this southwestern Ontario town in a dither. The animal is believed to live in the Nith river and hides by day. It has left deep marks in the ground and its heavy tail has also left an imprint.

Par-Breaking Leaders

TORONTO (CP)—Here are the par-breaking leaders in Wednesday's first round of the 72-hole Canadian open golf championship. Par on the 6,607-yard course is 71:

Ted Kroll, U.S.	35-31—66
Tommy Bolt, U.S.	35-31—66
Gardner Dickenson, U.S.	34-32—66
Wally Ulrich, U.S.	35-32—67
Doug Ford, U.S.	35-32—67
Leo Biagetti, U.S.	34-33—67
Jerry Barber, U.S.	36-32—68
Max Evans, U.S.	36-32—68
Fred Haas, U.S.	37-31—68
Shelly Mayfield, U.S.	35-33—68
Fred Hawkins, U.S.	37-31—68
Mawhinney, Vanc'r	32-36—68
Harold Paddock, U.S.	35-33—68
Dave Douglas, U.S.	35-33—68

Bethany Lasses Win

BETHANY (ENS). — The Bethany Girls' Softball Club blanked the Bailieboro visitors for the first five innings of their game here on Tuesday night, while they piled up their own score with two in the first, 10 in the second, one in the third, and five in the fourth. They won 19-3

A sudden thunderstorm delayed the game in the fifth, sending everyone hustling for shelter. Twenty minutes later the game was resumed, when Bailieboro got two in the sixth, and one in the seventh. Bethany added one in the sixth.

Gail Bristow hurled good ball for the homesters. Chris Neals turned in her usual homer, with Fallis, Edwards, Martichenko, and Carr the other heavy sluggers.

For Bailieboro Syer and Kidd shared the mound.

The teams:

Bailieboro — Kidd lf, V. Syer p, Woods ss, I. Kidd 2b, Campbell 1b, Eagleson cf, Sinclair rf, Kidd 3b, M. Syer c.

Bethany — Bradley 2b, Carr c, Edwards ss, Neals 3b, Hudson 1b, Bigelow rf, Fallis cf, Bristow p, Martichenko lf.

Old Spearhead

KIPLING, Sask. (CP) — George Cross found an old spearhead on his son's farm nearby. Apparently hand-made from good steel, it is about 11 inches long and two inches wide at the broadest point.

Yorkshire Gets Over 300 Runs

LONDON (Reuters) — Yorkshire racked up more than 300 runs for only four wickets against Gloucestershire Wednesday, first day of the current county cricket championship program.

Derbyshire hammered Kent bowlers to the tune of 300 for three, despite more than an hour lost through rain.

Final scores in first class matches:

Derbyshire 300 for three vs Kent. Hampshire 92, Sussex 226.

Yorkshire 330 for four vs Gloucestershire.

Lancashire 202 for three vs Worcestershire (rain-restricted play).

Somerset 241 for eight vs Leicestershire.

Nottinghamshire 245, Northamptonshire 19 for one.

Warwickshire 257, Surrey 46 for two.

THE LARGEST 'LUNGE taken in the district this season was boated by D. E. Brenneman, right, of Orrville, Ohio, on Wednesday afternoon. Mr. Brenneman is staying at Sunnymede Cottages, a resort owned by Max Humphries, left, four miles west of Hastings on the Trent River. A companion in the boat with Mr. Brenneman, Roy Singer, also of Orrville, gaffed the fish after a battle which lasted about 45 minutes. The fish weighed 24 pounds, and was 45 inches long. It measured 18 inches in girth. Mr. Brenneman has been spending his vacation in the district each summer since 1944, and this is the ninth large muskie he has taken.

—(Photo by Reid of Campbellford).

Blood Donor Service Organized At Cobourg

COBOURG (ENS)—A free blood donor service for Cobourg and district is in the process of being organized under the general chairmanship of Dick Parker and under Dr. D. E. Mikel as chairman of the blood transfusion service.

Two factories have been canvassed and the employees checked for blood types and those willing to donate blood. A third factory is now being typed and others are to follow. Next will be service clubs and then will follow a general canvass.

Cobourg is one of the few towns so far to possess this service, it was pointed out by Mr. Parker. Each person will be furnished with a card to be carried at all times and, in an emergency, can be consulted to find out speedily the blood group for a transfusion.

There is no charge for blood and it is hoped to have an adequate blood bank built up. Nobody over 60 will be asked to donate blood but there is no age limit for those who can receive a blood transfusion.

The plan is being handled through the Cobourg General Hospital and the Red Cross.

Olympic Group Settles Down

MELBOURNE (AP)—The organizing committee for Melbourne's 1956 Olympic games now is getting down to work. For a month there has not been one argument.

This lack of argument has given a big boost to the morale of the Melbourne people who are confident the city will be able to honor its obligations to the international Olympic committee.

Engineers are surveying the Olympic park site for the Olympic swimming pool and the first excavation likely will start in a month.

Work has not yet started on the cycling velodrome at the same location but the layout has been approved

Plans also are well advanced for alterations to the Melbourne cricket ground which will be the main stadium. No structural alterations, however, will be made until after the Queen's visit at the end of February.

The site to house the olympic athletes remains indefinite.

Tax Stays On

DUBLIN (Reuters)—A move to wipe out a seven-cent-a-glass tax on whisky was defeated in the dail by a 71-65 vote. The proposal was put forward by an opposition member, Dr. T. F. O'Higgin, who said the tax imposed last year had produced a fall in consumption.

Here And There In Sports

BY THE CANADIAN PRESS

FT. ERIE POLICEMAN TOPS

HAMILTON (CP) — A Fort Erie policeman and an Ontario provincial police team Wednesday captured top individual and team honors in the Ontario police revolver shoot.

Sgt. Walter Leslie of Fort Erie scored an aggregate of 342 points to win the P.A.O. Trophy. He also was top marksman in the sharpshooter class to win the Marks Welding Trophy.

The OPP team of D. Darby, R. Dibbley and F. Petty scored 672 in the team shoot to nose out a Hamilton police team, Sgt. William Slack, Herb Connolly and V. Lesiecki.

Police officers from Toronto, York township, Weston, St. Catharines, Niagara Falls, Stratford, Kitchener, Welland and Forest Hill took part

The results:

Grand aggregate, W. Leslie, Fort Erie; Master class, 1. B. Hamnet, St. Catharines; 2, D. Darby, OPP; 3. W. Slack, Hamilton. Sharpshooter class, 1. W. Leslie; 2. R. Dibbley, OPP; 3. J. Wilkinson, Guelph. Expert class, 1. G. Reid, St. Thomas; 2. F. Petty, OPP, Guelph; 3 V. Jackson, Forest Hill. Tyro class, 1. C. Clavert, Kitchener; 2. Bob Cryderman, York township; 3. J. Harvey, RCMP, Hamilton. Time and rapid fire aggregate, 1. W. Leslie; 2. J. H. B. McDonald, Weston; 3. R. Dibbley, OPP.

✦ ✦ ✦

VANDUZEN OUT FRONT

TORONTO (CP)—Jack Mehlenbacher, Hagersville harness horseman who acts as a national Hockey League referee in his spare time, came up with an early favorite Wednesday for next Wednesday's final of the $3,000 Leaside Trot at Thornsliffe Raceway.

In the stake race's preview, run in two divisions with a $1,000 divided purse, Mehlenbacher drove his four - year - old black gelding Vanduzen to victory in each of two heats. The times were 2:11 and 2:11 1-5.

✦ ✦ ✦

TO DEFEND TITLE

LONDON, Ont. (CP)—A strong entry of United States golfers is expected here for the Canadian Ladies Open championship starting Aug. 10 at the London Hunt Club.

Tournament officials said Wednesday they include Edean Anderson of Helena, Mont., who defeated Mary Gay of Kitchener in last year's final at Edmonton.

Marlene Stewart of Fonthill, winner of the British amateur, will also play.

HIGH BRIDGE

The highest suspension bridge in the world is 1,053 feet above the Arkansas River in Colorado.

GRAFTON'S

THE LARGEST FISH he ever caught is proudly displayed by Ronald Rector, of Cleveland, a veteran of 16 fishing seasons. The 22 pound, 47 inches muskie, was landed Tuesday at Bryson's Bay on Clear Lake. Mr. Rector, who is staying at McCracken's Landing, is shown above with Mrs. Rector.—(Examiner Staff Photo).

Ice-Field Farce On Stage

Michael Sadlier of the Summer Theatre has announced that next week the comedy "Petticoat Fever", set in the ice-fields of Labrador, will be presented in place of "Separate Rooms".

The original production of this farce ran for two seasons on Broadway and starred as the isolated radio operator was Dennis King, and Leo G. Carroll play. ed the explorer who "drops in" for the week-end.

POPULAR FARCE

One summer theatre in Ontario has presented "Petticoat Fever" three seasons in a row. Last year at the Knowlton Summer Theatre in Quebec (the oldest summer theatre in Canada) the comedy set a twenty-year record when it broke previous attendance records.

"Petticoat Fever" is the story of an isolated radio operator stationed at Eskimo Point, Labrador. Besides the Eskimos, the only person the radio operator has seen in the last two years is the district missionary. Suddenly a lost explorer, and a number of other week-end guests "drop in", and this outpost of the north becomes a centre of gaiety and hilarity. Dinner parties are given, the first floor show in Labrador takes place, and two couples even plan to be married by the local missionary.

Harry Geldard, who scored so successfully as the brilliant Sir Robert Morton in "The Winslow Boy" plays Dascom Dinsmore the radio operator. David Powell plays Sir James Fenton, the lost explorer, and others in the cast are Barbara Cummings, Ronald Bailey, Charlotte Schrager and Michael Sadlier.

Say Drew Proposals Will Increase Taxes

WIARTON (CP). — Speaking on behalf of Donald Blue, Bruce County MP, Hon. Paul Martin told a Wiarton audience that if Mr. Drew's platform was examined, it would be found that after the first point, in which he promises to cut taxes, the other proposals would add one billion dollars to Canada's tax bill.

The health minister in the Liberal government claimed the government should be commended, not criticized, for having a surplus in each of the last four years' financing. "Is any head of a household considered a failure if he has money in the bank?" he asked.

Salvationist Dies

VANCOUVER (CP)—Major Margaret Anne Watson, 79, Salvation Army worker posted to the Caribbean with her husband in 1899, died here recently. The couple worked in the Canal Zone while the Panama canal was being built.

Have Appointment With Destiny PC Says

GODERICH (CP) — The Progressive Conservative party, with its "Canada first" policy and its determination to carry out Canada's international responsibilities, has "its appointment with destiny" John G. Diefenbaker said Wednesday night.

The PC member of Parliament speaking on a Western Ontario tour, said his party's goals are to "build a great Canada, build the population, develop our resources and give our farmers a market close at hand and readily accessible."

Woman 100 Insists On Going To Polls

OTTAWA (CP)—Mrs. Catherine McNamara of Ottawa has been voting ever since women got the franchise and she doesn't hold with people making excuses for neglecting their duty.

She celebrated her 100th birthday Wednesday and said despite her age she intends to go to the polls at the Aug. 10 elections.

Born in Buckingham, Ont., she has eight sons and daughters, the oldest in his 70s.

Popular Vote Higher Since Year 1900

OTTAWA (CP)—Here is the way the popular vote (including rejected ballots) in federal elections has increased since the turn of the century:

1900 — 952,496; 1904 — 1,030,186— 1911—1,307,528; 1917—1,833,329; x-1921 — 3,119,306; 1925 — 3,168,412; 1926 — 3,273,062; 1930 — 3,922,481; 1935 — 4,452,675; 1940 — 4,672,531; 1945—5,305,193; 1949—5,903,572.

x-first election with general women's franchise.

Drew's Promises Fail Stand Up—Pearson

IRON BRIDGE, Ont. (CP).. — External Affairs Minister Pearson finished campaigning in his home riding of Algoma Wednesday with an address in which he said promises made by George Drew, Progressive Conservative Leader, do not stand up under analysis.

Before he left Blind River for Ottawa by train, Mr. Pearson said that while promising to cut expenditures by $500,000,000 a year the Progressive Conservatives are also promising they will add more than $1,000,000,000 to government spending.

Knows No Reds In Government

WINNIPEG (CP)—Prime Minister St. Laurent said Wednesday that as far as he is aware, there are no Communists employed in the federal government service.

When reporters asked him for comment on the statement by George Drew, Progressive Conservative leader, that Communists were employed in the federal service, he said:

"If Mr. Drew knows of any Communists in the government, he should make it known to those who are in a position to do something about it.

"As far as I know, they don't exist."

Provincial Policemen Cpl. L. T. Keeler Dies

ENGLEHART (CP) — Corporal Lealand T. (Skip) Keeler, who has been with the provincial police for 22 years, died here today.

Corporal Keeler has been in charge of the Englehart highway patrol detachment for the past five years.

He is survived by his wife, two sons and one daughter.

New Voters

EDMONTON (CP)—Newcomers from Britain are eligible to vote in the federal election after one year of residence in Canada, it was explained here by J. H. Fulton, returning officer for Edmonton East.

2 Calgary-Based Companies Shifting To Israel's Oil Areas

CALGARY (CP)—Two Calgary-based oil companies are shifting their sights from Alberta's booming oil industry to possible oil-bearing areas in Israel.

Pontiac Petroleums Ltd. and New Continental Oil Co., were among seven Canadian, American and European oil companies recently granted concessions by the Israeli government on 2,000,000 acres of potential oil lands.

Pontiac has contracted to drill on a participating basis for New Continental on 800,000 acres in the Jordan valley, along the Dead Sea and the Sea of Galilee.

The companies now are moving overseas and expect to be in the field by August.

Oil is not a new story in Israel. For 100 years geologists have reported all factors favorable to the production of petroleum. Wars, politics and changing nationality have so far prevented one well being drilled to prove the geologists' theories.

BONANZA PRIZE

For the wildcatters, the prize would be a bonanza. The Israeli government is anxious for oil production to feed the huge Continental Oil Company refinery at Haifa. The refinery has been operating at only 15 per cent of capacity since Iraq cut off the pipeline from that country.

The government, to encourage production, has offered the wildcatters the full flow from wells brought in without restriction.

A spokesman for Pontiac says one good well in Israel, from which oil can be taken as fast as it flows, is worth a dozen or more wells in Texas or Canada where rigid conservation regulations hold down production.

WILL BE COSTLY

Moving equipment from Canada and the United States to Israel will be costly. However, the oil companies are gambling on those early geologists, one of whom wrote: "About 1,000 square miles of the country may be regarded as favorable for petroleum and gas and, of this, about 100 square miles is absolutely certain."

Pontiac will gamble with him. The company's first hole will be drilled within that 100-square mile area.

WEARING A SUMMERY DRESS and a wide-brimmed hat, Queen Elizabeth walks into London's Hyde Park for a coronation review of 63,000 ex-servicemen and women. With the Queen are her husband, the Duke of Edinburgh, left, and Field Marshal Earl Alexander, right, United Kingdom Defence Minister and former Governor-General of Canada. The officer second from left is not identified.

Economy Move

LONDON (AP)—In an economy move, the House of Commons merged the ministries of civil aviation and transport. Alan T. Lennox-Boyd, who has been minister of both departments since October, 1951, continues in the job.

Dump Explodes

MADRID (Reuters) — Eight members of the Spanish air force were killed and several injured, three severely, when an ammunition dump exploded at Puntiro, near Palma de Majorca in the Balearic islands. The explosion was believed to have been caused by the heatwave there.

Home Mission Board Speaker Officiates

SPRINGVILLE (ENS). — A speaker from the Home Mission Board of the United Church had charge of the service at Springville on Sunday morning.

He emphasized the opportunity to do the Lord's work and stressed the responsibility and stewardship required.

Messrs. Roger Hanbidge, Gordon Clifford, Raymond Kelk and Neal Whitfield sang a quartet.

Next Saturday, July 12, the Springville congregation will unite with the Fiarmount congregation at Fairmount church when the young adult group will have charge of the service.

Truck Kills Pair

MONTREAL (CP)—Lisa Barriy Werbowecky, 8, and her brother, Michael, nine months, were killed Wednesday night when a truck struck a group of children on a sidewalk at an east-end intersection. Another child, six-year-old Mary Gedeon, was reported in crifical condition in hospital. Police said two panel trucks collided at the intersection and Roland Perrier, the driver of one truck, lost control of the vehicle.

EP Ranch Has Returned Raising Commercial Cattle

PEKISKO, Alta. (CP)—The Duke of Windsor's EP ranch in the Alberta foothills, 65 miles southwest of Calgary, has gone back to commercial cattle raising.

For 31 years after the then Prince of Wales bought the 4,000-acre ranch in 1919, it was a purebred stock farm, producing Shorthorn cattle, Shorpshire horses and shire sheep, Clydesdale horses and thoroughbred running horses.

After the Duke visited the EP ranch in 1950 with the Duchess of Windsor, the property reverted to commercial cattle-raising, its functions before the Prince bought it from Frank Beddingfield.

For years the ranch was managed by Prof. W. L. Carlyle. After his resignation it was in charge of Pat Burns agencies and later Canadian Pacific Railway's land department.

When the Prince of Wales visited Canada in 1919, he asked to see something of every type of industry. It fell to Prof. Carlyle, manager of the adjoining Bar U ranch, to play host as the Bar U was considered a worthy example of large-scale, well-organized ranching.

A BEAUTIFUL SCENE

During a long walk, there was much talk of stock raising and ranch methods. It was Sept. 11 and a perfect fall day. The Prince and professor topped a high hill which commands a wonderful view of the present royal ranch.

"Well," said the Prince, "I have always considered Balmoral the prettiest spot on earth but I never hope to see anything better than this."

Further conversation led to the Prince's decision to buy the farm. Prof. Carlyle resigned from the Bar U to manage the EP.

The first few importations were purebred Shorthorns from the royal farm in Cornwall. Mr. Carlyle started sheep breeding with a Shropshire foundation. These animals from the Duke of Westminster's farms did not prove well adapted to the foothills and Hampshires were substituted. About 90 per cent of the Hampshire flocks in Alberta have been developed from EP stock.

The ranch proved a mecca for tourists. A large picnic ground was built.

In the spring of 1950 the Duke and Duchess of Windsor visited the property and it was decided to embark on a commercial cattle venture rather than stock it again with purebred livestock.

The ranch now is partly stocked with cattle of Hereford breeding. Some purebred sheep and swine are also being raised.

THE UNIVERSITY OF ALBERTA has announced 1953 honorary awards in three main cultural fields. The award in painting and allied arts went to Dr. Arthur Lismer (left), of the Montreal Museum of Fine Arts; in music to Dr. Wilfrid Pelletier (centre), of the Conservatoire de Musique et d'Art Dramatique of the Province of Quebec and of the Metropolitan Opera in New York; and in letters to Dr. Marius Barbeau (right), ethnologist of the National Museum of Canada.

85,000 U.K. Troops Dig In Along Canal

SUEZ CANAL ZONE (Reuters)—Some 85,000 British troops in the Suez canal zone are "digging in" for the summer.

In 25 major camps and a dozen sandswept desert outposts along the western bank of the canal, they are carrying out their commanders' order of the day: "To be on the alert."

Since the suspension of Anglo-Egyptian negotiations in Cairo, British positions in the canal zone have been brought to a state of preparedness never before attained in this area in peacetime.

The task of the British Army in the zone during the present emergency is fourfold:

1. To guard the canal zone camps, airports, buildings, installations and equipment, worth $1,400,000,000, against Egyptian guerrilla raids.

TO PROTECT LIVES

2. To protect British lives, including those of servicemen's families in the zone, against any outbreak of violence, such as occurred last year.

3. To maintain a close security watch on the headquarters of Britain's Middle East land and air forces, both of which are situated within the zone.

4. To patrol and control all communications in the area and keep them properly maintained.

The canal zone population which comes under the protection of British rifles is more than 125,000. Apart from 85,000 troops and airmen, there are 5,500 women and children, about 1,000 service women, 20,500 Egyptians employed in camps, and some 12,500 other civilian employees.

Outside the army camps, there are few "in bounds" towns and areas where soldiers and their families are allowed to go. Even then, all camp traffic into the towns is under armed escort.

Plastic Upholstery

The plastic industry again comes up with the answer to Mrs. Housewife's problem. The latest contribution is a new upholstery material which combines luxurious appearance with easy care and long wear.

The furniture covering is a supported plastic, having a strong fabric backing, exceptionally resistant to tearing at the seams. It carries a geometric pattern in seven attractive decorator colors. It can be quickly sponged, rinsed, and rubbed dry to its original finish.

Find Modern Lord Nelson Interested In Space Ships

ARMAGH, Northern Ireland (Reuters)—The sixth Earl Nelson, a descendant of Admiral Lord Nelson, spoke here about ships—but ships of a much different kind to those his famed ancestor sailed 150 years ago.

The present Lord Nelson's interest is space ships and trips to the planet Mars.

The earl said at Armagh University:

"It is only reasonable to assume that wherever in the universe conditions are favoring for its existence, life comes into being and begins to evolve.

"And there is no valid reason why it should not have started on Mars long before it began here, nor why it should not have reached a higher stage of development than anything we know."

Nelson said that even if life does not now exist on Mars, it could have done so in the past.

The rarefied Martian atmosphere would not be capable of supporting life as it is known here. Animal life might have developed along insect lines — brainy, efficient insects that might have "really constructed vast engineering works such as the Martian canals."

The next good look astronomers will be able to get at Mars will be in 1956, when the planet's eccentric orbit will bring it into a favorable position. Mars is the earth's closest planet neighbor, being 34,000,000 to 63,000,000 miles away, depending on the time of the year.

Drowns In Saugeen

WALKERTON (CP) — Nine-year-old Jim Joyce of London, Ont., was drowned in the Saugeen river Wednesday when a small punt overturned in the rain - swollen stream. He had been accompanied by Billy Robinson, 6, of Toronto.

Gambled $1.59 and Won Relief from Piles

"Gee! why don't he come out?"

A wrecked car. A crowd gathers, and a child pipes up. "Gee! Why don't he come out?"

Before the child can get her answer, chances are that some grown-up will first have to get the full story from a newspaper.

Then, for the first time, the child will learn that the dog refused to leave when his master was carried to the hospital, injured.

Being on the spot is not much better than seeing one or two photographs of the action, or seeing a headline about it, or hearing a brief announcement.

All of these can whet your appetite for news, but they cannot satisfy your hunger for the *whole* story.

That's what the newspaper is for — *news*. The whole story . . . fast.

• This goes for advertising, too. The brief message that hangs in the air . . . or brief headlines here or there . . . may indeed have a momentary interest.

But the newspaper ad carries the brass-tacks quality, the urgency of the newspaper itself.

Like a news item, the ad can be examined and re-examined. ***Can be read any time. Anywhere.*** Can be clipped and carried in a pocketbook.

And just as the newspaper speaks the special language of the town it mirrors, the ads themselves have the same important *local* quality.

Add to all this the fact that the newspaper reaches just about everybody in town, not just fractions of audiences, and you know why the newspaper is the nation's most effective advertising medium.

The newspaper is always "first with the most"

This message prepared by BUREAU OF ADVERTISING, and published in the interests of fuller understanding of newspapers by The Peterborough Examiner

Trade Battle Looms In Britain Between Butter And Margarine

By ARCH MacKENZIE
Canadian Press Staff Writer

LONDON (CP)—New types of margarine and margarine - name brands are to return to the British food scene early in 1954 for the first time since rationing was imposed 14 years ago.

The step toward decontrol, sought by margarine producers since 1949, is expected to draw the lines of a bitter margarine-butter battle long delayed in this country by rationing.

Armed with a lower price, plus new types claimed to be more palatable, margarine makers are confident that the British housewife will favor margarine over butter. Margarine sold here is colored.

Margarine manufacturers will probably be allowed to put out two kinds of branded product as a starter. One standard brand will continue to be subsidized and rationed, like butter. The other, a premium brand, will be sold at a higher price on the free market.

One of the things margarine men have feared is that housewives have become prejudiced against their product for life because of the uniform, old-style kind of margarine issued under rationing.

Also watched with interest currently is the amount of butter and margarine picked up. The butter ration has just been increased to four ounces a week, the same as margarine. At a cost of three shillings a pound compared with margarine's one shilling, fourpence, there may be a trend toward passing up the extra butter ration.

Britons in pre-war days ate more than 24 pounds of butter per capita compared with 8.7 pounds of margarine. In 1951, under rationing, per capita consumption of margarine was 18.3 pounds and butter 14.6 pounds.

The question of which side wins the trade battle extends a lot further than the corner grocery. Britain for years has been the main butter market for New Zealand, Australia and Denmark and has taken supplies from the Netherlands, Argentina and others.

For these countries, a margarine victory would mean a big trade wallop. New Zealand alone provided more than half the 274,000 tons of butter Britain imported last year. This country produces only five per cent of its own needs.

TRINIDAD OIL

Oil is the principal export of Trinidad, the most southerly of the West Indies islands.

Free Hospital For Human 'Guinea Pigs'

An exterior view of the 500-bed hospital which cost $64 million to build.

The U.S. government National Institute of Health, the last word in luxury, has opened in Bethesda, Md. The hospital will offer its services free, but just try to get in. Only requirement for admission is—you as a "volunteer" patient must have some particular form of disease which hospital staffers want to study. No expense has been spared to make this the homiest and most comfortable research hospital in the world. In addition to air-conditioning and hotel-like rooms, the "guinea pig" patients will have an entire floor for recreation, a chapel with a revolving altar for the three faiths and a huge gym. Hospital staffers will also have the best in equipment and research facilities.

Patients may have breakfast in bed in an air-conditioned room.

Bedroom is easily converted to a home-like sitting room.

Fraser Gerrie Named Editor

EDMONTON (CP)—W. A. MacDonald, publisher of the Edmonton Journal, announced Wednesday the appointment of Fraser M. Gerrie as editor. Mr. Gerrie, who will also continue as managing editor, succeeds J. Dixon Craig who died June 18.

Mr. Gerrie, a native of Toronto, joined the Journal as sports editor in 1913 and served as reporter, night editor, assistant city editor, city editor and news editor before becoming managing editor.

Mr. Gerrie served nearly four years in the First World War with the Princess Patricia's Canadian Light Infantry. His mother, now Mrs. M. D. McKee, lives in Preston, Ont.

He began his career on the Stratford Herald in 1908 and later worked on the Stratford Beacon and the London (Ont.) Advertiser. In 1911 he became editor of the weekly Yorkton (Sask.) Times. Later he worked for the Edmonton Bulletin before joining the Journal.

90 MPH Not Dangerous

BARRIE (CP)—Edward Levy of Weston Wednesday was acquitted on a charge of dangerous driving although he travelled at speeds estimated at 90 miles an hour for 27 miles along four-lane Toronto-Barrie highway May 8. Defence counsel G. A. Martin claimed the speed was not excessive under the conditions.

Bull's Attack Fatal

GODERICH (CP) — Robert F. McCabe, 69, well-known Colborne township farmer, died in Alexandra Hospital here Wednesday from injuries received when he was attacked by a bull in his stable.

Indigestion, Dizzy Spells

London Citizen Tells How Syntona Helped Him

Relieved Awful Gas and Stomach Pains, Appetite Improved, Free of Headache, Tired Feeling.

"I just want to tell you what good results I got by taking Syntona Herbal Compound for stomach disorders," said Mr. Ross Penrose, RR 1, Hyde Park, London, Ontario, in a recent statement.

Always Felt So Tired

"Because of my upset stomach condition I was feeling so miserable I couldn't eat my meals. And what little I did manage to eat gave me awful gas and cramps in my stomach. I would get sick, dizzy feelings and throbbing headache. My nerves became all on edge and pains set into my back, limbs and joints. Many nights I couldn't sleep.

Tried Many Things

"I had tried so many things in an effort to help my stomach that I was getting discouraged, bu when I read about Syntona helping other people I got some and it proved to be just what I needed. I am not bothered with any of those ailments now, food is digesting fine gas and cramps all cleared up and I have a wonderful appetite. Also the dizzy feelings and aches and pains are gone away and I sleep better.

"I will recommend his grand medicine to any one suffering as I did."

How It Acts

The reason why such good results are obtained by taking Syntona is because the organs of digestion are so closely related in their function that when one becomes upset it so often affects one or more of the others. Syntona works, not on one thing alone, but acts gently on stomach, kidneys, liver and bowels, improving their function, and soon you feel like yourself again.

Why not let this Pure Herbal Medicine help you, too? Syntona is sold and recommended in Peterborough by Elliott's Drug Store.

100 Bus Drivers Walk Out In Oshawa

OSHAWA (CP)—Oshawa's transit system was brought to a standstill Wednesday night when some 100 bus drivers walked off the job.

However, Dorland Windover, president of local 1255, Amalgamated Association of Street Electric Employees of America, said the walkout was not authorized by the union and the drivers have agreed to return to their jobs this morning.

While Mr. Windover declined to reveal the reason for the work-stoppage, he did say that a union-management dispute has been evident during the last two or three weeks.

He said the walkout had nothing to do with wages.

New R. C. Diocese

OTTAWA (CP)—Archbishop Ildebrando Antoniutti, apostolic delegate to Canada, announced today that Pope Pius has created a new Roman Catholic diocese of Yarmouth, N.S., and appointed Most Rev. Albert Lemenager of Moncton, N.B., its first bishop.

Lawyer Disbarred

TORONTO (CP) — The Law Society of Upper Canada Wednesday disbarred Walter B. Reid, Toronto lawyer, wanted by police on charges of stealing $33,000. Police said Reid has been missing since a warrant for his arrest was issued June 16.

SHE NEVER TALKS BACK—Nobody knows where she came from, but the men of the 45th Mobile Surgical Hospital in Munsan, Korea, are sure giving their mascot, Agnes, careful treatment. Lt.-Col. C. E. Hollingsworth, commanding officer of the 45th, is shown dusting the statue's big toe with great dignity. The wooden nude, carved 20 years ago by a Japanese artist, has been with the organization for two years.

J. W. Ridpath

LAKEFIELD (ENS) — Funeral service for James William Ridpath, who died suddenly at his home on Concession St. on Saturday, was held from the Hendren funeral home Tuesday afternoon. Clementi Lodge, No. 313, of which Mr. Ridpath was a member for over 50 years, and a past master, held their service on Monday evening at 8 o'clock.

Active pallbearers were all members of the Masonic Order and were E. H. Northey, J. R. Hull, John Leonard, Kenneth Morris and Theo Down. Honorary bearers were B. Q. Dench, O. A. Langley, QC, George Spence, Fred Crawford, William Stabler and T. C. Yonge.

The Rev. Horace Kaye of St. Andrew's Presbyterian Church conducted the service and burial was in Lakefield cemetery.

Ungava's Ore-Rich Vastness Still Remains Uncharted

By BERNARD DUFRESNE
Canadian Press Staff Writer

QUEBEC (CP) — So little is known of Ungava's ore-rich vastness that the latest geological map of the 330,000-square-mile area is still three-fourths blank. Lakes and streams in many places are not even traced out.

The map is included in a booklet on northern Quebec prepared for the Quebec department of mines by geologist J. E. Gilbert who writes: "Our knowledge (of the area and its potentialities) is very limited indeed."

Much has been written about Ungava, but little of it can give an accurate over-all picture of an area which represents more than half the total area of Quebec province, says the writer.

The booklet—27 pages of text and 56 photographs—is an attempt to correlate briefly the available information.

WORLD INTEREST

Development of huge iron ore deposits in its southeastern corner aroused world interest in Ungava. The Iron Ore Company of Canada next year will start to mine from open pits more than 400,000,000 tons of iron ore. A 360-mile railway to be completed this year will be used to ship the ore from Knob Lake to Sept Iles, on the St. Lawrence north shore.

Farther north, five other companies are exploring. They are Norancon Exploration Quebec; Great Mountain Iron Corp.; Fort Chimo Mines Ltd.; Quebec Labrador Development Co., Ltd.; and Fenimore Iron Mines Ltd. In addition, a group represented by American industrialist Cyrus S. Eaton is planning exploration on the west coast of Ungava Bay.

Prospectors looking for iron, manganese, sulphides or copper, lead, zinc and nickel, and a little gold and silver find the going rough.

They must skirt countless lakes of varying size and cross many swift-flowing streams which offer potential hydro-electric power sites. The water fall at Eaton Canyon, on Caniapiskau river, about 65 miles northeast of Knob Lake, has an estimated potential of 500,000 horse-power.

ESKIMOS AND INDIANS

The area's 2,500 Eskimos and 1,250 Indians hunt Caribou, fur-bearing animals, white partridge, ducks and Canada geese. There are about 250 fur traders, missionaries and government officials.

There is no agriculture except on the east coast of James Bay where good vegetable crops have been obtained and a few cows are raised on locally grown hay.

The terrain is mostly rocky or swampy. The northern third is tundra. The southern third is covered with sub-arctic forests of black and white spruce and grey pine.

In Ungava it's winter eight months of the year and summer the rest of the time. Temperatures are known to have dropped to 50 degrees below zero or more in some spots. Summer temperatures never rise above 75.

Fish, including grey and speckled trout, are plentiful almost everywhere. Black flies are active from June to November and "are particularly voracious."

SMALLEST PLANET

Mercury is the smallest of the planets, and the nearest to the sun.

29	30		

Your Pet *must* be in Top Condition in 20 Days . . . OR WE PAY FOR THE COMPLETE TREATMENT!

We want your pet to be in top condition when it finishes this 30 day treatment. If you have any doubts about its improved condition—even after 20 days—we will pay the entire cost of the Petavim treatment. We also offer you—free of charge—the full consultation services by mail of our distinguished Veterinarian. Just mail a description of your pet's condition to W. H. Edwards Products of Canada Ltd., Oakville, Ont., and mark your letter "Attention Veterinarian".

PETAVIM

VETERINARIAN FEEDING INSTRUCTIONS

Feed your pet Petavim according to weight —1 tablespoon for each 25 lbs. of body weight—see below.

COCKER SPANIEL — Approx. weight 22 lbs. DOSE: 1 tablespoonful daily.	CATS — Approx. weight 6 lbs. DOSE: ¾ teaspoonful daily.
BEAGLE — Approx. weight 30 lbs. DOSE: 1¼ tablespoonfuls daily.	BOXER — Approx. weight 60 lbs. DOSE: 2½ tablespoonfuls daily.
CHIHUAHUA — Approx. weight 3 lbs. DOSE: ½ teaspoonful daily.	GREAT DANE — Approx. weight 100 lbs. DOSE: 4 tablespoonfuls daily.

PUPPIES AND KITTENS
require larger quantities of Vitamins and Minerals to aid their growth. Check your pet's approximate weight above and double the dose.

PETS IN POOR CONDITION
To put your pet in top condition, look up approximate weight and double the dose.

CONSULT OUR VETERINARIAN BY MAIL (free of charge)
If you want Veterinarian help or advice on the condition of your pet, write and give details of your pet's condition to address given on the Veterinarian's Veterinarian.

PETS ARE LIKE PEOPLE WHEN IT COMES TO NUTRITION!

Unless you are an expert on feeding animals, you can seldom be *sure* your pet is getting *all* the essential vitamins and minerals it needs. And no human can *know* how your pet feels when his food *fails* to supply enough *food value*. But you can *see* what's happening to him! He loses pep and energy, sleeps a lot. His coat grows rough and patchy. Hair falls out. Appetite dwindles, and general health weakens. Your pet becomes nervous, excitable, ill-tempered.

It's Not "Will Petavim Work?" —Petavim *Must* Work!

PETAVIM is a *high potency dietary food supplement* for your pet. It combines 5 energy-charged Vitamins and 4 Minerals in a highly concentrated form. PETAVIM'S formula compares favorably with vitamin-mineral supplements for humans! Your pet needs only a small amount of PETAVIM with its regular diet for 20 days to win vigorous health. In fact, it's not a question of *will* PETAVIM work . . . PETAVIM *must* work in 20 days, or you pay nothing!

When You Check Off The 10th Day 10 ✓

Even in this short time, you will see a distinct improvement in your pet's condition. His coat gets smoother, shinier, and his eyes sparkle. Appetite becomes keener . . . and his energy increases.

Petavim's potent ingredients are building up your pet's stamina and strength—giving him the appearance of a champion. You're the owner of a happier, healthier pet that's full of pep and high spirits!

Read What Pet Owners and Kennel Operators say about Petavim!

Mr. T. N. Thatcher, Clarkson, Ont. writes:
"After taking PETAVIM along with their regular food for only 20 days, our four Scotties, aged 2 to 9 years, all showed marked improvement. Their coats took on a new gloss and their general condition greatly improved. I recommend PETAVIM heartily to other pet owners."

Mr. W. C. Brown, R.R. #1, Oakville, Ont., writes:
"When we started including PETAVIM in our 7 year old Collie's diet, he was in poor condition, no pep or appetite. His hair was falling out and he was very excitable. But within 7 days his appetite perked up and he seemed more peppy. After 14 days, his hair stopped falling out and his coat became sleek. By the 30th day, he was in good shape, eating, sleeping and acting much better."

Mr. Ronald Purdy, Schau Belein Kennels, Port Credit, Ont., writes:
"I gave PETAVIM to three Dobermans and a Daschund along with their regular food. I don't know whether PETAVIM can take all the credit, but after the 30th day treatment, the youngest Doberman won First Prize in the Puppy Group at the Sportsman's Show. The judge said his condition was excellent."

Mrs. Marjorie J. Snider, Deer Haven Kennels, Oakville, Ont., writes:
"We gave four dogs—a Belgian Shepherd, an English Springer, a Collie, and a Cross Breed—a regular dose of PETAVIM with their food. Within 21 days, all four dogs had better coats and were in excellent spirits. By the 30th day, they were enjoying unusually good health."

W. H. EDWARDS PRODUCTS OF CANADA LIMITED, OAKVILLE, ONTARIO

CAROL ANN DUTHIE, sweet sixteen, has added the Mexican water skiing championship to her fast growing honors. She had a perfect score of 1,500 points in slalom trick riding at Lake Tequesquitengo. The Canadian champion, a Toronto girl, also set a Mexican jump record of 34 feet.

2 U.S. Senators Propose Red China In On Truce

WASHINGTON (AP)—Two Republican senators sought today to gain time for more U.S. discussions with South Korean President Syngman Rhee by proposing that Red China be made a party to any Korean truce.

Senators William Knowland (Rep. Calif.) and H. Alexander Smith (Rep. N.J.) suggested that new efforts be made to bring the Peiping regime officially into any armistice signing. United Nations negotiations to date have been conducted with the North Koreans.

Knowland, who has supported Rhee's demands for prompt unification of Korea, told the Senate Wednesday that the Chinese Communists, while supplying men and guns to the North Koreans, would not guarantee any truce that was signed.

Backing up Knowland, Smith said in an interview he believes the raising of this issue will give the U.S. more time to continue discussions with Rhee, who thus far has balked at accepting Allied truce proposals.

PUT ON SPOT

"I think the Communists have put us on the spot by accepting the terms laid down in the letter to them from General Mark Clark, in which he indicated he would restrain the South Koreans if they did not accept the truce," Smith said.

"I think we must exert every effort to bring Rhee around to our way of thinking and I would like to see our government officially raise the issue of bringing the Chinese Communists officially into the armistice picture."

Smith, who heads a Senate foreign relations Far Eastern subcommittee, said he thinks an armistice signed for the Communists by the People's Republic of (North) Korea and the Chinese People's Volunteers "would be entirely ineffective."

Senator Bourke Hickenlooper (Rep. Iowa), a foreign relations committee member, said he agrees with Knowland and Smith that the Chinese People's Volunteers was a fiction to cover Red China's participation in the war.

"But it is a fiction that has been accepted in the previous truce negotiations and I don't see any way we now can force the Chinese Communists into joining in signing an armistice."

Bethany News

Mrs. Walter Rowan and Lauretta left on Tuesday to spend a month's vacation in Mexico.

Mr. and Mrs. James McKinnon and Evelyn are visiting relatives in Toronto and Ingersoll.

Mrs. Mary Ward is a patient in Peterborough Civic Hospital.

Miss Mattie Thompson has returned from Peterborough where she spent several days with Mr. and Mrs. Walter Thompson.

The Bethany Ladies' Lodge attended church services at Janetville on Sunday morning and at Millbrook on Sunday evening.

Mr. and Mrs. A. Fuller, Toronto, are visiting Mr. and Mrs. Leonard Driver this week.

Playing an exhibition game at the Marsh garden party on Monday evening the Bethany girls softball club won 18-3 from Millbrook.

FINED $10 AND COSTS

Alexander Williams, 53, of Lakefield, was fined $10 and $2.50 costs Wednesday when he pleaded guilty to a charge of being drunk.

Hold Norwood Sunday School Picnic At Riverside

NORWOOD (ENS).—The United Church Sunday school annual picnic was held at Riverside Park, Peterborough, Wednesday afternoon.

There were more than 90 present. In charge of the sports were Mrs. Clare Telford and Arnold Lobb.

A number of novelty prizes were awarded. Four families had five members present: Raymond Beggs, James Mullan, the Rev. H. Wright and Bernard Watkins. They drew for the prize for the largest family present and the winner was Mr. Wright who was presented with a basket.

Jackie Beggs won cookies as the youngest child present; Mrs. J. Hamblin, a flower pot, as the lady with the tiniest foot; Horace Brown, chocolates, as the man with the longest nose, and Mrs. Horace Brown, chocolates, as the one who brought the biggest car load.

SPORTS WINNERS

Unknown Premier

JAKARTA (AP) — Indonesian president Ahmed Soekarno picked a virtual unknown to form a government and end the republic's 35 day old crisis. His choice is 36-year - old Burhanuddin Harahap, parliament's Moslem party leader.

California Women Win Powder Puff Derby

LONG BEACH, Calif (AP)—A woman flier who "kept the throttle wide open all the way" is the winner of the seventh annual powder puff derby.

Nine-nine, Inc., licensed women pilots' organization and sponsor of the 2,678-mile transcontinental women's air race, said Wednesday Mrs. Frances S. Bera and her co-pilot, Mrs. Marcella Duke, both of Inglewood, Calif., won the handicap race. Each is 28.

They captured the $800 first prize on a handicap basis, averaging 122.3781 miles an hour in their 165-horsepower Stinson Voyager. Their elapsed handicap time was 21 hours and 53 minutes.

The race started Saturday at Lawrence, Mass.

MORE PEANUT BUTTER

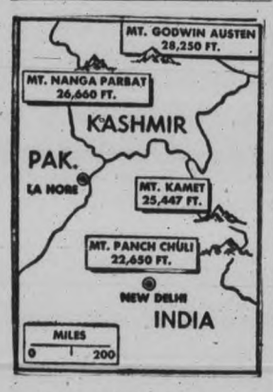
Frost Favors All-Canadian Gas Pipeline

TORONTO (CP)—Premier Frost said Wednesday he favors an all-Canadian natural gas pipeline to carry gas from Alberta's oil fields to Ontario.



The premier made public a brief his government has presented to the Alberta conservation board which is holding hearings on export of surplus natural gas from Alberta.

Stating that the pipeline project was comparable with the St. Lawrence seaway, Mr. Frost said there is nothing which would influence the development of Canada more than the natural development of oil and natural gas for Canadian markets.

NORTH OF SUPERIOR

The Alberta oil fields now had come to supply 40 to 50 per cent of Ontario's gasoline needs. Mr. Frost said he favors the route north of Lake Superior because the supply of natural gas would aid growth of power-hungry Northern Ontario. Sudbury, Sault Ste. Marie and possibly Steep Rock were potential markets as other existing centres.

Current estimates of the cost of the all-Canadian route are set at $315,000,000. The "in bond" route south of Lake Superior through the United States would cost about $20,000,000 less. Premier Frost said he saw the gas as a possible alternative to hydro power for many industries.

HIGH CONQUEST — This newsmap spots the community of towering mountain peaks in India where the newly-conquered Nanga Parbat peak stands 26,660 feet above sea level.

THIS IS NANGA PARBAT, 26,660-foot peak in the western Himalayas in Kashmir, whose top has been reached by Hermann Buhl, inset, rated as Austria's most daring mountain climber. Nanga Pargat, the "Naked Lady" of the Himalayas, is classed by the National Geographic Society of Washington as the seventh highest mountain in the world and has claimed the lives of 31 European climbers and porters—more than any other Himalaya peak. Buhl is a member of a German-Austrian climbing team.

ALTHOUGH "JUST AN ORDINARY DAY" was planned for the Pinkham quads, of Standish, Me., by their mother, the sudden appearance of a birthday cake gift made it a very special day for the young tots. Cake is not included in their diet, so Jane, Rebecca and William sampled the frosting, while Melissa tried the candle.

Queen Mother Enjoys Strange Hotel

UMTALI, Sou[illegible] Rhodesia (Reuters)—The Q[illegible]er and Princess Margaret Wednesday night moved into the isolated Leopard Rock Hotel perched on a 5,000-foot-high jungle cliff.

From their luxurious top-floor suite, the royal couple stared down into the gloomy depths of "Haunted Valley" of the Vumba mountain range. Africans swear the ghostly cries of villagers killed by an avalanche 400 years ago drift up nightly from the forested valley.

Today, the Queen Mother and Margaret are to have a day's rest at the half-way point of their 1,500-mile tour of this self-governing colony. They will stroll through the Witch's Cave, Gremlin Grotto and many other eerily-named places in this legend-steeped area of Africa.

LIKE FRENCH CHATEAU

The hotel, built mainly by Italian internees during the Second World War, resembles a French chateau. It sits in a sloping 300-acre site complete with golf course, swimming pool and magnificent mountain walks. The nearest community is Umtali, 23 miles away.

The Queen Mother Wednesday unveiled a life-size bronze statue of Umtali as a memorial to Kingsley Fairbridge, a South African who founded farm schools throughout the Commonwealth for British children. Fairbridge came to Umtali in the 1890s and lived here until he went to Ozford in 1908.

Plan Broadcast Of Wildlife Sounds

TORONTO (CP)—An hour-long broadcast of recorded wildlife sounds by the Canadian Broadcasting Corporation had its inspiration six years ago during a duck hunt on the Delta marsh at the southern end of Lake Manitoba. The program will be heard over the Trans-Canada network at 9 p.m. EDT, July 12.

Thom Benson of the CBC had a shotgun in his hand instead of a micropnone, but he thought the wide variety of bird sounds on the marsh would make good material for a live record.

When the CBC set up its new special events department last fall, he started laying the groundwork for the recordings at the Delta waterfowl research station, about 15 miles north of Portage La Prairie.

The first essential, Benson writes in the CBC Times, was to find equipment capable of catching and distinguishing between delicate bird songs, often at long distances. The engineers settled on a 40-inch bowl-like reflector, with a microphone mounted 10 inches from the centre and facing into the curved surface.

WORK UNDER HANDICAPS

The recording crew operated under troublesome natural handicaps. They found that the reflector, which picked up the trilling of a bird 100 yards away, also had a habit of capturing the croaks of a frog exercising his vocal chords, unnoticed in the same area.

"Sometimes we had to wait hours for the right conditions," Benson says. "Then, when the birds finally co-operated, we were as likely as not to find a dozen Harvards in the sky from a nearby training base. Airplanes flying anywhere within five miles completely ruined our chances of picking up bird calls."

Sometimes the birds got too close. One little yellow warbler, intrigued by the equipment, flew over and sat right on the microphone. From that range, his melody emerged as shrill, whistle-like blasts.

The birds, Benson found, had absolutely no respect for normal working hours. They were in best voice between 4 and 7 a.m.

FOR SUMMER LISTENING

Listeners to the CBC's Trans-Canada Matinue are getting their summer reading without opening a book. A new feature of the show is the serialized reading of a contemporary Canadian novel in 25 daily installments.

The book is "Home is the Stranger," a romance set in the midwest, by Edward McCourt, professor of English at the University of Saskatchewan. A West coast writer, Sally Creighton, prepared the serialization for reading by Oliver Henry of Vancouver.

The story concerns an Irish girl who marries a Canadian airman overseas, but finds life on his Prairie farm not to her liking. McCourt knows both his backgrounds well. He is an Irishman who came to Canada as a child, won a Rhodes scholarship and later taught at various Canadian schools and universities.

Killed By Truck

TORONTO (CP)—George Brunka 3, was killed Wednesday when a three-ton truck ran over him while he was playing near his home. Police said the child ran onto the street after a ball.

Main Street Topics

NEW MEMBERS

Wellington Sutton, John Leni and Jack Menary were inducted as new members into the Peterborough Kiwanis Club today at their weekly luncheon meeting at the Empress hotel.

GETS CNR POST

J. D. Hayes of Montreal has been appointed Toronto Terminals superintendent for the Canadian National Railways to succeed Austin Mahon, who has retired. Mr. Hayes, a native of Omemee, joined the railway in 1927 as a timekeeper at Hornepayne.

FIELD WORK TRAINING

Stan Cowan of Toronto, a student in the sanitary inspectors' training course at the Ryerson Institute of Technology under the direction of the Ontario Department of Health, has been assigned to the Peterborough Department of Health for the summer months to acquire practical experience in all phases of health work.

COLD WEATHER SPREE

A shopping spree is the result of the unusually cool weather which has pervaded the district today. Many tourists in the surrounding lake area have decided it would be much pleasanter to spend the day browsing through stores, rather than spending a chilling afternoon at the lake.

OFFER USE OF SCHOOL

A room in Confederation School will likely be offered to the congregation of Grace United Church for service on Sunday afternoon. If they wish it they can also have the room for one night a week. This recommendation from the supervision committee will be presented to the Board of Education tonight for approval. The committee decided it would be uneconomical to use Kenner Collegiate which was originally asked for. The congregation of St. Giles' Presbyterian Church use the same room in the basement of Confederation on Sunday mornings.

Union Proposes Food Council

A general food council—comprising trade unions that have food companies under contract—has been proposed by a Niagara Falls union.

Local 293, United Packinghouse Workers of America (CIO-CCL), have been asked to approve the idea. Among other things financial help would be offered to any member on strike. This is of particular interest to members of Local 293, Quaker Oats Co. production employees, who are now on strike.

The idea, as outlined by W. R. Townsend, president of Local 101, an AFL union that has a contract with Canadian Shredded Wheat, is for each member of the council to have two representatives on the food council. They would discuss mutual problems, exchange contracts, and keep each other informed of working conditions and wages throughout the industry.

Other unions that have been contacted have contracts with Kellogg's and General Foods.

Mayor Seeks Strike Settlement

Mayor Waddell Calls Meeting With Union, Quaker Management

Realizing that the strike of 435 Quaker Oats Co. production workers has reached a critical phase Mayor Hugh Waddell has called a meeting of union and management at 3 p.m. today to discuss the situation.

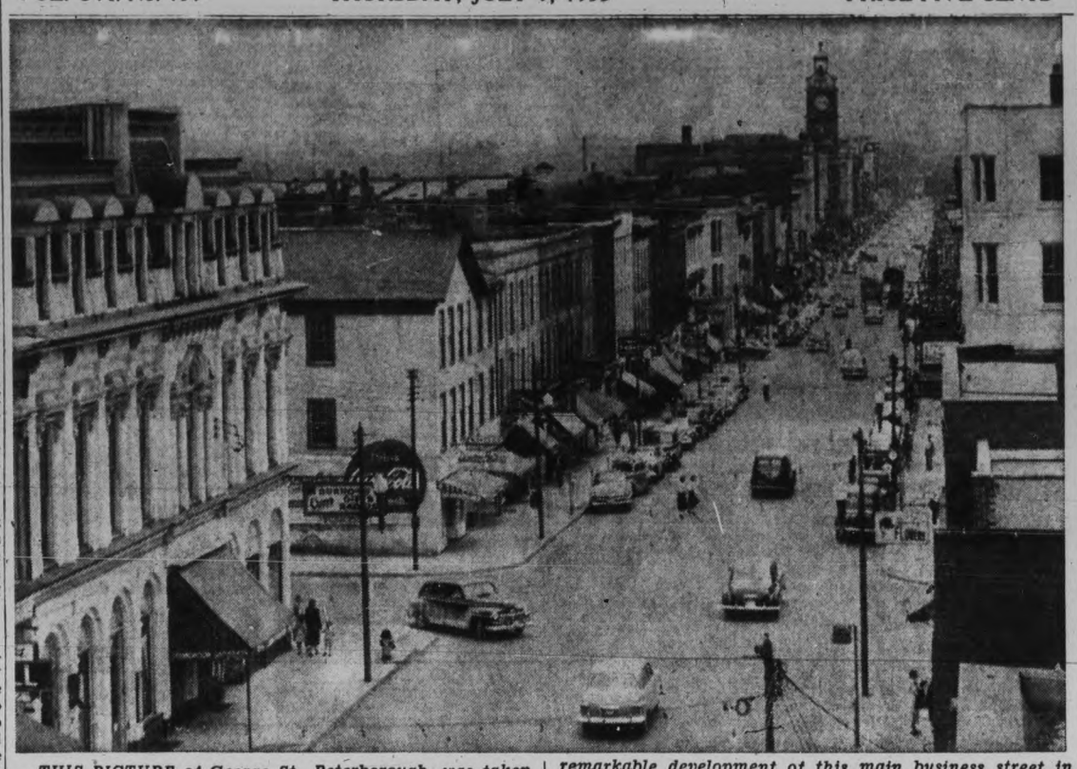
In a letter received early today by management and Local 293, United Packinghouse Workers of America (CIO-CCL), Mayor Waddell said that his reasons for calling the meeting are that the strike "is causing hardship to the citizens of this city and the well-being of the whole community."

"It is my sincere hope that both groups will come to this meeting, as I do, with the desire that some amicable solution might be reached to end this long strike," said Mayor Waddell.

TESTED PICKET LINES

The mediation attempt by Peterborough's mayor came shortly after management tested the picket line Tuesday by asking two trucking companies in the city to come through the picket line and pick up loads at the plant. The manager of one company drove down to the Simcoe St. picket post in his passenger car and asked if he could go through. The pickets said "No" and he drove away. A transport truck from another company was stopped by the pickets and the driver was persuaded to turn around and not enter the Quaker Oats yard.

There was no indication whether or not management would try again to get trucks through the picket line. If they do try — and the strikers resist—violence could easily break out, the first since the strike began on April 22. Management would then probably ask for police protection and the situation would have taken an ugly turn.



Mayor Waddell wants to head off any trouble like this, and that is why he is calling the meeting today.

Representing Local 293 at the mayor's meeting will be William Triggs, president, and Herb Hennessey, executive member. The international union will be represented by William Beggs, UPWA Eastern Ontario representative, and Peterborough alderman. For management: Reginald R. Faryon, president; James G. Wharry, general manager; Lewis H. Ingram, vice-president in charge of personnel; and Fred G. Ash, general operating manager.

Rambling Reporter

RED FACES

Co-workers of a young policeman gleefully relate how the wilds of Jackson Park carry the marks of two vehicles; a Ford product and a tow truck. Although the manner in which the car became mired is a matter of conjecture, rumor has it the incident occurred very early one morning this week, and that two, not just one, had red faces by the time the car was rescued.—T. C.

THIS PICTURE of George St., Peterborough, was taken by Examiner photographer Nick Nickels and shows the remarkable development of this main business street in recent years. Stretching from Brock St. to King St. the picture shows a morning business crowd.

$50,000 Soft Drink Plant To Supply Central Area

A new $50,000.00 plant is nearing completion on Mervin St. which will produce ginger ale for the surrounding districts. Gordon J. Bongard has taken over the franchise of Canada Dry from the Toronto producers and the Peterborough, Port Hope, Haliburton district will no longer depend on the Toronto plant for ginger ale.

More than $20,000.00 worth of machinery is being installed and it is expected the plant will begin operations next week, probably Wednesday. A 2,000 gallon water-purifying tank will turn out three runs a day and 25,000 cases of beverage will be in stock at all times, enough to supply the district for two weeks.

HAVE FIVE TRUCKS

In the summer months, four trucks will operate from this plant and one from a warehouse in the Haliburton area, but in the winter the fifth truck will also be supplied here.

Along with the five drivers and five helpers now employed, three men will be required to run the machines, two in the warehouse and a secretary. Brian Bongard will act as plant supervisor.

The building itself, is 130 feet long by 60 feet wide and has an estimated floor space of 8,000 sq. ft. It is of cement block construction with an arena-type, steel and wooden roof. The machinery includes the 2,000 gallon tank, filters, carbonator washing apparatus and bottler. The cost of the complete plant is estimated at more than $50,000.00.

Mr. Bongard hopes that in the near future this plant will supply the Oshawa district as well and if so at least two more trucks and their personnel will be required.

Attempt To Pilot Cadet Ship Frustrated, Bruin May Increase Agony Of Hangovers

COBOURG (ENS) — A stuffed black bear, used by a local sportsman's shop for advertising purposes, was taken Wednesday night from its habitual spot in front of the store.

Making their rounds at two a.m. today, police noticed that the stuffed bear was missing. An investigation led them to a Sea Cadet training ship in the harbor. There they found the bear with the Skipper's cap on its head, standing behind the wheel in the wheelhouse.

Could it mean that the Old Man has been cross as a bear lately?

At present the bear is in the police station and Chief Harold Pearse was pondering this morning on the wisdom of borrowing the bear. A wicked looking thing with bared teeth, and parking it in one of the cells into which the drunks are placed.

The Chief figures he could give the "cure" to a few of the local inebriates in this manner.

Step-Dancer Fined

LINDSAY (ENS)—A Lindsay man who police officers stated did a step dance in the middle of the street whenever he was carrying a real load, was sentenced to $100 fine and $2.50 costs or two months in jail Wednesday when he pleaded guilty to a charge of intoxication, a second offence. Constable Percy Mark told Magistrate Baxter that the accused, John Pillen had given the Department a good deal of trouble. Magistrate Baxter reviewed the accused's record then imposed the fine, commenting "I suppose he has no money anyway."

Price Of Bread Up One Cent

Bakeries in Peterborough today attributed the one cent jump in price of bread to the steady increase of freight rates during the past year and to the high cost of flour. Sliced bread now sells at 19 cents and unsliced at 18 cents.

Prices went up in Peterborough Wednesday and in other larger cities in Ontario on Monday.

This is the first raise in a year-and-a-half, they said. Housewives, however, can get a break in a cheaper type of bread for 14 cents in some of the smaller grocery stores and the larger chain stores.

Frankford Woman Seriously Hurt

STIRLING (ENS) — Twenty-year-old Mrs. Paul Spurell of Frankford is in serious condition in Belleville General Hospital as a result of a collision between a car and a truck on Highway 2, two miles east of Belleville, about 7:00 a.m. today.

Three other occupants of the car, who were all on their way to New York city for a holiday, were shaken up and bruised. They are Paul Spurell and Mr. and Mrs. Joel Redden, all of Frankford, 11 miles west of Belleville.

The driver of the truck, George Gow, of RR 2, Belleville, was not injured. Mrs. Spurell suffered severe face and scalp lacerations.

Police said Mr. Spurell, driver of the car, was driving behind the truck and went to pass it when the truck started to make a left-hand turn and the two vehicles collided. The car was demolished.

OPP Constable Fears, who investigated, said no charges had been laid as yet.

9,000 Orangemen Expected In Cobourg Walk

COBOURG (ENS). — Nine thousand Orangemen are expected here on Saturday for the district walk, with 80 lodges present from the counties of Haliburton, Victoria, Peterborough, Ontario, Northumberland and Durham.

Marshal of the parade will be Ed. Jenkins of Cobourg, and a big white horse is being groomed for the event.

The parade will be kept clear of University Avenue in order that highway traffic can be detoured north of King Street, which normally is Highway 2.

The parade will form up at Victoria Park and proceed along Albert Street to Ontario, north on Ontario and eastward along King Street and will return to the park via Henry Street and along Queen Street.

The parade judges will be in the town hall balcony and the winning lodges will be announced in the afternoon from the bandshell. The town has been decorated for the occasion with Union Jacks, and the line of march is overhung with strings of pennants.

At the bandshell the speakers will be E. A. Reid, Peterborough, Past Grand Master; the Hon. John T. Foote, VC; the Hon. W. A. Goodfellow, and Dr. Fred G. Robertson, MP.

The parade will move off at 1:45 p.m.

Find Element Of Negligence Although Shooting In Farm Yard Is Accidental

Jury Requests Officers To Make Test On Site Where Shooting Occurred Adjourns Until Results Made Known

(By STAFF REPORTER)

MILLBROOK—After deliberating almost four hours, a five-man jury brought in a verdict of accidental death late Wednesday afternoon into the fatal shooting of William John Smith, Manvers township youth, on June 8. At the same time the inquest jury found an "element of negligence indicated by the action of Teddy Zralko, 18, in firing towards neighbors' farm buildings." Immediately following the announcement of the verdict, Crown Attorney Harry Deyman of Cobourg told reporters that "the Crown will now consider what, if any, future steps will be taken" as to the negligence clause in the verdict.

"A decision will probably be made within 10 days," he said.

About 3:30 p.m. Mr. Deyman concluded the Crown's evidence when he presented A. F. Rodgers, mathematician - scientist attached to the RCMP laboratory at Ottawa. Deyman then instructed the jury in their duties.

TRY EXPERIMENT

After the jury had been out 15 minutes they asked the Crown to conduct an experiment as to discover the result of a shot fired from the position Zralko had said he had taken when firing at a starling in the Zralko farmyard.

Coroner Dr. J. W. Wright of Millbrook, C.I.B. Inspector Louis Needham, RCMP Sgt. W. Sutherland of Ottawa, Mr. Rodgers, Mr. Deyman and young Zralko returned to the Zralko and Smith farms, six miles west of Millbrook.

There they erected a quarter-inch, seven by four-foot sheet of plywood where the hay rack young Smith had been repairing had stood on June 8. The sheet was placed lengthwise on a set of steps, two feet, four inches high.

Taking the same position which he said he took when shooting at a starling on a fence post June 18, Zralko took three shots with his 22 calibre rifle. He was aiming at a slip of white paper, placed on the post.

Inspector Needham said Zralko missed the paper and post the three times. At the same time on the Smith farm RCMP Sgt. Sutherland watched to see if any shots hit the plywood sheet. None hit it.

Sgt. Sutherland, who is in charge of the RCMP ballistic department and is also an expert rifle shot, went to the Zralko farm and Inspector Needham viewed the firing from the Smith farm near the plywood sheet.

Sgt. Sutherland first shot at the white slip of paper, then replaced it with a small piece of cardboard. His shots, the fourth to the 11th in the experiment, missed the paper. For the last four shots Sutherland adjusted the sight on the rifle and hit the cardboard four times.

Meanwhile Inspector Needham kept track of Sutherland's shots. Sutherland's first shot, actually the fourth in the experiment, struck the ground 12 feet away from the plywood. The others (5) went in front of the board (6) passed through steps (7) in front of board (8) into nearby lumber pile (9) in mound west of plywood (10) hit plywood bottom edge (11) hit steps (12) fell in ground in front of mound to west and the last three shots, hit the plywood sheet.

The jury, after hearing of the experiment about 6 p.m., went out for a second time about 6:45 p.m. returning a half-hour later with their decision.

Immediately upon hearing the verdict, Mr. and Mrs. Zralko, who are of Polish origin, both began to weep.

First called in the afternoon was OPP Constable Bill Baluk of Cobourg who had taken location pictures of both farms.

OPP Constable Lyle Erskine of Cobourg, said he found Smith lying "face up" and "fully extended on the ground". Near his right hand was a hammer and nearby an axe. Const. Erskine also said a nail, which Smith was believed to be hammering into the wagon, was discovered five feet six inches above the ground.

Const. Erskine pointed out that there were three cross-bars and two uprights on the front of the wagon. The top of the bottom bar was four feet from the ground

$7,500 Investment Becomes Large City Subdivision

Hilltop, Once Farm Of Senator George A. Cox

In selling Hilltop Farm to the Westbrook Company for the housing subdivision that was reported in the Examiner Wednesday, Hugh Stewart has no intention "and no desire" to leave Peterborough county.

"As a matter of fact I am hoping to close the purchase of a place in North Monaghan before the week is out," Mr. Stewart informed the Examiner today.

"We are leaving Hilltop Farm with a great deal of regret because it was our home here, and I think from our experience there that it is one of the finest residential properties in the city and its suburbs.

Mr. Stewart recalled, at the Examiner's request, the circumstances of his buying the property from the Toronto Savings and Loan Company.

"I brought some heavy draft horses from Montreal to show at the Peterborough Exhibition in 1938. It had been in my mind for some time that I would like to buy some place in Ontario, and I had looked pretty thoroughly along No. 2 Highway from Toronto right down to the Quebec border.

"Somebody happened to mention this place as being idle when I was here at the Exhibition. I didn't do anything about it right away, but I began thinking of it when I got back in Montreal, and I knew I wouldn't be satisfied in my mind until I had seen it. So my brother Jack came along with me. We heard they wanted $12,000 for it.

"When we arrived at Hilltop and got our first look at it, my brother said to me: 'If you don't buy this place quick, I will, and quick too.'

PAID $7,500 FOR IT

"From that day to this we never had any regret about the property, except that the city began moving toward us. I offered the company $7,500 for the farm, house, barn and 100 acres, and they accepted it.

"I spent $7,300 renovating it, and we moved up here in 1939. Frankly, it was the size of the barn that chiefly interested me. I have always been interested in horses, and I know I always will be. I needed plenty of barn space, and there it was.

"By the way, if I get this other farm in North Monaghan, I'd like to fix it up along the lines of the breeding farms you see in Kentucky, white fences, white barns, a nice attractive place where I can start all over again in the breeding of horses.".

Mr. Stewart recalled that the approach to Hilltop, when he first saw it, was out Weller St. and through a gate and long lane.

"I don't think it was just as accessible as it might have been, or someone would have picked it up before I heard about it. I hardly had the deed of it until a man wanted a piece of the east side, where the Hillcrest section is now. He offered me $1,500 for it for a small farm for a few Jersey cattle. My answer was that I already liked the place so much that $15,000 wouldn't buy that piece of it."

CITY BOUGHT 40 ACRES

"When the city bought the 40 acres for Civic Hospital I could see it wouldn't be long until people would be building all around us, and that the place couldn't be a farm much longer. Then in 1949 I had the farm surveyed and laid out in city lots. The late John Pierce agreed with me that I might as well recognize the trend of the growth of the city.

"So I sold the Hillcrest block to Cherney's, and another piece to Walter Mortlock. It didn't take me long to realize that I knew mighty little about the realty business, and that in groping along I was just holding up the development of Peterborough.

"What I do know is the breeding of horses, their raising and care and marketing. I felt relieved when the Westbrook Company became interested in Hilltop. My relations with them have been very pleasant, and I feel sure the public will find them fine people to deal with.

"I might say that my brother Jack, on No. 7 Highway, feels about his place, the way I felt about Hilltop, that he has one of the nicest farms in the country. They are right here around Peterborough with all the variety of landscape that we have."

SOLD FACTORY SITE

Mr. Stewart said he wasn't looking for a property deal when he became interested in the land he recently sold to H. B. McGinnis for the site of his new factory.

"I just needed some extra pasture. Ernest Redmond had bought that place on the south side of No. 7 and east of the CNR to Belleville. It was sold for $350 for taxes. He told me he'd like to sell it to me some time. He was away for some years, and when he did come back the first thing he did was to offer it to me. I paid him $8,500. But, in spite of these deals I'm not in the realty business.

"I am supposed to be off the farm before the end of this month, but John Bowes has been very friendly about it. Anyway I expect to close the deal for this other farm before the week is over."

Mr Stewart says of his Peterborough experience: "It was just sheer luck that I happened to come here to the Exhibition in the first place, and that is the way it has been since. I liked the people I met here, and I was uneasy until I got back to see the old farm of Senator George A. Cox. The family has grown up here, and they like Peterborough just as much as I do.

"We developed our own business here, and it has become a landmark, known far and wide. That is a simple fact. I had a call this morning, for example, from a woman at Brockville, a millionairess, who telephoned for a saddle horse. That is the third she bought from us this year. That was from a distance. Yesterday an Apsley farmer called me to send him a work horse. He had bought one, but it was no use to him, and could I send him one right away. We are known down into the States and east and west in Canada. That's what Hilltop Farm means to us. But, the country is growing, farm land is being built on in every direction, and nothing stands still."

FALSE ALARM

Police were despatched to the Bank of Commerce shortly after nine this morning in answer to a frantic buzzing from the alarm box. The cause was found to be a foot-loose teller.

Canada Finds New Market With Mexico

TORONTO — A new Latin American export market is being developed for Canadian aircraft, it was reported Wednesday.

Two representatives of the de Havilland Aircraft of Canada Ltd., just back from a one-month flying tour of Mexico, said several government and civil agencies in that country are now exploring the possibilities of purchasing Toronto-made de Havilland Beaver light transports.

Bob Wilson, who made the trip with Test Pilot Doug Givens, said the Beaver had been valuated by pilots of the Mexican air force and navy and of commercial airlines.

On July 1, the 25th anniversary of civil aviation in Mexico was observed with an air display at the Mexico City airport. The visiting Beaver was the only aircraft permitted to go aloft. Other aircraft were exhibited on the ground.

"They were amazed," Wilson said. "The Mexico airport is 7,500 feet above sea level, so it's quite a trick to make short takeoffs. Usually, even the smallest aircraft seem to lumber along for miles before they can get into the air. Our Beaver was off in such a hurry it made their eyes pop out."

Wilson and Givens visited all the Mexican provinces and demonstrated their Beaver to the operators of coffee plantations and tin mines as well as to airline officials and potential private owners.

Blinded By Clothespin

TORONTO (CP) — A decision handed down Wednesday by Mr. Justice H. Wells at Osgoode Hall awarded an Ottawa woman $6,689 after she was blinded in one eye when a plastic clothespin split in her face while she was handing clothes. The action was brought by Mrs. Henritte - Marie Buckley against Lever Brothers.

Drowns In Lake Erie

PORT COLBORNE (CP)—Donald C. Chisholm, 23, was drowned Wednesday when he fell from a surfboard towed by a motorboat off Nickel Beach on Lake Erie.

FALL TRAVEL DRESS — A fashion preview for fall is this grey worsted flannel dress. The close-fitting lines bell out below the knees with graduated tones of grey, outlined with braid, marking the importance of this new skirt line. The bodice is sharpened by a Breton collar that stands away from the throat. It was designed (by Star Dress) for fall travel.

COCKTAIL DRESS—An afternoon or cocktail dress in pure wool is given an intriguing three-dimensional effect by the use of tiny multi-coloured nubs against a static background of jet black. The designer (Lawrence Sperber) has fashioned a shoulder-width cocktail neckline, outlined with a self-fabric fringe.

GENTLEMEN'S GENTLEMEN—When hail and rain turned Victoria Park race track into a quagmire, the jockey's valets were forced to give the riders a lift, as well as carry their tack, past the deep water. The storm happened on the opening day of the race meeting.

Comet II To Fly In August; Six More Are Being Built

By FRASER WIGHTON

HATFIELD, England (Reuters) —Britain's latest challenger for the world's airline business, the Comet II, will soon be rolling off the production lines here.

The new jetliner is faster than her 490-mile-an-hour predecessor, Comet I, now in regular service on international air routes. She is also slightly bigger and can travel farther without refuelling.

First of a fleet ordered by British Overseas Airways Corporation, the aircraft is expected to fly in August. Six more are in an advanced stage of construction at the De Havilland plant here. Production lines have also been laid down at Belfast, Northern Ireland, and Chester, England.

Extensive trials have been carried out on a prototype of the Comet II, which is powered by four Rolls-Royce Avon turbines. A British Canberra bomber powered by two similar engines recently crossed the Atlantic in three hours, 25 minutes.

STILL FASTER PLANE

Taking shape alongside the Comet II is the prototype of a still faster and much bigger transport, the Comet III, which has won Britain her first U.S. order for jet airliners.

Three of these 58-to-86-seat aircraft have been commissioned by Pan American Airways, which has an option for more.

Britain has a monopoly so far as maker of jet transport types in regular service on international routes. Apart from about 50 Comets either built or under construction, there are orders for 80 propeller-jet Vivkers Viscounts, 47-seat planes which fly at over 300 miles an hour.

Comets are covering 100,000 miles a week on BOAC routes, to Pakistan, India, Ceylon, South Africa, Burma, Singapore and Japan. They are being operated also by Union Aeromaritime de Transport de France, Air France, and the RCAF.

Customers for the Comet II include Panair do Brazil, Commonwealth Pacific Airlines, the Japan Airline, Canadian Pacific Airlines, Venezuelan Air Lines and other operators.

95-SEAT PLANE

The Bristol Airplane Company now is completing the first production model of its 95-seat propeller-jet Britannia, which will be capable of flying the Atlantic from London to New York at 360 to 380 miles an hour.

Three further big jetliners are in prospect. One is the huge Avro "Atlantic," a pure-jet transport based on the Avro delta wing bomber, which is already flying. This is expected to have a cruising speed of between 550 and 600 miles an hour.

The others are the proposed Vickers V. C. 7 jetliner and De Havilland's expected successor to Comet III.

Secret Service Remains Silent

LONDON (AP) — The British Secret Service remained silent today over statements by a former German officer that it had been completely hoodwinked for 20 months in the Second World War by the German counter espionage service in Holland.

The story of spy-beats-spy was told by a former German lieutenant-colonel, 57-year-old H. J. Giskes, who said in a book, "London Calling North Pole," that for 20 months in 1942-43 the Germans virtually controlled the British and Dutch spy system.

The Germans obtained control of a Dutch underground radio transmitter and sent many faked messages to London, Giskes wrote. Replies they received gave them advance notice of underground volunteers being landed in Holland by parachute, and of 52 caught 47 were executed, he said.

The book caused a stir when it was published here last January and there was agitation in Parliament for a British version of the events described by Giskes, who now is a business man in Hamburg.

"But we ran up against a stone wall," said Arthur Lewis, Labor member of Parliament who demanded a public airing of the affair.

Written Constitution For Brunei Subjects

By ANNE KERR

BRUNEI, Borneo (Reuters)—Many of the 45,000 subjects of His Highness Omar Ali Saifuddin, sultan of Brunei and the last remaining absolute Malay monarch, learned with polite surprise recently that he intends to grant the state its first written constitution and introduce considerable reforms in its system of government.

The sultan, the 26th of his line, announced at a meeting of the state council May 12:

1. His intention to grant the state its first written constitution.
2. The broadening of the people's representation on the present semi hereditary state council.
3. The setting up of new district councils at four points in the state to advise the newly - constituted state central council.

News of the proposed reforms, unsought by the majority of his subjects came as a surprise for several reasons.

There is a fiscal surplus of over $23,000,000, due mainly to the Seria oilfield, which, with a daily yield of 103,000 barrels, is the largest single producing unit in the Commonwealth.

Unemployment and poverty are virtually unknown, because of a labor shortage in the oilfields and government projects to build badly needed roads, schools and hospitals.

LITTLE SERIOUS CRIME

There is little serious crime. Labor unrest is rare.

The indigenous Malays traditionally placid, see little need to take a share in government.

The Chinese, the largest alien section of the population, are traders and shopkeepers in the oilfield area and usually keep aloof from local affairs.

Brunei state has been under British protection since 1888, and relations between the British resident and his staff and the sultan, his court and the state council have always been good.

Free Flow Of World News Dealt Blows This Year

NEW YORK (AP)—Blows were dealt the free flow of world news in Argentina in the last six months. Readers of newspapers in Sapin looked in vain for any mention of British pre-Coronation activities. An Associated Press correspondent was ordered out of Tehran for writing about hot-headed Iranians attacking Americans.

These were some of the developments recorded in the semi-annual Associated Press survey of censorship and other conditions that keep news from flowing freely.

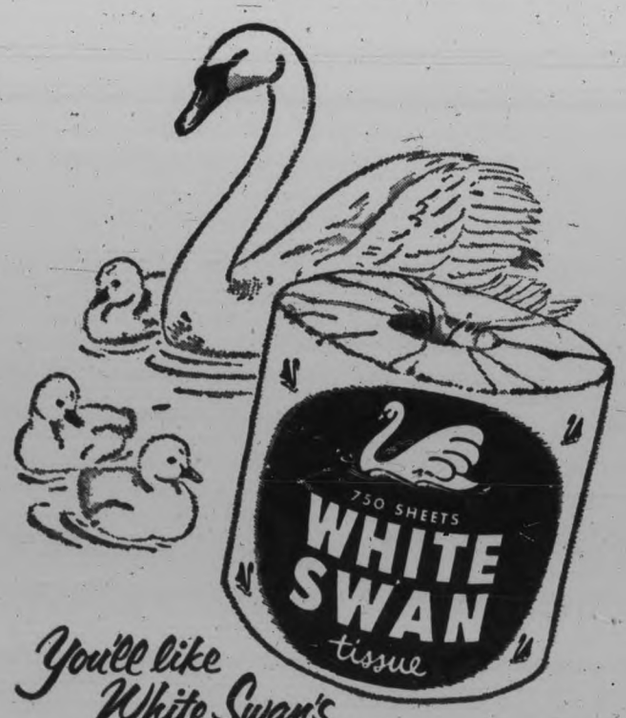
The Iron Curtain was drawn back a little. Moscow permitted a group of U.S. newspaper and radio executives to visit the Soviet capital for a week last March and report their impressions while there.

Poland let in some Western correspondents to cover a sports event and Hungary admitted several to report a Communist - led world peace council in Budapest. All this seemed linked with Russia's peace gestures to the West since Stalin's death.

NO DISPATCHES USED

For more than a month Argentine newspapers did not print dispatches of U.S. news agencies which had long supplied them with U.S. and world news. The agencies were accused by President Juan D. Peron of engaging in a campaign to defame him abroad.

In May the Peron regime suspended for a week the right of the agencies to receive news by wireless. Late in June La Nacion, Argentina's leading independent newspaper, resumed publication of dispatches from the Associated Press. There was no direct censorship of news leaving Argentina, even at the height of the controversy over news agencies.



The freedom of the press committee of the Inter-American Press Association reported in March that the situation in Argentina had not improved. The report added Bolivia, Colombia, Venezuela, Paraguay, El Salvador and the Dominican Republic as other Latin American countries where freedom of the press was curtailed.

In Spain a few weeks before the Coronation Spanish newspaper men were forbidden to write about the coming event. No reason was given. The orer however, was finally withdrawn.

Publisher Dies

CAMPBELLTON, N.B. (CP)—Harry B. Anslow, 78, publisher of the Campbellton Graphic, a weekly newspaper, died Wednesday. He was a past president of the Canadian Weekly Newspapers Association and one of the charter members.

WELCOME STRANGER—Don't rub your eyes, you're seeing right. It's Santa Claus making a New York appearance during one of the city's hot spells. Santa is being cooled by pretty Phyllis Heller, who won the title of "Miss Bikini of 1953."

Russians Prepare Knockout Blow May Suggest Uniting Of Germany

By JOSEPH AND LUCIA NEWMAN

LONDON—The key to the secret of Soviet foreign policy may lie in Russia's diametrically different reactions to the uprisings in Czechslovakia and East Germany.

When the Czechs rioted in Pilsen and other cities at the beginning of June, Communist leaders brought down an iron fist and held it down. When the Germans followed suit in East Berlin and other cities of East Germany, the iron fist was brought down again to smash the uprisings, but then it was raised cautiously and the Russians began to show a velvet glove.

The question which might well disturb Western leaders if they were not so absored in wishful thinking about an internal collapse of the Soviet empire is this: Why is Russia using an iron fist in Czechslovakia and a velvet glove in East Germany, when rebellion has been committed in both satellite countries?

In view of the fact that the uprisings in East Germany were on a far larger scale than those in Czechsiovakia, the Russians might have been expected to be less considerate of the former than the latter. And yet the reverse seems to be true.

The immediate reason for the German uprising was the increased labor norms which forced workers to produce ten to twenty pe rcent more for the same wage. After putting down the rebellion the Russians surrendered to the demands of the East German workers and abolished higher norms.

Increased labor norms together with a currency revaluation which virtually liquidated all savings were also responsible for the uprisings in Czechoslovakia. But, here, unlike in East Germany, Communist leaders spurned the complaints of the workers and gave the screw another turn.

ABSENTEEISM

Rude Pravo, the official Czech Communist newspaper, has just announced the details of drastic measures being adopted against workers guilty of absenteeism — a crime in Communist countries because it is a new form of strike developed by the proletariat. Workers who miss more than four eight-hour shifts in a wage period or leve their jobs without authorization can be prosecuted on charges of economic sabotage. The penalty as in Russia is a long prison term.

Czechoslovakia gets the iron fist because it is already a totally subjected satellite, and the Communist rulers feel free to use the methods they prefer. East Germany, notwithstanding the execution and arrest of a large number of demonstrators, gets the velvet glove because Moscow is courting its sister—West Germany.

If Moscow had abandoned this courtship, the chances are that East Germany would have paid a far greater price in executions for the recent uprising, and would have been held under martial law much longer.

Moscow evidently is preparing a knockout blow against the Western powers, and the blow is likely to come within a month's time. It would consist of an offer to surrender Eastern Germany so that the two divided parts of Germany could be rejoined into an independent country. The Russians would accept genuinely free elections as demanded by the Western powers.

Theri only request would be that Germany remain neutral and independent of both the Eastern and Western blocs.

The danger that Moscow might make such an offer has haunted the Western capitals for some time, and the danger is probably greater now than ever before because a convincing Soviet move along these lines in July or August could conceivbaly defeat Chancellor Konrad Adenauer at the West German elections in September.

REFUSE UNITY

Chancellor Adenauer, together with the United States, Britain and France, refuses German unity at the price of neutrality. If the majority of West Germans are prepared to pay this price, they will vote Chancellor Adenauer's Christian Democratic party out of power and bring in the Social Democrats.

That would mark the final end of the European Defense Community. The Social Democrats have already taken the position that German unity comes before the European Defense Community. Once they gain power, that policy obviously will create friction, if not conflict, between Western Germany and the Western occupation powers. Nothing would suit the Russians better.

Assuming that Moscow is intent on making its German unity move at this time, with everything to gain and nothing to lose, it has yet to decide the form it should take. It could be done through normal diplomatic channels with notes to Washington, London and Paris. It could also be done at a low-level or high-level conference of the Big Four powers.

This offers the possibility of exploiting the differences between Prime Minister Sir Winston Churchill and President Eisenhower over a four-power meeting.

It is safe to suppose that Moscow has recalled its ambassadors from the Western capitals to help choose the most effective way of dividing them.

Flower Prints For Wall Paper

NEW YORK.—Flower prints are back in favor for wallpaper. Not so long ago a designer who called himself "modern" would not dream of doing floral prints. This season one finds dainty blossoms. Gene McDonald's new collection of eleven hand prints includes an array of flowers in soft monotone colorings. All are available through decorators.

Mr. McDonald, one of the city's best known and respected wallpaper designers, courageously starts with a group of traditional Gilrose handprints and gives them a light, airy modern feeling. A sunflower motif is typical of the flowing type of contemporary treatment given all the designs. This is shown in soft old rose and pale pink. Even in black and white the same pattern manages to be quiet and restrained rather than sharp and bold.

A seaweed pattern covered with stylized nets and weeds looks provincial in Delft blue on parchment. Dusty pinks on white, pale sand on paler sand and soft mauve and mauve are among the sublte colorings throughout the collection. Hibiscus, grape leaves, hydrangea, morning glories, tropical flowers and the old favorite ivy are among the flowers in the understated collection. All reflect the designer's belief that old and new ideas are no longer separated but are being integrated in motifs for living rooms.

Bensfort News

Mrs. Sophia Finnie, of St. Mary's, is spending a few days visiting friends here.

Miss L. Dolley, of Port Hope, is a guest of Miss Joyce Atcheson.

The members of Bailieboro and Bensfort United Sunday schools are planning to hold a picnic at Cobourg on July 10.

Mr. and Mrs. Harold Beebe have returned from a motor trip to Orangeville, Ontario, and other points west.

Recent guests of Mr. and Mrs. Charles Barnard were: Mr. and Mrs. Charles Jewison, Dr. and Mrs. Mercer Mason, Misses K. and M. Barnard, Mrs. J. Barnard, of Toronto, also Messrs. Frank and Allen Barnard, of Sudbury.

Mr. and Mrs. Ernest Westington, Mr. and Mrs. Edwin Westington and family were visitors to Trent River on Sunday.

Mrs. W. C. Wood was a recent guest of Mrs. W. C. Dawson.

Messrs. W. C. Buckham and Ronald Isbister are on a business trip to British Columbia. While on the way they attended the Calgary stampede.

BUILDING NEST—Freckle-faced Richard Dacey Jr., Watertown, Mass., can't see what is going on but he suspects his pet robin Robert has started trying to build a nest again. The nine-year-old boy cared for the bird when it fell out of its nest a month ago. Now almost full grown, it won't chase worms with the rest of the robins but prefers to live with the Dacey family and eat hamburg.

Starch, Rice, Beet Pulps Used In Drilling Oil Wells

TULSA, Okla. (AP)—To bring oil from deep in the earth, drillers use such farm products as starch, rice, beet pulps, beans — even chicken feathers.

And, the American Petroleum Institute's oil industry information committee says, they use them at times by the carloads daily

In what it labelled "The Care and Feeding of Oil Wells," the committee explains their strange appetites and the farm diet that satisfies them.

Here's how:

Rotary drilling calls for mud, rivers of it. Not just plain, everyday mud but a specialized concoction to cool and lubricate the drill and the steel pipe encasing it.

Mud also cleans the hole of cuttings, washing them from the bottom and carrying them to the surface between the pipe and the hole's wall. It also guards against cave-ins and escaping, dangerous gases.

Sometimes the drill finds porous geological formations that absorb too much of the fluids. Then the driller adds to his mud the starch that acts as a sealing agent and keeps the mud's circulation from clogging. Now and then cellulose flakes do the same job.

On occasions the mud's circulation starts to wander in subterranean cavities. Building up its bulk calls for a strange mixture —flaxseed, sawdust, excelsior, chopped hemp.

Or cottonseed hulls, hay, chicken feathers, sugar cane and redwood fibres, Irish moss. Even beet pulps rice, beans and wheat bran.

Many of last year's 37,000 rotary-drilled wells, the committee says at times used as high as 600 pounds of starch daily, others needed several carloads of bulk materials a day.

Fruit Growers Protest

LONDON (Reuters) — Fruit growers of the British Commonwealth feel they are being unfairly shut out of the British fruit market. They want to get back in again.

At the Empire fruit producers conference held here June 9-19, delegates unanimously demanded that British and Commonwealth governments end policies which amount to subsidizing of fruit exports by foreign countries.

The majority also resolved that, in view of the heavy increase in Commonwealth fruit production, an import tariff system similar to that in effect before the war should be levied in the United Kingdom on foreign fruit.

Britain's fruit consumption has increased since the 1930s. But as home production has increased, imports have dropped. Currency exchange difficulties, particularly dollar shortages, have been mainly responsible.

A. K. Lloyd of British Columbia, chief Canadian delegates to the conference, claimed that the Commonwealth fruit industry was "confined to the status of the poor relation."

"Many of those areas which are now denied access to the United Kingdom markets were recommended to plant fruit trees specifically for that market.

"You do not plant for tomorrow but for 20 years ahead," he said. "The market now is being denied to us."

Martin Dykes, representative of the South African deciduous fruit interests who served as chairman of the conference, said:

"We believe all things being equal, that the United Kingdom market should give first preference to the available supplies of home and empire produce."

In return, he said, it was the Commonwealth producers' duty to "provide the consumer with a product which will stand four-square against the winds of all fair competition."

Delegates represented Britain, Canada, Australia, New Zealand, the Union of South Africa, and the British West Indies.

JUICE TASTES BETTER FRESH FROM THE ORANGE!

There's absolutely nothing to equal the rich, tangy flavour of juice squeezed fresh from a Sunkist orange. You get *all* the goodness, too, and *all* the Vitamin C that nature put there.

Fresh Oranges are an EXCELLENT SOURCE OF VITAMIN C

STRUGGLE FOR LIFE—Four-year-old Sheila Whitehead's heart is too big for her body. Her mother, Mrs. Hazel Whitehead, explains that this is a congenital condition which requires the little girl to use an oxygen mask at least once a day. Doctors say that unless the condition can be corrected surgically, the little girl may not live to celebrate her fifth birthday.

Quebec Holds 3 By-Elections In First Test

QUEBEC (CP)—Three provincial by-elections today will be the first test of the Union Nationale government since it was re-elected a year ago and may also decide the political future of the provincial Liberal leader.

The by-elections will be held in Montreal Outremont and the rural ridings of Matapedia and Portneuf.

Standing in the 92-member assembly is:

Union Nationale 66; Liberal 22; Independent 1; vacant 3.

Eleven candidates have been nominated to contest the three seats. Four are running in Montreal Outremont, four in Portneuf and three in Matapedia.

Interest centres mainly in Montreal Outremont where Georges Lapalme, Quebec Liberal leader, is making his second bid for a seat in the legislature.

The 45-year-old Liberal chief was scarcely known outside the tobacco-growing district of Joliette when he was chosen leader in 1950. He resigned his federal seat of Joliette - l'Assomption - Montcalm to take the provincial leadership. In his first bid for a seat in the legislature last year he was defeated by Labor Minister Barrette.

ONLY ONE MEETING

Only one political meeting was held in the Montreal riding and this was by Norman Nehrenberg, Labor-Progressive. The Liberal and Union Nationale candidates fought their campaigns by radio speeches and newspaper advertisements.

The polls open at 9 a. m. EDT and will close at 6:30 p. m.

Bernard Couvrette, Union Nationale candidate in Montreal Outremont, was defeated in the provincial general election by Henri Groulx, who died from a heart attack shortly after the polls closed. The other candidates in this riding are Robert Holland, Independent Liberal, and Nehrenberg.

In Portneuf the vacancy was caused by the death April 29 of Hon. Bona Dussault, minister of municipal affairs. Candidates are Louis Philippe Bertrand, Independent Union Nationale; Rosaire Chalifour, Union Nationale; Delphis Marois, Liberal; and Alexandre Paquet, Independent.

In Matapedia the candidates are Clovis Gagnon, Union Nationale; Rene de Blois Liberal, and Marcel Gregoire, Independent Social Credit.

The Matapedia vacancy was caused by the death of Philippe Cosette, Union Nationale in a highway accident last autumn.

BRIGHTER THAN SUN

Doradus, one of the most luminous stars, is about 500,000 times brighter than the sun.

Vancouver Entry Wins $500.00 Cash

Winners of the seventh Blue Bonnet Margarine "Happy Holiday" Contest which ended June 27th were announced today with the first prize of $500.00 cash being awarded to Mrs. A. B. Quayle, 6615 Culloden Street, Vancouver, B.C. Other prizes and winners in this seventh of nine weekly contests are: $100.00 cash to Mrs. Eric Adams, Toronto; $50.00 cash to Mrs. N. J. Schill, Luseland, Sask.; Northren Electric "Sportsman" Portable Radios to Mrs. M. Harrington, London, Ont.; Mrs. Alice McMillan, North Battleford, Sask.; Mrs. C. N. Dow, Flin Flon, Man.; Mrs. J. H. Bruins, Cayley, Alta.; Mrs. Margaret Pitts, Hamilton, Ont.; McBrine "Comet Aeropacks" to Mrs. Clayton Spidle, Lunenburg Co., N.S.; Mrs. F. McGrath, Woodstock, N.B.; Mrs. Muriel Wiggins, Saint John, N.B.; Mrs. Earl Dier, Napanee, Ont.; Mrs. Annie Ross, Timmins, Ont.; Mrs. Ethel Brosseau, Campbell River, B.C.; Mrs. Henry Teichrow, Headingly, Man.; Mrs. Inga Ophus, Sexsmith, Alta.; Mrs. Betty Nelson, East Prince Rupert, Sask.; Mrs. R. Warda, Ladysmith, B.C.; $10.00 cash to Mrs. Okley W. Garland, Albert Co., N.B.; Mrs. H. Loug, Kingston, Ont. Mrs. Ann Gillett, Welland, Ont.; Miss M. E. McDonald, Vancouver; Mrs. Ivy Billyard, Dunnville, Ont. All prize winners have been notified.

PLENTY OF TIME TO ENTER

Similar, valuable prizes will be awarded every week until July 11th in Blue Bonnet's $10,000 Contest. To enter is easy. State why you like Blue Bonnet Margarine best in 25 words or less. Send your entry with 2 end-flaps (each with Good Housekeeping Seal) from Blue Bonnet Margarine packages to Blue Bonnet Sue, P.O. Box 2120, Toronto, Ontario. Enclose your name and address and your grocer's. BBW-7.

Millbrook News

The Rev. John Coombs, curate at St. James' Cathedral, Toronto, visited Miss May Needham on Sunday.

Mr. and Mrs. Ken Little, Jill, Christine, Ricky and David, of Weston, visited his mother, Mrs. David Lunn, last weekend. Mrs. Little and the children remained for the whole week.

The Rev. Herman and Mrs. McConnell, Victoria, B.C., who have been spending six weeks with their daughter, Mrs. Bruce Ingham, and other relatives and friends, started back for the west coast on Tuesday.

Council Tenders Vote Of Thanks To Reeve Leeson

HAVELOCK (ENS)—A vote of thanks was extended to Reeve E. J. Leeson at a council meeting Monday night by the members of council, for getting George St., Quebec St. from George to Ontario St., all of Ontario St. and Concession St. from Ontario to No. 7 Highway as a county connecting link.

The town clerk was authorized to write W. A. Anderson of Port Hope, division engineer, department of highways, that the council expects the sidewalk on Concession St. completed and from the bridge to Bruce Longmuir's property done as well.

Mr. Jennings, the local assessor, was also to be notified that the business assessment should be completed.

The clerk was also instructed to notify Mr. Howell to collect the whole account plus expenses in connection with the Canadian Breweries transport accident on No. 7 Highway within village limits.

Work discussed for the near future included—Sidewalk, Concession St.; repairing sidewalks, paving, stop sign on George St., repairs to pavement on George St. at property of Mrs. Puffer and G. Buchanan. Bylaw 616 was passed, which will regulate and license hawkers and pedlars and will come into effect when approved by the department of municipal affairs.

CIVIC HOLIDAY

Monday, August 3, is to be declared as Civic Holiday.

Cecil Wilson is to be engaged to level off the dump.

The local branch of the Canadian Legion was granted the use of George St. for a street dance July 15.

Police reported for June: complaints and occurrences, 32; articles reported lost and found, 1; dog licenses sold, 17; motor vehicle accidents reported, 2; summons served for other police departments, 1; court attendance, 3 days.

The accounts passed included the following:

R. W. Hall, salary, transportation, $208.36; D. Johnston, garbage collection, $125; D. A. McMillan, salary, $115; direct relief, $89.97; telephones, $17.30; supplies for fire department, $80.35; R. Vansickle, snow plowing, $24.50; City of Peterborough, patching material, $10; dump taxes, $5.62; cutting weeds and use of tractor, $30; E. J. Sanderson, $8.79.

Tough On Bandits

OTTAWA (CP) — Hesse (Pop) Hassan, 73, has a way to deal with hold-up men. For the second time in four years, Hassan wrestled a gun out of the hands of a would-be hold-up man Wednesday and pinned him to the floor until police arrived. Police booked Lawrence Lepage, 31, on a charge of armed robbery just as they did Raymond H. Brown four years ago.

Military Observer

OTTAWA (CP)—Gregor Guthrie, 39, former Ottawa reporter, has been appointed military observer with the United Nations in India and Pakistan, the defence department announced Wednesday.

Gets 3 Months For Assault On Police Chief

LINDSAY (ENS)—A 44-year-old Fenelon Falls man, Carl Akister was sentenced to three months in-county jail Wednesday when Magistrate Baxter of Cobourg convicted him of assaulting Police Chief Dave Gordon of the village two weeks ago when the Chief arrested him on an intoxication charge.

A second charge of having a dangerous weapon was dismissed on a technicality when the Magistrate ruled that the charge, reading that the offence occurred on Louisa St. in the village, was not fulfilled by the evidence.

According to the evidence, Akister was firing a high-powered 25-35 rifle, using mushroom bullets, sometime after midnight June 28. Complaints were laid by neighbours and Chief Gordon attended the scene.

A girl, Lorene Morrison, who was parked in a car near Akister's home, testified she heard three shots, the last coming close enough for her to notice who was firing the gun. She said Akister was standing at the front of his house and had fired at a dog running down the street. Chief Gordon told the court that when he asked Akister what he was doing, the accused said he was shooting cats.

CHASED CATS

Akister told the magistrate that he had heard cats in his garden and had chased them out, firing at them as they crossed the street in front of his home. He lives in a trailer and maintains a workshop and garage next to it.

The Chief said he had taken the gun from Akister, found three bullets in it and put it in a car driven by Alec Northey, who drove the chief to the site.

As he placed the gun in the car, he said, Akister tackled him from behind and a scuffle began. Northey and another man finally helped to subdue the man and he was placed in the car.

At this point, said the Chief, Akister became angry and grabbed him around the neck from behind. Then he said Akister gouged at his eye. Akister denied this and said that he had swung the handcuff which was attached to one wrist, striking the Chief on the neck and face.

Magistrate Baxter ruled there was no evidence Akister had left his property. He convicted Akister of the second charge, stating: "There is no charge in the Code I regard more serious than that of assaulting an officer or resisting arrest. A person has a duty to go quietly when arrested. They have their legal rights after that."

A third charge of intoxication was withdrawn by the Crown.

OBITUARY

HERBERT JOHN ABBOTT

LAKEFIELD (ENS)— Herbert John Abbott, 80, of Queen St., Lakefield, died Wednesday in hospital, Peterborough, following a prolonged illness.

Mr. Abbott was born and raised in Douro township, son of the late William Alex Abbott and the former Jane Hurl. He received his education in Lakefield and was a member of the Lakefield United Church. He farmed all his life and retired from his farm in Douro township in 1945 and moved to Lakefield.

He is survived by his wife, the former Susan Lillian Smith and two brothers, Frederick Abbott of Omemee and George of Seattle, Washington.

The funeral will be held Saturday at the Hendren funeral home, Lakefield, at 2 p.m. The Rev. J. A. Steed of the Lakefield United Church will officiate. Burial will be in Lakefield cemetery.

Congressman Wounded

RIO DE JANEIRO (AP) — A Congressman shot himself in the House of Deputies, witnesses said and is in grave condition. He is Deputy Plinio Gaya who is reported to suffer from cancer. Witnesses said he shot himself in the house antechamber in front of a group of other Congressmen.

Delay For Year New Assessment For Millbrook

MILLBROOK (ENS) — There may be a year's delay in putting into effect the new assessment for the village.

County Assessor Garnet Shields and Village Assessor Wilfred Elson were present at the last council meeting to discuss the advisability of delaying the new assessment for a year. No immediate action was taken by council.

IMPROVE WATER

Messrs. Alex Gilbert, R. Northey and A. McMaster addressed council as to improving the water supply along the main street.

Councillors Gray and Raper introduced a motion that Monday, August 3, be declared a Civic Holiday in the village. The motion carried.

Fire Chief Douglas Sheppard reported on fire practise. Ten firemen responded to call, he said, and the equipment is in good order.

Bills amounting to $5,115.02 were ordered paid. The largest items were a $2,000 grant to the Millbrook Public School and $1,255.25 to the Durham District High School.

FIRE SERVICES

A letter being sent to Fire Chief K. R. Baird of Cobourg states that council is in favor of Civil Defence Fire Services and County Mutual Aid Plans as outlined previously by him. The motion was by Councillors MacPherson and Gray.

Other correspondence:

Commendation from the Millbrook Chamber of Commerce on the installation of new traffic lights in the village.

Copy of a bylaw to regulate installation of septic tanks and plumbing fixtures from the Northumberland and Durham Health Unit, Cobourg.

A communication was received from the Durham County District High School Board on the subject of a board of arbitration on assessments.

The next regular session of Millbrook council will be August 10.

SHERWOOD C. GEROW, a native of Belmont township, celebrated his 75th birthday today wth members of his family, which included four generations, at his home at South Lake. Mr. and Mrs. Gerow celebrated their golden wedding last week at the home of their son and daughter-in-law, Mr. and Mrs. Henry Gerow, Havelock. The photo shows Mr. Gerow with his son Henry, his grandson Lawrence, and great granddaughter, Judy Gerow.

$80,000 Contract Let For Cobourg Sewers

COBOURG (ENS) — The west end sewer contract, covering extensive sewer lines and a pumping station, was let at a special meeting of town council Wednesday night to McFarland Construction Co. and Harnden and King Construction Co. Cost of the job is about $80,000.

Council held a committee meeting and conferred with several housing subdivision firms. They went over regulations as to what the town would provide and accord was reached on all points, Mayor Jack Burnet revealed.

A petition from Dave Carr for water services out Ontario St. to a proposed subdivision in that area was received and tabled in order that the clerk could check the signatures.

3 Miners Killed

BERLIN (Reuters) — Three miners were killed and 10 others poisoned in an explosion at the potash mines of Stadtlengsfeld, East Germany, the East German news agency ADN reported today. The miners were all above ground when an explosion in the pit released poisonous gas.

FEWER HARPS

Only five harps were imported by Canada in 1951, compared with nine the previous year.

Uranium Mine Humming With Activity

URANIUM CITY, Sask. (CP)—Canada's newest and largest uranium mine, probably the world's most modern, has begun to hum with activity.

About 700 men and women live within one mile of the main mine and mill buildings of the federally-owned Eldorado Mining and Refining Ltd. They are sleek, grey superstructures built atop a high ridge beside Beaverlodge lake in Saskatchewan's remote northwest corner.

Miners, construction workers, administrative and technical personnel included in this number now are hard at work attempting to push up production of the mine and iron out the "bugs" from the nearby mill.

HUGE EXPENDITURES

So far, Eldorado has spent $17,000,000 on its Beaverlodge development. Before peak production is reached, it will probably spend several millions more in expanding facilities.

The main mine building is a concrete-block structure covering the 1,150-foot-deep Fay shaft. It contains Eldorado's administrative and business offices, warehouse, changing and clothes-drying rooms for the miners, five elevator compartments and chemical and electronic laboratories. Even the washroom walls are tiled.

To the east, beside tiny Ace lake, is Eldorado's Ace shaft. A roadway links it with the Fay workings above ground and a long underground tunnel—a "level"—does the same beneath the surface.

On the underground rock surfaces lie compressors, air lines, buckets, loading pockets, tracks and trains. Tons of ore rumble from the chutes into the buckets which are sped to the surface at a speed of 1,500 feet a minute.

Once on the surface, the ore is dumped into a large crusher, which crushes five tons between two plates in three or four minutes. The ore then goes to the mill.

TO EXPAND PRODUCTION

The mill now handles about 500 tons of ore a day. It will have to be expanded if the anticipated 2,000-tons-a-day production level is to be reached. Ultimately, it is expected the mill will handle uranium ore from other privately-owned mines in the region.

Throughout the mining and milling procedures, there is no danger to workers from radioactivity. The ore and concentrate are not yet fine enough in form.

The ore is transported by barges across Lake Athabaska to the end of steel at Waterways, Alta., then shipped east by rail to Ontario's Chalk River plant for further refining.

Production figures at the mine remain secret.

A high wire fence has been erected about the property and a security guard will be placed.

Diamond Necklace Gift For Elizabeth

LONDON (CP) — Among the Queen's beautiful Coronation gifts is a diamond and aquamarine necklace with matching ear-rings, a gift from the government of Brazil.

The South American country mines fine squamarines and the 647 diamonds and aquamarines used are exceptionally good and well matched. They were set by London craftsmen in platinum.

One drop - shaped aquamarine hangs from the necklace which, like the ear-rings, is set with diamonds and baguettes. The bluish-green aquamarines are among the few colored stones that retain their beauty under artificial light.

20 Years Hard Labor

ALGIERS (Reuters) — Ahmed Sebik was sentenced to 20 years hard labor at Tizi Ouzou near here for murdering his wife, Safia, whom he alleged had rendered him impotent by witchcraft.

DISCUS RECORD—Wearing street shoes instead of spikes, George Dinsdale of Brandon, Man., heaves the discus to a midget record of 141 feet, one inch, at the Canadian junior track and field championships at Winnipeg. Dinsdale said he "couldn't be bothered changing shoes".

Husbands! Wives! Want new Pep and Vim?

Thousands of couples are weak, worn-out, exhausted solely because body lacks iron. For new vim, vitality, try Ostrex Tonic Tablets. Supplies iron you, too, may need for pep; supplementary doses Vitamin B_1. Introductory or "get-acquainted" size only 60¢. At all druggists

BAY STATE DUST — With weeks of drought behind them, farms in New England are being plagued by dust and dried-out land. Al Wilson (above), of the Wilson Farm in Lexington, Mass., stops his tractor during disc harrowing to shovel parched dirt from the big tires.

Canadian Jet Comet Blows Two Tires

NEW YORK — One of Canada's two sleek jet Comet transport aircraft blew two tires Wednesday while landing at Mitchel Field, U.S. Air Force base on suburban Long Island.

The plane was not damaged.

The big four-engine jet, recently acquired from Britain, was on the second leg of a training flight from Washington. The plane had flow from Ottaaw to Washington earlier today.

Wing Cmdr. Howard Morrison of Winnipeg said the two tires blew out as the aircraft touched down at Mitchel Field.

Make Protest

HASTINGS (Reuters) — British coal miners urged Russia and the Communist states of East Europe to halt the use of women for underground work in coal mines. Delegate R. Shotton of Durham told the annual meeting of the British Coal Miners Union here that British miners feel use of female labor in the mines should be made illegal in all countries.

Heads Commission

BRIGHTON, England (Reuters) —Brig. C. S. Booth representing Canada was appointed head of the administrative commission of the International Civil Aviation Organization at its seventh assembly session.

WANTED

Former Ontario sales supervisor with 8 years above average sales record, now located in Peterborough, is seeking employment in sales purchasing or what have you.

BOX 258, EXAMINER

Barbara Brent's BUYS AND WHYS A WEEKLY INFORMATION SERVICE

MONTREAL, July 9th—All of a sudden baby knows how to walk! Such a grown-up achievement means he's about ready for more grown-up food. Now's the time to begin giving him the exciting variety of HEINZ JUNIOR FOODS . . . good things like Junior Vegetables, Lamb and Liver; Junior Vegetable Fish Dinner; and Junior Creamed Tomato Vegetables and Rice. Incidentally, these Junior Foods make wonderful soups for the pre-school age child. Until your youngster is five or so, it's usually a good idea to give him soup in a more mildly seasoned form. Because of their milder seasoning, *all* the Heinz Junior Foods are "just right" for young folks.

Have You Ever had the heartbreaking experience of opening a jar of your homemade jam or jelly, only to find it isn't set properly, or isn't up to your standard for flavor? If you have, my advice is to turn to CERTO FRUIT PECTIN, before you even *think* of doing down your favorite summer fruits. If you follow the Certo recipes carefully, results are always so sure. The wonderful rich flavor and bright color of the fresh fruit is retained, because of the short boiling period. Your jams and jellies will be done in 1/3 the time of the former, long boil method. And you will get up to 50% more jam or jelly, from the same amount of fruit. Look for wonderful recipes in the booklet under the label of each bottle of Certo.

The Thermometer Says "Warm" today, but it's as good a day as any for buying fuel for the *cold* days of the year. I'll never wait 'til Fall again to get in our winter's coal. There are too many good reasons for buying it right now. It's usually cheaper and a full bin takes a big load off your mind. And worry about the "coal problem" won't have a chance to sour your summer holidays. So *I'll* just handle it as I did last year. I'll see the BANK OF MONTREAL about a coal loan, stock up my coal bin with a full winter's supply, and pay back the loan in as many as nine instalments. It's really worth your while to investigate. Why don't *you* discuss ways and means with the manager of your nearest B of M branch today.

Summer Heat In The City (and often in the country, too) seems to go to the feet, doesn't it? Well, if you're bothered by hot, sore, aching feet, I know just what to do. Under the same circumstances, I always reach for MENTHOLATUM. You know how Mentholatum gives pleasant relief in a good many ways. And it's just as cooling and soothing *outside* as in. Ideal indeed for tired feet! Simply soak your feet for several minutes in hot water, wipe dry and rub with Mentholatum. Like to try? Then send for a GENEROUS, FREE SAMPLE . . . Barbara Brent, 1411 Crescent St., Montreal, P.Q.

Did You Know that there's wonderful relief from painful corns . . . right at your nearest drug counter? I mean BLUE-JAY Corn Plasters with *Phenylium*. Phenylium is the first really new medication for corns and calluses in over seventy years! In actual tests, it went to work 33% faster and worked 35% more surely than other leading remedies. You see, Phenylium gets right down *under* your corn and helps push it out from *underneath*. Easy to see why folks with problem feet say it's the best news in years! So cheer up . . . pay a visit to your favourite drug counter today and "invest" in foot comfort . . . ask for Blue-Jays with Phenylium.

A Beauty For A Beauty on the beach . . . that's your new swimsuit made of wonderful LASTEX yarn. For a swimsuit knit, woven or shirred with Lastex is indeed a fitting thing for a modern bathing beauty. It has power to mold you and hold you—grace to give you—and comfort, *real* comfort. No wonder they call Lastex "the miracle yarn that makes things fit"! I agree! Bathing suits made with Lastex are the new love of my beach-going life. They're so easy in the water—so good-looking on the beach. Take my tip!—next time you shop for a swimsuit, ask for one featuring Lastex.

Holidays Lose Their Glamour when you have to spend most of your time in the kitchen. That's why I always take half a dozen boxes of FRENCH'S INSTANT POTATO to the cottage with me. It actually takes just *one minute* to whip up a delicious serving of mashed potatoes with French's Instant Potato. That gives me more time to relax . . . less time in the kitchen. Just follow the simple instructions on the package and see how *easy* it is to make French's Instant Potato. It's *pre-cooked* by a special process that preserves important nutriments—and flavour. *Wonderful* flavour! So take my tip—take a good supply of French's Instant Potato to the cottage with you.

Hurry! Hurry! Hurry! It's Your Last Chance to enter this $10,000 *Happy Holiday Contest*. And just look what you can win! *Cash prizes up to $500* plus World-Famous *McBrine "Comet" Aeropicks* and *Northern Electric "Sportsman" AC-DC Portable Radios*. But enter *now* . . . the contest ends on July 11th! *Simply write, in 25 words or less, why you like Blue Bonnet Margarine best. With each entry enclose two end-flaps* (each with the Good Housekeeping Seal of Approval) *from* BLUE BONNET MARGARINE *packages, or facsimiles. Mail to Blue Bonnet Sue, P.O. Box 2120, Toronto, Ontario.* Yes, enter Blue Bonnet Sue's All-Canadian Contest today. You still have time to win cash and merchandise for a happy holiday!

THIS 8½-POUND MUSKIE, 32 inches long, is proudly displayed by 10-year-old Jim Shearer, who caught it Tuesday afternoon, casting with a "silver flash" off John Shearer's wharf at Buckhorn. He was assisted in landing his catch by seven-year-old David Cummings. Jim is the son of Gordon Shearer of Buckhorn.—(Choate Studio Photo).

Tea Drinking Good For Teeth, U.K. Told

LONDON (Reuters)—Britons, always on the lookout for an excuse to drink another cup of tea, got a new one today—it's as good for the teeth as fluorinated water.

A dental research team, back from investigating the fluorinated water systems of Canadian and U. S. cities, reported the Englishman's favorite beverage contains proportionately just as much of the cavity-preventing chemical.

And since even young Britons are avid tea-drinkers, "fluorine may already be administered ot children in significant amounts," the team said in a government publication.

Two Britons Leading Race

CARNOUSTIE, Scotland (CP)—Two Britons—Eric Brown of England and Dai Rees of Wales—grabbed the lead with more than half the field in today in the second round of the British Open golf championship.

Each had two-day totals of 142.

Rees scored a sparkling 70 today, one better than favored Ben Hogan and four better than Wednesday's leader, Frank Stranahan of Toledo, O. who had a 71 and 74.

Brown carded a 71 to tie the Welshman for the lead. Rees had a 72 Wednesday and Brown another 71.

An Argentine smoothie, Roberto Vincenzo, followed up his 72 of Wednesday with a one-under 71 today and was second best among the early finishers with a 143.

Hogan, of Fort Worth, Tex., put together a 36-35 today and Stranahan, from Toledo, O., a 36-38 while Lloyd Mangrum, another U. S. threat, had a 39-37 for 76 which coupled with his 75 of Wednesday gave him a two-day total of 151.

Bobby Locke of South Africa, the defending champion, who shot a 72 Wednesday, carded a 37-36 today for a 73. This gave him a second-round total of 145 and left him in fifth position.

Newlyweds Honored By Community

STIRLING (ENS)—Friends and neighbors gathered at the home of Mr. and Mrs. Murray Myers to welcome their son Donald and his bride, the former Lois Irish, to the community.

Mr. George Butcher acted as chairman and led in community singing. Mr. and Mrs. Butcher also sang two duets. Readings were given by Mrs. G. Demorest and Mrs. Herb Stewart.

Short addresses were given by Mr. Arnold Wanamaker and the Rev. R. R. Bonisteel. Mrs. Frank Harding read an address and the newylweds were presented with a chair and rug. Refreshments were served.

Apple Crops To Be Larger

OTTAWA (CP)—Early estimates are that Canada's apple crop will be a little larger than last year, the bureau of statistics reported today.

Production of pears, peaches, plums and prunes also may be larger, especially in British Columbia.

The bureau estimates this year's strawberry crop at 28,900,000 quarts some 1,100,000 less than last year. Hot, dry weather in late June resulted in a decline of 2,700,000 quarts in Quebec alone. The Nova Scotia and Prince Edward Island crops are down 12 and 15 per cent respectively. Ontario, B. C. and New Brunswick will show increase

The raspberry crop is placed at 13,000,000 quarts, 10 per cent higher than last year. The cherry crop, on the other hand, will be down 72,000 bushels to 49,000. Production of apricots is expected to be 255,000 bushels, 5,000 more than last year.

No Bridge Contract Signed

ST. CATHARINES (CP)—An official of the Niagara bridge commission said today the commission has been discussing purchase of the Whirlpool Rapids bridge across the Niagara river at Niagara Falls.

No contract about the bridge has been signed, he said. "We have merely sought enabling legislation so that our hands will be free should we decide to buy."

The commission now operates the Rainbow bridge at Niagara Falls for the Ontario and New York state governments.

The official termed "premature" reports that it also planned to buy the bridge over the river between Queenston, Ont., and Lewiston, N. Y., and build a new one.

It was reported the bridge has been offered for sale by its New York owner.

Six Beaches Unfit Because Of Sewage

ST. CATHARINES (CP) — Six beaches in this area are unfit for swimming because sewage has polluted the water, Dr. J. M. McGarry, assistant medical officer for Lincoln county, said today.

Signs have been posted to warn bathers in the six areas.

Plan Music For Royal Pair

LONDON (Reuters)— The people of Wales, who greet the Queen and the Duke of Edinburgh when they arrive today for a two-day Coronation tour, are determined the royal couple will have music wherever they go.

Choirs of all sizes and kinds, women's, civic, schools, and a huge one at an international musical festival at Rhyl, are to serenade them all along their journey from the south to the north.

Their whirlwind trip will take them to Cardiff, where a 21-gun salute will be fired from ancient Cardiff Castle. On the way to the industrial port of Swansea, they will drive through the Rhondda valley.

Highlight of the trip is the Queen's visit Friday to Carnarvon Castle in the north of Wales. It was here that the first Prince of Wales was proclaimed.

The people of Carnarvon last year petitioned the Queen to bestow the honor on her son, 4½-year-old Prince Charles but the chance of the proclamation taking place is considered slim. It is the custom for Welsh members of Parliament to be invited to the castle to hear it and so far no invitation nas gone out.

Butler Says Churchill Doing Very Well

LONDON (Reuters)—Prime Minister Churchill, resting in the country on doctors' orders, is "doing very well," R. A. Butler, chancellor of the exchequer, told the House of Commons today.

He also reported the "very satisfactory progress" of Foreign Secretary Anthony Eden and Housing Minister Harold Macmillan, both of whom have had operations for gall bladder trouble.

Car Crashes Culvert One Youth Killed

BURLINGTON (CP)—One man was killed and another seriously burned near here today when their truck went out of control and crashed over a 20-foot culvert and burst into flames.

Murray Burke, 19, of Blenheim, 15 miles southeast of Chatham, driver of the truck, died instantly and his companion, Delbert Sheppard of Blenheim, was taken to hospital in Hamilton with burns.

KEEP THEM SUNNY SIDE UP—Fred Telschow is an old hand at frying eggs in his Houston, Tex., cafe, so when a customer bet him it wasn't hot enough to fry an egg on an automobile hood, Fred took him up and won the bet. It was a cinch since the sun turned the car hood into a hot griddle.

HIGHEST PRICES PAID FOR YOUR OLD APPLIANCES

Frigidaire Automatic Washer brings completely safe automatic washing to finest fabrics. 60 cycle only.

Frigidaire Filtra-matic Dryers end all the familiar clothes drying problems — yet keep excess moisture and lint out of room air.

"It Pays To Do Business Where Business Is Being Done"

T. J. CAVANAGH

270 CHARLOTTE ST. PHONE 3075

MARY MOORE SAYS:

For Businesswomen Who Entertain

When your phone rings at the office and a cheery voice announces "Hi! I've just hit town and want you to drive over and have dinner with me" (in a neighboring city), and the night before you have had twelve people at your house for dinner, and right now you are in the midst of planning a campaign for a client, and besides that you have had a flat tire on the way to work—and you couldn't care less if you ate dinner again for a week . . .

. . . then it's time steps were taken.

Well, this real flesh and blood business girl who is the heroine of our story, still had a mind that clicked in emergencies, so she said to her exuberant friend on the other end of the wire: "Why don't you jump on the late afternoon train and come over and have dinner with us?"

So that's the way it worked out. The only thing that was missing was energy enough to get the plague-y dinner ready.

Our brave girl did get dinner ready of course and was her charming self all the time, but next morning I came into the picture.

You can guess what a firm friend this heroine is by our telephone conversation: "Listen, you, if you don't make up some menus that I can pin inside the cupboard to look at when I hit the house, and that tell me exactly what to do with supplies I have on hand, well, I'll cut you out of my will."

I meekly replied "Yes, my Pet, your wish is my command." (I wonder if she has a will, and if I'm in it?)

Radishes and Carrot Strips
Canned Toasted Brown Bread
Cantaloupe Ice Cream
Coffee

NOTES: You will see that we are bent on saving time—not money. Staple supplies must be on hand if you are going to make a success of these last-minute meals.

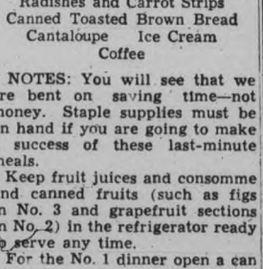
Keep fruit juices and consomme and canned fruits (such as figs in No. 3 and grapefruit sections in No. 2) in the refrigerator ready to serve any time.

For the No. 1 dinner open a can of pork and beans, tip it into a buttered casserole and cover with ¼-inch thick slices from a piece of back bacon, allowing 2 slices for each person. Bake at 375 deg. Fahr. until beans are bubbling and bacon is browned.

Keep bacon and eggs and cheeses on hand at all times. Have fish and steak and hamburg patties and a 1-lb. carton of ice cream in the freezing compartment of the refrigerator at all times. When these have been used, replace them on your next food-shopping trip. Have cleaned, fresh vegetables in the crisper.

On the pantry shelves keep pork and beans, canned brown or date bread, soups, canned fruits and vegetables.

I ought to know—I'm right there with you in the rush.



Signed,
"The Helping Hand"

COTTAGE MATTING

Mat floor coverings in summer cottages allow sand and dirt to seep through. Therefore, they should be placed so that they can be easily rolled up several times a season. The matting can be kept soft with about one-half cup of lemon oil to a pail of water each time you wipe the matting with a soft cloth.

FIRST ALMANAC

The first almanac published in the United States came from the Philadelphia Bradford press in 1687.

LAUGHS Even at Teething Time

Baby's Own Tablets have long been a faithful standby — used confidently by mothers for over 50 years. Especially helpful during teething time because they give prompt, dependable, and effective relief from feverishness, restlessness, tummy upsets, and other minor infant troubles resulting from irregularity at teething time. No "sleepy" stuff — no dulling effect. Help keep your baby happy. Get a package at your druggist — today.

sleep, and high-school homework requires an average of two hours a night. On that schedule, there isn't much time for mid-week outings.

Your second question is dependent for its answer on personal and family circumstances. No outsider can quote a definite allowance sum. The matter should be discussed between you and your parent, and I'm sure a satisfactory answer will result.

✧ ✧ ✧

DEAR MISS DIX: I am the widowed mother of four children, with only the youngest still home with me. For the past year I have been engaged to a fine man my own age, who protests his love for one day, then never mentions marriage for weeks. How can I make him set a wedding day?

C. M.

✧ ✧ ✧

ANSWER: Your need for companionship has led you into a situation with very little chance of a happy solution. It's extremely doubtful if the man really loves you. The only way to test him is to let him know you want to be married without further delay.

✧ ✧ ✧

DEAR MISS DIX: I am 24 years old, and have known a young man six years my senior for the ... two years. We both date ... occasionally, as we have no ... understanding. We en... ...ther's company, and his actions indicate that he cares for me; but I feel that I am entitled to know exactly where I stand. Should I insist on ... ...wing, as I ...tend?

LYDIA C.

ANSWER: Yours is not a question of propriety as much as expediency. Any girl has a right to know in what direction a friendship is leading her. I warn you, though, the young man is quite likely to resent your attempt to control the situation.

DID YOU KNOW?

New regulations now require "substandard" hosiery to be stamped as such. This practice covers not only all Canadian hosiery mills, but extends to U.S. mills exporting to Canada. Under the new regulations "substandard" hosiery no longer can "mix with quality," unknown to the purchaser. A substandard stocking is generally accepted as one with some flaw, such as a thick thread, but whose wearability or appearance is in no way impaired.

LONG (ENS)—With a love-...ckground of assorted flow-... and fern, a double-ring wed-... ceremony was solemnized in Carmel United Church Saturday at 12 o'clock, when the Rev. A. E. Baker of Stirling united in marriage Verna June, only daughter of Mr. and Mrs. Harry Brown of Stirling, to Gerald Allan Clancy, only son of Mr. and Mrs. Clifford Clancy of Wellman's Corners.

Mrs. Malcolm Sharp played the wedding music, and the soloist, Mr. Douglas Pyear, sang "O Perfect Love," before the ceremony, and "Because" during the signing of the register.

The bride was given in marriage by her father and was radiant in a gown of white Chantilly lace and nylon net over taffeta, fashioned with a sweetheart neckline of tulle and a lace jacket with long fitted sleeves. Her fingertip veil of imported tulle illusion, edged with Chantilly lace, was held in place by orange blossoms. She carried a bouquet of Sweetheart roses with stephanotis arranged on a white Bible.

Mrs. Ruth Clancy, sister of the groom, was maid of honor, wearing orchid, and Misses Beverly Reid, Ruth Parks and Carol Ray were bridesmaids, attired in yellow, and each carrying a nosegay.

Mr. Gordon McInroy, cousin of the groom, was groomsman, and Roy Sharp and Allan Wallace were ushers.

The reception was held in the church hall, the bride's mother receiving in navy nylon marquisette, with corsage of pink and white carnations, assisted by the groom's mother, who wore navy sheer and lace with corsage of pink and white carnations.

Immediately following the reception a large family Bible was presented to the couple from the congregation of Carmel Church.

Guests were present from Peterborough, Sarnia, Toronto, Guelph, Norwood, Ottawa, Whitby and Markham.

The bride chose a suit of blush pink for travelling through Western Ontario and the United States, and wore a corsage of deep rose carnations.

The couple will live at Wellman's Corners.

...Weller St., ... Kingston air-...day when her son, ... Bruce Cooper, a well-...eterborough boy, was one ...4 paratroopers who made ...mps. The plane took off from ...cenon and disgorged 16 men ...t a time over Kingston, giving each one 16 seconds to clear out.

PIRATES with "patch eyes", "hawk eyes" and "dead eyes" and wearing cutlasses, are conducting their raids at the YWCA Day Camp. The second day, Wednesday, there were 49 in the band and director Miss Marion Foster dug deep in the "pirate chest" for ideas, coming up with crafts, swimming, a trip to the filtration plant zoo and a visit to nearby Reidel's pottery making studio. In the front row above are (left to right) Lynne Ross as Captain Hook, Madoline Crowe as Crossbones, Brenda Hully as Patch Eye, and Mary White, a Sea Swab. Back row is Jane Grey, also a Sea Swab, Susan McBride as Patch Eye, Jane White as Hawkeye and Linda McIlmoyle as Dead Eye Dick.

Unscramble Your Handbag

Are you aware that the contents of your handbag are often visible to other people?

A glance into your handbag as you open it, whether casual or intentional can give someone a glimpse of your true personality. It can make someone think: What a neat, well-organized, dainty girl—she must carry that into her whole way of living

If you open up your handbag this minute, will you see everything in its place? Will cosmetics be kept together in their own little purse or will powder soil the bag's lining because your compact is lost on the bottom? Can you find your keys at once?

You save the beauty of your bag and its accessories by having a durable case for each item or group of items that you carry.

Plan to unscramble your handbag at once if you're wasting precious time hunting for things and when you buy one, be sure it has compartments enough to meet your needs.

COOKIE RECIPE

Nobody has enough cookie recipes. Here's one we believe you'll enjoy making. It's so quick and easy. In one bowl add these ingredients, one after the other: ½ cup softened margarine, 1½ cups sifted flour, 1 tsp. baking powder, ½ tsp. salt, 2-3 cup sugar, 1 egg yolk and 1 tsp. vanilla flavoring. Mix all at once. Form into 2 balls and roll on floured waxed paper or floured board. Cut with cookie cutter and bake on greased cookie sheet in 350 deg. F. oven for 8 to 10 minutes.

Shoes To Match Of Printed Poplin

PARIS—Castillo, designing for Jeanne Lanvin uses some all-over floral printed cotton poplins for blouses and jacket linings, while cotton poplins in more widely-spaced designs on plain white grounds are used for dresses of all kinds. One pretty summer frock is shown with a low-cut bodice topped by a little bolero to match and the shoes worn with it are in the same white poplin patterned with red and black carnation heads. Blue cornflowers printed on a white ground, garlands of little flowers and sprigs of flowers, reminiscent of old-fashioned wallpapers abound in the designs now applied to cotton.

Beside these more typical cotton prints there are also formal floral designs which are likewise applied to silks. Here colors are bright, often on formal black grounds, or so closely packed that no actual ground is visible at all. Carven uses printed silks of this type for afternoon and garden-party dresses worn with big hats and long gloves fitting right up to the elbows with her short-sleeved dresses.

DAD OR THE KIDS CAN GRILL A STEAK

Dad or the teenagers might well grill a steak dinner in honor of the "Lady of the House," The steak can be a mighty fine version when made with a pound of ground beef and a can (1¼ cups) of beef gravy. Just mix the beef with ½ cup of gravy, ¼ cup fine dry bread crumbs, 1 tablespoon minced onion, salt and pepper. Shape this into a large "burger," about 1 inch thick. Broil until done and well browned. Pass remaining gravy to pour over burger. Dad can carve meat and serve with buttered green peas and fruit salad.

THE SLIM LOOK

LOS ANGELES—The silhouette in sportswear is either slim with a straight, lean look or slim but with fullness controlled through the use of gores, all-around pleats, or other softening devices.

TUNICS FOR BEACH

PARIS—Jacques Heim suggests for the beach loose cotton pique coats, or rather tunics, since these models are made without sleeves. The most exciting come in vivid colors, yellow, cerise, peacock-blue, or white, with broad bands of wood-graining printed in black at wide intervals.

JACKET IMPORTANT

SAN FRANCISCO—Sportswear jackets are important, particularly those designed to be worn over vests. Box designs, Eton types, semiclassic shirts, and the latest hip-hugging jacket with its self contour belt are some of the more popular variations.

Blind Woman Teaches In Halifax School

TRURO, N.S. (CP) — When teacher Pearl Campbell tells the students at the School for the Blind in Halifax how to do things she will be talking from experience. She also is blind.

The first blind student to graduate from the Nova Scotia Teachers' College here, Miss Campbell was referred to by Principal P. McCarthy as "one who gives every promise of being an efficient and successful teacher."

Mr. McCarthy said she did work of "a very high order during the school term and took part in all student activities."

Miss Campbell studied at the School for the Blind for 11 years and then attended high school at Glace Bay, from which she was graduated in 1951 with a grade 12 certificate.

BECAME ADJUSTED

She had partial vision until eight years ago. "I was not very happy then," she recalls, "but I soon became adjusted to loss of sight."

"You know I am much better off then some blind people. I have had the privilege of sight, and I can visualize what is going on about me. Color, form, a shape, when described to me, all make an impression on my mind."

Once on the active teaching staff of the Halifax school, she will prepare her lessons from Braille text books and pass them on to her pupils in the same manner.

WINTER SUIT — An attractive suit for winter has been fashioned from gold wool zibeline. The new long jacket is accented by the ocelot shawl collar and tuxedo-like facing by the designer (Tailored Girl). The easy shoulder, slit pocket, trimmed push-up sleeves and narrow skirt give it an air of smart styling.

FEMININE DRESSES FOUND IN COTTONS

PARIS—Glamorous and essentially feminine dresses are legion in anything from pique to cotton organdy. Balenciaga's simple white pique evening dress is relieved by a diaphanous scarf or stole of grey and white striped organdy, while Jean Desses shows a short white pique dinner dress elaborately embroidered with large flowers in pastel-colored sequins. Christian Dior's grey organdy evening dress with a full, picture skirt is embroidered with arabesques of black, and picked out with "jewel sequins."

UNUSUAL VERSIONS

NEW YORK—Claire McCardell sticks by beach coats as a good cover-up for swimsuits, and has introduced some unusual versions. Her lime cotton twill beach coat with deep zippered pockets and water-repellent finish is designed to double as a raincoat, too. Another beach coat is an abbreviated nightshirt type of brown denim.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wabbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH the alkaline (non-acid) powder on your plates. Holds false teeth more firmly so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

Bailieboro Host To Church Groups

BAILIEBORO (ENS) — The Bailieboro United Church Women's Association entertained WA members from Bensfort United, Bailieboro Anglican, Centreville Presbyterian and Fraseville United at an afternoon tea at the cottage of Mr. and Mrs. H. C. Howson at Bewdley. Mrs. Hugh Fallis presided for a short program of readings by Mrs. A. Montgomery. Songs were sung by the Bailieboro junior choir. The guest speaker was Mrs. Powell, of Garden Hill, who gave an address on Women's Association work. A delightful lunch was served by the hostess society.

Coldsprings News

Mr. and Mrs. H. C. Lord, Jr. were weekend guests with the former's parents, Mr. and Mrs. H. C. Lord, Sr., Millbrook.

Roger Hie, Hull's Corners, spent a few days with Garth Gordon.

Miss Mary Jibb, is taking a six-weeks' Summer Course for teachers in Toronto.

Mr. and Mrs. A. McCormack, Cleveland, Ohio, called on Mr. and Mrs. T. F. McBride, recently. Mr. McCormack is a grandson of the late Rev. Alec McCormack who was pastor of the Congregation Church here, fifty years ago. The late Mr. McCormack performed the wedding ceremonies for two couples here, who recently celebrated their golden wedding anniversaries, Mr. and Mrs. T. F. McBride and Mr. and Mrs. Fred Ford.

Joy and Donald Houston, Cobourg, are vacationing with their grandparents, Mr. and Mrs. Fred Ford.

Mr. and Mrs. Herbert Bray, and Helen Anne Clark, Creighton Heights, visited Mrs. Eethel Harper on Sunday.

Roger Bunnett, Toronto, is spending the summer vacation with Mr. and Mrs. Kenneth Grieve.

Keene News

Mrs. Clara Fife and Mrs. Fred Nelson were recent guests of Mr. and Mrs. Clifford Hall, Centreville.

Mr. Gerald Adamson is a patient in St. Joseph's Hospital, Peterborough.

Mr. and Mrs. Arthur Stewart, David and Mark, Ida, were Sunday evening dinner guests of Mr. and Mrs. Roy Tuthill.

Mr. and Mrs. MacShort motored to Toronto on Sunday to spend the day with Mr. Will Short.

Mr. and Mrs. George Walton, and family, Peterborough, have taken up residence for the summer at their cottage at Shanty Shore.

Rev. and Mrs. H. B. Herrington left this week for a month's vacation at their cottage at Mazinaw Lake.

Mr. and Mrs. Roy Faux and James, also Miss Marguertie Bowie were Sunday dinner guests of Mrs. Harry Graham.

Recent guests of Mr. and Mrs. T. W. Oke were Mrs. George Reynolds, Hartney, Man.; Mrs. Will Norton, Crystal City, Man.; Mrs. George Nichol, Paisley, Mr. and Mrs. Lorne Webster, Peterborough, Mr. George Spence and Jean, Lakefield; Mrs. R. D. Claire, Port Credit; Mrs. George Taylor, Warsaw; Miss Nancy Waters, Agincourt.

Thirteeen members of the Trail Rangers under the leadership of Mr. Jim Edwards, from St. George's Church, Peterborough who were camping at Hiawatha, were guests at the United Church Sunday morning services.

DOROTHY DIX:

Years Of Happy Marriage Can Erase Past Mistakes

DEAR MISS DIX: Would you comment upon the problem of parents who have for 30 years discouraged the celebrations of wedding anniversaries because their son arrived six months after marriage. Policy has been to give correct date but advance it to the previous year. However, we are very poor liars and vague answers have been the rule. Silver anniversary came while son was away in service, which was good. Pa and Ma are two old lovebirds now, but I'm afraid there was much contention which left some psychological scars on the boy, who is now married and a father himself.

V .V.

✧ ✧ ✧

ANSWER: I wish space permitted the full publciation of your interesting letter, and a more complete answer to it. Your name and address would have brought a personal reply. It would be interesting to get the comments of other parents who have been through a similar situation and see how they worked out the problem. Any letters along this line, anonymous or not, will be greatly appreciated. Most such instances are handled by the premature birth explanation, but when birth occurs as close as six months to the wedding date, this idea isn't quite feasible.

MISTAKE OF BYGONE YEARS

Whether children should ever be set straight on the problem is something that must be handled differently in each individual case. Some youngsters are so sensitive to any flaw in their parents that their reaction to the truth would be a strong antipathy to one or both parents. Others, more realistically attuned to life, can accept the situation on its true basis that a mistake was unfortunately made, was rectified to the fullest extent, and its effects have long since been absorbed into mutual love and understanding. Your own mind would doubtless be much relieved if your son knew all the facts, and at this late date he should be able to face them. Only you can judge his emotional standards; if he is a supersensitive person, better let the dates stand as they are. If he is a balanced adult, let him know all the facts involved; those stated here as well as the others contained in your letter. The 30 years you and your husband have spent as devoted parents certainly should have erased your early mistake.

✧ ✧ ✧

DEAR MISS DIX: What time should a 16-year-old boy be in on school nights? If he is looking for a job, what should his allowance be?

BILL K.

✧ ✧ ✧

ANSWER: A boy in school should not date during the week, unless a special occasion arises. Simple mathematics will show why. He should have nine hours sleep, and high-school homework requires an average of two hours a night. On that schedule, there isn't much time for mid-week second question is dependent for its answer on personal and family circumstances. No outsider can quote a definite allowance sum. The matter should be discussed between you and your parent, and I'm sure a satisfactory answer will result.

✧ ✧ ✧

DEAR MISS DIX: I am the widowed mother of four children, with only the youngest still home with me. For the past year I have been engaged to a fine man my own age, who protests his love for one day, then never mentions marriage for weeks. How can I make him set a wedding day?

C. M.

✧ ✧ ✧

ANSWER: Your need for companionship has led you into a situation with very little chance of a happy solution. It's extremely doubtful if the man really loves you. The only way to test him is to let him know you want to be married without further delay.

✧ ✧ ✧

DEAR MISS DIX: I am 24 years old, and have known a young man six years my senior for the past two years. We both date others occasionally, as we have no definite understanding. We enjoy each other's company, and his actions indicate that he cares for me; but I feel that I am entitled to know exactly where I stand. Should I insist on knowing, as I intend doing?

LYDIA G.

ANSWER: Yours is not a question of propriety as much as expediency. Any girl has a right to know in what direction a friendship is leading her. I warn you, though, the young man is quite likely to resent your attempt to control the situation.

HILL—Mr. and Mrs. Gordon Hill, Lakefield, wish to announce the birth of their son at St. Joseph's Hospital, Tuesday, July 7, 1953.

MURRAY—Mr. and Mrs. Carlyle Murray (nee Ruby Kidd), R.R. 3, Peterborough, are happy to announce the birth of their son at St. Joseph's Hospital, Wednesday, July 8, 1953.

RANKINE—Mr. and Mrs. D. F. Rankine are happy to announce the birth of a son, a brother for Lynn Marie, at Civic Hospital, July 7, 1953.

ROBINSON—Mr. and Mrs. Ray Robinson, Janetville, are happy to announce the arrival of Clare Ray, a brother for Judy, July 7th, 1953, at St. Joseph's Hospital.

2—Engagements

Mr. and Mrs. James H. Lawson wish to announce the engagement of their youngest daughter, Jewell Marie to Donald Cooper of Oshawa. Wedding to take place in St. James' United Church, August 1st, 1953.

5—Deaths

ABBOTT, Herbert John—At Civic Hospital, Peterborough, Wednesday, July 8, 1953, Herbert John Abbott of Queen Street, Lakefield, beloved housband of Susan Lillian Smith, age 80 years. Dear brother of Frederick of Omemee and George of Seattle, Washington. Resting at the Hendren Funeral Home, Lakefield. Funeral service will be conducted Saturday, July 11th, at 2 p.m. Rev. J. A. Steed of the Lakefield United Church officiating. Interment Lakefield Cemetery.

HUFFMAN, John Edward—July 6, 1953 in Orillia, John Edward Huffman, beloved husband of Ada Pearl Gerrard, father of Earl of Peterborough, and Verna of Ottawa. Interment July 7th in Orillia.

WHITEHEAD, Walter George — On Thursday, July 9th, 1953 at St. Joseph's Hospital, Walter George Whitehead, beloved husband of Ada Payne and father of Mrs. George Hunt, Mrs. Norman Beaudoin, Margaret, Kathleen, George, Reginald, Mary and Joan Whitehead. Resting at the Nisbett Funeral Home, 347 Charlotte Street. Funeral service Saturday, July 11th, at 2 p.m. Major H. Roberts of Salvation Army officiating. Interment Little Lake Cemetery.

6—In Memoriam

HARDY—In memory of mother, Mrs. Gordon Hardy, who passed away July 9th, 1952.
Those whom we love go out of sight
But never out of mind;
They are cherished in the hearts
Of those they leave behind.
—Ever remembered by daughter Jean, son-in-law Reg.

McQUARRIE — In memory of Helen McQuarrie Perks, who passed away January 6th, 1945, and in memory of Allan, who was killed in action July 8, 1944, buried in Benysurmere Cemetery, France.
The little things they used to do,
The things they used to say,
Come crowding back to memory
As we think of them today.
We still can treasure every smile,
Each tender word and look,
And keep them as the rose is pressed
In memory's treasure book.
—Ever remembered by Mother, Father, brothers, sisters and Allan's wife in England.

PEARSON—In loving memory of a dear father, Nathaniel Pearson, who passed away July 10, 1949.
Those whom we love go out of sight
But never out of mind,
They are cherished in the hearts
Of those they leave behind.
—Ever remembered by daughter Minnie and family.

7—Card of Thanks

I wish to take this opportunity to thank all those who canvassed for and those who gave towards the large gifts of money which I received recently at the benefit dance given in my behalf.—Roland Tedford.

Liberals Nominate

(Continued from Page 3)

OLD RIDING

Dr. Warner said that the old riding of Frontenac-Addington had felt, through its executive, that it should nominate a candidate at this convention, and he had consented to be nominated. It had been decided that Mr. White should not have an acclamation, and they were going to keep him and the Progressive-Conservatives busy until August 10. He would assure Mr. White that not only he but the 295 ridings or thereabouts in Canada could sing "God Save the Queen."

He pointed out that there had only been three Liberal administrations since 1900, while the Conservatives had had six leaders. He predicted that after August 10 another leader would be retired and that would be George Drew. He scored the promises of the Progressive-Conservative leader and the talk of the Hon. Louis St. Laurent's resignation, saying the Liberal leader would be in power after August 10 to carry on a further era of prosperity.

His final words were that if Mr. Foster was the choice of the convention, he would get behind him. When the result of the standing was declared, he called on the convention to make it unanimous for Mr. Foster.

Art Lewis of Peterborough, said that they were going to elect Max Swanston in his city on August 10.

TWO TYPES

He reminded his hearers of the two types of Conservatives, those rabid and those not so rabid. In the Peterborough riding he claimed a lot of people were thinking. His party was drawing a lot of support from people who in the past had been voting Conservative.

Speaking of industrial developments in Marmora and in the riding he said: "If you have a member on the side of the government, there are better prospects for developing resources in your riding."

He did not consider it was hopeless for the Liberal party in the new riding for the candidate when putting his name into the hat, knew he was not in a hopeless cause. They should work together to elect their candidate.

James Shannon, treasurer of the association, gave a financial statement.

Mr. Warner asked his associates of the old Frontenac-Addington riding to work for "Clute" as "Clute" would have done for him had he been chosen candidate. He also scored the Drew administration in the Ontario House.

Mr. Foster said he would not make a further speech. He appreciated the support he would get from Dr. Warner and urged his hearers to work their hardest in a riding which had fewer than 25,000 on its voting list.

NATIONAL PROSPERITY

Rork Ferguson said Liberalism was the cause of the building up of Canada's present prosperity. Canadians have had a good living since the Liberals went into power. Every year the Liberals have lowered the national debt and every year they have shown a surplus. The Liberal-minded in the riding should get out and work behind the candidate to bring the riding back into the Liberal fold.

Mr. Ferguson then moved the following resolution:

"This meeting fully appreciates the outstanding leadership of the Right Hon. Louis St. Laurent in the affairs of Canada and that of the western world and wishes at this time to record our complete confidence in his continued leadership."

Senator W. A. Fraser of Trenton, touched upon his associations with Rork Ferguson and Norman Gilroy. He expressed pleasure that two outstanding gentlemen had offered themselves for the candidature. He said there was no more possibility of George Drew winning the election than there was of himself walking on Mars that night.

He spoke of Toryism as a school of thought which was impractical for the public good, while Liberals belong to a school of thought which emanates in minds of people who like freedom and progress.

CRITICIZES DREW

He assailed George Drew for his criticisms of the Bren gun and North Star airplane and his attitude with regard to family allowances. He said the Tory party in Ontario were glad to be rid of George when he went to Ottawa, where also they would be rid of him after August 10.

He said the flag was not waved only by George White but by all Canadians. He said the people of the riding had a greater reason to elect a Liberal candidate than they did in 1935.

Delert Sine of Harold, vice-president of the riding association, gave a short speech of appreciation of Liberal accomplishments.

The new candidate, who is 54 years of age, was born in Moira, Huntingdon township, third son of the late John L. Foster and Eleanor Bird. He attended high school at Stirling and Madoc and also Toronto University.

In addition to his vice-presidency of the Dominion Stores, he was vice-chairman of National Selective Service.

He was married September 12, 1924, to Jean Heath of Tweed. They have two children, Bruce, 25, who lives in Toronto, and Joan, who is nurse-in-training in Toronto General hospital. He has lived in Toronto since 1919 and when asked how long he had interested himself in politics, said with a smile: "You may say I have grown up with the Liberal party."

To Stand Trial For Theft From Garage

William Mullen, 20, of Norwood, was committed for trial at the next county sessions following preliminary hearing Wednesday of a charge of breaking, entering and theft at Keith Innes' service station at Charlotte and Rubidge Sts., June 4.

He was remanded until today to set a date for the preliminary hearing of two other charges: theft of $590.60 cash and a $35 cheque on the same occasion and breaking, entering and theft at Landry's snack bar, one and a half miles south of Highway 7 on the river road, on June 5.

The latter charge was withdrawn today and Mullen was remanded until July 16 on the former. Preliminary hearin gwill probably be held July 29.

Elmer Spence, a service station employee, gave evidence at Wednesday's preliminary hearing. He said when he unlocked the premises shortly before 7:00 a.m. on June 5 he discovered the staple of a padlock hasp on the drawer of a wooden chest in a small room off the office had been twisted off. The day's receipts were put in the drawer each night but he found only two rolls of silver in it.

WINDOW BROKEN

The middle section of a window at the back of the building had been broken and an adjoining casement window was unlatched and open. There was broken glass on the hood of a car beside the window.

Keith Innes said Mrs. Ted Cooney, who keeps the service station books, had put the money and cheque in the drawer the night before. He had cashed the cheque earlier in the day. It was made payable to H. A. Mason and issued to C. Gertley. Mrs. Cooney was not on hand to give evidence as she is in hospital.

Mrs. Florence Godfrey of 128 Park St. said Mullen and his brother Victor had arranged to room at her house on June 2. They didn't stay that night but lunched there the next day. She heard them come in later at 2:00 a.m. At daylight she heard someone come in for a few minutes and then leave.

She said when she was cleaning the room she found a $2.00 roll of nickels behind a chair cushion. She turned the money over to Sergeant of Detective John Stevenson.

Crown Attorney John A. Bradshaw, QC, said that Victor Mullen had been subpoenaed for a previous hearing and had been told by Magistrate Gee to attend Wednesday's hearing.

"He defiantly said he wasn't going to be here,'" Mr. Bradshaw said and asked that a bench warrant be issued for his arrest. "If and when he's arrested, I'm going to have him charged with contempt of court."

ARRESTED IN LONDON

Evidence was given also by two detectives of the London police department, Gerald Knight and Gerald Shore, who discovered the accused in the London apartment of his brother James about 6:30 p.m., June 6.

"I told him there was a warrant for his arrest in Peterborough and he broke into a sweat," Detective Knight said. " 'How much time will I get for this charge?' he said, and I asked him what charge he was referring to. He said: 'Break and enter'."

Knight said he found the cheque in Mullen's suitcase, a wallet containing $132 in bills in his left hip pocket and $2.00 in his breast pocket.

"When I searched the accused, I reached for the wallet in his back pocket," Knight said. "He grabbed my hand and said: 'You're not getting it.' I then took the wallet by force."

Defence counsel Gordon Farquharson asked for a dismissal on the grounds that the only evidence linking the accused to the offence was the cheque which hadn't necessarily come into Mullen's possession through breaking and entering.

"All the time it was accesible to three employees and the accountant," he argued.

Mr. Bradshaw said that the gap between the occurrence of the theft and Mullen's statement to the London detectives "makes it almost a certainty that was the charge he was referring to."

Mullen's previous bail of $2,000 was reduced to $1,500 property with two sureties required.

BETTER LATE THAN NEVER — It's Christmas in July for Cpl. Charles Novak as he is embraced by his mother, Helen, in their Chicago, Ill., home. Cpl. Novak returned after 18 months in Korea to find the family Christmas tree still standing. His mother vowed he would celebrate Christmas whenever he returned.

Chemong Road Accident Results In Fine

Fern Howe, 35, of Bridgenorth, was found guilty on a charge of impaired driving by Magistrate W. R. Phlip today, and fined $75 and $21 costs. The charge arose from an accident May 29 on the Chemong Road.

Evidence was heard last Thursday and Monday.

The charge, orginally drunk driving, was reduced to impaired following the presentation of the crown's case upon the suggestion of Crown Attorney John A. Bradshaw, QC. A second charge of careless driving was dismissed.

Glen Cullen, 20, of 364 Simcoe St., reported the accident to police about 3:30 the morning of May 29. He told the court he had been driving south on Highway 7 at about 40 miles per hour when he saw a car coming. At a distance of 200 feet its lights were on high beams, he said.

Cullen flashed his lights on and off high beams as a signal to the other driver, but the car kept coming with bright lights. A short distance away it crossed the centre line of the highway striking the left side of Cullen's car.

Cullen stopped, turned around and pulled up behind the other car which was driven by Mrs. Howe.

He told the court she accused him of being on the wrong side of the road and of being drunk. Of Mrs. Howe, Cullen said she was unsteady on her feet when she tried to walk and staggered "quite a bit". Her breath smelled of alcohol.

SAID HER FAULT

Cullen told the court he heard other passengers in her car tell the accused the accident had been her fault.

OPP Constable Don Lacombe determined the point of impact as being one foot across the centre line on Cullen's side of the road. When he interviewed Mrs. Howes at home she showed signs of having been drinking while her hands were unsteady.

A third crown witness, Avel Madeiros of Toronto was driving near the scene of the accident. He noticed a man talking to a woman and said the woman appeared to be unsteady on her feet. She staggered when she walked, he told the court.

Mrs. Howe admitted having consumed two pints of beer earlier in the night, about 11 o'clock. After visiting friends, he started back to Bridgenorth with two passengers. She told the court the lights of an oncoming car blinded her. The other car failed to respond when she flicked her lights, she said, and swerved across the line, causing the collision.

Other witnesses, including passengers in her car, substantiated evidence that she was "perfectly sober" at the time of the accident.

Find Element

(Continued from Page 17)

and the lower edge of the middle plank, four feet, eight-and-a-quarter inches from the ground. The bullet was believed to have passed through that eight-inch opening.

When Const. Erskine took the rifle from the Zralkos late that afternoon along with 50 rounds of ammunition, he noticed "the barrel smelt strongly of gun powder." The rifle and ammunition were later sent to Mr. Rodgers in Ottawa.

Seventy-one feet west of the hay rack Const. Erskine said there was "an abrupt rise of ground".

OPP Inspector Louis Needham presented Smith's denim jacket, pointing out the bullet holes. He also said upon examination by Dr. H. Ward Smith there was "no powder stain", revealing there were "no contact shots".

The 22-calibre bullet, said Inspector Needham, was also sent to Mr. Rodgers in Ottawa.

Inspector Needham measured the distance from the platform on the Zralko farm to the hay rack on the Smith farm at 796 feet. The distance from the firing position to the post was 70 feet four inches.

Inspector Needham said that with Ted Zralko he found two discharged shells northeast of the Zralko barn. These had been used when Zralko had shot "at some birds in a hayfield".

Going south to some cedar posts, Inspector Needham found two holes in the logs. There Zralko had stated he shot twice at some flies.

The inspector explained that cattle had been tramping near the stand where Zralko had shot at the starling and they were unable to find the shell. The youth didn't know where he ejected the shell.

The nail which Const. Erskine had referred to earlier came up again in Inspector Needham's evidence. He said it had been hit with a slight blow and could be pulled out with his fingers. That nail was in a position where Smith's left arm was raised, allowing the bullet to hit Smith near the arm pit.

A. F. Rodgers presented the rifle, the actual bullet which killed Smith, three cartridge cases, fired and unfired ammunition as exhibits.

"I found the bullet was fired by the rifle," said Mr. Rodgers. Using a comparison microscope, Mr. Rodgers compared engravings on the bullet with other bullets he had fired from the rifle.

"These engravings did match in characteristic patterns," he said.

Mr. Rodgers examined the cartridge cases used by Zralko with those used by himself. Again these compared, each having the same characteristics.

LOW VELOCITY

Mr. Rodgers pointed out that the velocity of the bullet at the muzzle was 1,400 feet per second and with the use of tables calculated the velocity when it hit Smih at 800 feet a second. This, he said, was a very low velocity, meaning the bullet's flight was nearly spent.

Regarding the nine-mile-an-hour south by south-west wind which was blowing on June 8, Mr. Rodgers said the bullet went approximately four feet north of a course that would have been taken if no wind at all.

He pointed out that the bullet, a mushroom type, "did not open up", indicating that the gun when fired was some distance from the victim.

Gordon Cornish of Reaboro and Gordon Horner of Manvers township both said Smith and Zralko were good friends.

CCF Won't Contest Riding In Perth

STRATFORD (CP)—The Perth CCF Association said Wednesday night that the party will not contest Perth riding in the Aug. 10 general election. The association said it decided to send financial support to general headquarters.

The constituency was represented by J. N. Corry, a Liberal, in the last House.

36-Year-Old Cat Dies In Great Britain

LONDON, Ont. (CP)—"Scooter" the famous old grand-daddy of all cats, died Wednesday at the home of his mistress, Mrs. William Mallough. Scooter, a 40-pound Persian, was 36 years old.

Mrs. C. Fessended, president of the Canadian National Cat Club said 16 was the highest age she had come across among show cats.

If, as claimed among cat lovers, a cat's life is equal to seven in a human's then Scooter was 252 years old.

Deportation Order Issued Against Burck

CHICAGO (AP)—A deportation order was issued Wednesday against Jacob Burck, Pulitzer prize-winning editorial cartoonist for the Chicago Sun Times, on grounds he was a member of the Communist party when he last entered the United States in 1936.

An appeal from the order by Jerome T. McGowan, immigration department hearing officer, is being planned by Burck's lawyer William H. King Jr.

Burck, whose syndicated cartoons appear in some 35 U. S. daily newspapers, denied he ever was a member of the Communist party. He first entered the United States 38 years ago, when he was 10 years old, from his native Poland. He last entered in 1936 after a trip to Moscow.

Burck testified at hearings of his case that on his trip to Russia in 1936 in an attempt to sell the Russian government a set of murals he carried a party card to aid his selling efforts.

Marshall Field Jr., publisher of The Sun-Times, said he is confident Burck eventually will be proved innocent.

Burck won the Pulitzer prize in 1941 for a cartoon published in the summer of 1940 during the bombardment of Poland. The drawing showed the ruins of a house with a little girl kneeling before a broken bed praying as three bombers flew overhead.

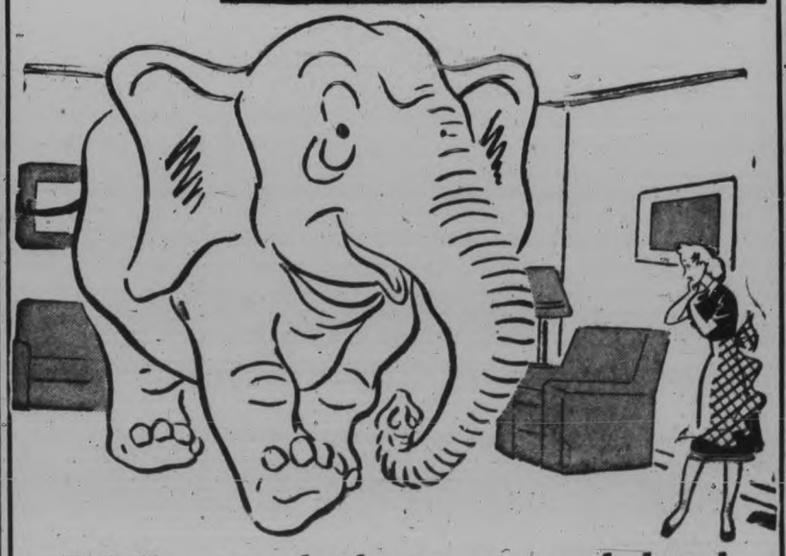
$3,000 Fire Damages Railway Boxcar

TORONTO (CP)—Fire broke out in a railway boxcar today and caused $3,000 damage.

Firemen were forced to direct streams of water on six Canadian National Railways tankcars alongside the boxcar. The blaze is believed to have been started by a spark from a switching engine.

3 Wounded Veterans Arrive In Toronto

TORONTO (CP)—Three Canadian soldiers, wounded in Korea, arrived here Wednesday by ambulance plane.



They were Pte. Peter Cote of Kingston, Pte. Leonard Coppock of Hamilton and Pte. Harry Pinney of Toronto. All three received leg wounds in the Korean war.

Buttons light up the individual squares with crosses and, as soon as one is pressed, the machine comes back with a circle —always at the best place. If you try to cheat by pressing two buttons a bright red light flashes.

Coal Shortages Result From Holiday

By WILLIAM J. HUMPHREYS

LONDON—Amid mid-summer temperatures that have kept fahrenheit readings in the eighties,—an oppressive heat wave here — Britons have been frightened by the spectre of a household coal shortage next winter.

Geoffrey W. Lloyd, Minister of Fuel and Power, admitted in the House of Commons the possibility of a bleak, cheerless winter for British homes, but he added the hope that increased production would make up for current losses confronting the National Coal Board, the management agency for the nationalized coal mines.

"I am glad there is anxiety about the coal situation, because it is justified," Mr. Lloyd said. "It is very much better that we should be thoroughly anxious now, rather than be taken by surprise when winter comes."

CORONATION HOLIDAY

The production deficits are the 1,250,000 tons lost during the coronation holiday the miners took, and the 3,500,000 tons which will not be extracted when the miners take a second week's vacation later this summer.

With these figures before him, the Fuel Minister expressed anxiety, but not despair. He said, "The situation is admittedly difficult, but I think we can get through if we get full co-operation between the National Coal Board, the merchants and the public."

It was H. Val Hall, president of the Coal Merchants' Association of Great Britain, who had prompted Mr. Lloyd to make his statement in Commons. The retailers, according to their president, are ready to co-operate, but they desperately need supplies to fulfill their task.

Mr. Hall estimated that the merchants had been forced to sell an additional 300,000 tons from stocks last winter to take care of seasonal demands and that little now remained on hand. He asserted that 2,000,000 additional tons in deliveries would be needed in the next nine months to avert a crisis, even with normal temperatures.

The Coal Merchants' spokesman also cautioned the Coal Board that allocations of household fuel consisted of an inferior grade. He called much of it unsuitable for domestic use. He said its low quality stiffened consumer resistance during the summer and defeated the government's program to have householders lay in early stocks.

YOUNG SCOTS — Donald Gordon, chairman and president of the Canadian National Railways, met the girls' pipe band from The Gaelic College, Cape Breton, when the group passed through Montreal on their way from Halifax to Chicago to compete in the Lions' Club International Congress. Left to right are: Mr. Gordon, Rev. A. W. R. MacKenzie, director of The Gaelic College, one of the pipe majors, and Vivian Morrison, of Baddeck, N.S., the drum majorette.

51 Fined $1,725 Over Cock-Fight

BRANTFORD (CP) — Fifty-one persons were fined Wednesday a total of $1,725 as the result of a cock-fight which police raided on Onondaga township.

James O'Hara of Onondaga township was fined $200 and $250 costs June 24 for allowing a cock-pit to be operated on his farm.

Fifteen of the found-ins at the fight came from Hamilton, eight from the Brantford district, seven from London, six from Woodstock and several each from St. Catharines, Dundas, Jarvis, Copetown, Delhi and Dunnville.

Canadian Camp Turned Into Prisoner-Of-War Centre

By BILL BOSS
Canadian Press Staff Writer

IN KOREA (CP)—The lull in armistice negotiations is having no effect on preparations for the reception of Commonwealth prisoners of war.

It is expected that the exchange of prisoners will begin a week after an armistice goes into effect. Still hopeful that the present impasse will be resolved, Commonwealth authorities are determined everything will be ready for the exchange whenever it comes.

A Canadian camp is being transformed into the main reception centre for the approximately 1,200 Britons, Australians and Canadians expected in the exchange. A total of 23 Canadians are listed as missing, of whom at least 20 now are known to be prisoners of war.

Almost two years ago work was begun on the original Britannia camp in the Commonwealth division area as the prisoner repatriation centre. As hopes for an armistice diminished it was torn down.

NEW CAMP

"Homewardbound," as the repatriation operation is called, has been revived and the new Britannia camp is being built as an annex to the 25th Canadian field dressing station at Tokchong, 25 miles north of Seoul.

Maj. Roland Arsenault of Winnipeg and Montreal, officer commanding the station, will be responsible for medical arrangements for the prisoners.

Said Arsenault: "We will act on the principle that every man returning from enemy hands is ill until he is proven well."

Medical teams will examine the exchanged prisoners as they reach the camp, after which the men will be accommodated in squad tents now being raised.

From Panmunjom, where exchanges will take place in the neutral zone, the soldiers will go to the UN Freedom Village at Munsan. The 10-mile trip over indifferent roads takes an hour.

BACK TO UNIFORM

At Munsan the soldiers will exchange their PoW garb for Canadian or other Commonwealth uniforms and then be available briefly to the press for the preliminary interviews.

Canadians and other Commonwealth "returnees" leave the UN "stream" at Munsan and, escorted by provost jeeps, will be trucked to Britannia camp by the 56th Canadian general transport compan, RCASC, commanded by Maj. E. G. Hession of London, Ont. Depending on road conditions the trip will take another 1½ hours. Maj. Joe Lawson of Edmonton is co-ordinating provost escorts and route marking.

Prisoners will get the full treatment at Britannia. Once an armistice is reached the FDS will temporarily scale its hospital accommodation for divisional needs down to 50 beds. The freed accommodation will go to the prisoners.

More than 120 tons of supplies have been amassed in Korea and Japan by the Commonwealth Red Cross societies for distribution to the men.

PLANS UNSETTLED

Plans for the Canadians after they leave Britannia camp still are unsettled.

The original plan was for them to go to Kure, Japan, and wait there until the group is complete. They would then go to Tokyo by train to fly home from there.

An alternative, now under consideration, would have them go to the 23rd Canadian field ambulance in the Commonwealth division area to wait until the group is complete. Then they would be flown directly from Korea to Tokyo and home from there.

30 Union Stevedores Walk Off Job

TORONTO (CP)—More than 30 union stevedores walked off the job Wednesday night at a Toronto pier where non-union men were brought in to help load a 3,000-ton Scottish freighter from Glasgow with 250 tons of general cargo. The pier is the only one in the city where union men work.

Faced with threats of a beating, the 18 non-union men also walked off the Lunan, chartered by the Newfoundland and Great Lakes Steamship Company.

The union workers, members of the Brotherhood of Railway and Steamship Clerk's Union (AFL), after a telephone message to headquarters in Montreal, were instructed to return to work in today.

Organic Union Brings Diversity Of Faith

VANCOUVER (CP) — Rev. C. Howard Bentall of Toronto told the opening session of the Baptist union of Western Canada Tuesday night that an organic union of the 250 Christian churches in North America would lead to greater diversity of faith.

"Many believe the matter of church union is of utmost importance but when Christ prayed that all may be one he did not mean an organic union," Mr. Bentall said.

"The demonstrated loyalty and efficiency of small denominations is much more effective than one large, loosely knit organization," he said.

Scared Horse, Fined

LONDON, Ont. (CP) — William S. Tupholme, 27, of RR 8, London, a driver whose truck frightened a horse June 12, was convicted in county court Wednesday and fined $15 and costs under a seldom-invoked action of the Traffic Act. Evidence was that the vehicle startled a horse so that it stumbled and fell with its rider, Mrs. Marie O'Meara. She suffered knee and ankle injuries.

Chrysler Promotions

WINDSOR, Ont. (CP) — The Chrysler Corporation of Canada, Ltd., announced Wednesday Frederick C. Mitchell, a native of Mount Forest, and resident here for the last 16 years, has been named superintendent of planning for plant two, the motor plant. Gordon S. MacLean, a native of Petrolia, who joined Chrysler in 1935, was appointed superintendent of planning for plant three, the passenger car plant.

Clings To Sailboat For Six Hours

BELLE EWART, Ont. (CP) — Harvey Samuels, 20, clung to his overturned sailboat for six hours Tuesday before the craft drifted to shore.

A companion, Sheldon Vogel, 14, swam three-quarters of a mile to shore through six-foot waves on Lake Simcoe after staying with the boat for five hours. Once on shore, he roused cottagers to look for his friend but by that time the boat had touched shore.

The two Toronto boys were dumped a quarter-mile out in the lake when high winds overturned their boat near this community 40 miles north of Toronto.

Ease Embargo As Cholera UnderControl

Had No New Cases Since June 19; 2,800 Hogs Killed

OTTAWA—(CP)—The agriculture department today announced that the outbreak of hog cholera in Ontario now is considered under control.

All regulations—with two exceptions—restricting the movement of hogs in the province are revoked today by ministerial order, the department said.

The shipping ban still applies to those animals under quarantine on individual premises. It still applies also on the movement in or out of community sales barns in the province.

Some 2,800 hogs were slaughtered because of the cholera infection. The department said no new cases have been reported since June 19 in Ontario.

REVOKES ORDER

Today's order revokes a ministerial order of May 21, which banned the movement of hogs from all Southern Ontario counties and from several in eastern Ontario.

Agricultural officials said only "two or three" farms still are under quarantine. When it became apparent the disease had been eradicated from these, the ban would be lifted.

There are some 50 community sales barns in Ontario and the officials said it is likely the quarantine will continue to apply to these for a longer period than to the farms.

The disease was first reported May 19 on a farm near Breslau, Ont., where 20 hogs died. The outbreak was traced to a sales barn near Breslau where it is believed infected animals were sold to farmers in other parts of the province. Shipping the animals spreads the disease.

COUNTIES UNDER BAN

Counties under the May 21 ban were: Essex, Kent, Lambton, Wentworth, Brant, Elgin, Middlesex, Norfolk, Halidmand, Welland, Lincoln, Oxford, Perth, Huron, Waterloo, Halton, Peel, Bruce, Grey.

EASE EMBARGO

CUTTING A SECOND CROP OF WEEDS, and some hay, on the old Hilliard Farm which is now owned by the city, is keeping two horse-drawn and one power mower and two scythemen busy. The 60-acre property, bounded by Water, Anson, Langton and Hilliard Sts., contains the Anson House and the former isolation hospital building. The above photo was taken on the ridge of the steep hill overlooking Auburn Dam on the Water St., side.

(Examiner Staff Photo)

Killer Fish Hunted By N.S. Police

LOUISBOURG, N. S. (CP)—Determined fishermen, aided by police and a plane, hunted the waters off eastern Cape Breton Island today for a killer fish which has taken the life of one man and threatened a dozen others.

The unknown fish, believed to be a giant shark, gouged a two-foot section out of a lobster boat Thursday, capsized it and caused the drowning of John Burns, 40. A companion, John MacLeod, 21, was rescued by a nearby boat.

Charlie Rafuse, skipper of the rescue craft, said the fin of the killer fish was six feet out of the water just before it rammed Burns' 27-foot fishing smack.

RCMP officers went to sea with the fishermen in an attempt to kill the fish. A plane from Sydney was used as a spotter until it was forced to return to base because of bad weather.

Last week Newman Dubinsky raced 12 miles to shore at Main-a-Dieu and reported being chased by a giant shark that "just missed the boat." He was accompanied by his four children and five men.

About the same time fishing craft from Little Lorraine, eight miles east of here, scattered for safety when a large fish attacked them.

Burns' body was recovered today, indicating that the fish is not a man-eater. There was some speculation here that the fish might be a giant swordfish and not a shark.

BULLETIN

CARNOUSTIE, Scotland (AP)—Ben Hogan, golf's living legend, won the British Open championship on his first try today, shooting a record 68 on the last round for a 72-hole score of 282. He had rounds of 73-71-70-68. His total was the second lowest in the tourney's history.

Berlin Workers Plan Strike

BERLIN—(AP)—A West Berlin anti-Communist organization reported East Berlin workers planned to strike again today in an effort to free comrades jailed by the Reds in the June 17 rebellion. As starting whistles sounded at East sector factories this morning, however, there were no immediate reports to show whether the walkouts actually had taken place. The West Berlin organization — The Fighting Group Against Inhumanity—predicted the strike action would spread "at least throughout the Soviet sector of Berlin" and perhaps into the outlying Russian-occupied territory. Earlier this week, a two-day work slowdown by East sector laborers won the lifting of the Russians' armed barricade along the East-West border of the divided city. But the aroused workers were far from satisfied with their partial victory.

Thousands of their comrades in the June uprising still are in jail. Work and food conditions are still bad despite Communist promises of improvement.

PREPARE AMNESTY

There were indications that East Germany's hard-pressed Red government would not be hard to persuade. The West Berlin newspaper Telegraf declared that a "far-reaching amnesty" for those arrested in the June revolt already is being prepared.

The Telegraf said the clemency was ordered by Vladimir Semyenov, Soviet high commissioner in East Germany, who is reported to have returned this week from Moscow.

Another unconfirmed report jibed with the story. It said all pending trials of East Berliners have been halted until Monday, when a "new policy" is expected to be announced.

East German Prime Minister Otto Grotewohl has publicly assured workers that imprisoned rioters are being released as soon as it is proved their roles in the uprising were minor. The Telegraf said, however, that some other East zone leaders, apparently fearful that revolt may flare anew, have opposed an amnesty.

BERLIN WORKERS

(Continued on Page 2)

St. Laurent Ready To Assist National Health Plan

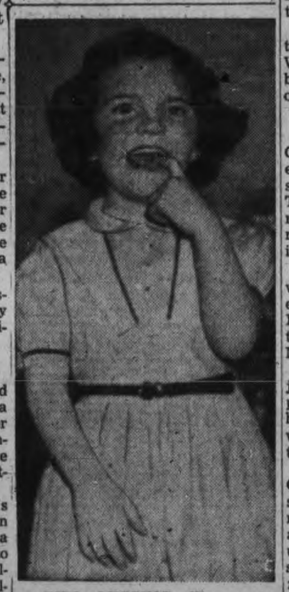
VANCOUVER—(CP)—Prime Minister St. Laurent says the Liberal government stands ready to assist in a "sensible and practical" country-wide contributory health insurance scheme providing satisfactory agreements can be worked out with the provinces.

Opening a two-city vote-getting tour of this Pacific province, Mr. St. Laurent also said Thursday night that his government will continue to cut taxes, if national income rises and other circumstances warrent reductions.

The 71-year-old prime minister received roll after roll of applause as he touched on these and other contentious issues in delivering the 12-point Liberal party policy before some 2,500 persons who packed a local auditorium.

Fisheries Minister Sinclair, Associate Defence Minister Campney and 20 other B. C. Liberal candidates were on the platform.

HUNDREDS TURNED AWAY



Hundreds of persons were turned away. They stood outside the arena and listened to the prime minister by loudspeaker. He opened a window and said a few words to the outsiders, thus holding up the meeting about 10 minutes.

Vancouver was Mr. St. Laurent's second stop in his 10-day Western tour. Today he is to address a rally in Victoria before turning to the Social Credit stronghold of Alberta where he plans to visit Calgary and Edmonton.

In his policy speech, carried also over the CBC Trans-Canada net-

GIRL MISSING—Five-year-old Geraldine Huggan of Winnipeg is the object of a wide-spread search in rough bush country around Minaki, Ont. The brown-eyed youngster, daughter of Mr. and Mrs. Jared Huggan, disappeared July 5 from her grandparent's summer cottage at Wade, Ont., six miles west of Minaki.

Disappearance Baffles Police

MINAKI, Ont. (CP)—Police officials said Thursday night they were baffled by the disappearance of a five-year-old Winnipeg girl who has been missing five days in swampy bush land near this northwestern Ontario resort area.

Geraldine Huggan, daughter of Mr. and Mrs. Jared Huggan, was last seen playing with her three sisters near her grandfather's cottage, six miles west of here.

Officials in charge of the search said there have been no indications of foul play, but the possibility of such an explanation has not entirely been ruled out.

Meanwhile, searchers' ranks have been augmented to 120 by the arrival from Winnipeg Thursday night of 65 volunteers from units

DISAPPEARANCE

15 Men Die In Forest Fire

WILLOWS, Calif. (AP)—Fifteen men perished in an explosively violent fire in Mendocino national forest during the night.

The information came from the Glenn county sheriff's office. Thirteen of the dead were members of New Tribes Mission, a religious organization with missionaries in remote places of the Americas.

The other two were federal forest service men.

Bulldozers were pushing trails into the area this morning in an attempt to remove the bodies.

The fire, which started innocently enough Thursday afternoon, whipped into unnatural fury as it raced through 300 acres of scrub oak, chaparral and brush about 30 miles west of Willows.

The temperatures were high—in the upper 90s—throughout the forest area Thursday.

There seemed no reason for unusual concern. But during the night the blaze developed with furious and bewildering speed and the men were trapped.

Princess Withdraws Temporarily From Tour

UMTALI, Southern Rhodesia (Reuters)—Princess Margaret has withdrawn temporarily from her tour of Rhodesia with the Queen Mother because of a persistent cold and slight temperature, it was announced today.

The announcement came only an hour before the royal couple was scheduled to leave a mountain resort hotel near here for a day-long drive. It said the 22-year-old Princess will return by air today to Salisbury, the Southern Rhodesia capital, while the Queen Mother maintains the timetable of the tour.

Margaret had not been due to return to Salisbury until Sunday. The schedule called for the Queen Mother and Princess to remain in Salisbury until next Thursday when they were to have flown back to London.

Margaret spent most of Thursday in bed. The cold was thought to have been better Thursday night.

The day dawned warm and clear here with bright sunshine across the distant mountain ranges. But it was felt the Princess could not risk a drive of six or seven hours.

Drew Says Liberals Aggravated Depression

RENFREW, Ont. (CP) — Hon. George Drew, Progressive Conservative leader, says neither the Liberals nor Conservatives can be blamed for the depression of the 1930s but the Liberals aggravated it by not preparing for it in the late 1920s.

At an election meeting here Thursday night, Mr. Drew referred to a radio address by Prime Minister St. Laurent in which Mr. St. Laurent questioned how ready the Conservative government had been for the depression after 1930.

"A Liberal government was in power when the great depression came in 1929," Mr. Drew said. The Liberal government made no preparations for it although a depression had been forecast.

In another campaign speech earlier at Pembroke, Ont., Mr. Drew said a government of his party would end "witch hunts" for Communists in government agencies and fight Communist activity "under a known law."

He said the Liberal government "denies the rule of law" by dealing with Communists in government agencies without defining their offence.

The government had long abandoned the basic democratic principle that no one should have his freedom threatened or his right to work denied except under a known law enforced by free and impartial courts.

"Employees of the National Film Board were placed under suspicion for months . . . then with a great show of satisfaction they (government members) declared that they had cleansed the board of offenders who are guilty of no offence which this government will define by law."

Mr. Drew said the International Union of Mine, Mill and Smelter Workers is "in a position to paralyze our vital uranium industry." It was led by "a man called Harvey Murphy, European-born Communist who was trained at the Lenin Institute in Moscow where they specialize in political warfare and sabotage."

Truce Talks Progress, No Snags Yet

Top-Level Delegates Scheduled To Confer Again

PANMUNJOM — (AP) — Allied and Communist negotiators held a brief meeting today and apparently ran into no snags in their efforts to clear the final obstacles to a Korean truce despite South Korea's opposition.

Announcement that the top-level delegates will meet again at 11 a. m. Friday (10 p. m. EDT today) indicated that today's 29-minute secret session, the first in 20 days, encountered no major difficulties.

Informed quarters speculated that much of the session was devoted to Communist demands that the United Nations command guarantee South Korean compliance with armistice terms. President Syngman Rhee has threatened to pull his 16-division army out of the UN command and fight on alone to unify his country.

EXCHANGE INFORMATION

There also was speculation that the delegations swapped information on when members of a five-nation neutral supervisory commission could start the job of overseeing a truce.

Gen. Mark Clark, the UN Far East commander, suggested to the Communists in a letter June 29 that negotiators confer to exchange information on the supervisory commission in preparation for signing a truce whether or not South Korea objects.

In their reply Wednesday, the Reds suggested that the full delegations convene to "discuss implementation of the armistice agreement" and to work out various preparations necessary before the signing ceremonies.

MUST CHECK LISTS

One source pointed out that the prisoner exchange agreement already signed calls for the two sides to trade up-to-date prisoner rosters before a truce is signed. It also provides that the lists be checked before the signing.

There has been no announcement of lists being exchanged.

Resumption of the negotiations came after a 20-day recess which followed Rhee's release of some 27,000 anti-Communist Korean war prisoners.

It came on the second anniversary of the first negotiating session.

Rhee refuses to support any truce which does not guarantee unification of Korea soon, by force if necessary.

Queen Visits Carnarvon Castle

CARNARVON, Wales (Reuters)—Queen Elizabeth II today became the first reigning queen of England to demand entrance to crumbling, 13th century Carnarvon Castle.

In a ceremony more than 600 years old, the Queen, in a lavender coat and small cream hat, placed her foot on the first step which leads to the watergate of the castle—and a fanfare of trumpets sounded. It was the second day of her coronation visit to Wales.

The cheering crowds around the castle hushed as the Queen's equerry, Sir Harold Campbell, knocked on the door and said, "I demand admission in the name of the Queen."

The door was thrown open and out came the Constable of the Castle, Lord Harlech, who bore the key to Carnarvon on an oaken tray. "Madame," he said, descending the steps, "I surrender the key of the castle into Your Majesty's hands."

Skunks Win 3 Rounds In Hamilton Battle

HAMILTON (CP)—A wholesale battle is being waged on residential Wentworth street where several families of skunks have laid siege to a couple of homes.

Residents have employed all sorts of tricks with little success against the invaders. The enemy's high firepower has swept the battlefield in every skirmish.

One resident first spotted four of the enemy on a routine patrol in her backyard last Tuesday. Her neighbor tried a bucket of water, but was forced to beat a hasty retreat. The mother skunk and her three babies won the day.

Wednesday night one of the skunks trapped itself in a garbage pail. It protested as only skunks can protest, but humane society officers cleared the air Thursday by dispatching the animal.

It was a moral victory for Wentworth streeters who believed they had reduced the enemy to three.

However, last night the enemy sent five of their number against one home and the owner, armed only with a shovel, was no match for them. It was victory number three for the skunks.

Police Chief Beria Hinted Scapegoat In Power Battle

MOSCOW—(AP)—Laurenty P. Beria, longtime head of Russia's police forces and first deputy to Premier Malenkov, has been fired from the Soviet government, expelled from the Communist party and turned over to his nation's highest tribunal as a traitor. The party newspaper Pravda denounced his today as an agent of international imperialism and an "enemy of the Communist party and the Soviet people." A party communique said Malenkov himself outlined the case against Beria at a recent meeting of the party central committee, which took away party membership and office from the 53-year-old veteran Red.

A separate communique said the presidium of the Supreme Soviet (Parliament) had removed Beria from his posts as first deputy premier of the Soviet Union and minister of internal affairs.

"It was decided also by the presidium that the case on the criminal actions of L. P. Beria should be turned over to the Supreme Court of the USSR," the announcement added.

3 DEPUTIES LEFT

His downfall left Malenkov with three deputy ministers: Foreign Minister Molotov, War Minister Nikolai Bulganin and Lazarus Kaganovich.

The party accused Beria of "criminal activities designed at subverting the Soviet state in the interests of foreign capitalism" and of trying to put his internal affairs ministry "higher than the government and Communist party of the Soviet Union."

Pravda said he had planned secretly to "seize the leadership of the party and the country" in order to restore capitalism.

(In Western capitals, non-Communist observers speculated that Beria is the first victim of the power struggle within the Kremlin following Stalin's death and also that he possibly is being made the scapegoat for the recent East German uprisings and other unrest in the Soviet satellites).

The charge that Beria acted in the interests of foreign imperialism was viewed here as a clear refer-

POLICE CHIEF

Lavrenty Beria Most Feared Man In Soviet

By THE ASSOCIATED PRESS

Lavrenty P. Beria, a squat, scholarly-looking man, has long been looked on as the most feared individual in the Red Soviet empire.

It was Beria who was responsible for keeping and tightening the grip on the satellite world. And it was Beria whose security forces had to share the blame for recent uprising in eastern Europe.

LAVRENTY P. BERIA

Beria (real name Moluta Skuratov) is a Georgian, as was Stalin. As Stalin's official biographer, Beria was one of the outstanding falsifiers of history, the man who purged its pages of those who opposed Stalin.

All his Communist party career has been enmeshed in the grim business of secret police, from the days of the revolutionary Cheka, through the OGPU, the NKVD and up to his late pre-eminence as ruler of an empire of spies, informers and executioners.

LAVRENTY BERIA

Volcano Erupts West Of Anchorage

ANCHORAGE, Alaska (AP)—Mount Spurr, an active volcano 78 miles west of Anchorage, was erupting violently Thursday, hurling solid particles large enough to damage aircraft to an altitude of 20,000 feet, the air force reported.

A cloud of swirling smoke towered an estimated 35,000 feet into the sky.

The air force notified commercial airlines of the eruption.

The area is isolated in the wilderness, with the nearest small communities on Cook Inlet 40 miles away, and no damage or threats to life were reported.

The Alaska Steamship Co. at Seattle reported it was notified the skies were so murky at Anchorage it was almost like dusk at midday.

Well On Way To Goal Of 2 Dozen Children

CARBONDALE, Pa. (AP)—Mr. and Mrs. Rexford Oakley, who would like to have "an even two dozen" children, may yet attain their goal.

Thursday Mrs. Oakley presented her husband with a six-pound, 10 ounce girl—their 19th child.

All but one of the children, whose ages range from 16-month-old twin boys to James, 24, are living.

When the twins were born to the 44-year-old couple in March, 1952, Oakley commented:

"We'd like to have an even two dozen."

Quebec Liberals Win By-Election

QUEBEC (CP)—Quebec Liberals have won their first provincial by-election since 1944 and a legislature seat for their leader, George Lapalme, who has remained outside the Quebec House since he was chosen to head the party in 1950.

While carrying the traditionally-Liberal constituency of Montreal-Outremont Thursday the Liberals saw the Union Nationale government retain the constituencies of Matapedia and Portneuf.

Called to fill vacancies caused by deaths, the by-elections left the standing in the legislative assembly unchanged from July 16, 1952, when general elections were held.

Standing in the 92-seat assembly:

Union Nationale 68; Liberal 23; Independent 15.

Mr. Lapalme, 46-year-old Joliette, Que., lawyer, became the first Quebec Liberal leader to occupy a seat in the legislature since 1948. His predecessor, Senator Adelard Godbout, was defeated personally in general elections that year.

Pint-Sized Plane

Britain Planning Pocket Jet Fighter

LONDON (CP) — A top British plane designer is working on a powerful pocket jet fighter, only a third as heavy and a quarter as expensive as the conventional type.

The pint-sized plane will give nothing away to ordinary-sized competitors except size, claims W. E. W. Petter, who designed the record-breaking Canberra jet bomber used by the RAF. Petter is building a prototype of the little plane, dubbed the Gnat.

He expects it to be a potent anti-fighter or bomber weapon, and at the same time to be four to five times faster to produce than bigger planes.

The statistics listed by Petter smack of the lightweight fighter craft turned out by the Japanese during the Second World War, cashing in on economy and manoeuvreability at the expense of the pilot's lack of armor protection.

HEAVY-HITTING FIGHTER

The resemblance is only skin deep, however. Petter's plans discount the possibility of the Gnat being merely an expendable addition to existing armaments.

What he has in mind is a heavy-hitting fighter, with swept wings, two 20 or 30-millimetre guns, light ejector seat, radio, big body fuel tanks and possible radar range-finding equipment for the guns.

Petter thinks it may be possible to produce as many as 900 Gnats for the £2,000,000 that it costs to buy 215 Sabre jets or other up-to-the-minute fighters.

Petter estimates the combined weight of the necessary equipment plus pilot may total only 2,250 pounds, 40 per cent of the plane's total weight.

He calls his hypothetical craft a practical flying weapon whose short production time and saving on man-hours in construction "makes possible efficient production in many countries which might otherwise not be able to contribute to their own and North Atlantic Treaty Organization defence."

State Dept. Aid Sought In Getting Gas

WASHINGTON (AP)—U. S. state department help in obtaining Canadian natural gas for Michigan and Wisconsin will be sought at a conference July 15.

Representative John Bennett (Rep.-Mich) arranged the meeting which is to be held in the office of Senator Homer Ferguson (Rep.-Mich).

Invitations to the conference have gone to Governors G. Mennen Williams of Michigan and Walter J. Kohler of Wisconsin, and to senators and House members from the two states.

Bennett has been sparkplugging an effort to get Canadian agreement on a Michigan-Wisconsin route for a projected pipeline that would link Alberta's natural gas fields with Eastern Canada's industrial centres.

"DROPPED OFF"

If the U. S. route is followed, gas supplies could be "dropped off" in Michigan and Wisconsin, both of which are experiencing shortages of the fuel.

At the conference Bennett said the state department will be urged to begin talks with Canada aimed at:

1. A treaty between the two countries that would provide for a mutual exchange of natural gas.

2. Convincing Canadian officials that the Wisconsin-Michigan route would be the most economical for the projected trans-Canada pipeline.

Bennett conceded there has been strong Canadian sentiment for an all-Canadian pipeline following the northern shore of Lake Superior.

But he contended this not only would be longer than the Wisconsin-Michigan route, but would be less economical because of the lack of markets in the wilderness north of Lake Superior.

The U. S. route, Bennett said, "would provide expanding and profitable markets for this fuel in the mid-western United States—particularly Wisconsin and Michigan."

MORE ABOUT—

St. Laurent

Continued from Page 1

work, he said the Liberals are "committed" to support a policy of contributory health insurance, administered by the provinces.

His government is ready to assist in getting the scheme under way but Mr. St. Laurent is convinced more than ever that "this is a field which should, as far as practicable, be left to provincial administration."

Two provinces already have full-fledged hospital insurance, but Mr. St. Laurent doesn't think it fair to federal taxpayers if federal contributions are made in only one or two provinces.

NATIONAL SUPPLEMENT

"Federal contributions should be regarded as a national supplement and an evener-out when most of the provinces are prepared to undertake satisfactory schemes.

"And it is Liberal policy to go on improving federal health grants which have done so much to place all the provinces in a better position to discharge their primary responsibility in this important field."

The 12-point policy declaration was mostly a restatement of previously defined Liebral policy on such major issues as housing, communism, price support, the constitution, employment and taxation.

Only the Liberals, he said, could form a stable government at Ottawa, and only the Liberal party has "reasonable prospects" of reducing taxes and keeping its other promises, "because we refuse to promise new expenditures without counting the cost."

ALREADY MADE CUTS

George Drew, Progressive Conservative leader, promised to cut taxes by $500,000,000 a year, said Mr. St. Laurent, but the government had in the last two years already made cuts that totalled that amount in a full year.

"Our national income has gone up every year. We hope it will continue to go up, and if it does, you may be sure that a Liberal government will continue to cut taxes," Mr. St. Laurent aid.

"But we are not going to promise to reduce taxes regardless of circumstances. Neither the Liberal party nor any other party could be sure of carrying out that kind of a promise unless we were prepared to meet expenditures by borrowing money and running up the national debt. And that would be, as Mr. (Finance Minister) Abbott said, trying to buy votes now with our children's earnings."

U.S. Dollar At Discount

MONTREAL (CP)—The U. S. dollar was at a discount of 11-16 per cent in terms of Canadian funds, the Bank of Canada reported at noon today. Thursday's noon rate was 99⅜ cents. Pound sterling $2.79 11-16, against $2.79 13-16.

LOGY, LISTLESS, OUT OF LOVE WITH LIFE?

Don't wake up your liver bile . . . jump out of bed rarin' to go

Life not worth living? It may be the liver! It's a fact! If your liver bile is not flowing freely your food may not digest . . . gas floats up your stomach . . . you feel constipated and all the fun and sparkle go out of life. That's when you need mild, gentle Carters Little Liver Pills. You see Carters help stimulate your liver bile till once again it is pouring out at a rate of up to two pints a day into your digestive tract. This should fix you right up, make you feel that happy days are here again. So don't stay sunk; get Carters Little Liver Pills. Always have them on hand.

The Weather

Peterborough Temperatures:

Today:
Night low....52 Noon.....64
Noon barometer.....29.4

Yesterday:
Highes .....64 Lowest...49

One Year Ago:
Highest.....73 Lowest...59

Official forecasts issued by the Dominion public weather office in Toronto at 9:30 a.m.

Synopsis:

Churchill on Hudson Bay enjoyed a real touch of summer on Thursday with a maximum temperature of 87 degrees. This warm dry air is moving eastward into Ontario, and it gives promise of pleasant sunny weather in all forecast regions today and Saturday.

Regional forecasts valid until midnight Saturday:

Lake Ontario, Georgian Bay, Niagara, Haliburton, Kirkland Lake regions; Toronto, Hamilton, North Bay, Sudbury cities: Sunny and warmer today and Saturday. Winds west 15 both days becoming light at night. Low tonight and high Saturday at Toronto, Trenton, Hamilton and St. Catharines 60 and 80, Muskoka and Sudbury 45 and 80, Killaloe, Earlton and North Bay 50 and 80. Summary for Saturday: Sunny and warm.

Gardiner Predicts Good Prices

ABERNETHY, Sask. (CP)—Agriculture Minister Gardiner Thursday night predicted that Canadian wheat farmers will enjoy wide sales and good prices for the next few years.

Addressing a public meeting here in his home constituency of Melville, Mr. Gardiner took exception to opposition claims that British markets had been lost.

He said that Britain is buying less wheat than during the term of the four-year contract. However, Britain now was purchasing more wheat than before the Second World War.

Mr. Gardiner forecast that Britain will continue to come to Canada for 50 to 60 per cent of its flour mix, meaning sales of 120,000,000 bushels or more a year.

Canadian farmers now could say they had had the most stabilized wheat price over the last eight years that they had ever had. Five years in a row the price had averaged $1.83 a bushel.

Mr. Gardiner said insufficient quantities of such agricultural products as cheese and pork were produced last year to be shipped abroad for sale. In Western Canada, there now were only two product — beef and wheat — for which an export market had to be sought.

Peterborough Hogs, Grain And Produce

FRIDAY, JULY 10

Hog quotations: $33 delivered.
Sow quotations: $23 delivered.
Delivered prices for ungraded eggs: A large 61c; medium 56c; A small 43c; B 40c; C 35c.

Quaker Oats Company of Canada offers the following quotations on Ontario winter wheat: No. 1, $1.55; No. 2, $1.55; No. 3, $1.52; buckwheat, $1.15.

Frank Stranahan Back In Running

CARNOUSTIE, Scotland (AP)—Frank Stranahan, Toledo, Ohio, amateur, rallied with a course-record-equalling 69 in the final round of the British Open golf championship today to get back into the running with a 72-hole total of 286.

Dai Rees of Wales shot a final-round score of 71 for a 286 total and a tie with Stranahan.

Police Chief

Continued from Page 1

ence to the recent riots in Berlin and the release of North Korean prisoners of war by South Korean President Syngman Rhee. The Russian press has charged that these events were related parts of a Western plan to prevent peace.

The government announced Sergei N. Kruglov had been named internal affairs chief. He had headed the ministry until Stalin's death, when it was combined with Beria's ministry of state security and Beria took over.

Pravda gave these details of Beria's offences:

He advanced officials in his ministry on the basis of their personal loyalty to him.

PUT ON BRAKE

He "put the brake by every means possible on decisions of the most important and urgent questions in the field of agriculture. . . in order to undermine the collective farms and create difficulties in our country's food supply."

He tried to "sow enmity between the peoples of the U. S. S. R. and to encourage nationalist tendencies in the individual Soviet republics, at the expense of all-Soviet unity.

He "intentionally held up the realization" of party and government directives and "in a series of cases attempted to distort them."

Pravda continued:

"The incontrovertible facts show that Beria lost the character of a Communist, that he became transformed into a bourgeois degenerate, that he became in fact an agent of international imperialism.

"This adventurer and hireling of foreign imperialist forces gave birth to plans for seizing the leadership of the party and country for purposes of wrecking our Communist party and replacing the policy worked out by the party over many years with a policy of capitulations which would lead in the end to a restoration of capitalism."

Aluminum Plant Makes Terms With 2 Unions

PITTSBURGH (AP)—The Aluminum Company of America reached agreement today with two big unions on new contract terms which will give 30,000 employes an 8½-cent hourly pay boost.

The United Steelworkers (CIO) signed a contract with Alcoa covering 17,000 production and maintenance workers. The increase is effective July 13. The contract will run until July 31, 1954.

The AFL trades council, representing 13,000 hourly-paid workers signed a contract calling for a four-cent hourly increase effective July 1, and another 4½ cents an hour effective July 13.

The big USW announced it would seek a guaranteed annual wage with Alcoa, but no reference was made to it when terms of the contract were announced.

In addition to the wage boost, the USW agreement calls for an additional two cents an hour across the board at plants in Alcoa, Tenn., Badin, N. C.; Bauxite, Ark., Mobile, Ala., Richmond, Ind., and Rockdale, Tex.

The pact with the AFL calls for an additional two cents an hour at the Point Comfort, Tex., works.

Town Decorated For Orange Walk

COBOURG—(ENS)—All is set here for the district Orange walk on Saturday. The town hall is gaily decorated in bunting; long strings of pennants extend across the main street at regular intervals and two huge "welcome" signs have been hung across King street.

A midway opened last night for a three-night run in Victoria Park. Hotels and restaurants expect to do a huge business on Saturday and are stocking up with supplies. The entire police force, both night and day staffs, will be out to handle the large volume of traffic.

The parade route has been laid out so that there will be no tie up of highway traffic at any point, as the regular traffic on No. 2 highway will be routed along University Avenue at the north end of the town.

Two Freight Trains Collide Head-on

PORT ARTHUR (CP) — Two Canadian National Railways freight trains collided head-on near Postans, Ont., Thursday night, injuring five men and spilling 12 cars off the tracks. Postans is 70 miles west of here.

One of the men, an unidentified transient who was riding a flat car, was in serious condition with undetermined injuries.

Four crew members leaped from the trains just before the collision. They suffered minor injuries and were taken to hospital in Fort William.

Railway officials said the cause of the crash was not immediately known. One of the trains was powered by a steam locomotive; the other by a diesel engine.

MORE ABOUT—

Lavrenty Beria

Continued from Page 1

His assumption once again under Georgi-Malenkov's regime of the ministry of interior (MVD) and the direction of the ministry of state security (MGB) was looked on as an indication of tightening at the top of the reins of power.

GOT HIS BREAK

Beria sprang to prominence at the tail end of the bloody purges of the 1930s which made Stalin absolute dictator. Beria's first job was to purge the purgers and then to attempt to heal the wounds of the bloody bath. He reinstated many who had been expelled, called back others from exile. He became a full member of the politburo at the same time as Malenkov, in 1946. They made a mighty combination.

Until his sudden downfall Beria commanded not only the vast secret police in the Soviet Union and satellite countries, but he was in charge of the U.S.S.R's forced labor system.

He also was said to direct the U.S.S.R.'s atomic energy program.

Beria's own organizations were laced with spies of the Communist party apparatus, ruled by Malenkov.

Ease Embargo

Continued from Page 1

Haliburton, Victoria, Dufferin, Simcoe, York, Ontario, Durham, Northumberland, Peterborough, district of Muskoka.

The agriculture department announced earlier this week that the federal government will seek legislation to authorize payment to farmers of the full commercial value of hogs slaughtered. Under the current law farmers are receiving some $75,000. Under the proposed legislation, farmers would receive another $20,000.

Report Rhee Near Agreement

WASHINGTON (AP)—South Korean President Syngman Rhee and U. S. assistant state secretary Walter Robertson were reported today to have made substantial progress toward an agreement under which Rhee would go along with an armistice ending the Korean war.

Well-informed authorities said that according to their latest information the conclusion of a full and final agreement with Rhee by Robertson could be almost instantly achieved, if the 78-year-old Korean leader did not again change his mind.

Some officials said the understanding amounted to an agreement.

All Groups Weaker On Toronto Exchange

TORONTO (CP) — All groups took on a weaker look in early afternoon stock market trading today.

Industrials extended their losses of Thursday. Golds, base metals from industrials, dropping lesser amounts under mild selling pressure.

Seniors were the favorite target in a weaker golds group as Giant, McIntyre and Lake Shore eased between 10 and 25 cents. Juniors showed a wide margin of losses with Campbell Red Lake's 20-cent drop the most severe. Holding companies eased gently.

Western oils and base metals continued their week-long decline amid light trading. In the former group, Calvan, Husky and Gridoil were the weakest stocks while in the latter, Smelters, International Nickel and Ontario Pyrites bore the bulk of the losses.

Head Toward Climax Of Cobalt Celebrations

COBALT (CP)—Fiftieth anniversary celebrations in this silver-mining town headed toward a climax today and the hundreds of visitors were beginning to feel the strain.

But today's schedule was heavy with men's and women's log-sawing contests, baby carriage races and a track and field show before the week-long shindig's final day Saturday.

Police held up traffic on No. 11 highway Thursday and a girl's wagon race was held on a steep hill. Also held were a bait-casting competition, a horseshoe-pitching contest, a bicycle race and a children's fashion show.

Winners of the horseshoe pitch were Bill Losen of Toronto, E. Hill of Haileybury and W. Scott of New Liskeard.

Bad Harvest Weather Spoils Bumper Crop

ST. THOMAS (CP)—Some of the worst harvest weather for hay in years is spoiling considerable quantities of the expected bumper crop and has resulted in Elgin farmers burning it in their fields.

A. V. Langton, agriculture representative here, says he has seen two district farmers burning hay in the last two days, and has heard reports of other hay burnings.

"This is wrong and wasteful," Mr. Langton said Thursday.

New York State Power Plant Passes

WASHINGTON (AP)—The U. S. federal power commission today announced approval of New York state's proposal to build the American half of the $600,000,000 St. Lawrence river power project.

The Canadian part of the project is to be built by the Ontario hydro-electric commission.

The power commission said in its announcement that it was denying the rival application of Public Power and Water Corp., Trenton, N. J., for authority to build the big project.

Celebrating Couple Lived 50 Years On Same Farm

MARMORA, (ENS) —Mr. and Mrs. Charles Wells of Marmora township Wednesday celebrated their 50th wedding anniversary, being "at home" to their friends for the occasion.

In the afternoon and evening many extended their congratulations in person.

Mr. and Mrs. Wells have lived on the same farm in Marmora township for the whole of their married life. It is situated in the northern section of the township in what is familiarly known as the Wells Settlement. They had seven sons and three daughters. Seven of their children were present for the celebration. Two sons, Vaughn and Irwin, and one daughter, Gertrude, died some years ago.

For many years Mr. and Mrs. Wells have been staunch supporters of the Free Methodist church on the Marmora circuit. On the evening of the golden wedding, a program of songs and brief addresses by friends and neighbors, with an address of appreciation and three presentations rounded off a fitting celebration. The presents were a floor lamp and upholstered rocking chair from the members of the family, a chrome rocker and wall mirror from the community and a bedspread from the members of the church.

Lunch was served at the close.

Big Guns Fired In 3rd Round Of Golf Tilt

TORONTO (CP)—The big guns fired late today as the third round of the Canadian Open golf championship got under way in ideal weather.

The trimmed field sent 102 away, scores of 154 and under qualifying after the half-way mark Thursday. There will be a further cut to 60 lows and ties tonight.

Early finishers were well over par for the three rounds although Bernie Johnson, Hamilton Amateur, posted a 70 today against the Scarboro course's par 71 and had a three-round total of 223—10 strokes over for the distance.

Stan Leonard of Vancouver, starting nine strokes off the pace with 145, was two under par after seven holes. Leonard birdied the sixth with an 18-foot putt and also the seventh where he chipped two feet from the pin and sank the putt. He missed a birdie at the fifth when his 30-foot putt rimmed the cup.

Phil Farley, host club amateur aiming at the low-amateur honors, also working on a 145, was one under after seven.

Bill Givens, Scarboro amateur who shot a hole in one Thursday, took 74 for a three-round score of 224.

Two of the quartet tied for the lead with 136—Wally Ulrich of St. Paul, Minn., and Ted Kroll of Utica, N. Y.—got away at 1:30 p. m. EDT along with Tommy Bolt, who had 137. The final threesome, off at 2 p. m., was made up of Gardner Dickinson of Panama City, Fla., Leo Biagetti of Baltimore, also sharing the 136 lead, and Pat Fletcher, Canada's hope from Saskatoon who was one stroke off the pace.

Raise Price Of Coffee Three Cents In U.S.

NEW YORK (AP)—Most major roasters across the U. S. have raised wholesale prices of coffee by three cents a pound, it was learned today.

The increases reflect rising prices on the coffee futures market. Futures are up around six cents a pound because of reports of heavy frost damage to the next Brazilian coffee crop.

Roasters said they were following the usual custom of allowing their customers to buy 30 days' supply of coffee at the old price "within a given limit."

"This should mean that retail coffee prices should not go up for about 30 days," one roaster explained.

Doctor And Family Reside In Marmora

MARMORA (ENS).—Dr. and Mrs. John S. Stock and their son and daughter have taken up residence in the house just west of Crowe River bridge, built and occupied for a year or so by Mr. and Mrs. Roger Young, who have moved to Sylvan Lodge, Belmont Lake.

Dr. Stock is a native of Belleville, where his father was city treasurer for a number of years. Mrs. Stock is a daughter of John E. Dickens of the same city.

Dr. Stock will have his office open this week.

ABANDON ATTEMPTS

West Berlin's Mayor Ernest Reuter, in a radio speech marking the Soviet's restoration of free travel across the border, told East zone workers Thursday night their pressure had forced the Soviets to abandon attempts to build a Communist state in their zone.

"Past events now show that one can achieve something even unarmed," Reuter declared. "we have achieved much and will achieve more."

Despite the lifting of travel restrictions, slowdown strikes continued in many East Berlin plants Thursday. The U.S. state department's newspaper, Neue Zeitung, said there were demonstrations against Communist bosses in several factories.

of the Royal Canadian Horse Artillery. The soldiers were provided with walkie-talkies.

Police, holidayers, railway men, Indian guides and forestry officials have joined in the hunt for the missing child. Newcomers included 16 volunteers from Redditt, Ont., and 11 Indians from Minaki.

So far, not a single clue has been uncovered.

Two airplanes, one from the lands and forests department and the other from a private airways, shuttled back and forth from Kenora most of the day ferrying supplies and men.

Cheese, Produce And Livestock

TORONTO PRODUCE

TORONTO (CP) — Churning cream and butter print prices were unchanged here today.

Sales were firm at the egg market. Quotations for graded eggs in fibre cases were: A large 69-70; A medium 67-68; A small 50; grade B 47 grade C 42. Wholesale to retail: A large 74-75; A medium 72-73; A small 55 grade B 52; grade C 47.

Butter solids: first grade tenderable 58 cents; non-tenderable 56½-56¾; 40-score non-tenderable 57¾.

CHICAGO GRAIN

CHICAGO (AP)—Grains opened lower in fairly active dealings on the board of trade today.

Wheat was subjected to quite a bit of hedging pressure and investment demand was timid in view of today's U. S. government crop report and new uncertainties in the world situation.

Wheat started ⅝-1½ cents lower, July $1.92½-1.93; corn was ⅛-¾ lower, July $1.54½, and oats were were one cent lower to ¼ higher, July $2.72½-½.

TORONTO FRUIT

TORONTO (CP) — Wholesale fruit and vegetable price changes quoted here today were: beans, Leamington, 11-quart basket, green or waxed 75-1.00; new beets 40-50; cherries, leno, six quart $1.50-2.00; cucumbers, field, 11-quart basket $1.25; gooseberries, six-quart basket $1.25; lettuce, Cdn., dozen 60-65; onions, green dozen 30-35; rhubarb, dozn 40-50; radishes, dozen 20-25; strawberries, 27-quart crate $7.50-9.00; tomatoes, hot house lb. No. 1 35-40; Leamington No. 2's and domestics $2.25-2.50; red currants, six-quart basket $1.00-1.25.

Potato prices: new Ont., truck-$1.85-2.00; to trade — $2.00-2.25; P. E. I., cold storage—$1.85.

WINNIPEG GRAIN

WINNIPEG (CP)—Grain prices continued to move narrowly and generally lower in early trade today on the Winnipeg grain exchange.

Trade was mostly routine. Rye and flax again showed the widest declines.

Oats and barley attracted some light export interest. Shipper buying came out in rye in a small way.

11 a. m. grain prices:

Oats: Jly ⅛ higher 70¾; Oct. unch 70½-B; Dec. ⅛ lower 69⅝.

Barley: Jly unch 1.15⅛B; Oct. unch to ⅛ lower 1.14½-B; Dec. ⅛ higher 1.11½.

Rye: Jly ¾ lower 1.23⅜A; Oct. ⅞-1 lower 1.26½; Dec. ⅞ lower 1.28⅜.

Flax: Jly ½ lower [illegible]; Oct. 1 lower 2.92; Dec. not open.

BUFFALO LIVESTOCK

BUFFALO, N. Y. (AP)—A few good southern steers 19. Heavy cutters, medium fat and fat cows 10.50-12.50; light cutters 9.50-10.50; canners 7.50-9.50; fat yellow cows 9.50-10.50; good heifers 14.50-15.50; sausage bulls 15-16. Calves 100; medium and good 18-21; heavyweights 17-20. Heavy bobs 15-18; light bobs and boners 15.

Hogs 950; good to choice N. Y. state hogs 26.50-27; top 27m50; a high since 1950. Boars 10-13; sows not established.

Sheep and lambs 350. Market not established.

Accept Tender For Painting Public School

LAKEFIELD (ENS)—The Public School Board has accepted the tender of T. R. Jewell for painting the exterior and one room of the school.

Also accepted was the tender of W. Bolton for carpentry. All work must be completed by August 28.

Principal E. G. Sloan reported the June attendance was 310, an average of 92.93 per cent. Total attendance average for the year was 347 or 93.54 per cent; actual pupils during the year, 54,160½. Mr. Sloan also presented a list of repairs needed at the school.

Payment of accounts totalling $31.17 was authorized.

Elders Of Church Inducted Into Office

STIRLING (ENS).—A very impressive ordination service for the newly-elected elders was held at St. Andrew's Presbyterian church.

The Moderator of the Session, Rev. W. H. V. Walker conducted the service and called upon Hartley Tompkins, Donald Fargey and Roy Eggleton to answer prescribed questions and they were solemnly set apart to the office of eldership.

Rev. Hornsby of Belleville delivered the ordination sermon and outlined the duties and responsibilities of this office—the highest a layman can hold in the Presbyterian church.

The altar was beautifully decorated with baskets of roses, delphinium and orange blossoms.

Impressive Record

EDMONTON (CP) — Between 1946 and 1951 inclusive at the Royal Agricultural Winter Fair in Toronto, Alberta won 31 grand championships, 16 of them coming in judging of grains and seeds. The province also won 12 reserve grand championships in this division.

Will Continue To Cut Taxes If National Income Up—P.M.

By Canadian Press Staff Writer

Tax reductions and a contributory health insurance scheme are back in the forefront of the election campaign. Prime Minister St. Laurent outlined his party's attitude to these and other matters Thursday night in Vancouver. Of the former, Mr. St. Laurent said the Liberals will continue to reduce taxes if the national income keeps rising and other circumstances warrant. His government also was ready to help in a "sensible and practical" contributory health scheme if "satisfactory" arrangements can be made with the provinces. Meanwhile, Hon. George Drew, Progressive Conservative leader, charged that the Liberal government of the late 1920s aggravated the depression of the 1930s by not preparing for it despite warnings that depresion was imminent.

He said neither Liberal nor Conservative governments could be blamed for the depression. But a Liberal government was in power when depression came in 1929. And it was made more severe because the Liberals did not prepare for it.

Mr. St Laurent said his party is committed to a policy of contributory health insurance to be administered by the provinces. He was convinced "this is a field which should, as far as practicable, be left to provincial administration."

CAREFUL OF PROMISES

In an obvious reference to Mr. Drew's promise of $500,000,000 in tax cuts, Mr. St. Laurent said he makes no promise of reductions "regardless of circumstances." No party should promise that unless prepared to borrow money and increase the national debt.

"And that would be, as Mr. (Finance Minister) Abbott said, trying to buy votes with our children's earnings."

He referred to the Progressive Conservative challenge to say whether the Liberals will retain farm price support and whether he will remain Liberal leader if elected.

If returned Aug. 10, he would "carry on as prime minister just as long as I feel I am capable of performing the duties of that office effectively."

Farm and fisheries prices support would continue as protection against calamity and disaster. But the government's chief aim would be to help find markets at prices higher than the support price level.

OPPOSES CONTROL

Dealing with communism, Mr. St. Laurent said his government opposes laws designed to control men's political opinions. Drastic legislation, including emergency powers to deal quickly with unforeseen and unforeseeable circumstances, already existed as protection against subversion and sabotage.

This statement was in sharp conflict with one by Mr. Drew in a campaign speech Thursday at Pembroke. Mr. Drew said the Liberal government denies the rule of law by dealing with Communists in government agencies without defining their offence.

"We should stop being soft about communism but any action should be done by law."

He said the government long ago abandoned the principle that "no man or woman shall have their freedom threatened or their right to work denied except under a known law, defining the offence and enforced only by our free and impartial courts."

In Brantford, Defence Minister Claxton said in a campaign speech that "so far the only distinctive feature of the Conservative campaign has been the steady stream of distortion and misrepresentation of the armed forces."

Out of each $1 spent on the armed forces, the Air Force got about 50 cents. The United States Air Force got 36 cents out of every $1 of the U.S. service budget.

DISHONEST FIGURES

"This makes it plain why the so - called comparable costs per man used over and over again by the Conservative party are so dishonest . . . we spend more proportionately on construction — largely airfields, hangars and accommodation—and a good deal more on equipmen. because of our tremendous emphasis on air force."

At Antigonish, N.S., Trade Minister Howe said a policy advocated by the Progressive Conservatives of keeping Canada's raw materials in this country "could result in war."

He told a Liberal nomination convention that if Canada withheld raw materials from other countries they would retaliate.

"They want our raw materials but not our finished products," he said. "In other words, you would turn a saleable product into an unsaleable product."

Claxton Says PC's Guilty Of Dishonest Distortion

BRANTFORD — Defense Minister Claxton Thursday charged the Progressive Conservatives with issuing a steady stream of distortion and misrepresentation of Canada's armed forces. Mr. Claxton, speaking in the Brantford Collegiate auditorium, charged the Conservatives with "just about as dishonest a performance as we have seen in Canadian politics."

The only distinctive feature of the Progressive Conservative campaign so far, Mr. Claxton declared, has been the attack on the cost of Canada's armed forces. He said: "It is shocking that a party should stoop so low or be so stupid as to believe that it could get anywhere with such stuff."

Canada, today, has one of the most formidable fighting formations in Europe, Mr. Claxton said. But he added that it costs more to equip an air division than a corresponding formation of ground forces.

To train, equip, transport and maintain an air division of Sabre fighters overseas for a year costs about $600,000,000. The cost of an infantry brigade is about one-tenth as much.

TAKES 50 PER CENT

The air force in Canada takes about half of every dollar spent on the services, Mr. Claxton explained. In the United States the air force gets about 36 cents.

"This," he said, "makes it plain why the so-called comparable costs per man used over and over again by the Conservatives are so dishonest."

The minister accused the Progressive Conservatives of using phony figures to arrive at their conclusions. He said that the cost of pay and allowances and other personal expenditures per man in the United States and Canada are about the same. U.S. pay is higher, Canadian clothing costs a little more.

He said that Canada spends more proportionately on airfields, hangars, accommodation and equipment because of Canada's tremendous emphasis on air force.

Progressive Conservative charges that his department had bought enough carpet to cover six miles of Toronto streets brought this reply from the minister: "Now we did not buy these carpets for Toronto streets. We use carpets to provide less than a square yard per man in the regular forces."

EXAGGERATED IMPORTANCE

Exaggerated importance to minor items taken from lists that are public information is given by the Progressive Conservatives, Mr. Claxton said.

With regard to ties, he said these articles cost between 30 and 40 cents each. They are issued on the basis of two a year. "Do you know any people who wear ties at all who spend as little as 30 cents a year on ties?" he asked.

The Progressive Conservatives are so desperate for election material they misrepresent and distort facts, ignore the truth and repeat their assertions in the face of knowledge that they are wrong, Mr. Claxton declared.

"The members of our navy, army and air force have a record of which they can be proud. They know they could not have made that record had there been bad administration."

Replying to charges of scandals at Petawawa involving theft of tanks, a railway siding and scores of other items, Mr. Claxton made this explanation:

"No tanks were stolen. The turret of an old tank used as a target was sold as scrap; no railway siding was stolen. Rails valued at $505.50 were sold as scrap. These rails had not been used since shortly after the end of the war. Those involved were tried and sentenced and the full value was collected."

NEWFOUNDLAND PICNIC — Prime Minister St. Laurent has his lunch picnic-style while campaigning in Newfoundland for the August 10 federal election. Sitting on the grass is Premier Smallwood, of Newfoundland. Others are Myles P. Murray, provincial minister of affairs, and James Power, Liberal candidate for St. John's West. They paused in the Ferryland district near St. John's.

Claxton On Whirlwind Tour Visits Toronto Plants

TORONTO — Defense Minister Claxton, on a six-hour tour Thursday of Peel riding, found time to:

Tour the Canadian Arsenals Ltd. plant at Long Branch;

View the Canadian Army's old Long Branch rifle ranges;

Inspect aircraft and engine production facilities of Avro Canada Ltd. at Malton;

Lunch at the Queen Elizabeth Lodge at Mississauga Rd. and the Queen Elizabeth Way, and

Speak at a garden party at the Toronto Township home of A. J. C. O'Marra, Liberal candidate for Peel.

He almost didn't make it. The special railway car that carried him from Ottawa was not detached at Union Station until the last minute. A few minutes more and the defense minister would have been bound for Western Ontario.

INSPECT GUNS

At the Canadian Arsenals plant, Col. Jack Leavens, the works manager, conducted the Claxton-O'Marra party along the assembly lines of 50-calibre Browning machine guns, standard armament in the RCAF's F-86 Sabre fighter.

At the rifle ranges Mr. Claxton reiterated a previous government undertaking: To transfer ownership of the unused property to the province whenever the province offers a suitable replacement.

At Malton, President Crawford Gordon Jr. acted as guide on an extensive tour of Avro Canada's two manufacturing divisions, those devoted to the production of aircraft and engines.

"This is one of the finest manufacturing plants I have ever seen," Mr. Claxton told members of his group.

They saw long lines of CF-100 all-weather fighters in various stages of assembly and were on hand to see one machine receive its final checks prior to acceptance by the RCAF.

In the engine plant they watched as workmen assembled rows of Orenda turbines eventually destined for the CF-100 and for the F-86.

After lunch the party adjourned to the O'Marra residence on Maplewood Ave., Pinewood Heights, where several campaign workers had gathered.

"It strikes me funny," he said, "to see the Tories and the Tory newspapers quarrelling about what Liberal introduced family allowances."

The Liberal Party had a good chance of winning Peel from the Progressive Conservatives, Mr. Claxton said.

Gordon Graydon, the present MP, won the riding in 1949 with a majority of 2,782 votes. "I suggest," he said, "that this is very fair fighting ground."

In Mr. O'Marra, a 32-year-old Toronto lawyer, the Liberals had given Mr. Graydon worthy opposition.

Appeal In 95 MPH Case

TORONTO (CP)—The attorney-general's department will appeal the dismissal of a dangerous driving charge against Edward Levy of Weston, who police said sped along the new Toronto-Barrie highway at 95 miles an hour. C. R. Magone, deputy attorney-general, said a county judge should review the case. Levy was acquitted Wednesday by magistrate Gordon Foster in Barrie.

HERE MONDAY

ELLEN FAIRCLOUGH

Canada's only Lady M.P. in the last Parliament will be in Peterborough on MONDAY as Guest Speaker at the Progressive-Conservative Rally. She is Mrs. Ellen Fairclough of Hamilton, and was elected to the House of Commons at a By-Election in 1950 under the P.-C. banner. She has also been an Alderman and a Controller of the City of Hamilton.

In private life she is a Certified Public Accountant, and a housewife and mother. She has taken a keen interest in I.O.D.E. work, also the United Empire Loyalist Association and the Zonta International. She has had considerable experience in industrial labour problems, and of course with civic matters concerning the ladies.

The Progressive - Conservative RALLY is being held MONDAY in the LEGION HALL, Murray Street, at 8:15. Other speakers will be Senator Iva Fallis, Hon. Harold Scott, and the P.-C. candidate, Gordon K. Fraser.

A cordial invitation is extended to all citizens of Peterborough Riding to attend.

Not Moment For Quarrels Martin Tells Political Rally

OWEN SOUND—Federal Health Minister Martin praised the co-operation he has received on projects from Dr. Mackinnon Phillips, the Ontario Minister of Health, during a political meeting here Thursday night. He said that this was not the moment when the senior levels of government should be quarrelling.

Mr. Martin insisted that the Liberal Party was the "only truly national political party in the country." Of Mr. St. Laurent, he said: "I doubt if we have ever had a Prime Minister who has made such a wide appeal to Canadians of every political color."

No previous government had ever faced the Canadian electorate with such a record as the Liberal Party now presented, he said. "Do you think we couldn't compete with the opposition in making promises? Of course we could, but we think the intelligence of the Canadian public is too high. We tell you, quite frankly, why our taxes are so high."

SUPPORTING BENNETT

Mr. Martin spoke in support of Colin Bennett, MP for Grey North, in the Owen Sound city hall. There were 150 present.

"In 1939, we were spending on national welfare 8.5 per cent of the budget—we are now spending 8.3 of the national income. We are not spending any more, in proportion to national income, than we were in 1939," said Mr. Martin. "Yet some people say we are spending too much on social welfare."

In the past four and a half years, 46,000 hospital beds had been provided by federal, provincial and other agencies to relieve the shortage of hospital accommodation, said Mr. Martin. He had previously been reported as setting the figure at 53,000 beds in a speech at Tecumseh, June 30, and that there was a continuing shortage of 20,000 beds.

After his address, Mr. Martin was asked to clarify his remark on welfare spending in 1939.

"We were spending 8.5 of the budget in relation to national income," he said.

It was suggested that the budget and national income were two different things.

"It was 8.5 of the national income that we were spending. We are now spending less on welfare in relation to our national income than we were in '30," Mr. Martin stated.

Take It Easy

THE HAGUE (Reuters)—Bakers appealed to doctors to go easy on telling overweight patients to shun bread. The International Congress of Master Bakers said bread consumption was declining seriously, and that unnecessary restriction of bread to healthy people would harm bakers.

A Ripe Opportunity

It is becoming increasingly obvious that the Communist softening towards the West and in East Europe national regimes is dictated as much by weakness and internal confusion as by a willing change of policy. All over eastern Europe there are signs of the Communist crust cracking. Thus the Kremlin whip is being restrained, lest it flay to shreds the inner body of Communism in the satellites and even in Russian provinces. The present crises provide the best opportunity western political democracy has had since the 1920's to proselytize eastern Europe and to come to favourable peaceful terms with Russia. The opportunity is not to create and compound open revolt in Communist countries, or to intervene directly and by force. It is not, as Sebastian Haffner shows in his article printed elsewhere on this page, an occasion for the West to take up arms to demolish Communism. Rather, the opportunity is to appeal to the people of those countries through their governments, now softened in attitude because of the people's discontent, and dissension among the leadership. The arrest of Beria dramatizes the weakness.

• • •

No less an expert in Communism and Russian methods than Premier Tito of Yugoslavia has pointed out the West's new and great opportunity which the turmoil presents. Internal weaknesses and past mistakes have forced the Kremlin to review its policies and other Communist regimes to change their methods. The time is ripe for the West to come to an international settlement. Western terms should not require more from Russia (or, in Asia, from Red China) than is reasonable. The West cannot expect the bear to change its hide. To make unreasonable demands would merely help the uneasy governments in the satellites to consolidate their populaces behind them.

• • •

In the last two days there have been indications that the West is not altogether unaware of its opportunity. President Eisenhower has reaffirmed his administration's recognition of the desirability of German re-union. Nothing could more strongly appeal to the German people on both sides of the fence than a clear Western call and active support for a united Germany. Another indication of opportunity being seized is the resumption of the Korean armistice talks. The third straw in the wind is the report of Churchill's insistence that his Foreign Office press for a Big Power conference, to include Russia, at the forthcoming meeting of American, French and British foreign ministers in Washington.

Churchill's Health

Some wiseacres have been saying that Sir Winton Churchill's illness is "diplomatic"; that is, that he is not really ill at all, but has retired from the political scene for a while so that a reason could be provided for postponing or abandoning the Bermuda conference. The reasoning behind this supposition is that the United States was strongly opposed to holding such a conference and pressure was brought on the British and Churchill as author of the scheme. The "diplomatic" illness therefore gave Churchill and the British Government a face-saving way out of the conference.

The notion is poppycock. Churchill is not the man to back down, or if he has to back down, he does not need a face-saving excuse. The reason that Churchill has gone to his country home for a rest is that he needs a rest. He is not well.

His condition appears to be more mental than physical. Sir Winston has borne an unusually heavy load for many years and he works and plays hard. In the last months he has been Prime Minister, Foreign Minister and Western world spokesman. He is seventy-eight, and the pace has proved too fast and furious even for Churchill. His memory has become uncertain, and the most significant phrase in the reports which have been issued was about his difficulty in concentrating.

The long summer rest will, it is hoped, restore the great man to good health. One London report says that there is a feeling in political circles that he will be back in Downing Street at the end of the summer or early in the autumn. There is another, and pretty responsible report, that Sir Winston will soon retire permanently. Churchill's resilience is remarkable; already his "rest" in the country is as active as the busiest days of other people half his age. Yet the human nervous system, stretched too often too many times, becomes like old elastic, too thin and tired to bear further tension without breaking or losing its resilience entirely. Sir Winston is said to have received "serious warnings" from his doctors. The British people should heed them.

Motoring By Canoe

Peterborough is the home of the finest canoes in the world; in fact the Canadian canoe is the Peterborough-made canoe. Peterborough is also the manufacturing centre of the best outboard motors. With these two items in mind, we relate the following news account from Shawinigan Falls, Quebec:

—(CP)—Gerald W. McLeary, 45, a plant manager for Shawinigan Chemicals Ltd., was drowned Friday night after rescuing his five year-old daughter.

Mr. McLeary, his wife, eighteen year-old son and daughter were in a motor-equipped canoe when high winds turned it over. His wife and son managed to hold on to the canoe but he had to swim, heavily clothed, after his daughter and bring her back. The effort tired him and he sank.

His family spent the night in the woods after the wind blew them and the upturned canoe ashore.

A verdict of accidental death was returned at coroner's inquest today.

This sad accident happened in "a motor-equipped canoe". While we can praise separately the Peterborough-made canoe and the Peterborough-made motor, we cannot commend them together. They simply do not belong together. A canoe is a graceful, light and temperamental craft and canoeing, as one early English traveller in this country remarked, is "the very poetry of motion". But the poetry quickly turns to tragedy if a motor is used to replace a paddle, for the motor's temperament conflicts with the temperament of the canoe.

Some canoes are made adaptable to motors, and in northern lakes and where rapids are to be encountered, canoeists on business (not pleasure-bent) can with a heavy canoe and considerable skill and experience safely use a motor. But this is not for a family picnic jaunt, and not a practice safe to follow in these Kawartha waters.

The week-end before last in this district was appalling for its list of motor accidents and drownings. Last week-end, by contrast, was free of fatalities. We mention the unhappy Shawinigan Falls accident in the hope that a word of precaution will help to keep our holiday week-ends as free from serious accidents as last week-end was free of them.

The End Of Sea Travel?

ICAO whose headquarters are in Montreal has been adding up some figures. ICAO is, in case you have trouble with initials, the International Civil Aviation Organization. The answers which ICAO has toted up may spell the beginning of the end of travel by ship. Last year, ICAO found that air travel from Canada and the United States to the four corners of the world exceeded sea travel by thirty percent. Nearly 1,500,000 persons came and went by air. In the United States airline passenger totals surpassed Pullman traffic by twenty percent., and the airlines carried a third of all rail, bus and air traffic moving distances of more than 120 miles. Thus, the aeroplane may be superceding more than ships.

ICAO puts its figures dramatically: world airlines flew 45,000,000 passengers 24,545,300,000 passenger miles — "the equivalent of flying the population of New York or London from Montreal to Western Europe".

Can it possibly be that travel by sea is doomed? Perhaps, but voyages will still be made, even if a sea voyage has as archaic a flavour as a trip to the top of Montreal's mountain by horse-drawn carriage. People like to suffer a sea-change, and a sea-change cannot be had properly from an aeroplane seat. Thus, even last year when the majority of travel-miles across the Atlantic and other seas were by plane, cruises were still sold out. And, whether ICAO admits it or not, the *Queen Elizabeth*, the *Queen Mary* the CPR *Duchess* ships, the Cunard *Franconia* and other vessels did a thriving trans-Atlantic business. The reason? Well, one was that most ocean fares are cheaper than air fares. Another reason is that some people like to travel by ship and do not like to travel by plane.

The preference may disappear in the wake of jets. To be able to go from London to Paris in a quarter of an hour will be attractive, and the jet airliner service prophesied between London Montreal and New York by 1955 will have many good points. Comets (the humanly-engineered kind) are as fast as the sun, as smooth as a mill-pond and as quiet as a dove. A persisting trouble with airliners is that they are expensive and fares must therefore be expensive; it costs as much to produce a seat in an airliner as it does to build a school classroom. If we can't afford our schools, how can we afford to travel by airliner?

NOTES AND COMMENT

Spaghetti-eating, a Roman society of gourmets says, is on the upgrade. Yes: up and up and up and (suck) up!

Funny how people who live from hand to mouth always seem to have such small hands and such big mouths.

EAST GERMAN REVOLTS

'Liberation' Is Nonsense Talk

By SEBASTIAN HAFFNER

THE REVOLT in East Germany has provided a warning to Russia, but, properly considered, it has also provided a warning to the West. It has proved the brittleness of at least one Communist satellite Government; but it has also shown up the hollowness of the slogan of "liberation."

The facts which the historic events of June 17 have made clear beyond reasonable doubt are four: first, the possibility of popular revolution despite police terror and totalitarian indoctrination; second, the powerlessness of the East German Government to resist and master a popular uprising by its own authority; third, the capacity of Russia to break such an uprising by military force; and fourth, the complete incapacity of the West to intervene in any effective manner or to deter the Russians from bringing force to bear. The fourth fact has been rather less commented on than the first three. But it is quite as important, and to pretend that it has not been proved as conclusively as the first three would be sheer self-delusion.

✧ ✧ ✧

THIS INABILITY of the Western Powers to exert any forcible influence on what happens on the other side of the Iron Curtain was implicitly proven by the complete passivity of the Western forces in Berlin and Germany on June 17 and after, and was underlined by the rather pathetic communique issued on the night of June 17 by the three Western Commandants in Berlin, in which they meekly declined all responsibility for what had happened in East Berlin. The Western inability to intervene in Eastern Europe has now been made explicit by President Eisenhower in a statement at his press conference on June 30.

✧ ✧ ✧

THE PRESIDENT, after offering America's "pity" and "admiration" for the revolts that had taken place in Eastern Germany and Czechoslovakia, was asked if the United States planned any measures to help the nations of Central and Eastern Europe to liberate themselves from Russian control. He replied that Europe's struggle against tyranny had stirred the "conscience" and "sympathy" of America, but that "there is no thought of taking physical action of any kind that could be classed as intervention."

✧ ✧ ✧

THIS is clear and unambiguous. Nor is it, in itself, in any way a reprehensible statement. It is simply stating an inescapable truth. There is not the slightest possibility, now or in the foreseeable future, of America's intervening in Eastern Europe by forcible physical action which would involve a danger of war. The reasons, both of them obvious, are two. First, the physical balance of military power in Europe is not now and is not likely to be in any foreseeable time such as to allow the Americans or even all the Western Powers together to take offensive action in Europe beyond the areas now occupied by them. Secondly, the American forces in Europe are integrated with those of America's European NATO (North Atlantic Treaty Organisation) partners, and NATO is a strictly and exclusively defensive alliance. The NATO forces in Europe can only be ordered to fight if all fourteen Governments agree to give the order, and they will not and cannot do so under the terms of the North Atlantic Treaty unless there occurs an act of aggression against one of them in Europe. A revolt in Eastern Europe and Russian action to suppress it is no such act of aggression. It is therefore only honest and straightforward to say openly, as President Eisenhower has now done, that there can be no thought of American — or Western — intervention by force.

But now that this admission has been made, two consequences should be drawn from it with equal honesty and forthrightness.

✧ ✧ ✧

THE FIRST is that all talk of an American "liberation" of Eastern Europe should be stopped. It is dishonest talk. The American Republic an Administration knows full well, as President Eisenhower's statement proves beyond a shadow of doubt, that it cannot and will not "liberate" Eastern Europe in any sense which is normally attributed to this term. It cannot and will not forcibly intervene to restore national or individual liberty to the Eastern Europeans, not even if and when they themselves rise and thereby risk bringing down increased repression on themselves. In these circumstances to arouse in them hopes of "liberation" is cruel deception, and to encourage them to rise in revolt — as some American-sponsored radio stations continually do — in the hope of thereby giving a cue to their "liberators," is criminally irresponsible.

✧ ✧ ✧

SECONDLY, America should face her responsibility for translating her "sympathy," "pity" and "admiration" for the East European peoples into some concrete and useful action. Since this action cannot consist in forcible intervention, it can only consist in negotiation with the Russians. By such negotiation, it is at least possible that — by way of mutual give and take — a Russian military withdrawal from part or all of Eastern Europe could be procured and that in this or other ways the fate of the Eastern Europeans could be alleviated; indeed, some of them might be put into a position where they could "liberate" themselves from their own Communist Governments, once Russian troops had left their territories. Obviously, since a Russian military withdrawal cannot be enforced, it can only be achieved by mutual concessions — for instance, in terms of corresponding military withdrawals of the Atlantic Powers from Western Europe.

✧ ✧ ✧

WHETHER such a mutual disengagement in Europe is now possible or not cannot be said with certainty on the basis of mere speculation. It can only be tested by negotiation. But one thing can be said with certainty: In the light of President Eisenhower's frank avowal of the impossibility of forcible intervention in Eastern Europe, negotiation with the aim of mutual disengagement is the only way in which America, and the West as a whole, can help the peoples of Eastern Europe to reassert their independence; and to refuse such negotiations — as the Americans seem to be advocating — can only perpetuate the subjection of Eastern Europe about which Americans profess to feel so deeply. The present American Government seems to be in the curious position of having to confess that it can do nothing for Eastern Europe by force, and yet at the same time being too proud to do something for Eastern Europe by diplomacy.

PERPETUAL EMOTION

The C.C.F's Peaceful Disaster

(MONTREAL GAZETTE)

A CCF speaker has declared, once again, that "nothing could be as disastrous as real peace" to Canada. David Lewis, national vice-president of the party, told a Toronto Labor Council committee that "people who fear the consequences of peace are not likely to put their heart and soul into winning it."

The opposition to peace which Lewis ascribes to Allied leaders seems to be evident only in CCF speeches. This is because the "peace depression" bogey the CCF is so intent on selling to Canadian voters just does not exist.

The arrival of peace, for instance, will not affect the development of Alberta oil, Kitimat aluminum or Ungava iron. On the contrary, it may speed their development, as it will allow for increased home and industrial building by releasing steel supplies that are currently short.

Even the defence program itself cannot be vitally affected by the arrival of peace in Korea. The arms programme may be stretched out, but its final aim, of a strong Western defence, cannot be decreased. There is no prospect of an overall, or a permanent, peace contract with the Russians.

Of the 15 per cent of national production in Canada and the United States which is presently devoted to defence, only three per cent is directly supplying Korea. Canada and the U.S. will continue, for a long time to come, to build tanks and planes, trucks and jeeps and cannon for their own and Allied forces all over the world.

Behind these facts are others, based on lessons learned in the 1930s and 1940s, which assure buying power in America. Though real peace, which is nowhere in sight, would undoubtedly cause an amount of labour readjustment, a long list of social and governmental "cushions" is ready to make that adjustment as painless as possible—as painless as it was at the end of the Second World War.

The most striking fact, of which the CCF seems completely ignorant, is that defence spending in Canada and the U.S. has already levelled off; it passed its peak early this year. Yet the production total in both countries continues to grow steadily, proving that that total is not dependent on government, but on private spending.

In short, the only real danger of a "little depression" following peace in Korea may lie in such muddled, misleading speeches as that given by the CCF vice-president.

Can't Get Blood Out Of Stone

(KITCHENER-WATERLOO RECORD)

ONE of the tried old proverbs with which we used to fortify our convictions was that "you can't get blood out of a stone." Seemingly too many of us these days are ready to convince ourselves that it is possible to get something out of nothing.

In the taxation year of 1950, out of some 9,651 major industrial companies in Canada reporting their profits for income tax purposes, more than one in four operated at a loss. The year before it was one in three. In 1945 it was one in five. Year in and year out there are quite a number of industries which do not make any profit.

Some industries are in a still more difficult pass. They don't make profits but they do make losses and quite a number don't manage to survive. In 1951 some 1,400 businesses went bankrupt. In 1952 the number was 1,509.

The point in recalling these solemn facts is simple indeed. It might perhaps be crystallized in a triple-barrelled question. What could possibly have happened to a guaranteed annual wage in those 1,509 bankrupt companies? How would it have been provided in the one of four companies that made no profit in the year? How many more companies would have been included in this profitless group with a new millstone of a guaranteed annual wage hung about their necks?

Those clamoring for guaranteed annual wages should try to figure out how such wages can be paid out of an income that no longer exists.

GLOATS

"I hear your aunt's very rich. Does she enjoy good health?"

"Enjoy it—why, she gloats over it."

How Time Flies

JULY 10

1923 Lt. Col. A. W. McPherson retires from the command of the Peterborough Rangers.

The 85-foot twin screw cruiser Elbardo with eight passengers and a crew of five docks here.

Herb Wolff and Frank Collins hit homers as the Petes beat the Cobourg ball club 8-5.

1933 The Unemployed Workers Fraternity passes a resolution disapproving of the local relief committee's methods.

North Monaghan protests the county council's passing of 50 per cent of high school education costs to the townships.

Archie Deyell makes his debut as a pitcher for Peterborough and defeats Oshawa 5-4 in a COBL game.

1943 Pilot Officer Paul Roche, who received his RCAF wings at Dunnville several months ago, arrives overseas.

Dr. B. A. Kelly assumes his duties here as acting Medical Officer of Health.

Al Lewis, a director of the Peterborough Rotary Club, accepts a position in Toronto.

Bible Message

(From the Authorized Version)

The beginning of the gospel of Jesus Christ, the Son of God; as it is written in the phophets, Behold, I send my messenger before thy face, which shall prepare thy way before thee. The voice of one crying in the wilderness, Prepare ye the way of the Lord, make his paths straight.

John did baptize in the wilderness, and preach the baptism of repentance for the remission of sins . . . And preached, saying, There cometh one mightier than I after me, the latchet of whose shoes I am not worthy to stoop down and unloose. I indeed have baptized you with water: but he shall baptize you with the Holy Ghost.

And it came to pass in those days, that Jesus came from Nazareth of Galilee, and was baptized of John in Jordan. And straightaway coming up out of the water, he saw the heavens opened, and the Spirit like a dove descending upon him: and there came a voice fro mheaven, saying, Thou art my beloved Son, in whom I am well pleased. (Mark 1:1-4, 7-11.)

No Starving Authors

(London Free Press)

Struggling Canadian authors, generally supposed to be an ill-paid and unsung lot, will presumably take cheer from the statement of an American literary agent that "no author of any actual ability" is starving nowadays.

Agent Carl Brandt brands as poppycock the belief that unrecognized literary genius is starving in garrets. He says talented writers are soon discovered by commission agents like himself, and indeed, suggests that there are probably more literary scouts than authors these days.

This conjures up a fascinating picture of an ever-increasing horde of agents pursuing a diminishing number of scriveners, a consummation devoutly to be wished by the latter.

Letter To The Editor

ROYALTY IN ULSTER

Sir: Allow me to draw your attention to an unfortunate mistake which occurred in Tuesday's issue of The Examiner. Under the picture of the Queen's visit to Northern Ireland there came this amazing mis-statement: "The Queen's visit marked the first time a British Sovereign has visited the land of the Shamrock in 30 years." This is quite wrong. The late King George VI paid at least two state visits to Northern Ireland accompanied by the Queen. He also visited the troops during the Second World War.

Ever since the government of Northern Ireland was established about thirty years ago there have been on important occasions Royal visits to the Province.

I hope in fairness to loyal Irishmen in this country you will see your way to make the necessary correction,

Sincerely yours,
G. D. S.

June Enrolment Up 375 In City Public Schools

This city's public schools closed at the end of June with a registered attendance of 4,902, an increase of 375 over June, 1952. This would mean an increase of at least 10 rooms if all the pupils were in one section of the city. At the Board of Education meeting on Thursday night Superintendent K. S. Wightman reported that the average attendance during the month was 4,343 or 95.86 per cent. Every school during the month had a better than 95 per cent average, with Queen Elizabeth school, the latest to join the school system, leading with 97.86. King Edward school was in second place with 96.89, to be followed by Confederation 96.75, Central 95.88, Grove 95.83, Prince of Wales 95.72, Queen Mary 95.58, King George 95.33, Parkhill 95.14, May's 95.08, and Queen Alexandra 95.05

During the month 8 pupils moved into the city and withdrawals were 15.

Dr. Jethro Graham, school dental officer, reported on the check up at Queen Mary and Queen Elizabeth schools. At Queen Mary he previously examined 701 pupils, check-up revealed 77 still needing treatment, 157 had been treated by their family dentist, and 42 were treated at the school clinic. At Queen Elizabeth 112 pupils had been previously examined and the check up revealed 36 still needing treatment, with 23 being treated by their family dentist and eight at the school clinic.

Attendance at the PCVS at the end of June was 965 and at Kenner 312.

FREE AUTOMATIC THERMOSTAT

with purchase of any DUO-THERM oil home heater

"Buy Now" Bonus—$15.95 value! Imagine—a FREE automatic Thermostat that looks after the fire for you—surely, efficiently! A flick of the dial brings even, constant heat to the temperature you desire. No wires, no electricity, no extras. Supply is limited, so *act today* to make sure *you* cash in on this sensational free offer!

ONLY DUO-THERM GIVES YOU ALL THESE WONDERFUL FEATURES!

EXCLUSIVE DUAL CHAMBER BURNER—gets more heat out of every drop of oil—saves you money.

EXCLUSIVE POWER-AIR BLOWER—circulates heat automatically—cuts fuel costs as much as 25%. Optional at extra cost. Turns itself on—turns itself off.

AMAZING SELF-LIGHTER—available on 5 Duo-Therm models at slight extra cost. Lights the fire *automatically!*

FINE-FURNITURE STYLING—beautiful mahogany, platinum and satin-brown finishes.

LOWER PRICES—Duo-Therm prices are lower than other heaters of equivalent capacity.

$89.95 (TANK EXTRA)
Model No. 618
DUO-THERM IMPERIAL

Beautiful budget buy—*the Duo-Therm Imperial* is a full-size heat circulator that throws plenty of heat at rock-bottom cost. Modern satin-brown finish with contrasting brass door pulls—fits into any decorative scheme. Waist high dial controls. Two capacities—41,500 or 53,000 BTU output.

Model No. 954
$159.95 (TANK EXTRA)
DUO-THERM HEPPLEWHITE

The luxurious Duo-Therm Hepplewhite—period furniture styling at its best. Mahogany finish heating console with two front and side Radiant Doors to give you any degree of radiation and circulation. 50,000 BTU output keeps you beautifully warm. Automatic Power-Air Blower optional.

$69.95 (TANK EXTRA)
Model No. 575
DUO-THERM RADIANT CIRCULATOR

The slickest, low-cost radiant and circulating space heater on the market! Open-pattern casing in satin-brown finish. Waist high dial controls. Two capacities—27,500 or 41,500 BTU output.

SEE THE COMPLETE LINE OF DUO-THERM HOME HEATERS TODAY!

22 efficient, oil-burning models, 9 amazing gas-burning models

More than 2 million warmly satisfied customers

COMMANDS A MODEL ARMY—Bertil Jernberg, of Gothenburg, Sweden, can play armchair general on a large scale. The 22-year-old model maker has 3,000 miniature soldiers and some 400 vehicles, part of which he made himself. He even has towels, clothing and meat choppers made to scale to equip his army. Swedish military authorities are planning to make use of his hobby for strategic study.

New Industry In Kitchener To Employ 500

KITCHENER—A new stainless steel foundry, expected to employ between 500 and 600, is being erected here by Hayward Tyler of Canada, Ltd., and will be opened the latter part of September.

Products of the parent firm in Luton, England, are sold around the world and are used in chemical engineering, dairy, brewing, food, paper, pulp and oil industries. The company's plant at Luton employs 650 while a second factory at Edinburgh has a staff of 120. Another plant is being constructed at East Kilbride, near Glasgow, to employ between 500 and 600.

The Kitchener construction provides 14,000 square feet of floor space but has been laid out so that additions can easily be made. The company has an option on adjacent land.

Company President John Daniell said the parent firm believes Canada has "probably the greatest industrial potential in the world and after a coast to coast survey they feel Kitchener is ideally located to serve the markets of Eastern Canada and a good part of the northern United States."

Citizens' Band To Give Concert

The Citizens' Band will give a concert on Sunday evening at Nicholls Oval. The program will be as follows:

March .....Anchors Aweigh
Overture .....The Golden Dragon
Selection .....Hallelujah
Cornet Solo .....Perfect Day
Bandsman Norm Buzzell
Selection ...The Chocolate Soldier
Waltz .....Missouri Waltz
Novelty .....
Hail, Hail, All Around the World
Concert March .....
Crusade for Freedom
Selection .....Sunset Soliloquy
Selection ...Music from State Fair
Overture .....One Beautiful Day
March ...Under the Double Eagle
Hymn .....Abide With Me
The Queen

Shakespeare Festival Tickets Have Boom

STRATFORD (CP)—Believed the biggest advance sale in Canadian theatrical history, officials of the Stratford Shakespearian Festival announced Thursday that slightly more than 50 per cent of all seats for the five-week festival have been booked in advance of the opening July 13.

Most of the advance bookings have come from the United States, with excursions being operated from a number of border cities, officials said.

The festival is presenting "Richard III," and "All's Well That Ends Well," starring Alec Guinness, top-ranking British stage and film actor.

BARRED — Rep. Robert L. Condon, a California Democrat, has been reported as barred from atom tests in Nevada as an alleged security risk. According to the report, Condon was invited along with other Congressmen to view the tests and then was turned away.

Commission Has Approved New York's Application

WASHINGTON (AP)—The federal power commission has unanimously approved New York's application to join with Canada in construction of the St. Lawrence river power project, it was learned authoritatively Thursday night.

The power project in the International Rapids section of the river is held to be a necessary preliminary to the proposed St. Lawrence seaway.

A wholly reliable source told a reporter that the commission acted Thursday on the application which has been before the FPC since 1948.

Under the proposal, New York's power authority would join with the Ontario hydro-electric power commission in constructing the project.

If a pending court action seeking to halt the commission's action is unsuccessful, construction of the project would get started promptly.

Completion of the power project would give Canada an opportunity to build the long-proposed St. Lawrence seaway by itself on its own side of the river if the U.S. persists in refusal to participate in the 27-foot-deep waterway.

At Ottawa, Transport Minister Chevrier was unavailable for comment. However, Mr. Chevrier said in an election campaign speech at Morrisburg, Ont., Tuesday that the New York state power authority will be licensed in about 10 days to co-operate on the power phase of the seaway and power project.

Gives Life For Child

CHATHAM (CP)—Hector Moore, 15, of Chatham was drowned Thursday after he leaped into the Thames river to rescue a small girl. Hector and three companions saw Jeannie Awthier, also of Chatham, fall into the river from a rope on which she was swinging. Moore got into difficulty but the other three managed to pull Jeannie to safety.

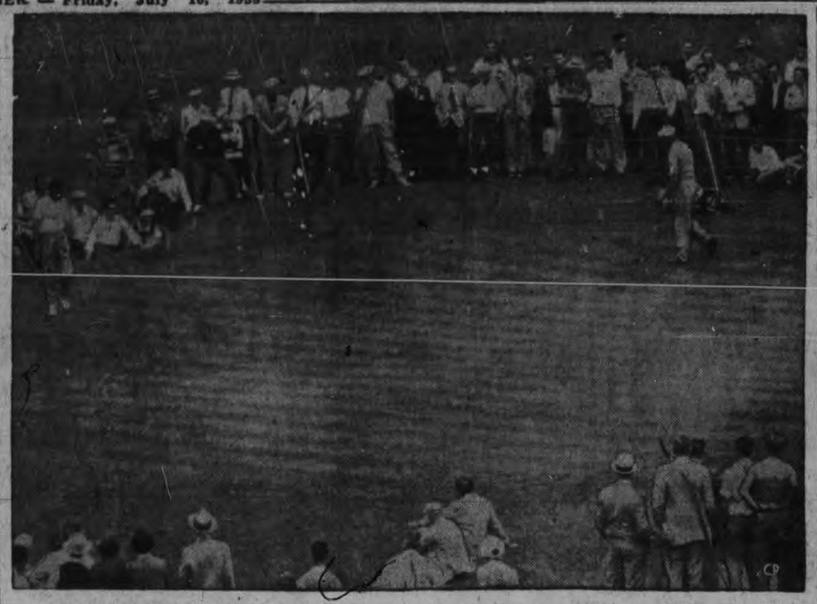
Petes Hold First, Lengthen Lead With 5-4 Win

TP Transports and Seabrooke Motors played Thursday night in possibly the most thrilling game of men's senior softball of the current season before a grand crowd. Transports emerged victorious after a hard battle that saw the issue in doubt until the final out. The victory gave the George Bennett's team undisputed possession of first place with 10 wins and four losses, two games ahead of UEW and Seabrooke's.

Reg Gordon, cool veteran of several years' twirling, toed the rubber for TPT's and was promptly greeted with a three-run barrage as Speed Currie homered with O'Heron and Thompson aboard, to start the first. He settled down however, and aided by near-perfect support from his mates, blanked the Motor crew for seven frames. Seabrooke's burst out for one in the visiting ninth but the late rally proved insufficient as Currie grounded to second base for the final out, one run in arrears after a hectic battle.

Transports scored one in the second as Legrow was safe on a fielder's choice, and scored when the usually reliable Toody Greenlaw dumped one well out near the first-base line and negotiated third base without trouble. The Bennett men staged their game-winning rally in the crucial sixth, when West reached first on an error, advanced on Mackness' hit to left. Legrow, and all hands were safe on another fielder's choice as Sullivan's throw failed to head off West at third. Then sturdy Gus Leonard smote a sizzling double to left to score West and Mackness and Legrow also scored as the outfield peg in was off centre. Leonard later scored on Greenlaw's fly to left. That was it; and as it turned out that was it.



Jim Driscoll toiled well for the losers in a great game. Gordon fanned three, walked one. Driscoll struck out the same number and walked a pair. Currie's fielding featured; Thompson, West and Wyatt were also good with Gus Leonard.

Seabrooke	300 000 001—4	10	5
TP Transports	010 004 00x—5	5	1

Seabrooke—O'Heron, cf; Thompson, ss; Currie, 2b; Sullivan, 1b; Wyatt, 3b; Jensen, c; Spencer, lf; Jaquith, rf; Driscoll, p; Donoghue (replaced Jaquith in 7th); Doris (singled for Driscoll in 9th).

TPT — Floyd, rf; Collins, 3b; West, ss; Mackness, cf; Legrow, 2b; Leonard, 1b; Greenlaw, lf; Castle, c; Gordon, p.

Umpires—Calladine and Edgar.

AT THE CANADIAN OPEN—Tommy Bolt (left), of Houston, Tex., and Dutch Harrison, of Ardmore, Okla., are on the 18th green of the Canadian Open golf championship played at Scarboro gold course, Toronto. Harrison, former Canadian champion, who had an opening day 69, had just blown a long putt by inches. Bolt waits to hole out his five-under par 66.

Saskatchewan Golfer Near Top On Open

By W. R. Wheatley

TORONTO (CP)—The colorful Canadian open golf championship, swinging into the third round today, held a roseate tinge for the Saskatchewan prairie country all because of big Pat Fletcher.

The onslaught of the American invasion was expected. It's an annual affair, and when the halfway mark was reached Thursday the 36-hole leaders were a quartette of the tourists of the pro circuit, each with 136, six strokes under Scarboro's par for the distance.

A single stroke behind, bracketed with three other Americans, was the phlegmatic pro from the Saskatchewan Golf and Country Club, Saskatoon.

The leaders after two days of par-breaking and weird incidents —including a rousing hole in one by a home club amateur—were Gardner Dickinson of Panama City, Fla Wally Ulrich of St. Paul, Minn., Leo Biagetti of Baltimore, and Ted Kroll of Utica, N. Y.

Tied at 137 with Fletcher were Tommy Bolt of Houston, Texas, and Fred Hawkins, the photogenic young golfer from El Paso.

LONG STRING

Behind them came a long string of Americans all the way through 138, 139 and 140. The one-under-par 141 American ranks were broken by Gordie Brydson of the Toronto Mississaugua club.

Kroll and Dickinson, starting with 66s, held grimly to the opening-round lead they had shared with Bolt. Tommy took a par 71, and this lapse from sub-par golf allowed Ulrich and Biagetti to slip ahead. Each shot 67, lowest score posted Thursday. Fletcher was the only man with a 68, and a little luck with his putting would have created a five-way tie or even shot him into the lead all alone.

Only two strokes off the pace at 138 came six Americans, any of whom might uncork a hot round and spurt to the front. They are Marty Furgol, Max Evans, Shelly Mayfield, Ansel Snow, Harold Paddock, Jr., and Dave Douglas. Snow gave Scarboro's front-nine par of 36 a savage beating with 31 but couldn't keep up the pace and came back in 36, one over.

Dickinson, back on the pro circuit after service with the U. S. Army, toiled along to a par 36 going out. A 50-foto putt that snuggled into the cup at the 18th meant the difference for him between a par and a sub-par round.

AWAITED DECISION

Kroll held up his threesome more than an hour to await an official decision. His drive on the 10th left the ball in a ditch six inches from a tile. Calls went all over the place for officials. They came out of their huddle with a decision that Kroll could lift out and drop without a penalty. He went on to birdie the hole.

Fletcher played beautiful golf, his 68 cutting a stroke off his opening round of 69. Up to the half-way mark in this tournament big Pat has never been in the rough. He never missed a green Thursday. He started out feeling "so terrible I even wondered whether I should start at all." A touch of stomach flu struck him several hours before he started but he played without showing signs of illness and in the evening said he felt better.

Fletcher shot birdies early and then couldn't beg or borrow one despite fine approach shots and steady putting. He had three birdies in the first seven holes, getting down putts from two to 10 feet. Four more putts could have dropped in but didn't. At the ninth, 15th and 16th his ball bounced off the cup. He came to the 18th needing to get down a 15-footer for a 67. It looked as if he had it, but the ball rimmed the cup and he took 68.

The hole in one fell to Bill Givens, vice-captain at Scarboro, and came at the 125-yard par three 11th. Givens drove off with a No. 9 iron. The ball struck the green 10 feet in front of the pin and rolled in for an ace.

BLISTERS COURSE — After a blistering 64 in practice round, Tommy (Thunder) Bolt, 35-year-old perfectionist from Houston, Texas, fired a sizzling 66 in the opening day's round in the Canadian Open golf championship at Scarboro golf club in Toronto. He was one of three to get a five-under-par in the first day's play. Bolt, winner of the Tucson and San Diego opens earlier this year, made an excellent recovery after being three over par after two holes in the initial round.

SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

Smirle Lawson, oldtime grid great, was chatting to the Star's Milt Dunnell the other day about Canadian football back around 1914. One of his remarks was: "Hamilton was a tough spot to play in those days, but it was a picnic ground compared to its neighbor, Dundas, where the fans suffered personally all the bruises their heroes picked up in combat. And they had the greatest middle wing of all time in Canada. His name was Ross Craig. Later he played for Hamilton. I never stopped him in my life, except by falling down and hoping he'd trip over me." Yes, this Peterborough product, Ross Craig, evidently was one of the best gridders ever produced in Canada.

* * * * * * *

Local Liflocs' leading twirler, Jerry Frizzelle, has been nominated by Howie Dalton to pitch against Lindsay Merchants here tomorrow eve. A 6.30 Lakeshore League ball fixture in Riverside. Husky Jerry is an 18-year-old right-hander with a lot of stuff and good control. Few of the intermediate clubs in the circuit take too kindly to the offerings of this junior slabsman, who ought to go places in the diamond sport. Lindsay sports a flock of former Petes' seniors stars, so it should be an interesting game. Booster night means many good draw prizes, topped by a TV set, with free favors at the gate for boys and girls, while the favors last. Fans must attend to win any of the big prizes.

* * * * * * *

But Things Look Brighter

Earlier there was some talk of disruption of the Central Ontario senior "B" puck setup for next season. Kingston was said to be seeking a grouping down east, while Oshawa Truckers tried to go senior "A." Stouffville sought a Toronto berth, and Orillia was doubtful of returning. However, we don't think there is much to worry about, and the Petes should have the same good 1952-53 group in which to play, along with Belleville, when autumn rolls around. Oshawa's bid for senior "A" was turned down, and Stouffville wasn't included in the Toronto setup. Kingson had such a successful season financially and in winning Ontario honors that the Goodyears won't likely want to leave. And Orillia is a pretty good bet to return.

* * * * * * *

Oshawa scribe says the Truckers will return to this senior "B" league with Ernie Dickens probably the coach and Wren Blair again manager. Two experienced imports have been contacted, Val Lalonde of Valleyfield in the QSHL and Les Colvin of the USHL. Colvin at one time played goal for Oshawa ere going to the Pacific League. While Dickens, former pro, hasn't committed himself yet, he has been offered the coaching job. Mayhap, Percy Nicholls will play again for the Motor City team, too. Oshawa was strong last winter but fell to Kingston in playoffs and the K's went on to take it all. Petes have been busy checking players and raising money, and will be okay when the time comes.

* * * * * * *

Mounties Are Rebuilding

Mimico Mounties of the senior OLA are busy bolstering ere the July 15 deadline for signing players, and already they have half a dozen of the better Brampton players, since that club folded. They might well extend the Petes' Trailermen plenty here tonight in their clash, as the Petes had to finish strong to grab a win from the Mounties last time in Mimico. Thorpe team is still down two games from the leading St. Kitts and very anxious to grab first place ere the schedule winds up within a month. You see first and fourth teams tangle in eastern semi-finals, second and third teams doing likewise. So, first spot is where to end up, if at all possible. Also, top place means the OLA title.

* * * * * * *

With the British Open and the Canadian Open on, golf is having its big summer inning now. Which reminds us, that the heftiest amateur golf tournament in the country takes place at the Kawartha Golf Club in just about three more weeks. It's the annual Kawartha Lakes tourney on Aug. 1-2-3, consisting of 54 holes with $2,500 in prizes. Entries are limited to 250 and they come from all over the east, including the pick of local talent. Chairman Lionel Browne and his committee are working like beavers these weeks to line it all up, including the entertainment end of the big show. Committee consists of Gordon White, Arnold Sanderson, John McIntyre, Bud LaBranche, Frank Buckland, Harley Weir, Steve Csumrik, Russ Baer, Don Meredith, Robert MacMorran, Alex MacGregor, Fred Welford, Lex Robson, Dick Outmet, Tracy Shaw, and Bill Moffat.

Walton's UEW Tie For Second, Defeat Revoy's

Tommy Walton's UEW senior softball nine defeated Revoy Motors 6-1 Thursday night at the East City Bowl to open the regular men's twin set; the win placed the Union squad in a second-place tie with Bill Sullivan's Seabrooke Motors, who lost a close one to T-P Transports. George Bennett's men have 10 wins and four losses; the second place teams have eight and six.

Howie Dalton, who seems to thrive on work, again took the hill for UE and the veteran has seldom looked better in his long softball career. John Cupoli's single in the seventh was the sole bingle Revoy's nicked off Howie's assorted pitches; he struck out five and walked but three in a truly fine display.

Dick West toiled for the losers and, as usual, hurled very fine ball; but too much of too little both at bat and afield again proved his undoing. Revoy's committed three errors and failed to show any stickwork as their losing jinx continued. West allowed eight hits, fanned one and also walked three men.

Revoy's scored one in the second inning oddly enough to take the lead when Cupoli walked, and was out on Red Wasson's fielder's choice; Neil Wasson walked, then he in turn died on Grafstein's fielder's choice; West hit sharply and Red Wasson scored as the second-baseman bobbled the pitcher's rap.

UE came back to equalize in their half on Robson's walk, a fielder's choice and Heffernan's long fly; they added one in the fourth and a pair in each of the seventh and eighth frames with Leether, Taylor, Kotowski and Thomson leading the offensive to sew up the game. John Cupoli pulled off two sensational catches off White and Dalton to feature afield.

Revoy's	010 000 000—1	1	3
UEW	010 100 22x—6	8	1

Revoy's: Henry, 2b; Elmhirst, 1b; Craig, c; Cupoli, rf; R. Wasson, 3b; M. Wasson, ss; Grafstein, lf; West, p; Smith, cf.

UEW: Leether, 3b; Taylor, 2b; Kotowski, ss; White, lf; Dalton, p; Robson, rf; Thomson, c; Heffernan, 1b McGillis, cf.

Umpires: Edgar and Calladine.

LAWN BOWLING

By HERB MARTIN

The Peterborough Lawn Bowling Club will be represented in the Ontario provincial playdowns in all three events—singles, doubles, and rinks. Where they play next and when they play has not yet been announced:

Singles, Don Anderson; doubles R. Hopkins and H. Freeman; rinks R. F. Downey's rink.

Down at Cobourg on the half-holiday the local ladies' rink skipped by Mrs. C. Renaud won first honors and the silver trophy. There was only one Peterborough rink entered: Mrs. H. Beatty, Miss D. Martin, Mrs. R. Dyer, Mrs. C. Renaud, skip.

On Monday night we continue with the club's handicap singles. All bowlers who are still in this competition are requested to be at the greens by 7 o'clock.

CHAMP MEETS CHAMP—Ben Hogan (left), America's Open golf champion, meets Bobby Locke, the British Open champion, during the first round of the British Open Championship at Carnoustie, Scotland. Hogan scored a 73 on the first round, while Locke shot a 72. Frank Stranahan, of Toledo, Ohio, came in with a two-under-par 70 making him the first round leader.

10 Great Golfers Bunched Within 4 Strokes To Lead

By STERLING SLAPPEY

CARNOUSTIE, Scotland (AP)—Ten great golfers were bunched within four strokes at the head of the pack after Thursday's play as a ruthless scramble developed for the prized British open golf championship.

Dai Rees and Eric Brown, two Britons, led with 142s, two strokes ahead of Ben Hogan and Frank Stranahan of the United States.

Hogan added a 71 to his 73 of Wednesday, while Stranahan slipped from 70 to 74. Peter Thomson of Australia was tied with the two Americans, while the powerful Argentine star, Robert de Vincenzo had 143.

The final 36 holes of the 73-hole tournament over Carnoustie's tough, windy, wet course is to be played today with the field cut from 91 to 49. A score of 154 was needed to qualify for the finals.

The tournament billed as Ben Hogan's own became anyone's prize—but the little Texan, famed for his fighting finishes, might well have been out in front if his putts had not been missing by inches.

Defending champion Bobby Locke, the round faced South African, is in contention with 72-73—145, tied with Max Faulkner of England, 74-71—145, and T. H. T. Fairbairn, also of England, 74-71—145. Antonio Cerda of Argentina had 75-71—146.

Rees, the merry Welshman, shot a 70, best score of the day, to put with his first-round 72. Brown, an unemployed professional golfer from Scotland, had 71, the same score as Wednesday. Unofficial par for Carnoustie is 72.

Lloyd Mangrum of Los Angeles and Niles, Ill., was back in the pack with 75-76—151.

HOME ON THE RANGE—Hank Sauer, left, of the Cubs and the Yankees' Billy Martin practice in store clothes at a Coney Island, N.Y., batting range.

Mrs. Renaud Wins Bowling Cup At Cobourg

COBOURG (ENS). — Mrs. C. Renaud of Peterborough won the Cobourg Lawn Bowling Cup at the ladies' rinks at the local greens with three wins and a score of 43 plus 1. The other members of her rink were Mrs. R. Dyer, Miss D. Martin, and Mrs. H. Beatty.

High, with two wins, was Mrs. H. Cross of Belleville, who had a score of 42. The other members of her rink were Mrs. H. Thompson, Mrs. C. Argue, and Mrs. N. Kyle.

High with one win was Mrs. G. Wicks of Cobourg, who had 33 points. The other members of her rink were Mrs. J. Watson, Mrs. M. Jex, and Mrs. H. Loucks.

RESULTS

Following were the games results:

First game: Mrs. B. Naylor of Cobourg v. Mrs. Vic Highfield of Port Hope, 7-14; Mrs. G. Wicks of Cobourg v. Mrs. C. Renaud of Peterborough 10-10; Mrs. J. Erskine of Cobourg v. Mrs. M. Smith of Cobourg 15-4; Mrs. M. Parker of Cobourg v. Mrs. H. Cross of Belleville 12-12 (Mrs Cross Winner).

Second game: Naylor v. Smith 5-17; Highfield v. Erskine 6-12; Wicks v. Cross 9-13; Renaud v Parker 18-3.

Third game: Naylor v. Wicks 8-14; Highfield v. Parker 11-11 (Highfield winner); Renaud v Erskine 15-10; Smith v. Cross 11-17.

Mimico Blasts Orillia 21-13

MIMICO (CP)—Mimico Mountaineers blasted Toronto - Orillia West Yorks 21-13 Thursday night in a Senior Ontario Lacrosse Association game in which penalties outnumbered goals.

The referees handed out 116 minutes in penalties, including four misconducts and a game misconduct. The victory was the second of the season or Mimico.

Pete Bradkin led the Mimico scoring attack with six goals. Ray Ulford and Jim McNeil fired three tallies apiece. Leo Teatro was top man for the Yorks with three.

New York Giants Down Pirates In 4-0 Shutout

By BEN PHILBRAD, Associated Press Sports Writer

First-division standings in the hot National League pennant chase hinge on vital series starting tonight in Brooklyn and St. Louis. Chief American League interest during the weekend will centre on Chicago where the White Sox open a five-game stand against Cleveland with the runner-up slot at stake. Leo Durocher's suddenly impressive New York Giants, riding a six-game winning streak and talking confidently of better things, invade Brooklyn for three games with the first-place Dodgers.

Milwaukee's second-place Braves visit St. Louis for a four-game set with the Cardinals, whom they lead by a half a length.

HAVEN'T COOLED

The Giants haven't cooled off since they buried Brooklyn 20-6 last Sunday. They got a brilliant two-hit shutout from rookie Ruben Gomez Thursday to down Pittsburgh Pirates 4-0. Brooklyn bowed to Philadelphia 6-5 and the Cards and Braves weren't scheduled.

The hustling White Sox shaved the Yankees' first-place margin to five games in the American league by whipping Detroit 4-2 while the New Yorkers were wilting before the southpaw slants of Boston's Mel Parnell 4-0. Cleveland stayed 5½ games off the pace with a 9-1 verdict over St. Louis Browns. Washington beat Philadelphia 8-4.

In handing Pittsburgh its sixth straight loss, the Giants climbed within one game of the first division. They've been that close before this season but they've always fizzled out under pressure.

The two Pirate hits off Gomez, the young Puerto Rican who bought his way out of the Yankee farm system during the winter because he didn't think the world champs appreciated him, were singles by Danny O Connell and Eddie O'Brien. Gomez has a 6-4 record with the Giants.

GETS 4 SINGLES

New York's Whitey Lockman passed the 1,000-hit mark of his big-league career with a flourish as he rapped out four singles to run his lifetime total to 1,001.

The Dodgers, who beat Robin Roberts the last time they faced him, kayoed him in the eighth inning Thursday night but then their own spotty pitching blew up and the Phils won the game with two runs in their half of the eighth. It was the first time in 29 starts that Roberts has failed to finish. Smoky Burgess, pinch hitting for Bob Miller who took over from Roberts, drove in the tying and winning runs with a double.

Parnell threw his second straight shutout at the Yankees. The victory was the 12th of the year for the 31-year-old lefthander. He's the first in the league to win a dozen.

Play Restricted To 3 Hours In Test Match

MANCHESTER, England (Reuters)—Play was restricted to just over three hours in the first day of the third cricket test match between England and Australia Thursday, but Australia rolled up 151 for three wickets. The first two matches for the mythical Ashes ended in draws.

The visitors started poorly just after 3 p.m., losing the wickets of three of their best batsmen, Arthur Morris, Lindsay Hasset and Keith Miller, for only 48 runs.

But Neil Harvey, with a sound 60 not out, and Graeme Hole, 41 not out, achieved a recovery in an unfinished fourth-wicket stand beore the close.

Len Hutton, fit after a bout with fibrositis, lost the toss to Hasset for the third consecutive time.

With 15 runs scored, Morris played a fatal half-cocked defensive stroke to a ball from Alex Bebser and tipped it into the wicket. Hasset and Miller then took the score to 48 before both were dismissed at the same total.

Hasset, whose four fours gave him a stylish innings, had his off stump knocked back by a ball from Bailey, while Miller was out by playing on to Bedser.

Jim Laker, England's right arm spin bowler, strained a leg muscle during the first 10 minutes, leaving Hutton with only three bowlers.

150 Oarsmen Will Compete

BROCKVILLE (CP) — Some 150 oarsmen from six Eastern Canada rowing clubs will compete here Saturday in the 58th annual Eastern Rowing Association regatta.

Ottawa, Brockville and Lachine, Que., the three association clubs, will be rowing for the Comstock Cup, emblematic of regatta supremacy. However, it could well be that oarsmen from St. Catharines, Hamilton and Toronto attract the majority of attention in five open races, top events on the day's 16-race program.

Ottawa won last year's regatta on home water and are favored to repeat. Brockville could spring an upset though, for its crack light weight crews are always hard to beat on their choppy St. Lawrence river course.

The local oarsmen topped Ottawa and Lachine in 1950 and 1951, and have taken the Comstock Cup 10 times in 25 years of competition for an E.R.A. record.

Hamilton Leanders, Toronto Dons and St. Catharines will enter strong crews in the our sweep-oar events.

Miss Ezra Proves Surprise Winner

TORONTO (CP)—J. C. (Bert) Cameron, automobile dealer from Smiths Falls, brought a surprise winner named Miss Ezra to the Thornclife Raceway Thursday, a surprise even to the four-year-old mare's driver, Norm Conley.

Miss Ezra won the first leg of the $1,000 London trot, entered as an entry with Cameron's Gracious Hanover. Driver Conley expected to see this four-year-old, also a mare, roar past him in the first heat but Gracious Hanover broke stride.

Gracious Hanover won the second heat.

Canadian Open Golf Leaders

TORONTO (CP)—Leaders at the end of the second round Thursday in the Canadian open golf championship. Par for the course is 71. (x-denotes amateur)

Gardner Dickinson, U.S.	66-70—136
Wally Ulrich, U.S.	67-69—136
Leo Biagetti, U.S.	67-69—136
Ted Kroll, U.S.	66-70—136
Pat Fletcher, Saskatoon	69-68—137
Tommy Bolt, U.S.	66-71—137

Yesterday's Stars

By THE ASSOCIATED PRESS

Pitching: Mel Parnell, Boston Red Sox won his 12th game, tops in the American League, by shutting out New York Yankees for the second straight time 4-0.

Batting: Whitey Lockman, New York Giants, ran his major league hit total to 1,001 with four singles in the Giants' 4-0 victory over Pittsburgh.

Remember When—

By THE CANADIAN PRESS

Luke Hamlin pitched for four hours and finally drove in the winning run six years ago today, giving Toronto Maple Leafs a 3-2 victory over Rochester Red Wings after 16 innings of International League play. Hamlin, 42, was once a 20-game winner with Brooklyn Dodgers and headed the mound staff of the last-place Leafs with a 15-6 record.

Royals Edge Athletics In 3-1 Triumph

By THE CANADIAN PRESS

Montreal baseball fans breathed a bit easier today with the Royals, after a 24-hour period in second place, leading the International League by 1½ games.

The Royals widened their margin over Buffalo Bisons by edging Ottawa Athletics 3-1 Thursday night while the Bisons dropped a 5-2 verdict to Baltimore Orioles.

In other games, Syracuse Chiefs rallied for three runs in the seventh inning to defeat Rochester Red Wings 4-2 and a single to left field by Sparky Adams scored the winning run as Springfield Cubs nipped Toronto Maple Leafs 2-1 in 10 innings.

Lefty Ken Lehman's seven-hit pitching enabled Montreal to win. In the second, Lou Limmer and Hal Bevan of Ottawa singled. But Lehman struck out the next man and the side was retired on two outfield flies.

Sandy Amoros scored two of the three Montreal runs, one on a homer. Lehman now has 10 for four.

5-HIT BARRAGE

Both Frank Lary and Jack Sanford pitched shut-out ball for six innings at Baltimore, but in the seventh the Orioles chased Lary with a five-hit barrage, including a three - run homer by Jack Graham.

Jake Crawford homered for Buffalo in the eighth and Sanford gave way to Tom Herrin in the ninth after walking two men.

At Syracuse, lefty Marvin Williams yielded two of Rochester's three hits over seven innings for his fourth victory in as many starts over the Wings. Williams was lifted for a pinch-hitter in the seventh in which the Chiefs knocked out Dennis Reeder.

At Springfield, the game was a pitching duel between Don Johnson of the Leafs and Sheldon Jones of the Cubs. Jones yielded a run in the first inning, then held the Leafs off through the next eight. Eventually he tired and Tony Jacobs took over in the tenth.

Frank Armstrong Chosen By Northumberland CCF

CAMPBELLFORD (ENS)—Supporters of the CCF party in Northumberland county turned out to the Warkworth town hall on Thursday evening to choose 52-year-old Frank Armstrong of Wicklow as their candidate in the Federal elections on August 10.

Mr. Armstrong is married and has six children. He was born in Northumberland county a few miles east of the village of Warkworth. He lived in Saskatchewan for 45 years, returning to Wicklow in 1949. While in Saskatchewan he became convinced of the merits of the CCF type of government, and thought the same thing would be good for Ontario.

FRANK ARMSTRONG

This is the first time Mr. Armstrong has been nominated as a candidate for a political party. He served for 15 years as chairman of a school board in Saskatchewan while in that province.

He was congratulated by Lloyd Fell of Toronto, who is the national chairman of the Political Action Committee of the CIO-CCL and an organizer of the United Packinghouse Workers of America. He spoke of the merits of the CCF of government and said that the problems of the laborer and the farmer are identical. The objectives of both are social and economic security.

Mr. Fell told of the huge profits made by the canning companies and the meat packing companies. He said that the labor cost involved in the meat packing industry comes to less than one-fifth of a cent per pound, and that the labor costs in the farm implement manufacturing business is considerably less than one-half of the profits.

He urged the audience to vote CCF in order that the farmer and the organized laborer could enjoy prosperity together.

Citadelles Make Slight Progress

TORONTO (CP)—Quebec Citadelles, orphan team of the Quebec Junior A Hockey League, made only slight progress Thursday night in a bid for entry into the Ontario Hockey Association Junior A series.

Owner Frank Byrne, coach Phil Watson and a Citadelles lawyer appeared before an informal gathering of OHA junior council members but got only an adjournment of their proposal. The meeting was arranged after a Quebec appeal to George Dudley, business manager of the Canadian Amateur Hockey Association, for a hearing.

The Quebec proposal was that the Citadelles join the OHA as a full member, playing three home and three away games with every team in the league. The Citadelles' management proposed to pay each Ontario team $800 or a percentage of the gate for each game played in Quebec City and would receive nothing in return for games the club would play in Ontario.

While Ontario representatives showed interest in the proposal, their opinion seemed to be that the CAHA-QAHA situation at the junior level still was too confused to make it wise for the Quebec club to come in.

U.S. Cup Team Favored Sweep Doubles

By DON MATHESON

VANCOUVER (CP)—Riding a two-game cushion in the best-of-five round, the United States Davis Cup tennis team is favored to sweep today's doubles here and win their zone tie from Japan.

But a shaky start by playing captain Tony Trabert, a 23-year-old "veteran" from Cincinnati, in the first of Thursday's two opening singles matches had a sun-baked crowed of 1,600 anticipating a major upset.

Trabert, matched with Kosei Kamo, Japan's second-ranked singles player, had to come from behind a two-set edge to win. He won out 4-6, 1-6, 6-1, 6-2, 6-2.

In the second match, Hamilton Richardson swept aside Atshushi Miyagi in straight sets 6-0, 6-3, 8-6.

Trabert named himself and 31-year-old Tom Brown to play the doubles match today as Japanese team captain Jiro Yamagishi decided to play today's singles contestants.

If Japan wins today, the round will be decided in two final singles matches Saturday.

CONCEDES TIE

Yamagishi, 41, had considered taking to the courts with Japan's fourth ranked doubles player, 30-year-old Masanobu Kimura, if his countrymen had gained a split in the singles. But with the U. S. sweep, he apparently conceded the tie, naming Miyagi and Kamo so that "they can get more experience."

Playing his first games on grass since last year's Davis Cup final in Australia, Trabert started out without his vaunted "big game" and without an apparent "eye" for ball action on grass.

Kamo, a 135-pound, 21-year-old, played a steady deep-court game, occasionally rushing to the net to score with placements.

CHANGED TACTICS

But Trabert changed his tactics when he began to find the range. He broke Kamo's service early in the third set, rushing the net to volley and scoring point after point on thundering kills of Kamo's high mid-court lobs. Trabert took two of the last five games at love with power-packed serves.

Miyagi, facing the net-rushing game of Richardson, couldn't handle the cross-court placements, but came on in the third set as he began rushing himself. Neither player could hold his service. Nine service breaks were scored before Richardson finally took his own service, the lead and the game.

Producing More Milk

LONDON (Reuters)—Cows in Britain are producing more milk than before the war, Agriculture Minister Sir Thomas Dugdale said in Parliament. Over the last year the average yield has been 609 gallons a cow a year, he said. This compares with the pre-war figure of 542 gallons.

Leaves For Paris

MUNICH (Reuters)—West German finance minister Fritz Schaeffer left here for Paris on his way to the United States. During his 10-day visit in the U. S. he will be guest of the secretary of the treasury George Humphrey.

HEATED UP—It appeared that Art Tokle would land on the crowd, but the ski-jumping champion alighted on an artificial strip of snow, winning the annual Lake Placid, N.Y., event with 139.5 points in a heat approaching 90 degrees.

Here And There In Sports

By THE CANADIAN PRESS

CONKS SPECTATOR

TORONTO (CP)—Stan Leonard of Vancouver went to dinner Thursday night with the man he conked on the head—with a golf ball.

Playing in the second round of the Canadian Open championship, Leonard drove a low second shot, a full brassie, for the 18th green, up the sloping fairway.

Just then Leo Osborne, manager of the nearby hotel where Leonard and other players are staying, poked his head over a rise in the ground. The ball caught him squarely on the head.

Osborne was taken to hospital and examined for possible concussion.

Several hours later Leonard said he had been informed that his host was in "pretty good shape" although badly bruised and that the dinner arrangements, for Leonard and a few others, still stood.

IMPS TO START PRACTICE

SARNIA (CP)—Coach Red Douglas of Sarnia Imperials of the Senior Ontario Rugby Football Union said Thursday his team will begin practising next Monday for the 1953 season.

Last year's ORFU champions, the Imperials are scheduled to open the season Aug. 15 here against Toronto Balmy Beach.

Douglas will again be assisted in his coaching chores by Trip Trepanier.

+ + +

SWITCH OPPONENTS

CARACAS, Venezuela (AP)—Jack Kramer and Pancho Segura have been beating their Australian rivals in the pro tennis tour with such regularity that they played each other instead Thursday. Segura defeated Kramer, 6-4, 6-4. Ken McGregor measured Frank Sedgman, 2-6, 8-6, 8-6, in the all-Australian duel.

+ + +

WON'T PLAY THIS YEAR

SAN FRANCISCO (AP)—Marine Capt. Ted Williams returned to the United States Thursday from air combat service in Korea and firmly ruled out any possibility that he would return to baseball this season.

Upon arrival, the famed Boston Red Sox hitter said he might get back into the game next season, provided the Red Sox "want to fool around with old men." Williams will be 35 next month.

+ + +

REPLACES CRANDALL

CINCINNATI (AP)—Clyde McCullough, veteran catcher for Chicago Cubs, was chosen Thursday to replace the injured Del Crandall of Milwaukee on the National League all-star team which meets the American League club in Cincinnati next Tuesday.

Charley Dressen, manager of Brooklyn Dodgers and pilot of the National League all-stars, said McCullough was chosen because he can handle knuckle ball pitchers.

Killed On Landing

BONN (Reuters)—Group Capt. Roger Cave Porteus, who led the first squadron of Britain's "tank busters" into action in North Africa, was killed at Wahn airport when his Vampire jet plane crashed as he was coming in to land.

Tours Yugoslavia

BELGRADE (Reuters) — Mrs. Eleanor Roosevelt, on a two-week visit to Yugoslavia, flew from Belgrade where she arrived Monday, to Sarajevo to tour Bosnia and Herzegovina. She was met in Sarajevo by Advo Hum, vice-premier of the Bosnia-Herzegovinian state government.

Warn Against Pollution

BRANTFORD (CP)—The Grand river anti-pollution committee has erected 50 signs warning against polluted water in this area. The signs were placed by members of the Brant Rod and Gun Club. The committee will hold a general meeting Monday at Dunnville and several members of the Grand river conservation authority are expected to attend to outline plans for a tour of the river Aug. 12 to survey pollution conditions.

Fatal Collision

PALMERSTON (CP) — Ernest Leppington, 60-year-old Palmerston man, died in hospital here Thursday night of injuries suffered six hours earlier in a head-on car crash three miles east of here. Mr. Leppington's son, Edward, 32, of RR 2, Palmerston, suffered concussion and lacerations, and Edward's son, Harry, 8, suffered lacerations. They were reported in fair condition.

WA President Given Life Membership

STIRLING (ENS).—The June meeting of the Senior WA of St. John's Anglican Church was held in the Parish Hall on Tuesday, with 20 members present.

The program for the day was followed by a word from Rev. H. C. Seeker when he called on the president, Mrs. Hiram Rodgers, and presented her with a life membership certificate and pin on behalf of her family. Mrs. Rodgers has been a member of the WA for over 40 years and has been president for 15 years. She voiced her sincere thanks for the gifts. A delightful lunch was served by the Junior WA girls.

Name Rev. W. McGee To Kingston School

STIRLING (ENS). — The Rev. William J. McGee, assistant at St. John's Church, Kingston, has been appointed to the staff of the Cathedral School, Kingston, for the coming year.

In preparation for the work he will take a short course at McMaster University, Hamilton.

Father McGee is a native of Stirling, a son of Mr. and Mrs. J. Clinton McGee. He received his primary education here and his BA degree from St. Michael's College, University of Toronto.

After completing his course in theology at St. Augustine's Seminary, he was ordained in St. Mary's Cathedral in 1948.

Kerr, Toronto	77-77—154

First Round KO Scored In Lindsay Bout

LINDSAY (ENS). — The 400 or more customers at the Lindsay Kiwanis Boxing Club's second outdoor boxing show got their money's worth Thursday night as promoter Lloyd Burrows of the Lindsay club presented 10 lively scraps, which produced one knockout and a TKO in another bout.

The bouts ranged from 75 pounds to 155 pounds, but added interest was created in the showing of several fighters from the Fowler's Corners club and some local boys who had not fought before.

Knockdowns were many in the bouts which were sanctioned by the OAC and AAU of C. Judges were Col. Miller Shields, Tom Quinn, and Charles McFarlane. Referees were Bill Cummins and Percy Houzer.

The knockouts came in the heavy bouts, Pete Lyons of Little Britain scoring a second-round TKO over Don Curtin of King's Wharf. Curtin was bleeding from the nose near the end of the round and his seconds decided not to send him back for the final go.

At 115 pounds, Bill Lyle and Basil Ferguson were matched and Lyle upset Ferguson by sending him down with a hard right half way through the first. Ferguson was stunned by the force of hitting the floor, but seemed in good shape after attention by seconds and a doctor.

Lyons, announced Promoter Burrows, would have a shot at George Greenan, an Oshawa amateur, at the next match to be held next week.

RESULTS

75 pounds—Dale Martin, unanimous decision over Johnny Lawson.

75 pounds—Johnny McLory, unanimous decision over Richard Green.

85 pounds—Kerry Mainor, unanimous decision over Johnny Henley.

Clifford Smith, Lindsay, unanimous decision over Richard Downson, Fowler's Corners.

155 pounds—Lloyd Noren, split decision over Dutch Crawford—both of Fowler's Corners.

85 pounds—Don Tracey, unanimous decision over Alec Pearson.

100 pounds—Jack Spratt, Lindsay, unanimous decision over Johnny Martin, Fowler's Corners.

115 pounds—Bill Lyle, KO'd Basil Ferguson, 1.04, first round.

155 pounds—Bill Burgomaster, split decision over Glan McIntyre—both of Fowler's Corners.

144 pounds—Pete Lyons, Little Britain, TKO'd Don Curtin, of King's Wharf — 1.45 of second round.

85 pounds—Clifford Smith, split decision over Tommy Quibell.

Suggest Industries Called Defence Plants

WINDSOR, Ont. (CP)—Controller W. Ernest Atkinson Thursday urged the city seek to have several Windsor manufacturing industries here designated as defence plants so employees would be eligible for lower terms in the purchase of National Housing Act homes.

He said several industries in Sarnia have been granted such designation.

Under terms of the act, Mr. Atkinson said, employees of defence plants can purchase NHA homes for $1,000 down instead of the usual $2,000 down payment.

The suggestion was sent to city solicitor James Watson for study.

Parked Car Shatters Plate Glass Window

MARMORA (ENS)—When Joseph Gray parked his car facing the plate glass window in V. M. Lynch's store Wednesday evening, he put on the brake and had just alighted when the car started to move.

There is a drop of a few inches from the road surface to the sidewalk in front of the store and that gave the car sufficient momentum to go up on the sidewalk where the bumper struck the window frame with enough force to shatter the glass.

Although the car was not damaged by the impact, it will cost considerably to replace the window glass.

Reginald Geen Heads Music Teachers

TORONTO (CP) — Reginald G. Geen of Oshawa Thursday was elected president of the Ontario Registered Music Teachers' Association.

Mrs. Phyllis Elworthy Smith and Mrs. Adelaide Allen Johnstone, both of Toronto, were named vice-president and secretary-treasurer respectively.

Members of the executive include: Mrs. Elizabeth Wilson Black, Port Colborne; Sister M. Bibiana, Gananoque; Victor Dell, Niagara Falls, and Janetta Warnock Mustard, Sudbury.

Street Dance Success

LAKEFIELD (ENS)—The Lions Club street dance Wednesday evening was successful with a good crowd in attendance. The boat raffle was won by Gordon Coyle.

Anonymous Gift

LONDON (Reuters)—The Royal College of Surgeons of England announced that it has received an anonymous gift of £100,000 for the training of surgeons from the Commonwealth.

Drew Opposes Ruling Over Petawawa

PEMBROKE (CP) — George Drew Thursday took issue with the application of a defence department regulation which banned a visit to Petawawa military camp.

He told reporters that the regulation "has been honored by its breach ever since it was adopted" in 1927, prohibiting visits by election candidates to armed forces camps or units.

The Progressive Conservative leader said the regulation apparently has not been applied to defence Minister Claxton, himself a candidate during the present campaign for the Aug. 10 general election.

A visit to nearby Petawawa camp had been planned as part of Mr. Drew's election campaign trip to this Ottawa valley town. It was cancelled because of the regulation which bans campaigning in military establishments.

CLAXTON ACCEPTED

Mr. Drew referred to a letter from Mr. Claxton to Edgar Hunt, a local party organizer who had requested permission for the visit. The letter said Mr. Drew would "ordinarily" be welcome at Petawawa or any other military camp, but it added that military regulations prohibit such visits and that revenue Minister McCann and J. M. Forgie, Liberal candidates in Renfrew South and North constituencies, were also unable to visit the camp.

Referring to Mr. Claxton, he said: "I'd be very interested to know under what arrangement he is visiting military camps at the present time."

Woman Can't Recall Events Of Night

LONDON, Ont. (CP)—A Brantford woman who told police she can recall little about her activities earlier in the night was taken to Victoria hospital early today suffering from bruises shock and exposure.

Mrs. Mary O'Neil, 50, is described as being in fair condition by hospital authorities today.

Police were called to McCormick's Limited early this morning when the woman appeared at the office there.

She told police that she remembered walking through a park in Brantford. The next thing she remembered was being picked up by a transport driver about a mile and a half east of London. The driver dropped her off on Dundas street and she walked to McCormick's where police were called.

10 People Killed As 2 Planes Collide

OSLO (Reuters)—A U. S. Air Force C-47 and a Norwegian F-84 Thunderjet collided in mid-air over southwestern Norway today killing all 10 men aboard the twin-engined transport and the pilot of the fighter.

The American plane was flying southwards a mile from Sola air base near Stravanger when it met two Norwegian Thunderjets circling for a landing.

One jet collided with the transport and disintegrated in the air. Burning pieces of the jet tumbled down on the base.

The C-47 lost control and went into a dive as pieces of the plane broke off.

HILL, WEDDELL & HILLS

124 Hunter St. Phone 4523

LIEUTENANT - GOVERNOR John Stewart McDiarmid, who retired June 30 after 21 years as Manitoba's minister of mines and natural resources, has been appointed lieutenant-governor of Manitoba. He was elected to the federal house in 1926 and entered provincial politics in 1932. A lumber merchant in private life he was born Dec. 25, 1882, in Perthshire, Scotland, and came to Canada with his parents in 1887. He spent his early years on a farm in Portage La Prairie, Man. He succeeds Lt.-Gov. R. F. McWilliams, native and former mayor of Peterborough.

Hogan, Vincenzo Tied For Lead

CARNOUSTE, Scotland (AP)—Ben Hogan of Fort Worth, Tex., with a two-under par 70 went into a tie for the lead with Robert de Vincenzo of the Argentine today after the third round of the British Open golf championship. Both had scores of 214.

The Argentine had finished long before the U. S. Open champion, and Hogan knew what he had to accomplish—and did to the cheers of a large gallery which has made him the popular choice all week.

Another 18 holes this afternoon will decide the championship, and it is far from over with Dai Rees of Wales and Peter Thomson of Australia only a stroke behind the leaders at 215.

Hogan missed a beautiful chance to take an undisputed lead when he went two over par on the 17th hole with a six. However, he got a four on the par five 18th to draw even with De Vincenzo.

Frank Stranahan, Toledo, Ohio amateur, finished the morning round with a 73 for 217.

Police Race Serum 90 Miles To Welland

WELLAND (CP)—Police raced anti-tetanus serum 90 miles from Toronto to Welland Thursday night to save the life of a lockjaw victim.

Welland county hospital ran out of serum after two doses had been given to Elton Booth, 20, of Welland. A call to the Ontario provincial police resulted in a cruiser picking up serum at Christie street hospital in Toronto and speeding it to Welland.

The youth was in fair condition today.

OBITUARY

DR. H. J. SULLIVAN

Son of a prominent family of Ashburnham a generation ago, Dr. Herbert John Sullivan died at his residence, 58 Wellington St., S, in Hamilton, Thursday. He had been ill of a heart condition a rather long time.

Dr. Sullivan was a son of the late Mr. and Mrs. John C. Sullivan whose home on Robinson St. was occupied for some years until recently by the Sisters of the Precious Blood. He had been a resident of Hamilton almost from the time of beginning the parctice of his profession, and was widely known in that city.

He leaves his wife, the former Ann Harris, one daughter, Patricia and three sons, Dr. Herbert J. Sullivan, Gordon J. and John F. Sullivan of Hamilton; his sisters: Sister Mary Lourdes of St. Joseph's Community Kirkfield, Misses Genevieve and May Sullivan of Peterborough, Mrs. Frank J. Hickey (Aileen), Mrs. (Dr.) F. P. McNulty, (Louise), and brothers, Vincent and Victor all of Peterborough. There are also two surviving grandchildren.

The funeral will be held in Hamilton Saturday from the residence of Dr. Sullivan to St. Patrick's Church for requiem mass at 11 a.m. Burial will be in Holy Family Cemetery, Hamilton.

Interpret Beria Dismissal As Victory For Malenkov

By Reuters News Agency

World capitals interpreted the dismissal of Lavrenty P. Beria, No. 2 man in the Russian hierarchy, as an important victory by Premier Georgi Malenkov in a behind-the-scenes struggle for power since Stalin's death.

Newspapers and observers said it could bring either civil war in Russia or improved East-West relations.

In London, The Star said: "Since Stalin's death, (Beria) has been the main advocate of a 'tougher-than-ever' policy towards the West. (He) has been stirring up trouble in Moscow about the friendlier line the Malenkov regime has already taken."

His dismissal, The Star said, "will probably lead to improvements in East-West relations."

MADE SCAPEGOAT

Austrian political circles said Beria, "probably the most unpopular man in the country," may have been made scapegoat for all the unpopular measures of the past governments. Malenkov might be using this as a convenient excuse for ridding himself of his most powerful rival, they said.

Italian newspapers acclaimed the news with such headlines as: "The struggle among the Soviet leaders has broken out" and "the beginning of the end," but few commented editorially.

The right-wing Il Tempo said Beria's dismissal is the "first round in favor of Malenkov in the open struggle which will probably continue on the bloody paths of civil war."

"The crisis has broken out at the top of the Soviet pyramid," said Il Tempo. "It is a political crisis among the highest exponents of Russian and world communism and is therefore being interpreted also as a mortal crisis of communism itself as a form of state organization."

NO COMMENT

Japanese newspapers headlined the news, but refrained from comment, as did Japanese government officials.

In London, the House of Lords was told the government has no information about Beria's dismissal. Lord Reading, joint foreign undersecretary, said the government knew nothing beyond what had been reported in today's papers.

Lord Stansgate, a Labor peer, had asked if the government had any observations to make about the "startling news we have received from the Moscow radio."

Lord Reading added that if there was anything Parliament ought to know it would be communicated to it on Monday.

Brighton Man Named Waterloo Inspector

KITCHENER — Lloyd Sutherland of Brighton, public school inspector for Northumberland County, has been appointed inspector of public schools for Waterloo North, it was learned here.

Mr. Sutherland's appointment becomes effective September 1.

He was appointed inspector for Cochrane district in 1947, and served there until he was transferred to Northumberland County in 1947.

Prior to 1947 he taught at Gledhill Public School, Toronto, for a number of years.

Impersonator Makes Blunder

MONTREAL (CP)—Police said today a man held for alleged impersonation in Thursday's provincial by-election in Montreal Outremont blundered badly when he showed up at poll No. 122

When he said he was Gerard Leduc of Apartment 4, 2840 Barclay avenue, the returning officer asked:

"You are certain your name is Gerard Leduc?"

"Quite sure," said the man.

"And your address?"

"2840 Barclay avenue."

"Apartment 4?"

"Correct."

"Well, I have news for you," declared the returning officer. "I am Gerard Leduc. My address is Apartment 4, 2840 Barclay avenue. As a matter of fact, it is this poll."

Car, Truck Collide On Township Road

WARKWORTH (ENS)—A truck and a car loaded with five women and a baby besides the driver, collided head-on on a winding Percy township road about 5:30 p.m. Thursday, but no one was hurt.

Driver of the car, A. P. Sayles, RR 2, Warkworth, bringing the women home from a WA meeting at the home of Mrs. Archie Ferguson, said he had his car stopped before the crash.

Driver of the half ton pickup truck was John Farrell, Warkworth. The two vehicles met on a narrow, winding, wooded road between the first and second concessions of the township.

In the Sayles car was Mr. Sayles and his wife, his mother, Mrs. W. H. Porter, his daughter Mrs. Alvin Pratt and her eight-months-old baby Richard; Mrs. Bruce Porter and Mrs. Leslie Tucker, all of the Oak Heights area.

The car had its front smashed and a jack was required to lift the truck back over the bumper of the car. The truck was undamaged.

Violent Storms

BRESCIA, Italy (AP)—A violent rainstorm struck this north Italian city leaving a nun dead, three persons missing, scores of small villages flooded and thousands of acres of farm land under water.

Splinter Parties Dangerous Garson Says

DOUGLAS, Man. (CP)—Justice Minister Garson Thursday night said the presence of "splinter parties" like Social Credit and the CCF in the political field actually endangers the democratic system.

At a public meeting here, he said in a democratic country there must be one opposition party strong enough to take over the reins if the people reject the existing administration.

"Democracy, therefore, is based on the two-part system," he said.

"If the opposition to any government is dissipated among a number of splinter groups! there is no alternative government capable of administering the affairs of the country."

He cited Britain as having the most desirable political set-up, in that there are two main parties, each with sufficient strength and sufficient experience to form a sound government.

"Such is not the case in Canada," he said. "The Social Credit party—which is strictly phoney—and the CCF, which has only sectional support, are the reasons why there is no effective opposition here."

The justice minister said Canada is "a difficult country to govern, divided both by two distinct cultures and by five separate geographic regions."

The Liberal government, which has a "reasonable" representation in each province, can be considered the only truly national party, he said.

To opponents who claim the government has too large a majority, Mr. Garson countered with the statement that, in the present unsettled world, a strong government is vital.

Mr. Garson said that efforts by Conservative leader George Drew to repeal the tax agreements would strike a serious blow at provincial governments.

Mr. Drew, along with Quebec's premier, Maurice Duplessis, was anxious to return to the pre-tax-rentals period, when the two central provinces accumulated nearly all the wealth of the Dominion, he said.

Order Insurance Firm Pay $8,000 Damages

MONTREAL (CP)—The Economical Mutual Fire Insurance Company of Kitchener, Ont., has been ordered by a Montreal court to pay one of their former agents $8,000 damages.

Mr. Justice Arthur I. Smith awarded damages to James D. Cherry and Sons Ltd., of Montreal, the company's former agent in Quebec province, in a judgment delivered in Superior Court.

The Montreal firm claimed the insurance company had illegally terminated their agency contract and sued for $147,000—$87,000 as compensation for loss of income from premiums payable, $35,000 as an overiding 10-per-cent commission on new business, and $25,000 compensation for alleged damage to reputation.

The insurance company submitted in court it was justified in terminating the contract because it was losing money.

Goes Too Far, Matthews Loses Job

By G. MILTON KELLY

WASHINGTON (AP)—A vigorous blast from President Eisenhower, fired over the head of Senator Joseph McCarthy (Rep.-Wis.), has blown J. B. Matthews out of the investigating job in which McCarthy had sought to keep him.

"Alien to America," the president said in obvious reference to the statement in a magazine article by Matthews that 7,000 Protestant clergymen are "the largest single group supporting the Communist apparatus" in this country.

McCarthy promptly accepted the resignation of Matthews, whom he has called "a star-spangled American," as executive staff director of the Senate investigations subcommittee which the Wisconsin senator heads.

The fast-breaking developments which marked Matthews' departure under-scored seemingly strained relations between Eisenhower and McCarthy.

TWO OTHER BRUSHES

McCarthy, for years the centre of controversy in Washington, was simultaneously involved in two other brushes with the administration. These came when the senator:

1. Moved to call before his subcommittee top officials of the central intelligence agency, including director Allen Dulles, for some possibly explosive questioning. McCarthy accused Dulles, a brother of Eisenhower's secretary of state, of refusing to let the McCarthy sub-committee question a CIA employee.

2. Aimed sharp criticism at a new state department directive declaring that some Communist writers' books may be used in the U. S. overseas libraries. He got a swift reply indicating the department intends to stick to its guns.

Matthews, whose article about alleged communism in the ranks of Protestant clergymen had stirred up a bitter row, apparently acknowledged defeat within a few minutes after the White House made public Eisenhower's denunciation of his views.

NEW RESIGNATION LETTER

He submitted a new letter of resignation as executive staff director of McCarthy's subcommittee, with a defiant declaration that his article in the American Mercury magazine "is completely factual and fully documented." He has emphasized that he wrote that the vast majority of clergymen are loyal.

In cutting words, Eisenhower had made public a message to a religious group declaring that "I fully share" its protest that Matthews' accusation was "unjustified and deplorable."

"Such attacks portray contempt for the principles of freedom and decency," Eisenhower said in a telegram to the three national co-chairmen of the commission on religious organizations of the National Conference of Christians and Jews.

"And when these attacks—whatever their professed purpose be—condemn such a vast portion of all the churches or clergy as to create doubt in the loyalty of all, the damage to our nation is multiplied. . . ."

WITH A BEAMING FACE, George Storey, 14, of 130 Maria St., exhibits his two green large mouth bass to an Examiner staff photographer Thursday. George caught the fish Wednesday off the canal bridge at the end of Maria St., using three-inch perch as bait. Both fish measured 17 inches long and weighed from two to three pounds.

Too Early To Assess Unrest Behind Iron Curtain—Dulles

WASHINGTON (Reuters)—John Foster Dulles said Thursday it is too early to make a long-term assessment of signs of unrest behind the Iron Curtain.

The state secretary appealed to a congressional committee not to "let down our guard" but cutting funds requested for the foreign aid program and declared the Soviet "peace offensive" should not lull the United States into a false mood of security.

(His comments were made before Moscow radio's announcement that Lavreni Beria has been fired as chief of Russia's secret police and is being held for trial as a traitor.)

Dulles appeared before the Senate appropriations committee which began to consider the appropriations for the Eisenhower administration's proposed foreign aid program for 1953-54.

PUT ON CEILING

President Eisenhower asked for $5,400,000,000, but Congress has limited this to a ceiling of about $5,000,000,000, and the Senate and House of Representatives now must decide on the actual funds to be voted within the limit already decided on.

"The Soviet Union continues to be a totalitarian regime which controls the destinies of a third of mankind and which has at its disposal a vast and powerful military force," Dulles said. "Nothing happened to change that basic fact."

Heavy Downpour

LETHBRIDGE, Alta. (CP)—This district has received its heaviest June rains since records were first kept in 1902. The precipitation passed the 1908 record of 7.01 inches with plenty to spare.

York Residents Face Eviction

TORONTO (CP) — Hundreds of families in suburban North York who live in rented quarters are faced with eviction. The township has given notice it intends to enforce a single-family dwelling by-law.

Homeowners in the Summit Heights and Beverly Hills sections have been notified that any tenants sharing accommodation in single-family units must vacate by Sept. 1.

C. Frank Moore, township solicitor, said Thursday night that the action was taken as a result of a protest by ratepayers against the practice of many homeowners in areas designated as single-family dwelling zones renting part of their accommodation.

Alberta Oil Pipe Line Month Ahead Of Schedule

VANCOUVER (CP)—Alberta oil will flow through the 718-mile pipe line from Edmonton to Vancouver about a month ahead of schedule if the present construction pace is maintained.

This was indicated Thursday by the Trans Mountain Oil Pipe Line Company, which reported the line is shaping up for operation in September. Previous reports from the company gave October as the time when oil would reach tidewater.

Canadian Bechtel Limited, agents for design and construction of the line, said 575 miles of the 24-inch pipe had been welded in place by the end of June and progress has been good despite wet weather.

Nearly 300 miles of completed line have been filled with water and hydrostatically tested to pressure more than 25 per cent higher than will exist when the oil is pumping.

APPLY FOR ORDER

As soon as the line is tested from end to end, Trans Mountain will apply to the board of transport commissioners for an order to operate the line, Bechtel officials said.

Employment on the line has reached a peak with 26 firms and Trans Mountain employing 2,400 workers.

"This peak force is made up of 2,100 Canadians and only 300 Americans," said D. L. Roberts, vice-president of Bechtel.

"This is a ratio of seven to one as compared with only four Canadians to each American at the same time last year."

Pumps and engines at the Kamloops and Edmonton stations are being put through test runs and will be used to pump water through the complete line before the oil comes.

Bechtel said work at the nearby Burnaby tank farm and Westridge deep sea loading terminal is on schedule and the facilities will be completed before oil arrives in Vancouver.

Picketing Campaign Against Shoe Stores

TORONTO (CP)—Fred Dowling, Canadian director of the United Packinghouse Workers of America (CIO-CCL), said Thursday his union will conduct a picketing campaign across Canada aimed at shoe stores selling the products of a Preston shoe factory.

The move follows the strike of 400 employees at the Savage Shoe Company at Preston where two company plants have been shut down.

Mr. Dowling said strikers will picket stores in Ontario and other union members, including those on pension, will be recruited to picket stores in other provinces.

The Preston strike started May 26 over wages and union security.

Character Actor Dies

NEW YORK (AP)—John Farrell, 70, character actor in musical comedy and television productions, died of a heart attack Thursday at his Brooklyn home. Farrell was born in Boston, entered vaudeville as a singing and dancing comedian. With Josephine Saxton, who became his wife, he formed the team of Saxton and Farrell, widely known on the vaudeville circuits for many years.

In case you missed my electoral address on Tuesday, July 7, this is what I said:

It won't take me long to tell you who I am. During the eight years that I was an alderman in this city, and during my three years as your Mayor, I got to know a lot of Peterborough people. I was born in this city. I have lived here all my life. To me it is the dearest spot on earth. As I have already said, I have been active in municipal government here for eleven years. I don't consider that I have done all that I can do for Peterborough, and I hope that you will send me to Ottawa to do more. Though this is my boyhood home, I have never been one of those people who wants Peterborough to remain the city of his boyhood. I want Peterborough to grow, and I know one good way to make it grow, and that is by sending a man to the House of Commons to sit with the government of the day, and not with the opposition.

Probably you want to ask me what makes me so sure that the Liberals will form the next Dominion government. Friends, that is not hard to answer. The Liberal party will be elected to power on August 10 because it is the only party in Canada that has support in every province. It is the only really national party; that is why it will win.

Now I ask you: what is the good of a thriving industrial city like this sending a man to Ottawa to sit on the wrong side of the House of Commons? Politically, Peterborough has been in the woods ever since Mr. Fraser was elected in 1940.

Let me make it clear at once that I have no personal feeling against Mr. Fraser. It is not personal feeling against Mr. Fraser, but a very strong personal feeling for the riding of Peterborough that makes me say what I am going to say now. He can do very little for this riding in Ottawa, because he is on the side of the House that can do nothing but criticize and complain. Don't mistake me: an Opposition is a necessity in parliament, but it is not a necessity for Peterborough to be perpetually with the Opposition. Let's get out of the woods for a while, and find out what it feels like to be in the sun.

Maybe some of you think that I am taking a narrow, local line in a national election. That is not what I mean at all. But I hope you won't mind if I remind you again that I know quite a lot about government on the local level. Therefore I know that there are not many national issues which are not also local issues. What the nation does affects you and me: what we do here in Peterborough also has its effect on the nation. This is an important industrial district. I say district, because I am not talking about the city of Peterborough alone, but also about the progressive village of Lakefield, which is potentially a first-rate industrial centre. This is also an important agricultural area. Now, when we talk about the big expansion which is going on in every part of Canada, we are not talking about something which has nothing to do with ourselves. We are talking about something in which we are directly concerned, and something in which we can make a big contribution if we are sure that this riding is not overlooked when matters of national development are being discussed. I would make it my job in Ottawa to see that this area was not overlooked. That is something that an Opposition member cannot possibly do.

I have already spoken about my experience as a councillor and as Mayor of Peterborough. I don't want to harp on that, but I do keep coming back to it, because it is your guarantee that I have the interest of my fellow-citizens at heart, and that I know government literally from the ground up. That is something that Mr. Fraser cannot say. He sat in Opposition for thirteen years, and the kindest thing I can say is, that as an education in government, that leaves a good deal to be desired. He doesn't even live in this riding. His contribution to the proceedings of Parliament consists of a lot of questions. There is nothing wrong with asking questions, but I think that in thirteen years Peterborough riding has asked enough questions from the wrong side of the House of Commons to last it from now till Doomsday. Let's get on the side of the House where they do something.

You will want to know what I would do if I were in Parliament. My first job, of course, would be to support the government. I could do that with a good heart and a good conscience, because I think that the Liberals have made wonderful advances in social services since 1935, and I know that they will do much more.

But I have some ideas of my own which I would like to put before a law-making body, and they are chiefly concerned with taxation. One of the things which impressed me most when I was active in local government was the heavy burden which is borne by the property-owner, directly and indirectly. Canada is a nation of home-owners, and just about everything that goes to make up a home carries a tax and sometimes it carries four or five different taxes. If you elect me to represent you in Parliament I will do everything I can to interest the government of the day in making changes which will take the heavy burdens from the backs of the home-owners which they now carry. I will not go to Ottawa simply to sit still. I have some ideas for the advancement of this riding, and for the benefit of home-owners wherever they may be, which I would like to express, and which I would do everything in my power to bring to the attention of the people's representatives.

I know that when I ask you to vote for me I am asking you to take a chance. You are not taking a chance if you vote for Mr. Fraser. His slogan is "Vote Fraser and Play Safe." I don't know just what that "Play Safe" means, but I suspect it means play safe for Mr. Fraser. Vote for him and you know exactly what you will get. You will get a representative on the Opposition side of the House of Commons. You will get some more questions asked. You will be guaranteed the minimum of bother from the immense national development going on in Canada at present. You will have a nice sleepy time.

Voting for me, you take a chance. You take a chance on some real development for this riding, for one thing. You take a chance on more jobs, more people, more money in the district. You take a chance on some tax reductions, along the lines I have described. I see that Mr. Fraser invites you to vote for him and get lower Income Tax. Now I put it to you, friends, how is a man who is on the Opposition side of the House of Commons going to do anything to lower Income Tax, or any other tax? An Opposition member is a handicap to this riding's progress. If there is any virtue in the Progressive Conservative party this riding has certainly served it well. It has given that party thirteen long, lean years of its political life. It is time for a change.

I am offering you the chance to change.

I have not told you any lies, or made you any promises that I will not be able to keep. You can't fool your friends and I look on everybody in Peterborough as a friend or a possible friend. You have known me in city government, and you know that I mean what I say, and that I do everything I can to follow through on any promise I make. It is with that record and that reputation that I ask for your support.

Your Liberal Candidate,

MAX SWANSTON

BENT ON VICTORY — Russia's Nina Dumbadse displays rhythm and strength throwing the discus more than 50 meters in international competition in Stockholm.

If You Drive When Sleepy Seek Trouble

A person who drives while he's sleepy is just asking for trouble, opined Magistrate Ronald Baxter today in fining Harold Robbins, 28, of 76 Robinson St., $10 and $8.50 cost in court.

Trouble, however, wasn't the only thing Robbins asked for, as a result of his accident June 21, 1½ miles east of Peterborough on Highway 7.

Through his defence counsel, Donald Bark, the accused asked for a few days to pay his fine. Mr. Bark told Magistrate Baxter his client was a painter and, as a result of the Quaker Oats strike, there seems to be an abundance of painters, resulting in a minimum of work.

Magistrate Baxter complied in agreeing not to mark the warrant for serving until July 22.

Robbins had been driving west toward Peterborough about seven o'clock the morning of June 21. According to George A. Stewart, 23, of 445 Cameron, the Robbins car wandered over the centre line of the highway, hitting the south shoulder.

Stewart, driving east, slapped on his brakes as Robbins returned to the road. Both crossed to the north side where they collided four feet over the centre line. Robbins admitted in the witness box that "maybe" he did doze a little.

Finding the accused guilty, Magistrate Baxter commented "I can't think of any case which comes within the limits of the careless driving section more than this one."

PC Tom Armitage investigated the accident and laid the charge.

Remand Youth On Arson Counts

Ronald Genereaux, 22, of 1093 Monaghan Rd., was remanded in court today on $2,000 bail until Wednesday on three charges of arson and a fourth of attempted suicide.

The arson charges concern fires at National Grocers on January 30 and March 13, and a fire at Loblaws May 27. None of the blazes were serious.

The charge of attempted suicide was laid May 24 but in Magistrate's Court today, Crown Attorney John A. Bradshaw, QC, intimated the charge would be dismissed.

Genereaux returned from Kingston Thursday where he had been under observation since May 24 after the suicide charge had been laid.

Discover Skeletons Of Five Babies

HARWICK, England (Reuters)—Skeletons of five babies have been discovered in a dockside house at this port town on the east coast.

Workmen repairing damage inflicted by this winter's floods came across the first two. Then police moved in and found three more.

One of the skeletons was wrapped in a coat, another sewn in a piece of canvas.

The house in which the skeletons were found stands in a district flooded to a depth of several feet by last February's severe floods. The whole area had to be evacuated and many houses are still unoccupied.

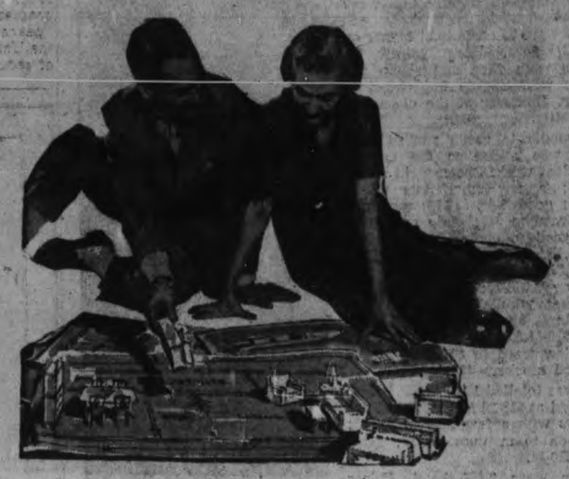
Warehouse Collapses

MONCALVO, Italy (AP)—A new warehouse in this north Italian village collapsed today, killing six workmen and injuring three others. Another man is believed buried under tons of debris.

Leave $15,000 Estate

NEW YORK (AP)—Actor Roland Young left an estate estimated at between $5,000 and $10,000 upon his death June 5, it was learned with the filing of his will for probate.

4 Die In Crash



OSLO, Norway (Reuters)—Four persons were killed when a charter plane crashed outside Lillesand, South Norway. The plane was caught by the wind just before landing, hit a hill and fell into the sea. Two of the bodies were found on land, and the two others in the water.

Cattle Receipts Up Slightly During Week

TORONTO (CP) — Receipts of cattle were up slightly this week at the Ontario stockyards and prices were 75 cents to $1 higher on most killers. Hogs gained $1, calves were firm and sheep and lambs were steady but closed $1 higher. Holdover at the close was 200 cattle.

A moderate cattle run of 6,665 head was added to 650 carried from last week. Choice light steers $19-20; a few small lots up to $20.75; good light $18-19; mediums downward to $17; plain as low as $14; good to choice heavy steers $17-17.75, a few $18; good heifers $18.50-$19; plain downward to $14; good cows $14-15; heifery cows $16; good heavy bulls $13.50-14.50; plain light bulls $10-12; choice fed yearlings $20-21.50; one lot $21.75; medium downward to $17.50; medium to good stockers $25.50-18.

Calves totalled 1,307 head. Prices steadied at $18-20 for bulk of choice vealers with a few tops at $21-22; common to medium $10-17; grassers $10-14.

Hogs were 2,687 head. Prices opened steady at $32 for grade A and gained to $33 on Tuesday; dressed sows $23.

Sheep and lamb receipts were 842 head. Good ewe and wether lambs sold steady at $28 but closed at $29; bucks were at a $1 discount at $27 closing at $28; culls $20-25; common to medium sheep $5-8; good light sheep up to $10.

Judge Fisher Dies In Toronto

TORONTO (CP) — Mr. Justice Robert Grant Fisher, 87, who practised law in London for 40 years and sat on the judge's bench for another 26, died here Wednesday night.

He was a judge of the appellate division of the Ontario Supreme Court when he retired three years ago.

Born in Hyde Park, Mr. Justice Fisher was educated at Dufferin College, London, and Osgoode Hall. He was graduated in 1888 at the age of 18 and was articled to Sir William Meredith, who later became chief justice of Ontario.

For 40 years he practised law in London with T. G. Meredith. He was made a VC in 1920 and was appointed to the Supreme Court in 1922.

Killed In Collision

CORNWALL (CP) — Reginald Moore, believed to be from Montreal, was killed Thursday in the head-on crash of an automobile and a transport truck at Dickinson's Landing, 10 miles west of here. Details of the mishap were not available.

Named School Inspector

KITCHENER (CP)—Lloyd Sutherland of Brighton, public school inspector for Northumberland county, has been appointed inspector of public schools for Waterloo North.

TO VOTE AT 16—One of the first 16-year-olds eligible to vote legally since Confederation, Gale Christianson, of Flin Flon, Man., is an apprentice soldier in the Canadian army, stationed at Winnipeg. Gale, training as a signalman, has been officially inducted into the army and given the right to vote in the August 10 federal election.

Pow-Wow To Settle Status Of Chippawas

SARNIA (CP)—Stewart McKenzie of the department of Indian affairs held a pow-wow Thursday over a dispute around here as to who is a Chippawa Indian and who isn't.

The 425 members of the Sarnia reservation have split into groups challenging each other's rights to belong on the reservation as full-blooded Chippawas.

Protests were filed by a group of 15 against a group of 20 and counter-protests filed by the 20 against 12 of the 15.

Musty files containing historical data on the Chippawa community have been brought forth to prove or disprove Chippawa ancestry.

Final decision will come from Ottawa when all the evidence is collected.

Ontario Veterinarians Head 12 Committees

TORONTO (CP)—Ontario veterinarians have been named to head 12 committees which will direct phases of the American Veterinary Medical Association convention here starting July 19. Some 2,500 veterinarians from Canada and the United States are expected to attend.

Dr. E. Bowness, general chairman of the convention, announced Thursday that chairmen of the major committee in charge of the session include:

Dr. J. H. Ballentyne of Guelph, meeting rooms and equipment; and Dr. C. A. V. Parker, Guelph, television.

Ask Police To Lay Charge

TORONTO (CP) — The attorney-general's department Thursday asked Toronto police to lay a charge against the Variety Club based on a lottery held during a Maple Leaf Stadium benefit night to aid the club's Variety Village for Crippled Children.

The Toronto Baseball Club has twice been charged with holding a lottery, but this is the first time in the current campaign that action has been taken against a non-profit and charitable organization.

Acting Crown attorney Henry Bull said Thursday the charge against the Variety Club will not involve the Maple Leaf Club nor its president, Jack Kent Cooke.

Gets 10-Year Term

MONTREAL (CP) — Maurice Lauzon, 24, who robbed a grocery store of $120 at gun-point May 30, was sentenced Thursday to 10 years in prison and told he only escaped the lash because his health is not good. Lauzon earlier had pleaded guilty to the charge beore Judge Eugene Lafontaine in criminal court.

Heavy Traffic Toll

LONDON (Reuters) — The British highway commission reported Thursday that 213,343 men, women and children have been killed in auto accidents in Britain since 1896. First known victim was killed Aug. 17, 1896 when struck down by a car driven at four miles an hour.

Say Wounded Woman In Poor Condition

TORONTO (CP)—Officials at the Toronto General Hospital early today said the condition of Mrs. Wilson Corson, 50, shot in the head Tuesday, is poor.

Mrs. Corson had a brain operation Wednesday after being brought from her home at Port Union, 15 miles west of here.

Police said she was wounded by a .22-calibre revolver bullet when the gun accidentally discharged while her husband was loading it to shoot rats.

Two-Year Study Of Disorders Of Stomach

WINDSOR, Ont. (CP)—A two-year study to determine the extent of gastro-intestinal disorders and to find out if they are increasing has started at the University of Western Ontario, London, Health Minister M[illegible] said in a statement relc[illegible]day by his office here.

Public health officials agree information about extent of the occurrence of diseases of the stomach and intestines in Canada is scant, the statement said. Except for gastric and duodenal ulcers, even less was known about the extent of other specific gastro-intestinal diseases.

First part of the study will be an analysis of statistical data accumulated by the department of clinical preventive medicine on gastro-intenstinal disorders and to relate the findings in specific disorders, particularly to inflammatory, ulcerative and diarrhoeal diseases.

Next will be an examination of records of 26 hospitals in Western Ontario. A comparison then will be made of the general and specific gastro - intestinal morbidity rates with those worked out by the statistical study.

Third part of the study, in co-operation with the radiology department of Victoria Hospital, London, will involve an examination of specific gastro-intestinal disease states.

WE'VE JUST RECEIVED ANOTHER SHIPMENT!!
NO MORE FLYS!
IMAGINE CATCHING AS MANY AS 20,000 FLIES IN A TRAP!

Seems impossible doesn't it? Well it's true—this "wonder trap" lures flies by the thousands to wholesale destruction with an odour that acts like radar! Flies within ¼-mile radius are drawn by a mysterious scent that only flies are attracted to. It has no effect on beneficial insects, and even humans cannot detect its scent except at very close range. House flies, large flesh flies, green and blue bottle flies, screw worm flies, even midges, all succumb to its call! They are drawn away from houses, animals, barns and garbage cans and into this "WONDER TRAP."

INCLUDED FREE enough fly toxin to last a full season

The trap is as simple to operate as it is effective. Screw trap to the neck of any mason jar or other container. It fits any thread-necked bottle or jar with top of standard 2¾-inch diameter. Hang or set your trap outdoors and your fly nuisance is ended. Complete instructions on how to use this fabulous fly toxin are included.

ONLY FLY TRAP MADE FOR THROW-AWAY JARS! END ALL MUSS AND FUSS!

Wherever there are flies, this sensational new outdoor trap is proving itself a boon—in back yards, on farms, dairies, food markets, hospitals, motels, restaurants, just to mention a few of the places.

FLY TIME IS POLIO TIME—COINCIDENCE OR CAUSE?

The medical profession has recorded no opinion as to whether flies are carriers of polio germs, but among preventive measures they do advocate greatest sanitary conditions possible which automatically declares war on flies. Flies are *known* carriers and breeders of many diseases. Play safe—destroy them!

Think of being free, during hot summer days and nights, from biting, dirty flies. No more sticky, unsightly fly paper, no more spraying or swatting. Here at an amazing low cost, is all season relief and health protection for your family, pets and livestock.

PETERBOROUGH EXAMINER

VOL. CVI. No. 160 — FRIDAY, JULY 10, 1953

Main Street Topics

BIG PICKEREL

Fishing off Wallace Point Tuesday, Mrs. Donald Fulton of Meadville, Pa., hooked a 6½ pound pickerel. Mrs. Fulton is currently holidaying at Herb Cardwell's cottages at the point.

MUSIC TEACHER RETIRES

Miss Mary Harstone, a music teacher in city public schools for 14 years, is giving up her piano classes in the schools. She will continue to give private lessons but will no longer conduct classes at Prince of Wales and Queen Mary Schools. The Board of Education is sending her a letter thanking her for her years of service.

RESTORE RECESSES

The Board of Education decided Thursday night to restore morning and afternoon recesses at city public schools where a short break-period had been substituted. This complies with Department of Education regulations. Recesses are approximately 15 minutes.

TRAFFIC GUARDS' PICNIC

So that the traffic guards' picnic will not interfere with school activities some restrictions have been imposed. The picnic for the children who look after the safety of their schoolmates must be between June 1 and June 15, and K. S. Wightman, superintendent of schools, must be notified at least a month in advance.

RECEIVED HONORABLE MENTION

Jack King, of 544 Chamberlain St., a member of the Peterborough Key Club, came fourth in the North American Key Club Oratorical contest held in Los Angeles and first on the honorable mention list. Jack's trip was sponsored by the Peterborough Kiwanis Club.

HELPS WRITE TEXT

Dr. Eldon P. Ray, principal of Kenner Collegiate, is one of three authors who have written a Grade IX text, "Canada and the Americas," for the social studies course. It is being adopted for use in Peterborough. Professor George W. Brown is editor-in-chief, and the three authors of the text book are Dr. Ray, Professor Maurice Careless and Professor Gerald Craig. It should be off the press sometime in August.

VISITING

Dr. Horace A. Ayers of New York, visited Peterborough and the Examiner plant today. Dr. Ayers, a schoolmate of Ross Dobbin and Dr. H. M. Yelland, was at one time a linotype operator with the Examiner. He left the newspaper and became secretary of the YMCA. He then went to university to study medicine and migrated to New York city in 1903. Since then he has been back only once. However he has kept in contact with Ross Dobbin during the years and is now his guest.

City Merchants Not Bothering With Exchange On American Dollars; Visitors Sensitive

Although the majority of city merchants appear not to be charging on United States currency, the few who are have reported severe criticism by visitors from south of the border.

In some cases, stores report that visitors' experience with exchange rates have produced a slightly hostile attitude towards shopping in this country at all.

"As long as the rate doesn't go above three or three and a half per cent I don't deduct it at all," one merchant said today. "Of course last year, when it was four per cent and more, I had to charge it."

The current rate of exchange as of today is one and one half per cent in favor of Canadian currency.

The custom with a number of merchants is to keep their United States currency separate from Canadian and give United States visitors change in the coin of their own country.

Replace General Science With Agricultural Science

Agricultural science will replace general science for Grade 9 pupils in Kenner Collegiate this year. A revised social studies course for Grade IX has been approved. The changes were made Thursday night by the Board of Education. K. S. Wightman, superintendent of schools, reported that both courses cover the same general scientific principles but agricultural science applies them more directly to agriculture. He said that the science room at Kenner Collegiate was planned for the teaching of such a course.

AFFECT ON GRADE X

Dr. Donald Whyte asked how this would affect the student continuing in science in Grade X.

Dr. Eldon Ray, principal of Kenner, assured him that the two courses were basically the same but the agricultural science course permitted the student to apply his knowledge more directly.

The Board also approved a recommendation from Mr. Wightman that a Department of Education curriculum for Grade IX social studies should be adopted. A text book "Canada And The Americas" will be issued this year as the approved text book for the course.

Two years ago the Board approved a course in social studies for Grade IX prepared by the local curriculum committee. Departmental courses have been issued since then for Grades VII to X. The Departmental course parallels the local committee's one with the exception of one unit.

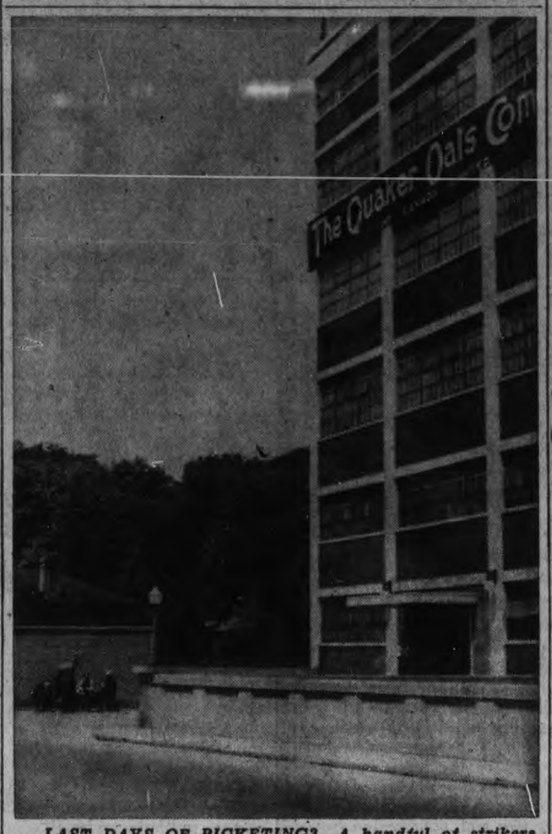
Campbellford May Join HEPC Drop Local Power

CAMPBELLFORD (ENS)—The Campbellford Public Utilities Commission held their regular meeting in the council chambers Thursday evening with all members present except Commissioner Newman.

Chairman A. J. Meyers reported he had called on the Hon. W. A. Goodfellow explaining to him the proposed plan of joining the HEPC.

Mr. Goodfellow was keenly interested and suggested a meeting between board members and officials of the HEPC. Mr. Myers and commission board manager P. C. Denyes met with HEPC officials last month but chairman of the HEPC Robert Saunders was still in England at the time.

Wages or hours of work for PUC employees were not discussed but hydro officials suggested rates which would be increased if Campbellford became a hydro town. Nothing concrete was decided at the meeting.



Ross Striker an official of the HEPC and a former resident of Campbellford gave his opinion that he could see no reason why Campbellford power rates would have to be increased because the board had such a compartively large amount of money on hand.

Manager Denyes reported in the wage demands of power house employees. They are willing to accept a 44-hour week but did not know how this would affect the water works department employees. The new system would require three men inside which would leave no one for outside work. The matter was left over until a satisfactory pension system for employees could be found.

The board made their usual grant of $75 for the annual picnic for PUC employees.

Mr. Denyes was instructed to contact the Confederation Life Insurance Company and request them to make suggestions in reference to a pension plan for employees.

No action will be taken on any discussions reached as a result of the PUC-hydro meeting until C. U. Peeling, an engineer who has been commissioned to investigate the local situation, makes his report. Mr. Denyes was instructed to secure prices and information on a new turbine generator for the number two machine at the local plant. The board adjourned after passing the pay sheet.

LAST DAYS OF PICKETING?—A handful of strikers carry out picket duty at the main entrance of the Quaker Oats Co. plant on Hunter St. in what could be the last few days of the strike. It was reported that at a meeting Thursday workers and management both made concessions.
(Examiner Staff Photo)

Weather Cool, Tourists Come To Town To Shop

The current spell of unseasonably cool weather may be a mixed blessing to city merchants who rely on United States summer visitors to boost their annual volume of business during the tourist season. Some stores reported that Thursday's low temperatures had brought visitors flocking away from the lakes into the city to shop. Others told of overhearing tourists say they intended to cut their visits short.

They intended to return to what they alleged was the warmer climate of their homeland.

The official temperature in the city Thursday hovered between 49 and 64, about 10 degrees lower than a year ago, while the thermometer still registered 64 at noon today.

EXPENSIVE FREEZING

"I'm not paying $70 a week just to sit up here and freeze," a woman from the United States was reported as saying by one local merchant, who said he had heard more than one visitor say he was going home if the weather didn't warm up.

While china and woollens were in heavy demand by visitors Thursday, sales of other lines of merchandise were reported as from "very good" to fair.

One china store reported it was definitely busier Thursday than any previous day this year and another that Thursday's business was the "best of the year by far," although admittedly this was influenced somewhat by a current summer sale which was being advertised throughout the district.

Sale of woollen sweaters, suits and overcoats was also good and was not entirely due to the cold weather, as there is always a demand for Canadian woollens by visitors from south of the border.

ONLY FAIR

One variety store manager reported Thursday's business "only fair" and not as good as Monday, which was the best so far this season. He hired two extra clerks for Tuesday on the basis of Monday's number of customers but was disappointed in Tuesday's trade.

Fishing tackle was reported selling well but "not exceptionally", while souvenirs "just something different that isn't made in the United States", had only fair sales, although one store manager reported that lots of visitors were buying mocassins, especially if they were decorated with a fringe and the picture of an Indian chief on the crown.

"They think they're made by the Indians, you know," was the explanation.

27-Lb. Muskie Tops Of Season

George Schupska, 44, of Geneva, Ohio, got the "thrill of his life" today when he landed a 27-pound 46-inch muskie in Stourgeon Lake.

This is the biggest muskie reported caught in the Kawartha district so far this year.

Mr. Schupska and his wife Ina were trolling about 200 yards from Bob Legana's Lakeview Lodge when he got the strike, using a flatfish lure. It took about an hour and a half to land the record-sized fish.

Mr. and Mrs. Schupska have been coming up to Canada to fish for the past nine years but this was the first time either one of them ever caught a muskie.

"It was quite a thrill, I can tell you," the proud fisherman told The Examiner today. "I've caught some good-sized pickerel and northern pike before but there's no comparison.

Psychology Overused Teaching Music

TORONTO (CP) — Robertson Davies, editor of the Peterborough Examiner, says there is too much psychology employed in music-teaching today.

In an address to delegates of the Ontario Registered Music Teachers' Association convention here Thursday night, Mr. Davies said that when he was a child music teachers refused to allow students to choose their own music or express definite opinions about their lessons.

"But then, children were under the impression that they went to the teacher to learn, so nobody was disappointed," he said.

Mr. Davies said that modern teachers who had to keep up with new methods and strive to get large classes of students through musical examination often forgot that their teachings might affect pupils' lives for many years to come.

He said music teachers often exercise more influence on the future thinking of a child than general school lessons.

Heroes Are Made

Short-cutting across the foot bridge at the end of London St. late one night this week, a pedestrian was about half-way across when he was confronted by a skunk crossing from the other shore. They both halted near the bridge's centre and eyed each other while visions of returning and walking an extra mile in order to get home filled the pedestrian's mind. Finally the skunk turned and stalked off from whence he came and the pedestrian followed—several minutes later.

Amended Draft Of Zoning Bylaw Sent To Council

Clauses of a proposed zoning bylaw to authorize city planning were studied Thursday night by the planning committee. Hubert Sills was chairman and with him were: Mrs. W. H. Morton, Ald. H. S. Longhurst, James Craig, Ald. H. T. Rehill, Ernest C. Braund and Mayor Waddell.

The draft was prepared by City Engineer Chalmers for the committee's consideration, and was finally passed on to the city council with several amendments.

A zoning bylaw was suggested to the council by Dr. E. L. Faludi as an important instrument in the city's approach to planning its own development.

MAPS PREPARED

A series of maps relating to zoning were also prepared under the direction of Dr. Faludi. Adoption of a zoning bylaw had to be preceded by certain required publicity. In that stage, it was held up from that day to this. Meanwhile, and as originally undertaken by James Dutton as former chairman of town planning, that committee and the council, appealed to the community spirit of citizens in accepting the recommendations of the committee on matters referred to them.

Decisions and remedial suggestions were accepted by people in nearly every instance, reflecting a spirit of goodwill which often was extolled by Mr. Dutton, James Hamilton and others.

The zoning bylaw is now advanced again to presentation to the city council as a result of the committee's work Thursday night.

Food, Rent Send Living Costs Up

OTTAWA (CP)—The cost of living crept up in each of the nine regional cities during May, the bureau of statistics reported today.

The bureau said in a statement the increase is due mainly to higher prices for food and rent. Rents are up slightly in Halifax, Saint John, N.B., Montreal, Toronto, Edmonton and Vancouver but are unchanged in St. John's, Nfld., Winnipeg and Saskatoon.

Prices of fresh and cured pork are "substantially higher" in all nine cities but butter generally costs less than it did in April. In Toronto clothing costs a little less, in Winnipeg and Saskatoon the price is unchanged and in the other six cities it has increased slightly.

Refrigerators cost less in Halifax, Saint John, Montreal, Winnipeg and Edmonton. There was a seasonal drop in Vancouver coal prices.

New Contract Suggested May End Strike Of 435 Quaker Workers

Members Of Union Will Vote Sunday To Accept Or Reject Terms Kept Secret After Meeting With Mayor

The strike of 435 production workers at the Quaker Oats Co. plant here may end Sunday as the result of a new contract formula arrived at Thursday afternoon after a three-hour session at the City Hall arranged by Mayor Hugh Waddell. Both the union and management made concessions and the membership of Local 293, United Packinghouse Workers of America (CIO-CCL), will have a chance to accept or reject the new offer at a membership meeting Sunday afternoon.

So the membership may have the offer put to them fairly, none of the three negotiating parties of Thursday afternoon — Mayor Waddell, management and the union—is giving any details of the new formula. Both sides have made concessions but what they are will not be announced until the membership meeting.

EXECUTIVES MEET

A stewards and executives meeting will be held before the main meeting Sunday. There is a strong possibility that they will recommend acceptance of this most recent formula.

However, more than Local 293 in Peterborough is concerned in the strike. At the membership meeting July 2, a resolution was passed unanimously that the Peterborough employees would not return to work until a satisfactory settlement is reached with the 130 production workers at the Saskatoon plant who are also on strike.

Today the strike is continuing. Pickets are stationed at their three posts—Hunter St. bridge, Simcoe St. plant entrance, and London St. plant entrance—and strike headquarters are as busy as usual. A group men and young women strikers set off early today to take up a plant gate collection at General Motors, Oshawa.

Just a week ago, at a crowded membership meeting, the latest company offer up to that time was rejected 267 to 54. The main provisions were: a modification of the company's previous stand on swing shifts, with only 50 to 60 employees in the flour mill involved, and then only if there is enough business to operate the plant for more than five days of 24 hours in one week; a 40-hour week; wage increase of 15 per cent, raising the basic rate from $1.18½ an hour to $1.36½; a further 2 per cent on July 1, 1954, bringing the basic rate up to the union objective of $1.39½ an hour, similar to the Port Colborne mills.

Concessions were made by both sides from this stand of last week.

While neither side will confirm it, the belief is that the company gave way somewhat on the wages issue and the union softened their stand on swing-shifts.

SEEMED HOPELESS

Mayor Waddell called the special meeting for 3 p.m. Thursday at a time when it seemed that both sides were hopelessly deadlocked. Negotiations had reached a critical stage and the mayor said that the long strike was causing hardship to the citizens and was harming the community.

Mayor Waddell was chairman but the actual mediation (conferring privately with one side and then with another) was done by Alderman Norman Graham. Both union and management were high in their praise of Alderman Graham's ability to get them in serious conference.

The compliment was returned by Alderman Graham who said today: "We got the best of co-operation from both sides. I'm kind of hot tempered myself, sometimes, but nobody blew up. Both sides deserve a lot of credit; they negotiated sincerely and were willing to make concessions . . . I don't want to make any further comment at this time."

Representing the city were Mayor Waddell, Alderman Graham and Alderman Gordon H. T. Farquharson. Representing the management were Reginald R. Faryon, Canadian president; James G. Wharry, general manager; Lewis H. Ingram, vice-president in charge of personnel; and Fred G. Ash, general operating manager. William Beggs, Eastern Ontario representative for the UPWA, and also a city alderman, was present for the international union. Local 293 were represented by William Triggs, president; Bob Prescott, chief steward; and Herb Hennessey, executive member.

County Farm Notes

By HARRY THEOBALD

Shorthorn Breeders Monday Meeting to Set Sale Date .... Farmers Hoping For Strike Settlement .... Montvic Monogram's Productive Daughters... Junior Farmers' Church Service Sunday, July 19 Field Day of Sports Saturday, July 18.

Ken Best, assistant agricultural representative, announces three events for Junior Farmers before the end of July.

There is the Peterborough county Junior Farmer and 4-H Club Field Day Saturday, July 18.

Junior Farmers' church service at Gilmour Baptist Church on Sunday, July 19 at 7.30 p.m.

And, the district Junior Farmer field day at Belleville, Wednesday, July 22.

The field day at Morrow Park is a preliminary round deciding the county representation at the district events at Belleville.

The program comprises ball tournaments, track and field competitions and a picnic lunch.

The day's schedule opens at 9.30 a.m. with a 4-H Club ball tournament. The second game is at 10.30. At 11.30 tug of war and girls' shoe kick.

Picnic lunch is at 12 o'clock followed by a talk to the Juniors and 4-H Club members by Wilson Gemmell.

The final 4-H Club game is at 1 p.m.; and also the first encounter of Peterborough and East Peterborough (Norwood district) girls in a softball match.

The boys of the two districts—Peterborough Junior Farmers vs. East Peterborough Junior Farmers are listed for 2.15 p.m. in their ball game.

Track and field events begin at 3.30 p.m.

Ball games are limited to five innings or one hour unless otherwise arranged. Each team is asked to provide an umpire and one ball (in good condition). All 4-H Clubs are requested to be ready to begin at 9.30 a.m. sharp. Teams not ready on time will be considered in default.

Track and field events will include boys and girls 100 yd. dash, softball throw and high jump.

4-H Clubs should choose one boy and one girl only for the softball throw and high jump. Junior Farmer clubs are allowed two entries in each. Tug of war teams are limited to one per club, six "men" per team and no spikes.

A point system of scoring will be used to determine the high 4-H Club and high Junior Farmer Club. Crests will be given to the members of the winning ball team, and ribbons for track and field events.

Parents are requested to attend the field day, and the public is invited.

CHURCH SERVICE

For the evening service at Gilmour Church, Sunday, July 19, the speaker will be John Lewis, son of Mr. and Mrs. Harold Lewis, who is a student at Victoria College, University of Toronto. The Junior Farmers' Choir will assist in the service.

DISTRICT FIELD DAY

The inter-county field day at Belleville, July 22, brings together the young people of the counties of Durham, Victoria, Peterborough, Northumberland, Prince Edward, Hastings, Lennox-Addington and Frontenac. The winners at the Peterborough county field day qualify for the district competitions. There will be a dance in the evening.

Success of the 4-H Club section of the county field day at the Exhibition Park will depend on the support of parents. This will be the first time the East Peterborough young people will participate as a group. If the adults of the eastern townships can take time out to be with the boys and girls, as they do at their winter affairs, they can be essentially helpful in the development of 4-H Club interest in Peterborough.

+ + +

The "Monogram" Record

A daughter of the class "Extra" Holstein sire, Montvic Monogram, has recently completed an exceptional Record of Performance test of 812 lbs. fat from 18829 lbs. milk, average test 4.31 per cent. This record was made as a seven year old in the 365 day division on three times-a-day milking. This animal is named Elmcroft Abbekerk Monogram and she was bred by R. Ray McLaughlin, Oshawa, and made her record in the herd of Bruce Thornton, Thamesford. Montvic Monogram now has 124 tested daughters with 320 records that average 14016 lbs. milk containing 538 lbs. fat, average test 3.83 percent butterfat.

+ + +

Report To Juniors

The usual bus trip for 4-H Club members has been held up for the present. Ken Best reports to them that "due to a plant changeover, General Motors cannot show us through their factory as we had hoped." The Lakefield forestry club trip to Orono and Fenella has been moved ahead to the fall.

Applications must be in before August 1 for the district Junior Farmer Camp, August 24-31. Several other dates are:

September 7-14 — Provincial leadership training camp.

September 9 — Junior Farmer and 4-H judging competition at CNE.

September 17—Junior Department, Peterborough Exhibition.

October 16 — Provincial 4-H Inter-Club Competitions, Guelph.

+ + +

At Jack Stewart Farm

Ken Best has arranged a meeting of the 4-H West Dairy Calf Club for Tuesday, July 14, at Jack Stewart's farm on No. 7 Highway, east of the Mark Burnham woods. Mr. Stewart has a herd of Guernsey cattle. The meeting is in the evening.

+ + +

Wheat Club Judging

The field judging of the 50 Bushel Wheat Club fields is expected any day, Mr. Paterson said yesterday. The judge is also expected in Durham county.

+ + +

Ditching By Dynamite

Two thousand farm people of eastern Ontario attended the first Farmers' Day at Kemptville Agricultural School. A demonstration of ditching with dynamite, one of the features of the program, saw hundreds of feet of ditch created in seconds. It was a highlight of interest.

+ + +

Cash Crop Day Sept. 29

Some farmers may be interested in the Western Ontario Cash Crop Day, September 29, in Elgin County, near Rodney. Demonstration crops under cultivation are: silage and husking corn, soy beans, white beans, sugar beets and potatoes.

+ + +

Hope For Settlement

District farmers are wondering about the market for the fall wheat crop and also for storage facilities in the Peterborough area. This concern has been indicated by many enquiries from farmers who in recent harvest seasons have been hauling their crop directly from the field to the Quaker Oats plant, which has been strike-bound for two months.

However, the Thursday afternoon meeting of company and union representatives appeared to promise an early harmonizing on details of agreement which had been holding up resumption of work and production.

The combine practice has developed to such an extent in the Peterborough area, within a radius up to 40 and 45 miles, even as far as Prince Edward County, that it has become rather generally established. Farmers had the option of selling directly from the field or renting storage space, covered by insurance, and selling when they wished.

Because of the harvesting custom that has been developing with many farmers, they will be hoping for results at the weekend that will assure them of delivery as usual in Peterborough within the next two weeks or thereabouts.

One estimate that was heard this week set at more than 300,000 bushels the quantity of district wheat arriving in Peterborough. The bulk of it was said to be destined for the Quaker and Dewart bins.

+ + +

Shorthorn Meeting

Plans for a sale of purebred Shorthorn cattle in Peterborough this fall will be considered at a meeting of the breeders' association Monday, July 13, at 8 p.m. in the office of the Ontario Department of Agriculture.

Discussions have come to a point where the proposal is generally endorsed, and about all that remains at this stage is to set a date, probably in October. Mr. Pimmett said that any breeder wishing to consign cattle should communicate with George Shoniker at Norwood, Fred Carpenter at Bailieboro or himself, at Indian River.

The Hereford breeders of east-central Ontario have already established their June auction, and the provincial Aberdeen-Angus Association transferred their sale in early June to Peterborough.

Several years ago some of the Holstein breeders were talking of holding a sale here about the time of the Central Ontario championships. Nothing came of it.

Peterborough occupies a focal position in this part of the province with ample accommodation at Morrow Park for stock sales. That is an advantage to be improved and exploited by enterprise and perseverance. The Hereford people have demonstrated that it can be done, and the Shorthorn breeders are now setting their thinking in the same direction.

A SATISFACTORY HORIZONTAL SILO — In recent years trench and horizontal silos have become increasingly popular for storing grass, legume, or corn silage. Not only can such silos be constructed at considerably less cost than the familiar tower type, but with the newer kind, spoilage is not excessive. The sidehill stack silo is satisfactory but considerable spoilage of from six to eight inches may occur on the top and sides. The sidehill trench silo suffers from the disadvantage that unless well drained it may partially fill with water in wet weather, ar l if some or all the construction is below ground level it is more difficult to remove the silage —particularly in winter time. One of the latest and most successful types of horizontal silo is the one illustrated above which has been under test at the Central Experimental Farm in Ottawa. It consists simply of two well-constructed board fences set parallel to one another. The sides, which should be of dressed lumber tightly fitted, may be banked with earth to a height of about three feet to give support against the pressure of the silage within and prevent the entry of too much air. The sides may also be supported for greater strength by diagonal braces. Spoilage is reduced if the top of the silo is covered with sawdust, shavings or straw. With this silo it has been found that the spoilage at the top is only two or three inches in depth—a much smaller percentage than would commonly be found in a vertical silo holding a similar volume. There is no side spoilage if dressed lumber is used because no air can penetrate between the tightly fitted side boards. In constructing the silo each sidewall should slope outward from the perpendicular by one foot, that is, if the bottom width of the silo is 12 feet, the width at the top should be 14 feet. Twenty feet in length should be added to the main section of the silo to allow for the sloped ends which develop as the silo is filled. These are actually the ramps to allow entrance and exit of the vehicles used when filling and packing the silo. Hints on construction of trench and horizontal silos may be obtained from the Information Service, Department of Agriculture, Ottawa.

Dawbul Wheat Grand Stand On Robert Armstrong's Farm

After seeing Robert Armstrong's field of registered Dawbul wheat Wednesday afternoon, Ed. A. Summers, agricultural representative in Durham, verbally put his name at the top of the list for a supply of the grain when harvested.

Mr. Summers was so impressed by the quality of the stand that he immediately thought of his wheat club members and their project for 1953-54.

Three representatives of the Ontario Department of Agriculture happened to meet in the Armstrong field. They were Mr. Summers, Frank C. Paterson and E. I. McLoughry of OAC, who is associate director of extension.

Several fields of Cornell were worth attention, but the Dawbul drew first rating, and Mr. Armstrong agreed, making it unanimous. Height was remarkably uniform, reaching up around Mr. Paterson's ears. Heads are large and heavily filled. Mr. Summers put five or six in his pocket to show Jim Brown of Newcastle and some of the other farmers along the front of the county. Stocks are firm. There wasn't a patch of lodging, neither were there any secondary heads low down in the stand. It is a vigorous and vital sample of the new variety, about eight or nine acres.

Some difference of opinion was expressed about the yield, and Ed. Summers held out for 60 bushels to the acre.

THE NITROGEN DRESSING

The field had been in clover. The grass was plowed down in June, and sown to oats that were plowed in as green manure. Mr. Armstrong applied a fertilizer mixture at the rate of 250 pounds, seed the field after Peterborough Exhibition, and put on a top dressing of ammonium nitrate this spring.

That nitrogen application as a pickup after the winter convinced Mr. Armstrong of its timely value.

"From the results I'd certainly do that again," he remarked.

This was the field in which he skipped a wide row of the fertilizer in sowing. The difference in early response has carried through in apparent vigor, and even, as he predicted, to the size of the heads. The nitrate is showing a nice profit just as the grain stands, and also at the current market price. This wheat will be ready for harvesting in about two weeks, especially if the sun stays on the job as steadily as on Wednesday. It was a picture of cereal promise, long ripples with the brisk breeze from fence to fence, not only on the Armstrong farm, but elsewhere in the Cavan countryside. It is to be hoped that the weather tempers its wind through the next fortnight to the ripening crops.

HAS SIMCOE OATS

Mr. Armstrong has a field of Simcoe oats, certified, that as a new variety should be of interest to farmers. His crop includes Beaver, Abegweit and Clinton, also Barboff barley, and near the house test plots of nine varieties of both oats and barley.

Montcalms, Galore, UN-1020, were conspicuous in the barley rows, but in his own experience Mr. Armstrong found that Montcalm did not stand up as well as he wished. Galore did and also outyielded the Montcalm.

He is keeping part of a field of Rhizoma alfalfa for seed, and was wondering what the bees were doing for him in its setting. It was sowed a year ago, from seed Robert Bell, assistant agricultural representative, then, obtained from British Columbia.

The Armstrong farm is almost in the demonstration category these days, and the grain as a whole crop has done exceedingly well.

Rain Reduces Hay Quality

The quality of Ontario's hay crop has been deteriorating from the effect of too much weathering. Some of the exterior of Peterborough county bales has lost color and savor from dampening by rain, "but the inside is excellent." The crop was still on the way to storage Wednesday and Thursday.

This same extent of damage is mentioned as "a large amount of spoiled hay" in Bruce county.

Ontario county, in the weekly crop report of the Ontario Department of Agriculture, reports: "Haying has been very slow owing to the unsettled weather; the general quality has been reduced."

Perth county: "Haying has been tedious and much of the crop that has been cut is badly weathered."

Heavy rains in wide areas of Western Ontario held up haying operations towards the end of last week. Welland, however, presents a brighter aspect: "Weather has been favorable for harvesting hay, and a heavy crop has been cut and stored in fairly good condition."

The corn crop is uneven across the province, ranging from about two inches up. In North Simcoe "cattle that would usually have been marketed in June are still being held on farms."

Halton beekeepers say "little or no honey has been gathered to date." Alan Brown says bees don't like working in the wet. They need a lot of sunshine to keep them supplied with their raw material gathered from the flowers.

More heavy steers are seen in Brant pastures than in former years. Much of the Oxford hay "that has been put in is of poor quality." Dufferin's comment is that all crops are most promising.

Demand for dairy cattle is slow in Leeds. Comparatively few are moving to the United States. That county was hoping for a good steady rain at the beginning of the week.

Dairy cows sold at low prices at two auctions in Russell.

SECOND MUSKIE ORDER—E. R. Newcomer, of Erie, Pa., received the Order of the Kawartha Muskie Thursday when he presented a 16½-pound muskie at the Chamber of Commerce office. This was the second order handed out this season. It is awarded for catching a muskie weighing more than 15 pounds. Trolling with a cooper spoon, Mr. Newcomer hooked the battler and with help from Joe Metz, also of Erie, he boated the fish in 30 minutes. Bob Hamilton, the Chamber's assistant secretary-manager (centre, above), presents the order to Mr. Metz (left) and Mr. Newcomer (right).—(Examiner Staff Photo).

Believe Revolt In Germany Sparked Beria's Downfall

By EDDY GILMORE

STOCKHOLM (AP) — Lavrenti Beria's expulsion from the Communist party and Soviet government means that Premier Malenkov—and perhaps others—now feel strong enough or desperate enough to doom the supreme policeman to utter disgrace.

In this mighty struggle for Stalin's power, which does not necessarily appear to have ended, the sensational action against Beria was a natural development.

Like so many other mysterious things about that mysterious country, Russia, when did it all take place?

Has Beria just now been kicked out of the party and government or did all this happen some time ago?

Just before I left Moscow 10 days ago, high members of the party and government on June 27 watched the premiere of a new opera at the Bolshoi theatre.

NAME NOT LISTED

Oddly, Beria's name was not listed among those present.

"Do you suppose that it's already happened?" one Western diplomat asked me, referring to what we all expected in the power struggle—the inevitable arrest of someone on top.

The cold-eyed Georgian has been damned by the most terrifying phrase of all in the Soviet lexicon—an enemy of the party and people.

On top of this he has been branded an international imperialist agent, a sickeningly familiar expression.

From almost every angle, Beria has had it.

It seems certain that the Supreme Court, which now has his case in its hands, will give him the works.

One of the momentous points involved in the disgrace of Beria is its possible connection with recent moves of the Soviet government to improve relations with the West.

HAS STRUGGLE HALTED?

Another mighty question of the moment: Has the struggle for power been halted with Beria's disgrace?

I wrote a story Thursday night and mailed it to New York. It began: "Who's running Russia today?" It ended: "When I recently saw Beria and Malenkov together—three times now since Stalin's death—there was no question in my mind who was running the show. It was Malenkov, Georgi Maximilianovich."

This morning that reads even better.

Beria's disgrace could very well be connected with the East Berlin and East German uprisings. It is known in Moscow that he has had not only his finger but his whole arm in the bubbling German cauldron.

Has Stalin's old fellow-countryman—both were Georgians—been damned because of this?

It is quite possible, no matter what official explanation is now rolling off the propaganda machine of the central committee of the Communist party.

NEED SCAPEGOAT

Twelve years of watching events in Russia have certainly convinced me of one thing: When something happens as has happened in Germany, somebody has to be singled out. If it is anybody the boys can get their hands on, punishment follows denunciation as night does day.

A great wrestling bout for power was going on before the German demonstrations, of course, but those events coming on top of a denunciation of the police and their methods could have given Malenkov the gun he was seeking to fire in Beria's face.

Beria is being denounced in Moscow this morning for, among other things, trying to put his police before the party and government.

If one can believe this, it could mean Beria had been trying to arrest some of his colleagues in the party and government. Possibly Malenkov himself.

Noteworthy, also, is the continuing emphasis from Moscow today on criticism of the "leader cults," of which Stalin-worship was the supreme and utter example. There has been more emphasis on collective leadership.

Are the Communist leaders in power really trying to work out a government by committee or is this the same old Communist trick of calling the sun the moon and day night, and saying it over and over again?

Malenkov and or others now have dealt with Beria.

Is anyone else next?

Nikolai Bulganin, who heads the armed forces, is keeping very quiet these days. So is Molotov. Nor is much heard from Nikita Khrushchev, head of the Communist party machinery.

Malenkov seems to have won the first round in the great power vacuum that followed the death of Stalin. But it may not be the final round.

Photography Plane

COBOURG (ENS).—An RCAF plane circled Cobourg for about five minutes yesterday, flying low over the town with the ordnance depot apparently the hub of the circle. Presumbably it was a photographic plane. After making several circuits, the plane straightened out and headed east.

Give 5 Utilities Authority Build Plants

WASHINGTON (AP)—The House of Representatives voted overwhelmingly Thursday night to give five big New York private utilities authority to build new power plants at Niagara Falls, N.Y.

The bill, passed by roll call vote of 262 to 120, now goes to the Senate.

A motion to send the bill back to committee lost on a roll call vote of 254 to 130.

Also defeated was an amendment by Representative Frank Becker (Rep. N.Y.) which proposed that New York state be given the right to build the estimated $400,000,000 project. The amendment was rejected, 136 to 17, by a standing vote.

APPLY FOR LICENCE

The measure, if approved by the Senate and signed by President Eisenhower, will give the five big utilities authority to apply to the power commission for a licence to construct the new power facilities.

The development, engineers estimate, will virtually triple the present generating capacity at the Falls.

The bill to give the private utilities authority to construct the new facilities was opposed by New York Governor Thomas E. Dewey. Dewey would like his state's power authority to do the work.

Development of the new power facilities is made possible under a 1950 U.S.-Canadian treaty permitting increased diversions of Niagara river water.

K. C. McKay New Manager

MARMORA (ENS).—Succeeding Alex Fraser, who has resigned as manager of the Marmora branch of the Dominion Bank is Kenneth C. McKay, who recently has been a credit officer in the head office in Toronto.

Mr. McKay joined the Dominion Bank in Wingham in 1935 and has served the bank in Brampton, London and the Fairbank branch in Toronto. From 1942 to 1945 he was with the armed services, a pilot instructor with the RCAF.

Another change at the Marmora branch has been the transfer this week of Michael Forestell, the teller, to the Burlington branch.

His successor is a namesake but not a relative of the resigning bank manager, Alex Fraser, and he comes to the district from Montreal.

Also added to the staff is Mrs. Marilyn Stewart of Madoc, formerly of a Toronto branch, in succession to Ronald Henry, who resigned recently to move to British Columbia.

Truck Kills Man 78

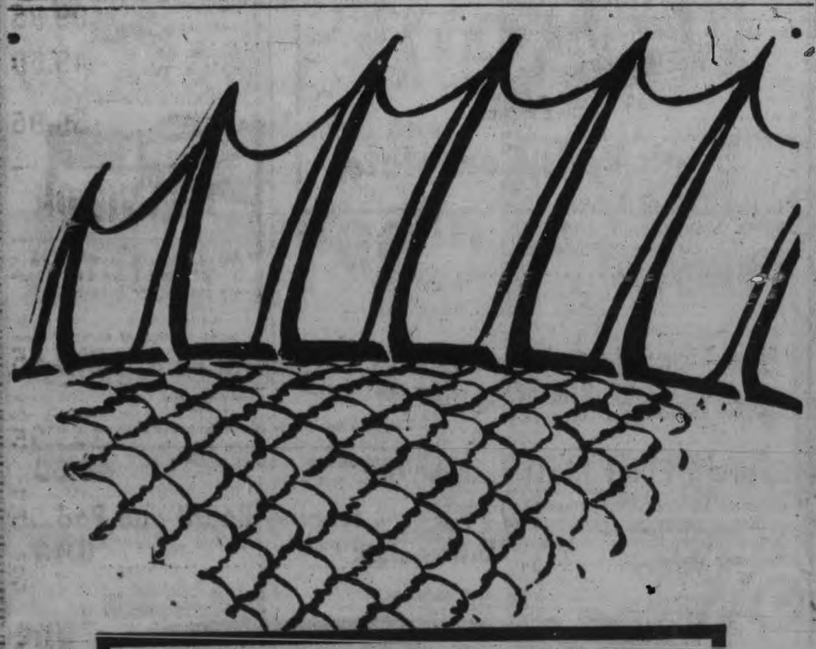
HAMILTON (CP)—John Foulds, 78, was fatally injured Thursday when struck by a truck as he was crossing the Queen Elizabeth Way near Cherry Beach.

Drowned In River

WINDSOR, Ont. (CP)—An unidentified man was drowned a few feet off shore in the Detroit river Thursday night as a policeman prepared to go to his rescue.

Ordered Back To Work

SARNIA (CP)—Bruce Blackwell, business agent for the 150 AFL electricians whose picket lines stopped work on major building projects here, announced Thursday night he had ordered the men back to work today.



Youths Break Window

OTTAWA (CP) — Police said Thursday night a gang of youths broke a large window at the committee rooms of Daniel Nerenberg, Labor Progressive (Communist) party candidate for Ottawa West in the Aug. 10 federal election. Police said the youths entered the committee rooms and asked for campaign literature. On their way out they broke the window. They paid for damages and no charges were laid.

20 Curls For New Hairdo

Here's a soft, flattering hair style that's wonderful and easy to keep for summer! It takes only 20 home permanent curls; it's becoming to every shape of face. Here's the back view with whirl-a-wave curlers in place ready for waving lotion.

Two curlers on each side; two in front. Quick winding! And quick waving with the new type home permanent that has neutralizer and beauty-rinse all in one. Locks in wave—polishes hair in one step.

Now for setting. Make pin curls as shown and fasten securely with bobby pins. See how springy and bouncing curls are thanks to the beauty-rinse neutralizer. Fragrant too, and gleaming smooth!

Illustrations by Richard Hudnut, Ltd.

Round or squarish face? Then brush back the sides in soft waves, ending with a pretty froth of softness low at the back. Arrange front high on brow and over to one side to give height.

Here's how to comb your curler wave if your face tapers into an oval. Sweep the front down and across brow in a soft, modified bang. Sides are brushed up and back in lustrous wings.

Personals and Social

The Rev. F. J. Sheehy, CSB, of Houston, Texas, has been vacationing in the city the past two weeks, with his family at 751 George St. N.

✧ ✧ ✧

Mr. and Mrs. Earl Hess and family, Maude St., are spending two weeks cottaging on Chemong Lake at Bridgenorth.

✧ ✧ ✧

Mr. and Mrs. Charles Willis, of 639 Lundy's Lane, are leaving tonight on a holiday trip to California where they will visit in Hollywood with Mrs. Willis' aunt, Mrs. Warwick. They expect to return about August 1.

Mr. and Mrs. J. A. Dewart, Weller St., have moved to their cottage at Chemong Park for the summer.

✧ ✧ ✧

The volunteer assistants at the Peterborough Cancer Society office at 440 Water St., on Tuesday and Thursday this week, were Mrs. Frank Gray and Mrs. N. S. Courtney.

✧ ✧ ✧

Mr. and Mrs. Cyril James and Margaret and David, of 229 Barnardo Ave., have returned from a motor trip to New Brunswick where they visited with Mr. James' family at Woodstock.

✧ ✧ ✧

Mrs. J. H. Scott, of Baldur, Manitoba, is here visiting her son, Mr. Lorne Scott, Chemong Road, and her daughter, Mrs. M. McKenzie, of Edgewater Boulevard, and their families.

✧ ✧ ✧

Miss Marjorie Brown, of 154 Benson Ave., has flown to Saskatoon where she joined her brother, Mr. Stewart Brown, of the National Research Council there, for a two-week motor trip to the west coast.

✧ ✧ ✧

Nancy Thompson left today to spend a holiday with her grandparents, Dr. and Mrs. C. Gooch, in Hamilton. Her parents, Dr. and Mrs. L. W. Thompson, Monaghan Rd., will be guests this weekend of Dr. and Mrs. Harold Ames, of Beaverton.

✧ ✧ ✧

Two bridal showers have been held in the city for Miss Aileen Watson, of Havelock, whose marriage to Mr. Gordon D. Mowry, of Peterborough, is to take place July 18 at St. George's Anglican Church. Miss Joan Quinn, McKellar St., entertained associates of the Westclox who gave her a shower of miscellaneous gifts and Mrs. Wm. Reid, Arndon Ave., was hostess for a linen shower.

✧ ✧ ✧

The Young Adult Group of Park St. Baptist Church arranged a picnic outing to Cobourg beach for members and their children. About 50 attended and they enjoyed a program of races for all ages and games and delicious picnic refreshments. Those in charge were Mr. and Mrs. Newton Hamilton, Mr. and Mrs. Roy Lane, Mr. and Mrs. Bud Norrad, Mr. and Mrs. Roy Rogers and Miss Nancy Lane.

Summer Actress Started In Can. Army Show

New faces on the stage at Peterborough Summer Theatre this season are creating new interest among local theatre-goers who are accustomed to knowing "who is who" in their city.

Leading actress among the newcomers who will be here for the rest of the summer is Canadian-born Barbara Cummings, whose parents live at Thorold, Ontario.

Miss Cummings was doing well on the English stage for six years, but came back last fall when she knew her mother had become a cancer victim. Durjng the winter she did several television plays in Toronto, taking the part in "All My Sons" which she had played in London. Just previously to coming to Peterborough she was in Ottawa Repertory Theatre for a 10-week run.

Her stage career started in Canada too—with the Canadian Army Show which went on tour to England, Belgium and Holland. After the last show on the continent, "Apres La Guerre," Miss Cummings decided to study dramatic art at the Royal Academy in London. Her only previous training had been in dancing as a child.

"The Winslow Boy" is her first play in "weekly stock" and Miss Cummings says it is "fantastic experience for an actress." Any actress worth her salt can give a good performance after four weeks of rehearsing, she explains, but only one week of rehearsal while giving nightly performances of another play is pretty demanding on the memory, to say the least, and she thinks an occasional "fluff" should be excusable.

While in Ottawa she played five roles in "Victoria Regina" which kept her scampering to change costumes. In London she was in "Death Of A Salesman" with Paul Muni and she played in Tyrone Power's film, "House on the Square" and was the leading man's ex-wife in the film "Lili Marlene."

"There is a great future for really good theatre in Toronto,"

BARBARA CUMMINGS

says Miss Cummings. "Canada has the advantages of the English influence and a little bit of the American, and is able to draw talent from both."

She says television is "a fascinating medium" but requires a great adjustment from the stage. "On the stage you are right in the situation, but on the set you have to consider also the technical side of things — the position of the camera, a close-up coming next, and frequently you are required to show expression for a scene you do not see because it is on another set."

Miss Cummings did some oil painting in England and is longing for a chance to put some of the Kawartha scenery on canvas. She writes a little blank verse poetry, and her sport is squash—which she learned to like in England, but couldn't find a Torontonian girl to play with last winter.

Lemons A Bleach For Arms, Elbows

Bare-armed beauty for your sleeveless blouses and evening gowns is easy to achieve with regular scrubbing, creaming, and, in some cases, bleaching.

Bleaching of dark hairs on arms can be done safely with lemon juice. Then rub it over the arm, gently squeezing out the juice as you proceed. This should take about five or ten minutes. Allow the juice to dry on the arm.

Do this twice a week and, after about four treatments, you'll begin to see lightening of the hairs. (Unfortunately, coarse hair doesn't respond to this treatment.) Shaving would cause stubbly regrowth.

Discolored, rough and wrinkled elbows are another blight on bare-armed beauty. Lemons again are useful. Rub them with lemon halves, or let your elbows sit in bowls of freshly squeezed lemon juice for five or ten minutes per treatment.

Smooth skin on arms is usually the result of rotary scrubbing with a stiff bath brush and lots of suds. Always dry them well to prevent chapping. If they're scaly and rough, rub in some oil, such as petroleum jelly.

Lip Beauty Hints

There's a beauty mistake frequently made by teen-agers. It's done in the name of reshaping their lips into more attractive curves.

That is the mistake of giving the mouth a perpetual sneer by painting the lips higher at the sides than in the centre.

The highest points of the lips are naturally at the bows in the centre. They may be only a tiny fraction higher but there's a definite curve which slants down from these bows to the corners. It's one of the loveliest lines in a girl's face. To make the highest point at the sides is not only at variance with nature but cheapening to a girl's looks.

When you reshape your lips for greater beauty, keep the natural curve as your ideal and make your correction so slight that no one can see it. Everyone can see it when you remodel your mouth into an unnatural shape.

To make your lipstick lasting, paint on an outline of both lips with a lipstick brush. Your lips should be perfectly dry to begin with and the edges powdered. Fill in the outline with lipstick, working into the tiny lines in the lip skin. Let it set for five minutes while you do other things.

ARTS AND CRAFTS STUDIES are taught to more than 450 public and separate school teachers at the Ontario Department of Education's special summer course in Toronto. Shown using a weaving loom is Miss Shirley Dorlden, of Havelock. The course is designed to help teachers in the use of art as a sound factor in the broad mental development of their pupils.

Engage Teacher For Retarded Children's School

The newly-organized Peterborough Council for Retarded Children has engaged a teacher for the school which will go into operation this fall. She is Mrs. J. Hamilton, formerly of Glasgow, Scotland, who has had considerable experience in teaching retarded children, and worked in cooperation with the Board of Education and the Hospitals of that city.

With an expected registration of 10 pupils, from five years of age up, voluntary assistance will be given the teacher. The children will be transported to and from their homes by voluntary drivers.

Special equipment will be necessary to facilitate the training of these mentally retarded boys and girls (IQ's are under 50 and they are not acceptable into schools or auxiliary classes). Two and a half to three hours' instruction must be given per day in order to receive a government grant at the end of each school term.

Local units must do their own financing until this grant is received, and it is hoped to have the support of the citizens of Peterborough in this. Council members are now selling membership tickets at $1 each and have 500 printed tickets donated through kindness of a local firm.

Due to lack of funds, the Council is hampered in securing suitable accommodation for the pupils, but this need not deter opening of the school as temporary accommodation has been made available to them.

Idea for this school originated with the Local Council of Women, but it is being championed by numerous friends outside the organization. Expressions of interest and encouragement have been received from Dr. J. Pratten of the Mental Health Department at Civic Hospital, Dr. T. E. Currier, Mr. P. D. Windrim, public school inspector, Mr. K. S. Wightman, the Rev. H. G. Douglas and others.

The Council for Retarded Children, which has as president Mr. J. Menary and as secretary, Mrs. E. Chambers, is planning a picnic for the children and their parents during the summer.

Unfinished Attic Transforms Into Cosy Room

NEW YORK—Are you one of those families who has purchased a new home since World War II? If so, you probably have an unfinished attic that could be transformed into a cosy hide-away with little trouble.

Unfinished attics constitute the answer to the growing requirements of most families. Transforming this waste space into useful rooms now can be done largely through one's own efforts. Here are suggestions:

Leave plumbing, wiring and heating changes to the experts.

Insulate the floor, walls, and roof for complete isolation from heat or cold. Consider the function of the new space. Will it be a bedroom, den, children's playroom, or private television room?

Or it could be an all-purpose room, with combination guest room, office, lounge, and second-living-room space.

But the point is that many companies now provide finished wall boards that can be put in place by almost any one with only the slightest claim to being a handyman around the house.

Serve Elderberry Blossom Pancakes

KITCHENER, Ont. (CP) — Four local residents got together here recently and observed an old world custom with a strong Canadian accent.

John Walter, Sr., Harry Schultz, William H. Wolff and Lee Shantz ate an open-air breakfast of elderberry blossom pancakes covered with Waterloo county maple syrup.

Chances are a somewhat similar breakfast was being served in south Germany, the Tyrolean Alps, northern Italy and Switzerland but minus the Canadian maple syrup.

The unusual feature of the breakfast, of course, is the elderberry blossom pancakes and it is in the aforementioned countries that the custom originated.

The Kitchener gourmets have been observing it for four years on the first Sunday after July 1.

Here's their menu: Fruit juice, elderberry blossom pancakes with maple syrup, strawberry pie and coffee.

Mr. Walter would like to see Kitchener residents and visitors share the annual treat.

"Already Kitchener has gained a certain distinction as the place where pig knuckles and sauerkraut are served," he said. "Think how the city would suck in people's minds if the custom of elderberry-blossom pancake breakfasts were observed here!"

The recipe for the pancakes: Elderberry blossoms which have been in bloom for about two weeks and are large, lacey, creamy-white and flat. Pick them with part of the green stem.

Clean the blossoms and dip singly into ordinary pancake mix and place in sizzling-hot frying pans. (A blossom to each pancake). As the pancake forms about each blossom the stems are snipped off. Serve piping hot.

REDWOOD COLOR THEME

SAN FRANCISCO—In the California color field, there is one constantly recurring theme—redwood. This color, which ranges in shade from the coppery pink tones, through dull gold, to the rich, rusty-reddish brown tones, will be featured in this market's fifth color promotion which is slated to break in the local stores here on July 27.

The new styles are wonderful—flattering, dramatic, ageless, and, most of all, in the mood of new-world elegance.

DOROTHY DIX:

Girl, Not Food, Should Be Attraction For Boy Friends

DEAR MISS DIX: Whenever my boy friend comes over he brings at least one of his friends. I don't object to that but they always get into the food. Gordan says that whenever his sister has friends over, she fixes food for them. I don't intend to be their slave, and besides, I do get hook for it. How can I make them stay out of the kitchen?

BABS

✧ ✧ ✧

KITCHEN RAIDERS

ANSWER: Your friends are certainly inconsiderate youngsters. Even the most generous hostess has reasonable objections to her young guests swarming all over the kitchen, devouring whatever is in sight. It's rather disconcerting to plan a meal, then discover that its makings have fallen prey to a hungry wolk pack. Instead of giving you heck for your friends' behavior, Mom should give a little help. Certain foods should be kept in the house for the refreshment of the young, and a definite "No Snacks" sign put on everything else. Unless your friends are interested in you for food alone, they'll obey the restrictions and continue to come around.

✧ ✧ ✧

DEAR MISS DIX: My 25-year-old sister has never been married, yet she is wasting her life away on a divorced man. Religion prevents their marrying. She realizes this, but insists he is the only man she'll ever love, and she'd rather be friends with him than married to anyone else. I try to tell her he is a selfish person as he realizes this situation, yet prevents her from going out with other fellows. If he liked her so much, he'd be looking out for her happiness. Should she go on seeing him or drop him completely?

MISS R. M.

✧ ✧ ✧

ANSWER: Isn't it a bit foolish for you and I to try to decide your sister's future? She is most definitely of an age where she should know her own mind, and make her own decisions. Happiness in friendship may be enough for your sister, and it certainly is preferable to marriage with someone she doesn't love. Don't put all the blame on the man, either. Your sister is perfectly free to date other men if she wants to; the fact that she doesn't is a clear indication of her choice. Leave her alone and let her work out her own destiny.

✧ ✧ ✧

DEAR MISS DIX: I am engaged to a man in the service, but plan to break the engagement when he comes home, which will be in a few weeks. I am in love with someone else, and he thinks we should stop seeing each other until my engagement is broken. I don't want to date anyone else, but I don't want to sit home every night.

R. P.

✧ ✧ ✧

ANSWER: With your conscience for company, I don't wonder you can't face an evening alone. You can't have much character if your self-respect, and the respect of others, isn't worth a few dateless weeks. Your only concern seems to be your own need for entertainment. The boy in the service is lucky to be rid of so addle-pated a girl; your next fiance isn't so fortunate.

✧ ✧ ✧

DEAR MISS DIX: I'm a pretty, intelligent girl with a nice figure. I'm 15 and in the 9th grade. My problem is very serious. I have gotten a very bad reputation, not because it's true, but because I have many jealous, so-called friends with big mouths. They have spread all sorts of stories about me and now none of the nice girls or boys will go out with me.

JOANIE

ANSWER: Rarely, if ever, is a bad reputation pinned on a girl unless she has done something to deserve it. If you are absolutely convinced that you are the victim of malicious slander, the matter should be taken up with your parents and the principal of your school.

However, I'm quite certain, if you analyze the situation carefully, you'll come across some ground for gossip. Do you, perhaps, emphasize that nice figure with clothing that's a bit too conspicuous? Is your dating circumspect—reasonable as to hours, particular as to company and place? Time spent in parked cars, or in the wrong sort of restaurant or soda bar, the companionship of young people who are known as trouble makers, will detract from any girl's reputation. Nothing is as difficult to regain as a good name; better find out just why yours is bad.

THE EXPERTS SAY:

Guide To Cuisine Aid To Canadian Restaurateurs

By THE CANADIAN PRESS

The Canadian Tourist Association prepared a shot in the arm for restaurateurs in this country and is administering it in booklet form under the title "Guide to Canadian Cuisine."

The idea is to develop a truly Canadian cuisine along with a standardization of recipes and qualities in basic foods served in restaurants—with the emphasis on the small resort.

Results so far have been favorable and a supplement to the booklet is planned to stress best regional dishes.

The project is aided by a committee of women who tour extensively and come into daily contact with travellers. They hope to get better meals for holiday travelers and tourists in Canada.

CANADIAN NAMES

The booklet suggests using Canadian terminology wherever possible in preference to United States or European names. It also advocates featuring foods from the locale of the restaurant, particularly fresh fruits and vegetables.

A special menu for children, or main dishes provided for children in smaller portions at reduced rate are also mentioned.

Patrons on special diets shouldn't be forgotten. The association urges inclusion of meals without fats, fried food and rich pastries and warns: "Avoid a menu that lists many items and specializes in none."

As Canada produces good and varied cheeses the booklet notes that it is a good idea to specify the type rather than just putting "cheese and crackers" on a menu.

A recipe for the blueberry growing provinces is "blueberry crisp" and an old favorite breakfast dish in New Brunswick, buckwheat cakes is also offered.

MAPLE CREAM

For provinces producing maple syrup the booklet includes "maple syrup cream."

Combine and let stand for five minutes: 2 teaspoons gelatine, one quarter cup plus two tablespoons cold water. Combine and heat just to boiling point: Three quarters of a cup maple syrup, one quarter cup water.

Remove from heat, add gelatine and stir until dissolved. Stir in one teaspoon lemon juice, one quarter teaspoon vanilla.

Chill, stirring occasionally, until very softly set.

Whip until stiff, three quarters cup whipping cream. Beat maple syrup mixture until fluffy; add whipped cream and beat until just combined. Turn into individual dessert glasses and chill until set. Sprinkle with chopped walnuts or pecans before serving. Should serve six.

Readers' Friday Column By Mary Moore

QUESTION: I have been looking for a low calorie salad dressing and was wondering if you would have one or know of any...

MRS. E. D.

✧ ✧ ✧

ANSWER: Recently I gave you the recipe for Herb Salad dressing. I'll repeat that here today. But I have another queer one that a hotel in Chicago is serving to its reducing clients.

REDUCERS' VITAMIN DRESSING

Cook 2 chicken livers, chill them, grate them and then add ¼ cup cottage cheese and mash and cream this until it is perfectly smooth. Add ¾ teaspoon salt, ¼ teaspoon paprika, 2 tablespoons pineapple juice, ¼ cup tomato juice, 2 teaspoons lemon juice. Mix well. Store covered in refrigerator. I thought this was delicious on tossed greens.

HERB SALAD DRESSING

One egg, 2 tablespoons flour, 1 tablespoon mustard, ¼ teaspoon each rosemary and marjoram, 1½ cups water, ½ cup vinegar or lemon juice, 12 sucaryl tablets. Beat egg. Combine dry ingredients and add to egg. Add water, vinegar and sucaryl tablets, and cook stirring, over hot water until mixture thickens. Store cool and covered.

✧ ✧ ✧

QUESTION: When we were kids our mother used to make and old-fashioned English ginger beer with real ginger and yeast. Would you have this recipe? I would like it for a five gallon crock. W. F. H.

✧ ✧ ✧

ANSWER: I have a feeling "W. F. H." is a man.

ENGLISH GINGER BEER

Boil together 3 gallons water, 3 oz. pulverized ginger, 4 lbs. sugar and 4 oz. cream of tartar. Boil 5 minutes covered, then cool it. When temperature is down to room temperature add 2 tablespoons yeast. Allow to stand overnight. Filter through triple cheesecloth, then pour into bottles and cork.

QUESTION: Recently in your column I noticed a recipe for the syrup for honey-dipped doughnuts. I was wondering if you would be kind enough to let me have a recipe for the yeast doughnuts...

Margaret C.

✧ ✧ ✧

ANSWER:

YEAST DOUGHNUTS

Two-thirds cup sugar, 3 tablespoons shortening, 1 teaspoon salt, one cup scalded milk, 1 yeast cake (or package granular yeast), 5 cups sifted flour, 2 well-beaten eggs, 1 teaspoon nutmeg. Add sugar, shortening and salt to lukewarm milk. Add yeast cake mixed with 2 tablespoons warm water. (If granular yeast is used dissolve it in ½ cup lukewarm water with ½ teaspoons sugar and reduce first amount of milk by 6 tablespoons.) Now add 2 cups of the flour to make a sponge. Beat until mixed. Stand in warm place covered, to rise. When light add eggs, nutmeg and flour to make a light dough. Cover and let rise again in warm place until doubled. Knead in bowl or on lightly floured board until free from large air bubbles. Roll out to ½ inch thickness. Cut with floured doughnut cutter. Cover on board and let rise again until doubled. Slip them, top side down, into deep hot fat at 375 deg. Fahr. Fry to a delicate brown on one side. Flip over and fry other side. Drain on unglazed paper towels. Sprinkle with icing sugar at serving time.

✧ ✧ ✧

QUESTION: ...am coming to you again... this time custard pie. I used to have good success making them but for some reason my luck has failed. They come out of the oven looking nice and in a few minutes down they go and turn out watery and crust soaked. I'm sure you can help me as you did before with the white cake problem. Would you also give me recipe for strawberry pie . . . do fresh berries have to be stewed before putting them in . . . is 3-minute tapioca used? I have still one more request . . . for angel food cake . . . I understand they are to be made in a pan with a tube centre.—Alta S.

✧ ✧ ✧

ANSWER: I am mailing you recipes fo rstrawberry pie (which appeared June 18) and custard pie (which appeared March 25).

ANGEL FOOD

Sift cake flour and measure 1 cup, then sift it with ⅞ cup granulated sugar; into a large bowl measure 1½ cups egg whites (about 12 whites) and 1½ teaspoons cream of tartar, ¼ teaspoon salt, 1½ teaspoons vanilla and ½ teaspoon almond extract. Beat this with a flat wire beater until it is foamy but not stiff. Gradually begin adding an additional ¾ cup granulated sugar—2 tablespoons at a time, and continue beating until all of the ¾ cup sugar is added and this meringue is stiff and will stand in peaks. Now gradually fold in the sifted flour-sugar mixture, until it disappears and is moistened. Do not whip, but fold. Push batter into ungreased tube pan—10 inch. Bake at 350 deg. Fahr. for from 35 to 45 minutes—until cake shrinks from sides a little. Let cake hang upside down until cool. Coax from sides of pan with finger tips.

ANNOUNCEMENTS

1—Births

COLLINS—Mr. and Mrs. Kenneth Collins (nee Jean Neil) wish to announce the birth of a son, David Thomas, at St. Joseph's Hospital, Wednesday, July 8, 1953.

FITZGERALD—Mr. and Mrs. Roy Fitzgerald (nee Jean O'Brien) are happy to announce the arrival of their daughter, Shawena Moriene, at St. Joseph's Hospital, July 9, 1953.

SULLIVAN—Mr. and Mrs. Cletus Sullivan (nee Marguerite Heffernan) are very happy to announce the birth of their son, Michael Gerard, at St. Joseph's Hospital on Thursday, July 9th, 1953.

2—Engagements

Mr. and Mrs. George Ellis, Peterborough, wish to announce the engagement of their daughter, Doris Mildren, to Mr. Gordon Kenneth (Dick) Rosborough, son of Mr. and Mrs. Stanley Rosborough, Lakefield. Wedding to take place Saturday, August 1st, 1953, at 2 o'clock, at Mark Street United Church, Peterborough.

4—Receptions

Mr. and Mrs. Oscar Guthrie, 655 Frank Street will be at home to relatives and friends afternoon and evening, Saturday, July 18th, while celebrating their 25th wedding anniversary.

5—Deaths

ABBOTT, Herbert John—At Civic Hospital, Peterborough, Wednesday, July 8, 1953, Herbert John Abbott of Queen Street, Lakefield, beloved housband of Susan Lillian Smith, age 80 years. Dear brother of Fredrick of Omemee and George of Seattle, Washington. Resting at the Hendren Funeral Home, Lakefield. Funeral service will be conducted Saturday, July 11th, at 2 p.m. Rev. J. A. Sloed of the Lakefield United Church officiating. Interment Lakefield Cemetery.

SULLIVAN, Dr. Herbert John—At his late residence, 58 Wellington Street, South, Hamilton, on Thursday, July 9, 1953, Herbert John Sullivan, M.D., beloved husband of Marjorie Ann Harris and dear father of Patricia, Dr. Herbert J. Sullivan, Gordon J. Sullivan and John F. Sullivan and brother of Sister Mary Lourdes of St. Joseph's Community, Kirkfield, Ontario and Misses May and Genevive, Mrs. Frank Hickey (Aileen), and Mrs. Frank McNulty (Louise) and Vincent and Victor, all of Peterborough. Also two grandchildren survive. Funeral Saturday, July 11th, at 10:30 a.m., from his late residence to St. Patrick's Church for Solemn Requiem Mass at 11 o'clock. Interment in Holy Sepulchre Cemetery, Hamilton.

WHITEHEAD, Walter George — On Thursday, July 9th, 1953 at St. Joseph's Hospital, Walter George Whitehead, beloved husband of Ada Payne and father of Mrs. George Hunt, Mrs. Norman Beaudoin, Margaret (Mrs. G. Ellis), Kathleen (Mrs. L. DeLaire), George, Reginald, Mary (Mrs. H. Blackwood) and Joan Whitehead. Resting at the Nisbett Funeral Home, 347 Charlotte Street, until Saturday, July 11th, thence to St. Peter's Cathedral for Mass at 9 a.m. Interment St. Peter's Cemetery.

6—In Memoriam

BOLTON—In loving memory of our dear mother, Mrs. Robert Bolton, who passed away July 11th, 1951.
Two dear bright eyes, a tender smile,
A loving heart that knew no guile,
Deep trust in God that all was right,
Her joy to make some other bright;
If sick or suffering one she knew,
Some gentle act of love she'd do,
No thought of self, but of the other,
I know He said "Well done" dear mother.
—Lovingly remembered by daughters and sons.

PEARSON—In loving memory of my dear father, who passed away July 10th, 1949, and in loving memory of mother, November 18th, 1916. Mr. and Mrs. Nathaniel Pearson.
From our happy home and circle
God has taken those we loved,
Borne away from sin and sorrow
To a nobler home above.
No one knows how much I miss them
None but aching hearts can tell,
Lost on earth but found in heaven,
Jesus doeth all things well.
—Fondly remembered by daughter, Gladys.

5-Day Week More Popular

OTTAWA (CP) — The 40-hour, five-day week apparently is growing in popularity, the June issue of the Labor Gazette says.

The Labor Gazette, official journal of the labor department, says that a survey showed 75 per cent of plant workers in manufacturing industries were working a five-day week by October, 1952, a five-per-cent increase over the previous October.

The percentage of workers on a 40-hour week rose to 40 from 36 during the same period. Fewer than 20 per cent had a 40-hour work week in 1947. The survey was based on 6,700 establishments employing more than 800,000 plant workers.

The survey showed that workers in British Columbia have the shortest hours. Seventy per cent of them are on the 40-hour week and 81.2 per cent on a five-day week.

Figures for Ontario are 46.9 and 86.4.

Collide With Transport One Killed, One Hurt

KINGSTON (CP)—Cecil Raymond, 32, of nearby Odessa was killed and a companion injured today when their truck collided with a transport near Westbrook, five miles west of here.

Raymond, a passenger, was thrown to the road in the crash. Gordon Brown, driver of the truck, was brought to hospital here with undetermined injuries.

Police said the truck driver, Fred Niles of Toronto, veered off the road and knocked down seven guard-rail posts in an attempt to avoid the collision.

Decline To Make Wage Suggestion

TORONTO (CP)—A conciliation board Thursday handed down a report which declined to make any wage recommendations in a dispute between the automotive transport industry and the Hamilton and Windsor locals of the Teamsters' Union (AFL).

Prospects for a trucking strike were believed to be increased as a result of the board's decision.

The Toronto local signed an agreement with the industry several months ago.

It provided an increase of seven cents an hour for drivers and 11 cents for mechanics.

The motor transport industrial bureau, which represents the trucking firms, said that if the Hamilton and Windsor locals strike, it will tie up transport service provided by 17 firms in the Windsor, Sarnia and Chatham areas and by 18 firms in the Hamilton, Brantford, Woodstock, Kitchener, Guelph and London areas.

See Kremlin On Spot About Food

U.S. Aid For Germans Catches Russia At Awkward Moment

WASHINGTON — (AP) — President Eisenhower's offer of food for rebellious East Germany faced the quarreling Kremlin today with a choice between accepting capitalist aid or letting Germans go hungry.

The U. S. proposal Friday—to begin immediate delivery of $15,000,000 worth of food to Germany's Soviet-controlled eastern zone—was made directly by Moscow.

That bypassed the East German Communist government, which the U. S. has never recognized, and put the issue squarely up to the Kremlin.

AWKWARD MOMENT

The dramatic stroke caught the Communists at a time when they were fighting the fires of revolt among Moscow-dominated peoples and stirring up sparks among the top men in the Kremlin which already have brought about the downfall of Lavrenty Beria from his No. 2 perch as boss of the secret police.

Their choice lay between accepting help from the Americans they call "decadent capitalists" or rejecting aid whose humanitarian aspects can not escape the restive peoples of the satellite countries.

There was an air of suddenness about the president's move.

Eleven days ago at a press conference held by Secretary of State Dulles, a reporter suggested sending U. S. goods to East Germany. Dulles replied that he did not know whether the Allied commissioners in Germany had considered the idea. He implied it was news to him but worth thinking about

The Voice of America, which beams radio news to the world as an outlet of the state department, gave global coverage to the food

SEE KREMLIN (Continued on Page 2)

Convicts Fire Tailor Shop

SALEM, Ore. (AP) — Oregon state prison guards fired tear gas into the prison dining room at 8:15 a.m. today and rebellious convicts answered by setting the torch to the two-storey tailor shop nearby. First reports said the machine shop and flax mill, too, had been set afire.

It broke an uneasy night of moderate calm in which the convicts had roamed at will through all the prison except the cell blocks.

Warden Clarence Gladden ordered the tear gas fired to shut off the supply of food to which the men had access when in the dining room.

The tailor shop blaze burned briskly. There was only a small fire seen in the machine shop and the warden said that while he heard some men were trying to set the flax plant afire, he had no report they had actually done so.

Gladden said the sitdown strike by 1,100 convicts got out of its leaders' hands Friday night and became an open rebellion.

TWO MEN DIED in this car that burst into flames when it rolled over on Highway 2 about three miles west of Welcome Friday evening. The men were later identified as Alan Dunmitt, Bowmanville, and Danny Floyd Butler, Oshawa. —(Murray Smith Photo)

Fires Set In Many Buildings Armed Troops Patrol City

FRESNO, Calif. (AP)—Armed troops patrolled downtown streets today as police combed this central California city of 92,000 for a firebug whose torch has plunged the community into a near-panic. Loiterers and casual passersby were ordered out of a 32-block downtown area in the wake of 12 fires which broke out almost simultaneously in major buildings Friday amid a rash of false alarms. Mayor Gordon Dunn declared a state of emergency. And Gov. Earl Warren authorized use of volunteer national guardsmen. The troops stood guard through the night to prevent looting and further arson at hospitals, schools and other public buildings.

More than 20 firemen overcome by heat or smoke were hospitalized, but there were no other reported injuries. Damage was estimated at upwards of $800,000.

CLOSE AMUSEMENT CENTRES

To guard against loss of life should the arsonist or arsonists strike again, theatres, dance halls and other amusement centres were shut down under the emergency proclamation.

"There is no doubt these (fires) were deliberately set," mayor Dunn declared. Police said several false alarms were turned in at the height of the fire-fighting apparently to draw equipment away from the real blazes.

When all Fresno fire units were in action and new outbreaks continued, the mayor broadcast an appeal for help from neighboring fire departments, volunteers and civil defence workers. Units responded from as far away as 60 miles to quell the blazes.

The national guardsmen took over patrol duty from police, who were released to join a giant manhunt for the perpetrator of the fiery terror.

The first fire broke out in the four-storey Hughes Hotel. More than 90 persons were evacuated before flames left the $500,000 building almost a total loss.

Within minutes, flames broke out in the Brix apartments, a new four-storey building across the street from Fresno's city hall. As the last of Fresno's available fire units pulled up there, other alarms flowed in.

Arriving units from the San Joaquin valley were diverted to six other hotels and another apartment house. Most fires were quickly quelled, with damage ranging from "minor" to "moderate". But the top two floors of the Brix apartments were destroyed and the roof fell in.

Flames roared up from the basement of the First Christian Church, in what might have become another major blaze.

But volunteers put it out.

While flames still leaped from some of the hotels, new fires were found in a department store and a fine arts gallery.

Danger In Social Credit Money Theory—St. Laurent

VICTORIA (CP)—For the first time in his national election tour, Prime Minister St. Laurent has raised the possibility that a "ramshackle, make-shift coalition" might arise in Ottawa if the Liberal government were defeated. The prime minister told an election meeting Friday night "there is a danger—a remote danger—that if enough Social Crediters and Conservatives and so-called Quebec independents could be elected, the Social Credit party might have just enough strength to force its peculiar ideas on a ramshackle, make-shift coalition in return for its support of the coalition."

He warned that the Liberals must win the Aug. 10 federal election or "there is likely to be a mess such as you had in your legislature before the recent election."

Social Credit formed a 19-member minority government here in 1952, its first in the province's history. It elected 28 members out of 48 in the recent election.

HUNDREDS TURNED AWAY

An enthusiastic audience of 1,500 heard Mr. St. Laurent fire his first big broadside against Social Credit at the Royal theatre here. Hundreds more were turned away from the door.

After his speech Mr. St. Laurent stood by the orchestra pit and shook hands with the audience as it filed by.

Today he flies to Calgary.

As in Vancouver Thursday night, Mr. St. Laurent referred to the "funny-money" policies of Social Credit.

British Columbians did not want a Social Credit federal government that would reduce taxes by the "magic of debt-free money off the printing press."

Social Credit leader Solon Low had stated the only way Progres-

DANGER IN (Continued on Page 2)

Road Building Aid Promised

WISETON, Sask. (CP)—M. J. Coldwell, national CCF leader, said Thursday a CCF federal government would provide adequate financial aid to provinces for highways of national and international importance.

He said the failings of the federal government were evident in its highway policy. The Liberal government had demonstrated time and again that it lacks imagination and foresight when it comes to taking appropriate measures to the building of a more prosperous Canada.

The CCF leader, nearing the end of a week-long tour of his home constituency of Rosetown-Biggar, made his election campaign address to about 75 persons at a public meeting in this town 100 miles southwest of Saskatoon.

Earlier Thursday he spoke briefly at ceremonies officially opening a new bridge at Saskatchewan Landing, 30 miles north of Swift Current.

He said the CCF in assisting provinces for road building would consider mountainous or woody terrain and large road mileage which boosted construction and maintenance cost. Provinces then could use much of their own funds for feeder highways, secondary and market roads.

Didn't Deal Frankly

Drew Lays 1950 Strike At Liberals' Door

By ALAN DONNELLY
Canadian Press Staff Writer

BROCKVILLE, Ont. — (CP) — Blame for the 1950 rail strike and other labor tieups in Canada was laid at the doorstep of the Liberal government Friday night by Progressive Conservative leader George Drew. He charged that the rail strike was due "to the failure of this government to be frank in its dealings with unions."

Other labor problems were due to the lack of fair and adequate labor laws.

The speech before 650 persons in the collegiate auditorium here was Mr. Drew's most detailed reference to labor so far in his election campaign.

"We believe in fair labor laws," he said. Federal labor laws should be revised so they would be fair to labor, management and the public and provide adequate conciliation boards and negotiation procedure.

REWRITE HISTORY

In a speech earlier in the day at Hallville, 35 miles northeast of here, he charged the Liberal government with "rewriting history" to take credit for what previous Conservative governments had done.

Mr. Drew flies today from Montreal to the Quebec-Saguenay district for meetings at St. Joseph de Alma and Jonquere before launching the Maritime section of his campaign.

Referring to the 1950 railway strike which was settled only after a special session of Parliament ordered arbitration procedure, Mr. Drew said:

"The government led them (unions) down the garden path. It promised them certain concessions and left them holding the bag."

The principle of Parliament's solution was wrong because "you can't force people to work."

"We have pressed time and again for adequate labor laws. But the government did not act on our suggestions. As a result of this, there have been crippling strikes in Canada."

Mr. Drew also referred to federal-provincial issues mentioned by Prime Minister St. Laurent in a radio speech from Vancouver Thursday night.

STATEMENT UNTRUE

The prime minister had said the provinces would lose financially in a Progressive Conservative government's reallocation of tax rights between the federal and provincial governments. He also said he regretted no agreement had been reached on ways of amending the constitution on federal-provincial matters.

Mr. Drew said the prime minister's statement on tax reallocation was "absolutely untrue."

"Our purpose is to improve the financial position of every province. These are the same words I have used at all times."

As for constitutional amendment, Mr. St. Laurent was "solely responsible" for the lack of agreement. The provinces were "still willing" to resume the 1950 constitutional conference which had been adjourned by the federal government with the promise of further meetings.

At Hallville, Mr. Drew said the Liberal government is "rewriting history in a number of strange ways."

A speech by the prime minister had claimed that all major economic advances and steps towards national stature for Canada had come under Liberal governments.

Conservative achievements included Canada's Confederation, the two national railway systems, the CBC and the wheat board.

Auto Upsets On Highway, Catches Fire

Police Identify Dead As 2 Young Men From Oshawa Area

COBOURG (ENS) — Two young men were burned to death when their 1937 model car rolled over and burst into flames on Highway 2 three miles west of Welcome about 8:15 p.m. Friday.

The men, both in their early twenties, were identified today as Alan Dunmitt, Bowmanville, and Danny Floyd Butler, 23, Oshawa.

The car, apparently after passing some other cars on a slight grade, went off the road, travelled along the shoulder for about 100 feet, hit some guard rails and rolled over.

A farmer, Fred McConnell, who lives a short distance from the scene of the accident, saw it happen.

WENT OUT OF CONTROL

"I saw this car pass," he related, "and it seemed to be going faster than the others. He pulled in at the foot of the hill on account of oncoming cars, then went out of control and rolled over.

"I went to the scene and when I arrived the car was a mass of flames and lying on its right side. The car, when it rolled over, must have knocked the gas tank cap off because it seemed to be covered with gasoline from front to back.

"There was absolutely nothing that anyone could do to rescue the pair inside. At the time I couldn't see who was inside."

Mr. McConnell added that even if someone had had a fire extinguisher, he couldn't have approached near enough to the flaming car to do anything with it.

SEE TWO BODIES

The Port Hope fire department was called. After the flames were extinguished the charred bodies of two people could be seen inside.

Traffic was held up for miles in both directions by the accident.

The car was towed into Port Hope where the bodies were removed. Coroner Dr. E. R. Wrathall was at the scene.

At first it was impossible to identify the young men. They were burned beyond recognition, but through the licence plate the car was identified and then the young men who had been in it.

Miners Strike Near Timmins

TIMMINS (CP)—More than 350 miners went out on strike today at the nearby Broulan Reef and Hallnor gold mines. The mines were shut down and picketed.

The men, members of the United Steelworkers of America (CIO-CCL), walked off the job at Broulan when the night shift finished this morning. Hallnor workers refused to cross the picket lines to get to their shafts.

There was speculation here that the strike may spread to some of the other 10 gold mines in the area.

The union local at Broulan, 10 miles east of Timmins, said it issued the strike order at 6:30 a.m., because of what it called company tactics to "destroy" the union with sub-standard wages, long hours and lack of union security.

Broulan's manager, Walter F. Brown, said the walkout is illegal.

The strike apparently stemmed from contract negotiations which have been going on for months. The dispute recently went before an arbitration board. The board's decision has not been announced.

RCR'S Return To Line On Korean Battlefront

IN KOREA (CP)—The 3rd battalion, Royal Canadian Regiment, today returned to the line to begin its second tour of front-line duty in the Korean war.

The RCRs relieved the 3rd battalion, Royal Australian Regiment, in the sector held by the Commonwealth division.

The unit previously was in the line for 47 days from April 21, when it relieved the homeward-bound 1st battalion, Royal 22nd Regiment, until June 8 when the 3rd battalion of the Princess Patricias took over its sector.

The RCRs proved then they were prepared for battle. Highlight of the 47 days was a battle May 2 when the Chinese Reds swarmed in strength over a platoon position commanded by Lieut. Ed Hollyer of Toronto, only to be destroyed by lashing artillery fire from the 81st Field Regiment, Royal Canadian Artillery.

Blow Up Train

BERLIN (AP)—The West Berlin newspaper Telegraf said today that Polish partisans have blown up a Soviet supply train between Thorn and Posen, killing many Soviet soldiers. The paper gave no source for its report and did not say when the incident occurred. The location between Thorn and Posen would put the scene of the reported blast in central Poland. Increased activity by Polish partisan underground fighters has been reported by several well-informed Western sources lately.

Orangemen Hold Weekend Walks In Many Towns

By THE CANADIAN PRESS

This is the day of the fife and drum, the big white horse and the Orangemen's sash. So is Sunday. And Monday.

Thousands of Canadian Protestants are sprucing up for the little walk that will celebrate the "Glorious 12th." It's the anniversary of the battle of the Boyne where the forces of William of Orange defeated James II in 1690.

Because July 12 falls on a Sunday, Orangemen throughout the country will parade either Saturday, Sunday or Monday. And a Canadian Press survey shows plenty will line up. Warm sunny weather is expected in most parts of the country.

In Ottawa, at least 60,000 Orangemen, four abreast, are expected to strut down the city's main street Monday. There will be a smaller parade Sunday.

7,000 IN TORONTO

In Toronto, more than 7,000 men and women, sporting sashes, jackets and caps of blue and orange, are to march today behind county marshal Fred Woods and his white horse. Woods, 71, hasn't missed an event like this in 40 years.

At Chatham, Ont., Orangemen from many parts of southwestern Ontario and Michigan are to parade today. Lodge members from six counties around St. Catharines are parading the streets of that city early today. Galt will be host to lodge members from Woodstock and district.

In the predominantly Roman Catholic Inverness, Que., Orangemen are to give an old home week touch to the celebrations. More than 2,000 lodge members plan to fall in behind a fife and drum corps to parade through the streets.

Parades and church services are scheduled at Halifax and other Nova Scotia centres.

ORANGEMEN HOLD (Continued on Page 3)

Perched In Rapids Just "To Cool Off"

NIAGARA FALLS, N.Y. (AP)—James Watson, 50, calmly perched on a rock amid foaming rapids above the Canadian falls Friday and protested to "rescuers" that he was only cooling off.

But Antonio Bonilla, of San Salvador, and William McClure, of Pittsburgh, figured there was a better way to beat the heat. They waded out to the rock, 400 yards above the falls, and carried Watson about 50 feet back to shore.

McClure's good deed cost him a knee injury, which was later treated at Memorial hospital. He and Bonilla got soaked, but Watson got off with only wet feet.

Later in police court Watson said he had no permanent home and was given a 30-day suspended sentence on a vagrancy charge. The court suggested he cool off out of town.

Say Rhee Won Over To Armistice, Statement Soon

SEOUL (AP)—President Eisenhower's truce emissary said today he has wound up his secret conferences with President Syngman Rhee and U.S. embassy sources indicated Rhee had been won over to an armistice. A joint communique on the talks will be issued at 10 a.m. Sunday (9 p.m. EDT today). Rhee said earlier today he and Robertson had reached a "friendly understanding" U.S. embassy sources in Tokyo said the joint communique would show clearly that an agreement had been reached.

Robertson told a press conference he was leaving for home because "I feel my work is done." He said substantial progress had been made toward winning Rhee over to an armistice in more than two weeks of talks, but refused to say an agreement had been reached.

While there were indications some sort of agreement had been concluded, a South Korean source indicated the talks will continue at a different level.

SOME WORK TO DO

The joint communique on the conference was to have been issued Saturday, but a South Korean government source said it was held up because "we have to work on it."

These new developments in the Korean truce tangle came a few hours after Allied and Communist negotiators met twice at Panmunjom to discuss final details of an armistice

Rhee told newspaper men today he and Robertson had reached "a friendly understanding" on problems relating to a truce.

And while Robertson refused to comment on his talks with the stubborn statesman, he appeared well satisfied with his mission as he talked with reporters after a reception in his honor at the U. S. embassy in Seoul.

CONFER WITH CLARK

Robertson said he would confer Monday and Tuesday with Gen. Mark Clark the United Nations commander, and Japanese officials He said he would leave for Washington about Wednesday.

The South Korean president indicated earlier that he and Robertson had not come to a full agreement.

"I think some more meetings will be held," he told a press conference, "but we have covered all the important points.

"I think a final decision will come from the United States."

Robertson paid glowing tribute to Rhee at his press conference.

"Never in my life have I met a more dedicated man than President Rhee," he said. "He is a real patriot. He is single-mindedly for the welfare of Korea—and I am certain that his actions in this mat-

SAY RHEE (Continued on Page 2)

Big 3 Waiting Beria Reports From Embassies

By JOHN M. HIGHTOWER

WASHINGTON (AP) — The big three Western foreign ministers look to reports from their embassies in Moscow today to throw fresh light on the dramatic Beria purge before they try finally to assess its importance to free world policies.

Under summons from State secretary Dulles, U.S. ambassador Charles E. Bohlen was flying home to report

Bohlen had just arrived in Paris from Moscow for a vacation. The state department said he had foreseen and reported a week ago the probabilities of the downfall of Lavrenty P. Beria as Russia's No. 2 man and rival for power of Premier Georgi Malenkov.

In their initial discussions, Dulles, the Marquess of Salisbury, acting British foreign secretary, and foreign minister Georges Bidault of France were reported to have agreed Friday that the affair might mean a return by Moscow to a tougher policy toward the West and harsher rule for the captive Communist lands of Eastern Europe.

DISCUSS GERMANY

The foreign ministers discussed German problems at their meeting Friday, specifically unification and the proposed role of Germany in western defence. The conversations also touched on the postponed Bermuda conference and suggestions for top-level meetings with Malenkov.

These matters are scheduled for further discussion today after a White House meeting at which the three were to talk with Eisenhower.

This afternoon Dulles and Lord Salisbury meet on Anglo-American problems with the probability that Britain's troubles with Egypt would take up much of the time.

Diplomatic informants gave this account of the opening meeting:

Most of the time was spent in discussing the Beria affair and Russian relations in general. Three broad conclusions stood out in the exchange of views:

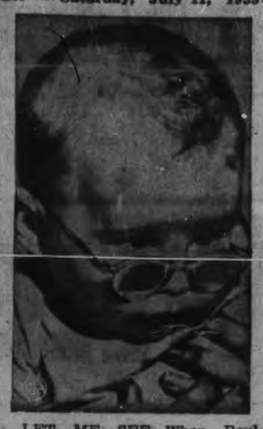
BIG 3 WAITING (Continued on Page 2)

TUNING UP FOR THE GLORIOUS 12th —Orangemen from five counties gathered to celebrate the 263rd anniversary of winning of the Battle of the Boyne today in Cobourg. More than 500 made the trip from Peterborough. Arnold Downer (top left) on the fife and Ronald Valois (lower right) on the drum practise a few selections before leaving the Orange Hall on Brock St. Marily Lundy (top right) and Gail Duncan (lower left) listen. The annual parade in the city will be at 8 p.m. from the CNR station. —(Examiner Staff Photo)

Gruenther Faces Tough Job As SHAPE Chief

SUPREME HEADQUARTERS, ALLIED POWERS IN EUROPE (AP)—Gen. Alfred M. Gruenther today becomes Supreme Allied Commander in Europe. He will be the third American to tackle the job of whipping up effective West European defence.

Gruenther's task will be the toughest of them all for these reasons:



1. Western Europe is no longer trembling with fear of a Soviet invasion.

2. The Allies are no longer defenceless.

3. The mumbling demand of the Allies for a reduced spending has broken out in full voice. From now on, every dollar Gruenther gets out of the 14 NATO countries is expected to be something like pulling a tooth.

4. The growing anti-American feeling in Europe—aimed at the American military and particularly at the large number of American officers in top jobs at SHAPE—looms as a major headache.

A spokesman at supreme headquarters said Friday night that Gruenther had been called to Washington to testify before a U.S. Senate Budgetary Committee and will leave here Sunday, only 24 hours after taking over his command. Ridgway is expected to leave for Washington Saturday.

LET ME SEE—When Paul Delaney, four - and - ones- half months old, of Boston, Mass., donned glasses, he wasn't kidding—he's wearing them on his doctor's orders. He is the youngest wearer of glasses in the history of the Massachusetts Eye and Ear Infirmary.

South Koreans Halt Attack

SEOUL (AP)—South Korean infantrymen, in seven hours of bitter fighting, drove off more than 4,000 Communists who assaulted RoK mainline positions along a four-mile front today in east-central Korea.

In the air, Red night fighters attacked Allied B-29s bombing a newly-repaired bridge network deep in northwest Korea which funnels Red supplies into Korea from Manchuria.

The Red jet fighters sprayed with cannon fire seven of 16 B-29s which slammed 160 tons of bombs at wood and steel bridges spanning the Chongchon river. Red anti-aircraft batteries also opened up on the Superforts, which were outlined with searchlights.

All the bombers returned to their base in Japan, the air force said.

up to 1,500 men—swept past a RoK outpost on the east-central front, then rammed Allied lines 900 yards apart in a pincer movement.

The last Chinese battalion withdrew after seven hours of furious fighting.

U.S. 7th division infantrymen defending beseiged Porkchop hill 40 miles north of Seoul fought hand-to-hand in trenches with about 200 Reds battling to expand their hold on the outpost.

The RoK 8th division hammered back a stiff Red attack just west of Finger ridge while other South Koreans with flame throwers burned out Chinese dug in on an outpost on Arrowhead ridge five miles from Porkchop.

The RoKs reported they secured the outpost before dawn.

Elsewhere on the curving front, Allied patrols reported 26 minor skirmishes with the reds.

The Weather

Peterborough Temperatures:

Today:
Night low....58 Noon....72
Noon barometer.....29.45

Yesterday:
Highest.....70 Lowest...52

One Year Ago:
Highest.....70 Lowest...54

Official forecasts issued by the Dominion public weather office in Toronto at 9:30 a.m.

Synopsis:

There were a few isolated thundershowers in Northern Ontario Friday afternoon and evening, but these ended early Saturday morning. A band of cloudiness associated with this precipitation has moved across eastern counties, but the sun will break up this deck of cloud during the day, and pleasant sunny weather is forecast for the weekend over most of Ontario. Scattered thundershowers will move into the Lake Superior area on Sunday.

Regional forecasts valid until midnight Sunday:

Eastern Lake Ontario, Kirkland Lake, Haliburton regions; North Bay, Sudbury cities: Variable cloudiness with a few widely scattered showers clearing this afternoon. Sunny and warm Sunday. Winds west 15. Low tonight and high Sunday at Trenton 60 and 80, Killaloe 65 and 80, Earlton, North Bay and Sudbury 60 and 80. Summary for Sunday: Sunny and warm.

Slow Recovery

HOLLYWOOD (AP) — Veteran actor Edmund Lowe was reported making a slow recovery after a near-fatal bout with complications of virus pneumonia. Dr. W. C. Hixson Jr., said "He had every complication imaginable and we had our hands full for awhile but he's slowly improving now."

Free Book on Arthritis And Rheumatism

HOW TO AVOID CRIPPLING DEFORMITIES

An amazing newly enlarged 44 page book entitled "Rheumatism" will be sent free to anyone who will write for it.

It reveals why drugs and medicines give only temporary relief and fail to remove the causes of the trouble, explains a specialized non-surgical, non-medical treatment which has proven successful for the past 33 years.

You incur no obligation in sending for this instructive book. It may be the means of saving you years of untold misery. Write today to The Ball Clinic, Dept. 3236, Excelsior Springs, Missouri.

Pearson Sends Poland Message

MONTREAL (CP)—One of the surest ways to promote international friendship and understanding is to have a free exchange of views and ideas on all subjects.

This was the opinion expressed today by External Affairs Minister Pearson in a recorded message for delivery at the inauguration of the CBC's international service shortwave broadcasts to Poland. The CBC now has foreign services in 16 languages, beamed from two 50,000 watt transmitters in Sackville, N. B.

In his message Mr. Pearson said:

"One purpose of the Canadian broadcasts to Poland is to tell the Poles something about their fellow countrymen who have made for themselves a happy and prosperous life in Canada and have made a valued contribution to our national life.

"At the same time, Canada will be broadcasting truthful, unbiased information about world events, information which should help the Poles to maintain a true and undistorted perspective.

"We earnestly regret the existance of the Soviet-imposed barriers preventing the relationships which formerly existed between the people of Poland and the people of Canada and other Western countries.

ter have been well above any personal plane.

DEDICATES LIFE

"He has dedicated his life to a free and independent Korea and everything he does is aimed at achieving that object. It is an object we must all respect, and I personally have a tremendous admiration for President Rhee."

Efforts to win Rhee over to an armistice at Panmunjom have been stalemated by his insistence that country be unified soon, by force if necessary.

A South Korean source said that in return for a promise to abide by terms of a truce Rhee would get:

1. Solid assurances of a mutual security pact.

2. Substantial economic assistance from the U. S.

3. Four additional divisions for his South Korean Army, boosting it to 20 divisions.

MORE ABOUT—
Big 3 Waiting

Continued from Page 1

1. Weaknesses which have recently shown up in the Soviet system—such as the uprising in East Germany and the power struggle in Moscow—tend to justify the foreign policy of the West in dealings with Russia.

2. There is no reason so far seen to change the Western policies of building strength against Soviet power.

3. Toward the satellite countries the Western powers should pursue a middle-of-the-road course aimed at keeping alive the hope of freedom but avoiding moves which could prompt suicidal revolt.

Years Of Russian Plunder Cause Of Satellite Revolts

BY LEON DENNEN

PARIS (NEA)—Why have workers and farmers behind the Iron Curtain finally begun to revolt openly against their Soviet-dominated rulers?

I put this question to men with first-hand information—delegates to the Paris congress of trade union exiles from Eastern Europe.

Summarized, they said it was because:

1. Six years of Soviet plunder have plunged countries once noted for their rich farm produce into acute food shortages.

2. The Red speedup in the factories, geared to produce mainly for Russia, was well nigh intolerable.

Listen to Eftime Gherman, former President of the Romanian Miners' Federation, a fiery little man of 55 with parchment-like skin and burning eyes. He spent 10 years in jail under the Fascist regime in Romania. The Fascists hated him because of his staunch pro-democratic and pro-Western ideas. For the same reason he is hated by the Communists.

SENTENCED TO DEATH

Soon after the Reds seized power in Romania in 1945, Gherman was sentenced to death. He went into hiding and escaped from the country in 1948 one step ahead of the firing squad.

"Hunger and Communist exploitation of labor are behind the uprisings," Gherman said. "The Soviets have been plundering these countries for years. Once there was food for everyone. Now bread is hard to get even with a ration card. Vegetables, with which Eastern Europe once supplied all of Western Europe, now are almost unobtainable.

Another delegate is Franciszek Bialas, Polish labor leader and a fugitive from the Soviet firing squad.

"The Western world was startled by the heroic revolt of the Polish workers," he said, "but those of us who have contact with the country were aware that the sufferings of the Polish people had reached a point beyond endurance. We only hoped and prayed the revolt would not be premature."

He said that after the strikes and demonstrations in East Germany and Czechoslovakia there was no holding the Polish workers back.

SPREADING

Delegates said that the riots, which reached a climax in East Germany, Czechoslovakia and Poland, were now spreading to Hungary, Romania, Bulgaria and the Ukraine in the U.S.S.R. itself.

Here are some of their reports:

BULGARIA — A glass works near Pernik was put out of action last April. In Sofia the "9 September" factory was set afire and seriously damaged.

In the countryside peasants have assaulted collective farms and endeavored to reclaim their collectivized cattle.

The Bulgarian Minister of Interior was recently stoned at the village of Nikolayevo. His bodyguard rescued him, killing two villagers and wounding 12.

ROMANIA—Saboteurs have set fire to the mills of Braila, the military tribune building and bus depots of Bucharest and the electric appliance warehouse for the Ploesti oilfields. Eighteen wagon loads of food en route to Russia were "lost" when the train ferry over the Danube was sunk.

Outside Russia, Romania has the largest forced labor camp behind the Iron Curtain. It provides slave labor for the Danube-Black Sea canal now under construction. More than 60,000 men, women and children are confined in the canal camp, which is known to the Romanian people as "Siberia No. 2."

The East European labor leaders were sharply critical of the recent decision of the United Nations Economic and Social Council to remove from its agenda the question of slave labor behind the Iron Curtain.

This was done ostensibly to avoid irritating Russia at this time, with Britain supporting the Russian bloc and only Nationalist China, Cuba and the Philippines voting with the U.S. to leave the item on the agenda.

Canadian Golfers Drop Out Of Tourney

LONDON (CP) — Canadian women golfers withdrew today from the Sunday Graphic tournament at Sunningdale next week because their extensive tour of Britain has left them "over-golfed."

The team of seven playing members decided instead to take the week off and rest.

The team is captained by Ada Mackenzie of Toronto and includes 19-year-old Marlene Stewart of Fonthill, Ont., who captured the women's British Open amateur title at Porthcawl, Wales last month.

offer. A Voice official said it was presented freely and as another indication of U. S. willingness to help the unfortunate.

White House officials said most of the food would come out of existing surpluses held under the government's price support program.

But some of the commodities, like sugar, would have to be purchased outright before shipment abroad.

Foreign aid chief Harold Stassen said the offer was made under authority of the Mutual Security Law which permits the president to extend up to $20,000,000 in aid to any one country.

ACTED ON LETTER

Besides sugar, the commodities would include grain, lard and soy bean oil among others.

Eisenhower acted in response to a letter from Chancellor Konrad Adenauer of Western Germany.

The move capped mounting suggestions in Congress for "positive action" to wrest the initiative from Russia in the Cold War.

Sight Plane Wreckage

SAVANNAH, Ga. (AP) — The wreckage of a B-29 bomber missing from nearby Hunter air force base with 10 men aboard was sighted early today in the mucky marshland along Rock Fish creek. There was no sign of any survivors.

M-A-R-KE-T-S

WINNIPEG GRAIN

WINNIPEG (CP) — Moderate export demand in oats and barley was the main feature of a dull session Friday on the Winnipeg Grain Exchange.

Oats and barley prices had a fairly steady undertone but flax and rye were lower in sympathy with U.S. markets. Prices for the top grades of Class 2 wheat dropped 2¾ cents. IWA prices were unchanged. Domestic prices were down 1¾.

Winnipeg Futures:

MORE ABOUT—
Orangemen Hold

Continued from Page 1

In New Brunswick, the celebrations are scheduled for today. Some 3,000 delegates and visitors from 200 lodges in the Maritimes and New England will attend.

In the West, Edmonton Orangemen, about 300 strong, will march to church services Sunday. Winnipeg lodge members travelled to nearby Portage La Prairie for a parade today.

BAVARIAN JOUST, 1953 STYLE — Gay trappings, courageous steeds and two gallant knights meet in a challenge of strength in Landshut, Bavaria. The medieval tourney is part of the authentic color which recaptures history as the city celebrates its festival "Landshut Royal Wedding." The play is held every three years to celebrate the wedding of Duke Georg the Rich to the Polish Princess Hedwig in 1475.

14 Missionaries Perish In Forest Fire

WILLOWS, Calif. (CP) — Weary fire-fighters today sorted out the blackened bodies of 14 missionary trainees and a U.S. forest ranger who lost a race with an explosive forest fire near here.

Fellow trainees of the New Tribes Mission trouped to a mortuary here to start the grim task of identifying the men, who died while trying to stem the 1,200 acre timber blaze in the Mendicino national forest Friday.

The 15 were members of a 24-man fire-fighting party overtaken by flames which trapped them in a steep gulch. Nine scrambled up a mountain slope to safety just a few feet ahead of the racing fire.

They were found later huddled together. An attempt to dig last-minute foxholes had been foiled by the rocky earth.

A line of 550 U.S. Air Force men, civilians and prison inmates had the flames under control by this morning, though the dying embers cast a pall of smoke over the mountains 110 miles north of here.

The missionary group, which operates a "basic training" camp here to toughen young men for gospel work abroad in savage country, has suffered disaster before.

Turns Tommygun On Stevenson

BERLIN (AP) — A Communist East German "Peoples' Army" soldier held a tommygun on Adlai E. Stevenson in East Berlin today and said in English "You move and I shoot."

Stevenson held still. For 20 minutes, Red police and soldiers detained the defeated Democratic U.S. presidential candidate and his party of seven persons who had set out to tour the Soviet sector of Berlin.

Before letting them go, the police seized all the pictures the group had taken.

Then Stevenson completed his tour of East Berlin without further incident—but with no more picture-taking.

MORE ABOUT—
Danger In

Continued from Page 1

sive Conservative leader George Drew could fulfil his promise of an annual tax reduction of $500,000,000 was through "unorthodox means." In other words Social Credit methods.

"I wonder if the people of this province want the kind of government in power in Ottawa which will reduce taxes and turn to what they will call debt-free money to meet expenditures."

HEAVY CRITICISM

The Progressive Conservative party, particularly Maj.-Gen. G. R. Pearkes, VC, who is seeking re-election in Esquimalt-Saanich, also came in for heavy criticism from the prime minister.

He was "shocked" to hear Gen. Pearkes, Progressive Conservative military critic, had said $250,000,000 could be saved from defence expenditure without threatening the efficiency of the armed services. In the last two years Gen. Pearkes had said Canada's forces were short of modern equipment and not enough was being spent on the country's defences.

"What has changed Gen. Pearkes' mind so that he now feels he can say that our defence forces are so well equipped and so efficient that great savings are possible?"

"And does Mr. Drew think that if we cut our defence expenditures by 10 per cent there would be no impairment of efficiency and that our allies would remain convinced we are doing our share?"

Mr. St. Laurent conceded there might have been "some mistakes" and "some cases of thievery" in Canada's rapid defence buildup. They had been discovered and corrective measures had been taken to prevent their repetition.

The prime minister said Social Crediters do not believe in international competitive trade. In the Social Credit "wonderland" external trade caused war and depression.

Mr. Low was a man who rarely lost a "chance at attacking the United Nations by innuendo and insinuation," Mr. St. Laurent said.

ST. JOHN'S, Nfld. (CP) — The wildlife management institute, an international organization, is going to start a complete wildlife survey of Newfoundland this fall. It is expected to take about one year.

Tourist Attraction

REGINA (CP) — Twenty-three per cent more United States cars entered Saskatchewan in the first five months of this year than during a similar period of 1952, the tourist office announced.

FOR SALE — Don McQuade of Seattle, Wash., is waiting patiently for someone to come around with $20,000 and take this 12-foot-high plaster head of Abraham Lincoln off his hands. He inherited the statue when he purchased the studio of Alonzo Victor Lewis, noted sculptor, who died in 1946.

$2.50 Per Basket For Blueberries

Cherries and blueberries were the most prevalent articles on sale at today's farm market. Cherries were selling for $2.25 and $2.00 per basket, and the appetizing looking fruit had a brisk sale. Local blueberries are full and plentiful and at present are selling at 50c per quart or six quarts for $2.50.

New potatoes were selling as low as 40c for ten pound, their price being cut five cents during the morning as jobbers flooded the market.

An abundant supply of varied garden vegetables were on hand including peas, beans, beets, onions and other greens.

Strawberries were in short supply and were selling at 45c and 40c per quart. A few gooseberries were on sale, the large ones selling for 25c a basket and the smaller variety for 20c a quart.

Extra large eggs were selling for 73c a dozen and the large Grade A were going for anywhere between 67c and 70c a dozen.

A very small amount of maple syrup was on hand, and choke cherries were making their first appearance.

Flowers of many varieties were being sold including a few domestic cacti varying in price from 25c to 50c per plant.

Tape For Safety

SYDNEY, N.S. (CP)—The Junior chamber of commerce, as part of a safety campaign, has set up stations where five-foot strips of reflector tape are placed on the rear bumpers of passing cars.

Large Crowd Follows Canadian Open

TORONTO (CP)—A large crowd swarmed over Scarboro course today for the final 18 holes of the 72-hole medal play in the $15,000 Canadian Open golf tournament.

First to finish was Frank King of Oakland, Calif., who shot a one-over-par 72 for a 295-total, far off the pace.

Early Canadian finishers included professionals Stan Kolar of Ottawa and Bud Loftus of Moose Jaw, Sask., and amateurs Moe Norman, Kitchener, and Bernie Johnson, Hamilton. Kolar ended with a 74 for a total of 297; Norman added 75 to his three-round total of 222 for 297; Johnson hit 300 even with a last-round 77 and Loftus was 302 with a 79 final 18.

Freddie Hawkins of El Paso, four strokes off the three-round pace of 203 set by Wally Ulrich, Austin, Minn., was one over par after three holes. Al Besselink, Chicago, starting with 209, was even par after three and so was Fred Haas, Jr., New Orleans, 209 for 54 holes.

Shelly Mayfield, Cedarhurst, N.Y., starting with 207, was two over after three. Gardner Dickinson, Panama City, Fla., 207, was even par, along with Jerry Barber, La Canada, Calif., 209.

Frank Willey of Edmonton finished with par 71 for a 294 total.

Wally Ulrich, the leader with 203, parred the first two holes. Marty Furgol, Lemont, Ill., starting with 205, double-bogeyed the second, getting in the rough and three-putting. Pat Fletcher of Saskatoon, 206, birdied the first with a 15-footer and bogeyed the second where he caught a bunker.

Predict Broad Reforms After Beria Purge

By THOMAS P. WHITNEY

MOSCOW (AP)—Western observers believe Soviet leaders plan to announce broad reforms affecting millions of citizens as an aftermath of Lavrenty P. Beria's ouster This opinion was expressed as the Russian press today reported widespread popular denunciation of the former deputy premier as an enemy of the people.

The reforms were expected to include important changes in the administration of Soviet law and agricultural policies, as well as price cuts and moves to increase the Russian standard of living.

An editorial in the Communist party newspaper Pravda gave support to the view that changes are likely. It charged Beria had used his power as first deputy premier and police chief to block "important and urgent" measures in agriculture and law reform. With his removal it seemed logical that the government would go ahead with these measures.

Pravda also claimed the entire Soviet people warmly approved the actions of the party and the government against Beria, fired from the party and government Thursday night as an "agent of international imperialism."

Millions of Soviet people "wrathfully condemn the criminal actions of the inveterate enemy of the people and the party, Beria, and call for intensification of revolutionary vigilance," the newspaper declared.

STRENGTHEN POLICIES

Western sources here expressed the view that Beria's ouster did not indicate any policy reversals by Premier Malenkov's government, but rather a strengthening of those policies.

(Western European diplomatic sources also speculated that the purge of the former police head did not indicate any change in Russian foreign policy. But the Big Three foreign ministers, meeting in Washington, are reported to have agreed that it might foreshadow a turn-about in the Kremlin's recent conciliatory attitude to the West.

(As police chief, Beria had the job of keeping the satelite states in line and presumably will be made the scapegoat for the unrest that has been sweeping the peoples of those countries.

(In Vienna, the newspaper Videnske Svobodne Listy, published by Czechoslovak exiles in the Austrian capital, suggested Friday that a struggle for power similar to the Kremlin battle that led to Beria's downfall is now going on in Communist-ruled Czechoslovakia.

(The newspaper said the fight for personal power and Soviet support is being waged between President Antonin Zapotocky and Premier Vilent Siroky.)

LITTLE ON THEME

Although Beria was officially accused of attempting to "undermine the Soviet state in the interest of foreign capital," Pravda said little on this theme.

Calling for a strengthening of "leadership in all links of the party and state apparatus," the editorial repeated most of the original denunciation of Beria and added long quotations from various speakers at workers' rallies throughout the country. It also declared:

"Foul provocateur and enemy of the party, Beria, who was cleverly disguised, worked his way by various machinations into trust and crept into leadership.

"The party teaches us to remember and never forget the capitalist encirclement which is sending and will send into our midst its agents for subversive work."

WITH THE CANDIDATES ON HUSTINGS

Sees Ramshackle Coalition If Liberals Defeated—P.M.

By CANADIAN PRESS STAFF WRITER

British Columbia voters who recently returned a Social Credit government to office got a candid opinion Friday night from Prime Minister St. Laurent of Social Credit and its chances in the Aug. 10 general election. He said at a Victoria Liberal rally there is "a remote danger that, if enough Social Crediters and Conservatives and so-called Quebec independents could be elected, the Social Credit party might have just enough strength to force its peculiar ideas on a ramshackle, make-shift coalition in return for its support."

While Mr. St. Laurent aimed his blows at the Social Credit and at the Progressive Conservatives, Hon. George Drew, Progressive Conservative leader, campaigning in Eastern Ontario, charged the Liberals with rewriting history to give themselves a creditable record.

British Columbia voters who recently returned a Social Credit government to office got a candid opinion Friday night from Prime Minister St. Laurent of Social Credit and its chances in the Aug. 10 general election.

He said at a Victoria Liberal rally there is "a remote danger that, if enough Social Crediters and Conservatives and so-called Quebec independents could be elected, the Social Credit party might have just enough strength to force its peculiar ideas on a ramshackle, make-shift coalition in return for its support."

While Mr. St. Laurent aimed his blows at the Social Credit and at the Progressive Conservatives. Hon. George Drew, Progressive Conservative leader, campaigning in Eastern Ontario, charged the Liberals with rewriting history to give themselves a creditable record.

"They're rewriting history in a number of strange ways" in claiming that all major economic advances and steps to national stature came under Liberal governments. Conservative governments were responsible for Confederation, the CPR, CNR and CBC, among other things.

BLASTS STEAMROLLING

At Birsay, Sask., CCF leader M. J. Coldwell accused the government of arrogance in running the affairs of Canada, particularly in its handling of the Currie report on the army's works department.

"I'm weary of hearing the steamrolling of the Liberal machine running the country," he said. "They've been arrogant — they think everything will go."

Mr. St. Laurent said he is sure British Columbians do not want a federal Social Credit government that would reduce taxes by the "magic of debt-free money off the printing press."

His opinion was that after Aug. 10 Social Credit would "continue to be a small group sitting in a corner of the House of Commons without any real influence of affairs, just as it has been since 1935."

Mr. Drew and Maj.-Gen. G. R. Pearkes, VC, were singled out for particular criticism. Mr. St. Laurent said he was "shocked" to hear Gen. Pearkes, military critic for the Progressive Conservatives in the last Parliament, say he could save $250,000,000 in defence expenditure without impairing fighting efficiency.

DIFFERENT STORY

Gen. Pearkes had complained during the last two years that not enough was being spent on defence, that the forces were short of modern arms and equipment and that Canada had no adequate anti-submarine craft and no submarines.

Mr. St. Laurent asked if Mr. Drew thinks that efficiency would be unimpaired by a 10-per-cent cut in defence spending, or that Canada's allies would stay convinced Canada is doing her share.

He conceded that some mistakes were made in defence but they had been discovered and corrective steps taken.

Speaking in Brockville, Ont., Mr. Drew said the 1950 rail strike was due "to the failure of this (Liberal) government to be frank in its dealings with unions."

"The government led them down the garden path. It promised them certain concessions and then left them holding the bag."

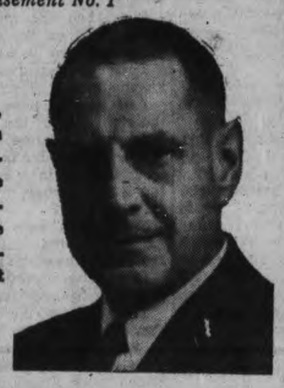
The government had introduced the principle of compulsory bargaining in the settlement ordered at a special session of Parliament.

The Progressive Conservative party repeatedly urged adequate labor laws fair to all parties.

"But the government did not act on our suggestions. As a result of this there have been crippling strikes in Canada."

UNTRUE STATEMENTS

Mr. Drew described as "absolutely untrue" statements by Mr. St. Laurent in Vancouver Thursday night that the provinces would lose financially in any reallocation of taxing powers between federal and provincial governments as proposed by the Progressive Conservatives. The aim was "to improve the financial position of every province."



Donald Fleming, a senior Progressive Conservative candidate and member of the last Parliament, charged in a recorded speech broadcast nationally that the Liberal government "folds its arms, shrugs its shoulders and groans 'it can't be done'" to every proposal of constructive action.

"Tax reduction, tax reform, recovery of lost markets, building of houses, the restoration of the dignity and power of Parliament—these necessary objectives indeed cannot be accomplished by the Liberal government. They have said: 'It can't be done.'"

He said a state of affairs has been reached "where everyone except this tired old government recognizes the need for action."

Agriculture Minister Gardiner, campaigning in his home constituency of Melville, said at Langenburg, Sask., that a Progressive Conservative proposal to place operations of the Canadian wheat board on a voluntary basis would make the board ineffective within six months.

Liberal Advertisement No. 1

Question:

Mr. Swanston, why are you running as Liberal candidate for Peterborough in the Dominion election on August 10?

Answer:

Because, after serving my native city for eight years as an alderman and three years as Mayor I feel that I know the problems of this riding, and I want to continue to serve its interests in the House of Commons. What is more, I want to serve it on the Government side of the House. For thirteen years the member for this riding has sat in Opposition, and that is quite long enough. It is time this riding was represented by a Liberal.

New Canadian Votes Seen Favor Liberals

SIMCOE — The Liberals are confident most new Canadians will vote for them, Defence Minister Claxton declared here Friday. Addressing members of the Norfolk Riding Liberal Association, Mr. Claxton said this will happen "because it is under the Liberal Party they have had their opportunity to build a new life."

Describing Simcoe and area as one of the greatest leaf tobacco centres of the world, Mr. Claxton said this was an example of the opportunities which have attracted so many new Canadians from all parts of Europe.

"These people have been welcomed to Canada and they realize sometimes more than native Canadians just what is has meant to them to have the chance to work out their lives, bring up their families and have the opportunity to take part in the life of Canada," he said.

Reports from across Canada, Mr. Claxton declared, "show beyond a shadow of a doubt that the Liberals will be returned—provided we get out the Liberal vote. I haven't any doubt, whether you go by Gallup polls or personal contacts, that the majority of the people of Canada want to see Mr. St. Laurent and his government returned to office."

KEEP PROMISES

The Liberals, Mr. Claxton assured his audience, will carry out everything they say they will do.

"We don't make empty promises."

George Drew, in promising to save $300,000,000 by not collecting the current budget surplus, had made an error of 1,200 per cent, Mr. Claxton declared.

"Mr. Drew was singularly badly informed," the minister continued. "He didn't take the trouble to look up the facts. He gave the result without anything to back it up. Last year the surplus was actually $24,000,000—so that Mr. Drew was $276,000,000 out on $300,000,000—an error of 1,200 per cent.

"You know how long anyone would stay in business or farming if he made an error of 25 per cent in a sum of that kind. This promise is a phony one," Mr. Claxton declared.

The Conservative slogan, "It is time for a change," is not likely to register very much in Canada, Mr. Claxton declared.

"Who wants the administration headed by somebody who makes an error of 1,200 per cent in so important a statement?"

Chosen By Liberals

HULL, Que. (CP)—Alexis Caron, elected mayor of Hull less than three months ago, Friday night was named Liberal candidate for the Aug. 10 general election in the hull seat held in the last Parliament by former Works Minister Fournier, now a judge of the Exchequer Court. Mayor Caron defeated three opponents at a nominating convention.

CCC Plans Campaign To Get Out And Vote

MONTREAL (CP) — A "Get-out-the-vote" campaign for the federal election was announced Friday by the Canadian Chamber of Commerce.

The chamber has asked 700 Boards of Trade and Chambers and 2,350 companies across the country to encourage people to vote. Also co-operating will be some 25,000 members of the Junior Chamber of Commerce.

"Democracy depends upon the exercise of the free and secret ballot," said Chamber President Lewis W. Simms, "and I believe that everything possible should be done to bring to Canadians a full appreciation of their responsibilities in this connection."

Mr. Simms said "poor government and loss of freedom are the end results of indifference."

Ottawa Co-operation On Health Insurance

HAMILTON (CP) — The role of the Liberal government in a national health insurance program is to co-operate with the 10 provincial governments, Health Minister Martin said Friday night.

He said there should be no attempt to usurp the powers of the provincial governments in this field but the federal government will supplement their good work to improve the health of the nation.

He spoke to a gathering in a high school auditorium in support of the four Liberal candidates in the Hamilton ridings for the Aug. 10 federal election.

PC Discusses Food Surpluses

RED DEER HILL, Sask. (CP)—John Diefenbaker, Progressive Conservative federal candidate for Prince Albert, said Thursday that a surplus of 700,000,000 bushels of wheat has piled up on the Prairies and that there is an abundance of food throughout North America.

Discussing a recent campaign tour of Ontario, Mr. Diefenbaker, said that he found great food surpluses everywhere, particularly of butter and cheese.

The United States has a huge amount of farm products about to be dumped on the world market "either by gift or fire-sale," he said. When this happened world prices would go down.

Within the last three days, the United States tariff commission had raised the tarrif on Canadian oats. A week before it had been dairy products. This, Mr. Diefenbaker said, is the trend.

"We advocate floor prices for farm products," he said. "By this means every farmer will know before the season starts what his crop will be worth."

Libearls Drop Out Prince Edward-Lennox

TWEED — Liberals of Prince Edward-Lennox federal riding, will not enter a candidate in the approaching election. This action was taken at a meeting of the representatives of the various polls held this week. Officers of the association reported that a number of men had been approached, as possible candidates, without success.

While Liberals failed to get a candidate, it does not mean an acclamation for George Tustin, Member for the past 18 years. Donald Thompson, a farmer of South Bay, Prince Edward County, has announced that he will run as an Independent. Mr. Thompson is an ex-warden of Prince Edward County, and is President of the Federation of Agriculture.

Hees Promises Lower Housing Down Payment

TORONTO—The building industry can build a four-room house to sell for $9,000, and the Progressive Conservative housing plan would call for it to sell for a down payment of $900, George Hees, Progressive Conservative candidate in Broadview, said at a riding meeting Friday night.

His party, said Mr. Hees, would reduce the down payment on NHA housing to 10 per cent, and make possible mortgages over a period of 30 years.

"This will make it possible for a man with a moderate income to buy a new house, and also allow him to carry the charges on a new house," he said.

Carrying charges on the four-room brick house would be $55 a month, including taxes, while the charges on a five-room house would be $60 and on a six-room house, $65 a month.

WON'T COST PENNY

"These policies can be put into operation without costing the taxpayers of this country one penny," he said. "They will be put into operation immediately by a Progressive Conservative Government."

He said he hoped the city, province and federal government would get together on the job of building additional housing projects as soon as possible. He said the answer to rental problems seemed to be the Regent Park project type of housing, but Toronto needed at least four more such projects.

Warned Not To Go

NEW YORK (AP)—Radio Free Europe said its radio stations are warning youths in Communist countries not to attend a Red-sponsored World Youth Festival in Bucharest, Romania, next month because of a serious polio epidemic there.

Candidate Dies

QUEBEC (CP)—Leo Beaulieu, 50, clerk in the office of the Quebec Liberal Opposition leader, and independent Liberal candidate in Quebec West in the forthcoming federal election, died suddenly Friday.

HERE MONDAY

ELLEN FAIRCLOUGH

Canada's only Lady M.P. in the last Parliament will be in Peterborough on MONDAY as Guest Speaker at the Progressive-Conservative Rally. She is Mrs. Ellen Fairclough of Hamilton, and was elected to the House of Commons at a By-Election in 1950 under the P.-C. banner. She has also been an Alderman and a Controller of the City of Hamilton.

In private life she is a Certified Public Accountant, and a housewife and mother. She has taken a keen interest in I.O.D.E. work, also the United Empire Loyalist Association and the Zonta International. She has had considerable experience in industrial labour problems, and of course with civic matters concerning the ladies.

The Progressive - Conservative RALLY is being held MONDAY in the LEGION HALL, Murray Street, at 8:15. Other speakers will be Senator Iva Fallis, Hon. Harold Scott, and the P.-C. candidate, Gordon K. Fraser.

A cordial invitation is extended to all citizens of Peterborough Riding to attend.

CCF Says Liberals Show Contempt For Procedure

KYLE BEACH, Sask.—The Liberal government too often has used its power in an irresponsible manner and displayed contempt for democratic procedure CCF Leader Coldwell charged Friday. Coldwell said at a picnic here that the last session of parliament "abounds with too many examples of this kind of thing."

"The Liberal government increasingly gives evidence that it has held power too long, that it too often takes its powers for granted and that it has come to think of itself as being indispensable," the CCF Leader said.

"More and more the government gives the impression of impatience—an impatience sometimes verging on contempt—for the role of the opposition parties in parliament. Its activities are characterized too often by straight expediency, doing whatever it thinks is to its advantage while sacrificing altogether the proprieties of parliament."

REPORT TAMPERING

Coldwell said one of the most "outrageous" examples was tampering with the Currie report. He said the report on Army Works Services tabled in parliament had been "vetoed."

"If the CCF had not come into possession of a copy of the original report important information embarrassing to the government would never have been made known to parliament and the public."

Coldwell charged that the government had shown an increasing tendency to govern by order-in-council rather than through parliament. An example of this, he said, was an order respecting the control of trade with China and North Korea.

The CCF Leader said one of his parliamentary followers, Percy Wright, had been threatened with criminal prosecution by Trade Minister Howe because he criticized a member of the Board of Grain Commissioners.

The government had also withheld important information from parliament, Coldwell said. He said only the Prime Minister had answered questions about connections between cabinet ministers and private corporations.

Prudham Says Canada Has Best Money

EDMONTON (CP)—Hon. George Prudham, federal minister of mines and technical surveys, says Canada has "the world's best money."

Mr. Prudham, seeking re-election in Edmonton West in the Aug. 10 federal election, told a public meeting Thursday night that good government has helped to build up international confidence in Canada and has "raised the Canadian dollar to its premier position as the world's best money."

Claxton In Hamilton Says:

Buck Rogers Weapons Not Arrived Yet ...

HAMILTON (CP)—Defence Minister Claxton says "the day of the Buck Rogers type of weapon is fortunately still around the corner."

"I will not say how far around the corner it is," he added, after he made a brief tour Friday of a Canadian Westinghouse Company plant producing equipment for guided missiles.

About 20 electronic projects for the defence department and the North Atlantic Treaty Organization are under way at the plant and represent the work of about 1,000 engineers and research experts.

Mr. Claxton implied that German scientists engaged in guided missile work in Germany during the last war are among those working at the plant. He said there are a number of engineering and research teams which have drawn people from many different parts of the world including Europe.

COSTLY RESEARCH

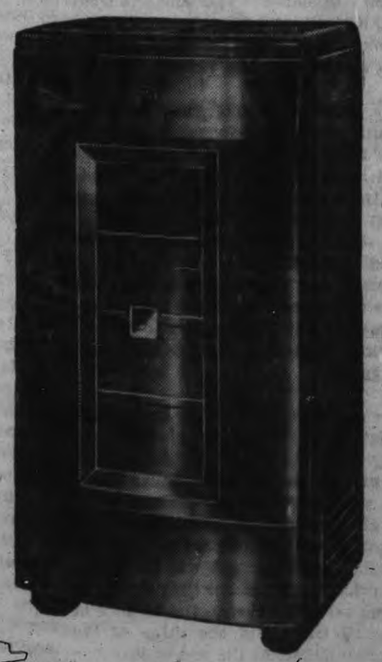
One of the problems facing his department is the cost of electronic research and development, he said.

"The people against whom we are arming may one of these days develop equipment to lead guided missiles astray and then we'll have to have the answer to it."

The projects now being carried out for the department are vital to the industrial future of Canada, the minister declared.

"Canada," he said, "is a greatly advanced industrial nation today. If we dropped this research and development we couldn't continue to be an industrial nation. One of the by-products of defence development is the maintenance of plants and large groups of skilled workers."

Continuing emphasis is being given in the plants handling defence contracts for electronic work to the development of lighter and smaller equipment, he said. There is as yet no 'Dick Tracy' wrist radio, but the objective is to reduce the size of equipment, simplify it, and thus reduce the cost.



Possibility of agreement on a standard rifle was suggested by Mr. Claxton. He said the calibre is likely to be between 2.80 and 3.00 and that it is pretty well agreed a rimless cartridge will be used. The objective is to produce a bullet at a cost of seven cents, although 42 machine impressions are required to manufacture it.

Big Trade—With A Deficit

Canada's trade has never been greater, in dollar value or in volume. Since Canadian prosperity is traditionally measured by its foreign trade, the Canadian economy is in a flourishing condition. But before we sound too many trumpets we should examine the character of that trade. The most outstanding recent figure is this: the total imports into this country during the month of May were greater than the sum total of all imports during the entire calendar year 1933. That is, in one month Canada imported more, in dollar terms, than it did during a whole year twenty years ago. Imports in May of this year amounted to the staggering sum of $422,200,000.

* * *

This figure should not be left standing by itself. Beside it should be put the amount of export business. It totalled $385,000,000. This leaves, in the balance of trade, a deficit in one month of $37,200,000. Well, such a figure is not disturbing by itself. One month is not the whole story. Incidentally, while the May imports were the highest in history, last May's exports were $1,900,000 less than in May, 1952. But, as we have said, a month is only a month. What has been the condition of Canadian trade this year up to the end of May? First, it has been a thriving trade. Second, the adverse balance has also thriven. The total deficit for the first five months of 1953 stood at $209,900,000.

* * *

If there is any cause for alarm in this figure—and there may not be, for the trade deficit two years ago (up to May, 1951) was even larger and no harm resulted—the alarm will be caused by this: the chief reason for the deficit has been a continuing adverse balance of trade with the U.S.A. Canada is buying much more from the States than it did, and selling the States only a little bit more. The total trade deficit with the States for the first five months of this year was $388,000,000, compared with $284,800,000 for the same period last year. The reason this sort of business may cause anxiety now when none would have been felt about it before the last war, is that British pounds are no longer around to take up the slack. The total volume of Canadian trade with the U.K. is relatively small, and the big balance of that trade favourable to Canada has likewise become small. Exports to the U.K. for the first five months of the year totalled $238,500,000—some eighty million less than last year. Imports from the U.K. were $176,300,000 for the first five months of the year, an increase of about a third over last year.

* * *

The foreging figures show how important the export-import trade with the U.S. is to Canadian life, and how much more important it is than Canadian trade with the U.K. Thus the trade deficit with the U.S. becomes increasingly significant, indeed, a problem. The Canadian Government and its senior economic and financial advisers are aware of the problem. Hence the numerous missions to Washington to protest American trade barriers against Canadian goods.

* * *

Our readers cannot fail to have noticed that the Canadian dollar is almost at parity with the American dollar now. Last summer the Canadian dollar fetched a good premium. We do not argue that an American dollar worth only 95 Canadian cents is as good a thing for Canadian business as it was for Canadian pride, but point out that there is a distinct relation between the balance of Canadian trade and the value of the Canadian dollar. At the end of May this year there was a trade *deficit* for the five months of $209,900,000. At the end of May last year there was a trade *surplus* for the first five months of 1952 of $114,800,000.

Christie And Capital Punishment

The extraordinary case of John Reginald Halliday Christie, self-confessed murderer of seven women under peculiarly revolting circumstances, raises once again the well-worn question of capital punishment. We make no apology for doing so, for the power to deprive a man of his life by process of law, even when it involves so miserable a human being as Christie, is a solemn and grievous responsibility. Furthermore the case itself invites reflections on the subject.

Most decent people are probably agreed that he is not fit to live. They cannot see why the state should provide for him for the rest of his days even if he is deprived of that precious gift of freedom. The sordid details of his crimes should be enough to shake the faith of even the doughtiest of conscientious objectors to capital punishment.

Yet there appears to be considerable evidence that the man is insane. It is a firmly established principle in law that an insane man is not responsible for his actions and therefore cannot be punished for them. So long as the public is protected against further instances of his criminally insane tendencies that is all that justice demands. His crimes evidently proceeded from a psycho-sexual disorder. Like many lunatics he was sane for the most part, and the world saw no more in him than a mild-mannered, bald and bespectacled clerk. That is evidently how the jury saw him, and they had no hesitation in finding him guilty of murder with no qualification of insanity.

But there is another aspect of this question raised by the Christie case. The husband of his third victim, Mrs. Beryl Evans, was tried and convicted for the murder, and Christie himself was the chief witness for the Crown. But for capital punishment Evans might be alive to this very day and could have been set free. As it is he was hanged for a murder that he never committed. This dreadful and irrevocable miscarriage of justice is a very powerful argument in the hands of those who oppose capital punishment on principle and should cause us to consider carefully whether capital punishment is the right answer. This is no hypothetical instance. It has happened before and it might well happen again.

Take It Easy

Summer is ordained as the time of year to deflate the pressures built up during other seasons. It is our annual let-down, and not only because most people get a couple of weeks' holiday in July or August. We slow down because the weather demands it and our physiology needs it. In winter a certain amount of rushing hither and yon is necessary; it is one way of keeping warm. We go for brisk walks in the fall. We garden strenuously in the Spring. But in summer we should take our relaxations easily. The warm weather, the softness of the evenings, the sheen of the day, are nature's inducement to go slow, for our health's sake and our spirit's refreshment.

We make the point here and now for two specific reasons. One is to remind Peterborough people that holidays are for leisure and pleasure, and that our rivers, lakes, parks and gardens, and our games and cottages are for our ease of body and nervous system. The other reason, for mentioning the matter—it arises from the first—is this: tourists are now amongst us in their thousands. They came here for relaxation of one kind and another. If they are met by natives querulous in voice, taut of face, running for buses, honking horns, impatient at stop lights, and generally creating a lot of fuss and bother, what kind of rest do they think this resort area offers them, if it offers us, the natives, so little?

So if we take time to stop and stare on George Street, saunter down Charlotte and pass the time of day with all the pretty babies and comely girls, seem as if we had all the time in the world at street intersections, and in general appear at ease, and quiet, and look as if we were pleased with life and that life was pleasing us, our visitors will think: Good, here really is a relaxing place. And if, at the same time, we might occasionally allow a glint of happiness to appear on our faces, our visitors might also say to themselves: Good, this is a happy place for a happy holiday.

So, for the health of business and the body, take it easy, Peterburians.

News From The Commonwealth

Dr. Malan, Prime Minister of South Africa, has said that there is no need for his country to leave the Commonwealth to achieve greater freedom. Well, Dr. Malan, that is very sporting of you, very generous indeed to recognize that complete freedom is possible within the Commonwealth. It has never occurred to us Canadians to doubt it. Even India does not seem to feel any constriction. Of course, India has become a Republic, but we noted that Premier Nehru attended the Coronation and the conference of Commonwealth Prime Ministers.

Reference to India recalls another piece of news, which may be just a rumour. It is that a peace settlement may be near between India and Pakistan, over Kashmir. It is an oddity of the modern Commonwealth that two of its members can be at war with each other. What greater freedom could exist than that? We noted, by the way, that both the Prime Minister of India and the Prime Minister of Pakistan were at the Coronation and took part in the Commonwealth Prime Minister's conference in London. It is obvious that there are some advantages to association within the Commonwealth, other than the freedom to make war on each other—the advantages of common interests and a common-platform, which, in the case of India and Pakistan, are above the skirmishes of battle.

The Kashmir war—a dispute, in which there has been an uneasy armistice, uneasy because incidents are always occurring,—has been going on now for nearly six years. It is wasting the financial and economic resources of both countries, has long been a problem facing U.N. and is certainly an issue which all Commonwealth countries want to have settled peacefully.

Godfather Of Existentialism

By PHILIP TOYNBEE

WHEN Paris was liberated from the Germans in August, 1944, a new word was also set free. "Existentialism," we learnt, had been the chief intellectual product of all those years in which France had been cut off from the outside world.

Jean-Paul Sartre and Albert Camus were the principal exponents of this formidable invention; yet when we read their novels, which were very good novels, we remained uninformed about their new, and apparently shocking, attitude to life.

✧ ✧ ✧

THIS was an awkward period culturally for those countries which had not been occupied by the Germans. When we met the French, the Dutch, the Norwegians, conversation was difficult simply because we had been, accidentally and geographically, left out of the general European field of experience. Perhaps they knew more than we did about the nature of contemporary life: perhaps, on the other hand, their embittering experience of repression had distorted their views, and we, the unoccupied, had been able to preserve our precarious sanity throughout a period of madness.

✧ ✧ ✧

SARTRE AND CAMUS were brave members of the French resistance movement, yet both of them purveyed a philosophy which was deeply Teutonic in its origins. As we understood it, the nineteenth century Danish writer, Kierkegaard, had started this particular ball rolling, and it had been given two powerful shoves by the German philosophers, Heidegger and Jaspers. Neither of them was directly a Nazi philosopher, though Heidegger was at the very least a collaborationist, but both, one understood, were agreed in providing a despairing view of life within which Nazi nihilism became gloomily tolerable.

✧ ✧ ✧

NOW, and at last, we have been given an English version of Karl Jasper's most important fragment ("Tragedy Is Not Enough"). "Tragedy Is Not Enough" is the central portion of a book which bears the almost incredibly self-confident title, "About Truth." An arrogant book, one might suppose, by a member of that most arrogant and forgetful of nations. Wrong! Jaspers was a quiet anti-Nazi during the whole horrible period, and this revelation of his thought comes as a reassuring reminder that the Germans, too, are inheritors of the European tradition. For "Tragedy Is Not Enough" is an extremely German book which belongs, intimately, to the tradition of Goethe rather than to that of Hegel or Nietzsche. Goethe's Faust ends, unexpectedly, with the hero's salvation; but the dominant German theme has been the damnation and destruction of mankind. The tendency has been to revel, long-windedly, in catastrophe, and to glory in failure.

✧ ✧ ✧

JASPERS is an existentialist philosopher. Yet this short sample of his thought is as different as could be in clarity of style and exposition from the turgid and obscure philosophical writings of his French disciple, Jean-Paul Sartre. Jaspers sees the tragic situation of men as a stage on the way to order and integration. He is "existentialist" only in the sense that he insists on the necessary **participation** of the individual in the tragic myth of his own time. "It is essential that I not only watch and derive "aesthetic" edification from the tragedy, but also participate in it with my innermost self and act out its insight because of its direct importance to me. The whole content is lost if I think myself safe, or if I look upon the tragic as something alien to myself, or as something that might have involved me but that I have now escaped for good."

✧ ✧ ✧

FIRST involvement, and then transcendence. This is the confident and almost gay recommendation which Karl Jaspers makes to us. His definition of tragedy is not very different from Artistotle's, but his philosophical conclusions are strikingly original. Peace of mind is not difficult to achieve, if the tragic sense of life is circumvented. But the only peace of mind which is worth achieving lies on the far side of tragedy, and is, in a sense, the reward for the full experience of tragedy.

✧ ✧ ✧

THIS, from a German, is most reassuring, for it involves a profound optimism which is dramatically opposed to the shallow pessimism of the Nazis. The Twilight of the Gods turns out, in this luminous book, to be an untruthful bore. The tension, the psychological contradiction of tragedy, is a halfway house. Outside and beyond the human "existentialist" condition lies the unchartable world of the uncomprehended and the incomprehensible. Although he is no Christian or follower of any other formal religion, Jaspers' faith in this transcendental world save him from the narrow constructions in which some other members of his philosophical school seem to take such pride.

Volte Face?

("Mercutio" in the Manchester Guardian)

(Until further notice 178 terms of abuse hitherto approved in East Germany, when referring to the West, have been banned.—"Sunday Times", May 10.)

East Berlin has banned all through the Land
Favorite examples of choicest invective,
Licensed abuse has gone out of use
Pending a high propaganda directive.
States of the West are not addressed
Plainly as Fascists in Communist speeches,
As owners of slaves, robbers of graves,
Vampires, hyenas, and bloodsucking leeches.
Class parasites, gorged satellites,
Imperialist butchers, warmongers ferocious.
Sub-human curs, gangsters and worse,
Destroyers of culture and ruffians atrocious.
What is the cause of this welcome pause?
Have insults staled by mere repetition?
Will they revile in still grander style
When Moscow sends them some fresh ammunition?
Will Berlin soon be changing its tune
After a spell of nocturnal urbanity,
Will we become again offal and scum,
Degenerate murderers, dregs of humanity?
Or, au contraire, will they speak us fair?
Will they be affable, courteous and pleasant?
In Berlin alone their purpose is known;
All we know is—that we are not, at present,
Capitalist rats, cursed plutocrats,
Money-bag jackals, reptilian traitors,
Serpents malign, decadent swine,
Carrion vultures, and corpse violators!

Letters To The Editor

SEEKS PEN PAL

Sir: Excuse my writing to you like this, but I wondered if you could find me a Pen Pal (male or female). You may wonder why I pick Peterborough. Well, as it happens I am a native of Peterborough, England, and I have lived there since I joined the services about 15 months ago. Since then I have received our local paper and have read with great interest the various visits of people from Peterborough, Canada, to Peterborough, England, and the growing friendship between these two cities. I wish that some day I may have the pleasure of visiting your great city.

Yours faithfully,
A.M./E. R. J. CRAYTHORNE,
L/FX 910762, Mess 8, Camp 1,
RNAS ANTHORN, Near Carlisle.
Cumberland, England.

WHO IS HAMA?

Sir: The writer is very interested in the writing of Yoho Hama.

Could it be possible that he is the same Hama I met during my school days? I was majoring in mineralogy at Bangkok High School (how well I remember the cheer leader's "Bang! Bang! !Bangkok!"), and we had as an English teacher an unfrocked Tibetan priest, who had taught himself English from a mail order catalogue. His two greatest ambitions were to meet Winston Churchill and Roy Rogers.

Knowing Yoho (as I think I do) his idea of a Memorial Centre could be either a cemetery or a cerebellum. Nevertheless he is obviously a profound thinker, and, should he ever learn to read and write, will no doubt become an asset to the community.

Yours, etc.,
AARON SNUGGLEPOP.

THE MOBILE LUNCH WAGON

Sir: May I have a small space in your paper to give my views and yak yak on this so-called "Mobile Lunch Wagon" operated by Mr. Harrison.

Now I quite agree with Mr. Bickle and his beef about this Mobile interfering with, and causing a loss in business, but this is his first year of this co-called competition. What about us merchants in East City, just a stone's throw from the Ball Park? We have put up with this for the last five years, and never a word about it, but it is about time something was done.

For about five months of the year, when the parks are open, and ball games are on, the lunch wagon parks outside our door practically, from 6:30 p.m. till 10:30 p.m. in the evenings, and gets all the cream, selling his wares, such as potato chips, hot dogs, ice cream, chocolate bars, peanuts, etc. Then, when he gets the last nickel from there, he pulls stakes and beats it over to Simcoe and George and gets the cream till 1:00 a.m., while we stand and look out the window and watch the Fords go by.

Mind you, he gets all this for about $150.00 a year license fee. He can also park his wagon wherever there is a celebration going on, which might be in aid of Crippled Children, or some other worthy cause. Does Mr. Harrison give a small percentage out of "Big Profits" to these people? (I doubt it.)

For twelve months of the year we pay rent ($60.00 to $85.00 per month), electricity and heat, another $40.00 per month, $30.00 a year Business Tax, $20.00 a year Lunch Bar Fee, $10.00 a year Cigarette License, not counting operating cost, etc. But if the good City Fathers see fit to give these pedlars a license, we poor tax-pay have nothing to say.

Another item I wish to mention is this, according to my solicitor, a mobile unit cannot park, it must keep moving along the street as close to the curb as possible, and make his sales when called upon. I would also like to know when Mr. Tolton is going to present his petition to the council which he got us to sign for the nominal fee of $1.00.

Beyond this, I believe in the slogan "Live and let live" and would suggest that the council give Mr. Harrison a permanent corner on one of our busy streets, and let him sell his wares from there.

I remain, yours faithfully,
HARRY CARTER, Manager,
East City Bowl,
Peterborough, Ont.

MORE ABOUT CEMETERY BUS SERVICE

Sir: I heartily agree with "Citizen" in regard to the bus service to the Little Lake Cemetery. I have often wondered why the Bus Company could not give bus service for at least half a day each week, preferably Sunday afternoon. I am a widow and like to put flowers on my husband's grave. As I live some distance from the cemetery I feel the walk from the nearest bus is too much on a hot day. I think it would be a very kind act if the manager of Peterborough Bus Lines would give cemetery service half day a week during the summer months. I know a number of elderly women who have loved ones at rest, like to visit their graves, but don't have enough spare money to hire a taxi. Hope this service will be granted.

Sincerely,
ANOTHER CITIZEN.

Votes For Lobstermen

(Summerside (P.E.I.) Journal)

The fixing of the election date on August 10 has given rise to many complaints but it seems to be working out to the advantage of the south shore lobster fishermen.

The opening of the fishing season on the south shore was set for August 10 but the fishermen protested that this would disfranchise them, because no fisherman would delay the setting of his gear until he had voted.

The date of the opening of the season has now been set for August 7, and we have been advised by the Parliamentary Assistant to the Minister of Fisheries, Mr. MacNaught, that in law this means the fishermen can leaves the wharves at noon on Thursday, August 6.

This will have the effect of giving the fishermen several extra days fishing. We know some industries that have been affected by the election date but adversely, so it is good to know that "the ill wind" will blow to the benefit of our south shore fishermen.

How Time Flies

JULY 11

1923 Scores of children are enjoying the routine at the Peterborough Health Association camp at Jackson Park.

Kiwanian Joseph Wearing tells Kiwanis club about habeas corpus and how it operates.

The new park at the filtration plant is completed and added to the list of the city's beauty spots.

Dominion fuel controller warns Mayor W. H. Taylor that substitutes for American anthracite will have to be used next winter.

1933 In spite of heavy traffic for the 12th of July, Provincial Officer Hornick reports no accidents.

Major Max R. Sloan second in command of the 3rd Prince of Wales Dragoons, has qualified for the rank of lieutenant colonel.

County council will co-operate with the Consolidated Smelters in repairing the Cordova Mines road.

Peterborough citizens have paid $207,526.50 in their first instalment of taxes during the past three weeks.

1943 First draft of the voters' list for the provincial election has passed the stage of enumeration.

Peterborough Lions Club members assist in removing stones from the river near Hunter St. bridge where a wading pool is now under construction.

With the sending of the 24th donation of £500 to the Lord Mayor of London, the Peterborough and District War Victims' Fund makes a good start towards a next donation.

Bible Message

(From the Authorized Version)

There were together Simon Peter, and Thomas called Didymus, and Nathanael of Cana in Galilee, and the sons of Zebedee, and two other of his disciples.

Simon Peter saith unto them, I go a fishing. They say unto him, We also go with thee. They went forth, and entered into a ship immediately; and that night they caught nothing.

But when the morning was now come, Jesus stood on the shore: but the disciples knew not that it was Jesus.

Then Jesus saith unto them, Children have ye any meat? They answed him, No.

And he said unto them, Cast the net on the right side of the ship, and ye shall find. They cast therefore, and now they were not able to draw it for the multitude of fishes . . .

As soon as they were come to land, they saw a fire of coals there, and fish laid thereon, and bread . . .

Jesus saith unto them, Come and dine. And none of the disciples durst ask him, Who are thou? knowing that it was the Lord.

Jesus them cometh, and taketh bread, and giveth them, and fish likewise.

This is now the third time that Jesus shewed himself to his disciples, after that he was risen from the dead.

So when they had dined, Jesus saith to Simon Peter, Simon, son of Jonas, lovest thou me more than these? He said unto him, Yea, Lord; thou knowest that I love thee. He said unto him, Feed my lambs.

He said to him again the second time, Simon, son of Jonas, lovest thou me? He saith unto him, Yea, Lord; thou knowest that I love thee. He said unto him, Feed my sheep.

He saith unto him the third time, Simon, son of Jonas, lovest thou me Peter was grieved because he said unto him the third time, Lovest thou me? And he said unto him, Lord, thou knowest all things; thou knowest that I love thee. Jesus saith unto him, Feed my sheep. (John 21: 2-6, 6, 9, 12-17.)

Agriculture Heading North

(Edmonton Journal)

The modern advice to "go north, young man, go north" is usually given to prospectors and those trained in such mining professions as geology and engineering, but it now looks as though it may fit market gardeners as well.

The North West Territories Council, miniature parliament of the north, is considering the disposition of no fewer than 22,000 acres of agricultural land which lies within 10 miles of Hay River, off the south shore of Great Slaves Lake. It may be made available for market gardening.

Col. F. C. Cunningham, deputy commissioner of the territories, informed the council that the land is very attractive. Three men, he said, had done very well on soil which was inferior to that under consideration.

It is not all rock down north, and, incidentally, Alberta's arable land, which stretches farther north than that of any province, reaches toward the Great Slave Lake farmland. The day will come when mining companies around the lake will get their garden truck in short order from both sources.

BIRTHDAY PRESENT

"After the quarrel she let him have the last word."

"That was unusual for her, wasn't it?"

"Yes, but I understand she wanted to give him a little surprise as it was his birthday."

Quite A Town You've Got Here, You Peterboro' People

By Annie and Alvah Squibb
(On George St. one day this week)

Yes, sir, Peterborough is quite a place.

And what we have seen of it during four trips to town from the lake since we arrived in Canada eight days ago, we like it.

I suppose you want to know how we picked on the Kawarthas in the first place. Well, a great many of our friends have been coming to a lodge at Crowe's Landing on Stony Lake for some seasons and we went along this year for the first time on their recommendations. It's just like home up there with all our friends and we are enjoying every minute of it. We plan to stay until July 18 and would not be very surprised if we came again next year.

There are five of us; our two selves and three boys, Robert, 21, Dick, 12, and Don, 8. We live in the steel town of McKeesport, Pa., a little larger than Peterborough, with a population of 55,000.

What do I do for a living? (Alvah). Guess.

A schoolteacher? You are close. I am a publisher of teachers' records and by doing business with them all the time, suppose I look like one, now.

CLEAN CITY

Our first general impression of your city was its cleanliness. The buildings look generally old but well kept up and your new City Hall is very attractive; it took our eye right away.

I had an idea before I came that Canada would be like visiting a foreign country (Annie). But it's just like home, and so are the people.

In the shops we find everyone so friendly. They act as though they wanted to sell us things, alright, and gave the impression that they are interested in selling, as a job. The prices here are generally higher than back home, except for woollens and china. A few places are charging us an exchange of two cents on the dollar. That is a bit inconvenient at times but fair enough.

I remember when the shoe was on the other foot on a trip to Niagara Falls a few years ago; we MADE ten per cent then. (Alvah).

PARKING CONVENIENT

One of your greatest conveniences in Peterborough is your central municipal parking lot. Puts you right into the centre of the shopping area instead of having the annoyance of finding curb-parking space.

We've probably come to town

ANNIE AND ALVAH SQUIBB

more often than we had planned on — you can't get the boys to come down with us—because we had outboard motor trouble. Blew a head gasket and the service shop worked overtime obligingly to fix it for us.

We brought our own boat and motor because we are members of an outboard club back home. We have our own clubhouse and so forth and have organized a regional outboard regatta to be held later this summer on the Monongahela River.

Frankly—and you can quote us on this one—we like the performance of these boats you build in Peterborough. They are more suitable to the Kawartha lakes than the job we own.

WONDERFUL LAKE

We think Stony Lake is wonderful, the lodge is very comfortable and the food excellent. In company with all our friends what better deal can you get?

We are not avid fishermen and can take it or leave it. These guys that get up at dawn and work at it all day take fishing too seriously. We fish when we feel like it.

And if you are going fishing, leave the women and kids at home. (Alvah).

We came up here loaded with fishing tackle but when someone in our gang caught a walleye the other day with a popper plug, all the fishermen had to buy one just like it right away. So, you see how your stores keep selling to us no matter how well we are equipped.

SEE YOU AGAIN

When our friends told us that the road from Lakefield to Crowe's Landing was gravel we didn't know what to expect. It is in good shape, however, and just this morning machinery was grading it and workmen were spreading calcium chloride.

Well, goodbye for now. May see you in church. We are planning to go to St. Peter's on the Rock, down Juniper Island way, if the lake doesn't get too rough.

In any case we'll look you up next year. You've got a great city and vacation area here and we'll be back, for sure.

"PETERBOROUGH'S GREATEST TOURIST ASSET is its central, ample parking lot."

"OLD GLORY at George and Charlotte Sts. corner is a friendly gesture that we appreciate."

"YOUR CITIZENS are interested in our fishing luck." (Carl Kelly, of Columbus, O., left, and Jack Welch). —(Examiner Staff Photos).

A·F·I·E·L·D with NICK NICKELS

It makes very little sense to go off half-cocked during the first week of all-out fishing in the Kawarthas to conclude what the general picture actually is. Now, with reports of almost two weeks before us it looks as though luck is generally satisfactory.

If all the fishermen afloat were catching near limits it would be a mad slaughter indeed. We are glad to report that such is not the case, but, there have been some nice fish landed lately which proves that luck is constant with other seasons.

When people ask these days "How's fishing", they mean, naturally, what of the 'lunge. All other species take a back seat after July 1 unless they are real whoppers.

Let us look to the 'lunge, then.

♣ ♣ ♣ ♣

The heaviest 'lunge battled and boated after one and one-half hours of play went to George Shupska of Geneva, O. He was fishing with his wife Ina in Sturgeon Lake about 200 yards off Bob Legana's Lakeview Lodge.

"It looks as though I took my time landing it," said George, "but after coming up here for the past nine years, I wasn't going to take a chance on losing it."

The next finest this season was landed by D. E. Brenneman of Orrville, O., a 24-pounder in the Trent River, four miles west of Hastings. It was the ninth muskie taken by Mr. Brenneman during the last nine years, and by far the largest.

Ronald Rector of Cleveland came a close third to the top men with a 22-pound fish taken at Bryson's Bay, Clear Lake. Unlike Brenneman, it was Rector's first 'lunge in 16 years of faithful trying.

Arthur Davis and son, both of Buffalo, took an 8 and 10 pounder at Kosh Lake and were only out one day.

Young Jimmy Shearer of Buckhorn landed a nice muskie of 8½ pounds from a wharf at Buckhorn village.

♣ ♣ ♣ ♣

JACKPOT

While watching a recent afternoon thunderstorm from their cottage on Salmon Island, Crowe's Landing, Bill Borland and son Reg, saw a thunderbolt with all the fireworks plunge into the water near their property. Reg was attracted to the water edge after the storm by gulls attacking something white and floating. He investigated by boat and found no less than five large stunned whitefish floating in the vicinity of the lightning strike. He took the fish aboard, naturally—the largest weighed 15 pounds—and found he had picked up more than 60 pounds of silver salvage. Another islander along the way picked three more.

♣ ♣ ♣ ♣

SNAFU (SITUATION NORMAL ALL FOULED UP)

Paul Wilson, 13, and Kay Franklin, same age, both of Cobourg, had fishing troubles at Rice Lake this week. Paul got a strike and the line burned out for several yards before he could brake it. At the crucial moment, just as the fish was being reeled in, the handle flipped off Paul's reel.

He held the pole in one hand while retrieving crank and somehow managed to get it back in place and secured with the lock nut. The fish, a 'lunge, was just about alongside when it made the customary tactic of lodging under the boat with such a deft movement that the line got twisted around the flywheel of the outboard. That was it. But Paul, not to be deprived of the critter, made two or three swipes with a gaff, gaffled the 'lunge and hauled it aboard. It was a keeper, too.

"The most exciting fifteen minutes I ever had in my life," said proud Paul. Right. How much trouble can a fellow get into trying to land one fish?

♣ ♣ ♣ ♣

SOME SYLVA-N SQUIBBS

(Some small filler material from that excellent monthly magazine SYLVA, published by the Department of Lands and Forests.)

'In a canoe, place yourself and your belongings in the bottom as closely centred as possible; never push off with your paddle from a slippery log, rock or dock timber; never change places away from shore; never stand up!'

'Next time—take the family fishing.'

'The average sportsman goes hunting and/or fishing about 27 times a year at a cost, roughly, of $29 each trip . . . '

'Forests produce wood. Work with wood produces wages. Canada's pulp and paper industries pay mill workers alone more than $75 millions annually. PREVENT FOREST FIRES.'

♣ ♣ ♣ ♣

THE OLD (FAMILIAR) LOOK

Made mental notes of the miscellany of familiar things around the living room walls of All Saints' Rest the other afternoon. They gather dust season after season, but woe betide the careless cottager who disturbs, or even questions, a single thing, such as:

LIBRARY SECTION: Five paper-backed novels (including "The Ruby Flame", gee!) . . . A dictionary . . . Instruction card for operating an oil stove, (never had one in the place) . . . 84 dog-eared copies of Reader's Digest.

ART WING: Panoramic photo of St. John's Church, Peterborough, (1910) . . . Four faded out-of-focus snapshots of people who built the cottage and whom we never knew . . . Gaudy lithograph of a cavalier and two cardinals drinking wine . . .

WHERE TIME STANDS STILL: A gingerbread kitchen clock that won't run flanked by . . . Two rat traps . . . Two tins of cockaroach powder . . . Two pints of canoe enamel . . . A pair of field glasses (only the right eyepiece works).

TOOL ROOM: Two pinch bars . . . A drawknife . . . A large wooden mallet . . . Three handsaws, a bucksaw and a key-hole saw (last used when the new convenience was built).

Your Garden:

How To Handle Poison Ivy

By HENRY PREE (NEA)

Fortunately, there are few garden plants that are poisonous and these are dangerous only if eaten. Few folks will believe that to nibble the foliage of the stately delphinium and foxglove would necessitate a call for a physician, or that the leaves of rhododendron and mountain laurel can be equally dangerous if taken internally.

COCKTAIL

A little whiskey to make it strong,
A little water to make it weak,
A little lemon to make it sour,
A little sugar to make it sweet.

Of the hundreds of native plants only poison ivy is poisonous by contact.

Poison ivy, botanically listed as rhus toxicodendron, is often mistaken for the harmless Virgina creeper, but the latter has five leaves while the poison ivy has only three, and they are noticeably shiny. The plants differ also in their fruit, the poison ivy having white berry-like fruits while those of the Virginia cree er are black.

Poison ivy is hard to kill and any chemical that will eradicate it will kill nearly everything near it. The surest method is to dig it out, keeping manfully at the job until all the roots—and they run far and wide—are in the fire.

Wear gloves and do not rub your face or bare parts of the body after you have touched the plant. Afterwards wash hands, arms, and face, thoroughly, in strong laundry soap, and to be on the safe side wash the gloves as well.

Some folks, and I am one of them, appear to be immune to the plant and can handle it without danger. Even so, the smart person will, after returning from the woods, use soap and water as a precaution. Alcohol or straight gasoline will dissolve the poisonous non-volatile oil which is secreted upon the leaves. Ethyl gasoline should not be used because it may result in lead poisoning.

Small patches of poison ivy may be killed by spraying now with 2, 4-D or ammonium sulfimate. Two or three applications at 10-day intervals may be necessary as it is difficult to cover all the foliage. Two, 4-D is sold under various trade names such as Weed-No-More, Weedone, etc., while ammonium sulfimate is listed as Ammate.

Dr. L. E. Warren of the United States Department of Agriculture, has chemically isolated the actual poison and has found it to be a resin-like substance related to carbolic acid. Since it is not at all volatile Dr. Warren believes that it cannot act through the air and one must come in direct contact with the vine or with tools, gloves or other materials which have been in contact with the foliage.

Learn to recognize poison ivy and you'll spare yourself much grief.

A related plant is the poison sumac, rhus vernix, growing only in swamp land. It is a tall shrub with reddish twigs, 7 to 13 leaflets and white fruitlets resembling those of poison ivy. Do not confuse this sumac with the non-poisonous native staghorn and smooth sumacs so common to the fields and neglected suburban lots. These sumacs are taller growing and the leaflets more numerous.

GARDENING QUESTIONS

Q.—What can we do to keep rabbits away from our vegetable garden?

A.—The best protection is a well staked 20-24 inch high chicken wire fence fastened tight to the ground; an inch or two into the soil to prevent burrowing. Rabbits dislike greens dusted with sulfur or sprayed with a Black Leaf 40 solution. However, these repellents wash off in a rain and must be applied again and again.

Q.—Is it too late to sow sunflower seed? We want the plants both as a screen and to provide feed for the birds next winter.

A.—Seed sown as late as early July will produce a good crop of ripe seeds by mid-autumn.

Q.—Should pea seed be treated with an inoculum before sowing?

A.—Yes, with one of the inoculants made especially for sweet and garden peas. Treatment stimulates the ability of the plants to obtain nitrogen from the air.

Q.—Will Coleus plants thrive in a shady location?

A.—Yes, but much of the color will be lost from the leaves, so grow them in a sunny situation for best results.

GRANT'S SPORT CORNER

By DON GRANT

Water skiing in the Kawarthas this year has increased in interest to the point where it's now a favorite summer pastime.

Through film, newspaper and magazine water skiing has received considerable publicity in picture and story. These mostly originate in Florida, other southern states and Mexico. All this has aroused public interest among young and old in the district.

For several years now Norma Gordon and Gus McIntosh of Bobcaygeon have brought honors back from various championship meets. They seemed to be the district's only water skiers.

But slowly during the last few years the young folk of the Kawarthas have gradually taken up the sport. Now on Chemong, Stoney, and Clear lakes water skiers are a common sight.

MAKE PLANS FOR ONTARIO CHAMPIONSHIPS

Sportsman Alf Pink stepped into the water ski picture early this year when he announced that he was endeavoring to have the Ontario championships staged in Peterborough's Little Lake.

Like in other sports, the water skiers quickly stepped forward, grouped together and after several organization meetings formed the Peterborough Water Ski Association. Mrs. Gordon, Terry Hill, Doug Laird and Alf were the king-pins which kept the ball rolling.

Finally Terry Hill was elected club president, assisted by Mrs. Gordon as vice-president, Doug Laird as secretary-treasurer, Alf as managing director, Bill Thompson as membership chairman, and Herb Knox as barge director. Quickly the district's skiers signed memberships.

The membership, according to Terry, is "as good as we want it until we get money." That's a sticker in all sports, Terry, my boy.

COSTS GOOD DEAL OF MONEY TO WATER SKI

Water skiing takes a good deal of money for skis, boat and a speedy motor. At present the club has the boat but they've had

ALONG A WATER SKI WHARF

to borrow outboards. You can't water ski without a motor, but that's a club project.

Terry said it was surprising how water skiing has caught on this summer, explaining "We could have a hundred members." A few who have donned skiis with the club are Len Pulver, Jack Franks, Stephenie Stewart, Doreen Patton, Barb Jones, Trevor Mitchell, Gus O'Brien, Barb Tiffen and Flinda Simmons.

The skiers work out at Chemong where Dalt Kee has been generous in lending the boys and girls the use of his wharves.

Water skiing requires sense of balance. Therefore oddly enough the first step in learning to ski is aken on land. From a sitting position the beginner learns to pull self up, getting the feel of the rope.

Once that step is accomplished they learn to stand up straight while skimming across the water and to hold arms extended in front in order to keep the tow rope taut. They criss-cross back and forth in the wake of the boat to get the feel of turning.

After about three weeks skiers pretty well have managed the balance problem. But they'll get many duckings.

SLALOM ONE OF MOST BEAUTIFUL EVENTS

One of the most beautiful water ski events is the slalom, very similar to the snow ski event. They also zip along backwards, skip along on one ski both forward and backward, and then use smaller four-foot skiis for circular feats.

Jumping is a favorite with those who like a little danger attached to their skiing. They take off from jumps varying from two to eight feet high at speeds up to 35 miles an hour.

Bob Cozens of Cyprus Gardens holds the world's record jump at 68 feet. This week Barbara Ann Duthie of Toronto broke the world's girls' record, making it 35 feet which is an average man's jump.

The skiers also do jumping tricks. Often two or three go over jumps while other skiers criss-cross under them. That takes perfect timing.

On August 3 Doug Laird, Gus O'Brien and possibly Bill Thompson will compete in the Eastern Canadian championships in Orillia. Later at the CNE Terry Hill and Doug will compete in the Canadian Closed championship, now held by Charlie Blackwell.

Of course the big meet as far as Peterborough is concerned is the Ontario championship for men, women, boys and girls, at Little Lake on August 8 and 9. Carol Ann Duthie, holder of North American, Canadian and Mexican titles; Joan Flydel, Canadian women's champion; Bruce Poole, North American and Canadian junior champion, and Bobcaygeon's own Gus McIntosh, one of Canada's best skiers, will take part.

SLIGHTLY AMUSED, Coach Bob Thorpe (centre) listens to Red and Gary Robinson (left and right) while they whisper their secret which helped them hit a rapid pace along with Grant Burns Friday night during the Trailermen-Mounties lacrosse game. Gary Robinson scored five goals as the Trailermen won 34-4. Pop Chard, Mountie star, attacked referee Lou Vipond (lower left photo) while he was attempting to stop a fight between Nip O'Hearn and Stan Kapasky. Fellow refree Piper Bain (lower right photo) was helping Vipond restrain Kapasky when Chard launched his attack. —(Examiner Staff Photos).

Local Pats Bow By 12 To 8 To Green Gaels

OAKVILLE (Special) — The Oakville Green Gaels yanked out a 12-8 OLA junior "A" victory over Peterborough Pats here last night in a classy contest. Play was speedy and quite even nearly all the way, the winners drawing three of the five minor penalties. Oakville lead 2-1 in the first period, 6-4 halfway through and 9-6 going into the tight fourth stanza. Pats were crowding the winners hard in the late stages.

Dennis McIntosh shone for the Gaels with five goals, Don Bruce getting two, with singles notched by Bernie Abrams, Clarke Pulford, Lornie Riel, Harry Eatough and Bill Davenport. For the Pats, Frank Farley was a standout on the attack with three neat markers, the other goals being by Tiny Hunt, Jerry O'Reilly, Willie Logan, Gary Smith and Bud McDougall. Both goalies were good. Teams:

Pats: Goal, Hill; defence, Brioux and Bloom; centre, Allen; wings, Hunt and Hobart; rover, O'Reilly; alternates, Logan, Smith, Ward, McDougall, Thomas and Farley.

Gaels: Goal, Green; defence, Hanna and Abrams; centre, Bruce; wings, Pulford and Stewart; rover, Petroff; alternates, Owen, McIntosh, Riel, Eatough, Castator, McCormick and Davenport.

(Peterborough note: Pats will practise at 10:30 a.m. on July 12.)

Ocean Yachts Ready For Race

HALIFAX (CP)—Canvas taut against spindly masts, 13 ocean greyhounds will cut through Atlantic seas next Wednesday in the fifth running of the New England-to-Halifax ocean yacht race.

Ten United States yachts and three Canadian will compete in the 360-mile biennial classic, Eastern Canada's only race for deep-sea yachtsmen this year.

The race begins at Newcombe Ledge buoy off Manchester, N. H., and ends in front of the Royal Nova Scotia Yacht Squadron's club house in Halifax harbor.

Protestant chaplain George (Lea) Gillard of the Royal Canadian Navy here, who has been sailing wind-pushed craft for more than 25 years, commands the yacht considered here to be a top contender, the 50-metre sloop Grilse.

International League Will Have 7 Teams

TOLEDO, O. (AP)—The International Hockey League will operate with seven teams next season. Milwaukee's franchise was revoked for a year Friday by IHL governors.

Fred A. Huber, league secretary-treasurer, said: "It is physically impossible for Milwaukee to operate on the dates offered by the Milwaukee Arena."

A committee will be appointed to investigate the possibility of re-application in the 1954-55 season.

Marion, O., and Louisville, Ky., were formally approved as new IHL members. Holdover members are Toledo, O., Grand Rapids, Ft. Wayne, Troy, O., and Cincinnati.

The league agreed to a 60-game schedule for each team. The season begins Oct. 14 and ends March 14.

Sacred Heart Wins

Sacred Heart beat Immaculate Conception by a 15-10 score in the Catholic Softball League. They counted 10 runs in a wild first inning, adding two next time up and one each in the fourth, fifth and seventh innings. The losers got two at first, five in the third, and one apiece in the fourth, fifth and sixth heats. Teams:

Sacred Heart: H. Killen, Hayes, O'Brien, Doherty, Hickson, McDougall, Caravaggie, Deck, G. Killen.

I.C.: Donoghue, Jordan, Bacon, Guerin, Plumpton, Sullivan, Conway, Fitzgerald, Moher.

Ulrich Canadian Open Favorite

By JACK SULLIVAN
Canadian Press Staff Writer

TORONTO (CP)—Wally Ulrich, a big, good - natured guy whose golf winnings the last few years were barely enough to provide for his wife and four-year-old son, today was set to wrap up his first big-time tournament.

The 29-year-old native of Austin, Minn., led a 64-man field into the final 18 of the 72-hole medal-play Canadian open championship with a 10-under-par 203, two up on his closest competitors, big Dutch Harrison of Ardmore, Okla., and dark-haired Marty Furgol of Lemont, Ill.

Another stroke back was Pat Fletcher of Saskatoon, on the mend from a dose of stomach flu that hit him Thursday. Fletcher put together a 36-33—69 to lead the Canadian professionals by a wide margin. Tied with Fletcher at 206 was the terrible-tempered Tommy Bolt of Houston, Tex., two twice threw his putter to the ground on a round of 69.

SET FOR CUP

But unless the crew-cut Ulrich departs from his par - smashing rounds so far in the $15,000 tournament, he is called to mount the rostrum tonight to accept the $3,000 first-prize money and the Seagram Gold Cup. That would be just a trifle more than half his earnings since he returned from a 14-month layoff after a wrist operation in 1951.

Ulrich toured the 6,607-yard layout with all the nonchalance of a week-end golfer, kidding and talking with the big gallery and wasting little time lining up his shots. He posted four birdies, two on each nine, and never went over par for a 67.

The 67 was beaten only by Harrison, 1349 Open winner, who carded a five-under-par 66. Furgol matched Ulrich's score.

Ulrich started the day in a four-way tie with Gardner Dickinson of Panama City, Fla., dark horse of the tournament; Ted Kroll of Utica, N.Y., and Leo Biagetti of Baltimore. Dickinson, who has posted a 66 and a 70, hit par-71 on Friday and Kroll, playing with Ulrich, fell apart with bogeys on the back nine for a 73. Biagetti also went two over par after a second-round 69.

Bolt almost scored an ace on the 125-yard par-three 11th hole. His tee shot hit the pin on the first bounce but the backspin pulled it about 30 inches and he went down for a birdie-two.

Low amateur honors belong to Toronto's Phil Farley with 214. The black - haired Torontonian scored his first under-par round Friday, a 69.

Ulrich played only one bad shot —his drive on the 18th when he deliberately hooked to avoid the gallery swarming over a fairway hill.

He was left with a tough approach shot, but used a No. 5 iron and dropped the ball nine feet from the pin. His putt was three inches short and he took a par four.

ONE DISCORDANT NOTE

There was one discordant note to Friday's round—disqualification for Rudy Horvath of Windsor, Ont. —and it still was a piece of conversation today.

Horvath's Ball landed in casual water when he was playing the second hole. He picked up the ball and was content to take a two-stroke penalty before officials were called to make a ruling.

Horvath claimed that one official told him there was no penalty on the lie and that another disqualified him. "I'm so confused about the whole thing I don't know what it is all about," Horvath said after he continued play and carded a 72 for a 54-hole total of 216.

Bill's Place Victors

Bill's Lunch beat Seabrooke by 5-2 in a Civic Softball League encounter last evening. They scored a run each in the first, second and fourth frames, and two more to wrap it up in the eighth. The losers got a run in the first and one more next time to bat. Six of the losers went down on strikes and four of the winners fanned. Teams:

Seabrooke — Russelle, Conroy, Humphries, Galley, Harris, Harrison, Black, Brennan, Williams.

Bill's — Bradley, Pagett, Brierly, Evans, Smith, Hewie, Elliott, Staves, Sanderson.

Umpire—Olmstead.

MINER MARTIN—It looks like Billy Martin is wearing a miner's cap, but the light is only the ball the Yankees' second baseman has thrown to first after a force-out at the Stadium.

Lincoln Trophy Captured By Local Ladies

With pairs entered from Cannington, Lindsay, Belleville, Cobourg, Port Hope and Peterborough, the ladies of the Peterborough Lawn Bowling Club held their annual open doubles tournament for the Lincoln Trophy on Friday. Play began shortly after 10 a.m. and the tournament was all over before six o'clock, and once again the weatherman was kind to the ladies; the weather was just perfect.

The honor of winning the Lincoln Trophy went to Mrs. J. Cullen and Mrs. W. Hepburn of the local club, with another local pair —Mrs. W. McCreery and Mrs. T. Oliver, runners-up.

It was another good tournament sponsored by the ladies' club and the attendance was quite gratifying. All pairs played the usual 14-end games.

Refreshments were served by the Peterborough ladies between the second and third games.

THE COMMITTEE

The committee in charge of the tournament was Mrs. N. Killingbeck, Mrs. H. Wilson, Mrs. L. Bearne and Mrs. J. Knights.

Tonight is the popular Family Hour mixed rink tournament at 7.30 o'clock.

WINNERS

First—Peterborough: Mrs. J. Cullen and Mrs. W. Hepburn, Lincoln Trophy.

Second—Peterborough: Mrs. W. McCreery and Mrs. T. Oliver.

Third—Peterborough: Mrs. H. Darling and Mrs. H. Beatty.

Fourth—Peterborough: Mrs. R. Dyer and Mrs. C. Renaud.

Fifth—Port Hope: Mrs. G. Rutter and Mrs. W. R. MacTaggart.

Sixth—Lindsay: Miss E. Cuthbert and Mrs. E. Graham.

Seventh — Peterborough: Mrs. G. Gimblett and Mrs. W. Whitty.

St. Catharines Edges Fergus

By THE CANADIAN PRESS

There's good reason why St. Catharines Athletics are in first place in the Senior Ontario Lacrosse Association.

One of them is the A's ability to fight back from a two-period deficit. Friday night the Athletics came from behind to lead Fergus 6-3 in the third period and whipped the Thistles 12-10.

Alan Frick, with four goals, headed the St. Catharines scoring parade. Teammates Don Frick and Ham Nelson netted two apiece. For the Thistles, Don Campbell and Bob Dobbie with two each were the top marksmen.

Kawartha Wins Out In Tennis Matches

Kawartha defeated Port Hope in the Kawartha Tennis League this week by 5-2. The visitors won the first men's doubles and the second mixed doubles. Peter Lewis and George Sneyd won the men's from Ron Lye and Ted Mercer by 1-6, 6-1 and 6-2. D. Jennings and Ted Fulford won their mixed over Jim Thicke and D. Hunter 6-2 and 6-4.

The other matches were wins for Kawartha. Dorothy Sullivan downed Mary Douglas in ladies' singles 6-2 and 6-4; Wally Elmsley won the men's from G. Plummer 6-0, 6-3; M. Charlton and J. Collins took the first ladies' doubles over Doris Sneyd and Irene Knight by 6-2 and 7-5; W. Brown and John Foster got the second men's doubles from D. Plummer and G. Poulin, 6-4 6-1; and Joan Lye and F. Hunter captured the first mixed doubles from Tom Moffatt and E. Martin by scores of 6-2 and 7-5.

Yesterday's Stars

By THE ASSOCIATED PRESS

Pitching: Bobby Feller, Cleveland Indians, pitched the 42nd shutout of his career—tops in the majors—over Chicago 3-0 in 10 innings.

Batting: Dale Mitchell, Cleveland Indians, ran his hitting streak to 21 games, only seven short of the all-time Cleveland record, with safeties in both halves of a doubleheader against Chicago.

Petes Maul The Mounties In Weird OLA Fixture And Even Ref Gets Beating

An attack by Mimico star Pop Chard on referee Lou Vipond, two rough fights, a wild scoring spree by the Peterborough Trailermen which saw three goals scored in 10 seconds, an attempt to score by Lloyd (Moon) Wootton, and an injury to rookie star Roger Smith, combined to form the season's most weird lacrosse game Friday night. Practically all this action, except the goals, went on in a wild fourth quarter which ended with Bob Thorpe's Trailermen trampling the Mimico Mounties 34-4.

With three minutes nearly passed in the fourth period Nip O'Hearn grab-checked Stan Kapasky in Trailermen territory. Kapasky slashed the stickless O'Hearn and the fight was on. They tore into each other.

Players from both teams as well as Referees Lou Vipond and Piper Bain, finally separated the two. Bain and Vipond held Kapasky back, virtually pushing him away.

Then suddenly Mimico's Pop Chard went beserk, directly in front of the penalty box. He slashed with his stick at Referee Vipond, then went at him with his fists. After a minute Chard was pulled away by Bob Thorpe and Ike Hildebrand. They released him as he seemed to become quiet again.

ATTACKED AGAIN

Then just as quick as his first attack, Chard charged again at Vipond. This time he caught the referee with four straight lefts to the face, making Vipond's nose bleed slightly.

Vipond, realizing his position of referee, didn't retaliate but both times seemed content to attempt to hold Chard off until help arrived.

Chard was immediately given a match misconduct for charging Vipond. He was followed out of the game by O'Hearn and Kapasky who were also given match misconducts for continuous fighting.

After the game Lou Vipond said a complete report on the fight, especially the charge by Chard, would be submitted to the OLA. This could quite probably mean a suspension for the remainder of this year for Mimico's top scorer.

This fight completely overshadowed another fight early in the first period when Roger Smith and Don Meek clashed, fist to fist, in the Mimico goal area. They both received major (five-minute) penalties.

MUCH TOO GOOD

As far as lacrosse was concerned, the experienced Trailermen walked through the youthful, short-handed Mounties from the opening whistle. The Trailermen took about 85 per cent of the face-offs and grabbed an equal number of loose balls to easily control the play and score at will.

Curly Mason and Rusty Slater continually hounded the defenceless Mimico goalie, Tomchishen, throughout the game. He led the scoring between them, but all the Trailermen with the exception of Moon Wootton had scoring points.

Even then the Trailermen attempted to put Moon in the scoring column. Three times in the fourth period they drew Wootton out of his nets, up the field and there tried to place him in scoring position.

In the last minute with Wootton far up the field, Mimico scored a break-away goal on Lou Nickle who substituted for the Moon. But Vipond laughingly called that goal back, ruling that Mimico had about 10 players on the field.

SET A RECORD

Mason, Slater and Ross Powless probably set a senior lacrosse record in the first period when they scored three goals in 10 seconds. Later in the game Red Robinson, Mason and Smith whipped in another three in 17 seconds.

The line which caught the 1,500 fans' attention was the kid line, featuring Grant Burns and the Robinson brothers, Gary and Red. Very fast, these players along with Lou Nickle and Bob Thorpe, kept moving in on Mimico, enabling Gary to score five goals, his first three being scored in succession during the second in one minute and 15 seconds.

Late in the fourth Rapid Roger, the league's top rookie, received a broken nose when checking Jim McNeil. He was taken to St. Joseph's Hospital for X-rays, then permitted to leave. He'll probably be treated sometime today.

Lineups:

Mimico: Goal, Tomchishen; defence, McNeil, Lubbock; centre, McIntyre; wings, Chard, Kapasky; alternates, Harte, Kelly, Earle, Meek.

Peterborough: Goal, Wootton; defence, Fitzgerald; rover, Powless; centre, Mason; wings, Slater, Smith; alternates, Nickle, O'Hearn, Thorpe, Vitarelli, Ashbee, Hildebrande, Burns, G. Robinson, R. Robinson.

Referees—Piper Bain and Lou Vipond.

Summary:

First Period

Petes—Powless	2:41
Petes—Ashbee (Hildebrand)	4:37
Petes—Mason (Slater)	11:35
Petes—Slater (Mason)	11:41
Petes—Powless (Slater)	11:45
Petes—Hildebrand (O'Hearn)	13:47
Petes—O'Hearn (Ashbee)	14:27

Penalties—Slater, Chard, Smith (M), Meek (M).

Second Period

Petes—Mason (Powless, Fitzgerald)	2:00
Petes—G. Robinson (Nickle)	2:17
Petes—G. Robinson (Thorpe)	2:52
Petes—G. Robinson	3:42
Mimico—Harte	4:51
Mimico—Harte (Meek)	6:39
Petes—Smith	7:17
Petes—Powless (Slater)	7:50
Petes—Slater (Fitzgerald)	8:42
Petes—Burns (R. Robinson, G. Robinson)	10:36
Petes—Nickle	13:33
Petes—Ashbee	14:11

Penalty—R. Robinson.

Third Period

Petes—Mason (Slater)	1:17
Petes—Slater (Smith)	1:59
Mimico—McNeil	2:52
Petes—Ashbee	3:37
Petes—Hildebrand	6:11
Petes—G. Robinson (R. Robinson)	6:36
Petes—G. Robinson (R. Robinson, Nickle)	7:31
Mimico—Meek (Kapasky)	7:57
Petes—Powless (Mason)	9:31
Petes—Hildebrand (O'Hearn, Thorpe)	10:48
Petes—Thorpe (Vitarelli, Ashbee)	10:55
Petes—R. Robinson (Mason)	12:27
Petes—Mason (R. Robinson)	12:41
Petes—Smith (Thorpe, Slater)	13:45
Petes—Slater (Thorpe)	13:43
Petes—Slater	13:55

Penalty—O'Hearn.

Fourth Period

Petes—Vitarelli	3:10
Petes—Mason (Slater)	4:10
Petes—Vitarelli	11:00

Penalties—O'Hearn, Kapasky and Chard, all match misconducts.

Marines Victorious

Marines trimmed Curve Lake 14-6 on the latter's grounds in a fastball fixture this week. They tallied four markers in the second stanza, adding one each in the third and fifth, with two in the fourth and six more to clinch it in the seventh. The Indians notched one in first and four more in the third. Teams:

Marines: Gordonier, 1b; Fennell, cf; Blakely, rf; Downer, p; Corrigan, 3b; Morgan, 2b; Mongraw, c; Broadhurst, ss; Dodds, lf.

Curve Lake: Coppaway, 3b; H. Taylor, 1b; N. Jacobs, rf; J. Taylor, 2b; Irons, c; J. Jacobs, lf; A. Taylor, ss; Knott, cf; S. Taylor, p.

Umpires—Richardson and Montgomery.

Buffalo Takes Twin Bill, Leads League

By THE CANADIAN PRESS

Buffalo's done it again.

Montreal Royals, only recently back atop the International Baseball league after being bounced by the Bisons, have dropped to second place by two percentage points.

Sharp pitching by Earl Harrist and Paul Foytack Friday night enabled Buffalo to win a doubleheader from fourth-place Baltimore Orioles, 1-0 and 5-1.

The Montrealers lost 1-0 to Ottawa Athletics, when Bob Trice scored Ottawa's lone run to break an eight-inning pitching duel between him and Gilbert Mills.

In other games, Manager Harry Walker's 10th-inning pinch single drove in the winning run as the third-place Rochester Red Wings edged Syracuse Chiefs 6-5 and Springfield Cubs downed Toronto Maple Leafs 8-5.

Harrist hurled a three-hitter in the opener at Baltimore and Foytack gave up only four in the afterpiece. The lone run off his delivery was a ninth-inning homer by Archie Wilson.

At Ottawa, Skeeter Kell connected for a single to left field, scoring Trice who had singled earlier and advanced to second on a sacrifice by Gerry Scala.

Johnny Blatnik hit two homers in Syracuse, his eighth and ninth, to help the Chiefs overcome an early 4-0 Rochester lead. But the Wings went on to win. Jack Griffore, who relieved starter Art Dyck in the first inning, allowed 12 of the Wings' 16 hits.

In winning at home, the Cubs lengthened their own winning streak to three and the Leafs' losing streak to five.

A five-run rally in the eighth brought the Cubs from behind to give reliefer Gene Tarabilda his fourth victory against as many defeats. Starter Don Elston was knocked out of the box by the Leafs in the third.

Giants Mop Up Dodgers 6-1 On Home Grounds

By BEN PHLEGAR, Associated Press Sports Writer

New York Giants, who floundered in the second division the first half of the season, suddenly have invited themselves into the National League pennant race with a seven-game winning streak. Starting with their 20-6 rout of Brooklyn Dodgers last Sunday, the New Yorkers have gained such momentum during the week that they may roll into fourth place before the All-Star game vacation which begins after Sunday's games.

Friday night they invaded Brooklyn and mopped up on the Dodgers on their home grounds. They trail the first-place Bums by 6½ games and meet them again today and Sunday.

COSTS BROOKS GAME

Sal (the Barber) Maglie, who specializes in tormenting the Dodgers, gave them just six hits Friday night in a 6-1 triumph. But the Dodgers extended their home-run-hitting streak to 24 games—one short of the major league record—when Roy Campanella hit one in the second inning.

The loss cost Brooklyn a full game of its slender first-place lead over Milwaukee Braves who whipped third-place St. Louis 5-2. Despite six errors Philadelphia Phillies clung to fourth place with a 13-3 decision over Pittsburgh.

Going into today's games the Dodgers hold a two-game edge over the Braves, 3½ over the Cardinals and 5½ over Philadelphia.

Crafty Ken Raffensberger hurled his 31st major league shutout to give Cincinnati a 6-0 victory over Chicago in the front half of a twi-light-night twin bill but a three-run homer by Ralph Kiner helped the Cubs win the nightcap 4-3.

In the American League the leading New York Yaknees gained a half-game on their nearest rivals, Chicago White Sox and Cleveland Indians, who split a doubleheader. The Yankees defeated Washington 6-1. Cleveland beat Chicago 3-0 in 10 innings on Bobby Feller's first shutout in two seasons and the 42nd of his career. The White Sox scored 10 runs in the seventh inning of the second game and won it easily 16-5. Boston outlasted Philadelphia 3-2 in 12 innings and St. Louis Browns, who haven't lost to the Tigers in Detroit this year, beat them again 8-4.

YANKS LEADING

The Yanks now lead by 5½.

Warren Spahn posted his 11th victory of the season against only three losses at the expense of the Cardinals who were all set to grab second place from the supposedly faltering Braves. Eddie Mathews hit his 26th home run for Milwaukee.

Feller bested Billy Pierce in the first game at Chicago although Pierce had a no hitter for seven innings. Luke Easter and Al Rosen drove in the three Cleveland runs in the top of the 10th. The 10-run seventh inning in the second game featured Minnie Minoso's three-run home and three Cleveland errors.

Dale Mitchell of the Indians ran his hitting streak to 21 games with safeties in both halves of the doubleheader.

The Yankees suddenly found their extra-base range against their old teammate Bob Porterfield who gave up home runs to Irv Noren, Don Bollweg and Yogi Berra.

Cricket Test Match Rained Out In U.K.

MANCHESTER, England (Reuters)—The second day of the season's third cricket test match between England and Australia was rained out Friday.

The teams were able to play for only 90 minutes, but two Australian batters worked fast and brilliantly to take the Aussies' first innings score to 221 for three wickets.

Before heavy rains flooded the wicket after lunch Neil Harvey and Graeme Hole ticked off 70 runs without being parted.

Harvey passed his second century against England, and Hole reached his highest score in test cricket, 66.

BASEBALLET—Dusty Boggess makes like a ballet master calling out Richie Ashburn of the Phillies, forced at second by the Giants' Daryl Spencer, who fielded Granny Hamner's grounder. The shortstop throws to first base for a double play. Back of him is Davey Williams.

Christian In Daily Life

BY WILLIAM E. GILROY, D. D.

Saint Paul's Epistle to the Romans is probably, for the average reader, the most difficult of all Paul's Epistles. Peter II Peter 3:16) is reported as saying that "Brother Paul" wrote some things hard to be understood."

This might be thought of concerning the long-sustained arguments and expositions in which Paul sought to interpret, particularly for Jews like himself, the new Christian facts and Christian faith in relation to Old Testament religion. Or, perhaps, one should say Old Testament religion in terms of new Christian facts and faith.

I think it would help greatly in an understanding of Romans if we could grasp what an eminent commentator has pointed out. "In a sense, the importance of the Epistle lies rather in its religious power than in its theological ideas." I should say that to a great extent that is true. The Epistle to the Romans has been treated largely as a source of theology. And so, men have argued bitterly over matters of interpretation.

But too often they have missed its deepest message. Inasmuch as Paul writes of God, his theology is there. But it is a theology of God in Christ, of Jesus as the revealer of the richness and fulness of God's grace. Many who read the Epistle miss altogether the fact of God's grace.

Take the matter of sacrifice for sin. That idea of sacrificing was deeply embedded in Old Testament religion, typified originally in the notion that sin could not be forgiven without someone suffering for it.

Paul says that Christ Himself is the sacrifice: and not as a victim, or apart from God the Father. His [illegible] clear and plain though its best expression is in II Corinthians 5:19, "That God was in Christ reconciling the World unto Himself, not imputing their trespasses unto them."

I think it makes a great deal of difference whether we grasp this conception of the essential meaning of the Gospel and the Cross. It brought great clarity and comfort to me in my religious thought many years ago.

When I was a candidate for ordination in the old Broadview Avenue Church, in Toronto, an older minister, deeply imbued with legalistic notions, asked me in what respect I regarded the death of Jesus as a satisfaction of God's justice. I replied that it was a satisfaction of God's justice insofar as it needed to be satisfied.

Though the brother himself seemed satisfied, it was, I admit, a non-committal and somewhat evasive answer.

But as for myself, now as then, I believe that in His life, His death His resurrection, and in every respect, it was the mission of Christ to reveal the everlasting love and free grace of God. That, I also believe, is Paul's greatest message.

Mother With Polio Writes With 1 Finger

TORONTO (CP) — A polio-stricken mother started writing a letter with one finger Friday.

Mrs. Donna France of Kingsville, 24 miles southeast of Windsor, got her first lesson on an electric typewriter from Canadian typing champion Irma Wright.

Mrs. France has been in hospital since she was stricken with polio in 1950. She can hardly move more than one finger. Her arms and legs are paralyzed.

The typewriter is on a special stand and she now can tap out letters to her two children, Ronnie, 12 and Sherry, 6, who live with their grandmother in Windsor.

New Zealand Flood Menaces Farm Area

AUCKLAND, N.Z. (CP)—After a week of struggle against ever-rising floods, New Zealand's richest farming area in the Waikato river basin is in a grave plight which is becoming worse by the hour. The river, largest in New Zealand, is in its highest flood for 46 years.

Days of torrential rain have made the situation desperate and more heavy rain is predicted.

The government has declared the district a disaster area. The army swung into action Friday, rescuing scores of families fighting a losing battle to save their homes.

Thousands of farm animals have been drowned. Farmers who have been able to herd stock to the safety of the hills row face the danger of losing them from starvation.

Warkworth News

Mr. and Mrs. George Helson of Virgil are spending the summer holidays at their home in the village.

Miss Geraldine Page of New York, N.Y., is visiting her parents, Mr. and Mrs. Arthur Page.

Mr. and Mrs. Jack Orr have returned to Toronto after spending a few days at their home here.

Mr. and Mrs. Gordon Fowler and son of Campbell's Bay visited his mother Mrs. C. Fowler this week.

Mr. and Mrs. Gerald Pratt of Iroquois Falls are holidaying with their parents, Mr. and Mrs. Ed. Pratt and Mr. and Mrs. Hayden Atkinson.

Mr. and Mrs. Cecil Brenton and family have returned to Toronto after visiting his father Mr. Clarence Brenton.

Mr. and Mrs. Alan Buchanan attended the Arkles-Bemister wedding in Montreal on Wednesday.

Mr. J. D. Kelly of Toronto is spending a month with his niece and nephew, Mr. and Mrs. William Potter and renewing old friendships.

Mr. and Mrs. David Evans and Mr. and Mrs. Don Thompson, Edwar dand Margaret spent a few days at Huntsville with Mr. and Mrs. John Isaac at their cottage.

Short-Lived Walkout

OSHAWA (CP)—Some 500 workers staged a surprise walkout at the Duplate Company plant here Friday and crippled production at the General Motors feeder plant for nearly two hours. The men were reported to have walked off the job in protest against a breach of grievance procedure. J. Reid, plant manager, said the walkout was unexpected, but claimed the matter was settled and normal production resumed.

Baptist Picnic Held At Chard's Bridge

HAVELOCK (ENS)—The annual Sunday School picnic of the Fellowship Baptist Church was held on Wednesday at Chard's Bridge with an attendance of 65. A noteworthy feature was the presence of three sets of twins, Doris and Doreen Curry, Donna and Donald Watson and Cathy and Carol Newton. Among the visitors were Mr. and Mrs. J. Everett of Mimico.

Dinner and supper were served.

Swimming was enjoyed prior to dinner and during the afternoon a program of sports was provided with the Rev. L. V. Bigelow in charge. There were races for the different age groups, novelty races and a honeymoon race. Two prizes were awarded for each race with all the children who participated being given a chocolate bar. Other treats provided for the children included ice cream, freshie drinks and popcorn.

28-Pound Muskie Caught In Trent

TRENT RIVER (ENS)—Clayton Revoir, of Trent River, accompanied by Joe Walsh, of Toronto, was successful in landing a 28½ pound muskie 46 inches long while trolling in the Trent River near Steam Mill Island.

It took the pair about 20 minutes to land the big fish. A silver minnow bait was used.

Matt Kidd and George Hall, of Shinnston, W. Virginia, who are registered at the Sedgwick House, report large catches of black and green bass, pickerel and a muskie weighing 12 pounds.

These fish were all caught in the vicinity of Mud Lake.

Warkworth Students Pass Piano Exams

WARKWORTH (ENS). — The following pupils of Miss Myrtle Hardy, ATCM, LCCM, were successful in their recent piano and theory examinations of the Royal Conservatory of Music:

PIANO

Grade 10—Lois Fowler.

Grade 8—Marlene Wartman (first class hon.), Garth Allen (hon.), Harriett Houlihan, Mary Massey, Ida Honey.

Grade 7—Marilyn Ellis (hon.), Grade 6—Elizabeth Knox (hon.)

THEORY

Grade 5—Counterpoint, Audrey Doidge.

Grade 3—Marie Campbell; harmony, first class hon.), history (hon.).

Grade 3 — Edward Thompson, harmony (hon.), history (hon.).

Pupils of Mrs. Tom Doidge, in the recent Royal Conservatory piano examinations were:

Vivian Bull, first class honors in Grade 2.

Would Treat Arsonist

KITCHENER (CP) — Psychiatric treatment was recommended for a man convicted here Friday on charges of arson and creating a public mischief. After sentencing Laverne Ouilette, 21, of Kitchener to 12 months definite and eight months indefinite, Judge Harold D. Lang suggested the accused be given mental treatment. Police said Ouillette set fire to a rooming house. Damage to the house was light.

Trent River Regatta Set For August 3

TRENT RIVER (ENS). — The Community Club is planning to hold the annual regatta at Blister Point government grounds on Monday, August 3. There will be the usual water events with $100 for prizes in the speed boat events.

Frank McLaughlin has been appointed to look after the advertising.

The evening event will be a bingo, which will be held on the club grounds. In case of rain, it will be held in the Community Hall.

Main Street Topics

TO ADDRESS ROTARY

Dr. Donald Graham of Toronto, director of the Canadian Arthritis and Rheumatism Society will be the guest speaker at the Rotary Club luncheon on Monday.

ASK FOR SEWER

A sewer to link up with Queen Elizabeth School has been requested from City Council by the Board of Education. Queen Elizabeth was previously in Smith township but was in the area that was annexed Jan. 1.

PRINCIPALS' ASSISTANT

Mrs. Ellsworth Ingall has been appointed by the Board of Education to assist the principal for two half days a week at King George School and another two half days at Armour Heights School. J. Clair Crown is principal's assistant at five schools.

RADIO TRANSFORMER BURNS

A radio transformer at the home of E. A. Silverton, 277 Armour Rd., became heated Friday afternoon and the smoking apparatus caused a good deal of alarm. The fire department was called and things were soon under control.

19 BLOOMS

Mr. Bruce Meeks, 573 Bolivar St., has a Madonna lily 58 inches high and bearing 19 blooms in the gardens at the side of his house. Mr. Meeks, who started growing lilies last year for a past-time, has about half a dozen plants of the same variety. They bloomed for him last year as well. The bulbs were obtained from a seed house in Montreal.

ON PERMANENT STAFF

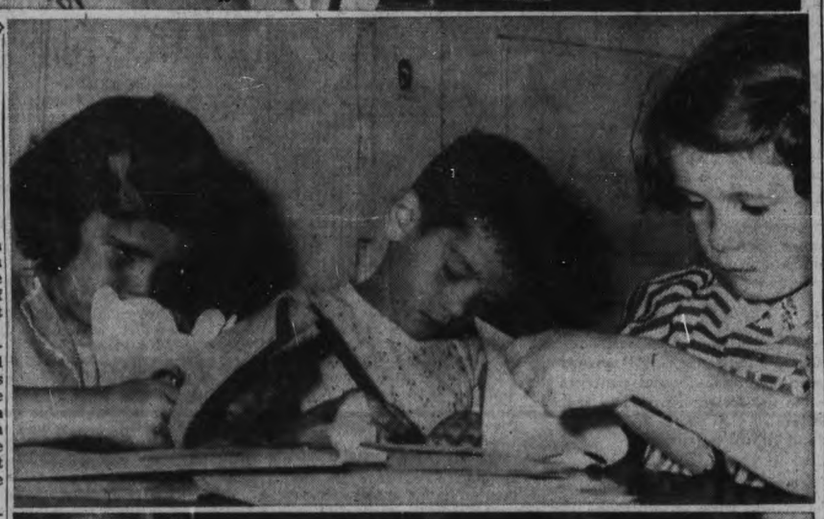
Mrs. Alex Sollitt has now been hired by the Board of Education to teach home economics as a full-time teacher. Last year Mrs. Sollitt was employed part time at Kenner Collegiate; she also taught two grade XIII of the public schools. There will be more classes in September, so the board decided to take Mrs. Sollitt on the staff full time for a year.

OFFICE WORK INCREASES

As the Peterborough school system grows, so does the administrative work. The Board of Education have approved a recommendation of the finance committee to approve the hiring of an additional clerk for the administrative office. And Harry Hamley has been appointed assistant business administrator.

ANOTHER PAY INCREASE

Some 30 brewery warehouse employees recently got a $3 a week wage increase after negotiating a wage-opener clause on their two-year contract. They are members of Local 371, United Brewery, Flour, Cereal, Soft Drink and Distillery Workers (CIO-CCL), who are employed at the brewery warehouse stores on Water and McDonnel Sts. The local's president is Bruce Oakley.



WORK AT PCVS

William McKelvey has received a contract to paint the PCVS auditorium for $1,200. His was the lowest bid on the job. To keep the building in repair eavestroughing must be replaced on the older section of PCVS and the brick work must be repaired at the west entrance. The property committee of the Board of Education are also tendering for a contractor to complete the sewer connections at Grove School.

NEW CGE PLANT

Construction of the new $8,000,000 CGE plant in Guelph is progressing rapidly. The first four divisions of the steel superstructure have been completed and the nucleus structure of the plant, comprising some 4,000 tons of steel, is expected to be completed in September. With production scheduled to get under way early in 1954, CGE officials are already training men to fill the jobs available then.

SCHOOL IN THE SUMMER and the youngsters enjoy it. Fifty pupils, some of whom are grouped around the piano in the top photo, are spending their mornings at Park Street Baptist day school. The handcrafts they do are demonstrated in the centre photo by Caroline Campbell, left, Bobby Loucks and Linda Howard of the beginners class. Occasional spills will happen to mar the fun as shown in the lower photo with assistant supervisor Mrs. Joseph Barr, left, and supervisor Mrs. A. S. Roblin, comforting Sharon Gardiner.

Pavement Added To Stretch Of Warsaw Road

This year the Suburban Area Roads Commission are paving a mile and a quarter of the 12-mile Warsaw Road. Six and a half miles have been done in past years.

The commission, a joint city-county body, work on a small budget. Their main project this year is paving three miles of the controversial Buckhorn Road at a cost of $15,000. The mile and a quarter of asphalt mulch on the Warsaw Road will probably cost another $3,000, calculated on the basis of $5,000 a mile.

Twenty years ago the commission started to pave the road which runs northeast from the city (the extension of Parkhill Road over the Canal bridge) to the village of Warsaw. About four miles of it was paved before the Second World War and the program has continued on this piecemeal basis since. No work was done during the war.

Last year the commission, still hampered by lack of funds, was only able to do a mile.

TO 5TH CONCESSION

When the mile and a quarter of paving is finished this year the hard surface road will extend 7¾ miles east of the city, as far as the 5th Concession of Douro Township.

Prime has already been laid on the mile and a quarter stretch of gravel road that is to be paved, and the asphalt mulch top should be laid sometime at the end of August. That will leave 4¼ miles unpaved at the Warsaw end of the road.

Tractor Upsets Boy Breaks Elbow

STIRLING—(ENS)— Ten-year-old Bobbie Green, son of Mr. and Mrs. Gordon Green of Stirling, escaped serious injury today when the tractor he was driving upset. The boy suffered a fractured elbow while the tractor was a complete wreck.

Southend Children Busy In Summer Church School

Children in the Park St. Baptist Church area have plenty of fun and much to do these days. More than 60 children, ranging in age from two to 12, are attending the Daily Vocational Bible School held in the basement of the church each morning. The play class runs from July 2-17, with classes from 9.30 to 11.45 a.m.

The children are split into two groups, those over six are attended by Mrs. Joe Barrie and Mrs. A. S. Roblin, wife of the church's minister. The younger children are cared for by volunteer girl helpers, including Donna Roblin, 17, Judy Barrie, 12, Barbara Weese, 15, Edith Batley, 14, Edna Wall, 13, Gail Campbell, 11, and Iris Sisson, 12.

The children are instructed in paper-craft, taking home some little hand-made article each day. They enjoy group singing accompanied by Iris Sisson on the piano, and the children take turns in leading the others. "This," says Mrs. Roblin, "aids in developing self-confidence and fits them for future positions as leaders in their community."

Relaxation periods are taken up with quizzes, dramatics and finger-playing (a form of pantomime in which the children try to guess what others are portraying). Outdoor games are played in the neighboring Civic Arena lot and the children have their own traffic patrol to guard the Park St. crossing.

Children from every denomination are welcome, the only separation being between the age groups. The younger children have almost the same program as the older group, except that it is on a smaller scale. The main thing is —they are all occupied and consequently out of mischief.

Production Increase

NEW DELHI (CP) — Indian production of rayon yarn for 1952 was 7,840,000 pounds, an increase of more than 2,000,000 pounds over 1951.

SQUADRON TO CAMP

The 28th Technical Squadron left Peterborough today for its annual week of summer camp at Barriefield. During the first week in August Peterborough's other reserve force unit, the 50th HAA Regiment will spend a week at Picton.

Car Runs Away Stopped By Firm Tree

A runaway car sustained damages estimated at $400 when it slammed into a tree on Monaghan Road, south of Weller Street on Friday morning.

The owner, Oliver M. Steer of 4 Inverlea Street, said he parked his late model car on Monaghan Road facing south between Weller and Hopkins. The emergency brake was not on.

It started rolling down Monaghan past Weller in a diagonal line, gaining momentum. It hopped the east curb and hit a tree 30 yards past the corner. Fortunately no one was in the runaway vehicle's path.

Monster Brown Trout Comes To Ignoble End Fished Out Of Favorite Hole By Bulldozer

MILLBROOK (ENS)—A big brown trout, wise and elusive veteran of a Cavan stream, came to an inglorious end here in the centre of the village Friday afternoon.

Yet, in one sense, the end of its evasion of fishing baits and lures was worthy of its escapist career. It took a bulldozer to land it, and some of the local experts with rod and line and flies were convinced that it was the Nestor of the trout in the Millbrook creek.

Sportsmen may imagine the surprise of Harry Kelly, operating the Cavan township bulldozer in filling a hole that was washed out in the spring at the dam of Atwell and Shepard's mill, when his cumbersome machine brought up the mammoth trout.

It weighed 8 pounds 8 ounces and measured 28 inches in length. It was such an easy conquest that Mr. Kelly was somewhat reluctant about keeping the fish. He felt more like tossing it back to let anglers get further glimpses of him as an incredible trout of which to spin yarns of his propgrtions.

Doug Shepard said it was the biggest brown trout he had ever seen. Several cameras were brought out for snapshots. Harry Kelly found himself in the downtown limelight, and may become famous by the fabulous feat of landing an 8½-pound trout with a bulldozer.

Four Cars Collide In Tangle

First Auto Stops Along Highway Starts Chain Reaction

CAMPBELLFORD (ENS). — Four vehicles were involved in an accident on the outskirts of Norwood early this morning as the result of one stopping on the shoulder of Highway 45.

The one was Ronald Biers, 19, of 479 Bonaccord Street, Peterborough. He stopped on the highway shoulder shortly after 12, facing north.

Earl E. Spencer, 50, of Norwood also driving north, failed to see the stopped car and ran into the back of it, causing damage estimated at $500.

A southbound truck driven by Melvin N. Hamblin, 47, of Norwood, saw the cars collide and stopped on the opposite shoulder to investigate.

Carl W. Davis, 19, of Norwood, driving north, also saw the accident, but in stopping, skidded across the road, right into Hamblin's truck. Damage to the car and truck was estimated at $250.

According to OPP Constable Archie Esdy, who investigated, no charges have been laid yet.

Workers Decide If Strike Over

The focal point of interest in Peterborough this weekend is the Labor Centre where the 435 striking Quaker Oats Co. production workers will decide whether or not to accept the compromise offer arrived at in a special session called Thursday afternoon by Mayor Hugh Waddell.

Either Fred Dowling, Canadian director of the United Packinghouse Workers of America (CIO-CCL), or Sam Hughes, Eastern Canadain of UPWA, is expected to attend the special membership meeting. They will report on progress in negotiations at the Saskatoon plant of the Quaker Oats Co. where 130 more production workers are striking for roughly the same issues, plus union security.

GAVE PLEDGE

Local 293 have pledged themselves not to return to work until a settlement is reached with the Saskatoon workers, as well.

The special meeting has been called for 3 p.m. Sunday. At 1:30 p.m. there will be an important conference of the stewards and executive of the union who will decide whether or not to recommend acceptance of the compromise formula.

Both union and company officials are keeping mum on the new terms, but it is believed that the union gave way on the swing shift issue and the company gave way on the wage issue. Indications are that the executive will urge the membership to accept the formula.

Should the membership go against the executive's recommendations the latter would resign and the membership would have to elect a new executive. However, this state of affair is unlikely to come about.

Stolen Car Soon Recovered

A car stolen early this morning was recovered less than five hours later 14 blocks away from where it was reported missing. The car was owned by Rocco De Carlo of 547 George St.

De Carlo had been in a downtown restaurant about 12.30. When he left to go outside to his car, he found it missing.

He then reported the theft to police.

At 5.20 while checking George St. South premises, PC's Arthur Beardsmore and Robert Menzies saw the vehicle sitting on a gas station lot at George and Lansdowne.

The keys were still in the ignition.

Police believe someone just "borrowed" the car because he didn't want to walk home and abandoned it when he got close enough to complete the trip by foot.

First Encounter

"Thirty years ago today, I piloted the Eldorado, a 30-foot steamer, from Peterborough to Orillia and back." So says Adrian Brooks, 73 Kent Street, and one time owner of the South Beach Hotel. "The launch was owned by A. C. Woodman, then managing-editor of Saturday Night. When we tied up at Young's Point, Mr. Woodhouse was baffled by the number of people running around in white suits and orange sashes. It was his first encounter with a 12th of July celebration." Mr. Woodhouse was living in Philadelphia at the time.

Local Orangemen To Parade Through City

Orangemen of Peterborough County, back from their "walk" in Cobourg, will form up for parade through the streets of Peterborough, 8 o'clock tonight at the CNR station on Charlotte St. Five hundred are expected from the county alone.

Though overcast at noon the sky was expected to clear later in the day so that a large turnout was predicted both in Cobourg and in Peterborough. Eight thousand Orangement were expected to take part in district walk in Cobourg which drew 80 lodges from five counties.

Another afternoon parade was held in Campbellford.

Until well after 12 o'clock noon orange-sashed, white-shirted Orangemen were walking about city streets, making last-minute arrangements for car rides to Cobourg where they would join fellow marchers from Peterborough County and others from Victoria, Haliburton, Ontario and Durham-Northumberland Counties.

SPEAKERS

The big parade was scheduled to move off from where it assembled in Victoria Park and after a walk through Cobourg streets return to the park. At the bandshell principal speakers were E. A. Reid of Peterborough, Past Grand Master; the Hon. John T. Foote, VC; the Hon. W. A. Goodfellow, and Dr. Fred G. Robertson, MP.

Heading the Peterborough contingent were County Master Ralph Langley and County Master Jack Brown

Late this afternoon and early tonight the local Orangemen should begin streaming back into Peterborough after leaving Cobourg. By 8 p.m. they should be in full strength and the 16 lodges —nine LOL, five LOBA, and two juvenile—should be ready for the Peterborough "walk." Four or five fife and drum bands are expected.

The parade route is the usual one: east from the CNR station at Charlotte and Bethune Sts.; then north on George St. to Hunter St.; east on Hunter St. to Water St.; north on Water to London St.; west on London to George, and south on George to Brock St., and finally dispersal at the Orange Hall.

Three Escape Injury As Two Cars Collide

Three people escaped injury and property damage amounting to $90 Friday when two cars collided on an Otonabee township road, two and a half miles south of Highway 7.

Harold Keats, 37, of R.R. 11, Peterborough, was driving his 1953-model car north on the 1st concession and had just broken over the brow of a hill when he saw the oncoming car driven by Mrs. Agnes Evans, 29, of R.R. 1, Indian River. He applied his brakes but the rear end slewed around and his rear bumper skidded into her left rear fender.

After the collision, his car veered off and partly ran up a steep bank on the east side of the road. Overbalanced, it toppled back onto its left side on the road, receiving $60 damage.

The Evans car, a 1947 model, received $30 damage. Mrs. Evans' husband, Andrew, was a passenger.

OPP Constable Wallace Mohns investigated.

Parties Plan Big Rallies In District

Lester Pearson To Speak July 21 In City

Big news in the election campaigns waged by three parties in the Peterborough riding is the announcement from Liberal headquarters that Lester B. Pearson, minister of External Affairs will speak in Peterborough July 21.

Although arrangements regarding the time and site of the meeting have not yet been completed, party officials stated Pearson will "definitely be here." An evening rally is planned.

LESTER B. PEARSON

PC candidate Gordon K. Fraser, MP, also announced a major rally in Peterborough August 6. Although he did not disclose the name of the speaker, Mr. Fraser said the guest is "very prominent" and "fills every hall he speaks in."

The meeting will be held in the Legion hall.

Rallies are being planned by CCF party officers in Lakefield and Keene in the near future while at least one major meeting will be held here before August 10.

SOCIAL EVENING

A social evening will be held tonight at the CCF headquarters in the Bank of Commerce building. Although candidate Maurice Ketcheson will not be present, he is expected to attend further similar gatherings in the near future.

Mrs. Ellen Fairclough will be featured speaker at a Progressive-Conservative rally Monday night in the Legion Hall. Mrs. Fairclough, a former alderman and controller in the city of Hamilton, was member for Hamilton West in the last parliament.

Car Hit From Rear

An accident at the intersection of George and Hunter Sts. Friday resulted in damages estimated at $25. Drivers involved were William Edward Conway, 50, of 758 George St. and Kenneth Lavasseur, 28, of 420 Cameron.

Conway was driving east on Hunter, planning to turn left at the corner. He stopped, however, instead when the traffic light at the corner turned red.

Lavasseur, driving behind him, failed to stop in time to avoid Conway's car.

Lavasseur's vehicle sustained all the damage.

Painting Your Home Largest Single Item Of Maintenance

Exterior painting, even when the most durable type of paint is used, is usually the largest single item of maintenance for the owner of the average home. The cost of repainting a frame home may run into a very considerable sum, of which the largest portion by far is the cost of the labor to prepare the surface and apply the paint.

The amount of paint required to repaint the average small frame house is seldom more than a few gallons, so that the additional cost of procuring a good durable paint is very small in relation to the total cost of the repainting job. On the other hand, where care is not taken to select a durable paint, repainting is often required twice as frequently, which practically doubles the cost of paint maintenance to the owner.

The mere selection of a durable type of paint, of course, will not insure a satisfactory or durable paint job. Even the best paint will not be durable where precautions are not taken to keep water from getting behind it. Siding on an improperly constructed house may become soaked with water due to condensation of water vapor originating within the house, basement or crawl space, with resulting blistering of the paint film. Conversely, improperly formulated paints cannot be expected to be durable even when applied to a house which is properly constructed to keep the wood dry.

CAUSES OF PAINT FAILURE

If you have had trouble with the previous paint, examine it carefully before repainting to determine whether it was caused by moisture behind the paint or whether the paint itself was at fault. If the paint developed water-filled blisters during the spring thawing season after a severe winter, the lack of durability may be due to condensation. The cause of the moisture should first be corrected by applying a continuous vapor barrier on the interior face of the exterior walls or by elimination of excessive mosture in the basement or crawling space. Blistering due to condensation is usually most pronounced on the cold north wall of the house and leaves the wall pockmarked with bare spots which may be round, oval or elongated in the direction of the grain. Where blistering is due to condensation, it usually occurs only on the exterior walls of heated rooms, seldom on unheated garages or open porches.

WHERE CHEAP PAINT BREAKS DOWN

On the other hand, cracking, scaling and peeling or excessive chalking of the paint with no evidence of blistering indicates that an improperly formulated nondurgale paint has been sued It is usually more pronounced on the south side of the house where it is subjected to the direct rays of the sun and occurs equally on unheated and heated portions of the house, indicating that it is not due to condensation.

It is, of course, sometimes difficult to determine whether lack of durability is due to improperly formulated paint, excessive condensation, or a combination of both. When the lack of durability has been identified as improperly formulated paint, it is necessary to completely remove the old paint and start over again, or the repaint job usually will not be durable. Building up thick coatings of paint by frequent repainting usually only aggravates the cracking and peeling, even when good paint is used.

Where early removal of a cracked and peeling paint job is too difficult, it is usually better practice to endure the unsightly appearance until its removal becomes easier. Repainting should not be necessary more frequently than six years where sunlight is not too intense.

WEATHER CONDITIONS

The surface of the wood should be dry. Finish lumber or siding should preferably be kiln dried. If the lumber or finish has become wet, at least one week of dry sunny weather should precede the painting. It is best not to apply paint in cold, foggy or damp weather. The surface should be free of dew or frost and painting should not be done when the temperature is below 50 degrees. Summer or early fall, when the wood is thoroughly dry, is the preferable time to repaint.

PREPARATION OF NEW WOOD SURFACES

All pitch should be scraped or burned from knots and these places should be scrubbed with turpentine prior to painting. To prevent paint from peeling or being discoloured over knots, these are often spot primed a day or two in advance of apply the first priming coat of paint. Shellac and aluminum paints have been used for sealing knots but neither has proven entirely satisfactory. A new synthetic resin base knot sealer, known as formula WP578, was developed a few years ago for sealing knots in Western pines and firs, and tests to date indicate it to be effective. The formula for this sealer is given below. It is prpduced and recommended by a number of paint manufacturers and is available at most paint stores. Knots should always be sealed before the priming paint is applied.

	Per cent by weight.
Phenol-aldehyde resin spirit varnish	33⅓
Polyvinyl butyral resin	3⅓
Denatured alcohol (ethyl)	63⅓
	100

APPLICATION OF PRIMING COAT

The first or priming coat should be thoroughly brushed and cross-brushed so that cracks and nail holes receive enough paint to wet the surfaces. The prime coat should be allowed to dry for several days, following which nail holes and cracks should be puttied.

DRYING TIME BETWEEN COATS

In clear warm weather, two or three days in sufficient drying time between coats. A longer time is required in cold or damp weather. Paint should be applied over preceding coats which are not hard and dry. Drying time should not be unduly long between coats, however— seldom more than two weeks. Unduly long drying time between coats can be as harmful as insufficient drying time.

REPAINTING

The procedure for repainting depends on the condition of the old paint. Where the paint is cracked and peeling, or where heavy coatings have been built up by previous repainting and have cracked badly, it is recommended that all the old paint be removed either by burning it off with a torch or by the use of paint remover. The recommended procedure for repainting is then the same as that given above for new wood.

Where the old paint has weathered by chalking off, all loose paint should be removed by wire, brushing and scraping. Following wire brushing and scraping the surface should be sanded with No. 1½ or No. 2 garnet paper to further insure the removal of loosely adhering paint.

HOW MANY COATS

For previously unpainted wood, or wood from which all the old paint has been removed three coats are usually applied. The priming coat is spread to cover approximately 600 square feet. This is followed by a second coat which is usually thinner, in accordance with manufacturers' recommendations, with not more than one pint of thinner per gallon of paint and spread to cover approximately 800 square ft. The third and final coat is applied without thinning at the rate of approximately 700 square feet per gallon.

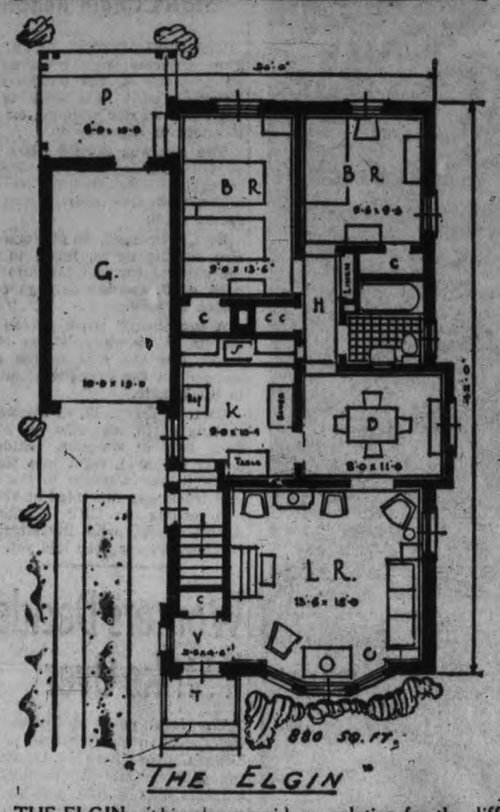
For repainting, where the old paint was of a durable type which has become well-weathered by crumbling, flaking, or gradual chalking off, two coats are usually applied. The first coat may be either a regular priming paint, or a substitute primer made by adding one pint of linseed oil to the finish paint to compensate for oil which will be absorbed by the old surface. The priming coat is applied in the same manner as for new wood, at a spreading rate of 450 square feet per gallon, and the finish coat is applied without thinning and spread to cover approximately 700 square feet per gallon.

TOO THICK COATING SPELLS TROUBLE

Where the old paint is in good condition, shows only fine checks, mild chalking a one-coat repainting job is recommended in order to avoid building up a thick coating. The prime coat is omitted and a thicker film is applied without thinning at a rate of 600 square feet or less per gallon in order to achieve complete coverage with one coat.

As previously stated, the building up of thick paint films by frequent repainting should be avoided, because thick films are prone to crack and curl and eventually will have to be completely removed at great expense in order to eliminate this trouble. Before repainting, the home owner should allow sufficient time for a large portion of the paint to chalk off. Present day titanium-lead-zinc paints are designed to maintain a clean white appearance in ordinary clean residential atmospere, even though the paint has weathered almost down to the wood. It is better to err on the side of too infrequent repainting than to overpaint, and it is much less costly. The original clean white appearance can often be repaint to remove the surface stored by simply washing the grime. Mere unsightliness which can be corrected by cleaning should rarely be considered sufficient reason for repainting until the coating has become well worn.

In a Nutshell . . .



The success of a painting job depends principally on the following factors:

1. Selection of a durable type paint which weathers by chalking mildly.
2. Maintenance of dry wood beneath the paint by controlling condensation and preventing rainwater from getting behind the siding and trim.
3. Selection of favorable painting weather.
4. Proper preparation of the surface to receive the paint.
5. Proper application at not too frequent intervals.

CHEAP PAINT A FALSE ECONOMY

Authorities are in agreement that shopping around for paint bargains, at the expense of quality, is false economy. Competitive paints, which are formulated down to a price instead of up to a minimum standard of quality, should be avoided both by the builder in the original paint job on the house and by the homeowner when repainting is necessary.

THE ELGIN

THE ELGIN—This plan provides a solution for the difficult problem of a five-room bungalow with attached garage for a lot about 40' wide. The bedrooms are arranged to provide cross ventilation and the living room has good wall spaces and the size is increased by the addition of a bay window on the street side. The plan would also fit a narrow corner lot which would put the living room, dining room and bedroom facing on the side street. The area of the house is 880 square feet, exclusive of the garage, and the total cubical contents are 19,600 feet. This is another in the series of practical and artistic homes prepared for readers of this paper by Harold C. Beckett, MRAIC, 52 Chatham St., Windsor.

Composer Dies

NEW YORK (AP) — Composer Sidney Homer, 88, died Friday at his home at Winter Park, Fla. Homer, composer of some 150 popular, classical and church songs, was the husband of the late metropolitan opera star Louise Homer. Born in Boston, Homer was a prolific songwriter. His compositions included "The Banjo Song," "Swing Low," and "The Requium."

Special Choir Performs For Queen

LLANGOLLEN, Wales (CP)—A choir of singers from 10 countries including Canada sang Friday for the Queen as she ended her post-Coronation tour of Wales.

Before returning to London, the Queen and the Duke of Edinburgh called late in the day at a great cross-shaped tent on a green hilltop where 1,500 Welshmen and their friends were singing at their Eisteddfod, the annual music festival which is a famous Welsh institution.

The Queen, in a light blue dress and smiling bravely despite obvious fatigue, entered the tent with the Duke and was welcomed by the singers.

SPECIAL PERFORMACE

The choir, thrown together just for the greeting, was composed of singers from Wales, England, Austria, France, Germany, Italy, Norway, Spain, Switzerland and the United States as well as Canada.

Music was the keynote of the visit to Wales. Everywhere the Queen and Duke went, they were greeted by great crowds cheering lustily and choral groups singing Welsh ballads.

But nowhere did the Queen make a public speech. So Wales is still in the dark as to whether four-year-old Prince Charles may be created Prince of Wales soon.

Marmora News

Mr. and Mrs. Merton Cunningham and three daughters and Mr. and Mrs. George Cunningham of Peterborough were Sunday guests of Mr. and Mrs. Vaughan Glover at their Crowe Lake cottage.

Mr. and Mrs. William Kerr and family of Toronto are holidaying with Mrs. Kerr's mother, Mrs. Anna Haacke, at the latter's cottage at Crowe Lake.

Mr. and Mrs. John Eggett and Mr. and Mrs. Gordon Eggett have returned from a four-days' motor trip in the United States.

Miss Jane Glover returned home on Wednesday from a visit to her aunt, Mrs. C. A. Mutton, in Sarnia.

Mrs. Lloyd Harding and children of Oshawa are visiting Mrs. H. Harding at the latter's summer home at Crowe Lake.

The hour of morning service at St. Paul's next Sunday has been changed from 11 a.m. to 9.30 a.m.

Mr. and Mrs. Frank Meyer of Edmonton called on Mr. and Mrs. George Forestell last week. Mrs. Meyer is a niece of Mr. Forestell.

Mr. Ross Loveless left on Sunday to spend a vacation with his sister, Mrs. Margaret Roos in Grand Rapids, Mich.

Mr. and Mrs. E. Hewitt and Mr. and Mrs. Jack Grant visited Mr. and Mrs. Homer Hewitt and Mrs. Betty Wellman in Toronto last weekend.

Mr. and Mrs. Gerald LaLonde returned to Kingston on Sunday after spending a vacation with the latter's parents, Mr. and Mrs. George Forestell.

Mr. and Mrs. Slattery of Seaforth are visiting the latter's parents, Mr. and Mrs. Stanis Bertrand.

Miss Barbara Meiklejohn is taking a five-weeks' music supervisor's course in Toronto.

The village council has placed parking signs along both sides of the business part of Forsyth St., reading: "Three hours parking any time except Sundays." The bylaw will be strictly enforced.

Recover Body

WINDSOR, Ont. (CP)—The body of a man who was drowned in the Detroit river Thursday night was identified late Friday as that of Howard Woodrich, 28, of Detroit. The body was recovered Friday.

OUT OF DATE—This wooden sign set up in Berlin's Bernauer Street between the French and Russian sectors became temporarily obsolete Thursday when Communist officials lifted the Iron Curtain in the divided city and authorized free travel into the Red sector for the first time since open rebellion brought tank-enforced martial law three weeks ago. The people at right in this photo, taken just before the reopening of the east-west city borders, were trying to enter the Red Zone without special passes. West Berliners with passes entered East Berlin at the other end of the sign.

Reorganize Command Structure Of NATO's European Defence

By DON COOK

PARIS—The long-awaited reorganization of the command structure of European defense has at last been completed with the announcement from Supreme Allied Headquarters (SHAPE) of new appointments.

Gen. Laurie Norstad, who at present commands only the Allied Central European Air Forces, moves up to SHAPE as Air Deputy to the Supreme Commander with "increased centralization of control of air units" all the way from the north Cape of Norway to Turkey.

Marshal Alphonse-Pierre Juin becomes Commander-in-Chief of Allied Land, Air and Sea Forces in Central Europe, where for the past two and a half years he has been land forces commander only.

SHAPE itself completed the staff studies and the recommendations on the reorganization last February. There was no explanation of the long delay in finalizing the plans. They were first routed to the military standing group of the North Atlantic Treaty Organization — the American-British-French staff group in Washington which is the top military policy-making body.

After a delay of four months in the standing group, the plans then went to the 14-nation NATO military committee. There was a further delay, which finally prompted Gen. Matthew B. Ridgway, the retiring Supreme Allied Commander, to issue a public prod on the matter, telling the NATO council when he made his farewell visit there that he considered the matter "of urgent importance."

Gen. Norstad will succeed British Air Marshal Sir Hugh Saunders, who is retiring. In addition to widening the responsibilities of the job to gain greater centralization of control over the growing Western European Air Forces, Gen. Norstad will also have general responsibility at SHAPE for atomic weapons and their tactical use by the European Armies and Air Forces.

The SHAPE communique said: "This forward step will enable the Supreme Commander to exploit fully the inherent flexibility of air power and its capabilities to mass quickly wherever needed. It will ensure that NATO's total air effort will be used to the best advantage."

Gen. Norstad will be succeeded as Central European Air Commander by British Air Chief Marshal Sir Basil Embry. Marshal Juin will presumably nominate a French general shortly as the new land forces commander for central Europe. French Vice Admiral Robert Jaujard already holds the title of "flag officer, central European Naval forces," and now presumably will be confirmed as "Commander, Central European Naval Forces."

Similar unified land-air-sea commands have existed at Oslo, in the north, and Naples, in the south, since SHAPE was first activated in April of 1950.

Try Variety Of Finishes On Plywood

BY MR. FIX

What with working plans, patterns and drawings becoming increasingly available for the building of furniture and storage units, more home craftsmen are using fir plywood for its easy workability and other advantages.

Here are some suggestions from the Douglas Fir Plywood Association on different types of finishes to use on plywood units. These finishes, of course, are applicable to other types of wood in most cases.

Opeque paint finish—First seal the wood with a heavy coat of clear resin sealer or shellac. Sand it lightly when dry nd brush on a flat oil or lacquer primer. Sand lightly when dry and brush on two coats of color.

Parchment finish—This finish is applied over a solid opaque paint coating. Start with a color of slightly darker value than the solid coating and thin it with linseed oil and turpentine. Flow this color on the solid finish quite freely, then spread it evenly with a rag or cheesecloth. While it is still wet, dapple or stipple the surface with a clean, ruffled rag.

When finish is dry, spray surface with a thin coating of flat lacquer or brush on a thin coat of white shellac.

Spatter finish—One way to do this is to spray several successive spatter colors from an insect spray gun. Another is to use a long-bristled brush, get a little paint on it and then tap it on a stick over the surface being spattered.

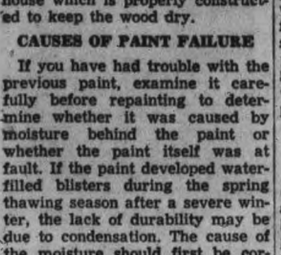
The first is better for broad surfaces, the latter gives better control on small areas. In both cases, the thinner the paint mixture, the smaller the drops. It is a good idea to experiment before beginning the final job.

Color-toned wood grain finish—Simply apply two coats of a tinted resin sealer and top it with a coat of flat white varnish or shellac. Steel wool surface when dry. This finish softens the grain contrast in fir plywood.

Another good finish of this type is obtained by first whitening the panel with a coat of interior white undercoat thinned with one part paint and one part thinner. To alow more grain to show through, wipe it with a cloth or dry brush before it gets tacky.

Sand it when dry and apply a coat of thinned white shellac or claer resin sealer. (Omit this if more color contrast in the grain is desired.) Next step is color coat—interior undercoat or enamel thinned like the first coat. Finally, apply flat varnish and rub down with steel wool.

Experiment for tone before starting.



High-gloss enamel finish — Surface plywood with canvas or muslin, by priming it first with a thin coat of flat wall paint and then applying cloth with wallpaper paste, overlapping strips one inch. Draw a sharp razor blade down the middle of peeled away there will be a solid butt joint that shouldn't show through enamel paint coating.

Texture finishes—Many manufacturers make paints that can be manipulated to make textured surfaces. They are applied with stipple brush, roller or sponge. Prime the surface according to directions on the can before applying finish.

With some experimentation you can probably come up with attractive variations of these and other finishes.

SPATTER and cloth-cover finishes are two out-of-the-ordinary methods of finishing versatile fir plywood.

SMELLS MINES—Man's best friend is a true friend indeed when he can smell out and locate a deadly mine on the war-torn Korean front. These specially trained dogs are being used more and more extensively on Canadian patrols. On a recent course, "Quip," the canine wonder, shows two Canadian soldiers how it's done. At left is Cpl. Ernest Morin, of Montreal, and centre, Sgt. Albert Rajotte, of Hornepayne, Ont. The handler at right is unidentified.

Chiang Could Invade Mainland If U.S. Provided Air Cover

By JOHN MOLLESON

NEW YORK—Nationalist Chinese troops based on Formosa could successfully invade the Red Chinese Mainland if the United States would provide, not troops, but air cover, naval logistic support, arms and foodstuffs, according to Dr. K. C. Wu, former governor of Formosa and former Mayor of Shanghai.

"Of course, the chance of getting this support right now is very slim," Dr. Wu noted. "The United States lacks a clear policy with regard to China. But we Chinese have one virtue left—patience."

He believes that if Nationalist troops did get a foothold on the mainland, many Chinese would rally to them because of their hatred of the Mao Tse-Tung regime.

GOVERNOR OF FORMOSA

Dr. Wu, minister without portfolio in the Nationalist Chinese government, was Mayor of Shanghai from 1946 through 1949, when the Communists overran the city. He became governor of Formosa December 21, 1949, and resigned recently to come here for treatment of asthma.

Dr. Wu—he has a doctor's degree in political science from Princeton University — said Americans are indulging in wishful thinking when they hope that Mao may become another Tito and break away from Moscow.

"While the Russians were fighting for their lives at Stalingrad, Tito had a chance to build up an independent machine. Mao hasn't had the same chance for independence, and will never have," he said.

Dr. Wu said it is wishful thinking to hope that Soviet Prime Minister Malenkov is relaxing the Soviet iron-clad anti-Western policy, or to believe that peaceful co-existence with Soviet Russia is possible.

He believes the diplomatic air can be cleared if the United States will ask three things of Soviet Russia: "Ask the Russians to guarantee political and social freedoms to their people. Ask them to hold free elections at home and in the satellites. Ask them, too, for freedom of movement for all people within Russia and the satellites. In other words, have them drop the Iron Curtain."

If the Russians agree to these conditions, then a disarmament conference should be held and the world would be on its way to real peace. "If not, then our policy should be in other directions," he said.

MUST BE SURE OF VICTORY

Dr. Wu does not think an invasion of the Chinese mainland would touch off World War III. "The Soviets will try to split and subvert the free nations but they will not touch off a world war until they are sure of victory. Then they will strike the death blow," he said.

He said Red China is not the formidable bastion that Americans think it is. Mao lacks electric power and resources and is too dependent for arms on the trans-Siberian railroad.

He said the Chinese Communists had given land to the peasants, but not enough to each one to make a living possible, and that now the policy is to collectivize the farms "and make the farmers tools of the state like the factory workers."

Mrs. Forsyth Hostess To WMS Meeting

COTTLESLOE. — Mrs. William Forsyth opened her home to WMS.

Miss H. Tedford was in charge of the worship service from the Missionary Monthly, with Mrs. H. Harnden reading the scripture lesson. Mrs. Fred Bolton, program convener led in prayer and read passages of scripture. Mrs. E. Metcalfe led in prayer.

Mrs. Cecil Bolton gave a message on missions, in the foreign and home fields and in the communities and homes. Mrs. Fred Bolton told of some of the work of Miss Ferne Graham in the home mission field.

The August meeting is in charge of the associate members and will be at the home of Mrs. Percy Ivey. Lunch was served by Mrs. Fred Toms and Mrs. George Webster.

HIGH TRADE

Trade between India and Tibet is largely over mountain passes at an altitude of 14,000 to 16,000 feet.

HON. BROOKE CLAXTON, Minister of Defence, moves forward to chat with the "drum-major" of the RCAF's No. 438 Montreal Auxiliary Squadron band, 10-year-old Phil Scott, of 529 Charron Street, during an informal visit to RCAF Station Uplands, near Ottawa, where squadron members are settled for their annual summer camp. In conjunction with other auxiliary and regular force units, the squadron will take part in the forthcoming joint Canada-U.S. air defence exercise "Tailwind."

PERFORMANCE

beyond compare!

Because modern engines with high compression ratios need White Rose ULTRA and because every car will benefit from its use, more and more motorists every day are swinging over to this better gasoline. White Rose ULTRA assures peak efficiency in motor operation... prevents harmful "engine knock"...gives more mileage. That's why White Rose ULTRA truly gives *performance beyond compare!*

Fleming Says Liberals Have No Platform

TORONTO (CP) Donald Fleming contended Friday night that the significant and startling feature of the current election campaign "is that the government has offered the people no program or platform whatever."

The Progressive Conservative candidate for Toronto Eglinton added: "It is just one more evidence of the arrogance of the present government that it apparently does not feel called upon to outline even to the electors any policy or program."

Mr. Fleming, in a speech recorded for a free-time political broadcast over the Trans-Canada network of the CBC, said the Liberals have contented themselves with "an utterly negative approach to the Progressive Conservative program of constructive action."

CAN'T BE DONE

"To every proposal of constructive action to meet Canada's problems the Liberal government folds its arms, shrugs its shoulders and groans 'it can't be done.'

"Tax reduction, tax reform, recovery of lost markets, building of houses, the restoration of the dignity and power of Parliament — these necessary objectives indeed cannot be accomplished by the Liberal government. They have said 'it can't be done.'"

Mr. Fleming said his party, if elected, would take action on all these and other matters as outlined in national leader George Drew's 16-point program.

Say Red Troops Enter Burma

RANGOON (AP) — Intelligence sources here reported today that Red Chinese troops have entered Burma at five points in wild Wa state.

The report said Red troops of the 43rd division in platoon strength have penetrated Kaungyi, Hsakhting, Monching, Mankin and Yawnhok in the northern part of Wa state bordering Yunnan. Nearest Burmese Army outpost is at Kunlong, 30 miles away, the sources stated.

The Red Chinese are holding mass meetings in occupied villages, saying they are there to "protect" the villagers from Chinese Nationalist guerrillas, adding the Burmese Army cannot cope with the Chinese Nationalists, the sources added.

Taking Course

OXFORD (Reuters) — Fifty-two British university professors, lecturers and readers will begin a two-week study of U.S. politics, literature and philosophy here Sunday. The course is the first of two to be given at Oxford under the Fulbright Act authored by Sen. J. William Fulbright.

Skin Eruptions

Here is a clean, stainless, penetrating antiseptic—known all over Canada as MOONE'S EMERALD OIL—that dries right in and brings swift sure relief from the itching and discomfort.

Not only does this healing antiseptic oil promote rapid and healthy healing in open sores and wounds but boils and simple ulcers are also relieved.

In skin affections the itching of Eczema is quickly relieved. Pimples —skin eruptions dry up and scale off in a very few days. The same is true of Salt Rheum, Itching Toes and Feet and many other itching skin affections.

MOONE'S EMERALD OIL can be obtained in the original bottle at any modern drug store. Satisfaction or money back.

TAMBLYN & I.D.A. Drug Stores

Catch One Prisoner Escaped From Pen

WINNIPEG (CP)—Police Friday apprehended Wally Piche 38, one of two prisoners who escaped earlier in the day from a work gang at Stony Mountain penitentiary.

Piche was caught in a stone quarry not far from the prison, about 15 miles northwest of Wincapee, James Monbourquette, 25, a recent arrival from the St. Vincent De Paul penitentiary Montreal, is thought to be hiding at a nearby dam.

Call In OPP On Investigation

LONDON, Ont. (CP) — Investigation into injuries received by a 50-year-old Brantford woman sometime Thursday night is being carried out by provincial police constable Norman Hogarth in conjunction with Brantford police authorities.

Mrs. Mary O'Neil was taken to Victoria hospital early Friday morning suffering a black eye, bruises, shock and exposure. She told police she had been picked up by a truck driver about a mile and a half east of London and taken to Dundas street. She walked to McCormick's Ltd., where aid was called.

According to Constable Hogarth, Mrs. O'Neil said she had attended a bingo Thursday night in Brantford and afterwards went to a hotel with two other women. She remember leaving her companions at a bus stop and starting to walk home. The rest she says is a complete blank.

Packinghouse Union Starts Negotiating

First round of negotiations between the United Packinghouse Workers of America (CIO-CCL) and the packinghouse industry for wage increase for 14,000 union members is now under way. The union is asking for a substantial wage increase plus improvements in the spread between the labor rate and the rates for skilled groups.

It is estimated by the union that its demand for double the spread between the bottom rate and the higher gradings will in itself average 10 cents an hour. The union is also seeking changes in the incentive bonus system at the Big Three plants: Canada Packers, Swift Canadian Co. and Burns.

Meetings are to be held next week with Canada Packers.

Candidate For President

UNITED NATIONS, N.Y. (AP) Mrs. Vijaya Lakshmi Pandit, sister of India's prime minister Nehru, is a candidate for president of the eighth United Nations assembly convening Sept. 15, informed sources said. The only other candidate so far is Prince Wan Waithayako, foreign minister of Thailand.

Convict Two Nazis

PARIS (AP)—Two directors of a wartime Nazi concentration camp in Alsace were convicted by a French military tribunal of inhuman cruelty in running the camp. The tribunal sentenced Karl Buck, 63, to life imprisonment. It gave Karl Nussberger, a guard, 20 years.

Bible Page Sold

LONDON (Reuters) — One page from the Gutenberg bible, published in Mainz, Germany, in 1435 was sold at a London auction for $475. The leaf contained the whole of the second chapter of Numbers and parts of the first and third chapters.

Board To Ask Minister Split School District

CAMPBELLFORD (ENS). — County council passed a motion to ask the Minister of Education to dissolve the present East Northumberland High School Area Board, in Campbellford, Friday evening.

In a meeting which lasted into the early hours of morning, it was decided that the present board be split up into two sections, one governing the northern district and the other the southern.

The petition to dissolve the present board was brought about by representatives from Campbellford, Percy and Seymour districts, who objected to paying the lion's share of the $750,000 high school in Brighton.

The board has not received official approval of the Minister of Education to create separate boards and until this is received and a date set, much of business concerning the present board will have to be left in abeyance.

MOTIONS INVALID

Motions presented at the meeting, concerned only, either the north or south half of the area, and chairman A. K. Loucks explaint that these motions were invalid in view of the fact that the separate boards were not set up.

This explanation was accepted in all cases except that of the last motion which asked for approval of the teaching of household economics and purchase of necessary equipment for the Brighton High School. The chairman, making his decision, told the board that he could be overruled if the board so decided. This was done and the motion passed.

The objection of the northern members was that the board could not legally legislate for only part of the area at this time.

Another motion passed was that the board retain a solicitor to check the minutes of all meetings and any motions regarded as illegal would be rescinded at the next meeting. This was carried by the southern front.

The south also moved that the board write the Minister of Education expressing approval of the dissolving action and asking for a man from the department to come and supply the necessary information and authority to outline the steps to be taken.

It is necessary that the approval of the Minister of Education arrive before September 1, so that bus routes and other transporation facilities may be arranged.

Martial Law To Be Lifted

BERLIN (AP)—Soviet Maj.-Gen. P. T. Dibrova announced today that martial law imposed on rebellious East Berlin June 17 will be lifted at midnight.

During 25 days of martial law, the Russian military commandant in Berlin had confirmed the execution of one Berlin worker by his firing squads. More than 4,000 Germans have been arrested in the Soviet sector of the city, where more than a million persons live.

Two days ago, General Dibrova reopened the East Berlin border to normal traffic with the Allied sectors after thousands of anti-Communist workers had staged defiant slow-down and sit - down strikes in protest against his continued iron control.

The Soviet commandant gave no reason for his order today.

Allied officials said the important industrial cities of Magdeburg, Halle and Erfurt are know to be still under martial law, however.

Princess Margaret Recovers From Cold

SALISBURY, Southern Rhodesia (Reuters) — Princess Margaret is recovering from her cold and intends to get up later today, an official statement said.

The Princess is here with her mother on a 1,500-mile tour of the colony. Officials said she hopes to resume her program Sunday.

The Princess arrived here Friday night and went straight to bed with a heavy cold.

Continuing her trip without the Princess in the meantime, the Queen Mother today visited the famous Zimbabwe ruins, 17 miles from Fort Victoria, an ancient temple which is one of the riddles of history.

Wheat Board Plan Impractical–Gardiner

LANGENBURG, Sask. (CP) — Placing operation of the Canadian wheat board on a voluntary basis, as advocated by such Conservatives as John Diefenbaker would mean the loss of an effective board within six months, Agricultural Minister Gardiner said here Friday night.

Mr. Gardiner told an audience of 200 that Mr. Diefenbaker had expressed favor for the wheat board but had wanted the farmer to be free to deliver his grain where he wanted.

"If you do that, you won't have a wheat board in six months," he said.

Commemorate Landing

GELA, Sicily (AP)—Men, women and children of Gela marched in solemn procession to commemorate the landing 10 years ago of U.S. troops on the beach of this Sicilian coastline town. Townspeople packed the church for a requiem high mass celebrated for the war dead.

BIDAULT ARRIVES FOR CONFERENCE — French Foreign Minister Georges Bidault (centre), accompanied by his wife, is greeted on his arrival at New York's Idlewild Airport by French Ambassador to the U.S. Henri Bonnet. Bidault flew in from Paris to attend the "Little Bermuda" conference in Washington between France, Great Britain and the U.S.

Accuse High Police Officer Of Oranizing Jewel Theft

PARIS (Reuters)—French Interior Minister Leon Martinaud today suspended a high police official who was accused in court Friday of being the brains behind the theft of the begum Aga Khan's jewels four years ago.

Pierre Bertaux, the suspended man, was chief of the national Surete at the time of the robbery. He resigned soon after but has retained—until today—the title of prefect of police without any particular assignment.

Bertaux was appearing as a witness at the trial at Aix-en-Provence of 12 men accused in the $550,000 holdup. Friday night a police witness turned on him and named him as the mastermind in a deal by which the thieves would hand the gems over in return for a payoff from the insurance company.

The charge was made by Georges Valentine, who was once Bertaux' junior at the Surete.

"Bertaux directs an association of malefactors whose activities range from simple murder to more serious matters," Valentin testified.

Bertaux, an underground hero of the Second World War, became Surete chief in 1949.

He jumped to his feet at the trial Friday to deny Valentie's charges. But he admitted he was friendly with Paul Leca, on trial as leader of the gang. He said he met Leca during his resistance work.

He accused Valentine of trying to blackmail him. Bertaux fired Valentine from the Surete but he has since been reinstated.

He alleged that when he told Valentine that he has been dismissed Valentine replied: "If that is how it is, the much will be stirred up and it will not smell good."

Urge Russian Army To Overthrow Regime

LONDON (Reuters) — A broadcast from "The Liberation station" today urged the Russian Army to "rise against the Soviet regime before Malenkov has time to establish his absolute rule."

The broadcast, believed to have come from an American propaganda radio station in Germany, said now is "the most opportune moment to liberate Russia from the oppression of the Communist regime."

"The henchman Malenkov has just got rid of the henchman Beria. He is weak. Strike at him before he gets you all and our country shall be free," it said.

The broadcast was heavily jammed by other stations. But the voice of the announcer, slowly repeating his appeal several times, was clearly heard in London.

Teen-Ager Beaten Shoots Stepfather

BUFFALO, N.Y. (AP)—A teenager fired a .22-calibre slug into her stepfather's head Friday night in a grim finale to what her mother described as eight years of "brutal beatings," police said.

Acting detective chief John H. Schott said Charles D. Evans, 31-year-old service station operator, was killed as he hunched over a cup of coffee in the family kitchen.

Held on a charge of juvenile delinquency was Evans's 14-year-old stepdaughter, Sebiele A. Holz, a high school student.

The girl's mother, Mrs. Mary Holz Evans, 33, told police her husband thrashed the girl with a heavy stick shortly before the fatal shooting. Mrs. Evans said she was struck by several blows when she tried to intervene.

Charge Discrimination

GENEVA (Reuters)—A Russian spokesman here charged that the United States' export-import policies are discriminatory and "particularly directed against" Britain. The charge was made by Amazasp Arutiunian, Soviet delegate to the United Nations economic social council, during a debate on full employment.

24 Die In Storms

MILAN, Italy (AP) — Northern Italy counted 24 dead in a two-day series of violent rainstorms that wrecked scores of buildings and flooded villages and farms. Hundreds of families were evacuated from homes in villages and many farmers reported losing at least half their summer crops.

Chosen Candidate

HALLVILLE, Ont. (CP) — Clair Casselman, veteran Progressive Conservative member of Parliament, was chosen Friday night as party candidate for Grenville-Dundas constituency in the forthcoming federal election. He has represented the riding since 1921, with the exception of three years when he resigned to allow the then party leader, Rt. Hon. Arthur Meighen, to seek election here.

Veterinarians Sent West To Check Cattle

OTTAWA (CP)—A group of agriculture department veterinarians has left for Alberta to make checks on a shipment of swine quarantined Wednesday at New Westminster, B.C., it was learned here today.

The shipment of 386 swine from the Edmonton district to the United States market was stopped by U.S. authorities on the suspicion the animals are suffering from vesicular exanthema, a highly contagious animal disease which has not yet appeared in Canada.

The department veterinarians have gone to backcheck on the points from which the animals were shipped on the possibility that tests now being conducted on the New Westminster swine may show the animals are in fact suffering from exanthema, agricultural officials said here.

Only symptom so far displayed by the New Westminster animals, the officials said, is sore feet. This may prove to have resulted from simple injuries received in shipment.

Swine suffering from vesicular exanthema display vesicles, or blisters, on the feet, mouth and snout. Symptoms are similar to those of the more widely-known hoof-and-mouth disease. Exanthema, which at present is widespread in the U.S., attacks only hogs while hoof-and-mouth disease attacks cattle and other cloven-hoofed animals.

An August, 1952, ban on the import of live hogs and fresh pork products is believed by agricultural officials here to have prevented the spread of the disease to Canada.

Officials here discount the possibility that the New Westminster swine actually are suffering from exanthema. They said the despatch of the Ottawa veterinarians to Alberta is "a sort of double check."

Admits Drunkeness

Pleading guilty to a charge of being intoxicated in a public place, M. Meade, 52, of 887 Water Street, was fined $10, and $2.50 costs, in magistrate's court today. The charge was laid Friday night.

Canada-U.S. Hold Joint Air Attack Manoeuvres

MONTREAL (CP) — Was your city "bombed" today?

With aircraft criss-crossing our skies night and day, probably you didn't notice it. If you live in an industrial centre in Quebec or Ontario, possibly you were the victim on an "air attack." Or perhaps it happened Friday.

Or perhaps you weren't attacked. Possibly the anti-aircraft gunners, the ground observer corps and the fighter squadrons, all members of the RCAF's air defence command team, beat the "attackers" off.

This is the weekend when "operation Tailwind," joint Canada-United States air manoeuvre, gets into full swing.

RCAF bombers and others from the United States strategic air command will do their best to penetrate Canada's air defences and air defence command, with headquarters at nearby St. Hubert, will attempt to stop them.

It's only "make believe" bombing. But it's serious business to Air Vice-Marshal A. L. James of St. Hubert and Gen. Benjamin W. Chidlaw of Colorado Springs, Colo., commanders of the air defences of Canada and the United States.

The general public won't be told the results of the manoeuvres. They won't even be known to the two air forces until after long, hard study.

Paradoxically, it won't be a success if the bombers get through or if they don't.

YOU CAN'T WIN

If they get through, then there's something wrong with our defence system. If they don't, then there's something wrong with our plans of attack.

The only real success will come out of setting defence or attack plans straight.

All available units, both permanent and auxiliary (week-end) will be in on the deal. Bombers from Canada and the United States; fighters from St. Hubert, Uplands, Ont., Toronto, London, Hamilton, Bagotville, Que., and North Bay, anti-aircraft units from Sault Ste. Marie, Ont., and Montreal; radar units from Toronto, Ottawa, Montreal, Halifax, Quebec and Trois-Rivieres; and the ground observer corps, spread across the two provinces, will be showing results of their training.

The ground observer corps consists of civilians trained to spot aircraft and relay the information to "filter centres" where routes and speeds of the attackers are plotted.

BEN HOGAN, who Friday won the British Open Golf Championship with a 72-hole total of 282 over the tough Carnoustie course in Scotland with a final round record score of 68, four under par, is shown chipping to the ninth green in Thursday's second round. Hogan was only once over par in his four rounds, carding 73-71-70-68 against a par of 72. Hogan's 282 was bettered only by the 279 shot by Bobby Locke of South Africa in 1950. Hogan early this summer won his fourth U.S. Open title and in the spring won the Masters tournament at Augusta, Ga.

U.S. Victory Assured For Davis Cup

By DON MATHESON
Canadian Press Staff Writer

VANCOUVER (CP) — With a United States victory assured, the American and Japanese Davis Cup teams experimented with second-stringers today in the wind-up of their best-of-five series.

Captain Tony Trabert of Cincinnati and Jim Brown of San Francisco wrapped up the series Friday by defeating Kosei Kamo and Atsushi Miyagi 6-2, 6-2, 3-6, 6-3.

Trabert edged Kamo and Ham Richardson downed Miyagi in the opening singles matches Thursday.

For today's singles, Trabert benched himself in favor of Brown, who had been slated for doubles activity only. Masanobu Kimura, 30, will see his first action of the series as he replaces Miyagi.

WILL PACE RICHARDS

Kamo, the Japanese standout in singles and doubles play so far, will face Richardson in the second match.

The 21-year-old youngster, who ran up a two-set lead against Trabert Thursday before the U.S. Navy veteran found himself, also sparked the rally that gave the Japanese doubles team its only set.

Displaying a powerful serve, a brilliant backhand and a leaping overhand kill, Kamo broke Trabert's service with two sparkling volleys in the second game.

Trabert's booming serves dominated the rest of the match as he ran off two games at love in the final set.

Out At The Kawartha

Keen interest is being taken in the club competitions, with the only exception the Men's senior. We do not think that rheumatism can be the reason because we see these ardent golfers out during the week, and by the way they are hitting the ball they certainly do not look like ads for the old folks home.

KAWARTHA CUP

To move into the third round, R. Howarth def E. Morris; J. Corbett def. W. Mayfield: G. Webb won by default; R. Walling def. D. Menzies: R. Dorsey def F. Welford; T. Giardino def G. Padgett; G. Lee def R. Allen; F. Worsencroft def F. Loyst; E. Bickell def W. Dunford.

PRESIDENT'S CUP

F. Dunfield won over D. Praskey; E. Hanbidge won over T. Crawfield; A. Menzie won over W. Moulton; I. MacGillivray won over D. Mortimer; A. Rhodes won over G. White; and J. Condon over G. Abbott.

CLUB CHAMPIONSHIP

Some of the hardest fought golf battles of the year were witnessed on the fairways this past week with the following results: H. Woodcox defeating F. Dunfield; W. Crowley def J. Haildman; J. Condon def E. Hanbidge; B. Harle winning by default; and J. Raine def S. Whiddon.

MEN'S TWO BALL

The following teams won out over their opponents after some very hard tussles: M. Vernette and J. Inglis; G. Shadgett and H. Woodcox; A. and F. Todd; G. Padgett and G. Lee; D. Hough and M. Irwin.

McGREGOR CUP

Driving, chipping and putting into the third round were, M. Vermett, Herb Young, Bill Beggs and Roy Welch.

Just a reminder to all disciples of the divot, that barely three weeks remain before the Kawartha Lakes Tournament takes place. It would be a wise move to get the entry and the entry fee in without delay to avoid disappointment later.

LADIES' SECTION

Imagine gathering around an open fireplace in July, — well, that's what the ladies at Kawartha Club did on Thursday afternoon, when Henri served a delicious salad plate and Mrs. W. Nash summed up the scores for the day.

A point was won by Mrs. T. McCaig for low net and Mrs. E. Collins won the golf ball. The competition for most pars was won by Mrs. H. Woodcox and Mrs. R. Miller, both receiving a point and Mrs. E. Collins winning the silver spoon. The prizes were given out by the captain, Mrs. F. Dunfield.

In the nine hole event the captain, Mrs. N. Williamson, announced the winners of the competition: low on odd holes, points were won by Mrs. N. Williamson and Mrs. W. Griffin. Mrs. D. Hough won the silver spoon and Mrs. J. Haldimand won the golf ball.

BUSINESS GIRLS

About eighty-five golfers roamed the course Thusday evening when the B.G.'s played host to the Kawartha men in mixed two-ball foursomes. Naturally, there was quite a variety of scores but Mel Akers and Janet Maio came in with the best followed by Joan Rahmel and Carl Morris; then for the highest scores, Eleanor Logan and Jack Thompson won a prize as did Joan Elliott and Bill Nash. Following a salad plate supper, all took part in the usual sing-song.

We note the competitions are well under way now but would ask all those behind schedule to make an effort to keep the matches up to date.

Plans are almost completed now for the big August 22nd tournament so if you happen to be out of town and playing at other golf clubs, be sure to make this date known and invite the lady golfers.

"Kawartha News" may he heard over the local station at the same time this Saturday evening.

Hogan Wins British Crown, Display Of Courage Captures Scottish Hearts

By TOM OCHILTREE

CARNOUSTIE, Scotland (AP)—Ben Hogan has proved, even to the skeptical Scots in this birthplace of the game, that he is the modern day wonder of golf. The Texan, four times winner of the U.S. Open, shot a magnificent 282, four strokes better than anybody at Carnoustie, to win the British Open championship Friday with a par-busting final round of 68. Through the stretch drive he ignored chills, influenza and aches from old injuries received in a 1949 auto accident to capture the coveted title in his first try—something no other American ever was able to do.

The great Bobby Jones, winner in 1927 and 1930, was among the also rans on his first attempt. The old master, Walter Hagen, a four-time winner, finished 55th on his first trip and Gene Sarazen, who took the 1932 title, failed to qualify in his first attempt.

TAKE HOGAN TO HEARTS

The Scots took Hogan to their heart as they saw him limp down the last fairway. Courage and the love of golf are two qualities highly prized in this north country.

Coming off that last green, where he shot a birdie four and with the cheers of the crowd ringing in his ears, Hogan said:

"I'm happy but so very, very tired. Don't even mention the possibility of a playoff. I don't think I can make it."

At that time, Antonio Cerda of Argentina was behind Hogan with a flickering chance to tie.

But Cerda finished with a 286 for a four-way tie for second with Frank Stranahan, Toledo, O., amateur; Dai Rees, chubby, good-natured Welshman and Peter Thomson, Australia's promising young golfer.

Next came Roberto de Vincenzo of Argentine with a 287. Sam King, former British Ryder Cupper, followed with a 290 and defending champion Bobby Locke of South Africa with a 291.

Four Records Take Beating At Track Meet

TORONTO (CP) — Four Canadian records took a beating at the first day's competition of the two-day Ontario track and field championships here Friday.

Although the times aren't automatically records, they will come under consideration at the fall meeting of the Amateur Athletic Union of Canada. The track meet is sanctioned by the AAUC.

All four marks were bettered by Toronto entries. The Toronto Secondary Schools Association midget boys' entry did the 440-yard relay in 48.7 seconds, bettering the standing mark of 49.2. Wes McLeod of the Toronto Track and Field Club capped the boys' juvenile one-mile sprint. He made it in 4:33.5.

Although unchallenged in the junior men's class of the one-mile relay, the Toronto Track and Field Club ran it alone and cracked the official Canadian record of 3:39.9 minutes. The old record was 3:54.2.

TEAM STANDINGS

Team standings in the men's division at the end of the day's 36 events showed the Toronto Track and Field Club leading with 129 points. The Toronto Secondary Schools Association was second with 30 and East York Track Club of Toronto followed with 24. Hamilton Olympic Club was fourth with 18 points, Windsor Track and Field Club fifth with 8 and the Shamrock Club of Oshawa next with 5.

Ron Wallingford, who just finished his final term at Glebe Collegiate in Ottawa, ran unattached and scored five points for a first in the two-mile sprint. He did it in 9:49.7.

ADDED WINDSOR

The Moutour brothers, Fred and Jim, of Windsor's Track and Field Club (the Whippets) accounted for Windsor's complete total. Fred notched five points when he took the juvenile boys' high jump at 5 ft., 7 in. He won another for a third in the juvenile 440-yard dash. Jim added two points with thirds in the midget low hurdles and the juvenile hop, step and jump.

Jack Bell put Oshawa in the scoring column when the 19-year-old Negro speedster, formerly of Shelburne, N.S., ran away with the junior men's 100-yard dash, completing the distance in 10.2—just three-tenths of a second off the record. Bell is a resident of Whitby but ran under the banner of Oshawa's Shamrock Club.

The event concludes today.

Here And There In Sports

BY THE CANADIAN FRESS

FRANCE, DENMARK SPLIT

PARIS (AP)—France and Denmark Friday each won a match in the first day's play of their European zone semi-finals encounter in the Davis Cup tournament.

Paul Remy of France defeated Torben Ulrich, 2-6, 6-1, 6-1, 8-2, after Kurt Nielsen of Denmark downed Robert Haillett, 3-6, 6-2, 6-4, 6-2 in the opener.

✦ ✦ ✦

WHOPPING DOUBLE

TORONTO (CP)—It took a record - shattering daily double of $1,985.35 to take the play away from London's Bill Herbert, who has been winning most of the money to date at Thorncliffe Raceway's harness racing meet.

The Herbert horses were outstanding Friday but major attention was focussed on 65-year-old Mitchell Bullard of Toronto who held the only ticket on the double, largest in Canadian harness racing history.

Bullard, vacationing from a Massey Harris job he's held for 40 years, bought tickets on five horses in the first race and the 14 to 1 shot, Colonel G., owned by Lou Hoag of Toronto, was the one that gave him a chance in the second race. For that one he picked Follow Jim, owned by George W. Gingell of Emmitsburgh, Md.

When Follow Jim scored at 5 to 1, it turned out that Bullard held the only winning ticket.

Herbert's Bobby Herbert won both heats of division one of the Ontario Pace. In addition, his three-year-old filly Mary G. Herbert gave her owner his third winner of the day in the fifth race.

In the Ontario Pace, second division, Daisy PP. Grattan, owned by Bill Woods of Chesley, was also a double winner, taking the second heat in 2.10 4-5.

✦ ✦ ✦

WON'T JOIN LEAFS

TORONTO (CP)—Noris (Babe) Martin, right - handed hitting catcher bought by Toronto Maple Leafs of the International League from St. Louis Browns of the American League, won't join the Toronto team, Maple Leafs officials said Friday night. They said Martin who operates a jewelry business in St. Louis, informed Bill DeWitt, general manager of the Browns, that he will retire from baseball.

✦ ✦ ✦

BEACHES START PREPPING

TORONTO (CP)—Chuck Klein, Balmy Beach of the Ontario Rugby newly-acquired football coach for Football Union, will meet his players for the first time Monday when the team will be fitted for new uniforms. In preparation for the earliest ORFU start in history, Aug. 15, the Beaches will undergo practice sessions staring Wednes-

✦ ✦ ✦

CUBS MAY BE SOLD

CHICAGO (CP)—P. K. Wrigley, owner of the Chicago Cubs National League baseball team, said Friday that he might sell the team "if the conditions were right." He was commenting on a story in the Chicago American that a group of Chicago business men were interested in buying the team. The story said they had a backing of $5,000,000.

✦ ✦ ✦

BREAKS 6-MILE RECORD

LONDON—(AP)— Britain's Gordon Pirie bettered the world record for the six-mile run Friday night with a clocking of 28 minutes, 19.4 seconds. The time was 11.4 seconds fater than the recognized world mark of 28:30.8 set by Finland's Viljo Heino in 1949.

✦ ✦ ✦

WESTRUM REPLACES RICE

CINCINNATI (AP)—Wes Westrum of New York Giants was chosen Friday to replace the injured Del Rice of St. Louis Cards, on the National League all-star team. Charley Dressen, manager of Brooklyn Dodgers and manager of the team which will play the American League all-stars here next Tuesday, announced the change.

Isola's Ensign Sets World Pacing Record

GOSHEN, N. Y. (AP)—Isola's Ensign set a world record for three-year-old pacing geldings in winning the $6,100 Orange County Board of Supervisors purse Friday as the grand circuit closed its meeting at Historic Track's half-mile oval.

Owned by Joe Neville of Delaware, Ohio, and driven by Wayne Smart, the son of Ensign Hanover paced the second heat of his two winning heats in 2:02 2-5. The old mark of 2:03½ was set by Lee Hanover in 1935 and matched by Little Pat in 1936 and Grattan McKlyo in 1945. Isola's Ensign won the first heat in 2:04 1-5.

France, Denmark All Square In Play

PARIS (AP)—France and Denmark were all square in their European zone Davis Cup semi-final round today while Belgium held a one-match lead over Italy.

Paul Remy of France defeated Torben Ulrich of Denmark 2-6, 6-1, 6-1, 6-2 Friday but Burt Nielsen squared it by beating Robert Haillett 3-6, 6-2, 6-4, 6-2.

Philippe Washer gave Belgium a lead at Brussels by whipping Fausto Gardini 6-4, 14-16, 2-6, 6-4, 6-3 and teammate Jackie Brichant held a 6-4, 1-6, 6-4 advantage over Guiseppe Merlo when their match was halted by darkness.

✧ ✧ ✧

Mrs. Joseph Peacock and sons Charlie and Winston, of Omemee, leave for New York July 7 to attend the international convention of Jehovah Witnesses. They will travel by car and will also visit in Brooklyn and South Lansing.

✧ ✧ ✧

Class Hold Outing

KEENE (ENS) — Twenty-eight members of the Tillicum Class enjoyed a turkey dinner at the Empress hotel Thursday evening, followed by a theatre party. This was to take the place of their July meeting. The August meeting will be held at the summer resort of Mrs. Velma Wilson and will take the form of a corn roast.

Lily Society Holding Show

GEORGETOWN (CP) — The North American Lily Society will hold its annual show at Hamilton July 17 and 18. Among the guests of honor will be Isabell Preston of Georgetown.

Although she will not be showing any of her own blooms, many of the entries will be descendants of the lilies she bred at Ottawa.

Miss Preston worked for 27 years with Dr. W. T. McCowan, federal horticulturalist, in developing new strains of lilies which would grow in Canada.

She began her flower breeding at the Ontario Agricultural College in Guelph.

Trouser Trends

SAN FRANCISCO — The trend which is strongly evident in sportswear market is the increase in trouser fashions. These may be frankly casual or elaborateyy dressy. The flattering tapered leg designs predominate and generally these come in one of three lengths —mid-calf, shoe-top, or ankle length.

The popularity of television has made such designs particularly wearable as attractive at-home costumes. One of the oldest firms in the West, Levi-Strauss and Company, recently discovered that its traditional denim tapered-leg riding pants were being widely used for this purpose.

LOTS OF EGGS

Adult oysters are believed capable of laying 60,000,000 eggs a year.

The Wisest Wife "Builds Up" Her Husband

Happy is the man whose wife builds him up to others instead of tearing him down.

The ways of building a man up are many and varied. Some are fairly obvious to everyone but the man concerned. Others are wonderfully subtle.

Any woman who puts her mind to it can be a real public relations expert for her husband.

But all too many wives make these common mistakes.

They think that if a story is funny and gets a laugh it doesn't matter that it is at the expense of their husbands. Nor do they notice that most of the laughter comes from the women present. Men don't really enjoy hearing a wife make her husband look silly.

THEY TALK TOO MUCH

They tell too much about their husband's business affairs. It makes a man look rather foolish before other men when his wife discusses his business in front of him as though she knows as much about it as he does.

They talk "poor mouth." Any talk that makes a man look like a poor provider should be avoided by his wife.

They act as though all men, and especially their husbands, are just grown-up little boys. Treating a man like a boy doesn't make him look like very much of a man to others.

They can't seem to let a man tell about an experience the two of them have shared without interrupting to correct a few of the facts.

They correct their husband's manners. However jokingly that is done, it makes a wife seem to feel superior to her husband.

Sometimes the wife who belittles her husband in public instead of building him up, does it to get even with him for doing the same thing to her.

Instead of trying to get even, she would be wiser to show him how much smarter it is for a husband and wife to help each other appear at their best before the world.

Institute Holds Citizenship Day

TRENT RIVER (ENS)—Citizenship was the topic of the meeting of the Women's Institute held in the community hall on Thursday afternoon. The roll call was "What foreign country I would like to visit and why." Mrs. Robert Prentice gave a paper on the topic. Mrs. Harry Mann, president, was in the chair.

Members decided to save coupons to get silverware for the community hall. The branch is to finance the project.

Five dollars was donated to the regatta fund. Mrs. Steve Deline gave a report on the district annual, which was held in the United Church here.

Tickets are to be sold on the first prize daffodil quilt which was in competition at last year's district annual. Draw to be made in September.

Mrs. Thomas Wight, convener, presented the following program: Sing-song, led by Mrs. Frank Openshaw at the piano; readings were given by Mrs. James Longmuir and Mrs. Tom Wight; Jumbled Cities contest was won by Mrs. Steve Deline; birthday prize was won by Mrs. James Longmuir and Mrs. Forchon, of Toronto, won the lucky plate contest.

Mrs. Francis Ruttan was acting hostess, assisted by Mrs. Jack Henry and Mrs. Harry Mann.

TO A PICNIC WE WILL GO—That's what families of employees of two Peterborough factories were humming today as they left the city for annual picnics. Canada Packers employees were the earliest getting away, leaving the CNR station for a day in Orillia. Meanwhile, at the CPR station, the Dominion Woollens and Worsted Company employees left at 9.30 a.m. for a day's outing at Tweed. Before the trains even left the stations, children were nosing into lunch baskets. Gail Crowe, Mrs. Albert Crowe, Eileen Casey, Frankie Casey and Mrs. William Casey (left to right, above) peek into their lunch basket.—(Examiner Staff Photo).

Woman Is Aged By Use Of "Glamour Props"

One product of urban life today is the "middle-aged glamor girl." This mature woman seems unaware of the possibilities for charm and attractiveness that are latent in her age group. She seeks instead—vainly, of course—to remain eternally as she was in her twenties.

Her vision is clouded by wishful thinking when she looks into a mirror. The make-up and clothes she adopts to keep her "young" delude her into thinking that she is.

The long "glamor bob," popular when she was a girl, is still her favorite coiffure. She wants to mask her grey hair. This latter aim, often a good one, is defeated in her case by the choice of a garish hair color, unrelated to her complexion. Her make-up is overdone. Her perfume is too heavy.

She wears after-five costumes at high noon, in satins, brocades and stiff taffetas. The cut of her dresses is more suitable to a slender figure, since her greatest beauty need is for diet and exercise. With these dresses, she wears fancy shoes and a great deal of jewellery, regardless of the hour or occasion.

This "middle-aged glamor girl" has her imitators in countless numbers — women who mistake her for the "real thing" in beauty and charm. Every detail is copied but the effect is sloppier — the make-up less careful, the clothing of poorer quality.

None of these women fool anyone but themselves. The props serve to make them look, not younger, but at least 10 years older. The pseudo "glamor girl" needs a slenderizing program, an up-to-date hair style, a new concept of naturalistic make-up, an appropriate hair color, and clothes in good taste.

Keene Choir Honors Member

KEENE (ENS) — The United Church choir held a social evening at the home of Mrs. George Richardson, Lang, on Wednesday, in honor of Miss Phyllis Edwards, whose marriage to Mr. Donald Hope is to take place in the near future. Eighteen members attended and presented Miss Edwards with a lamp. Refreshments were served by the ladies.

Stirling News

Mr. Glenn Watson left on Saturday to take a six-weeks course at the University of Western Ontario, London.

Lois Mason, Springbrook and Gerald Cooke and Carl Reid of Stirling received first class teachers' certificates from Peterborough Normal School.

Miss Carol Sleeper is spending this week with friends in Gilmour.

Mr. and Mrs. M. Harter of Ellenville, N.Y., are guests of Mrs. Hugh Morton.

The Rev. and Mrs. David Gray of Lunenburg were guests of Mr. and Mrs. Arthur Scott this week.

Mr. and Mrs. Joe Fellion are spending their annual vacation in Toronto.

Mary Lou Faires and Janet Ann Good are attending CGIT camp at Quin-Mo-Lac camp at Moira lake this week.

The Rev. and Mrs. R. R. Bonisteel were over-night guests of Mr. and Mrs. Frank Hutchison of Detlor this week.

Mrs. R. B. Duffin returned home Thursday night after enjoying a two-weeks motor trip to the Maritimes with Mrs. L. McKee of Belleville.

Marmora News

Mr. Arthur Melhan of Niagara Falls N.Y. is visiting relatives here.

Mr. and Mrs. S. M. Reinhart of Niagara Falls N.Y. are spending a few days at the Belle-Vista Motel.

Mr. L. Begley is vacationing with relatives in Kingston.

Messrs. W. A. Pearse, C. Laininger and D. Farrington of Cleveland Ohio are vacationing at their Thompson Lake Lodge.

Packers', Dom. Woollens' Employees Off For Picnic

"Hold it . . . hold that train . . ."

The boys in the baggage car shouted as they spotted one of their tardy fellow packers limping his way furiously, picnic lunch in hand, after the departing train. The train stopped and the two hundred or so merry-makers welcomed the final member.

Today, all personnel and their families were invited to the annual Canada Packers' picnic held at Couchiching Park, Orillia, where they will partake in all the usual games associated with such an event. Races for boys and girls, men and women, married and single, are arranged. Horse-shoe pitching, softball games, tug-o'-war and even bait-casting will be enjoyed.

For the children an added attraction will appear this year. The park has installed a Miniature Train at the north end of the grounds. Arrangements have been made to have a special stub on the children's refreshment tickets allow them a free ride. A further attraction will be the presence of two cruisers to take picnicers on a tour of Lake Couchiching.

Two refreshment stands will be operating on the grounds, and tickets given the children will make available all the hot-dogs, candy and soda-pop that their little tummies desire. Picnicers were instructed to bring enough lunch to provide two meals as they will not leave the park for Peterborough until 6.30 this evening.

At approximately the same time as the Packer's were leaving the CNR station, a similar group of Dominion Woollens' employees were mounting a CPR train for Tweed, bound for a day of fun and social contact. They will take their stand at Memorial Park and considering that their group is large enough to fill six railway coaches—there should be a surplus of gaiety.

The Dominion Woollen and Worsteds employees will arrive home about 9.00 p.m. with the Canada Packers arriving about an hour later.

NICE CHANGE

A cover up that is a change from the usual stole or bolero, for wear with strapless or sunback dresses, is a neat weskit. Black and white striped cotton, bound in black braid and fastened with little black shoe buttons, goes smartly with black cottons or linens.

Country Fair In Lakefield

LAKEFIELD (ENS) — The "Country Fair" held under the auspices of the Church of St. John the Baptist this week was a most successful event. Despite the afternoon showers, the fun conued and everyone had a wonderful time.

The grounds of the parish hall, where the fair was held, were gay with bunting and flags, the work of Chief Petty Officer Lee of the Grove School, and the sale of work and other articles was held in the large tent, supplied by Grafton's of Peterborough.

Those assisting in the afternoon and evening were: Refreshments, Mrs. F. Hudson, Mrs. E. Waldon, Mrs. P. Watson, Mrs J. Twist, Jr., Mrs. Edna Gill, Mrs. Norman Graham and Mrs. William Armstrong; Miss Amy Watson, Mrs. W. Eaton, Miss Anne Witherstone; home baking and candy, Miss Jean Aiken, Mrs. Ron Burgess, Miss Ogilvie and Mrs. H. Pemberthy; flowers, Mrs. C. Crawford and Miss Scotland. Country store help, Mrs. C. Stenner, Mrs. B. Q. Dench, and Miss Gay Box.

Tin pan alley, where cooking utensils and many other useful articles were for sale was in charge of Mrs. A. R. Gariepy, Miss Anne Gariepy and Miss Mae Hampton. The fish pond was looked after by Mrs. Griffin, Mrs. J. Bell and Mrs. Thomas Junkins.

Tam Gant's pony provided rides for the children and was one of the most popular features of the fair. Tam was assisted by Mr. F. Dainton, John Edwards, Bill Twist and Ken Remnant.

Mrs. Harold Deeth, Mrs. Connors and John Deeth were in charge of the games and the tea cups were read by Mrs. John Twist, Sr. and Mrs. E. Butterworth.

Tea was made by Mrs. C. Sisson, Mrs. Ted Webster and Mrs. S. E. White.

The publicity was managed by Mrs. William O'Brien and Mrs. L. J. Delaney. Mrs. George Birch was treasurer and general conveners for the successful event were Mrs. F. Dainton and Mrs. H. E. Gastle.

The ladies were grateful for the help given by a number of people towards the success of their fair.

Blue Jeans, Taking Place Of Slacks On Holiday Trips

By MURIEL PENN

LONDON (Reuters)—Blue jeans and stove-pipe trousers are invading the wardrobes of British women leaving on summer vacations—and the fashion designers are already unveiling the sports clothes for the still-months-away winter season.

Whether seaside, mountain or lake is the chosen destination, one thing sure to figure largely in the wardrobe is the beach suit, consisting of shorts, "bra" and matching blouse, and, perhaps, one of the new shortie coats.

Slacks and, to a large extent except for beach wear and sun bathing, shorts are quite out of date this year. Their place, already usurped by blue jeans last year, has been taken this year by stove-pipe trousers.

And, looking ahead, that goes for the winter, too. The latest ski suits now being designed for next winter all show the influence of Miss 1953's craze for the stove-pipe trousers.

MATADOR TROUSERS

A variation of this style, for wear at the smartest resorts, winter or summer, is seen in matador trousers—close-fitting and embroidered with braid, straw, beads of diamante—or a combination of all of them—round the waist and down the outside of the legs.

One striking suit, designed for after-ski wear by Teddy Tinling, designer of tennis star Gussie Moran's famous lace panties, is in heliotrope towelling embroidered with white straw and diamante.

A beach suit features an all-black wool jersey two-piece, "laced" together at the waist with a black cord. Designed by Rima, the upper part consists of a short-sleeved sweater and the lower part is a pair of rather short, close-fitting jeans.

A full straw skirt made on a model imported from Italy can be worn with this beach suit, converting it into a dress for street wear, restaurant-going or even for an informal cocktail party.

POPULAR SHORTIE COAT

A variation of the converted beach wrap this year is the shortie coat which reaches to just below the thighs and is made in denim or just ordinary mattress ticking.

Both of these materials are widely used for informal cotton dresses and one of the smartest duster coats seen at Ascot race meet was made of blue striped mattress ticking, shower - proofed and fastened with large red buttons.

For the chilly evening by the sea or aboard ship, a practical and at the same time smart sweater has a ribbed sleeve from the wrist to within about two inches of the elbow, giving the effect of the fashionable just-below-the-elbow sleeve while providing the required warmth.

Mrs. Victor Oliver Has 89th Birthday

CAMPBELLFORD (ENS) — Mrs. Victor Oliver, of Campbellford, celebrated her 89th birthday at the home of her daughter, Mrs. Victor Hay, on Friday.

Many of Mrs. Oliver's older friends were on hand to help her celebrate, and many cards and presents made the day one to remember for her.

Some of Mrs. Oliver's closer friends attended a party highlighted by a cake decorated with 89 candles. Some of those present included: Mrs. W. Feltwell, Mrs. A. Rutherford, Mrs. Jessie Jackson, Mrs. Mary McMullen, Mrs. Emma Ross and Miss Buchanan.

Mrs. Herbert Oliver, a niece of Mrs. Oliver, assisted Mrs. Victor Hay in entertaining the guests.

Mrs. Oliver was born near Warkworth, the daughter of the late Mr. and Mrs. George Herriot. She has a daughter, Mrs. C. C. Howard, in Windsor, and a son, Elmer Oliver, of Peterborough.

Trent River News

Miss Gena McNeely of Port Colborne is spending the holidays with her mother Mrs. George McNeely.

Mrs. Jack Hagerman, Lou and Jimmie of Toronto are spending a week with her mother Mrs. George McNeely.

Mr. and Mrs. Richard Scalzo and daughter Frances of Niagara Falls New York are guests with Mr. and Mrs. Thos. J. Brown. Mr. Scalzo has returned home while Mrs. Scalzo and daughter are remaining for a couple of weeks.

Mr. and Mrs. Gene Rippel of Ohio are guests with Dr. and Mrs. Koon at their cottage Ka Lodge.

Mr. and Mrs. Bill Pollock and daughter Ginger Lee of Toronto are holidaying at the Evans cottage.

Mr. and Mrs. Maclean, Donald and John were recent guests with Mr. and Mrs. "Bob" Jenkins at Presquille Point.

Mr. and Mrs. W. C. Inkster are visiting for a few weeks with Mr. and Mrs. "Sandy" Sanderson at Oxford Station.

Mrs. Jack Fisher is holidaying in Sarnia and Toronto.

Mr. and Mrs. E. V. Buchanan and son Gregory of Peterborough, Mr. and Mrs. Kenneth Green, Havelock were recent guests with Mr. and Mrs. Sam Ellis.

Rev. and Mrs. Donald Ellis of Brockville are at their cottage for a few weeks.

Mr. and Mrs. Murray Wight are attending summer school in Toronto.

Mr. and Mrs. Cliff Forchon of Toronto are spending the week end at the Evans cottage.

Staff Sgt. Murray Fraser, Mrs. Fraser and family of Victoria, B.C., are visiting with his parents Mr. and Mrs. W. Fraser. Murray is on holidays and reports to Ottawa for further army duty.

The annual Denike family reunion was held at Green Point, Trent River on Sunday, with Mr. and Mrs. Wallace Denike, Judith, Gerald and Janice of Toronto entertaining the guests at their cottage.

Those present were Mr. and Mrs. Norman C. Stibbs, Nelson, B.C. Mrs. W. N. Denike, Winnipeg, Man., Mrs. W. A. Whidden, Mr. Douglas Crawford, Mr. and Mrs. Emerson Denike, Brian, Mary, Joy and Susan, and Mrs. C. R. Maclean, all of Toronto, Mr. and Mrs. Sherman Foster, Richard, Theodore and Ruth, of Hillier; Mr. and Mrs. Ivan Denike of Norham; Mr. and Mrs. Keith Chiles, Vernon and Arlene, of Peterborough, Mr. and Mrs. David King, Paul and Mark and Mr. Robert King of Grafton, Mr. and Mrs. Douglas Edgar, Elaine and Karen, of Warkworth, Mrs. G. W. Chiles and Mr. and Mrs. Everard Chiles, John and Richard of Havelock.

Dr. Ada Hudson-Koons entertained the ladies of the bridge club on Wednesday night at her summer home, when Mrs. Ross Pollock, Mrs. George Brooks, Mrs. Francis Ruttan and Mrs. Eric Little were prize winners. At the close of the games, the hostess served a salad plate lunch.

FOR PARENTS ONLY:

Drowning Is So Permanent Practise Water Safety

BY NANCY CLEAVER

"There are far too many swimming fatalities!" John Smith remarked to his wife as he finished reading aloud the account of a [illegible] boy losing his life in an accident when two motor boats collided in the middle of a lake.

"I am going to check over the water safety rules posted up at our local swimming pool with our son. I don't want him taking any crazy chances this holiday!"

Drowning is so permanent! This is a good idea—and another plan is to read aloud in the Family Council these Swimming regulations which have proved their value. Discuss the reasons behind these rules and mark the ones you consider most important.

WARNING SIGNS TO BE OBEYED

Don't go swimimng until one and a half hours after a meal. On a hot day, cool off a bit before plunging into the water. Never go swimming alone—always have a companion or "buddy." Swim if possible where a lifeguard is on duty, and the bathing area is known to be safe.

Obey warning signs: If a sign says "Danger" it means just that. Don't dive into unfamiliar water—you do not know the depth or whether there are sharp rocks, glass, or jagged edges hidden on the bottom. When swimming a distance, always be accompanied by a row boat—and climb into it if you are exhausted. Be careful when playing on a raft or a dock surrounded by deep water. It is easy to fall off, and not nearly so easy to climb out of the water.

When beginning to swim, wade out to the deeper water and swim into shore. In a race, always swim to shore or parallel to the water's edge and not far from land.

DON'T ATTEMPT STUNTS

Avoid silly stunts in the water. Don't attempt a swim or a dive beyond your skill or strength on someone's foolish "dare". Don't do a lot of yelling—or pretend you are in danger. Remember the boy and the "Wolf! Wolf!" story.

Stay out of a canoe until you can swim. Non-swimmers should wear life belts for a trip in any boat, or have life preservers handy. Act in a responsible way in a boat, not rocking it or changing seats, etc. If you are tipped out of a boat, don't swim for the shore. Cling to the boat and call for help.

A boat is no place for fooling or wrestling. Act sensibly. Obey water traffic rules to prevent bumping into another boat. Help keep the boat level from side to side on an even keel and bow to stern. Refuse to go in an overloaded boat — overloaded either with freight or passengers. Leaning over the side too far is inviting a misshap—so is standing up in a boat.

If a sudden rain storm comes up, or an unexpected "blow," keep calm and don't get in a panic. If someone near you needs assistance in the water, don't jump in and attempt a rescue unless you are a good swimmer and know how to go about saving a life. Call for help while looking for an inner tube, a rope, a plank, or some other buoyant article for the person to grasp.

If you don't know how to carry out artificial respiration—learn it! With knowledge and practice you may be able to save someone's life some day.

Water Safety! It's up to you in swimming and in boats! If an accident should happen, you don't need to panic. You know what to do! Don't take any chances—Drowning is so permanent!

Douro Family Honored On Leaving

Approximately 200 friends attended a social evening in SS 12 Douro, Wednesday evening to honor Mr. and Mrs. Don Dwyer and family who are leaving to make their home in Peterborough. Mr. and Mrs. Dwyer formerly operated the Douro telephone system.

The social evening was under the capable supervision of Mr. John P. Sheehan.

Following the reading of an address by Mrs. Joseph Lonergan, on behalf of the Douro telephone subscribers, Mr. Sheehan introduced several speakers. They included Mr. R. Tedford, reeve of the township; Mr. J. Mahoney, township clerk, Mr. J. V. O'Connor, secretary of the telephone commission, Mr. Robert Leahy, chairman, and Mr. R. Sheehan. All paid tribute to the efficiency and co-operation given by Mr. and Mrs. Dwyer.

A presentation of a purse was made by Mr. R. Sheehan on behalf of the subscribers.

During the evening an address from the Douro CWL was read by Mrs. J. V. O'Connor, president of the league and Mrs. A. O. Grady presented Mrs. Dwyer with a pearl rosary.

Mr. and Mrs. Dwyer thanked their friends and expressed appreciation for the social evening in their honor.

Music by local talent was greatly enjoyed.

Refreshments provided by the ladies were served.

Fashion Flashes

Not all skirts are slim. A beautiful import is of paper-thin gray taffeta, an ankle-length dinner dress. An enormous collar, high in back and sloping almost to the waist in front, is edged with the fabric. The tent skirt is extravagantly full, but falls in graceful folds.

✧ ✧ ✧

Flattery is the nice job of a new group of hats, made to wear with dressy town clothes. A medium-brimmed sailor has a brim massed with white flowers above and below, to contrast with the rounded crown of black velvet. Edging the brim is a band of corded turquoise velvet ribbon.

DEATH RATE DECLINES

The death rate from tuberculosis in the United States has declined more than 80 per cent since 1900.

MOBILE SEPARATES with a mobility of both use and movement are a new creation.

At (left) blouse-and-skirt in gray denim with yellow sunflowers. Flowers are placed down the front and at the hipline. Skirt has easy fullness.

Embossed sheened cotton in light green (right) makes halter top and skirt that gets big white poppies blown irregularly across the front. These separates could go to any informal summer evening party, out dancing under the stars or to a late-afternoon gathering on patio or terrace.

Readers' Saturday Column by Mary Moore

QUESTION: (from Blanche S. who asked for Almond Bars)

ANSWER: I did not have a recipe containing the ingredients Blanche S. asked for, so I asked you to send it to me if one of you had it. Mrs. J. O. L. did have it. She calls them

OATMEAL FINGERS

(Contributed by Mrs. J.O.L.)

(These contain all of the ingredients Blanche S. listed.)

One-half cup melted butter or margarine, 2½ cups rolled oats, 1 cup brown sugar, ½ teaspoon salt, ½ cup blanched almonds. Mix dry ingredients, add melted butter or margarine, mix well. Pack into buttered 8x8 inch pan. Bake in moderate oven (350 deg. Fahr.) 25 to 30 minutes. Cool. Cut in fingers. Mrs. J.O.L. does not say when to add the almonds. I think they could go either in the mixture or be sprinkled on top before they are baked.

Thank you very much Mrs. J.O.L. much. W. A. L.

QUESTION: Could you please send me some recipes, menus and suggestions for an anniversary party? It is my son's 3rd and my daughter's 1st. Would wedding decorations be suitable? I might have around 16 or 20 people. I thought we might play court whist. There will be a mixed party of men and ladies, also young and old. Do you think sandwiches, cookies etc., are best? or cooked meat, salads, etc. I do hope I am not asking too

ANSWER: The first wedding anniversary is Paper. Gifts for it include letter-writing paper, assorted kitchen paper supplies such as serviettes, towels, wax paper, baking cups. Other costlier gifts are books, subscriptions to magazines or newspapers; paper towel rack and paper towels, picnic supplies such as plates and cups of hard paper, and of course the always-welcome cheque.

The third wedding anniversary is Leather. Gifts for it include belt, wallet, keycase, travelling sets such as shaving or cosmetic sets or brief case or purse or luggage; make-up sets or manicure sets, picture frames, slippers, books, address books.

For your daughter's benefit (the girls notice your efforts more than most boys anyway) use paper tablecloth, napkins, plates and "glasses" for your refreshments. I think it is going too far to use paper flowers, besides I don't like them, and the garden flowers are so lovely now.

I think your idea of sandwiches and cookies is the best. How would you like to make rainbow sandwiches—symptom of happiness?

RAINBOW SANDWICHES

Remove crusts from fresh loaf of bread and cut 3 slices lengthwise. Divide cottage cheese into 3 parts for spreading. To one part add green coloring, to the next pink coloring and the third yellow coloring. Spread the colored cheeses in sections on the buttered long slices of bread and roll them up, jelly roll fashion. Secure them firmly by wrapping in wax paper, then in tea towel and chill to make firm. Slice in rounds one-third inch thick to serve.

I think a modest, professionally-frosted wedding cake would be very appropriate too.

✧ ✧ ✧

QUESTION: I read your column and receive much inspiration... would you please send me a Sunday supper menu for ten? I have no dining-room and would like to serve it buffet style in living-room. I have in mind a sandwich loaf with various fillings and iced with cheese. Would this be suitable? What would you serve with this besides relishes and what would you serve as dessert?

ANSWER: The cheese - "iced" sandwich loaf would be delicious. Be sure you have a very sharp knife to slice it with, for you must do this before your guests because the beauty of the loaf is in its unsliced appearance. Serve a tossed green salad or individual jelly moulds such as tomato aspic in which you have moulded shredded cabbage or celery or cucumber or sliced olives or hard-eggs. Serve hot buttered tea buns or biscuits. Angel food cake and ice cream with sliced berries is always popular. You did not say when your party was to be. If you would like to make one of those fancy angel food cake desserts with a jellied fruit filling and still have time to write to me again, do so and I will send you the metthod.

Fashions

SIZED TO 48!

A FIND! A slimming date-dress! Wide straps and high back are cut to flatter your shoulders and arms: that neckline is lovely with or without cuff. Graceful skirt is gored—so slenderizing! Make it in shantung or cotton—wear it everywhere this summer!

Mr. Royce Timlin, Belleville, is holidaying with his parents, Mr. and Mrs. Bruce Timlin.

FLORAL EMBROIDERED

PARIS — There are pleasing floral embroidered organdies in black with sprigs of yellow mimosa, or green and white lily-of-the-valley sprays, as well as white organdies embroidered with pink peach blossom, as favored by Pierre Balmain.

SLACKS ARE OUT

PARIS — Instep-length slacks are entirely out of the fashion picture at present. Indeed a general impression is one of greater femininity, achieved by skirts and simple frocks rather than trousered effects.

Of Interest to Women

DOROTHY DIX:

Married 30 Years; Finds Wife's Nagging Too Much

DEAR MISS DIX: I've been married over 30 years, and, though I love my wife and two children, our home life is becoming intolerable. The trouble is a nagging wife. My in-laws have always been against me because I wasn't wealthy, so from the beginning she has been made to feel dissatisfied. Naturally, she takes it out on me. She doesn't agree with anything I do or say, would much rather make a sharp comment than a pleasant one, and never shows interest in my work or anything else that concerns me. I've asked my children to try to set her straight, but they refuse to butt in, as they put it. The doctor has told my wife she must try to help herself, that she's a healthy woman. I would hate to leave my family, but I can't stand this constant aggravation.

S. L.

✧ ✧ ✧

SOURCE OF TROUBLE

ANSWER: Thirty years of nagging and bickering are enough to wear away the strongest spirit. However, the fact that you haven't folded up ere this would indicate some bearable aspects of your marriage. Careful consideration of the advantages of your married life may offset some of its inadequacies. The mounting tension of your home life may be due largely to the fact that you have been at home for the last three years. You mention that illness has kept you unemployed for that period and if you've gotten into the habit of being around the house all day, the domestic situation could easily be one to break nerves of steel. A man who hangs around the house all day, with nothing to do, is a terrific source of potential trouble. Whether you are conscious of it or not, you are inevitably bound to observe and comment on everything your wife does—and you'll usually decide it's being done wrong. She, on the other hand, has been accustomed to going about her daily tasks without supervision, and naturally resents your constant surveillance.

For radical assistance, I strongly urge that you take a vacation, then see that your wife gets one. Even if funds are low, there are resorts where you can have a complete rest at small cost. If you belong to a society, they may have a vacation home where you can be accommodated? Then, take up a hobby, or acquire some interest that will get you out of the house occasionally. And again, see that your wife gets out, too.

✧ ✧ ✧

DEAR MISS DIX: I am 17 and very happily married to a navy man. Of course as you know, being married to a serviceman involves a good deal of moving about. We are now in a city 1,100 miles from my home and, since my husband is away a few nights a week, you can see I am quite lonesome. How can I make friends?

ETHEL S.

✧ ✧ ✧

ANSWER: Your loneliness certainly is understandable, but you are accepting it gallantly, especially in view of your tender years. You are located in a city that is practically dominated by the navy. There must be hundreds of other young wives in your predicament, and there must be many opportunities to meet them. Doesn't your husband have married friends whose wives you could meet? Ask the chaplain to suggest some source of companionship—a club, canteen, or dance group. Take advantage of any opportunity to strike up an acquaintance; even the supermarket can serve as common ground. I'd like to know how you progress.

✧ ✧ ✧

DEAR MISS DIX: My boy friend is 20 years old, and in a short time his parents are moving to the country. They have asked him to give up his job here in order to help at the new farm. We were planning to become engaged, then married in a year, but if he decides to quit his job this will be impossible. I love him very much, and know if he moves I'll only see him on week ends. Should I tell him not to quit his job? After all, his Mom and Dad have lived their lives, why should he sacrifice for them now?

B. E.

✧ ✧ ✧

ANSWER: You have a very selfish outlook that doesn't promise much in the way of happiness for you. Your friend is still under age, and even if he were older, he still owes something to his parents. He's being asked to help them out in an emergency, and common decency would dictate that he do this much for his family for a while. Since you aren't even engaged, it's rather unseemly for you to expect to come first in the boy's life. He has lots of time to carve a future, and in the meantime being restricted to weekend dating isn't nearly as horrible a fate as you imagine. If the boy has absolutely no aptitude for farming, the story may be different, but if he likes country life, and is willing to help his folks, I advise you not to barge in with unwelcome advice.

Lakefield News

Mr. and Mrs. F. L. Erskine and daughter Lynne of Burlington are holidaying at their cottage, Clear Lake.

Mr. and Mrs. J. Gordon Bastedo and Mrs. Allan Savage of Toronto were weekend guests with Mr. and Mrs. William O'Brien and Mrs. T. J. Parker.

Miss Lynn Lichty of Islington is spending her vacation with Miss Carolyn Down and Miss Lynne Erskine.

Mr. and Mrs. C. G. Jackson of Toronto are holidaying with their daughter and son-in-law Mr. and Mrs. Harold Deeth.

Miss Suzanne O'Brien of Detroit, Mich., is a guest with her aunt, Miss Bertina Beavis.

Miss Phyllis Mitchell of Burlington, Miss Anne Samis of Lakefield, Miss Leona Foulger of Hamilton, Mrs. Peggy Hewett of Aldershot and Stanley Roscovich of Hamilton were recent guests with Miss Carolyn Anne Erskine at Clear Lake.

Mrs. Jack Crapp of Montreal is spending a holiday with friends and relatives in the village.

The Rev. and Mrs. H. C. Wolfraim, Ruth and Anne of Almonte arrived in the village this week. Mr. Wolfraim is the new minister of the United Church.

Mrs. William O'Brien, attendant at the information booth sponsored by the Chamber of Commerce, reports that to date more than 300 inquiries from United States visitors have been received.

Mr. and Mrs. J. L. Browne and Susan of Dundas were guests this week with Mr. and Mrs. F. L. Erskine at their cottage on Clear Lake.

John David Grylls has returned to Toronto where he will attend summer school after spending a week's holidays with his parents Mr. and Mrs. S. A. Grylls at their cottage, Clear Lake.

Mr. and Mrs. Harry Wagar, of Point Anne were in the village on Tuesday attending the funeral of Mr. J. W. Ridpath.

Cotton Fabrics Now In Suits

Taking hold is the new suit trend, that of fine cotton fabrics cut and handled as carefully as fine wool or silk. Black pique is used for one such suit, with a boxy, cutaway jacket, the collar tabbed down at either side with white buttons, set to form a triangle with buttons of the fastening. Skirt is slim; jacket is lined in red and white checked gingham to match the bow-necked blouse.

RICARD—Mr. and Mrs. Jack Ricard are pleased to announce the birth of a daughter at Peterborough Civic Hospital, July 7, 1953.

SALO—Mr. and Mrs. J. Salo wish to announce the birth of a baby daughter, Teresa Charlene, 7 lbs., 6 oz., at St. Joseph's Hospital, July 10, 1953. Sister for Chuck and Johnny.

2—Engagements

Mr. and Mrs. Gordon Fairburn, R.R. 1, Peterborough, wish to announce the engagement of their youngest daughter, Isabel, to William George Warner, Hastings, son of Mr. and Mrs. W. G. Warner. The wedding to take place at St. Paul's Presbyterian Church, August 1, at 12 o'clock.

Mr. and Mrs. John Connolly, Peterborough, wish to announce the engagement of their daughter Cecelia Norah to Michael Joseph, son of the late Mr. and Mrs. Joseph Connaughton, Ireland. Wedding to take place August 1st, 1953, at 9 o'clock at St. Peter's Cathedral.

5—Deaths

MILLER, Mary Ann Nettie—At Omemee, Saturday, July 11, 1953, Mary Ann Nettie Graham, beloved wife of the late Harry Miller. Dear sister of Mrs. Emma Woods. Funeral from the home of her sister, Mrs. Woods, Omemee, on Monday, July 13th, at 2:30 p.m. Interment Emily Cemetery. Rev. V. E. R. Zufelt officiating.

WOODS, William Lavery—At his home, 54 Wellington Street, Lindsay, July 11th, 1953, William Lavery Woods, beloved husband of Georgina Richardson. Dear brother of Mrs. J. F. Brabazon (Beatrice) of Blackwater, and uncle of Mrs. I. W. Taylor (Catherine) of Peterborough and Thelma Woods of Anaheim, California. Resting at the Mackey Funeral Home, Peel Street, Lindsay, for service in the chapel on Monday, July 13th, at 2:30 p.m. Interment Riverside Cemetery.

6—In Memoriam

McCALL—In loving memory of Mrs. Wilbert McCall, who passed away July 11, 1941.
Sweet memories will linger forever,
Time cannot change them it's true,
Years that may come cannot sever
Our loving remembrance of you.
—Ever remembered by husband and family.

NICHOLS—In loving memory of our dear father, Peter Nichols, who passed away July 13, 1944.
Till memory fades and life departs,
You will live forever in our hearts.
—Ever remembered by his family.

NOBLE—In loving memory of mother, Mrs. Gladys Noble, who passed away July 11th, 1950.
There's a face that is haunting us, ever, ever,
There's a voice that we're longing to hear,
There's a smile we'll remember forever
Though we try to forget every tear.
There's a sad but sweet remembrance,
There's a memory fond and true,
There's a token of affection, dear
And a heartache still for you.
—Ever remembered by her daughters Hilda and Margaret, sons Walter, Delmar, Bob; and son-in-law Jerry, and Douglas.

NOBLE—In loving memory of Mrs. Gladys Noble, who passed away July 11, 1950.
And while she lies in peaceful sleep,
Her memory we shall always keep.
—Always remembered by Harry, Ethel and Donald.

READER—In loving memory of a dear mother, Mrs. Ephriam Reader, who passed away three years ago today.
Those whom we love go out of sight
But never out of mind,
They are cherished in the hearts
Of those they leave behind.
—Ever remembered by Audrey, Ken and family.

TIGHE—In loving memory of Edward T. Tighe, who passed away 11th of July, 1951.
Gone, dear husband, gone forever,
How we miss your smiling face,
But you left us to remember,
None on earth can take your place.
A happy home we once enjoyed,
How sweet the memory still,
But death has left a loneliness
The world can never fill.
—Ever remembered by his wife, Emma.

TIGHE—In loving memory of Edward Tighe, who passed away July 11, 1951.
You're not forgotten, father, dear,
Nor ever shall you be;
As long as life and memory last
I shall remember thee.
—Always remembered by Alma and Ivan, family.

TIGHE — In loving memory of my father who passed away July 11, 1951.
His smiling way and pleasant face
Are a pleasure to recall,
He had a kindly word for each
And died, beloved by all.
Some day we hope to meet him
Some day, we know not when,
To clasp his hand in the better land
Never to part again.
—Lovingly remembered by his daughter Elsie, Marvin and grandchildren.

Lindsay Gets Close One Over Oshawa

LINDSAY (ENS) — Ex-Peterborough seniors Joe Lowrey and Bill Edger proved the heroes here last night as Lindsay Merchants climbed back into second place in the Lakeshore Baseball League standing, ending Oshawa Transporters' win skein at 19 straight by taking a tight 2-1 win in the extra inning.

Edger's single, with two out in the eighth inning, scored Joe Lowrey from second and gave Merchants their 10th win in 17 starts. It was the first loss of the year for the league-leading Oshawa crew.

Lowrey pitched beautiful six-hit ball to equal the effort of Cec. Hall on the mound for the losers. The visitors opened the scoring in the first on Varga's single, an infield out and Cookie's single. In the second, the Merchants came back with one, Menzies walking, taking second on Stewart's sacrifice bunt and scoring on Vic Jewell's single, the first hit any team had made off Oshawa pitching in three games.

In the third, the Merchants had another chance, but Lowrey was out trying to stretch his Texas-league single into a double. Lowrey ran into trouble in the fourth, loading the bases on two singles and by hitting Brabin with a pitch, but a double play, Lowrey to Menzies to Edger, ended the threat. In the fifth, the Transporters again loaded the sacks on a walk, Edger's error, and another walk, but Menzies and Edger worked another double play before Debois caught the final out.

Hall left Menzies stranded at third in the fourth but pitched airtight ball until the eighth. Lowrey dropped a single to right, stole second, then came in when Edger's drive caught first baseman Mason by surprise, and there was no one at the bag to take Coggins' throw.

For the winners, Lowrey and Edger had a pair of hits each. The losers' best was Bill Cook with three hits. Fielding gems were provided by Debois at short in the second, West who pulled down a long drive in front of the scoreboard, and Brabin who had to go to the fence in the seventh to take Joe Stewart's long poke.

Oshawa—Varga ss, Coggins 2b, Cooke cf, Joskoski 3b, Mason 1b, Brabin lf, Barnes rf, McArthur c, Hall p, Etcher rf.

Lindsay—Lowrey p, Edger 1b, Garvey 2b, Menzies c, Stewart 3b, Debois ss, Jewell lf, West cf, Widdis rf, Wickett rf.

Oshawa	100 000 00	1	6 0
Lindsay	010 000 01	2	6 1

Campbellford Hospital Nearing Completion

CAMPBELLFORD (ENS)—Workmen are busy at the Campbellford Memorial hospital, adding the finishing touches to the building before it is opened.

Equipment and furnishings are being moved into part of the building, where they will be stored.

Painters are applying tints of yellow, blue and pink to the rooms. Some of the equipment has been placed in the sterilizing room.

All of the equipment is of the latest design.

Gave No Signal Driver Fined

LINDSAY (ENS)—James Cayley, 72, Ops township, was convicted by Magistrate Philp, of Peterborough, of careless driving when he appeared Friday. The charge was laid following an accident on June 27 on Highway 7 west of Lindsay.

Gordon McElwain, of Toronto, was driving west on Highway 7 when he saw Cayley beginning to make a left turn towards him into a laneway on the north side of the road. McElwain admitted he might have been able to stop in the 150 feet he had at the time, but did not want to apply his brakes too hard since he had three passengers in the car.

McElwain's car struck the rear fender of the Cayley vehicle as it drove into the laneway. Damage to the Toronto car was set at $300 by Constable Baker. Damage to the old model Cayley car was some $30. Asked to explain the difference in the sums, Constable Baker said, "Well, when an old car and a new one collide, the new car hasn't too much chance these days."

Cayley claimed that the McElwain car had been off the highway when it struck him and that he had been completely off the road also. "He was going very fast," said Cayley, "because I first saw him 100 rods away and I was only about 30 feet from the laneway. When I finished my turn he hit me."

Crown Attorney Lorne Jordan noted that Cayley had not signalled for a turn, and thus presented an emergency to McElwain. Cayley was defended by Col. R. I. Moore. He was fined $10 and $13.75 costs.

Cavan Tax Rate Set By Council

MILLBROOK (ENS) — The Cavan township tax rate for 1953 is 16.7 mills, a bylaw passed earlier this week by council sets forth.

Following are a list of the rates incorporated in the bylaw: County rate 14.5 mills, township rate 16.7 mills, general school rate 6.1 mills, Peterborough Suburban High School Board 13.2 mills, Durham County High School Board 9.8 mills, Federation of Agriculture ½ a mill, public school rates as required by requisition.

Garnet Shields, county assessor, and W. L. Elson, township assessor, were present and said that the township's equalized assessment could not be finished in time for this year as the roll is turned in by September 30.

A request from the North Monaghan School Area to issue debentures was laid over until council could get more information on the proposed addition to the school. This was the first time they had heard of the project, councillors said.

Accounts of $7,785.49 were ordered paid.

Janetville Triumphs

Janetville defeated Peterborough Dodgers 10-6 last night in a Durham Baseball League fixture on the former's grounds. Burns threw nine-hit ball for the winners and fanned six, issuing five walks. For Wimp Borland's boys, Casey was nicked for 11 hits in three and two-third innings as he whiffed three. Wade finished up, allowing four hits and fanning three. W. Rowe had two hits in three trips, one a double. Griffin also doubling. Appleby and Burns of the winners each had three safe blows, Burns twice doubling and Appleby once. Teams:

Dodgers—R. Rowe, W. Rowe, Griffin, Patterson, Whitehill, Riel, Graystock, McArthur, Kimball, Casey, Wade.

Janetville — Jackson, Pew, Appleby, Burns, R. Walker, Finnegan, Brown, M. Walker, Magahay.

New Hospital

WOODSTOCK, N.B. (CP)—Contract for the $921,000 Carleton Memorial Hospital has been awarded and work is scheduled to begin shortly. The hospital is a war memorial to Carleton county soldiers.

Aid Koreans

ESPANOLA, Ont. (CP) — Aside from dealing with flowers and plants, horticultural societies sent over 2,000 packages of food through the Red Cross to Korean soldiers, it was revealed at a district horticultural meeting here.

Church School Picnic

WARKWORTH (ENS). — The Sunday School picnic of St. Paul's United Church was largely attended on Wednesday at Little Lake. One hundred and fourteen sat down to the picnic table after a program of sports including races, ball games, etc.

Goatsbeard Sprouting Again To Plague Land

It used to be that both rural and urban property owners had developed a tolerance for weeds that complacently classed them all together as a general nuisance. The method of trying to control them was largely by cultivation of productive fields and by mowing along the roadsides.

But, that was before the goat's beard some how got a toe hold in some parts of the county and city-rapidly enlarging its estate until County Weed Insector and City Engineer Chalmers have both been close to despairing of overtaking it.

Reference to this weed was published in the Examiner at its first flowering. Spread over many an acre it went to seed, and to the layman that apeared to be the end of it for 1953. Now there is a sequel to some of the checking experience and effort. Where the expedient of mowing and scything was attempted, the blooming plant sprouted up again and recently was discovered in a second flowering.

For that reason is cannot be regarded as old stuff from news desks. So, it transpires that merely cutting it is but scotching it.

EXTERMINATED

Just south of Nassau on the east side of the river, the Asphodel township sprayer, hired for a day by Mr. Johnston, performed almost a perfect exterminating job with Atlascide and 2,4-D. He says that City Engineer Chalmers did a thorough job on Lansdowne St. spraying and mowing.

The Examiner suggested editorially to the city council some weeks ago that the control of weeds in the city should not be loaded on to Mr. Chalmers as an extra job in his busiest season. It was further said that it was not a city engineer's work, particularly in May and early June when goat's beard is budding and blooming.

DEATH LOST OUT at Valois, Que., "Devil's Crossing" when Mrs. Peter McCullum and her son abandoned the family car when it stalled in the path of a speeding train. The big locomotive came to a screeching stop after carrying the battered car some distance from the crossing.

Stock Exchange Traders See Market Smouldering

By GORDON MACKINNON
Canadian Press Staff Writer

On the surface it was a dull week, but stock exchange traders preferred to view the market as "smouldering, willing to ignite at the first good spark."

The market reached this position, these traders say, after the psychological effect of oft-repeated recession predictions finally wore itself out. With much of this bearish sentiment quelled by continued high levels of earnings, employment and capital expansion, stock market followers, penny-stock plungers and gilt-edged investors are said to be ready to come out in force to support an extended rally.

In Toronto, opinions varied as to which group of stocks would provide the spark.

Until Thursday, industrials were the odds-on favorite, having added more than 10 points to their index figure since June 16. But their star faded a bit when they joined the general downturn during the last two days of the week. However, many observers saw this as merely a temporary reversal.

FURTHER HEARTENED

Optimists were further heartened by the brighter outlook taken this week by several financial publications. Typifying the new "better-day-tomorrow" attitude, the Financial Post commented this week: "Over the last several weeks there has been a noticeable lessening in pessimism over the business outlook in the U. S."

At present, the only serious challenger to industrials as a potential rally-initiator are the low-priced mining stocks—especially those of companies with property in the promising Beaverlodge, Sask., Blind River, Ont., or Bathurst, N. B., camps.

Taking a shorter-range look at the week's activity, New York ended on a weaker note following seven sessions of steady advances.

INDUSTRIALS DOMINATED

In Toronto, industrials dominated an otherwise mixed market during the first three days of the week but joined in the moderate decline Thursday and Friday.

Volume picked up in Montreal markets but prices stayed well mixed in all groups except papers, which bounced higher for the third week running.

Turnover for the week at Toronto increased proportionately to 13,091,000 shares from the previous four-day holiday week's total of 9,171,000 shares. Montreal moved 177,026 industrials and 2,056,714 mines compared with 173,674 industrials and 1,010,974 mines the week before.

From Friday to Friday the Toronto Stock Exchange's indexes showed industrials up 2.37 at 306.83, golds down 1.31 at 75.66, base metals down 1.92 at 155.51 and western oils down 2.62 at 106.75.

Montreal averages had papers up 12.90 at 695.79, banks up .01 at 33.93, utilities down .2 at 04.8, industrials up .8 at 186.7, combined up 4 at 156.0 and golds down .34 at 56.65.

The Associated Press average of 60 stocks listed on New York markets was up 20 cents at $108.50.

Bull Derails Train

ARDMORE, Okla. (AP) — The luxury streamliner Texas Chief rammed a stray bull on the Santa Fe tracks near here Friday and was partially derailed. At least 20 passengers and crew were injured, none critically.

Wife Overruled

TORONTO (CP) — Mrs. Ruth Mundy told magistrate T. S. Elmore: "My husband wouldn't steal a car."

Magistrate Elmore told Mrs. Mundy: "He's already pleaded guilty."

Sentence: Seven months.

WORKERS WIN — Under the watchful eyes of carbine-carrying East German military policemen, four men cross a bleak Berlin sector border in Friedrichstrasse shortly after the Communists raised the Iron Curtain and authorized free East-West travel for the first time since the bloody rebellion of June 17. Sitdown strikes by East German factory workers forced their Red bosses to lift the ban.

Stratford Has First Elizabethan Stage Ever Used In Large-Scale Production Since Days Of Elizabethan Theatre

By JOHN PATERSON
Canadian Press Staff Writer

STRATFORD, Ont. (CP)—Hit or miss, theatrical history on an international scale will be made here Monday night when a midsummer night's dream, conjured up years ago on the inviting banks of the Avon river, becomes a $250,000 reality.

Before leaving for Canada to star in the Stratford Shakespearian Festival, which opens a five-week run July 13, Alec Guinness, top-ranking British stage and film star, told a London columnist: ". . . The chances for disaster are quite formidable."

However, the opportunity of staging a unique production of "Richard III," and "All's Well That Ends Well," under the distinguished and dynamic director Tyrone Guthrie appealed to Guinness and 75 of Canada's top professional actors, many of whom returned from abroad to play supporting roles.

ELIZABETHAN STAGE

Dr. Guthrie, who came to Canada directly after the opening of his successful Coronation production of "Henry VIII," at London's Old Vic, said:

"We are constructing at Stratford what I think will be the first Elizabethan stage ever used in a large-scale production since the days of the Elizabethan theatre."

The stage was planned by Tanya Moiseiwitch, one of Europe's leading designers and associated with Dr. Guthrie in "Henry VIII," and other productions in England. Erected on several levels, it dispenses with ordinary scenery and drapes and projects into the 1,500-seat tented amphitheatre on three sides.

A festival of music with prominent Canadian artists under the direction of Louis Applebaum of Ottawa, composer and music director of the festival, will be held on afternoons when there are no play matinees.

BOYHOOD DREAM

The festival was a boyhood dream of Tom Patterson, a native of Stratford. It persisted during service with the Canadian Army overseas and when he became a trade magazine editor in Toronto.

Encouraged by a group of Stratford citizens he approached Dr. Guthrie, a world-renowned authority on the staking of Shakespeare. Promised a free hand, Guthrie gathered about him a group of experts from the English theatre.

Committees of Stratford people started raising necessary funds—their goal is $150,000—and arranging accommodations for the influx of visitors.

The box-office is expected to take in another $100,000. It is the plan of Mr. Patterson and the festival committee, headed by Dr. H. A. Showalter, to make the festival an annual affair, rivaling the Memorial Theatre at Stratford-on-Avon, England.

Cecil Clarke, formerly production manager of the Old Vic, and assistant director of the festival, came to Canada with his wife, Jacqueline Cundall, property mistress of the Old Vic, to prepare the groundwork for the festival. He held preliminary interviews with Canadian actors. He found many who had played in London and in the United States as well as those who had established reputations in this country.

CANADIAN PLAYERS

Douglas Rain of Winnipeg returned from the Old Vic to take roles in both plays and to understudy Guinness.

Other Canadians who have played abroad include Amelia Hall of Ottawa; Eleanor Stuart, Robert Goodier and George Alexander of Montreal; Robert Christie, Don Harron, Lloyd Bochner and Norman Roland of Toronto, and others.

Playing opposite Guinness is Irene Worth, Nebraska-born actress who has established a brilliant name as a Shakespearian actress in London. Douglas Campbell and Michael Bates, both of London, also are in the cast.

Advance ticket sales are reported heavy, especially in the U.S., where excursions are planned from Detroit and Buffalo. First-string critics from a number of Canadian and U.S. newspapers have indicated they will attend.

Gamma Globulin Curbs Polio In Montgomery

MONTGOMERY, Ala. (AP) — Weary doctors and worried parents rejoiced Friday over an official announcement that gamma globulin has curbed the polio outbreak in Montgomery.

State health officer D. G. Gill and the Montgomery County health officer, Dr. A. H. Graham, returned thier verdict a week after more than 31,000 children were inoculated with the polio-fighting substance.

It was the first time gamma globulin has been used anywhere on a wholesale basis to combat a near epidemic of polio. The health officers waited a week before voicing their conclusion because it take that long for the treatment to take effect.

"The mass immunization program of children nine yeasr old and under has proven to be effective in reducing the number and severity of polio cases," the health authorities said in a joint statement.

"We believe that, in line with the results of experiments in Houston, Tex., Sioux City, Iowa, and Provo, Utah, the next four weeks in Montgomery will show fewer cases, by possibly 80 per cent."

WILL BE LIGHTER

And those that do show up probably will be lighter than they would have been without the arresting benefits of gamma globulin, the doctors predicted.

They added this hopeful observation:

"Evidence right now is that everything looks awfully good. It looks as if gamma globulin has had the results for which we had hoped."

Only six polio cases have been reported in the county since the mass inoculation project started June 30, and all of them have been light. In the 10 days before the whole inoculation began, there were 27 cases.

Of the six new cases, the doctors said, three of the victims had gamma globulin shots; the other three were over the age limit.

They brought the season's total in Montgomery to 990 cases, virtually all of them children.

Candidates Campaign In Campbellford Area

CAMPBELLFORD (ENS). — Dr. Fred G. Robertson, and Ollie Taylor, Liveral and Conservative candidates respectively, are both doing the pre-election rounds in the Campbellford area.

There have been no public meetings for either party as yet, but with mounting interest in the next few weeks, it is expected both sides will produce speakers.

The job of enumerating has been completed, and voters' lists are at present in the process of being prepared.

Industrialist Dies

VANCOUVER (CP) — Ronald Lorraine Cliff, a native of St. Mary's, Ont., who became one of British Columbia's most successful business men, died in hospital Friday. He was 71. Mr. Cliff sold his lumber interests to the Powell River Company in 1950, and previously disposed of a milk condensing business to the Borden Company. He was president of Western Canada Steel and its associated companies.

Teacher Appointed Campbellford Board

CAMPBELLFORD (ENS). — The application of Kenneth Nicholls of Toronto for the position of teacher on the staff of the Campbellford High School was accepted at a meeting of the High School Area Board here on Friday evening. Mr. Nicholls is a graduate of the University of Toronto and last year attended the Ontario College of Education.

He will specialize in boys' physical education, but will also teach some commercial work. He was introduced to the board by E. Darling, principal. There were two other applicants for the position, left vacant with the resignation of Mr. Halpike some weeks ago.

Recapture Prisoner

BRAMPTON (CP)—William Bailey, 21, who escaped April 7 from the Rideau industrial farm at Burritt's Rapids, 30 miles south of Ottawa, has been recaptured. Ontario provincial police arrested him in a restaurant here. Police said he was working in this district.

BETTER GET LUCKY, MOM—"Pachinko," a version of the U.S. pin-ball, is the current rage in post-war Japan, where people play the game by the hour with prizes offered. This Tokyo mother plays on while her youngster sleeps on her back.

Automatic Transmission
NOW available in all half-ton
FORD economy TRUCKS

FORDOMATIC* DRIVE...the most modern and efficient Automatic Transmission on the road!

MORE ZIP — MORE GETAWAY! MORE POWER WHEN YOU NEED IT!
Here's a great advance in truck engineering! Now, for the first time, fully automatic transmission is available in all half-ton Ford Economy Trucks. Here's a new deal in driving comfort for the light-duty trucker! Fordomatic* Drive provides the smoothness of a Torque Convertor and the lively power and fast acceleration of Automatic Gears. This rugged, dependable unit is built to take it... thoroughly tested and proved... *the finest on the road!*
(*Optional at Extra Cost)

SAFER, SMOOTHER PERFORMANCE!
Power is transferred to rear wheels through a cushion of oil for smooth operation. Press accelerator to floor and truck automatically "gears down", providing a quick burst of speed for safer passing. And Fordomatic* is a "natural" for work on soft ground.

PASSENGER-CAR HANDLING EASE
No clutch pedal with Fordomatic*—just set the selector lever at "Drive" and move away to smooth, easy driving. Fordomatic* cuts driving motions by 92%, reduces driver fatigue, eliminates cost of clutch replacements.

SAVE TIME ON EVERY TRIP!
Fordomatic* Drive gives you fast getaway from standing starts, far more pull on tough grades with heavy loads. Smooth automatic power-transfer means time saved on every trip, bigger earnings from your truck—especially in stop-go work!

FORD LIGHT-DUTY LINE OFFERS CHOICE OF 5 GREAT TRANSMISSIONS!
Get just the transmission you need with this big five-way choice: Fordomatic* Drive, Overdrive*, 3-Speed Synchro-Silent, Heavy-Duty 3-Speed Synchro-Silent*, 4-Speed Synchro-Silent*.
(*Optional at Extra Cost)

Lt.-Col. N. Ross Appointed Manning Director

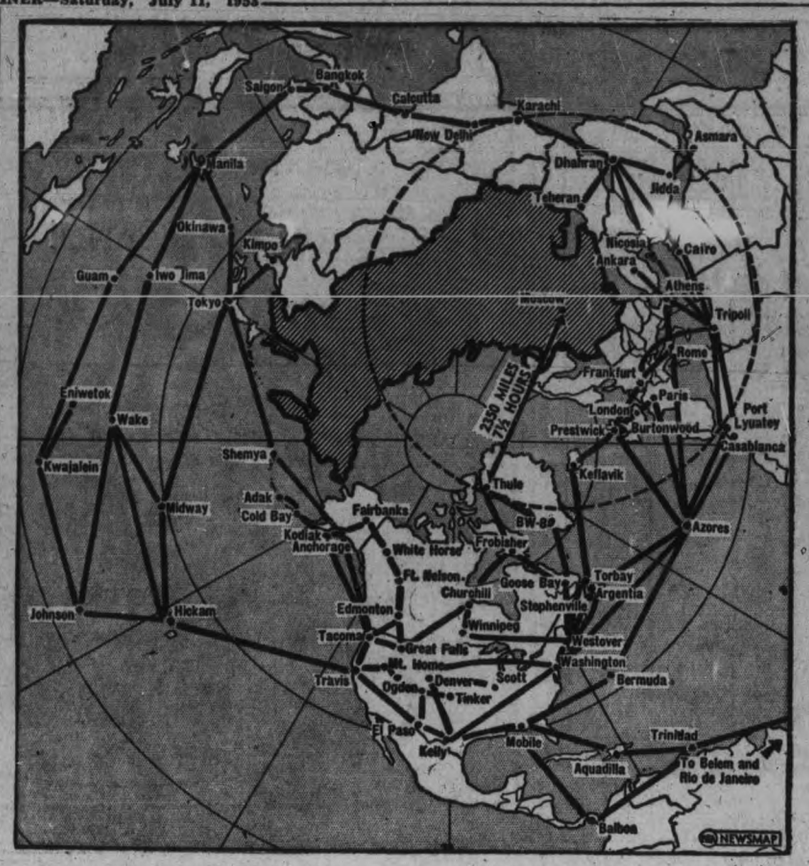
OTTAWA (CP)—A veteran of the Dieppe raid, Lt.-Col. N. H. Ross, DSO, 38, of Winnipeg, has been promoted to the rank of colonel and appointed director of manning at army headquarters here, it was announced Friday night.

It was one of three new appointments for senior infantry officers. Col. Ross, now attached to the Canadian Army staff at Washington, commanded a company of the Queen's Own Cameron Highlanders of Canada at Dieppe in August, 1942.

Lt.-Col. J. A. Hutchins, 43, of Montreal, now serving as assistant adjutant and quartermaster-general at headquarters of Saskatchewan area, will take over from Col. Ross in Washington.

Lt.-Col. H. F. Wood, 39, of Toronto, commanding officer of the 3rd Battalion, Princess Patricia's Canadian Light Infantry, in Korea until his recent return to Canada, will succeed Lt.-Col. Hutchins at Regina.

6 NEW APPOINTMENTS



Six new appointments, including two promotions, for senior officers at the Royal Canadian Engineers, also were announced.

They included the following:

Maj. J. C. Lovat-Fraser, 45, of Montreal, now in the directorate of works at army headquarters, will be promoted lieutenant-colonel and appointed head of the stores division.

Maj. D M. C. Saunders, 33, of Victoria, also of the works directorate, will become head of the construction division with the rank of lieutenant-colonel.

Lt.-Col. W. K. Lye, 35, of Guelph, now head of the works directorate's construction division, will be assistant director of works (engineering).

WINGS AROUND RUSSIA — The sun never sets on the operations of the Military Air Transport Service, better known as MATS. The vast, global extent of the operations of the armed forces' cargo-carrying branch can be seen in the map. From Thule, Greenland, our farthest-north base, it is only 7½ hours to Moscow, and many MATS bases in Europe and Africa are closer than that. All MATS bases are potential bomber bases. MATS was formed only five years ago. Its first big test came with the Berlin airlift. Every hour of every day a MATS plane takes off or lands at one of the many bases that gird Communist Russia and her satellites.

Pay Corps Flies Its Own Flag For First Time

By BILL BOSS
Canadian Press Staff Writer

IN KOREA (CP)—For the first time in its history, it's believed here, the Royal Canadian Army Pay Corps is flying its own flag.

The blue-and-yellow ensign has long been provided for in Canadian Army orders. But it remained for the corps' detachment in the Far East to produce the prototype.

Maj. C. A. Pilley of Ottawa, Canadian field cashier for Korea and Japan, noting Japanese skill in needlework, gave a firm the flag's specificiations and ordered one made.

Three feet long by two wide, it is bisected diagonally from the upper left to the lower right, the upper portion being yellow, the lower blue. Superimposed in the centre, yellow against a blue background, is a 12-inch Pay Corps crest.

Men of the field cash office, under WO2. Ken White of Ottawa and London, Ont., landscaped the ground in front of their tented hamlet, dug a hole for a flag pole, sanded its approaches and whitewashed its border of stones.

When the pole provided by the brigade ordnance officer, Capt. Stan Campbell of London, had been painted white the detachment was ready for a ceremony.

FORMAL PRESENTATION

Brig. Jean Allard, the brigade commander, presented the flag formally to the detachment and presided at its first hoisting.

From their office tents and caravans throughout the brigade all the Canadian paymasters, pay sergeants and their clerks and drivers assembled outside Pilley's headquarters. It was the first time they had all been together in Korea.

The Patricias detailed four buglers under L.Cpl. Donald Thomas of St. Catharines, Ont., to sound the general salute.

Allard inspected the parade, drawn up under Capt. Vern Simpson of Toronto, assistant field cashier, and then, after officially presenting the flag to Pilley, led the salute as Sgt. Pierre Cyr of St. Laurent, Man., ran it up to the masthead.

To the men who twice a month go out at dusk to the forward positions and throughout the hours of darkness conduct pay parades within a few hundred yards of the enemy, Allard said:

"This flag is the symbol of the silent and efficient service you are giving. I honor you for it, and it is with great pleasure that I have presented it to you."

FLAG FOR PAY CORPS—One of the most popular branches of the army, the Royal Canadian Army Pay Corps, gets its own flag at a ceremony performed in Korea. Brig. J. V. Allard (left), commander of the 25th Canadian Infantry Brigade, presents the flag to Maj. C. A. Pilley, Ottawa, senior cashier of the brigade. It is the first time the Pay Corps has had its own flag. It is yellow and blue and has the Pay Corps crest.

Use Diving Bell Explore Hulks

KINGSTON (CP)—Ancient hulks of Britain's Great Lakes navy have sparked development of a self-propelled diving bell at the Royal Military College here.

A prototype of the craft will undergo trials this summer near this eastern Lake Ontario port. First wrecks to be probed are in Deadman's Bay, just east of the city.

Designed by Lt.-Col. P. C. King, of the RMC's mechanical engineering department, the cigar-shaped bell is powered by two torpedo-type compressed air engines, permitting both forward and reverse motion.

Vision is provided by a large glass sheet at the bow and several ports along the 20-foot-long vessel.

The project developed from discussions at RMC between members of the Kingston Historical Society and naval officers interested in underwater exploration.

Col. King completed his basic design in 1951. The first test was made last year. Using only one engine, the bell, designed only for shallow water, went down 25 feet.

Appeal Board Upsets Soldier's Conviction

OTTAWA (CP)—A five-man appeal board Friday upset the conviction of a Toronto soldier found guilty by a court martial in Korea of killing a Korean woman.

The board ordered a new trial for Sapper Edmond Doutre of Toronto. He was sentenced to 15 years imprisonment last Aug. 9 for the murder of Mrs. Pak Yong Boon, near Seoul, July 19, 1952.

The court martial also ruled that Sapper Doutre be dismissed with disgrace from the Canadian Army.

The soldier's defence had been that the death was accidental. The appeal board ruled that the judge advocate of the court martial did not bring this to the attention of the court properly.

3rd Cobalt Bomb Soon

TORONTO (CP)—Canada's third cobalt bomb for treating cancer will be installed at Toronto and ready for use about Aug. 15, Health Minister Phillips of Ontario said Friday. The bomb, to cost $50,000, will be operated at the Hospital for Sick Children by the Ontario Cancer Clinic Treatment and Research

Wants Canada To Be Republic

MONTREAL (CP) — Ernest Schallenbaun, a native of Winnipeg and now a carpenter in San Francisco, came to Montreal Friday to continue his campaign to make Canada an "independent republic."

Nicknamed "Canada Ernie" while serving in the United States navy, the 26-year-old Schallenbaun arrived here from San Francisco with a flag in one hand and a valise in the other.

He said in an interview the flag, red in color with the Canadian shield in the lower right-hand corner, is one he would like to see adopted by Canada as a republic.

His ideas about a Canadian republic, he said, are shared by 50 Canadians working in the United States and 50 people across Canada. He got in touch with his 100 supporters through letters to editors of newspapers in Canada and the U.S.

"Some of them came to visit me in San Francisco," Mr. Schallenbaun said. "Now we have formed the Canadian Republican party."

Work Stoppage Ends In Sarnia

SARNIA (CP)—A two-day work stoppage that affected almost 3,000 construction workers on major industrial and commercial building projects ended at noon Friday when 150 members of the Electricians Union (AFL) withdrew their pickets.

Bruce Blackwell, business agent of the electricians, said a meeting with contractors had resulted in "enough encouragement that we decided to play ball and resume negotiations."

He said all the electricians would be back on their jobs on Monday and new meetings would likely be held with contractors.

Other construction workers took no part in the walkout, but respected the picket lines formed by the electricians.

WMS Presents Roses To Grandmothers

DARTFORD (ENS)—The United Church Women's Missionary Society met at the home of Mrs. Hayden Atkinson on Wednesday evening.

It was grandmothers' meeting and each grandmother received a corsage of pink roses.

Mrs. Arthur Ward, president, presided. The program in the Missionary Monthly was used.

Mrs. McCracken announced the missionary for prayers was Miss Ruth Saunders, RN, of Manning, Alta. A committee was named to arrange for a booth at a ball game in Warkworth.

Miss Muriel Darling invited all to her home for the August meeting, which is girls' meeting, with Aureen Richardson, Anne Pollock and Rita Yule conveners.

Readings were given by Mrs. Simpson, Mrs. Lochart, Mrs. Coggins, Mrs. Frank Atkinson, Mrs. Pollock, Mrs. Ward, Mrs. McCracken, and Rita Yule; piano solos by Mrs. S. Atkinson and Miss Ida Honey. Irvin Atkinson sang two solos. Mrs. W. Atkinson conducted a quiz.

The Mizpah benediction closed the meeting. Lunch was served.

Expect Seaway To Be Finished By 1960

By JOHN LeBLANC

OTTAWA (CP) — A substantial start on the St. Lawrence seaway by spring—and a finish by about 1960—was forecast Friday by federal informants as the result of United States action on the $750,000,000 project.

All indications here are that Canada is going to move ahead on the basis of a favorable Washington decision from the U.S. federal power commission, without letting U.S. court challenges by opponents delay a start on the big power-navigation-job.

Preliminary work by the transport department and the Ontario hydro-electric commission on the International Rapids section of the river will be stepped up from now on, officials said, following the FPC award to the New York state power authority of hydro rights on the section.

While legal blocks remained, official quarters here were inclined to the belief that the two countries could plow ahead regardless of possible court brakes in the U.S. Canada appeared determined to move.

APPOINT 3 BODIES

Transport Minister Chevrier announced the Canadian government will consider "at once"—subject to ensuing U.S. litigation—the appointment of three bodies dealing with seaway construction.

These are the St. Lawrence seaway authority, capitalized by Parliament at $300,000,000 to build and operate the navigation works of the seaway on the Canadian side; a St. Lawrence board of engineers (joint Canadian and U.S.) to pass on the hydro and navigation works generally; and a board of control to watch water flow problems in the river system.

Canadian appointments to all three bodies will be made shortly. The major job—chairman of the seaway authority—is expected to go to R. A. C. Henry, Montreal consulting engineer who has been heading the transport department's special projects branch for the last year. Personnel of the other posts is still undisclosed.

Meanwhile, officials here said both the federal government and Ontario hydro are ready to get into top gear on a solid go-ahead from the U.S. They said the FPC decision, dispite a court fight ahead of it, will step up the work now going on in the international section of the river.

PRELIMINARY WORK

Preliminary borings, soundings and surveys have been on for months and will continue for some months, experts here said.

The first subsequent work would be the construction of a control dam for the huge power and navigation pool in the International Rapids, the dam to be built across the river in the neighborhood of Iroquois, Ont.

Building of the upriver control dam, officials here feel, will provide time for solving one of the biggest problems of the whole seaway—what side of the river the navigation locks are to be built on.

Canada wants the locks on the Canadian side, having switched to this after many years of going along with a U.S.-side system on a joint basis. The U.S. Congress is considering legislation for locks on the American side. The Canadian government considers a Canadian set of canals would be cheaper.

4,722 Aided By Pension Plan

TORONTO (CP)—Welfare Minister Goodfellow said Friday the pioneer project in pensions for disabled persons had been in effect for a full year July 1 and 4,722 persons now are being aided in Ontario.

The disabled persons' allowances is the project "which the federal government turned down at the last Dominion - provincial conference," Mr. Goodfellow said in giving a progress report on the project. "I find it the most satisfying of any of our programs."

The $40-a-month pension is payable to totally and permanently disabled persons between the ages of 18 and 65 who have lived in the province for 10 years before application and who earn less than $720 a year.

10 U.S. Airmen Die In Norwegian Crash

LONDON (AP)—The U.S. Air Force said Friday night that 10 American airmen were killed when their twin-engined C-47 transport and a Norwegian Thunderjet fighter collided near a west Norway air base. The Norwegian pilot of the Thunderjet also died when his plane spun to earth.

Earlier reports that there may have been some Canadians aboard the transport were discounted with confirmation that all aboard the transport were Americans.

An air force spokesman said four crew members and six other U.S. airmen travelling as passengers were aboard the transport.

DIES IN BRIDGE CRASH

GUELPH (CP)—William Cook, 65, was fatally injured Friday when his car struck an abutment of Allans bridge here.

QUAKER UNION VOTES TO END STRIKE

WAITING FOR THE VOTE COUNT Sunday afternoon is this group of strikers (lower photo) who had to jam in the doorway when all the seats were taken at the Labor Centre. They voted 251 to 46 to accept the latest compromise offer of the Quaker Oats Co., but they said they would not go back to work until a similar settlement is reached in Saskatoon. Judging by the grins they don't seem to think that will be too long. Upper photo shows George Fullbrook, secretary of Local 293, UPWA, who has risen to announce the result of the balloting. Left to right—Sam Hughes, UPWA Eastern Canadian director; Mr. Fullbrook; Fred Dowling, UPWA Canadian director; William Triggs, president of Local 293; and William Beggs, UPWA Eastern Ontario representative and a Peterborough alderman. —(Examiner Staff Photos)

Saskatoon Settlement Contingent

Local Doublecrossed By International Charge By Faryon

Quaker Oats production workers on Sunday afternoon voted 251 to 46 to accept the latest company offer which was arrived at Thursday afternoon in a three-hour session arranged by Mayor Hugh Waddell. But before they return to work, ending their 12-week strike, there must also be a settlement with the Saskatoon strikers.

The situation in Saskatoon where 130 production workers are also out is obscure at the moment. But as soon as they and the company reach agreement the longest strike in the history of the United Packinghouse Workers of America (CIO-CCL), will be at an end.

In the compromise offer the union get their $1.39½ cents-an-hour basic wage rate on Jan. 1 This rate, one of their major demands, is the same as in two Port Colborne mills. However the union had to give way on their stand on swing shifts. Employees in the flour mill must be prepared to work swing shifts.

Announcement that the return to work in Peterborough was contingent on a contract settlement in Saskatoon was bitterly criticized today by Reginald R. Faryon, president of the Canadian Quaker Oats Co.

CHARGES DOUBLECROSS

Mr. Faryon accused the international representatives of the UPWA of engineering a "doublecross." He said that the Saskatoon strike had nothing to do with the one in Peterborough and that all parties had agreed during Mayor Waddell's meeting on Thursday that the local settlement had nothing to do with the one in Saskatoon.

Mr. Faryon accused Fred Dowling, UPWA Canadian director with raising the Saskatoon issued "to make some capital for himself by doublecrossing his local representative and the members of the Peterborough union." He also charged that Mr. Dowling had threatened to fire William Beggs, UPWA Eastern Ontario organizer, if Mr. Beggs didn't disregard the agreement reached in Mayor Waddell's office.

(A complete statement by Mr. Faryon appears elsewhere in the Examiner.)

At a membership meeting on July 2, the 435 production workers here in Peterborough pledged themselves by resolution not to end the strike until their fellow unionists in Saskatoon, Local 418, UPWA, had a satisfactory agreement.

SOME CONCESSIONS

The compromise offer that was accepted Sunday by more than 300 workers who jammed into the third-floor Peterborough Labor Centre revealed concessions by both the company and the union from their previous stands. It was the formula arrived at during the meeting called by Mayor Waddell and the main provisions are these:

Instead of a basic rate of $1.39½ next July 1, the company agreed to pay it January 1.

UNION ACCEPTS

Find Empty Raft On Sea After Crash

HONOLULU (AP) — The U.S. Navy spurred a massive search today for survivors of a four-engine airliner which plunged into lonely Pacfic waters with 58 aboard.

A huge armada of ships and planes combed the storm - threatened Pacific 320 miles east of Wake Island, but hope dwindled for survival of the occupants of the Transocean Air Lines DC-6B with discovery of a life raft and seat cushions from the airliner.

The plane, bound from Guam to Oakland, Calif., carried eight children under 10 years of age among its 50 passengers and eight crew members It disappeared Saturday night on the Wake to Honolulu hop.

It was the first commercial transpacific plane crash in that section of the Pacific since the Second World War.

FIND EMPTY RAFT

The navy transport Barrett, one of at least 10 ships combing waters where the plane last reported its position, found an abandoned life raft and seat cushions it positively identified as coming from the plane.

Cmdr. T. O. Murray, Hawaiian sea frontier operations officer and search co-ordinator, said there is a "good chance there is life around there." There was plenty of room on four other life rafts carried by the plane and still unaccounted for."

Several entire families were on the airliner.

The pilot, Capt. William Word of Oakland, Calif., a veteran trans-Pacific flier, reported in by radio Saturday night with no mention of trouble. There were no further messages.

FAMILIES ON BOARD

Some of those aboard were civilian workers, their wives and fam-

Throw 40,000 Reds Against Allied Line

SEOUL (AP)—Two Chinese Communist divisions—about 40,000 men—smashed against Allied lines on the Korean east-central front tonight, the U. S. 8th army announced.

Details were lacking.

The 8th army said only that "upwards of two divisions were attacking between Sniper's ridge and the Pukhan river.

This placed the heavy new action between Kumhwa on the central front and Red-held Kumsong, a distance of about 13 miles.

Another four Communist battalions were attacking near the Pukhan river itself.

It was not known immediately whether the full front was in action. It is nearly 20 miles from Kumhwa to the upper Pukhan, scene of repeated heavy fighting in recent weeks.

The Red attack was launched at 10:30 p. m. (9:30 a. m. EDT) and built up rapidly in size.

Two full Chinese divisions total nearly 20,000 men and the four aditional battalions attacking near the river would raise the number to possibly 24,000 men.

U. S. Sabre jet fighter-bombers and light bombers apparently detected Red massing movements during daylight Sunday and slammed tons of explosives into Red lines along the east central front.

Youth, 21, Drowns

BELLEVILLE (CP) — Ernest Townes, 21, of Fort Stewart, Ont., was drowned Sunday night at Boulter, about 95 miles northeast of here.

Won't Grant Reprieve

LONDON (Reuters)— Sir David Maxwell Fyfe, the British home secretary, announced today there would be no reprieve for John Christie, self-confessed slayer of seven women.

Coldwell Says Liberal Health Plans Deceit

SASKATOON (CP). — M. J. Coldwell shook off the dust of Saskatoon roads Sunday and headed for the Martimes to continue his federal election compaign.

The 64-year-old CCF leader has toured Saskatchewan, birthplace and stronghold of his party, since June 15, three days after the Aug. 10 election was called. In the next four weeks he will swing from the Atlantic seaboard to the west coast, returning to Saskatchewan Aug. 7.

He concluded his tour of the wheat province Saturday at Outlook, 45 miles south of here, by addressing a CCF picnic.

For the last week he has campaigned in his 19,000 square-mile constituency of Rosetown-Biggar, which he has represented in the House of Commons for more than 18 years. One week of the Saskatchewan campaign was cancelled by the death of Mrs. Coldwell in Ottawa.

TRAVELLED ALONE

Except for two newspapermen, Mr. Coldwell travelled alone. He was driven from town to town by provincial CCF members, often stopping at hotels which had enamelled jug and basin in place of a bath.

At Outlook, Mr. Coldwell reviewed the farm topics of his 10-point humanity first program and attacked the federal government for what he said was practised deceit at election time.

He said Prime Minister St. Laurent's promise of a national health plan—providing his party is re-elected and provinces agree—is typical of the Liberals.

"They've always stooped to these tactics before an election," he said.

But the people would not be deceived. They wanted action and the only way they could get it was to send more CCF members to Ottawa to force issues.

Mr. Coldwell reiterated his promise of an immediate national health plan, based on ability to pay, if his party gains power. He wondered whether the provincial agreement in the Prime Minister's promise for a health scheme meant the country would have to wait for even the most backward provinces to agree or if the scheme would be implemented gradually as was done when old age pensions legislation was brought in.

Mr. Coldwell left Saskatoon by plane. He is due to either Moncton, N.S., or St. John, N.B., late this afternoon.

Plane Crash-Lands On Crowded Beach

MIDLAND (CP)—Five occupants escaped uninjured Sunday when a Seabee amphibian crash-landed on a narrow, crowded beach on Georgian Bay. No bathers were hurt.

Lloyd Atkinson, 33, of Midland, owner of the single-engine aircraft, was taking off towards the beach when the plane hit a downdraft.

The plane belly-landed at about 70 miles an hour.

Midland is 80 miles north of Toronto.

British Troops Cordon Off Suez Canal Zone

ISMAILIA, Egypt (CP)—British Tommies cordoned off the strategic Suez canal zone of Ismailia today and announced they would search all persons entering or leaving the town until a British soldier missing since last Thursday turns up. Egyptian troops at once took up posts around all government buildings in the town, near Britain's main Suez canal zone base, but the headquarters of Egypt's army said they were only "routine patrols" and would "avoid any friction with the British army."

There were no immediate reports of any violence, though crowds of Egyptians gathered at the British roadblocks.

British authorities said the missing soldier had been abducted and that they believed at least one Egyptian official had been involved. The Egyptians denied the charge.

DENY EMERGENCY STATE

President Mohamed Naguib summoned his cabinet in Cairo. Reports were current that a state of emergency had been proclaimed in the capital and in Ismailia, but army headquarters in Cairo denied this.

Naguib emerged from the cabinet meetng for 15 minutes to confer with U. S. Ambassador Jefferson Caffery. The ambassador said he had talked earlier with Robert Hankey, Britain's acting ambassador. In response to a question as to whether he would use his good offices to try to calm things, Caffery said yes, he was ready to try.

(In London, a foreign office spokesman told reporters the British commander at Ismailia has the full backing of the government. The British cabinet also met.)

ARMED FOR DEFENCE

An Egyptian Army spokesman said the Egyptian troops in Ismailia were "armed only for defence" and that the town was "fully under the control of the British forces."

To the British claim that the missing soldier had been kidnapped, the Egyptians countered today with a statement that British soldiers at a checking post near Ismailia kidnapped a n Egyptian secret policeman this morning. No other details were given.

BRITISH TROOPS

Reds Organized Canadian Seamen's Strike

ALBANY, N. Y. (CP)—A Canadian labor leader testified today that the Canadian seamen's strike of 1949 was a "political strike organized by the Cominform."

Pat Walsh, 37, of Quebec, told congressional probers that the strike was designed to tie up shipping "so that Marshall Plan shipments would not be delivered in time . . . and as a blow to the Atlantic Pact."

Walsh, first witness before a sub-committee of the House of Representatives un-American activities committee, said he once was a Communist party organizer.

He said that on Communist party orders he twice joined the Canadian Army to carry out Red plans for breaking down morale.

Later party assignments took him into veterans organizations and then the Canadian Seamen's Union, Walsh said.

LOYALTY TO PARTY

In answer to a question, Walsh said that during this period his primary loyalty was to the Communist party and not to the Canadian government or the union.

He said that before he worked on the shipping strike he attended a meeting run by men he called the top echelon of the Communist party in Canada.

Among those attending the meeting, he said, were George Harris, secretary-treasurer of the Canadian branch of the United Electrical Workers; Dewar Ferguson, vice-president of the Canadian Seamen's Union, and Oscar Roy, of

900 Convicts, Officials Remain In Deadlock

SALEM, Ore. (AP)—Prison officials and 900 convicts remained in virtual deadlock as a revolt of prisoners went into its fourth day at the Oregon penitentiary today.

The men, confined to a fenced-in baseball field inside the prison walls, seemed about to surrender once Sunday night, but then turned restless and abusive after Warden Clarence T. Gladden issued them some soup and bread—their first meal since Friday night.

"Now we've got the warden on the run," came the cries after the soup had been distributed and guards had begun conducting men from the chill outdoors area to the cells.

Gladden then halted the removal of the men from the field. About 125 had been searched and conducted to the cells before the halt. The warden said they would not be let out of their cells today.

More Miners Joining Strike

TIMMINS (CP)—More than 350 gold miners struck over a wage dispute at Preston East Dome mines this morning, bringing to eight the number of mining properties shut down in the last two days.

The hardrock workers, members of the United Steelworkers of America (CIO-CCL), walked off the job at 6 a. m. Pickets were set up immediately.

The walkout swelled the number of striking miners in the Porcupine mining area here to about 725. Workers at Broulan Reef and Hallnor gold mines quit Saturday morning. Five properties operated by Broulan were closed and picketed.

The strike affects only three of 10 operating companies in the area, 10 miles east of Timmins. The three companies run the eight struck properties. There were fears that the walkouts may spread to some other mines.

Rhee Hands Over Written Pledge

SEOUL (AP)—A well-informed source said today President Syngman Rhee has pledged in writing that South Korea will not obstruct an armistice and Rhee himself indicated his country has relaxed its methods but not its objective of unifying the country.

A well-informed source told Associated Press Tokyo bureau chief Robert Eunson that President Eisenhower's special envoy won sweeping concessions from Rhee—including the written pledge that South Korea would not obstruct an armistice. The source said that Robertson did not wish to embarrass Rhee by disclosing the concessions.

Rhee is reported to have agreed not to free any more prisoners. His order freeing 27,000 Poles held by the allies last month stalemated the nearly-completed truce negotiations.

The envoy, assistant U. S. secretary of state Walter S. Robertson, refused to agree to Rhee's demand that the U. S. would walk out of a post-armistice political conference if it failed to make headway in 90 days on unifying Korea, the source said.

In return, Eunson said, Rhee was assured that the U. S. would hold another top-level conference with South Korea—after a truce signing—to work out a joint policy and that the U. S. would defend South Korea if it were attacked.

Working On Atom Gun For British Warships

LONDON (Reuters)—The News Chronicle says today British navy scientists are working on an atomic gun for warships.

Great progress has been made with the difficult initial problems of mounting such a weapon aboard a ship, the paper says.

The scientists are trying for a range greater than the 20 miles claimed for the atomic cannon tested recently by the United States Army, it said.

Prime Minister Looses New Tax Reduction Blast

CALGARY (CP)—Prime Minister St. Laurent doffed his 10-gallon hat today and headed into northern Alberta, leaving residents of Canada's premier cow-town with the problem of what to call the Progressive Conservative party's promise to reduce taxes by $500,000,000 a year. The prime minister had his own answer.

In a political address here Saturday before some 600 persons, Mr. St. Laurent implied the Republican party in the United States came to power by promising voters such "hot air" as tax cuts which it couldn't deliver.

The prime minister did not mention the U. S. by name but an official of his party said "the U. S. is obviously the country he meant."

Replying to an editorial in the Calgary Herald which charged the Liberals with telling "bedtime stories" about the cause of the depression in the 1930s, the prime minister denied the Liberals ever had painted the Conservatives as makers of the depression. But he said Canadians should note the difference between hot air and cold facts—the hot air of the Progressive Conservative promises and the cold facts of Liberal policy.

CONTINUE MAKE CUTS

While ridiculing Progressive Conservative election pledges as "hot air," the prime minister said the Liberals will continue to make tax cuts, if Canada's national income continues to rise.

PRIME MINISTER

Canadian Defence Better Than Year Ago RCAF Says

MONTREAL (CP)—Air force officials of United States and Canada today began study of reports of Operation Tailwind, a mock war involving units of the RCAF and the United States Air Force.

Air Vice-Marshal A. L. James, officer commanding air defence command at St. Hubert, Que., said "our defence is stronger than it was last year."

He said:

"Our techniques and methods of operation have been improved and we have more modern equipment."

But enemy bombers penetrated Eastern Canada's air defence system.

Theoretically, Smiths Falls, was wiped off the map. The "enemy" planes were first engaged about 35 miles northwest of Smiths Falls and were at Burritt's Rapids, just east of Smiths Falls, when brought down.

The RCAF centre at Brockville was the nerve centre of the air defence system during the 52-hour attack by jet fighters and bombers.

The two-day operation ended Sunday night and all phases of defence and attack were introduced. Both reserve and active units took part in the exercise.

SENT INTO FRAY

Fighter aircraft were sent into the fray from air fields in Eastern and Western Canada to intercept the "attacking" bombers.

Anti-aircraft units and the ground observers corps also played a major role in the defence.

The ack-ack units, their radar equipment picking up and tracking down the invaders, relayed the information to fighter units while the ground observers—civilian spotters who relayed their information to filtre centres where invaders' courses are plotted—were tested strongly throughout the operation.

Many "kills" were reported by the defending fighters but all reports must remain unconfirmed until researchers evaluate the findings recorded on camera guns carried on all planes.

During the exercise all fighter squadrons were kept on the alert. Within minutes after the first warning from radar networks or ground observers the jets were aloft ready to intercept the "invaders."

Searchers Find Tiny Footprints

MINAKI, Ont. (CP)—A set of tiny footprints, found by two Indians 2½ miles southeast of Wade, Ont., today gave new hope to searchers starting their second week in the hunt for five-year-old Geraldine Huggan.

The prints, believed to be less than two days old, were found in the previously-uncombed area by Joe Cameron and Cornelius MacDonald, Ojibway trappers and district guides.

Jacob MacDonald, father of Cornelius, thinks the child, who wandered away from her grandparents' summer cottage at Wade, July 5, could still be alive. He said he participated in a winter search two years ago in which a seven-year-old Indian boy was found alive after 40 days.

A party of soldiers from Winnipeg, scheduled to return to base Sunday night, abandoned their departure plans and struck out to search the southeast corner near Myrtle lake, where the footprints were discovered.

Cameron and MacDonald were among the 16 Ojibways who joined 60 soldiers and about 50 civilian volunteers in a last, all-out effort to find some trace of the lost child.

Takes Issue With P.M.

Defence Spending Draws Drew Fire

JONQUIERE, Que. (CP)—Hon. George Drew took issue with Prime Minister St. Laurent Saturday night on one of the Progressive Conservative party's main election arguments—defence spending.

Mr. Drew centred his criticism on the prime minister's statement in Victoria Friday that the Progressive Conservatives should give a "straight answer" on how they would carry out their proposal to reduce defence expenditures by 10 per cent.

"The last person to talk about straight answers is the head of government at Ottawa," Mr. Drew said.

"Let him tell us he is going to do something about the waste and extravagance that has been found in every department of government subject to an independent investigation."

DOES HE KNOW MORE?

The prime minister had said he was shocked that Maj.-Gen. G. R. Pearkes, Opposition military critic, should claim $250,000,000 could be cut from the defence budget without decreasing the armed forces' efficiency.

"I wonder if the prime minister thinks he knows more about military defence than General Pearkes, Leon Balcer and others in our party who have served in uniform and know what military service is."

The defence-spending issue, which is closely connected with the Progressive Conservative promise to cut taxes by $500,000,000 a year was raised in a speech to 550 persons here at the end of a day's visit to this Saguenay valley district.

READS IN FRENCH

Mr. Drew spoke earlier to 700 persons at nearby St. Joseph d'Alma. At each place he read in French from the same prepared text and then added some remarks in English.

He spent Sunday resting in Quebec City and today headed into New Brunswick on a week-long tour of the Maritimes. Speeches were planned today at Campbellton and Bathurst.

Federal-provincial relations and social security payments such as old-age pensions and family allowances were also dealt with in Saturday's speeches.

The Jonquiere speech was interrupted by a heckler who shouted: "you're against the baby bonus."

"That is not true," Mr. Drew replied in French.

"I have come in person and in all sincerity to tell you that I have never opposed family allowances."

ALL-PARTY SUPPORT

Social security payments were supported by all parties and in time "will inevitably be increased and improved."

"In spite of all you hear about family allowances, old-age pensions and other social security, we advanced every one of them when I was premier of Ontario."

He criticized federal centralization of power and charged the Liberal government has "no intention of relinquishing that power."

The government did not want an agreement with the provinces reallocating tax fields. "It wants to centralize power. That is its program, that is its aim."

It was one of the election's "major issues."

"Our constitution is threatened as it has never been since Confederation. If the present trend continues, our federal system will be destroyed."

Burma Admits Infiltration By Chinese Reds

RANGOON (AP)—A government spokesman has acknowledged that Chinese Communist troops have filtered into North Burma from Yannan. Intelligence sources reported Saturday that Communist soldiers had hoisted red flags over Burmese villages 25 miles from the border in Wa State.

"The Burmese government has been aware for the past three or four weeks of 'infiltration' of Red Chinese forces in the northern Wa State of Burma," the spokesman told reporters. He called the reports "fragmentary" and said the government could not comment on the seriousness of the situation at this stage."

He conceded, nevertheless, that the whole matter is "delicate" and added that the government is "closely watching developments." He said he assumed diplomatic representations would be made at the proper time.

"PROTECT" BURMESE

The announced purpose of the Reds, intelligence informants here said, is to "protect" Burmese from the depredations of Chinese Nationalist guerrillas. The nationalists fled into Burma after the Communist victory in China.

(If finally confirmed, this would bear out fears expressed at the United Nations last April, when Burma appealed to the UN to get 12,000 Nationalist Chinese out of the country. The Burmese said they feared Peiping would use the presence of the Nationalists as an excuse to invade and take over all of Burma.)

Man 26, Admits Setting Fire

WILLOWS, Calif. (CP)—A remorseful, depressed young man who had never been in trouble before confessed Sunday that he set a forest fire which killed 15 persons last week.

Stanford Patton, 26, told police he needed money to feed his pregnant wife and three children and set the blaze in the hope of getting a fire-fighting job.

But authorities who had known Patton for 20 years as a quiet youth were puzzled by his action. He was held in jail here pending charges.

Patton's admitted objective was accomplished when he went to work Friday as an assistant cook with the crews fighting the fire he had touched off.

The blaze appeared to be under control until it burst up a steep gulch, trapping 15 members of a fire-fighting party.

The Weather

Peterborough Temperatures:

Today:
Night low....58 9 a.m....67

Yesterday:
Highest.....79 Lowest...61

One Year Ago:
Highest.....83 Lowest...50

Official forecasts issued by the Dominion public weather office in Toronto at 9:30 a.m.

Synopsis: The weather map has been changing slowly during the past few days. Thus, today and Tuesday will be rather similar to Sunday over most of the Great Lakes area.

A disturbance over southern Hudson Bay is moving eastward, and some cloudiness and scattered showers will cross Northern Ontario today followed by cooler weather over the James Bay regions. Elsewhere, it will continue mostly sunny and warm with a few isolated afternoon or evening thundershowers both days.

Regional forecasts valid until midnight Tuesday:

Lake Erie, Lake Huron, Lake Ontario, Niagara, Georgian Bay, Haliburton regions, Windsor, London, Toronto, Hamilton cities: Sunny with some cloudiness and a few scattered thundershowers during the afternoon and evening today and Tuesday. Continuing warm. Winds light. Low tonight and high Tuesday at St. Thomas, Wingham, St. Catharines, Windsor, London, Toronto and Hamilton 60 and 85, Trenton 60 and 80, Muskoka and Killaloe 55 and 45. Summary for Tuesday: Mostly sunny.

DISCUSS COMMUNIST UNREST — The foreign ministers of the U.S., France and Great Britain are shown as they began a series of conferences in Washington. They are (left to right) Georges Bidault of France, John Foster Dulles, U.S., and Lord Salisbury, Great Britain. Dulles called on the Western Allies to seize this "time of great opportunity" to exploit the downfall of Lavrenty P. Beria, "symbol of the Russian police state."

O-B-I-T-U-A-R-I-E-S

MRS. HARRY MILLER

OMEMEE—(ENS)—The funeral of the late Mary Ann Netta Miller, wife of the late Harry Miller was held today at 2.30 p.m. a the home of her sister, Mrs. Emma Wood.

Mrs. Miller, who was 79, was born in Cavan township, a daughter of the late Samuel Graham and Margaret Morton. Since her marriage in 1909, she lived in East Emily until the death of her husband eight years ago Since which she has made her home with her sister, Mrs. Wood, in Omemee. She was a member of the United Church—a former Methodist.

She is survived by one sister, Mrs. Emma Wood and a nephew, Ross Widdis of the Glencoe High School teaching staff.

The service was conducted by the Rev. V. E. R. Zufelt and burial was in Emily cemetery. The pallbearers were: Harold Dick, Stanley Tully, James Magee Reginald Fee, all of Emily township and Austin Hayes and D. T Deyell of Omemee.

ALEXANDER LANG

OMEMEE—(ENS) The funeral service for the late Alexander Lang was held today at 3:45, at the home of his son, Vernon of R.R. 3, Omemee, the Rev. V. E. R. Zufelt officiating.

Mr. Lang was born in East Emily, a son of the late Catharine and Alexander Lang, and lived there until a few years ago, when he moved with his son, Harold, to a farm one mile north of Omemee. In spite of his 86 years, he was quite active until two weeks ago when he had a fall, the shock of which caused his death on Saturday. His wife, the former Clara Ida Storey died 30 years ago.

He was a member of the former Methodist church and later of Omemee United Church in which he served as trustee until his death. Also he was a member of Lebanon Orange Lodge.

One brother, Herbert of Peterborough, survives him and he leaves two sons, Vernon and Harold and a grandson, Barry.

The pallbearers were: Allan Milburn of Peterborough, Esmond Storey, Ira Switzer and George Magee of Emily township and H J. Jones and T. A. McConnell of Omemee. Burial was in Emily cemetery.

MRS. MARY JANE WARD

BETHANY (ENS)—The death occurred in Civic Hospital on Sunday of Mrs. Mary Jane Ward of Bethany. Mrs. Ward was 82 and had been ill for sometime. Her maiden name was Mary Jane Smith.

She had been very active all her life in her community, especially in the activities of St. Paul's Church of which she was a member.

She was predeceased by her husband, the late John Ward, a son Stanley, and a daughter, Mrs. Arthur Jamieson (May). She is survived by a sister, Miss Florence Smith, Bethany, two brothers, John of Bethany and Robert of Millbrook, and five grandchildren, Garry and Brian Smith of Bethany, and Pauline, Bernice and Ross Jamieson of Toronto.

The funeral will take place from her sister's home, Miss Florence Smith, Bethany, on Tuesday at 2:00 p.m., with T. S. Gault, rector of St. Paul's Church officiating. Burial will be in St. Mary's cemetery.

Plan Support Strike Action

HAMILTON (CP) — Nearly 400 members of Local 879 of the General Truck Drivers union Sunday voted unanimously to support strike action of the Windsor local in its dispute with the Motor Transport Industrial Relations Bureau.

A strike vote will be taken in Windsor early this week. Union officials say the result is certain to favor a strike. If it does, some 3,000 freight-transport drivers in the Hamilton and Windsor districts will strike and tie up 36 transport companies.

The issue arose following a conciliation board report in May, in which the Toronto and Hamilton locals were offered a wage boost of seven cents an hour for drivers and 11 cents for mechanics.

Another increase of three cents an hour will be added Oct. 1 and a further three cents Jan. 1 next year.

Windsor, which operated through a separate board, sought a wage increase of 52 cents an hour to bring its rates into line with those in Detroit.

MORE ABOUT—

Prime Minister

Continued from Page 1

The Liberal leader, now in the fourth week of his election campaign, was to leave Calgary early today en route to Edmonton. He was scheduled to travel by train to Red Deer where he was to deliver an address and then proceed by plane to Edmonton.

A major address dealing with the federal government's policy on natural gas and oil pipelines is scheduled to be delivered at Edmonton tonight.

Mr. St. Laurent spent a relatively quiet Sunday here. He attended church services and then partook of a chuck-wagon breakfast.

Still wearing the 10-gallon hat presented to him on his arrival here during Stampede Week, the prime minister polished off a man-sized Western breakfast—two plate-loads of flapjacks, curried rice and sausages and eggs.

U.S. Dollar At Discount

MONTREAL (CP)—The U. S. dollar was at a discount of 11-16 per cent in terms of Canadian funds, the Bank of Canada reported at noon today. Friday's noon rate was 99 5-16 cents. Pound sterling $2.79 13-16.

MORE ABOUT—

Reds Organized

Continued from Page 1

the Canadian branch of the International Union of Mine, Mill and Smelter Workers.

In telling how he joined the party, Walsh said he was first assigned as a party organizer in an unemployment camp and then sent to work in mines and lumber camps in the Rouyn and Noranda section of Quebec and worked there from 1937 to 1940.

(These unions were expelled from the Canadian Congress of Labor allegedly because they were Communist-dominated.)

ORDERED TO JOIN UNION

Walsh told the probers that Harry Binder of Montreal, ordered him to join the seamen's union.

Raymond Collette, business agent of the Canadian Seamen's union saw that he got on a ship as a seaman, Walsh said.

He conducted classes in Maxism on board, Walsh said.

His job, Walsh said, was to contact Communist dock workers unions in ports where his ship docked and try to persuade them to refuse to unload the cargoes when the ships arrived.

This work, he said, took him to London, Hamburg, Antwerp, Genoa, Naples and Bari.

Negotiations were going on with the ship owners, Walsh said, but the communists had orders to carry out the strike, whether or not their demands were met.

POLITICAL STRIKE

He said it was "a political strike with no bona fide trade union principles involved whatsoever."

When his ship docked in Genoa, Walsh said, he went to a meeting attended by "top Communist agitators in the maritime section of the Cominform." He said the meeting was held to discuss plans for a world wide shipping strike.

He added: "If Harry Bridges had been there he would have been welcome."

Bridges, president of the International Longshoremen's and Warehousemen's Union, was convicted in 1950 of swearing falsely at a 1945 denaturalization hearing that he was not a Communist.

However, last June 15, the U. S. Supreme Court threw out the perjury-conspiracy conviction and voided the order depriving Bridges of his citizenship.

The Supreme Court said in its decision that the statute of limitations governing the alleged offence had expired.

DIDN'T KNOW

Asked if he knew definitely whether Bridges was a Communist, Walsh said he did not.

He added, however, that among seamen and dock workers, Bridges generally was considered to be a Communist.

He went on to say he had been told Bridges and a group of Communists had once met in Chicago to lay plans for the International Longshoremen's Union to take over longshoremen's unions in Canada.

The Genoa meeting, Walsh said, was led by Andre Fressinet, general secretary of the International Trade Union of Inland Waterway Workers, Seamen, Fishermen and Port Workers.

Others attending the meeting Walsh said, were representatives of the Italian, and Dutch seamen's unions, the Antwerp dockers action committee and Austrian transportation workers.

Also present, he said, were representatives of the underground in Spain, the International Brigade in Spain, the British dock workers, Greek maritime unions and the Cuban General Workers Federation.

HAS DOCUMENTS

Walsh said he was prepared to submit documents to support this part of his testimony.

Walsh said he joined the Communist movement at the age of "17 or 18."

ORDERED TO ENLIST

In 1940 he continued, he was ordered to enlist in the Canadian army to carry out "revolutionary defeatism."

He said he was dishonorably discharged four months later because of what he termed "subversive activities."

His next assignment, Walsh said, was in getting Communists to work at the large Shipshaw power project in northeast Quebec. He said he was "instrumental in getting about 150 top Communists" to work there.

Walsh said he remained there about two years and until in 1943, he was ordered to attempt to re-enlist in the army. He said he was successful in this, and was sent overseas where he was in contact with Communist cells in the Canadian army, navy and air force. Their task at that time, he added, was to agitate for the opening of a second front in Europe against the Germans.

No Big Change Expected In Russ Attitude

By RICHARD O'REGAN

VIENNA (AP)—Four week-end developments have convinced Western experts here that Lavrenty Beria's downfall means no change in the major outlines of Soviet policy. The Reds, they say, will keep up their present "soft" approach to the enslaved satellites and the West, but their long-range aim still is to weaken and then destroy the West.

Vienna diplomats, described by recent visitor Adlai Stevenson, U.S. 1952 presidential candidate, as some of the best-informed experts outside Russia, said Beria's arrest is important, but that it is only one move in a far more significant and dangerous Kremlin game.

"The new Russian rulers are still out to win the world," said one high-ranking Western observer. "The soft-look is a temporary attempt to deceive two groups of people, the Western powers and the enslaved masses of communism. Beria's arrest is part of this plan.

"When the time is ripe, Russia can and will throw it all overboard and the West had better watch out."

NO CHANGE IN POLICY

Meanwhile, these experts said, these developments show there will be no change in the policy of trying to win friends by niceness:

1. Hungary's Communist leader, former premier Matyras Rakosi, announced Saturday night that there is to be no let-up in the new velvet glove policy toward Hungarian workers.

2. Moscow's Communist party newspaper Pravda declared that Beria had obstructed agricultural plans designed to improve the food situation and had failed to remedy legal injustices.

3. The Soviets ended martial law in East Berlin.

4. Communist Bulgaria agreed with Yugoslavia to set up a mixed commission to investigate border incidents.

LATER DEVELOPMENTS

All these developments occurred after announcement of Beria's arrest. Between the time of his seizure, supposedly June 27, and the announcement, the Ukrainian Communist party anounced a major short-term program for raising living standards.

None of these events, diplomats here believe, would have taken place had Russian Premier Georgi Malenkov plans for a revision of the new tactics that followed Stalin's death.

Diplomats here believe Beria's arrest does show signs of a basic struggle for power in the Kremlin. But, like other one-time Russian powers, he now is apparently being used as a scapegoat for all the errors and ruthlessness of the Stalin regime.

British Troops

Continued from Page 1

Broadcasting from Cairo, Egypt's minister of national guidance, Maj. Salah Salem said Egypt would "kick the British out" of the Suez canal zone and "rivers of blood will flow." He added: "We have set a deadline, and this deadline has not arrived yet."

"Britain will not drag us into a losing battle," he said. "When we are ready, we shall appeal to all of you to join us in battle."

An Egyptian government communique said the British authorities had announced that all persons going in and out of Ismailia would be searched for arms and those carrying them without a permit would be detained.

The communique said British authorities had given assurance they would not hinder normal traffic and appealed to the population not to resist inspection.

Ismailia's sub-governor said that the British actions were bound to lead to "great trouble."

DENIES ANY KNOWLEDGE

Salem denied Sunday night that his government knew anything about the missing Briton and said: "We are keen to see blood, if this is what the British threat meant, because we know independence must be acquired with blood."

The British acted after Egypt rejected an ultimatum demanding the release of Aircraftman A. V. Rigden. British officials said he was last seen July 9 being driven away from an Ismailia square by a "well-known local bad boy" and that the British had "good reason to believe at least one member of the Egyptian authorities was in on the abduction."

In its demand on the Egyptians, the British command in the Ismailia area said Lt.-Gen. Francis Festing, the British commander in the canal zone, would "take such action as he considers necessary" if the airman was not returned by 9 a.m. today and "measures may be put into force which will cause serious disruption to the Egyptian communities in the area of ismailia."

An estimated 300 British troops hastily set up roadblocks at all entrances to Ismailia and after 9 a.m. no civilians were permitted to leave or enter the town. The British positions were armed first with light machine-guns but later these were replaced by heavy machine-guns.

MORE ABOUT—

Union Accepts

Continued from Page 1

Local 293 will accept a further modified plan of swing shifts in which an estimated 50 or 60 people will be affected in the flour mill; workers on swing shifts will be guaranteed a 40-hour week and will be given notice by Thursday of each week what day besides Sunday they will have off.

A 40-hour week, included in the previous offer, is automatically included.

Today, picketing is continuing at the Peterborough plant and union officials are emphasizing that while agreement has been reached here the strike is not over. They said there were no pickets Saturday because permission had been given for them to walk in the Orange parade. And on Sunday all picketing was cancelled so the union members could attend the special meeting.

WON'T LET THEM DOWN

"We don't intend to double-cross Local 418 in Saskatoon," William Triggs, president of Local 293, UPWA, said today. "It's common knowledge that the workers out there came out on strike the same day as we did and we don't intend to let them down by going back to work until they have a settlement. That shouldn't come as a surprise to anybody."

The Saskatoon workers want a plan, roughly similar to the one here, plus a union security clause.

The membership meeting was held at 3 p.m. Sunday and strikers arrived from as far away as Haliburton to vote on the offer. Many of them have temporary jobs elsewhere and made a special trip to the city to attend the meeting.

They accepted the recommendation of the executive which was to take the company offer on provision that a settlement is reached in Saskatoon. Fred Dowling, Canadian director of UPWA, and Sam Hughes, Eastern Canadian director, both urged the membership to back up their fellow-unionists in Saskatoon.

GRAHAM ANGRY

Alderman Norman Graham, mediator in last Thursday's meeting at City Hall, was also angry at the UPWA's Canadian director, Mr. Dowling.

"I certainly don't want to take sides in this dispute," Alderman Graham said today, "but I'm blaming Dowling; he's the one who's holding us up. I'll say this though: Bill Beggs was under pressure but he kept his word to us."

Alderman Graham said that he personally had left the meeting Thursday with the impression that once a settlement was reached in Peterborough another one in Saskatoon could be arranged in just a few hours.

"This has all come as a surprise to me," he said.

"The union committee said that if there was a settlement here they'd have no trouble ending the strike in Saskatoon which was only a sympathy strike," said Alderman Graham. "They said the situation in Saskatoon could be cleaned up in a few hours. I remember them saying, too, that the situation would have to be cleaned up there first before they'd go back to work in Peterborough."

Mr. Beggs said today that Mr. Faryon knew the two Quaker Oats Co. locals were sticking together until the strike is over. He said that at the meeting Thursday Mr. Faryon had agreed that ending the strike at Saskatoon was "no problem."

ilies, en route from Guam to the U. S. for summer vacations.

Just before dark Sunday the Barrett found the inflated life raft, ties stamped with the initials "TAL," meaning Transocean Air Lines.

Earlier, weak distress signals were picked up for two hours in the lonely Wake - Honolulu lane where the plane disappeared.

Clergy Protest Public Poll About Princess

BIRMINGHAM, Eng. (Reuters) A conference of Methodist clergy today protested vigorously against a public poll organized by a newspaper on the question of whether Princess Margaret should be allowed to marry Group Capt. Peter Townsend.

There are widespread rumors that the 22-year-old Princess is in love with Townsend, 38, a divorced palace officials.

Members of the conference applauded loudly when Dr. Donald Soper, the president, said: "I want to protest as vigorously as I can in the name of this conference at the unwarrantable and disgusting intrusion into the affairs of that royal personage.

"I regard this newspaper to have behaved very badly indeed in so embarrassing us and opening the flood gates to all kinds of prejudiced, ill-informed and probably perverted opinion."

BACKED UNANIMOUSLY

The conference backed his protest unanimously.

The newspaper criticized is the mass-circulation Daily Mirror. On its front page today it published a voting form, asking its 4,500,000 readers to vote "Yes" or "No" to the question "If Princess Margaret so desires, should she be allowed to marry him?"

The Mirror referred to the fact that Townsend was the innocent party in a divorce, was given the custody of his two children, and his former wife has recently remarried.

Saying that the church frowns on the re-marriage even of the innocent parties in divorce, the paper declared: "The Daily Mirror believes that the time has come for the voice of the British people to be heard in the problem. . . ."

Rescued Off Yacht

GLASGOW (Reuters) — Five persons were rescued from their dismasted yacht, after drifting helplessly all night in heavy seas off the Hebrides. The five, including a woman and two children, left Northern Ireland heading for Campbeltown, Scotland.

Take a Second Look . . .

No matter where your vacation takes you, Canada's natural beauty is close at hand . . . rivers, trees, prairies, mountains. But behind that beauty is the waterpower, the pulp, the lumber, the minerals, the grain . . . yes, and the factories, too, that the enterprise . . . and the savings of many, many people have moulded into one of the world's great agricultural and industrial countries.

Canada is rich in natural resources . . . probably richer than any of us dreams. While these resources have been here for ages it really has been only within the lifetime of most of us that the savings of Canadians have been used in their development. People of other countries have helped, of course . . . but Canadians may take pride in knowing that it primarily has been their own savings . . . and their own ingenuity that have been responsible.

But getting back to your vacation, we would like to make a suggestion . . . after you admire the beauty of the country take time for a second look . . . take time to realize what the real natural wealth of this country means to you and to every other Canadian. If you do we think you may get just as enthusiastic as we are about the soundness of Canadian investment.

When you get home you may want information on some situation which has caught your imagination, or perhaps some assistance in drawing up a program of diversified Canadian investment. If so, we can help you. This is your invitation to write us or to drop in to any of our offices.

WITH THE CANDIDATES ON HUSTINGS

Tax Methods Come Under Fire From Candidates

By Canadian Press Staff Writer

Prime Minister St. Laurent twisted Uncle Sam's beard during the weekend while George Drew, Progressive Conservative leader, and M. J. Coldwell, CCF leader, were yanking at his own moustache. In an election campaign speech at Stampede-fevered Calgary, Mr. St. Laurent implied that the Republican party got into power in the United States with such "hot air" promises as tax cuts and then failed to deliver the goods.

The prime minister, seeking re-election for himself and the Liberal party he leads in the Aug. 10 contest, employed this implication to attack the $500,000,000-a-year tax reduction promised by the Progressive Conservatives.

At Jonquiere, Que., Mr. Drew criticized Mr. St. Laurent for saying the Progressive Conservatives couldn't deliver on promised cuts in defence spending.

KNOW THEIR WAY AROUND

He said Mr. St. Laurent shouldn't contradict Maj. - Gen. G. R. Pearkes, VC, Progressive Conservative military critic, and others "who have served in uniform and know what military service is."

Mr. Coldwell concluded his Saskatchewan campaigning at Outlook by contending at a CCF picnic that Mr. St. Laurent's promise of a national health plan—providing the Liberals were re-elected and the provinces agree—was "typical" of the Liberals' "practised deceit" at election time.

"They've always stooped to these tactics before an election," Mr. Coldwell told the gathering on the banks of the South Saskatchewan river.

Mr. St. Laurent, in his speech before a Liberal rally, did not refer to the U.S. nor the Republicans by name but an official of his party said later "the U.S. is obviously the country he meant."

"Once upon a time in another land," the prime minister said, "a political party had been out of office so long it was apparently willing to try any kind of hot air to blow its way in."

IGNORE COLD FACTS

"Well, this political party that had been out of office so long didn't bother about . . . cold facts. Oh no, it just went merrily along promising to balance the budget and reduce taxes perhaps by the simple expedient of eliminating all the mink coats in that country."

". . . And the people believed them and put them in office. . . . They haven't been able to keep their promises to balance the budget and they are begging the people not to ask them to keep their promises to reduce the taxes they find they need quite desperately to meet the cold facts of life."

Meanwhile, Mr. Drew referred to the prime minister's speech at Victoria Friday in which he called for a "straight answer" from the Progressive Conservatives on how savings could be made.

"The last person to talk about straight answers is the head of the government at Ottawa," Mr. Drew said.

"Let him tell us when he is going to do something about the waste and extravagance that has been found in every department of government subject to an independent investigation. . . . We want a straight answer as to when they will get the horses off the payroll."

MAKES TWO SPEECHES

Mr. Drew read two speeches in French, one at Jonquiere and the other at St. Joseph d'Alma, and spoke later in English as he made a day-long tour of the Saguenay valley 140 miles north of Quebec. He opens his week-long tour of the Maritimes today at Campbellton and Bathurst in New Brunswick.

Mr. St. Laurent will be at Red Deer, Alta., today and then will fly from Penhold to Edmonton to speak at the opening of the Edmonton Exhibition.

Mr. Coldwell flew across five provinces to Moncton, N.B., where he also opens a Maritime tour today.

The election is four weeks from today and it was nomination day in 21 scattered ridings. Nominations in the other 242 constituencies close July 27, two weeks before polling day.

Nominations Day Held In 21 Constituencies

This is nomination day for the Aug. 10 federal election in 21 large scattered constituencies.

Nominations in the other 242 constituencies close Monday, July 27, two weeks from now and two weeks in advance of the voting.

The 21 ridings in which the election field takes final shape today include five in Newfoundland, two in Quebec, three in Ontario, one in Manitoba, three in Saskatchewan, three in Alberta, two in British Columbia, the single Yukon seat and the new riding of Mackenzie River in the Northwest Territories.

Nominations close at 2 p.m. local time. An unofficial compilation by The Canadian Press shows 55 candidates nominated for the 21 seats by party conventions. However, more are expected to file their official papers and post their $200 deposits by closing time.

The 55 includes 20 Liberals, 13 Progressive Conservatives, 12 CCF, seven Labor-Progressives and three Social Credit.

2 CABINET MINISTERS

Cabinet ministers are candidates in two of the constituencies and a parliamentary assistant in a third.

J. W. Pickersgill, former clerk of the privy council, is contesting Bonvista-Twillingate in Newfoundland, won for the Liberals in the 1949 election by F. Gordon Bradley, Mr. Pickersgill's predecessor as secretary of state. Edward Russell, Progressive Conservative, has also been named to contest the seat.

In Port Arthur, Ontario constituency at the head of Lake Superior, Trade Minister Howe faces at least a four-way fight in his fifth election contest in the constituency he has represented continuously since 1935. His opponents include Bruce Magnuson, Labor-Progressive, R. A. Robinson, Progressive Conservative, and R. V. Wilmott, CCF.

William Benedickson, parliamentary assistant to the minister of transport, is contesting Kenora-Rainy River in Ontario where his opponents include W. J. Gray, Progressive Conservative, and R. J. James, CCF.

John Diefenbaker, prominent Saskatchewan Progressive Conservative who represented Lake Centre in the last house, is contesting Prince Albert against Liberal, CCF and Labor-Progressive oppostion. His constituency shift came about because of boundary changes in redistribution which reduced Saskatchewan's representation in the house to 17 members from 20. A Liberal, R. H. Helme, won Prince Albert in 1949.

HOLD NOMINATIONS

Following are the constituencies in which nominations are being held today:

Newfoundland: Bonavista-Twillingate, Burin-Gurgeo, Grand Falls-White Bay-Labrador, Humber-St. George's, Trinity-Conception.

Quebec: Chapleau, Saguenay.

Ontario: Cochrane, Kenora-Rainy River, Port Arthur.

Manitoba: Churchill.

Saskatchewan: Mackenzie, Meadow Lake, Prince Albert.

Alberta: Athabaska, Jasper-Edson, Peace River.

British Columbia: Cariboo, Skeena.

Yukon and Northwest Territories Yukon, Mackenzie River.

Social Security Child Of CCF

WINDSOR, Ont. (CP) — David Lewis, national vice-president of the CCF, said Sunday social security is the "illegitimate child" of the Liberal government which was "forced to take the child in when it was left on their doorstep."

Addressing some 2,500 persons attending a picnic sponsored by Local 200, United Automobile Workers (CIO), Mr. Lewis, a Toronto lawyer, said that while social security is the "illegitimate child the Liberal party did not know it had fathered," it is to the Progressive Conservative party "just a foundling."

"The only force in this country which has fathered social security legitimately, which has fought for every item honestly, sincerely and with determination and will continue to fight is the organized labor movement and the CCF political party," he said.

Pearkes Defends Tax Statement

VICTORIA (CP)—Maj.-Gen. G. R. Pearkes, VC, Progressive Conservative candidate in Esquimalt-Saanich, Sunday defended his statement that $250,000,000 could be saved in defence expenditures without threatening the fighting efficiency of the services.

Addressing a political meeting at Glen Lake, Maj.-Gen. Pearkes said:

"I have always said that the taxpayer was not getting 100 cents on the dollar in defence department spending."

Prime Minister St. Laurent suggested in Victoria last Friday that the election had caused Maj.-Gen. Pearkes to "change his tune" in regard to defence expenditures.

Said Maj.-Gen. Pearkes:

"Even the prime minister admitted there might have been some extravagances. I am convinced there has been waste and extravagance and overlapping and duplication in the purchasing for the defence forces and that literally millions can be saved by careful administration in that department."

Wool Trade Better

WASHINGTON (AP) — World wool trade was up in 1952 and shows signs of improving further this year, the agriculture department reported. A survey, based in part on U.S. embassy reports, was published in the department's official Foreign Crops and Markets. It attributed the trend to recovery in the wool textile industry and in raw material markets.

Chevrier Opens Campaign Denying Drew's Charges

ST. BONIFACE, Man. (CP)—Transport Minister Chevrier Sunday night opened his western election campaign by replying to Conservative leader George Drew who said that the government was "wasteful and extravagant, dictatorial and refused to give information."

In an address in French to a St. Boniface constituency meeting, he said never before in any session of Parliament was so much information given as in the last session. Hansard and orders of the day had been loaded with questions, and ministers had never refused to answer them.

Commenting on Mr. Drew's promise to reduce taxation by $500,000,000, Mr. Chevrier said the Liberal government also is anxious to reduce taxation. It did not tax people for the pleasure of doing so.

He said the government reduced taxation five per cent in 1952 and by 11 per cent in 1953. Just as soon as circumstances warranted and the international situation eased the Liberal party would make further reductions in taxation.

Queen To Get Whale's Tooth

AUCKLAND, New Zealand—An official from the Fiji Islands in the South Pacific is scouring New Zealand museums for teeth of the sperm whale to ease an acute shortage in that British Crown colony.

The whale's teeth, known in Fiji as tambua, were used for centuries as currency. Although they have been replaced today by coins tambua still play an important part in the birth, marriage and death rituals of the islanders.

Heavy purchases of the teeth by American servicemen seeking souvenirs during the Second World War gravely depleted the supply. The export of tambua is now strictly prohibited but the supply has not built up from natural sources. The offcial now in New Zealand has obtained a few tambua from museums but wants 500 to meet the islands' needs.

Despite the export ban, the largest tambua to be found in the islands will leave Fiji this year. By tradition it will be presented to Queen Elizabeth II as part of the homage due to the senior paramount chief when she visits Fiji at the end of the year during her South Pacific tour.

LPP Has Nominated 92 Candidates–Buck

VANCOUVER (CP)—Tim Buck, national leader of the Labor Progressive (Communist) party, told a meeting here Sunday night the party has nominated 92 candidates for the Aug. 10 federal election, 18 of them in British Columbia.

Speaking in the Vancouver Forum, Mr. Buck was interrupted once when a rousing British marching tune suddenly burst over the building's amplifiers.

"I don't want to be nasty, but that seemed like a strange coincidence," said Mr. Buck, when the noise subsided.

Tax-Rental Pact Aids Manitoba Garson Says

RIVERS, Man. —(CP) — Justice Minister Garson said Saturday night that the federal-provincial tax-rentals argeement will do more than any other single policy to encourage settlement and the development of industry in Manitoba.

He made the statement at a public meeting after Chester McFadden, the chairman, said he regretted that Manitoba's population had increased numerically but not in proportion to the rest of Canada.

Mr. McFadden said for this reason Manitoba's representation in parliament was reduced to 14 from 16 members in last year's redistribution.

LITTLE ENCOURAGEMENT

Mr. Garson said that before the signing of the tax agreement there was little to encourage industry to locate in Manitoba. By the same token, the burden of taxation here was high and no doubt discouraged some people from settling in the province.

Now, under the tax-rentals system, the situation was being corrected. Manitoba had been able to "get out from behind the eight-ball." Manitoba had the lowest taxes of any province; the lowest per capita dead-weight debt; the lowest telephone rates of any camparable system; and the lowest electricity rates on the Prairies.

Provincial Co-operation Greatest St. Laurent Gain

TORONTO. — The greatest achievement of the St. Laurent regime has been the creation of an attitude of co-operation between the provincial and federal governments, Health Minister Martin told a York West Riding meeting on Saturday night. In a Conservative stronghold that has been held by Rodney Adamson since 1940, he addressed about 100 persons in Etobicoke Collegiate on behalf of Robert M. Campbell, candidate for York West, and Ken Thompson, York Humber candidate.

Recalling the bickering and friction between the two levels of government which he said had been the rule in the past, Mr. Martin said unemployment insurance and old age security were the result of the new co-operative spirit. Progress in health and welfare programs would not have been possible without this spirit, he said.

Without mentioning Ontario's premier by name, he said Premier Frost had been told by St. Laurent when he first came to power that he did not intend to encourage the traditional bickering between "certain governments."

Mr. Martin was certain that Premier Frost would say there had never been more cordial relations with any Prime Minister than there had been with Mr. St. Laurent.

LIKE WISE FATHER

Called "Mr. Take Care of Us" by the York West candidate, the health minister emphasized, as in previous speeches, Mr. St. Laurent's approach to government "like the wise father as the head of a large family," who refuses to make promises which he knows cannot be fulfilled.

Mr. Martin questioned the charges of extravagance and waste levelled at the government. Any organization of any character would have both of these, he said, but no one in the government condoned them. Canada is by no means the highest taxed country in the world, he said. Looking over the NATO roster, he claimed all suffered high taxation.

In the past two years the government has reduced taxes by $500,000,000. The recent budget cut lopped off $1,000,000 per day, the minister said. Opposition Leader Drew's tax cut claims are made solely for the purpose of gaining power, yet Mr. Drew's other 15 points would require spending an extra $1,000,000,000.

Prospectors Find Plane Wreckage

EDMONTON (CP)—The RCAF reported today the discovery of aircraft wreckage in the Yukon Territory and said it is believed to be that of a Mitchell light bomber which disappeared with four men aboard on a training flight a year ago.

The discovery was made in the McCarthy Mountain Range, 45 miles south of Mayo, by two Yukon prospectors who reported the finding of aircraft identification numbers, skeleton remains and a hat bearing the name of FO M. W. Hooper.

FO Hooper of Cobble Hill, B.C., was radio operator aboard the missing City of Edmonton Squadron plane.

The RCAF said a helicopter and ground search party will go out to the scene, about 1,000 miles northwest of Edmonton from the RCAF station at Whitehorse, Yukon.

A spokesman said the wreckage is believed to be that of a Mitchell of the City of Edmonton 418 Squadron which failed to return from a navigation flight during training manoeuvres June 30, 1952.

The famous AUSTIN A-40 Somerset 4-Door Sedan. NO EXTRAS TO BUY— A COMPLETE CAR AT $1895*

NO EXTRAS TO BUY WHEN YOU BUY AUSTIN

Somerset models are delivered complete, ready for the road with no extras to buy. Standard equipment includes:

- Deep foam rubber cushioning
- Genuine leather upholstery
- Non-stalling electric windshield wipers
- New super heater with full air-conditioning
- 12-volt electrical system
- Directional turn signals
- Full kit of tools

...but DON'T Buy 'Till You Try!

When you take your first close-up look at the new AUSTIN A-40 Somerset—and realize that this finely engineered car will almost cut your car costs in half—*you'll want it!*

But don't buy it 'till you try it—out on the open road where a car can show its paces. You'll feel a relaxing sense of comfort the moment you sit behind the wheel on those foam rubber, leather-upholstered cushions. And when you look at traffic through that wide, one-piece curved windshield and then take the car smoothly and swiftly up to highway cruising speed you'll know you are driving a finely engineered car. The Somerset and its thrifty ways will make AUSTIN your friend for life. Why not call now and ask for a demonstration.

The Glorious Twelfth

Much of the animosity that was stirred up by the annual celebration of the Battle of the Boyne has cooled down in these days. Immigrants from Italy, Holland, Germany and even England who had never even heard of these demonstrations or the historical event which evoked them have somewhat diluted the original partisan fervour. No longer is the day marred by unseemly incidents. The pageantry remains, and the sound of the drums and fifes still stirs the blood of those who have no ancestral connection with the land of the shamrock.

To the non-Irish citizens of Peterborough the Orangemen's march may serve as a reminder of the leading part played by Irishmen, both Protestant and Catholic, in the foundation of our City and the opening up of the surrounding country. Irish names still form a high proportion of the telephone directory, and vestiges of Irish speech and folkways persist amongst us, yet we hear little public acknowledgement of this on official occasions. They were the hewers of wood and the drawers of water that made the wilderness blossom as a rose. Let us honour the memory of the founders of our community—the Irishmen. If they are often accused of having too long memories the rest of us can be justly reproached for undue forgetfulness of the past.

Beria

To parody the song

"Old Commies always die,
They never fade away".

Trotzky, Kamenev, Lunacharsky, Radek and hundreds of other Soviet leaders have paid the supreme penalty of death for insufficient political adroitness in the Soviet system; now it is the turn of Lavrenti Beria, once dreaded Minister of Home Affairs and head of the Secret Police. At the time of writing he may already have been tried, condemned and executed, for Soviet "justice" is swift and sure.

It is useless to speculate at this stage, as have some of our contemporaries, on what will be the upshot of this dramatic fall from power. The walls of the Kremlin have guarded many secrets, and the Soviet leaders, whoever they may in reality be at this moment, are keeping their mouths shut. We can only say that Russia is unlikely to embark on any risky foreign ventures while her own internal affairs are so unsettled.

Truly the lot of a Communist boss is an unhappy one. There appear to be only two ways out of office, natural or violent death. In a democratic state politicians may be hounded and worried and sometimes even assassinated by crackpots but at least they are reasonably safe from judicial murder by their erstwhile accomplices. If they wish to resign they may hand in their portfolio or apply for the Chiltern Hundreds without personal risk. When Harry Truman was President of the United Sates he could not move without an escort of secret service men. Now that he is once again plain Harry Truman he can enjoy all the privileges of being a humble private citizen. Nobody fears that the winner of the election of August 10 will institute a holocaust of members of Her Majesty's loyal opposition.

Actually the present rulers of Soviet Russia are merely perpetuating an old Russian custom. At least half the Czars of Russia met with violent deaths. Catherine the Great, for example, ascended the throne after having connived at the murder of her husband Peter III by one of her many lovers. We should be very wary of applying the word "primitive" to cultures different from our own, but it cannot be denied that in many respects Russia has remained very primitive compared with ourselves. Beria, mild and bland in the Himmler tradition, has been utterly ruthless in his heyday. Now it is his turn to taste his own medicine and it would be hyprocritical of us to display undue concern for his fate. *Sic semper Tyrannis.*

Thirteen Who Can't Go To Coney

Thirteen Communists who are ranked as "second string" men have been out on bail following the lodging of an appeal against their conviction last January. Their travel range is restricted, however, to the New York southern federal district, and they recently asked Judge Sylvester S. Ryan to widen their restricted range. In support of the request, they argued that they were now unable to go to the beach at Coney Island, and they wanted to do so to escape the heat of the city.

Superficially, the request may have seemed reasonable, but Judge Ryan refused it. He gave his reasons for doing so, thus revealing that the ban on trips to Coney Island in no way deprives the Communists of a visit to a beach. In the area to which they are restricted, there are a number of fine beaches such as Yelham Bay Park, Orchard Park and City Island. They may also go into Rockland, Sullivan and Ulster counties—counties which have been seeking New York tourists for years. So they are suffering no hardship on that score.

The thirteen men may have sought anonymity among the millions who go to Coney Island, or they may have thought they would have an excellent chance to escape. They may have sought publicity, or they may have had the idea that they were achieving some sort of martyrdom. Personally, we cannot understand how they could hope for the last mentioned result, for we feel that a trip to Coney Island, when more than a million scantily-clad humans were bathing, sunning themselves, littering the beach and forming about as tightly-packed a mass of humanity as can be found, would be a penance. The convicted men, however, may be exceedingly gregarious, and think that nothing could be more jolly than mingling with crowded millions, but we feel no sorrow that they are restricted to smaller crowds at finer beaches.

Joseph Laniel, Who Is He?

If the average Canadian (if he ever existed) were asked the name of the present French Premier it is doubtful whether he would be able to name Joseph Laniel. He might be forgiven for his ignorance on account of the distressing habit of the French to change Cabinets with almost the same nonchalance and frequency as a man changes his underwear were it not for the fact that the French themselves had eventually grown impatient and alarmed at the state of affairs. For weeks France had been without any government at all. The French civil service had of course been carrying on, but two urgent matters clamoured for attention.

France is economically in very bad shape. The war in Indo-China is draining her of her resources, and bold measures at home are imperative to save her from bankruptcy. On the international front the developments behind the Iron Curtain and their repercussions abroad, notably the projected conference of the Big Three, demanded that France must have a voice to speak for her if she is to retain her somewhat shaky status as a great power.

The upshot of the frantic manoeuvrings in the French capital has been the appointment of a hitherto little-known figure as Premier. Belonging to a small Right Centre group, the Independent Party, Joseph Laniel served as Under-Secretary of State in the Paul Reynaud cabinet of March-June 1940. He was at that time a prosperous textile manufacturer from Normandy with a distinguished war record in the First World War who, like so many business men, had found his way to parliament by way of municipal politics.

At the fall of France he went underground and distinguished himself in the Resistance Movement. At the liberation he returned to politics and has held a number of minor posts (member of finance committees, Minister of Communications, etc.); but there was nothing to indicate to the outside world that he was marked out for high office, and his appointment as Premier came as a distinct surprise.

Little is known of Laniel the man. He is a man of strong convictions, but has up to the present preferred to work in the background. If he can keep his government together for a session or so we shall be able to judge what manner of man he is. If he fulfils expectations he should be the strong and silent type. He is a Norman, and the Normans are reputed in France to be dull and tenacious, with a fondness for going to law. They are also considered parsimonious to a degree. If Laniel is true to type he should be able to hold on and balance the budget by means of economies rather than by new taxes.

NOTES AND COMMENT

Two evening schools in England are offering courses in mountain climbing. Yes, and where do the students do their homework? On the roof?

A beauty specialist advises women to think carefully before appearing in slacks, and the Brantford *Expositor* waggishly adds that they should make sure that their ends justify their jeans.

The new premier of France, Joseph Laniel, is a textile manufacturer, but that is no guarantee that he knows the ropes.

It is now discovered that a candle-flame can be extinguished by the vibrations from the high notes of a violin. Perhaps *that* was why Nero fiddled while Rome burned!

Criticism of Canadian stamps misrepresenting the Queen continues to appear, and one of these days the Post Office department will wake up to the fact that Canadians are interested in having good stamps, finely designed and printed.

The Communists And German Unity

By W. N. EWER

THE sudden changes of policy in the Eastern zone of Germany in the early days of June roused hopes that the Soviet government might be preparing to make the way easier for the reunification of Germany by lessening the differences of structure—political, economic and social—between East and West. Indeed the announcement on June 10 that the Politbureau of the Socialist Unity Party had "recommended" the reforms, specifically stated that their purpose was "to facilitate the rapprochement between the two parts of Germany." There were, indeed, some commentators who foresaw that the next step would be an offer to hold free elections in the East.

✧ ✧ ✧

THE sequel showed that the real motive of these concessions was desire to allay the mounting unrest which, a week later, brought the events of June 17. And, though the workers' revolt brought the promise of still further economic concessions, their demand for free elections and for the resignation of the government have been firmly though tacitly rejected. It is evident that there is to be no change either in the character or in the personnel of the regime. The fulsome messages which Herr Walter Ulbricht received on his 60th birthday were a convincing gesture.

✧ ✧ ✧

AND unless there is some evidence of readiness to modify the character of the regime in the Soviet zone, it is hard to regard Communist professions of desire for reunion as sincere. For reunion could only come about on a democratic basis. Even the Communists cannot believe that the West Germans (or the vast majority of East Germans for that matter) would accept Soviet dictatorship as the price of unity.

✧ ✧ ✧

THE Bundestag resolution of June 10 (voted unanimously except for the Communists) not only appealed to the British, French and United States governments to do all they can to bring about reunion by peaceful means. It also proposed a practicable programme for bringing reunion about. The first two steps would be the holding of free elections for all Germany, and the formation of an all-German government as their outcome. That, as Sir Winston Churchill noted, in replying to Chancellor Adenauer's message informing him of the resolution, conforms to the proposals made by the three western powers to the Soviet Government last September.

✧ ✧ ✧

THAT, let me note, does not imply that this programme is a "three-power" one, meekly accepted by Dr. Adenauer and endorsed by the Bundestag. It is simply the programme which any practical man, seriously wishing for unity, would adopt. It is plain commonsense. And it is hard to see any reasonable or practicable alternative.

✧ ✧ ✧

WHAT is the Communist reaction. The Soviet government has not replied at all to the three-power note of September 23 urging a new "single-minded effort to come to grips with the problem." But earlier attempts by the western powers had met with a curious answer. The Soviet government paid lip service to the cause of unity. It could hardly do otherwise. But it put forward an alternative programme of its own which, to any normal mind, does not seem to make sense.

✧ ✧ ✧

IT would start, apparently, (for the language of the Soviet notes is often obscure and ambiguous) by the restoration of four-power control in all-Germany in accordance with the Potsdam system. Then there would be a Peace Treaty negotiated with an all-German delegation—presumably drawn from the two existing governments. This delegation would be required to accept certain limitations on German sovereignty—notably an undertaking not to enter any alliance or international association to which any of the four powers might object, and an acceptance of permanent "neutrality." And only then would the German "delegation" work out plans for the formation of an all-German government, which would hold all-German elections.

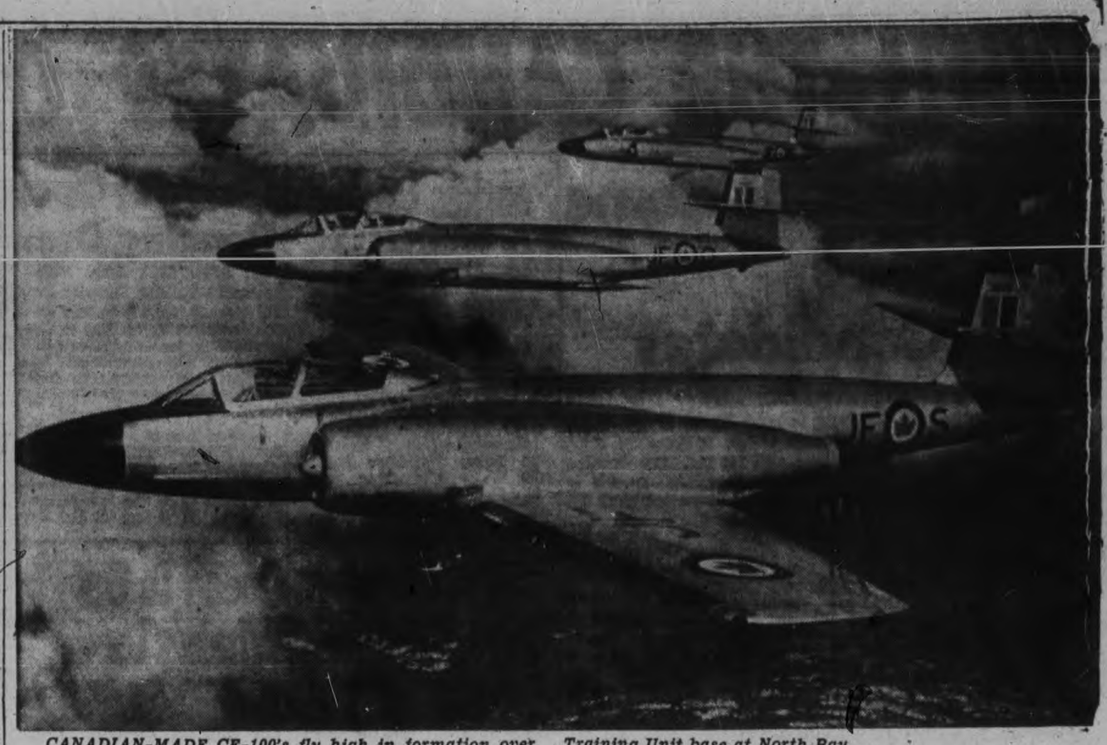
✧ ✧ ✧

SUCH a programme "puts the cart before the horse." It reverses the logical, business-like order of events. It postpones free elections to the end of a long chain of events, of which the strange beginning would be the revival of the Potsdam regime. And it is patently unworkable. Can one—to take a single point—conceive of a "German delegation" headed jointly by Dr. Adenauer and Herr Grotewohl? It is surely inescapable that before there can be a treaty there must be a genuine all-German government competent to negotiate it; and that before there can be a genuine and representative all-German government there must be free all-German elections. Yet this is precisely what the Russians and the German Communists refuse to accept.

✧ ✧ ✧

THE Soviet Government, as I have noted, has not replied to the three-power note of last September. But the statement issued by the West German Communist Party after the events of June 17 repeats the old Soviet demand for a treaty first and for free elections last. So one may assume that the Soviet attitude remains unchanged.

✧ ✧ ✧



THE position, therefore, is that the three western powers and the whole of the Bundestag except the Communists call for the speedy reunification of Germany on a democratic basis as the outcome of free all-German elections. And that the Soviet Government and the German Communists (both in the East and in the West), while professing to want unity, insist on laying down conditions for its achievement which make it not only politically but practically impossible.

Lag In Penal Reform

(Winnipeg Tribune)

The big difficulty in instituting a real program of penal reform in Canada is the divided jurisdiction of our penal institutions. It is admitted the federal government has done an excellent job over the last five years in bettering conditions in the penitentiaries over which it has full control. Today youths committed to these institutions are given a real chance of rehabilitation and are, to all intents and purposes, separated from confirmed criminals.

Few of the provinces, however, have kept pace with Ottawa in improving conditions in the jails and reformatories over which they have control.

CANADIAN-MADE CF-100's fly high in formation over Ontario's north country, from the RCAF Operational Training Unit base at North Bay.

British Muddle In Meat Rationing

(MONTREAL STAR)

THE British experience in the control and rationing of meat supplies should provide a warning to anyone who is attracted by the plan, just announced by Mr. Coldwell, leader of the C.C.F., for the nationalization of the livestock industry. The British are now running into very serious difficulties, the result of their attempts to work out, just as Mr. Coldwell wants to work out here, a planned system of production.

Meat rationing in Britain worked well during the years of war shortage. Supplies were very limited, the Government heavily subsidized home production, each farmer being told what he must produce in the national interest. Imports were strictly controlled. The result was that a small quantity of meat was available to all, though everybody pretty well had to take what the butcher offered, because the butcher, in turn, had to take what the Government offered him.

Now, however, supplies are rising fast. Supplies of pork and mutton are about normal. Beef is in short supply, but more is in sight. The Government, which is still heavily subsidizing the farmers, has ordered the butchers to sell at certain prices, for, if they sell at less, the Government's loss rises. But the housewife has entered the picture in her usual decisive way. Faced for the first time in years with a choice in her meat buying, she is shopping around. She picks and chooses. Since she is only allowed under the ration to spend only so much a week on meat, she rejects the pork and mutton, and looks for beef. She also tells her butcher that she would buy the pork and mutton but only if the price were lower. The butcher, who has to buy his supplies at a certain price, tells her he is under bond to sell pork and mutton only at such and such a price. She refuses to put her money down.

The Government last year decided the farmers ought to raise more pigs. Subsidies were increased. The British farmer now gets half as much again for his pigs as a Danish farmer does. The result is he is raising pigs in a big way, just at the moment when the housewife decides she does not want to feed her family pork.

The dilemma is a real one. The Government in Britain would like to get rid of rationing. At the same time, it wants to encourage agriculture and home production of food. But what happens when the de-rationed housewife decides she does not want to buy the supplies the Government has encouraged the farmers to raise?

It seems obvious that long term planning of livestock production must be coupled with the strictest kind of controls over the consumer. If the plan calls for the production of so much beef, pork or mutton, it must also call for the consumer to buy what is produced.

Mr. Coldwell's plan, which may look attractive to many farmers who want certainty of markets, also calls for much more, and for rigid control of the eating habits of the nation. It looks to us as if Mr. Coldwell's scheme should be given much closer examination before anyone tries to put it into force.

The Cost Of Classrooms

(OTTAWA JOURNAL)

OTTAWA'S Public School Board has asked Board of Control to provide $1,538,000 by borrowing on debenture for its school building program. Board of Control has agreed to recommend only $1,180,000, which is a difference of $358,000.

The difference comes about in this way: The school board bases its estimates on a price of from $21,700 to $23,000 per classroom. Board of Control refuses flatly to provide funds in excess of $20,000 per classroom, on the ground that under new regulations that is the maximum amount the Ontario Government will use as a basis in making its grants towards school construction.

We reprinted on this page recently from the Hamilton Spectator a description of an 11-room school built by Guelph's board of education at a cost of less than $15,500 per classroom. The Spectator said that by eliminating such "costly frills" as long wide corridors and decorative architecture the Guelph trustees had recognised a basic fact —"that the taxpayer's pocket is not bottomless."

Now there appears a letter in the Spectator from Mr. A. L. Bailey, vice-chairman of the Burlington public school board, saying Burlington has set even a more striking example than Guelph of low-cost school construction.

Burlington, says Mr. Bailey, put up a 10-room school "of standard brick facing and wood-and-steel (plus cement blocks) supporting structure" and with an assembly hall which can be used in an emergency for two classes. Storm windows and individual-heat control are included. Taking the assembly as two classrooms the cost to Burlington per room was $12,333 — disregarding the assembly the room cost was $14,800.

School boards everywhere in Ontario are facing the problem of accommodating more and more children just now reaching school age, and building costs have become a formidable item in every education budget. We should not lose any chance that these Western Ontario communities have shown the way to recognition of the fact that, as the Hamilton Spectator said, the taxpayer's pocket is not bottomless.

Don't Know Ontario

(Port Arthur News-Chronicle)

What this newspaper has been complaining about over the past several yehrs is that pupils come out of the primary and secondary schools with practically no knowledge of the geography of their own province, what the counties and districts are, or more important, perhaps, the location of principal towns and cities. It is not their fault. They were never taught.

When one educationist was asked about it his reply was that, "We teach them where they can find out." At that rate, they could teach spelling by telling the pupils they could find the words correctly spelled in a dictionary.

How Time Flies

JULY 13

1923 City Clerk S. R. Armstrong denies the charge made by R. R. Hall that Peterborough is decadent.

It is announced that the city has no intention of operating a municipal fuel yard this coming winter.

A new shelter is being erected by the council for bathers at the Lake St. beach.

1933 The South Central School may be kept open for another year, according to reports.

J. M. Baker is appointed clerk of the municipality of Hastings.

Huckleberries reach the local market and sell at 25 cents a quart.

1943 RCAF Sgt. N. T. de Laplante arrives home after being overseas for three years.

A large funeral is held for the late James Lynch, long a well-known local druggist.

Lions Club members are clearing stones from the river at Riverside Park to make a wading pool.

Bible Message

(From the Authorized Version)

Now there was at Joppa a certain disciple named Tabitha, which by interpretation is called Dorcas: this woman was full of good works and almsdeeds which she did.

And it came to pass in those days, that she was sick, and died: whom when they had washed, they laid her in an upper chamber. And forasmuch as Lydda was nigh Joppa, and the disciples had heard that Peter was there, they sent unto him two men, desiring him that he would not delay to come to them.

Then Peter arose and went with them. When he was come, they brought him into the upper chamber: and all the widows stood by him weeping, and shewing the coats and garments which Dorcas made, while she was with them.

But Peter put them all forth, and kneeled down, and prayed; and turning him to the body said, Tabitha, arise. And she opened her eyes: and when she saw Peter, she sat up. And he gave her his hand, and lifted her up, and when he had called the saints and widows, presented her alive.

And it was known throughout all Joppa; and many believed in the Lord. (Acts 9: 36-42.)

✧ ✧ ✧

And we know that the Son of God is come, and hath given us an understanding, that we may know him that is true, and we are in him that is true, even in his Son Jesus Christ. This is the true God, and eternal life. (I John 5: 20.)

TO HIS ADVANTAGE

A grocer had difficulty with a doctor who was backward in paying his bills, so he put the matter in the hands of a collector. The man returned looking worried.

"What's the matter?" asked the grocer. "What did the doctor say?"

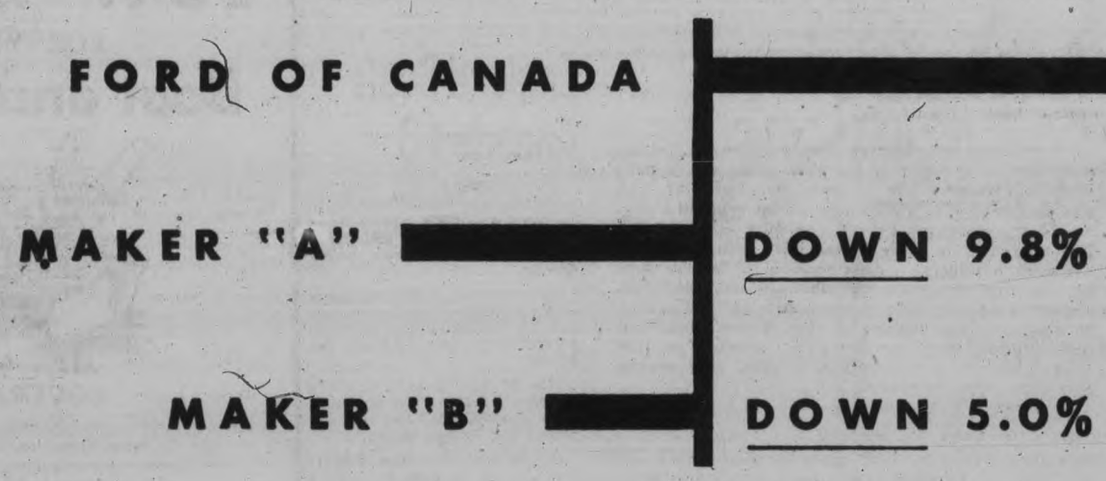
"Well," replied the collector, "he said I wasn't looking well, examined my tongue, and advised me to remain indoors for a few weeks."

OF THE LEADING CANADIAN CAR MAKERS

ONLY

FORD OF CANADA

HAS REGISTERED A GAIN IN PUBLIC ACCEPTANCE



OF ITS PRODUCTS IN 1953 TO DATE

AS COMPARED WITH 1952

PUBLIC ACCEPTANCE OF THE CARS OF "THE BIG THREE" . . . 1953 VS. 1952

The chart below shows the relative public acceptance in Canada of the cars of the three leading Canadian manufacturers . . . during the first five months of 1953 (latest available figures, based on official new car registrations) as compared to *the record for 1952. It will pay you to study this chart, and its meaning, before YOU buy.*

Out of every 100 automobiles bought by Canadians this year, better than 32 are Ford of Canada automobiles. This represents a 22.3% larger *"share of market" for Ford of Canada products* this *year over last. ONLY Ford of Canada products have made this significant* gain *in buyer preference.*

IT'S THE SAME STORY ALL ACROSS THE COUNTRY

Figures show per cent increase in buyer acceptance of Ford of Canada cars in first five months of 1953, as compared to 1952.

VANCOUVER	UP 12.6%
CALGARY	UP 17.0%
REGINA	UP 28.6%
WINNIPEG	UP 23.2%
TORONTO	UP 25.1%
MONTREAL	UP 18.5%
ST. JOHN	UP 10.9%
HALIFAX	UP 15.0%

SOME OF THE DECISIVE FACTORS BACK OF THIS TREND

- **Supreme V-8 Experience** . . . Ford of Canada has been building and perfecting V-8's through more than 20 years of manufacturing leadership.
- **Unparalleled Owner Proof** . . . 4 out of 5 of all V-8's ever sold in Canada are Ford of Canada V-8's. Billions of miles of owner driving and owner satisfaction are back of the Ford of Canada V-8 you buy.
- **Proved V-8 Durability** . . . Ford of Canada V-8 Engines have been proved to last longer.
- **No "Price Penalty"** . . . only Ford of Canada offers Canadians fully modern V-8 power, smoothness and advanced design in the *lowest* price field.
- **Tested V-8 Economy** . . . Year by year, for over 20 years, Ford of Canada has pioneered and perfected *exclusive* gas-saving, oil-saving, upkeep-saving refinements in V-8 design.
- **Acknowledged Style Leaders** . . . in every price field, Ford styling sets the pace in the fashion parade. You drive a Style Leader when you choose a Ford of Canada V-8 performance leader.
- **New "Ride" and "Roadability" Standards** . . . Ford of Canada "front end" design is the most advanced on the road today. Even the lowest-priced Ford of Canada model rides like a much bigger, heavier car. Latest proof of Ford engineering leadership: Lincoln wins first, second, third and fourth places in the famous Mexican Road Race, most gruelling test of chassis and power plant ever staged.
- **Finest Automatic Transmissions Ever Built** . . . Ford-engineered Automatic Transmissions are the best in the industry. And only Ford of Canada offers your choice of Automatic*, Overdrive* or Standard drive on so many models (*optional at extra cost).
- **Built in Canada's most modern automobile plants** . . . Ford of Canada is currently investing over $65,000,000 to expand and improve its manufacturing facilities—which have traditionally set top industry standards for precision building, quality control, modern equipment, and skilled craftsmanship.
- **1100 Ford of Canada Dealers** make it their business to serve you and satisfy you. Wherever you go, your Ford of Canada V-8 is never far from "home".

STEADILY GROWING PUBLIC DEMAND is the most convincing of all endorsements of Ford of Canada QUALITY. Ford of Canada reached an all-time sales record in 1952—is setting *another* all-time production record in 1953—working six days a week and *overtime.* Yet many buyers are still waiting delivery of their Ford of Canada cars. We are making every effort and soon hope to catch up with demand. In the meantime, it's significant that so many thousands of Canadians agree . . . it's well worth waiting for Ford of Canada *quality.*

FORD OF CANADA

Lindsay Takes The Liflocs By A Score Of 2 To 0 In Keen Lakeshore Contest

Presenting Lindsay Merchants with two unearned runs in the first inning here Saturday, the local junior Liflocs bowed by a 2-0 score to the Scugog intermediates in a keen Lakeshore Baseball League fixture before nearly 500 fans. The win kept Lindsay firmly entrenched in second place in the loop standing. Play was snappy most of the way, the seven-inning struggle lasting more than an hour. Local errors kept it from being a 0-0 ball game in a well-pitched fray. Junior West of Merchants hurled a three-hitter and fanned four, while Jerry Frizzelle gave up just four bingles, whiffing two. Each walked one. Lindsay had no miscues, but the Dalton-Mein boys kicked four.

ONE FOR ONE

Jewell of the visitors hit safely once in one official trip, also having a sacrifice. Joe Lowrey had two blows in four, and Joe Stewart one in three. Bill Edger had a sacrifice and a steal. For the homesters, Don Bigford hit a double and single in two times up, Gary Kearns getting one for three. The winners left five stranded and Liflocs left four.

The only twin killing was by Liflocs in the first frame, a play Lingard to Ferguson to Kearns. Fred Garvey had a smart pickup and peg to rob Young of a hit, and the latter roped in a neat catch in left for a few of the fielding features.

Lowrey opened the game with a single, moving up on Edger's sacrifice and taking third when the throw to first was dropped. Edger then stole second and both scored on a miscue at first on Menzies' fielder's choice. The double-play then stopped the rally. Lindsay didn't get a man past second the rest of the way, nor did Liflocs have a man reach third throughout, only one making second.

Teams:

Lindsay: Lowrey, cf; Edger, 1b; Garvey, 2b; Menzies, c; Stewart, 3b; Debois, ss; Loucks, lf; West, p; Widdess, rf; Jewell, rf.

Liflocs: Kearns, 2b; Young, lf; Foley, rf; MacSporran, cf; Bigford, c; Lingard, 1b; Byrne, 3b; Pammett, ph; Ferguson, ss; Frizzelle, p.

Score by innings:

		R.	H.	E.
Lindsay	200 000 0	2	4	0
Liflocs	000 000 0	0	3	4

Umpires: Henry and Calladine.

Canadians Win Empire Trophy For First Time

BISLEY, Eng. (CP)—The Canadian team competing at the National Rifle Association annual meet has won the Empire Trophy for the first time since it was introduced in 1907.

Canada won the trophy, donated by Australia and previously won only by British and Australian teams, with a score of 1,826 Sunday. New Zealand was second with 1,793, Australia third with 1,790, Britain fourth with 1,772, followed by the British West Indies with 1,718.

The eight-man Canadian team was led by Lt.-Col. Steve Johnson, 48, of the King's Own Calgary Regiment with 238 of a possible 250. He also was leading individual scorer with 49 of a possible 50 on the 300-and 500-yard ranges and a perfect 50 at 600 yards.

OTHER SCORES

Other Canadian scores:

Sgt. W. Kayne, Montreal 217; Maj. A. M., T. Spittal, Victoria, B. C. 232, S. Sgt. G. G. Kay, Hamilton 232; Capt. W. J. Newell, Winnipeg 227; Maj. R. W. Hampton, Ottawa and Camp Borden, Ont. 237; Sgt. C. C. Wilson, Ottawa 223, and Capt. M. Morgan, Kingston, Ont. 220.

Members of the five competing teams fired 10 shots each at 300, 500, 600, 900 and 1,000 yards, eliminating the usual 800-yard range to speed up the competition.

The Empire match takes place only if an Australian team is entered and has been held only 11 times since 1907. Australia has won the trophy six times, including the last match in 1948, and Britain has taken the honors five times.

The Canadian team received a wire of congratulations Sunday night from the queen.

Plan Barrie Flyers To Play This Season

BARRIE, Ont. (CP) — Hap Emms, coach of Barrie Flyers of the Ontario Hockey Association Junior A circuit, announced Sunday night that his team will represent Barrie again this season.

The announcement ended speculation that the Memorial Cup champions would fold and Emms coach another team.

The Flyers have been operating without a sponsor for the last two seasons, ever since a disagreement with Maple Leaf Gardens over Sunday hockey. Since Barrie is within a 50-mile radius of Toronto, the Maple Leaf hockey organization can control sponsorship here.

Kawartha Wins In Tennis By A 6-1 Score

Kawartha defeated Bowmanville 6-1 in Kawartha Tennis League matches over the weekend here. The only successful visitors were Marlyn Leash and Doug Cattran in the second mixed doubles as they defeated G. Braund and Janet Collins 1-6, 6-4 and 7-5 in keen court competition.

D. Sullivan, of Kawartha, won the ladies' singles over Anna Strike 6-1, 6-1; while Wally Elsmley took the men's singles from Jack Dunn by similar scores. Joan Lye and D. Hunter won the ladies' doubles from Marg Dustan and D. Creaser 6-1 and 6-3. The first men's doubles went to Fleming Hunter and John Hickman against Al Strike and Cliff Galbraith over Jack Murray and Bud Fraser, 6-2, 3-6 and 8-6. In the first mixed doubles, Joan Lye and Ron Lyne won 6-0 and 6-3 against Aura Trewin and Ralph McHendry.

Weekend Wins Put Royals Back In Lead

By THE CANADIAN PRESS

Montreal's back on top again as a result of two weekend International Baseball League victories. But, Buffalo Bisons who have toppled them twice in recent days are only two percentage points and a half-game behind.

The Royals were on the wrong end of a 4-3 count Saturday against Ottawa, but took both ends of a doubleheader from the Athletics Sunday, 9-5 and 3-2.

Buffalo went down to a 10-0 defeat at the hands of fourth-place Baltimore Orioles Saturday, but Jack Wallaesa hit three homers and batted in five runs Sunday as the Bisons whomped the Orioles 11-4 to make up their loss of face.

Third-place Rochester Red Wings were edged 6-5 by sixth-place Syracuse Chiefs Saturday and Art Hartley, who had lost eight straight to the Wings, pitched a six-hit shutout against them Sunday for a 1-0 score.

LEAFS DOWN CUBS

Fifth-place Toronto Leafs downed cellar-dwelling Springfield Cubs 7-3 Saturday and then split with them Sunday, Toronto winning the first game 4-1 with a three-run outburst in the fourth frame and Springfield taking the nightcap 4-2.

In the opener at Montreal, Art Ditmer was knocked from the box in the sixth and charged with his 13th loss in 15 starts. Leftie Tom Lasorda of Montreal ran his personal score up to 10 wins in a dozen starts.

In the second contest, Sandy Amoros scored fellow-Cuban Chico Fernandez for the winner. He had homered—his 14th—in the first.

Reliefer Ronnie Lee got the win and Ed Burtschy was tabbed with the loss.

ROUND-TRIP WALLOP

At Baltimore, Ken Chapman greeted Dick Starr, Oriole starter, with a round-trip wallop on the first pitch. Ernie Nevel went the route for the Bisons. Starr was replaced in the fourth after Wallaesa's second homer with two aboard.

Hartley of Syracuse hadn't beaten the Wings since 1949 and now has a 2-9 record against them. He allowed only one runner to reach third base; walked three and struck out three.

Remember When—

By THE CANADIAN PRESS

Cleveland Indians signed a 17-year-old school pitcher named Bob Feller 17 years ago today. The youngster tied Dizzy Dean's single game, strikeout record two months later by fanning 17 Philadelphia batters.

England Loses 2 Quick Wickets

MANCHESTER Eng. (Reuters) —England, after recovering from 32 for two, lost two quick wickets in the last 15 minutes of play Saturday to reach 126 for four in reply to Australia's 318 by close of play in the third day of the third test cricket match.

Australia was left with the initiative. When play resumes today, England, now 192 behind, will need 43 to avoid the possibility of following on.

TOP CANADIAN—Pat Fletcher, of Saskatoon, was top Canadian at the end of three rounds of play in the Canadian Open Golf championship at Scarboro golf club, Toronto. He shot rounds of 69, 68 and 69 to place fourth, three strokes behind the American leader, Walter Ulrich, going into the final round.

SPORTS SHOW WINDOW

By CEC. PERDUE, Sports Editor

A fine snappy seven-inning ball game here Saturday eve before a fair crowd. Should have been many more there as 'twas booster night with some big prizes up. Guess folks want a Cadillac on a draw. Or else game under the lights. Anyway, Junior West and Jerry Frizzelle pitched dandy ball but Lindsay beat the Liflocs 2-0 on two unearned runs. Don Bigford had two for two at bat for Howie' Dalton's bunch, one a double. A good game, and Liflocs take on Whitby (a strong squad, too,) here Wednesday at 6.30. They have to be twilight tilts as the Hydro only wants a bit over $1,000 to turn on the arcs! Stan Payne announced for the draw and Hugh Campbell drew these winning ducats: Nos. 5230, 5392, 1392, 5358 and 5123.

* * * * * *

Much credit goes to Ray Tanner for organizing booster night, aided by George Bennett and Tom Casey. With prizes given by Benny Swartz, Borden's, Fontaine's Bike Shop, Canada Packers, TPT, McBride and Anderson, and Outboard Marine. Draw prizes for adults and free favors for the kids, prizes including TV set, lawn boy, bike, ham and an oil change and grease job. A crowd of less than 500 means the club will make very little on the deal, owing to expenses. There was a Detroit Tigers' scout on hand, Clare Hoose of Toronto, looking over the local lads. We know the chap as he played ball for Leaside back when Micky Murray was their third-sacker. Didn't hear what he thought of the tilt, but will write and ask him.

* * * * * *

OLA Pats Will Do Okay

Lou Vitarelli isn't discouraged by that 12-8 loss his OLA junior Pats dropped in Oakville the other eve. Green Gaels are tough and so is Brampton in this group, but they can be beaten. Brampton comes here tonight and we'll wager a pretty penny— all we can afford — the Pats take the tilt. They have to trek then Wednesday to Long Branch, and the schedule winds up in three more weeks. The Pats will make the playoffs, without much doubt, and then they'll really have to battle as it'll be a dogfight for OLA honors and a crack at the Minto Cup, presently held by Brampton. No time for fooling from here on in.

* * * * * *

Mimico Mounties aren't helping the senior lacrosse sport any by sending weakened teams on the road. They beat Orillia Yorks at home last Thursday and then sent 10 men—leaving several stars at home—here Friday. The result was that 34-4 slaughter by the Trailermen, and some of the local stars weren't even trying in the last half. Even Moon Wootton made a few rushes just for the fun of it, something the colorful Red Creighton used to do frequently back in our senior "B" lacrosse days. Russ Slater piled up no less than 11 points this tilt and Curly Mason got nine. Strictly no contest. Petes play in Hamilton tonight and have Yorks here Friday. St. Kitts kept atop the heap by beating Fergus in a close one.

* * * * * *

Appreciative Petes' Fan

Saw a letter the other day Bob Peirson received from Bob Hall in Civic Hospital. He said in part: "It is difficult to express my surprise and joy in hospital to receive the good wishes, accompanied by a handsome bouquet of flowers, evincing the interest of the lacrosse club in the well-being of one of their many fans. I have always admired the management for creative policy in the interest of good sport and sportsmanship and their special interest in the training under expert guidance of the youth of the city not only to play lacrosse but to 'play the game'. It is impressive and gratifying to see the calibre of players interested in playing for this club, those who play the game both on and off the field." He concludes by saying he'll be back seeing play soon, and wishes the club every success.

* * * * * *

Arrangements to have the Chicago Hottentots (colored men's softball squad) play the local all-stars in a Bowl exhibition tomorrow eve fell through, though the USA team may be over here in August. So, the twin bill tomorrow is: Seabrooke's vs. Revoy's, and UEW vs. TPT Petes. This male schedule winds up one week from Tuesday of this week, and there's a great scramble on for the three play off spots. Two clubs will eventually trek into OASA playdowns as senior "B" and intermediate "A" entries from Peterborough. Two trophies up (Wm. Taylor Trophy and George Dormer Cup) for the team finishing atop the schedule and the one winning in playoffs, these sawoffs commencing early in August.

Royal Serenade Wins Handicap

INGLEWOOD, Calif. (AP)—Front - running Royal Serenade raced to a wire triumph in the $100,000 Hollywood Gold Cup Handicap Saturday.

The Irish five-year-old, owned by Albert Ranches, came through to whip Calumet Farm's Fleet Bird. Calumet's filly, A Gleam, was third.

Time for the mile - and - one quarter was 2.00 4-5, compared with the track record of 1.59 4-5 set by another Irish horse, Noor, in winning this same Gold Cup in 1950.

Johnny Longden, chalking up his second victory in the cup race was aboard the winner.

Royal Serenade, second choice in the betting to Royal Vale, paid $5.30, $3.10 and $3.10. The Calumet entry paid $3.50 to place and $3 to show.

Yesterday's Stars

By THE ASSOCIATED PRESS

Batting: Yogi Berra, New York Yankees, hit two home runs and drove in three runs as the Yanks defeated Washington Senators 6-5 in 10 innings.

Pitching: Robin Roberts, Philadelphia Phillies, became the first major league pitcher to win 14 games as he beat Pittsburgh Pirates 6-4 in the first game of a doubleheader. The Phils also won the second 6-5.

UE Beats Scots By 6 To 4 In Smart Fray

Soccer fans were treated Saturday to an excellent brand of the code when UEW gained the decision over the Scots with two smart goals by Hoyle and Croll in the final minutes. Referee Ernie Cotton interpreted all the rulings with accuracy and his "ordering off" Jock Murray, UEW for "unlawful language" was precise and definite.

From the kick-off, Scots hemmed the UEW inside their goal area and to score two goals from the foot of Daly of Scots team. On the next visit Dunn hit the crossbar as Allan, punted up-field to gain a successful flag-kick when Dunn, Scots, headed into his own goal. This was followed by Hoyle, scoring whilst on a penalty award infringement and arbitrator's decision was perfect. Murray, later hitting the upright from 10 yards out. While the Scots outside left landed the ball into goal to witness the custodian saving a peculiar drive. Both eleven battled hard throughout the firts period. Interval: UEW 2, Scots 2.

MURRAY ORDERED OF

On resuming, UEW took the initative when Murray converted from a penalty spot to make it 3-2. Quickly Attard travelled to the other end to shoot the sphere across the goal as Gilchrist and D. Downer equalized 3-3. UEW went ahead again from a scrimmage in front of Scots citadel 4-3. This was short-lived as Boyd, Scots, evened up the count 4-4. At this stage, Murray, UEW, was "ordered off" for "unprintable language" making UEW play ten men to eleven. In the closing minutes, Davies, UEW, evaded the defence cleverly to find the rigging. Scots rallied to confine activities in the opponents territory. Ryan intercepted at the logical moment to send Croll up the centre who registered the sixth goal to the Scots four.

UEW— Katezick, goal; Croll and Kingston full backs, Steel, Ryan and Allan half-backs; Davies, Holt, Hoyle, Strong and Titchfield.

Scot-Canadians: Hammell, goal; Rice and Gallagher full backs; Peters, Burnet and Downer half-backs; Kane, Boyd, Daly, Gilchrist and Caldwell forwards.

Referee: Erie Cotton.

England Beats Canada 4-3

HOLLINGWELL, Eng. (Reuters) —England beat Canada four games to three with three halved in an international women's golf match on this Nottinghamshire course Sunday.

The foursomes ended all-square with one game each and one halved but the English women narrowly carried off the singles 3-2 with two halved.

Miss Marlene Stewart, Canada's 19-year-old British Open champion, from Fonthill, Ont., lost both her singles and doubles match.

In the foursome Miss Stewart and Mrs. J. H. Todd of Victoria lost 5 and 4 to Miss Frances Stephens and Miss A. Phillips. Miss Mary Gay of Waterloo, and Miss B. Davies of Victoria last 3 and 1 to another English pair.

In the singles Miss Stewart was defeated one up by Miss Stephens. Miss Gay also lost one up to Mrs. R. E. Garrett.

Other members of Canada's team are Miss Daintry Chisholm of Montreal, Mrs. Graeme Pyke, Hudson Heights, Que., and Miss A. MacKenzie of Toronto.

LAWN BOWLING

By HERB MARTIN

With two open tournaments on the local greens last week, the boys and girls were kept quite busy, but now that is all over with, we can settle down and carry on with the regular schedule.

Tonight at 7.00 o'clock, continuation of men's handicap singles; also ladies' schedule games.

Tuesday evening, ladies' and men's schedule.

Wednesday evening, mixed doubles. Choose your partner, $1.00 a pair.

Thursday evening, ladies' and men's schedule.

Friday evening, men's draw off the board and ladies' schedule.

Josh Billings says: "Never work before breakfast. If you have to work before breakfast, get your breakfast first."

Argyle Grattan Wins Both Thorncliffe Heats

TORONTO (CP) — A record crowd of 7,126 at Thorncliffe Raceway Saturday saw Argyle Grattan, owned by Dun C. Campbell of Ailsa Craig, Ont., win both heats of 2.06 1-5 for the mile.

The wins gave the five-year-old gelding a record of 14 wins in 15 starts this season and 52 in 63 races during the last two years.

Argyle Grattan was given a good test by Ann Pointer, owned by Jack Holmes of Milton, Ont., who came second in both heats.

In the second heat the favorite led from the start and was never headed in 2:09 4-5.

Tom Fool Easily Wins Brooklyn Race

NEW YORK (AP) — Greentree Stable's Tom Fool easily won the 65th running of the Brooklyn Handicap Saturday, defeating four rivals in the mile-and-one-quarter event at Aqueduct Racetrack. Belair stud's Golden Gloves was second and the King Ranch's High Scud was third. Gold Gloves led until the final half-mile, when Jockey Ted Atkinson put Tom Fool in the lead and drew away to win by a length-and-one-half.

There was win betting only and the winner returned $2.50 for $2.00.

Braves Capture Twin Bill; Experts Amazed

By ED CORRIGAN, Associated Press Sports Writer

Ask almost any National League manager what he thinks of Milwaukee Braves and he'll shake his head in wonder and tell you they should have folded long ago. Yet today the Braves are just 1½ games behind the Brooks and creating more noise than a dead Indian should. St. Louis Cardinals had a good opportunity to help bury Charley Grimm's tomahawk slingers Sunday but they succeeded only in digging a grave for themselves. The Braves won a doubleheader from the Cards 10-1 and 4-3 and knocked the Redbirds right into fourth place.

Philadelphia Phillies took over third place by whacking the helpless Pittsburgh Pirates 6-4 and 6-5. In other games, the Dodgers turned back New York Giants 4-3, and Cincinnati Redlegs won two games from Chicago Cubs 7-4 and 7-3.

WHIP SENATORS

In the American League New York Yankees whipped Washington Senators 6-5, but saw their lead sliced to five games when Chicago White Sox mauled Cleveland Indians twice 14-2 and 3-1. Boston and Philadelphia split a doubleheader, the Red Sox winning the first 9-5 and losing the second 4-1. Detroit Tigers won the first game of their twin bill with St. Louis Browns 8-7 but the Brownies took the second 3-2, beating Ralph Branca in his American League debut.

The Braves made it easy for Johny Antonelli to notch his eighth victory of the year in the first game by slugging five Cardinal pitchers for 17 hits, including a grand-slam home run by Ed Mathews.

DIFFERENT STORY

The nightcap was a different story. The Cards scored three runs in the fifth and Don Liddle had to be rescued by Bob Buhl, who held the Redbirds at bay while his mates were notching the tying and winning runs in the seventh.

The double win enabled the Braves to shave a half-game off the Dodgers' lead. The Brooks snapped an eight-game winning streak for the Giants when they scored a run off relief ace Hoyt Wilhelm in the bottom of the 10th inning. With the bases loaded, Wilhelm passed Bobby Morgan to force in the winning run.

Robin Roberts hurled the Phillies to their first-game triumph for his 14th victory of the year, tops in the majors.

The Yanks had to win their game the hard way. They had a 5-3 margin going into the ninth, but Jackie Jensen hit a home run off reliever Bob Kuzava to shave the deficit to one run. That called for Allie Reynolds to take over the mound for the Yankees. He gave up a triple to Keith Thomas and game-tying fly to Gil Coan.

In the home half of the ninth, Gene Woodling singled Mickey Mantle home with the winning run. Yogi Berra hit two home runs for the Yanks.

Hamilton Trips St. Catharines In 9-8 Triumph

By THE CANADIAN PRESS

Hamilton Tigers have taken on a new form in the senior Ontario Lacrosse Association League

Tigers, who have been playing an on - again - off - again game throughout the season and who have never been near the top of the league, showed a reversal in form Saturday night when they dropped leading St. Catharines Athletics 9-8.

Tigers managed the win with a four-goal rally in the final 15 minutes of play. They had been behind 7-5 at three-quarter time. The addition of several players from the recently disbanded Brampton Excelsiors is helping Hamilton considerably.

In the only other game of the night Toronto-Orillia West Yorks defeated Fergus Thistles 15-13. The Terriers were behind 6-2 after the first quarter, 10-7 at the half and 12-11 going into the final stanza. They rallied for four goals in this period for the victory.

SCORE GOALS

Playing at St. Catharines, Tony Capula and Barney Welch led the Hamilton attack with two goals each. Singletons went to Al Downey, Al Doyle, Bob Rankin, Doug Davidson and Jack Sibbald. Gerry Davies scored twice for St. Catharines with the other goals scored by Norm Corcoran, Al Frick, Jim Bradshaw and Max Woolley.

At Orillia, George Master was top marksman for the Yorks with four tallies. Other scorers were Tony Damico with three, Elmer Lee with two and Stu Scott, Leo Teatro, Ken Croft, Bruce Webster, Frank Facto and Steve Kapasky with one each.

Don Campbell with four goals, led for Fergus. Don Gear managed three while Jack Hill and Ron Landoni each got two and Bob Dobbie and Bill Allum one each.

U.S. Scores 5-0 Rout Over Japanese Team

VANCOUVER (CP)—The United States Saturday scored its third straight 5-0 rout over Japan in three years in the first North American Zone Davis Cup tennis tie of 1953.

In the final two singles matches Saturday, the U.S. intercollegiate champion, Ham Richardson, defeated second-ranked Kosei Kamo of Japan 0-6, 6-2, 6-1 and 6-3 and eighth-ranked Tom Brown drubbed Japan's third - ranked Masanubo Kimura 6-2, 6-0 and 6-1.

The Japanese team will next appear at the Canadian National Championships in Toronto.

The United States plays the British West Indies in Jamaica in the next round of the Cup playoffs.

WALL MASTER

The Machine That Has REVOLUTIONIZED WALL WASHING

- Small Fraction of Painting Costs
- No Disturbance to Your Routine
- Rejuvenates Paint
- No Alkaline Solutions
- Adaptable to Any Washable Surface
- No Streaks—No Splotches
- Eliminates 3 Outside Paint Jobs at Approximately ⅓ of the cost.

Wallmaster is as Much Ahead of the Bucket and Sponge Method

As the Modern Home Laundry is ahead of The Wash Tub and Scrub Board

Free! Demonstration and Estimate

- If new paint is applied to a dirty surface there is a good possibility it will peel off in places which presents a costly patch-up job.
- One coat of paint will usually cover a clean surface whereas 2-3 coats are needed to cover a dirty surface.
- When Hunt Bros. cleaning contractors do a wash job painting is usually unnecessary.

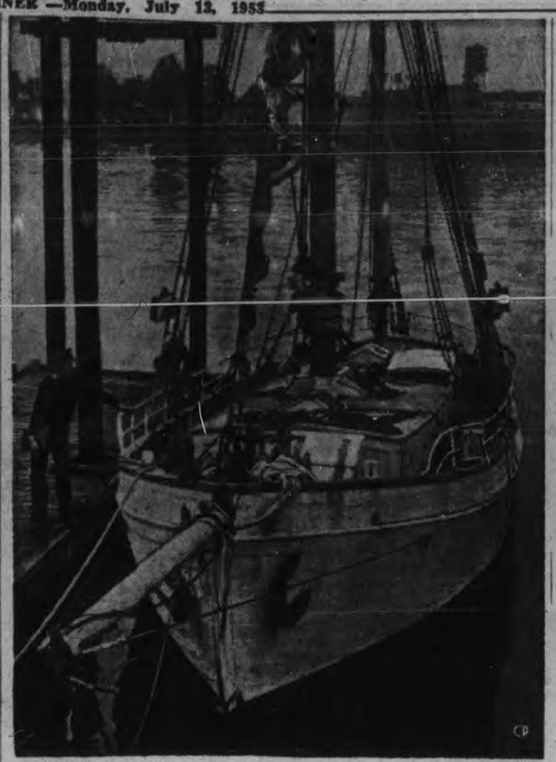
Martin Discusses Cancer Centre Grants

TORONTO (CP)—Health Minister Martin said Saturday that negotiations now are under way for the federal government to make substantial grants to the Ontario Cancer Centre to be opened here shortly.

While Mr. Martin did not announce the amounts set, he did reveal that the federal government will pay 50 per cent of the total cost of the cobalt bombs to be installed.



Ontario Health Minister Phillips charged in the legislature this year that the federal government paid half the cost of the bomb, about $50,000, but left the province to pay the installation costs, about $30,000.

Mr. Martin said in an interview that the federal government had paid all costs of the bomb which has been in use in London for some time and that it would pay 50 per cent of all costs of future bombs.

Heads Lutherans

EDMONTON (CP)—J. E. Bergbuck of Saskatoon Friday was re-elected president of the Evangelical Lutheran Synod of Western Canada.

GETS NEW CAREER—This aged yacht, resurrected from a beach in Norway where it had lain for years half-submerged, arrived in Victoria on its way to Vancouver where it will be used in commercial fishing. The 45-foot, 43-year-old auxiliary ketch made the trip from Norway via the Panama Canal in 10 months. Her skipper is Michael Fitz-James, 28, of Vancouver, shown on the dock.

14 Out Of 30 Fatalities Drownings At Weekend

By THE CANADIAN PRESS

Highway accidents and drownings brought death to 24 of the 30 persons to die violently in Eastern Canada this weekend. Fourteen lost their lives by drowning and 10 on the highways.

A Canadian Press compilation from midnight Friday until early Monday showed 18 fatalities in Ontario, nine in Quebec, two in Nova Scotia and one in New Brunswick.

There was a triple drowning at Shawanaga Lake, 20 miles northeast of Parry Sound, Ont. Roy Cameron Myles, 41, his wife, Marjorie, 37, and their daughter, Vera Eileen, 11, all of Lively, were pitched into the lake when their boat capsized.

Of miscellaneous deaths, Earl Draper, 50, of Toronto bled to death when he fell on a gallon-bottle of cleaning fluid and punctured his abdomen.

Gilbert Lohmes, 10, of Massey, Ont., died in hospital of injuries suffered when he became entangled in moving parts of his father's cement mixer.

OTHER ONTARIO DEATHS

Other deaths in Ontario:

Drownings—Elsie Sparling, 50, Detroit, while swimming near Wasaga Beach; Peter Thomson, 9, Woodstock, when he fell off a raft into a pond; Jack Knight, 17, Paris, who fell off the Penman Dam into the Grand River; Robert James Braun, 21 months, Dorchester, when he fell into a garden pond at his father's home; Robert Roney, 96, Hibbert Township, when he became weak and fell into a creek on his farm; Yvonne Lavoie, 5, Crystal Falls, when he fell into the Sturgeon river.

Traffic—Wiliam A. Stewart, Toronto, when his auto collided with a Canadian National Railways train near Barrie; Mrs. Ellen Franklin, 53, Detroit, when the car in which she was riding crashed into a ditch; Leonard Mongraw, 42, Richvale, hit by a truck near Richmond Hill; Maurice Moore, 7, Thornton, when he ran into the path of a car to retrieve a ball.

Miscellaneous—William J. Hodgins, 38, Guelph, hit by a Canadian National Railways train while walking along the tracks; Pte. Bert McGrath, 19, of the Highland Light Infantry of Canada, when his army truck tipped going down a gravel hill while on manoeuvres near Galt; the 10-month-old baby of Mr. and Mrs. James McMahon, Fort Erie, who was electrocuted when his foot touched a short-circuited wire connected with a floor lamp.
